## **PREFACE**

This Handbook is intended to give, in a consolidated and concise form, information regarding the tariff advantages available to developing countries under the scheme of generalized preferences of Canada, and the conditions under which the goods qualify for preferential treatment on importation into Canada. Information about two other preferential concessions of interest to certain specified developing countries is provided, as well as a description of the special regime of handicraft products.

The Handbook has been prepared by the UNCTAD Technical Cooperation Project on Market Access, Trade Laws and Preferences (INT/97/A06) primarily for use within the context of project activities.

It should be noted that the description of products is given in terms of the Harmonized Commodity and Description and Coding System on which the Canadian Customs Tariff is based. The UNCTAD secretariat appreciates the assistance and cooperation of the Canadian Government in the preparation of this Handbook.

Although based on official texts, the Handbook cannot be regarded as a substitute for those texts. Further information may be obtained by writing to the:

## **1. BACKGROUND**

Canadian legislation implementing a system of tariff preferences in favour of developing countries was brought into effect on 1 July 1974 as part of a concerted international effort by industrialized countries to help developing countries to expand their exports and thus increase their foreign exchange earnings.

After an initial period of 10 years, the Canadian scheme was renewed in 1984 with a number of improvements, including expanded coverage. Similarly, the scheme was renewed again in 1994 until 2004.

The General Preferential Tariff (GPT)<sup>1</sup> rates and coverage were reviewed in 1995 to take into account the effect of erosion on the margin of preference of the Uruguay Round on Multilateral Trade Negotiations. The review resulted in an expansion of product coverage and lower GPT rates of duty.

On 1 September 2000, Canada added an extra 570 tariff lines<sup>2</sup> to the list of duty-free tariff items for the benefit of the least developed beneficiaries (LDCT). This new coverage includes a wide range of agricultural and fish products as well as a number of other industrial goods such as iron and steel, chemical products, toys and games.

## **2. PRODUCT COVERAGE**

Canada grants tariff preferences for selected agricultural and industrial products of export interest to developing countries. Some products, such as certain textiles, footwear, products of the chemical, plastic and allied industries, specialty steels and electron tubes, are excluded from the scheme.

## **3. DEPTH OF TARIFF CUTS**

GPT rates range from duty-free to reductions in the most-favoured-nation (MFN) rate. A detailed list of products covered by the scheme and applicable GPT and LDCT treatment is appended as Annex V. The updated Customs Tariff of Canada for 2001 can be found at the following Internet address:

[http://www.ccr-aadrc.gc.ca/customs/general/publications/customs\\_tariff\\_toc2001-e.html](http://www.ccr-aadrc.gc.ca/customs/general/publications/customs_tariff_toc2001-e.html) .

## **4. SAFEGUARD MEASURES**

In accordance with Article XIX of the General Agreement on Tariffs and Trade (GATT 1994), Canada may take emergency action in respect of products that are imported in such

---

<sup>1</sup> The GPT is the Canadian designation of the GSP scheme.

<sup>2</sup> The list of the 570 tariff items is appended as Annex III.

quantities and under such conditions as to cause or threaten to cause serious injury to domestic producers of like or directly competitive products by withdrawing or modifying its preferential concession. Under the legislation, the Canadian International Trade Tribunal (CITT) may be directed by the Minister of Finance to conduct an inquiry into any complaint submitted by a Canadian producer claiming that he has suffered or may suffer injury as a result of factors connected with the Anti-Dumping Code and the Code on Subsidies and Countervailing Duties of the World Trade Organization (WTO) (GATT 1994). If it is satisfied that there is a prima facie case of injury, and it judges that the removal of the GPT concession would remove the injury, it will conduct a public inquiry and make recommendations to the Government. According to the recommendation of the CITT, the Government may withdraw the GPT concession or establish tariff rate quotas.

## **5. RULES OF ORIGIN**

In order to be eligible for GPT rates and LDCT duty-free access, products from beneficiary countries must meet origin criteria and comply with the rule of direct consignment prescribed by Canada. The origin of the goods must be supported by the prescribed documentary evidence.

The official Canadian regulation on rules of origin for GPT purposes - Memorandum D11-4-4 of 30 March 2001 - is attached as Annex IV.

