Year of establishment:

2003

Geographical coverage:

International

Activities and objectives:

The majority of LDCs have an abundant labor pool, but new skill sets are required to meet a globalized economy that is dependent on new technologies. FTC plans to provide the required skill sets through a combination of activities within its proposed technology skill centers: practical training, technical assistance, job experience, overseas visits, mentors and tutors from industry. FTC builds productive capacity through output of trained and skilled workers from the technology skill centers.
