### **Item 4. Evaluation of technical cooperation activities: In-depth evaluation of UNCTAD’s advisory services on investment**

6. In the context of its annual in-depth evaluation of a technical cooperation programme, the Working Party on the Medium-term Plan and the Programme Budget, at its forty-third session in September 2004, adopted a three-year evaluation plan starting from 2005. According to this plan, at the current session the Working Party will consider an in depth evaluation of UNCTAD’s advisory services on investment. The evaluation report, contained in document TD/B/WP/196, was prepared by an independent evaluation team composed of a professional evaluator with extensive experience in this area and two additional members who are familiar

with UNCTAD programmes and their planning and assessment procedures and who are regularly involved in the work of UNCTAD's intergovernmental bodies. The latter two members were selected with a view to bringing the perspective of both the beneficiary and the donor communities into the evaluation process.

7. At its forty-seventh session in September 2006, the Working Party on the Medium-term Plan and the Programme Budget considered the in-depth evaluation of the technical cooperation programme on accession to the World Trade Organization and requested the secretariat to report back on progress in implementing them at its forty-ninth session. The Working Party also requested a further progress report on the implementation of recommendations made by the in-depth evaluation on the training courses on key issues on the international economic agenda that it considered at the forty-fifth session in 2005.