### **(a) Wholly obtained goods**

The following goods shall be deemed to be bona fide the product of a beneficiary country and to have originated in the beneficiary country:

- (a) Mineral products extracted from the soil or seabed of the country;
- (b) Vegetable products harvested in the country;
- (c) Live animals born and raised in the country;
- (d) Products obtained in the country from live animals;
- (e) Products obtained by hunting or fishing in the country;
- (f) Products of sea fishing and other marine products taken from the sea by vessels of the country;
- (g) Products made on board factory ships of the country exclusively from products referred to in paragraph (f);
- (h) Waste and scrap resulting from manufacturing operations of the country;
- (i) Used articles of the country imported into Canada for use only for the recovery of raw materials; and
- (j) Goods produced in the country exclusively from the products referred to in paragraphs (a) to (h)

**(b) Goods with an import content**

Products manufactured in a beneficiary country wholly or partly from materials, parts or components originating outside the country or of undetermined or unknown origin are deemed to be bona fide the growth, produce or manufacture of the beneficiary country if the value<sup>3</sup> of the import content amounts to not more than 40 per cent or, in the case of a least developed country, not more than 60 per cent of the ex-factory price<sup>4</sup> of the goods as packed for shipment to Canada (percentage criterion).

***Global cumulation and donor country content***

In calculating the maximum import content allowance for GPT beneficiary countries (40 per cent), any materials used in the manufacture or production of the goods originating from any other GPT beneficiary country (global cumulation) or from Canada (donor country content rule) and any packing required for the transportation of the goods, but not including packing in which the goods are ordinarily sold for consumption in the beneficiary country, shall be deemed to have originated in the beneficiary country and thus shall not be counted towards the qualifying maximum 40 per cent of import content.

For the purposes of calculating the qualifying percentage of maximum import allowance, under global cumulation, all beneficiary countries are regarded as one single customs area. All value-added and manufacturing processes performed in other beneficiary countries may be integrated to meet the qualifying maximum import content requirement.

For the least developed beneficiary countries the maximum import content allowance is 60 per cent of the ex-factory price of the product. Materials used in the manufacture or production of the goods which originate in any other LDCT or Canada shall be considered as domestic content. However, goods, parts, or materials used in the production of the goods that enter the commerce of any country other than a LDCT lose LDCT status.

---

<sup>3</sup> The value of imported inputs is defined as their customs value at the time of importation into the preference-receiving country or, in the case of inputs of undetermined origin, the earliest ascertainable price paid for them in that country.

<sup>4</sup> The ex-factory price is the total value of: (a) materials, (b) parts, (c) factory overhead, (d) labour, (e) any other reasonable cost incurred during the normal manufacturing process (e.g. duties and taxes paid on materials imported into a beneficiary country and not refunded when the goods were exported) and (f) a reasonable profit. Any costs incurred subsequent to the goods leaving the factory, such as freight, loading and temporary storage, are not included in the ex-factory price calculation.

*Examples for calculating the percentage of import content under global cumulation and the donor country content rule*

1. Radio sets manufactured in the Philippines, ex-factory price per unit C\$100 with the following imported materials, parts and components:

- (i) Integrated circuits and diodes made in Japan, value per radio set C\$45; and
- (ii) Speakers made in Hong Kong (China), value per radio C\$15.

The imported inputs in this case amount to C\$45 (integrated circuits and diodes), accounting for 45 per cent of the ex-factory price, whereas under global cumulation the speakers are considered as developing country input. However, the radio sets do not qualify as originating products, because the value of the import content exceeds 40 per cent of the ex-factory price. If the integrated circuits and diodes had been made in Canada, they would count as preference-giving country content, and the radio sets would qualify as originating products.

2. Radio set manufactured in Bangladesh, ex-factory price per unit C\$100, with the following imported materials, parts and components:

- (i) Integrated circuits and diodes made in Japan, value per radio set C\$45; and
- (ii) Speakers made in India, value per radio set C\$15.

The imported inputs in this case amount to C\$45, accounting for 45 per cent of the ex-factory price. Since Bangladesh is designated as a least developed country, the import content does not exceed the 60 per cent allowed and the product qualifies as an originating product.

