- 12.1 The main objective of the programme implemented by the United Nations Conference on Trade and Development (UNCTAD) and the International Trade Centre UNCTAD/WTO (ITC) is to assist developing countries, especially least developed countries, and countries with economies in transition to integrate beneficially into the global economy. In all aspects of its work, UNCTAD will help to implement the global development agenda and will assist developing countries in meeting their development goals, including poverty eradication, to improve the welfare of their citizens and to address the opportunities and challenges created by globalization. In particular, in line with the priorities of the Organization, UNCTAD will further enhance its efforts to support the development of Africa across all its sectoral areas of expertise.
- 12.2 To achieve the foregoing objectives, UNCTAD, within its mandate, will: (a) conduct research and analysis on both long-standing and emerging development issues; (b) build consensus around efforts to promote national and international policies and strategies conducive to development; and (c) support countries in implementing their development strategies, helping them to overcome the challenges and seize the opportunities of globalization. In the context of deepening interdependence among all countries, UNCTAD will continue with its unique orientation and commitment to development through these three pillars, while remaining responsive and accountable to all member States.
- 12.3 The programme is guided by the sessions of the Conference, the Trade and Development Board and its subsidiary bodies, and the Commission on Science and Technology for Development. For the period 2010-2011, the programme will further integrate the outcomes of the Accra Accord. UNCTAD is responsible for

subprogrammes 1 to 5 within the programme, while subprogramme 6 is under the responsibility of ITC.

- 12.4 UNCTAD will pursue five subprogrammes to support its objective of helping developing countries integrate beneficially into the international trading system. The principal task of the first subprogramme emanating from the outcomes of the twelfth session of UNCTAD will be the examination of development strategies in a globalizing world economy and interrelated issues. Subprogrammes 2 and 4 will aim to contribute to building productive capacities and international competitiveness, while subprogramme 3 and the trade logistics component of subprogramme 4 will aim to contribute to maximizing gains from globalization for development in international trade and trade negotiations in goods and services. The development strategies of Africa, the least developed countries and countries in special situations, including small island developing States, landlocked developing countries and other structurally weak, vulnerable and small economies, will be covered under subprogramme 5, while sectoral concerns of those countries will also be addressed by other subprogrammes in coordination and cooperation with subprogramme 5.
- 12.5 In order to strengthen the work of UNCTAD in science and technology — a *sine qua non* for development today — and to better draw on synergies with work on information and communications technologies, this area of work is consolidated under subprogramme 4, which will be under the responsibility of the renamed Division on Technology and Logistics. In accordance with paragraph 183 of the Accra Accord, the current Commodities Branch of the Division on International Trade in Goods and Services, and Commodities, will be transformed into an autonomous unit on commodities, with clearly defined resources. With the guidance and leadership of the Secretary-General of UNCTAD, this unit should contribute more effectively to the efforts of developing countries to formulate strategies and policies to respond to the challenges and opportunities of commodity markets.
- 12.6 UNCTAD will, moreover, give special emphasis to the potential for economic cooperation among developing countries. UNCTAD, within its mandate, will address migrants' contribution to development, in accordance with paragraph 95 of the Accra Accord; the potential contribution of migrants' remittances to development, in accordance with paragraph 170 of the Accord; energy-related issues, in accordance with paragraph 98 of the Accord; and climate change, in accordance with paragraph 100 of the Accord.
- 12.7 UNCTAD will strengthen its cross-divisional coordination, in particular with respect to training and capacity-building programmes.
- 12.8 UNCTAD will make contributions, within its mandates, to the implementation of the outcomes of relevant global conferences. Notably, it will contribute to the attainment of the internationally agreed development goals contained in the Millennium Declaration and in the 2005 World Summit Outcome, in particular

those chapters of the World Summit Outcome related to the global partnership for development, financing for development, domestic resource mobilization, investment, debt, trade, commodities, systemic issues and global economic decision-making, economic cooperation among developing countries, sustainable development, science and technology for development, countries with special needs and meeting the special needs of Africa.

- 12.9 UNCTAD will also contribute to the implementation of specific actions requested in the Programme of Action for the Least Developed Countries for the Decade 2001-2010, the Monterrey Consensus of the International Conference on Financing for Development, the outcomes agreed at the World Summit on Sustainable Development, including the Johannesburg Plan of Implementation, the outcomes of the World Summit on the Information Society, including the Declaration of Principles and the Plan of Action, the Almaty Programme of Action: Addressing the Special Needs of Landlocked Developing Countries within a New Global Framework for Transit Transport Cooperation for Landlocked and Transit Developing Countries and the outcomes of the midterm review of the Almaty Programme of Action in 2008 and the Mauritius Strategy for the sustainable development of small island developing States. In addition, it will contribute to furthering the implementation of the internationally agreed goals set out in the Doha Ministerial Declaration and other relevant decisions.
- 12.10 As a lead agency of the United Nations System Chief Executives Board for Coordination for the inter-agency thematic cluster on trade and productive sectors, UNCTAD will enhance the role of trade and development and interrelated issues in United Nations development assistance plans, such as United Nations Development Assistance Frameworks, and national development strategies; undertake joint operations at the country level as appropriate; and enhance inter-agency cooperation in system-wide initiatives in those areas. Through the newly established global network of development think tanks, involving institutions at the country level and regional networks, UNCTAD will focus on enhancing its intellectual contribution and improving the quality of its work through more systematic use of peer reviews and an improved clearance process within the secretariat, while maintaining its intellectual integrity and independence.
- 12.11 The Office of UNCTAD in New York represents UNCTAD interests and promotes its objectives at United Nations Headquarters and with relevant actors based in New York or Washington, D.C., including all United Nations entities, funds and specialized programmes, diplomatic missions and the press corps accredited to the United Nations, and technical assistance agencies in the area of trade, investment, technology and development. It serves as the North American access point for information to the public, universities, media and research centres on the research policy and technical cooperation activities of UNCTAD. The New York Office consists of two Professional staff (1 P-5, 1 P-3) and two General Service staff.

