

Corrigendum

The December 2006 issue of this journal published an article by Axèle Giroud and Hafiz Mirza, entitled "Factors determining supply linkages between transnational corporations and local suppliers in ASEAN" (vol. 15, no. 3, pp. 1-32). However, one table and the appendix were omitted in error. We apologize for this omission. This article should have the following table on page 20:

Notes: Significance levels: *** $p < 0.01$, ** $p < 0.05$, * $p < 0.1$, all two-tailed tests. Values for the independent variables are standardized beta coefficients. The intercept was insignificant in all models. All models were re-run without the intercept, the results in terms of significance levels remained similar to those presented in the models above.

This article should have the following tables on page 34 as an appendix:
