TRADE AND DEVELOPMENT BOARD
Working Party on the Medium-term Plan
and the Programme Budget
Thirtieth session (second part)
Geneva, 8 December 1997

TECHNICAL COOPERATION

1998-2000 plan for technical cooperation

Note by the UNCTAD secretariat

1. UNCTAD IX, in paragraph 96 of "A Partnership for Growth and Development" (TD/378), invited the Board to consider annually "an indicative rolling three-year plan for technical cooperation".
2. The Trade and Development Board, at its forty-fourth session, in October 1997, requested the secretariat "to prepare the rolling-three year technical cooperation plan for 1998-2000 for consideration by the Working Party at the second part of its thirtieth session in December 1997 and thereafter by the Trade and Development Board at its first executive session in 1998, with a view to rationalizing the technical cooperation plan" (decision 444(XLIV)).
3. UNCTAD's Technical Cooperation Plan for 1998-2000 has two parts: part I presents the summary tables while part II contains the working sheets on which the summary tables are based.
4. The Plan is intended to implement the Technical Cooperation Strategy of UNCTAD adopted by the Board at its fifteenth executive session in June 1997. ¹
It is intended to:

¹ In March 1997, at its fourteenth executive session, the Board took note of the Plan for the period 1997-1999.

- (a) Inform delegations, cooperating organizations and other interested parties of the operational activities UNCTAD has undertaken in 1997 and those which have been approved for 1998 and subsequent years as well as those which the secretariat is proposing for the period 1998-2000;
- (b) Facilitate discussions with potential donors on the mobilization of the necessary extrabudgetary resources to implement the plan; and
- (c) Serve as the secretariat's monitoring tool.

5. The information is divided into:

- (a) Actual expenditures incurred in 1997, as of 31 October 1997;
- (b) Approved/ongoing activities for which projects are being implemented in accordance with project documents agreed with donor(s); and
- (c) New or proposed activities. Inclusion of such proposals in the Plan is based on one or more of the following considerations:
 - (i) An explicit request from a developing country or country in transition and accepted by the secretariat subject to the mobilization of the necessary funds; or
 - (ii) Implementation of action requested by UNCTAD IX, the Board or a Commission; or
 - (iii) Implementation of the work programme set out in the programme narrative for the revised UNCTAD programme budget for 1997-1998.

6. Since part of the Plan is contingent on the mobilization of additional resources, it follows that by no means all of the new proposals will in fact be carried out. In addition, new requests will be received and existing proposals may be modified, thereby necessitating constant modifications to the Plan.

I. SUMMARY TABLES

7. The figures in the column "1997 expenditures" reflect expenditures as of 31 October 1997. The second column "1998-2000" is divided into "approved" and "proposed". Funds in the "approved" column reflect approved projects to be disbursed within the period 1998-2000. Funds in the "proposed" column reflect estimates of expenditures which could be implemented should funding become available. All figures are exclusive of support costs.

Table 1 presents the data by Divisions. The budget of approved projects for 1998-2000 amounts to \$32.5 million, which may be expected to lead to an overall delivery, on an annual basis, in the range of \$26-27 million.²

Table 2 presents the same data by region;

Table 3 shows the activities directed to the least developed countries.

II. WORKING SHEETS

8. This document contains the working sheets which present projects or project groups (e.g. ASYCUDA) by Division and by Branch/Section within each Division. Figures under the column "proposed" reflect estimates of expenditure over the period 1998-2000.

9. The project numbers, and information on donors appearing in the working sheets, refer to approved projects only. Whenever the same activities are proposed for continuation, project numbers may differ.

10. The subject matter of the projects is in line with the contents of "A Partnership for Growth and Development" and in particular with the areas of focus mentioned in paragraph 97 thereof. These areas of focus, which correspond to the four work programme areas of the secretariat, are recalled in the respective working sheets of the Division concerned.

11. The about to be approved joint UNDP/UNCTAD programme on "Globalization, Liberalization and Sustainable Human Development" is not included in the working sheets. The programme is designed to enhance the ability of low-income countries to accede to the benefits of globalization for the pursuit of sustainable human development. UNDP resources will amount to about US\$ 2.5 million over the three-year period 1998-2000. The programme will be attached to the Office of the Deputy Secretary-General of UNCTAD and will involve close cooperation with all parts of the secretariat.

12. The data for Least Developed Countries do not include activities to be carried out by UNCTAD as follow-up to the Integrated Framework launched at the recent High Level Meeting on Integrated Initiative for LDC's Trade Development.

13. Activities included in the Column "1998-2000 proposed" reflect the consideration set out in paragraph 5(c) above. The estimated amount of such proposals total about \$123 million. Not all of such proposals will come to fruition, since many of the projects have to be designed and agreed between the beneficiary, the donor and the UNCTAD secretariat. Of those that do materialize, not all of the proposed budget will be spent in the period 1998-2000, since actual delivery will depend on the starting date of each project.

² Expenditures for 1997 exclude projects terminating this year .

[5]	Share of LDCs in UNCTAD's technical cooperation, i.e. [3]/[4]	32%	19%	37%

a/ See paragraph 12 of the cover note.

b/ Secretariat estimate. This calculation was reached as follows: actual expenditures on inter-country projects concerning exclusively LDCs; plus for all other inter-country projects, 30% of interregional project expenditures; 60% of project expenditures in Africa; 20% of project expenditures in Asia and the Pacific; 0% of project expenditures in Latin America and the Caribbean; and 0% of project expenditures in Europe.

Division on Globalization and Development Strategies

1. Extract from paragraph 97 of "A Partnership for Growth and Development".

"UNCTAD's technical cooperation should be determined by its work programme priorities and should focus on the following areas:

- (i) Globalization and development:
 - Assistance in examining specific development challenges regarding effective participation in international trade and investment;
 - Providing continued support for debt management.

		1997	1998-2000	
		<u>Expenditures</u>	<u>Approved</u>	<u>Proposed</u>
		(as at 31.10.97)		
I.	Division on Globalization and Development Strategies			
A.	<u>Activities related to Macro-economic and Development Policies:</u>			
1	<i>Technical support to the inter-government group of twenty-four on international monetary affairs: the projects aim at strengthening the G-24 in its efforts to build the necessary capacity of developing countries for making meaningful contributions to the design of the international monetary and financial system and strengthening their ability to cope with the consequences of interdependence. (INT/89/A15, G-24 countries); (INT/91/A21, Netherlands); (INT/96/A61, Canada/IDRC); (INT/93/A30, Denmark).</i>	155	300	600
2	<i>International Conference on Economic Development and Regional Dynamics in Africa: Lessons from the East Africa Development Experience (RAF/97/A28, Japan). The Conference is to provide senior officials from Governments and relevant international organizations with an opportunity to reflect on the relevance of the East Asian development experience and to identify action-oriented development strategies for Africa, promote investment and exports, and stimulate regional dynamics, particularly in Southern Africa. The project involves pre-conference preparation and post-conference follow-up.</i>		235	
3	<i><u>Proposed project:</u> Macro-economic policies, income distribution and poverty</i>			280
B	<u>Globalization, Development and Debt Management</u>			
(i)	<u>Globalization, Finance and Sustainable Development</u>			
1	<i>Mauritius - Support to Capacity Building for Economic and Social Development (MAR/93/005, UNDP)</i>	89	31	200
	<i>This project encompasses advice on the Competition Law and Policy (DITC) and on Financial Strategies (GDS). The latter will include training on financial risk management as follow-up to a report prepared for the Ministry of Finance on debt and financial strategies.</i>			

		1997	1998-2000	
		<u>Expenditures</u>	<u>Approved</u>	<u>Proposed</u>
		(as at 31.10.97)		
<u>Division on Globalization and Development Strategies (cont'd)</u>				
2	<i>Development of a pilot scheme for trading GHG emissions (INT/91/A29, Norway, USA). The project seeks to encourage a better understanding of the role and benefits of market based instruments in achieving cost-effective greenhouse gas emissions abatement.</i>	131	114	
3	<u>Proposed project:</u> <i>Support to the GHG emission trading policy forum</i>			100
4	<u>Proposed project:</u> <i>Cooperative implementation of commitments under the UN Framework Convention on Climate Change, risks and opportunities for developing countries (Joint implementation and emissions trading)</i>			900
5	<u>Proposed project:</u> <i>Enhancing the capacity of LDCs to attract foreign investment through venture capital funds (follow-up to Pilot seminar, held in 1997, INT/97/A12, Norway). The purpose is to build the capacity of LDCs to attract risk capital through venture capital funds and to organize regional seminars to allow foreign investors to be acquainted with investment opportunities in LDCs</i>	75		330
6	<u>Proposed project:</u> <i>Building and strengthening trade financing facilities in developing countries for effective participation in global trade.</i>			150
7	<i>Feasibility of creating private risk capital funds in tourism, agro-industries and infrastructure in LDCs (INT/97/A12, Norway) The purpose is to explore investment opportunities in the sectors of tourism, agro-industries and infrastructure in LDCs and the feasibility of attracting funds for investment in these sectors; the preliminary results were presented at the Pilot Seminar on Foreign Investment in LDCs in June 1997. A publication on these investment opportunities will be shortly sent to potential investors.</i>		60	
8	<u>Proposed project:</u> <i>Joint UNCTAD/ECA project: capacity building on capital markets in Africa</i>			3,500

		1997	1998-2000	
		<u>Expenditures</u>	<u>Approved</u>	<u>Proposed</u>
		(as at 31.10.97)		
<u>Division on Globalization and Development Strategies (cont'd)</u>				
9	<u>Proposed project:</u> <i>Capacity building on capital market development in developing countries and countries in transition</i> (requests received from a number of countries such as China, Cuba, Viet Nam)			300
10	<u>Proposed project:</u> <i>Regional cooperation on capital market development in the member countries of the Andean Development Corporation</i> (Joint UNCTAD/ADC project)			300
11	<u>Proposed project:</u> <i>Guidelines on negotiations on BOT projects: country case studies and training</i>			100
(ii)	<u>DMFAS Programme</u>			
	The objectives of the Programme are to assist developing countries and countries in transition to develop appropriate administrative, institutional and legal structures for effective debt management; to establish an adequate information system, with detailed and aggregated data on loan contracts, past and future disbursements, and past and future debt service payments; to improve national capacity to define and select appropriate debt strategies; and to improve national capacity to record grants and projects financed through external resources, thereby contributing to aid management.			
(a)	<u>AFRICA</u>			
1	<u>Continuation/Completion:</u> Central African Republic (CAF/95/A42, World Bank); Ethiopia (ETH/88/009, UNDP); Mauritania (INT/95/A11, Switzerland); Guinea Bissau (INT/95/A11, Switzerland), Senegal (INT/95/A11, Switzerland); Uganda (UGA/96/A51, Government); MEMFI (RAF/94/A51), Netherlands through MEMFI Secretariat: previously ESAIDARM); Sao Tomé and Príncipe (STP/96/002, UNDP); Sudan (SUD/96/A02, Asian Development Bank).	365	723

Division on International Trade in Goods and Services and Commodities

1. Extract from paragraph 97 of "A Partnership for Growth and Development".

"UNCTAD's technical cooperation should be determined by its work programme priorities and should focus on the following areas:

- (ii) International trade in goods and services, and commodity issues:
 - Enhancing institutional and human capacities in order for developing countries to analyse new and emerging issues and to benefit from the opportunities arising from participation in the multilateral trading system and to comply with the obligations in this respect;
 - Assisting developing countries in the area of trade and environment, including through the use of country case studies;
 - Supporting strategies in promoting national competition and consumer protection law and policy formulation;
 - Contributing to vertical and horizontal diversification in commodity-dependent countries and promoting the use of risk-management instruments in favour of producers and exporters;
 - Contributing to a better utilization of preferences through improved familiarization with GSP and other preferential trading arrangements;
 - Assisting developing countries, in coordination with WTO, in accessing data on trade in services.

A Trade Analysis and Systemic Issues

- | | | |
|---|--|-------|
| 1 | <i>Tri-partite project: The UNCTAD component of the ITC/UNCTAD/WTO Integrated Programme of Technical Assistance for Africa</i> (Benin , Burkina Faso, Côte d'Ivoire, Ghana, Kenya, Tanzania, Tunisia, Uganda). | 2,550 |
|---|--|-------|

The programme's overall objective is to enhance the development prospects and competitiveness of African countries through increased participation in international trade. It emphasises human resource development and institutional capacity-building as well as the strengthening of export supply capabilities. It is designed to maximise cooperation among the three co-sponsoring organisations and to improve the utilisation and effectiveness of available resources.