- 12.12 The Working Party on the Medium-term Plan and the Programme Budget reviewed the draft work programme at its forty-eighth session, held from 29 January to 31 January 2009. The recommendations of the Working Party were consistent with the approved strategic framework for the period 2010-2011 and the proposed adjustments on the level of outputs for the programme of work as well as proposed adjustments for the logical framework for executive direction and management have been reflected in the present document.
- 12.13 The issue of publications as part of the programme of work has been reviewed in the context of each subprogramme. It is anticipated that recurrent and non-recurrent publications will be issued as shown in table 12.3 below in summary and as distributed in the output information for each subprogramme.

- 12.14 The overall resources required for the biennium 2010-2011 for this section amount to \$136,414,300 before recosting, reflecting an increase of \$3,319,700 (or 2.5 per cent). The increase can be summarized as follows:
- (a) The increase of \$11,600 under executive direction and management relates to additional consultancy and travel requirements for the preparatory process of UNCTAD XIII;
 - (b) The net increase of \$3,820,800 under programme of work relates to:
 - (i) The net increase of \$1,741,900 under subprogramme 1, mainly due to the full funding of six posts (one D-1, one P-5, two P-4 and two P-3) approved by the General Assembly in its resolution 63/260 in the biennium 2008-2009 for the strengthening of development related activities (\$1,963,100); partly offset by (b) the abolition of one General Service (Other Level) post to rationalize and streamline the post structure through process reengineering (\$220,200);
 - (ii) The net decrease of \$1,161,400 under subprogramme 2, including: (a) a decrease of \$1,658,100 relating to the proposed outward redeployment of six posts (one P-4, one P-3, two P-2/1 and two General Service (Other Level)) to subprogramme 4, Technology and logistics; (b) a decrease of \$220,200 owing to the abolition of one General Service (Other Level) post; (c) a decrease of \$118,100 due to reduced requirements under

consultants and travel, resulting from the transfer of a number of activities on science, technology and innovation to subprogramme 4, Technology and logistics, and from the improved use of in-house printing facilities; partly offset by: (d) an increase of \$835,000 relating to the full funding of two posts (one P-5 and one P-4) approved by the General Assembly in its resolution 63/260 in the biennium 2008-2009 for the strengthening of development related activities;

- (iii) An increase of \$958,100 under subprogramme 3, including: (a) an increase of \$732,300 due to the full funding of two posts (one D-1 and one P-4) approved by the General Assembly in its resolution 63/260 in the biennium 2008-2009 for the strengthening of development related activities; (b) an increase of \$220,200 due to the inward redeployment of one General Service (Other Level) post from subprogramme 4, Technology and logistics; and (c) a net increase of \$5,600 mostly due to additional requirements for expert groups meetings on commodities;
- (iv) An increase of \$1,544,200 under subprogramme 4, including: (a) an increase of \$1,437,900 due to the inward redeployment of five posts (one P-4, one P-3, two P-2/1, and one General Service (Other Level)) from subprogramme 2, Investment and enterprise; and (b) a net increase of \$106,300 mostly due to additional consultancy and travel requirements for activities on science, technology and innovation;
- (v) An increase of \$738,000 under subprogramme 5, including: (a) an increase of \$732,200 resulting from the full funding of two posts (one D-1 and one P-4) approved by the General Assembly in its resolution 63/260 in the biennium 2008-2009 for the strengthening of development related activities; and (b) an increase of \$5,800 relating to additional travel requirements for preparatory process to the Fourth United Nations Conference on the Least Developed Countries;
- (d) The decrease of \$512,700 under programme support, including: (a) the decrease of \$220,200 resulting from the abolition of one General Service (Other Level) post to rationalize and streamline the post structure through process reengineering, optimization of work methods and increased use of information and communication technology; and (b) the decrease of \$292,500 under non-post resources, notably: (i) general temporary assistance consistent with recent expenditure patterns; and (ii) communications as a result of reduced local and international telecommunications rates.

12.15 During the biennium 2010-2011, the projected extrabudgetary resources amounting to \$72,941,000 will complement resources from the regular budget to finance various activities, such as technical advisory services, training, workshops, seminars and field projects. Extrabudgetary resources represents 34.5 per cent of the total resources available to this programme. The decrease of \$609,300 in comparison with the biennium 2008-2009 results mostly from: (a) reduced UNDP

funding for projects on science, technology and innovation under subprogramme 2: and (b) reduced UNFIP project financing under subprogramme 3.