As of 1 September 2000, the existing LDCT minimum local content (40 per cent of the ex-factory price of the goods packed for shipment to Canada) can now include a value of up to 20 per cent of the ex-factory price of the goods from GPT-eligible countries. For example, if 40 per cent of the total ex-factory price of a radio receiver has been incurred in Bangladesh (LDCT), even though 20 per cent of that 40 per cent was incurred in China (GPT), the goods, when imported into Canada, are now deemed to contain qualifying content for LDCT purposes.

**(c) Unit of qualification**

For the purpose of determining the origin of goods, each article in a shipment shall be considered separately, except where a tariff item specifies that a group, set or assembly shall be considered to be one article. Furthermore, tools, parts and accessories imported with an article, which constitute the standard equipment customarily included in the sale of articles of that kind, and the price of which is included in that of the article and for which no separate charge is made, shall be considered as forming a whole with the article. An unassembled article that is imported in more than one shipment because it is not feasible for transport or production reasons to import it in one shipment shall be considered to be one article.

**(d) Direct consignment**

The goods for which preferential treatment is claimed must be shipped directly from the preference-receiving country of origin to a Canadian consignee in Canada.

In the case of goods imported into Canada from a beneficiary country but passing in transit through the territory of an intermediate country, these will lose their GPT eligibility unless:

- They remain under customs transit control in the intermediate country;
- They do not undergo any operations in the intermediate country other than unloading, reloading, splitting up of loads or operations required to keep the goods in good condition;
- They do not enter into the trade or consumption in the intermediate country;
- They do not remain in temporary storage in the intermediate country for a period exceeding six months.

**(e) Documentary evidence**

The goods for which the GPT is claimed shall be invoiced separately from other goods and must be accompanied by a GSP Certificate of Origin Form A or the Exporter's Statement of Origin (see Annex III which also includes the relevant completion instructions).

Canada does not require the GSP Certificate of Origin Form A to be stamped and signed by an authority designated by the beneficiary country. Therefore, the Certificate of Origin Form A does not have to be an original and Field No. 11 in the certificate may be left blank. The Certificate of Origin Form A or the Exporter's Statement of Origin must be signed by the exporter in the beneficiary country from which the goods were consigned to Canada. It must bear a full description of the goods and the marks and numbers of the package and must be cross-referenced to the customs invoice.

A consignee in Canada must be identified in Field No. 2 to ensure that the exporter in the beneficiary country certified the origin of the goods according to Canadian rules of origin. The consignee is the person or company, whether it is the importer, agent, or other party in Canada, to which goods are shipped under a through bill of lading (TBL) and is so named in the bill. The only exception to this condition may be considered when 100 per cent of the value of the goods (wholly obtained goods) originates in the beneficiary country in question, in which case no consignee is required.

The Form A or the Exporter's Statement is not required for GPT-eligible goods imported in a traveller's baggage or consigned from an individual in the beneficiary country to an individual in Canada and declared at the time of importation as/and not intended for resale.

## 6. HANDICRAFT PRODUCTS

### (a) General

Canada grants duty-free entry for handicraft products classified under Tariff Item 9987.00.00 of the Canadian Customs Tariff. This treatment is granted on condition that the products concerned:

- (i) Qualify for GPT treatment;
- (ii) Are listed in the schedule of handicraft goods;
- (iii) Meet the definition laid down for that purpose; and
- (iv) Are covered by special documentary evidence

The following handicraft goods, originating in a country entitled to the benefits of the General Preferential Tariff, having forms or decorations that are traditionally used by the indigenous people or representing any national, territorial or religious symbols of the geographical region where produced, having acquired their essential characteristics by the handiwork of individual craftsmen using tools held by hand or tools not powered by machines other than those powered by hand or foot, being non-utilitarian and not copies or imitations of handicraft goods of any country other than the country in which they originate, and not produced in large quantities by sophisticated tools or by moulding:

- Puppets, musical instruments (other than guitars, viols, harpsichords or copies of antique instruments), gourds and calabashes, incense burners, retablos, fans, screens, lacquer ware, hand-carved picture frames, hand-carved figurines of animals, and religious symbols and statuettes, composed wholly or in chief part by value of wood, if not more than their primary shape is attained by mechanically powered tools or machines;
- Ornaments, mirrors and figurines, composed wholly or in chief part by value of bread dough; hookahs, nargiles, candelabra and incense burners, composed wholly or in chief part by value of clay;
- Figurines, fans, hats, musical instruments, toys, sitkas, greeting cards and wall hangings, composed wholly or in chief part by weight of vegetable fibres or vegetable materials other than linen, cotton or corn husks;
- Figurines, masks, baskets and artistic cut-outs, composed wholly or in chief part by value of paper or papier maché;
- Puppets, bellows, pouffes, bottle cases, and wine or water bottles and jugs, composed wholly or in chief part by value of hide or of leather that has not been finished beyond tanning other than by individual craftsmen;
- Figurines, costume jewellery, beads, belts, hair pins, buttons, lamp bases and key holders, composed wholly or in chief part by value of coconut shell;
- Musical instruments, chimes, combs, fans, costume jewellery, beads, belts, hair pins, wall and table decorations, buttons, lamp bases and key holders, composed wholly or in chief part by value of mother of pearl, horn, shell including tortoiseshell, or coral;
- Hookahs, nargiles, musical instruments, bells, gongs, incense burners, masks, adzes, mattocks, finger and keyhole plates, door handles and locks, hinges and latches, samovars, kukris and machetes, composed wholly or in chief part by value of base metals,

if not more than their primary shape is attained by mechanically powered tools or machines;

- Bracelets, nargiles and hookahs, composed wholly or in chief part by value of glass;
- Fabrics decorated with crewel embroidery, hand-woven semi-finished wall hangings on backstrap looms, reverse hand-sewn appliqué wall hangings, and dhurries, composed wholly or in chief part by weight of wool or cotton;
- Lanterns, composed wholly or in chief part by value of stone.

Under this arrangement, the Governor in Council may amend the list of goods in this tariff item. Goods may be classified under this tariff item on production of a certificate in duplicate in the prescribed form with the information required to be provided with the form, and signed by a representative of the Government of the country of origin or any other authorized person in the country of origin recognized by the Minister of National Revenue as competent for that purpose.

The following articles products are not accepted as handicrafts:

- (i) Utilitarian goods with no distinguishing form or decoration;
- (ii) Copies, imitations, by whatever means, of traditional, decorative, artistic or indigenous products of any country other than the country of production; or
- (iii) Products which were produced in large quantities by sophisticated tools or by moulding

The use of tools in the manufacture of handicraft products is admitted as long as the tools are held in the hand, or are not powered by machine other than those powered by hand or foot power. Products made from wood or from certain base metals as listed in the schedule are accepted as handmade if not more than their primary shape is attained by mechanically powered tools or machines. In the case of leather products listed in the schedule, the leather cannot be finished beyond tanning other than by individual craftsmen.

#### **(b) Documentary evidence**

A claim for duty-free entry of handicraft products is to be supported by a special Certificate of Handicraft Goods.<sup>5</sup> In addition, it would be useful for importers to have on hand a GSP Certificate of Origin Form A or an Exporter's Statement of Origin required for GPT qualification; the products that do not qualify for entry as handicraft products may be eligible for entry at GPT rates of duty. It is therefore recommended that exporters of handicraft articles complete both a special Certificate of Handicraft Goods and a GSP Certificate of Origin Form A or an Exporter's Statement of Origin.

---

<sup>5</sup> The Certificate of Handicraft Goods does not exist as an already printed form, and the Certificate produced for this purpose must have the same layout and contain verbatim the same information as that shown in Annex IV. The certifying authorities can be a governmental body of the beneficiary country or any other body approved by the Government of that country and recognized by the Minister of National Revenue for that purpose.

## **7. SPECIAL TREATMENT FOR LEAST DEVELOPED COUNTRIES**

Forty-six countries designated as least developed beneficiaries (LDCT)<sup>6</sup> benefit from duty-free entry for all products eligible for GPT treatment. Furthermore, as of 1 September 2000, 570 additional products were declared eligible for duty-free entry for the exclusive benefit of LDC beneficiaries (see Annex III).

As far as rules of origin and the rules of global cumulation are concerned, LDC beneficiaries enjoy more favourable treatment. The maximum import content allowed for goods to qualify for GPT eligibility is raised to 60 per cent instead of the 40 per cent permitted for other developing countries (see paragraph 5(b) above).

