Item 3: Transparency and disclosure requirements for corporate governance

3. In accordance with the Bangkok Plan of Action (TD/390), the Group conducted preliminary deliberations on corporate governance at its eighteenth session. It reviewed existing corporate governance practices, and country, company and regional codes and principles. This was followed by discussions on how the Group could contribute to the improvement of corporate governance practices in member States and on how it could assist particularly developing countries and countries with economies in transition identify and implement best corporate governance practices and improve transparency, financial disclosure and accountability. It placed corporate governance on its provisional agenda for the nineteenth session. A number of suggestions were made regarding the future work of ISAR in this area. However, due to time constraints, the eighteenth session was not able to lay out in detail a particular topic in the area of corporate governance. The Group requested the UNCTAD secretariat to present possible topics for final approval by the Commission on Investment, Technology and Related Financial Issues.

4. After the eighteenth session, the secretariat followed up with a number of experts and sought their input in identifying specific topics. On the basis of the views and comments expressed in the course of the discussions, there was broad consensus on focusing ISAR's work on transparency and disclosure requirements for corporate governance, with a view to developing guidelines. This topic was presented to the sixth session of the Commission on Investment, Technology and Related Financial Issues. The Commission approved the topic for further work, as well as the secretariat's request to call on an informal consultative group of experts to work on the topic and prepare a background document for consideration at

ISAR's nineteenth session. Accordingly, an ad hoc group of experts was formed. It conducted discussions via electronic mail and at a two-day meeting held in Geneva on 22–23 April 2002. The ad hoc group has concluded its discussions and prepared a background document. This document will be discussed under agenda item 3.

The session also requested the ad hoc group to further elaborate the guidance suggested for level III entities, to indicate the extent of disclosure required for level II, to finalize the draft pro-forma example of condensed standards for level II entities and to demonstrate the consistency between the international conceptual framework and the proposed approach for accounting by SMEs. During the inter-session period, the ad hoc group conducted consultations via electronic mail and at a meeting held in Geneva on 24–25 April 2002 and worked towards meeting the requests of the eighteenth session.