- 12.16 Evaluation is an integral part of the programme cycle and, in this regard, the resources allocated to the programme implementation will be used to some extent to evaluate UNCTAD's major outputs and activities. Pursuant to General Assembly resolution 58/269 of 23 December 2003, resources identified for the conduct of monitoring and evaluation would amount to \$1,395,900, including \$1,004,200 under the regular budget and \$391,700 in extrabudgetary resources. The exact scale of evaluation activities in the biennium 2010-2011 will be determined during the course of the biennium based on the implementation of evaluation plans developed for all substantive subprogrammes. The staff time devoted to self-assessment and self-evaluation under each subprogramme is estimated to be 82 work-months including 71 work-months financed from the regular budget and 11 work-months from extrabudgetary resources.
- 12.17 The estimated percentage distribution of the resources of the programme in the biennium 2010-2011 is as shown in table 12.4. The distribution of resources is summarized in tables 12.5 and 12.6.

A. Policymaking organs

Resource requirements (before recosting): \$564,900

Twelfth session of the United Nations Conference on Trade and Development

- 12.18 In accordance with paragraph 2 of General Assembly resolution 1995 (XIX), the General Assembly determines the dates and location of the sessions of the Conference, taking into account the recommendations of the Conference or of the Trade and Development Board. The twelfth session of the Conference was held at Accra, Ghana in April 2008. The thirteenth session of the Conference is scheduled to take place in Doha in 2012.

Trade and Development Board

- 12.19 The Trade and Development Board was established by General Assembly resolution 1995 (XIX) of 30 December 1964 as a permanent organ of the Conference to carry out the functions of the Conference when it is not in session. The Board reports to the Conference and also to the General Assembly through the Economic and Social Council. The Board meets annually in regular sessions, and

could meet in executive sessions three times annually. The Board is assisted by the Working Party on the Medium-term Plan and the Programme Budget in its oversight of the programme of work, including technical cooperation.

Subsidiary bodies of the Trade and Development Board

- 12.20 Two intergovernmental commissions perform integrated policy work in their respective areas of competence, as explained below, as subsidiary bodies of the Trade and Development Board (see the report of the twelfth session of the United Nations Conference of Trade and Development (TD/442, paragraphs 201-206). The commissions hold annual sessions.
- 12.21 The Trade and Development Commission was established to address the mandate of the previous Commission on Trade in Goods and Services, and Commodities, and will also assume responsibility for transport and trade logistics from the previous Commission on Enterprise, Business Facilitation and Development. It has a standing subsidiary expert body, namely the Intergovernmental Group of Experts on Competition Law and Policy.
- 12.22 The Investment, Enterprise and Development Commission has the mandate of the previous Commission on Investment, Technology and Related Financial Issues, and also assume responsibility for enterprise and ICT issues from the previous Commission on Enterprise, Business Facilitation and Development. In accordance with General Assembly resolution 49/130 of 19 December 1994, the Commission is assisted by 16 expert advisers, serving in their individual capacity and selected from both developed and developing countries. The Commission has a standing subsidiary expert body, namely the Intergovernmental Group of Experts on International Standards of Accounting and Reporting.
- 12.23 At the twelfth session of the Conference, it was further decided that expert meetings would continue to be held under the auspices of the commissions in order to benefit from a higher level of technical expertise (TD/442, para. 207). The total number of such meetings, including the sessions of the two standing expert bodies of the Commissions, would not exceed 10 per annum. Technical matters discussed at the meetings are reported to the parent commission.

Commission on Science and Technology for Development

- 12.24 Established by the General Assembly in its resolution 46/235 of 13 April 1992, the intergovernmental Commission on Science and Technology for Development provides overall direction to the related programme of work. The Commission is composed of 43 members and, pursuant to Economic and Social Council resolution 2002/37 of 26 July 2002, meets on an annual basis and reports to the Council. In accordance with Council resolution 1993/75 of 30 July 1993, the Commission receives specialized and technical advice from ad hoc panels and workshops that

meet between sessions of the Commission to examine specific issues on science and technology for development. The UNCTAD secretariat provides substantive support to the Commission.

- 12.25 The amount of \$564,900 is comprised of the following requirements: (a) \$104,900 for preparatory work and for servicing preparatory meetings of the thirteenth session of the Conference reflecting: (i) \$30,800 for other staff costs; (ii) \$49,300 for travel of staff to various forums/preparatory meetings as part of the preparatory processes relating to the thirteenth session of the Conference; and (iii) \$24,800 for general operating expenses; (b) \$122,900 for the travel and daily subsistence allowance of the 16 experts serving in their individual capacity on the Investment, Enterprise and Development Commission; and (c) \$337,100 for the travel of 43 representatives participating in the work of the Commission on Science and Technology for Development and the travel and daily subsistence allowance for the experts taking part in intersessional ad hoc panel of experts.