## **8. OTHER TARIFF TREATMENTS**

In addition to the GPT and special duty rates for LDCs under the GPT scheme, Canada offers two other preferential schemes of interest to certain specified developing countries. These schemes are as follows:

### **(a) Caribbean**

Caribbean preferences are available to most Commonwealth Caribbean States. Qualifying goods are granted duty-free entry into Canada. Product coverage is similar to that provided by the GPT with a slightly broader product coverage for agricultural products and processed agricultural goods. Basic qualifications are the same as those provided by the GPT, except that the cumulation is restricted to beneficiary members (Canadian content is allowed) and the goods must be shipped directly to Canada from a beneficiary country. See Annex II for Caribbean beneficiaries.

### **(b) The Commonwealth Developing Countries Remission Order**

This treatment, formerly the British Preferential tariff treatment (BPT), is a preferential duty rate assigned mostly to textile products. Effective 1 January 1998, the BPT treatment was revoked. However, 171 tariff lines will continue to receive tariff preferences equivalent to the former BPT rates by way of Order in Council (OIC). The OICs will permit direct shipment with or without trans-shipment through an intermediate country to Canada in accordance with sections 17 and 18 of the Customs Tariff.

In order to be eligible for the OICs, 50 per cent of the cost of production of the goods must be the growth, produce or manufacture of a British Commonwealth country. Cumulation is allowed among Commonwealth members and the goods must be shipped directly from the Commonwealth country in which they are finished to Canada. The OICs will permit direct

---

<sup>6</sup> See Annex II for a list of countries designated as LDC beneficiaries.

shipment with or without trans-shipment through an intermediate country to Canada in accordance with sections 17 and 18 of the Customs Tariff.

# **ANNEXES**

# **ANNEX I**

## Annex I

### Product groups under the schedule of the Customs Tariff of Canada

SECTION	DESCRIPTION	HEADINGS
Section I	Live animals; animal products	01.01 - 05.11
Section II	Vegetable products	06.01 - 14.04
Section III	Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes	15.01 - 15.22
Section IV	Prepared foodstuffs; beverages, spirits and vinegar; tobacco and manufactured tobacco substitutes	16.01 - 24.03
Section V	Mineral products	25.01 - 27.16
Section VI	Products of the chemical or allied industries	28.01 - 38.24
Section VII	Plastics and articles thereof; rubber and articles thereof	39.01 - 40.17
Section VIII	Raw hides and skins, leather, furskins and articles thereof; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk worm)	41.01 - 43.04
Section IX	Wood and articles of wood; wood charcoal; cork and articles of cork; manufactures or straw of esparto or of other paiting materials; basketware and wickerwork	44.01 - 46.02
Section X	Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard; paper and paperboard and articles thereof	47.01 - 49.11
Section XI	Textiles and textile articles	50.01 - 63.10
Section XII	Footwear, headgear, umbrellas, sun umbrellas, walking - sticks, seat - sticks, whips, riding- crops and parts thereof; prepared feathers and articles made therewith; artificial flowers; articles of human hair	64.01 - 67.04
Section XIII	Articles of stone, plaster, cement, asbestos, mica or similar materials; ceramic products; glass and glassware	68.01 - 70.20
Section XIV	Natural or cultured pearls, precious or semi-precious stones, precious metals, metals clad with precious metal and articles thereof; imitation jewellery; coin	71.01 - 71.18
Section XV	Base metals and articles of base metal	72.02 - 83.11
Section XVI	Machinery and mechanical appliances; electrical equipment; parts thereof; sound recorders and reproducers television image and sound recorders and reproducers, and parts and accessories such articles	84.01 - 85.48
Section XVII	Vehicles, aircraft, vessels and associated transport equipment	86.01-89.08
Section XVIII	Optical, photographic, cinematographic measuring, checking, precision, medical or surgical instruments and apparatus; clocks and watches; musical instruments; parts and accessories thereof	90.01 - 92.09
Section XIX	Arms and ammunition; parts and accessories thereof	93.01 - 93.07
Section XX	Miscellaneous manufactured articles	94.01 - 96.18
Section XXI	Works of art, collectors pieces and antiques	97.01 - 99.93

## **ANNEX II**

## Annex II

### List of countries and territories, and applicable tariff treatment

(as of 1 January 2001)

Countries with which Canada has no tariff arrangements are accorded General Tariff treatment (section 46). They include Albania, the Democratic People's Republic of Korea, Libyan Arab Jamahiriya and Oman.

In order to qualify for General Preferential Tariff treatment and Least Developed Country tariff treatment, a certificate of origin - "Form A" - is required.