(ii) Technical Assistance on issues relating to the multilateral trading system

The major focus of UNCTAD's technical assistance in this area is (a) capacity-building in trade policy formulation and implementation; (b) identification and treatment of current and pending international and trade issues; and (c) assistance to countries acceding to WTO.

- | | | | |

4	<i>CAPAS - Coordinated African Programme on Services (RAF/90/A01, France; RAF/95/A38, CANADA/IDRC).</i>	56		280
	CAPAS , or the Coordinated African Programme of Assistance in Services, is a capacity-building programme of technical assistance. It currently involves 14 African countries (Benin, Burkina Faso, Burundi, Ghana, Guinea, Kenya, Madagascar, Namibia, Nigeria, Senegal, Uganda, United Republic of Tanzania, Zambia and Zimbabwe). Its main goal is to develop endogenous policy-making capacity at the country level in areas of domestic service sector policy, regional integration services, and multilateral negotiations on trade in services, the ultimate objective being to enable African Governments to respond to the new environment for the services sector created as a result of the Uruguay Round Agreements, and more particularly the General Agreement on Trade in Services (GATS).			
5	<i>Implementing the General Agreement on Trade in Services (GATS) in Africa (RAF/97/A16, Canada/IDRC)</i> The overall objective of the research project is to provide African Governments with tools for assessing and	13	266

Division on International Trade in Goods and Services and Commodities (cont'd)

reforming national policy on services in conjunction with country commitments to the General Agreement on Trade in Services.

(iv) Trade Analysis and Information

TRAINS: *Collection/dissemination of computerised trade information* (INT/90/A07, multi-donors)

47

120

TRAINS is an information system, the global aim of which is to increase transparency in international trading conditions. It is intended more specifically for use by policy-makers and economic operators engaged in exporting, providing them with a comprehensive information system. It is also a powerful tool both for trade negotiations (e.g. for monitoring an integration process) and for general research on international trade. A component of the system relates to the generalized system of preferences (GSP) to the extent that it includes information on available tariffs, preferential margins, rules of origin and other regulations affecting the export interests of developing countries vis-à-vis preference-giving countries.

Proposed projects: *Trains for Africa* - LDCs and Eastern European Countries.

850

B Commodities

1 Commodity diversification and natural resources

(i) Commodity diversification

1 *Angola: Rehabilitation of coffee and palm oil*, (ANG/97/020, UNDP). The project is intended to assist the Government to design a framework for a technical cooperation project and private sector opportunities for investment in the rehabilitation and development of the coffee and palm oil sectors.

Division on International Trade in Goods and Services and Commodities (cont'd)

(ii) Natural resources

The objective of UNCTAD activities in the context of participatory development and social impact of mining is to assist Governments in developing policies that ensure that the interests of local communities are taken into account at an early stage of project development and that solutions acceptable to all stakeholders are arrived at.

1	<i>Role of mineral sector in development</i> (INT/87/A05, Norway, Sweden)	5	100
2.	<i>South Africa: regional planning and natural resource use in Namaqualand</i> (SAF/95/A17, Netherlands, Multi-donors)	17	120
3	<u>Proposed project:</u> <i>Natural resources, land use, and participatory development</i> (in three countries to be determined)		80

(iii) Information and risk management

Technical cooperation in the area of commodity marketing, risk management and finance has as its main objective the improvement of the use of modern marketing and financing possibilities in commodity trade; this not only generates important cost savings, it also allows for more efficient planning and management for Governments, parastatals and private sector entities.

1	<i>Modern marketing mechanisms</i> (INT/95/A91, Switzerland);	125

III Division on Investment, Technology and Enterprise Development

A International Investment, Transnationals and Technology Flows

Among the various activities implemented by the International Investment, Transnationals and Technology Flows Branch that were financed from extrabudgetary resources are projects related to transnational corporations and industrial restructuring in developing countries; the tradeability of services; the determinants of FDI flows to Brazil; Asian investment in the European Union; and European Union investment in Asia. Other main activities include:

- Expansion of foreign direct investment and trade in services (EFDITS)
- Technical cooperation among developing countries to expand and strengthen the role of foreign direct investment (FDI) by small and medium-sized enterprises (SMEs) in the developing countries of Asia