B. Executive direction and management

Resource requirements (before recosting): \$5,998,700

- 12.26 The Secretary-General of UNCTAD provides overall direction on substantive and managerial matters, and ensures the effective servicing of the intergovernmental machinery of UNCTAD, in particular the quadrennial sessions of the Conference and sessions of the Trade and Development Board. The Deputy Secretary-General deputizes for the Secretary-General, and oversees the operations of the secretariat regarding the strategic, programmatic and managerial aspects. The Office of the Secretary-General assists the Secretary-General and the Deputy Secretary-General in discharging their above-mentioned responsibilities.
- 12.27 UNCTAD conducts annually a self-assessment of all of its subprogrammes, including by measuring the performance against the indicators of achievements as

provided in the Strategic Framework, and identifying and reviewing main results achieved by its subprogrammes. The outcomes of this exercise, in addition to being transmitted to Headquarters for the biennial reporting to the General Assembly, are incorporated into the "results-oriented" Annual Report of UNCTAD and submitted for a programme performance review by the Trade and Development Board, in accordance with paragraph 9 of the São Paulo Consensus (TD/410).

Table 12.8 **Objectives for the biennium, expected accomplishments, indicators of achievement and performance measures**

Objective of the Organization: To enable UNCTAD to be of further service to its member States and to ensure full implementation of the legislative mandates and compliance with United Nations policies and procedures with respect to the management of the programme of work and of staff and financial resources.

- 12.39 The amount of \$24,855,100, reflecting a decrease of \$1,043,300, provides for 79 posts, including 56 Professional and above and 23 General Service posts to carry out UNCTAD programme of work on issues pertaining to investment and enterprise in order to design and implement active policies at both the national and international levels aimed at boosting productive capacities and international competitiveness of developing countries that comprises research and analysis in the area of foreign direct investment (FDI); development impact of transnational corporations (TNCs) and policies in this regard; preparation of the annual World Investment Report (WIR) and other publications; conducting Investment Policy Reviews (IPRs); analyzing development dimension of International Investment Arrangements (IIAs); international competitiveness of enterprises, implementation of the capacity-building enterprise and Empretec programmes; support to the intergovernmental bodies and processes entrusted with the investment, development and enterprise matters; and technical assistance, advisory and training services in areas within the subprogramme's purview. The net decrease of \$1,043,300 results from: (a) a decrease of \$1,658,100 due to the proposed outward redeployment of six posts (one P-4, one P-3, two P-2/1 and two General Service (Other Level)) to subprogramme 4, Technology and logistics, with a view to create a unified and more effective structure on science, technology and innovation issues in UNCTAD in order to better meet the needs of Member States in that area; (b) a decrease of \$220,200 due to the abolition of one General Service (Other Level) post to rationalize and streamline the post structure through process reengineering; partly offset by (c) an increase of \$835,000 relating to the full funding of two posts (one P-5 and one P-4) approved by the General Assembly in its resolution 63/260 in the biennium 2008-2009 for the strengthening of development related activities. The amount of \$1,013,800 for non-post requirements, reflecting a decrease of \$118,100, provides for: (a) consultants; (b) experts groups; (c) travel of staff; and (d) contractual services. The decrease of \$118,100 is due to decreased requirements under consultants and travel, resulting from the transfer of a number of activities

on science, technology and innovation to subprogramme 4, Technology and logistics, and also from improved use of UNOG in-house printing facilities for printing UNCTAD's publications.

- 12.40 During the biennium 2010-2011, projected extrabudgetary resources of \$9,083,700 will be used, inter alia, for: (a) research and policy analysis on foreign direct investment issues for the publications, brochures and materials of the subprogramme, such as the World Investment Reports and least developed countries investment guides; (b) advisory services and training courses, inter alia, to support investment policies, treaties and facilitation, to strengthen the capacity of Governments of least developed countries and countries with economies in transition to enhancing foreign direct investments and utilizing it to support national development goals and to assist in the area of corporate transparency and accounting, foreign direct investment statistics, international investment agreements and the transfer of and access to technology and intellectual property; (c) field projects related to UNCTAD capacity-building programmes to promote the development of small and medium-sized enterprises, EMPRETEC; and (d) to improve corporate responsibility and governance. The decrease of \$338,600 is mostly due to reduced UNDP funding for projects on science, technology and innovation.

Subprogramme 3

International trade

Resource requirements (before recosting): \$28,578,200

- 12.41 Substantive responsibility for this subprogramme is vested within the Division on International Trade in Goods and Services, and Commodities. The programme of work will be implemented in accordance with the strategy detailed under subprogramme 3 of programme 10 of the strategic framework for the period 2010-2011 (A/63/6/Rev.1).
- 12.42 Within this subprogramme, the Special Unit on Commodities implements its work as an autonomous unit on commodities, in accordance with paragraph 183 of the Accra Accord. This unit, through the guidance and leadership of the Secretary-General of UNCTAD, will contribute more effectively to the efforts of developing countries, especially least developed countries, to formulate strategies and policies to respond to the challenges and opportunities of commodity markets.

Table 12.13 **Objectives for the biennium, expected accomplishments, indicators of achievement and performance measures**

Objective of the Organization: To ensure the effective, qualitative and beneficial participation of all countries, in particular developing countries, with enhanced work on the special problems of Africa, the least developed countries, landlocked developing countries, small island developing States and other structurally weak, vulnerable and small economies, in international trade and the trading system and to strengthen the contribution of the commodity economy to development in order to make trade a positive force for all.