## **ANNEX III**

## Annex III

### Expansion of LDCT product coverage

#### List of tariff items eligible for duty-free entry from least developed countries (effective September 1, 2000)

Tariff items added effective September 1, 2000 have been listed by Harmonized System Chapter for convenience. Goods of the following Chapters of the Canadian Customs Tariff are eligible for duty-free treatment when imported from Least Developed Countries: Chapters 03, 05\*, 09\*, 12, 13, 14\*, 25\*, 26\*, 27\*, 28\*, 29, 30\*, 31\*, 32\*, 33\*, 34\*, 36\*, 37\*, 38\*, 39\*, 40\*, 41\*, 42\*, 43\*, 44\*, 45\*, 46\*, 47\*, 48\*, 49\*, 50\*, 57\*, 65, 66\*, 67\*, 68, 69\*, 70, 72, 74\*, 75\*, 76\*, 78\*, 79\*, 80\*, 81\*, 82\*, 83\*, 84\*, 85, 86\*, 87\*, 88, 89\*, 90\*, 91\*, 92\*, 93\*, 94, 95 and 97\*.

\* : Goods in this Chapter were already eligible for duty-free treatment when imported from Least Developed Countries prior to September 1, 2000

For a Description of Goods classified in these tariff items, please consult the Canadian Customs Tariff (available on Canada Customs and Revenue Agency website at [www.ccr-aadrc.gc.ca](http://www.ccr-aadrc.gc.ca)).

## **ANNEX IV**

**Annex IV**  
**Rules of Origin**

**MEMORANDUM D11-4-4**

Ottawa, March 30, 2001

**RULES OF ORIGIN RESPECTING THE GENERAL PREFERENTIAL TARIFF AND LEAST DEVELOPED COUNTRY TARIFF**

This Memorandum contains the *General Preferential Tariff and Least Developed Country Tariff Rules of Origin Regulations* and outlines the guidelines for the determination of the origin of goods for purposes of the General Preferential Tariff (GPT) and Least Developed Country Tariff (LDCT) treatment, enacted pursuant to the *Custom Tariff*.

## Regulations

### GENERAL PREFERENTIAL TARIFF AND LEAST DEVELOPED COUNTRY TARIFF RULES OF ORIGIN REGULATIONS

#### *Interpretation*

1. The definitions in this section apply in these Regulations.

“beneficiary country” means a country that is a beneficiary of the General Preferential Tariff; (*pays bénéficiaire*)

“least developed country” means a beneficiary country that is a beneficiary of the Least Developed Countries Tariff. (*pays parmi les moins développés*)

#### *Origin of Goods*

2. (1) A good originates in a beneficiary country or a least developed country if the good is

(a) a mineral good extracted from the soil or the sea-bed of the country;

(b) a vegetable good harvested in the country;

(c) a live animal born and raised in the country;

(d) a good obtained in the country from a live animal;

(e) a good obtained from hunting or fishing in the country;

(f) a good derived from sea fishing or other marine goods taken from the sea by a vessel of the country;

(g) a good produced on board a factory ship of the country exclusively from a good referred to in paragraph (f);

(h) waste and scrap derived from manufacturing operations of the country;

(i) used goods of the country imported into Canada for use only for the recovery of raw materials; or

(j) a good produced in the country exclusively from a good referred to in any of paragraphs (a) to (h).

(2) Goods originate in a beneficiary country or a least developed country if the value of the materials, parts or products originating outside that country, or in an undetermined location, and used in the manufacture or production of the goods is

(a) no more than 40% of the ex-factory price of the goods as packed for shipment to Canada, in the case of goods from a beneficiary country; and

(b) no more than 60% of the ex-factory price of the goods as packed for shipment to Canada, in the case of goods from a least developed country.

(3) For the purpose of paragraph (2)(a), the following are deemed to have originated in the beneficiary country:

(a) any materials, parts or products used in the manufacture or production of the goods referred to in that paragraph and originating from any other beneficiary country or from Canada, and

(b) any packing required for the transportation of the goods referred to in that paragraph, not including packing in which the goods are ordinarily sold for consumption in the beneficiary country.