1	<u>Continuation/completion:</u> <i>FDI by SME in developing Asia</i> (RAS/95/030, UNDP/Japanese Trust Fund) (RAS/96/A25, Economic Commission; RAS/97/A35, Thailand)	124	208	
2	<i>Support to Arab States in Economic and Social Reform: Enabling environment for foreign investment</i> (RAB/97/001, UNDP)	37	183	300
3	<i>Brazil - FDI determinants and TNC strategies</i> (BRA/95/023, UNDP)		20	
4	<i>Investment Framework Information Services</i> (INT/97/A38, France) The project has prepared a comprehensive information bank on the legal and institutional framework for FDI, including information and data on law and regulations in force, and on the participation in multilateral, regional and bilateral treaties.	27	13	
5	<u>Proposed project:</u> <i>Collection and dissemination of FDI data</i>			100

	<i>World Investment Report (INT/95/A14, and INT/96/A20, Netherlands)</i>	123	63	150
(iii)	<u>Activities related to the possible multilateral framework on investment</u>			
	<i>Issues related to a possible multilateral framework on investment (INT/97/A26 - Multi-donors, Netherlands, Norway)</i>		375	3,000
	The purpose of this project is to build national capacity in developing countries and economies in transition, through training and advice, with a view towards helping these countries to participate as effectively as possible in discussions on a possible multilateral framework on investment, especially as far as deepening the understanding of the issues involved is concerned, exploring the range of issues that needs to be considered and, in particular, ensuring that the development dimension is addressed, with a view towards consensus-building.			
-	<i>Asian regional seminar on the possible multilateral framework for investment (RAS/97/A07, European Commission)</i>	17	28	
B	<u>National Innovation and Investment Policies</u>			
(i)	<u>Policies for attracting foreign investment, including investment promotion</u>			
	The objective is to assist developing countries in strengthening their capacity to create and manage the policy and operating climate in which foreign investment and international business can thrive.			

		1997	1998-2000	
		<u>Expenditures</u>	<u>Approved</u>	<u>Proposed</u>

B <u>Trade Facilitation ASYCUDA projects:</u>			

The ASYCUDA programme is aimed at reforming the customs clearance process. It aims to speed customs clearance through the introduction of computerisation and simplification of procedures and thus minimise administrative costs to the business community and the economies of countries. It aims at increasing customs revenue, which is the major contributor to national budgets in most countries, by ensuring that all goods are declared, that duty/tax calculations are correct and that development exemptions are properly managed. It aims to produce reliable and timely trade and fiscal statistics to assist in the economic planning process as a by-product of the customs system. An important objective of ASYCUDA projects is to implement the systems

	1997	1998-2000	
	<u>Expenditures</u>	<u>Approved</u>	<u>Proposed</u>
	(as at 31.10.97)		

Division for Services Infrastructure for Development and Trade Efficiency (cont'd)

as efficiently as possible with a full transfer of know-how to national customs administrations at the lowest possible cost for countries and donors. Projects also introduce international standards, including UN/EDIFACT, and active cooperation among a steadily growing number of ASYCUDA user countries further increases mutual benefits.

D	<u>New Financial Services</u>		
	The objective is to increase the amount reduce the cost of credit available to poor people living by opening up international financial markets to micro-banks operating in the developing world. In addition, micro-banks in developing countries need to meet private international investors with a view to mobilizing resources in greater quantity and at better price for the former and offering to the latter, the possibility of diversifying into a new sector.

E Trade Points

The main objectives are: to enhance the participation of developing countries and economies in transition in international trade, with special emphasis on SMEs and LDCs; to reduce transaction costs and promote better trade practices; to allow better access for traders to trade-related information and global networks; and to promote the use of international EDI standards such as UN-EDIFACT. The immediate purpose now

F TRAINFORTRADE

TRAINFORTRADE is designed to help develop human resources in developing countries in the field of trade and related services by:

- Analyzing HRD and training needs and priorities;
- Strengthening selected training centers which are prepared to adopt a common approach, and developing a network of cooperation between training centers, in order to facilitate a permanent exchange of information, courses and teaching staff;
- Designing, producing and updating high-quality training packages which meet the needs of international trade officials and private and public sector executives.