Expected accomplishments of the Secretariat	Indicators of achievement
<p>(a) Strengthened capacity of developing countries and countries with economies in transition to integrate beneficially into the global economy and the international trading system, including trade in services, and to design and implement trade policies and participate effectively and coherently in bilateral, regional (including South-South) and multilateral trade negotiations, placing greater emphasis on practical solutions (Accra Accord, paras. 89, 90, 94, 95, 97 and 105-107).</p>	<p>(a) (i) Number of countries increasing their participation in trade negotiations through the submission of trade negotiating proposals in bilateral, regional and multilateral trade negotiations, including South-South trade negotiations and World Trade Organization accession processes, and the number of countries with which UNCTAD has worked that have built relevant institutional and human resources capacities.</p> <p><i>Performance measures:</i></p> <p>2006-2007: 35 countries</p> <p>Estimate 2008-2009: 38 countries</p> <p>Target 2010-2011: 40 countries</p> <p>(ii) Number and percentage of developing countries that have benefited from UNCTAD assistance recording improved performance based on benchmark indicators;</p> <p><i>Performance measures:</i></p> <p><i>(measured by number of countries)</i></p> <p>2006-2007: 10</p> <p>Estimate 2008-2009: 13</p> <p>Target 2010-2011: 15</p> <p><i>Performance measures:</i></p> <p><i>(measured by percentage)</i></p> <p>2006-2007: 10</p> <p>Estimate 2008-2009: 13</p> <p>Target 2010-2011: 15</p>

(b) Further improve and disseminate analytical tools, such as the Trade and Development Index, and databases and software, such as the Trade Analysis and Information System (TRAINS) or the World Integrated Trade Solution (WITS), contributing to trade and trade-related decision-making, including in addressing the trade and development impact of non-tariff barriers. (Accra Accord, paras. 96 and 97).

(c) Improved capacity of commodity-dependent developing countries to harness development gains from the current boom in commodity prices and enhanced international cooperation within the mandate of UNCTAD to address trade and development problems associated with the commodity economy, including the food crisis and poverty reduction (Accra Accord, paras. 91-93, 98 and 183)

(b) (i) Number of active users of TRAINS, either through the Internet or WITS, and of the Agriculture Trade Policy Simulation Model, Non-tariff Measures, Dynamic Sector Database.

- 12.45 The amount of \$27,868,200, reflecting an increase of \$952,500, provides for 88 posts, including 61 Professional and above and 27 General Service posts to carry out UNCTAD programme of work on various issues pertaining to international trade and commodities, including research, analysis and policy advice; substantive support to intergovernmental bodies and processes; technical assistance, advisory and training services in subject areas within the subprogramme's purview. The net increase of \$952,500 results from: (a) the full funding of two posts (one D-1 and one P-4) approved by the General Assembly in its resolution 63/260 in the biennium 2008-2009 for the strengthening of development related activities (\$732,300); and (b) proposed inward redeployment of one General Service (Other Level) post from subprogramme 4, Technology and logistics, to provide enhanced support to the Trade Analysis Branch, in particular for the work on creative economy industries (\$220,200). The amount of \$710,000 for non post requirements, reflecting an increase of \$5,600, provides for: (a) consultants; (b) expert groups; (c) travel of staff; and (d) contractual services. The increase of \$5,600 is mostly due to additional requirements for expert group meetings on commodities.
- 12.46 During the biennium 2010-2011, projected extrabudgetary resources of \$14,290,500 will provide, inter alia, for: (a) strengthening capacity of developing countries and countries with economies in transition: (i) to design and implement trade policies and participate effectively and coherently in bilateral, regional (including South-South) and multilateral trade negotiations; (ii) to prepare and implement national and regional (including South-South) competition laws and frameworks, and supporting enhanced international cooperation in this field in combating anti-competitive practices; (iii) to formulate and implement mutually supportive trade, environment and sustainable development objectives and to integrate sustainable development objectives in development strategies at all levels; and (b) further improving and disseminating trade analysis and analytical tools, databases and software that contribute to effective trade and trade-related decision making. The decrease of \$239,100 results from reduced UNFIP project financing.

Subprogramme 4
Technology and logistics

Resource requirements (before recosting): \$17,191,300

- 12.47 Substantive responsibility for this subprogramme is vested within the Division on Technology and Logistics. The programme of work will be implemented in accordance with the strategy detailed under subprogramme 4 of programme 10 of the strategic framework for the period 2010-2011 (A/63/6/Rev.1).

- 12.50 The amount of \$16,763,800, reflecting an increase of \$1,437,900, provides for 54 posts, including 37 Professional and above and 17 General Service posts to carry out UNCTAD programme of work on various issues pertaining to trade logistics, science, technology and ICT for development, training and capacity building, including research, analysis and policy advice; substantive support to intergovernmental bodies and processes; technical assistance, advisory and training services in the subject areas within the subprogramme's purview. The net increase of \$1,437,900 results from: (a) proposed inward redeployment of five posts (one P-4, one P-3, two P-2/1, and one General Service (Other Level)) from subprogramme 2, Investment and enterprise, with a view to creating a unified and more effective structure on science, technology and innovation issues in UNCTAD in order to better meet the needs of Member States in that area. The amount of \$427,500 for non-post requirements, reflecting an increase of \$106,300, provides for: (a) consultants; (b) expert groups; (c) travel of staff; and (d) contractual services. The increase of \$106,300 is mostly due to additional consultancy and travel requirements for activities on science, technology and innovation.