(4) For the purpose of paragraph (2)(b), the following are deemed to have originated in the least developed country:

(a) any materials, parts or products used in the manufacture or production of the goods referred to in that paragraph and that

(i) originate from any other least developed country or from Canada, or  
 (ii) have a value of up to 20% of the ex-factory price of the goods, as packed for shipments to Canada, from a beneficiary country other than a least developed country;  
 and

(b) any packing required for the transportation of the goods referred to in that paragraph, not including packing in which the goods are ordinarily sold for consumption in the least developed country.

3. (1) For the purpose of determining the origin of goods, each good in a shipment shall be considered separately, except that

(a) if a group, set or assembly of goods is classified in one tariff item, the group, set or assembly shall be considered to be one good, and

(b) tools, parts and accessories

(i) that are imported with a good,

(ii) that constitute the standard equipment customarily included in the sale of a good of that kind, and

(iii) the price of which is included in that of the good and for which no separate charge is made, shall be considered as forming a whole with the good.

(2) An unassembled good that is imported in more than one shipment because it is not feasible for transport or production reasons to import it in one shipment shall be considered to be one good.

### ***Direct Shipment***

4. (1) Goods are entitled to the General Preferential Tariff only if the goods are shipped directly to Canada, with or without transshipment, from a beneficiary country.

(2) Goods are entitled to the Least Developed Country Tariff only if the goods are shipped directly to Canada, with or without transshipment from a least developed country.

## **GUIDELINES AND GENERAL INFORMATION**

### **BENEFICIARY COUNTRIES**

1. GPT and LDCT beneficiary countries are identified in the *Customs Tariff*.
2. All countries entitled to the LDCT treatment as indicated in the *Customs Tariff*, are beneficiaries of the GPT.

### **PRODUCT COVERAGE**

3. The applicable GPT rates of duty appear in the *Customs Tariff*. Goods for which a GPT rate is not indicated are not entitled to a GPT rate of duty but rather are subject to an alternate tariff treatment, usually the Most-Favoured-Nation (MFN) Tariff. In addition, handicrafts from GPT beneficiary countries that meet the criteria outlined in Memorandum D10-15-13, *Handicrafts*, may benefit from duty-free treatment.
4. LDCT duty-free treatment is accorded to goods identified in the *Customs Tariff*. Where a GPT or LDCT rate is not indicated, the goods in question are not entitled to the LDCT or GPT treatments, but rather are usually subject to the alternate MFN tariff treatment

### **ORIGIN REQUIREMENT**

5. To qualify for the GPT treatment, at least 60% of the ex-factory price of the goods packed for shipment to Canada must originate in one or more GPT beneficiary countries or Canada.
6. To qualify for the LDCT duty-free treatment, at least 40% of the ex-factory price of the goods packed for shipment to Canada must originate in one or more LDCT beneficiary countries or Canada. Effective September 1, 2000, the existing 40% of the ex-factory price of the goods packed for shipment to Canada can now include a value of up to 20% of the ex-factory price of the goods from GPT eligible countries.
7. The ex-factory price is the total value of:
  - (a) materials;
  - (b) parts;
  - (c) factory overhead;
  - (d) labour;
  - (e) any other reasonable costs incurred during the normal manufacturing process, e.g., duties and taxes paid on materials imported into a beneficiary country and not refunded when the goods were exported; and
  - (f) a reasonable profit.

**Note:** Any costs incurred subsequent to the goods leaving the factory, such as freight, loading, temporary storage, are not included in the ex-factory price calculation.

## **GLOBAL CUMULATION AND DONOR COUNTRY CONTENT**

8. The GPT 60% qualifying content may be cumulated from various GPT beneficiary countries or Canada. However, goods, parts, or materials used in the production of the goods that enter the commerce of any country other than a GPT beneficiary country lose the GPT status.

9. The LDCT 40% qualifying content may be cumulated from various LDCT beneficiary countries or Canada. However, goods, parts, or materials used in the production of the goods that enter the commerce of any country other than a LDCT beneficiary country lose LDCT status. Effective September 1, 2000, the existing 40% of the ex-factory price of the goods packed for shipment to Canada, mentioned above, can now include a value of up to 20% of the ex-factory price of the goods from GPT eligible countries. For example, if 40% of the total ex-factory price of a radio receiver has been incurred in Bangladesh (LDCT), even though 20% of that 40% was incurred in the People's Republic of China (GPT), then the goods, when imported into Canada, are now deemed to contain qualifying content for LDCT purposes.

