3. As decided by the Commission on Trade in Goods and services, and Commodities, at its third session (28 September - 2 October 1998), this Expert Meeting is convened to examine the impact of changing supply-and-demand market structures on commodity prices and exports of major interest to developing countries. It is proposed that the Meeting consider three essential aspects of this overall agenda topic:

- (a) A review of the main changes in market structures, both on the supply and on the demand side, over the past decade or two, and underlying factors;
- (b) An assessment of the impact of these changes on price formation for commodities, developing countries' income from commodity exports and the evolution of the commodity crisis; and
- (ci) An examination of national and international policy actions which could mitigate the negative effects that changing market structures may have on developing countries and countries in transition.

4. As a background to its discussions, the Expert Meeting will have available to it a report by the UNCTAD secretariat (TD/B/COM.1/EM.10/2) on the impact of changing supply-and-demand market structures on commodity prices and exports of major interest to developing countries. The Meeting will also have available to it a number of background papers prepared by invited experts. These papers will be distributed in their original language at the Meeting.