- 12.51 During the biennium 2010-2011, projected extrabudgetary resources of \$27,802,200 will provide, inter alia, for: (a) advisory services and training courses on policies and practical aspects of information and communications technology (ICT) for development and the measuring of the information economy, including through the Partnership on Measuring ICT for Development; (b) advisory services, training and field projects concerning science, technology and innovation policy reviews; (c) supporting the implementation of the project in participating countries, to enhance the teaching and research capacity of university members of the Virtual Institute; (d) supporting training and capacity building in the area of human capacity development, including training of trainers and tutors, and backstopping of national/regional projects; (e) assisting in modernization of transport legislation and building national capacity to resolve difficulties and thus make trade-supporting services, such as customs and transport more efficient; and (f) finalizing migration of existing users to the new version of ASYCUDA and to prepare for the installation of the latest system ASYCUDAWorld in new countries as well as in existing user countries.

Subprogramme 5

Africa, Least developed countries and special programmes

Resources Requirements (before recosting): \$9,211,700

- 12.52 Substantive responsibility for this subprogramme is vested within the Division for Africa, Least Developed Countries, and Special Programmes. The programme of work will be implemented in accordance with the strategy detailed under subprogramme 5 of programme 10 of the strategic framework for the period 2010-2011 (A/63/6/Rev.1).

Table 12.17 **Objectives for the biennium, expected accomplishments, indicators of achievement and performance measures**

Objective of the Organization: To promote economic development and poverty reduction in Africa, the least developed countries and other groups of countries in special situations (landlocked developing countries, small island developing States and other structurally weak, vulnerable and small economies), and their progressive and beneficial integration into the global economy, in particular through national policies and international support measures which build productive capacities, including by assisting them in integrating trade into the United Nations Development Assistance Frameworks. UNCTAD will also contribute, within its mandate, to the implementation and follow-up to the outcomes of relevant global conferences and to the achievement of internationally agreed development goals, including those contained in the Programme of Action for the Least Developed Countries for the Decade 2001-2010. In order to identify policy options at the national and international levels on the use of trade as a more effective tool for poverty eradication, UNCTAD will undertake research activities on the interlinkages between trade and poverty and training and capacity-building programmes for local institutions.

12.55 The amount of \$8,754,100, reflecting an increase of \$732,200, provides for 26 posts, including 18 Professional and above and eight General Service posts to carry out UNCTAD programme of work on various cross-sectoral issues pertaining to development of Africa, least-developed countries, landlocked and transit developing countries, small island developing countries, and structurally weak, vulnerable and small economies, including research, analysis and policy advice; preparation of two annual reports - the Least Developed Countries Report and the Development of Africa Report; substantive support to intergovernmental bodies and processes; supporting the New Partnership for Africa's Development (NEPAD) in the area of UNCTAD's expertise; implementation of the Almaty Programme of Action in favour of Landlocked Least Developed Countries and the Mauritius Programme of Action in favour of Small Island Developing Countries; technical assistance, advisory and training services in subject areas within the subprogramme's purview. The increase of \$732,200 results from the full funding of two posts (one D-1 and one P-4) approved by the General Assembly in its resolution 63/260 in the biennium 2008-2009 for the strengthening of development

related activities. The amount of \$457,600 for non-post requirements, reflecting an increase of \$5,800 provides for: (a) consultants; (b) expert groups; and (c) travel of staff. The increase of \$5,800 relates to additional travel requirements for the preparatory process to the Fourth United Nations Conference on the Least Developed Countries

- 12.56 During the biennium 2010-2011, projected extrabudgetary resources of \$2,601,000 will be used, inter alia, for: (a) developing and delivering training material and training workshops to contribute towards building national capacities for the ownership of national development strategies for least developed countries, land-locked developing countries, transit developing countries, small island developing states, and small, weak vulnerable economies; (b) seminars and workshops in selected least developed countries for the implementation of the activities in the Enhanced Integrated Framework for Trade-Related Technical Assistance to Least Developed Countries and Aid for Trade; and (c) developing teaching materials and policy brief.

D. Programme Support

Resources Requirements (before recosting): \$28,702,800

- 12.57 Programme support services are provided to the policymaking organs, executive direction and management and substantive subprogrammes to assist them in delivering their programmed outputs. The services are organized around four entities, namely, the Resources Management Service, the Intergovernmental Affairs and Outreach Service, the Technical Cooperation Service, and the Evaluation and Planning Unit, as part of the Division of Management.
- 12.58 The Resources Management Service provides the support services for personnel, budgetary and financial administration, resource planning and budgeting, and administration of technical cooperation activities, as well as providing information technology support, including data-processing services, development and maintenance of information technology systems, and support services to computer networks.
- 12.59 The Intergovernmental Affairs and Outreach Service comprises the Communications, Information and Outreach Unit, and the Intergovernmental Support Service. The Communications, Information and Outreach Unit provides enhanced and effective communications, information, web management and civil society outreach. The Intergovernmental Support Service is responsible for the preparation, management and servicing of the quadrennial sessions of the United Nations Conference on Trade and Development, the sessions of the Trade and Development Board and its subsidiary machinery (commissions, expert meetings, Working Party on the Strategic Framework and the Programme Budget) and the

United Nations conferences organized under the auspices of UNCTAD. The Service provides liaison support and services to regional groups, and is responsible for monitoring the institutional follow-up to the decisions of the intergovernmental machinery, preparation of the calendar of meetings, editing and report writing, protocol support and preparation of host country agreements.

Total	37 337.1	36 814.4	96	95

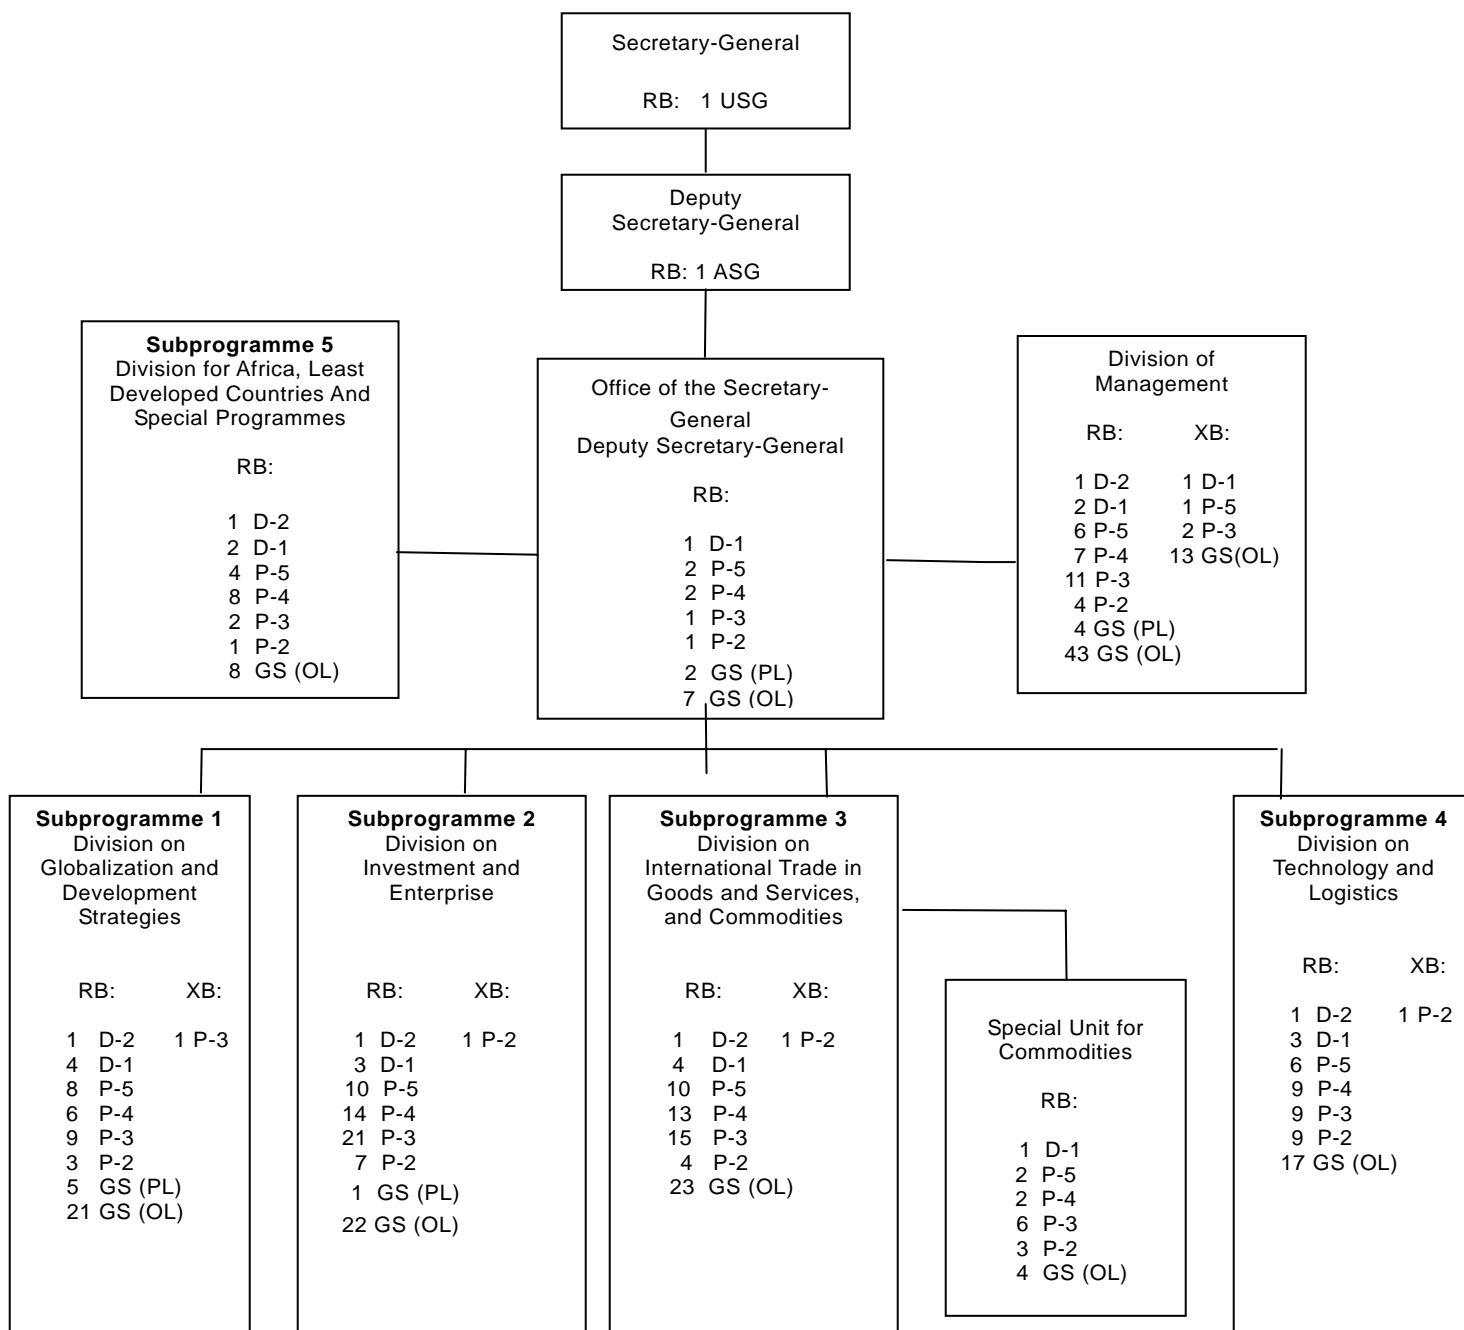

12.63 The amount of \$21,647,100, reflecting a decrease of \$220,200, provides for 78 posts, including 31 Professional and above and 47 General Service posts to support the implementation of UNCTAD programme of work and the discharge of the responsibilities in the areas of personnel, finance, budget, general administration, information technology, servicing of the intergovernmental process, and communications and outreach, along with administrative and programme support for the implementation of the operational activities of UNCTAD, including the Development Account projects, Regular Programme of Technical Cooperation, and extra-budgetary technical cooperation projects. The decrease of \$220,200 results from the abolition of one General Service (Other Level) post to rationalize and streamline the post structure through process reengineering, optimization of methods of work and increased use of information and communication technology. The amount of \$7,055,700 for non-post requirements, reflecting a decrease of \$292,500 provides largely for: (a) general temporary assistance; (b) consultants and experts; (c) travel of staff; (d) contractual services/data processing services; and (e) general operating expenses and other operating requirements. The decrease of \$292,500 relates mainly to reduced requirements under: (a) general temporary assistance, consistent with recent expenditure patterns on temporary needs during periods of peak workload and on staff replacement on sick or other prolonged leave; and (b) under communications as a result of reduced local and international telecommunications rates.

- 12.69 During the biennium 2010-2011, projected extrabudgetary resources of \$8,111,600 will be used for support services to extrabudgetary activities carried out under the programme of work.

Advisory Committee on Administrative and Budgetary Questions	
First report on the proposed programme budget for the biennium 2008-2009 (A/62/7)	
<p>The role of UNCTAD is centred on building consensus on Africa's development challenges at the global level and to assist in the mobilization of international support measures in favour of African countries. The work of ECA focuses on regional perspectives, especially on the analysis of socio-economic trends and political developments in the continent. However, UNCTAD and ECA staff cooperate closely and exchange information on a regular basis. The Committee also recommends that the Secretary-General be requested to examine the efficiency and effectiveness of ongoing cooperation between these two entities and to report thereon in the context of the proposed programme budget for the biennium 2010-2011. (Para. 59)</p>	<p>The UNCTAD sub-programme on Africa was established following the decision of UNCTAD X in Bangkok and the General Assembly resolution 54/249 (para.100). UNCTAD and ECA cooperate closely in their work on Africa but their approach is distinctively different. The work of UNCTAD on Africa responds to the mandates entrusted to it by the General Assembly and the UNCTAD Conferences in the areas of trade, finance, investment and technology from the perspective of African countries, while the work of ECA focuses more on regional perspectives.</p> <p>Cooperation between UNCTAD and ECA evolves around the involvement of the staff of the two institutions in the work in favour of African countries. For example, UNCTAD regularly participates in ECA's Conference of Ministers, both in the debates at the Experts' level and the conference itself. UNCTAD is also involved in ECA's work on NEPAD, particularly in the context of the Cluster system. With regard to information sharing between the two entities, the ECA's Economic Report on Africa provides comprehensive information on socio-economic trends in -Africa, which is difficult to find elsewhere. This report serves as a reference material in research and policy analysis work of UNCTAD on Africa.</p>