10. To calculate the qualifying content, all beneficiary countries are regarded as one single area. All value-added and manufacturing processes performed in the area may be integrated to meet the qualifying content requirement.

11. For example, a radio receiver subassembly is produced in Malaysia from imported parts. The receiver subassembly is then exported to Indonesia, where it is manufactured with other imported materials into a finished radio. As both countries are GPT beneficiary countries, the value of the materials and work done in Malaysia may be added to the work done in Indonesia to determine whether the radio meets the 60% content requirement.

12. Likewise, to calculate the qualifying content of goods, Canadian content used in the production of the goods is regarded as content from the beneficiary country.

13. For example, Colombia exports insulated wire to Canada. The materials used include steel from Canada, rubber from Malaysia, and Colombian materials and labour costs. To determine whether the wire meets the qualifying content requirement, the value of the Canadian steel may be added to the content originating from the beneficiary countries.

14. The goods must be finished in the beneficiary country in the form in which they were imported into Canada.

## **CERTIFICATION REQUIREMENTS – COMMERCIAL GOODS**

15. Section 4 of the *Proof of Origin of Imported Goods Regulations*, found in Memorandum D11-4-2, *Proof of Origin*, outlines the requirements for the GPT and LDCT proof of origin. For goods accounted for prior to September 17, 1997, the proof of origin must be *Form A – Certificate of Origin*. For goods accounted for on or after September 17, 1997, the Canada Customs and Revenue Agency (CCRA) will accept as proof of origin either Form A or the Exporter's Statement of Origin. Proof of origin must be completed by the exporter of the goods in the beneficiary country in

which the goods were finished. In most cases, exporters should find the Exporter's Statement of Origin easier to complete and provide than the alternate Form A.

16. The proof of origin is not required to be an original. In all cases, proof of origin must cross-reference the applicable invoice number. The invoice must list the goods for which the preferential treatment is claimed separately from the non-preference receiving goods. However, separate invoices are not required.

***Form A – Certificate of Origin***

17. A copy of the Generalized System of Preferences, *Form A – Certificate of Origin*, and the completion instructions are found in Appendix A.

18. For goods accounted for on or after March 1, 1996, Canada no longer requires Form A to be stamped and signed by an authority designated by the beneficiary country. Therefore, Form A no longer needs to be an original and Field No. 11 may be left blank.

19. A consignee in Canada must be identified in Field No. 2 to ensure that the exporter in the beneficiary country certified the origin of the goods according to Canadian rules of origin. The consignee is the person or company, whether it is the importer, agent, or other party in Canada, to which goods are shipped under a through bill of lading (TBL) and is so named in the bill. The only exception to this condition may be considered when 100% of the value of the goods originates in the beneficiary country in question, in which case no consignee is required.

20. For the GPT and LDCT, the origin criterion in Field No. 8 of Form A must be one of the following:

P means wholly (100%) produced in the beneficiary country as defined in subsection 3(3) of the Regulations;

F means, for GPT, at least 60% of the ex-factory price was produced in the GPT beneficiary country;

F means, for LDCT, at least 40% of the ex-factory price was produced in the LDCT country. Effective September 1, 2000, the existing 40% of the ex-factory price of the goods packed for shipment to Canada can now include a value of up to 20% of the ex-factory price of the goods from other developing countries that is, those eligible for GPT;

G means, for GPT, at least 60% of the ex-factory price was cumulatively produced in more than one GPT beneficiary country or Canada;

G means, for LDCT, at least 40% of the ex-factory price was cumulatively produced in more than one LDCT beneficiary country or Canada. Effective September 1, 2000, the existing 40% of the ex-factory price of the goods packed for shipment to Canada can now include a value of up to 20% of the ex-factory price of the goods from other developing countries that is, those countries eligible for GPT.

### **Exporter's Statement of Origin**

21. The Exporter's Statement of Origin is in Appendix B. It must be completed and signed by the exporter in the beneficiary country in which the goods were finished.

The statement may be written out on Form C11, *Canada Customs Invoice*, or commercial invoice or provided as a separate document. The information required in the statement must be provided in its entirety for goods to qualify for the GPT.

22. If the statement is provided as a separate document from the invoice, the statement must reference the applicable invoice number. If the statement is for multiple invoices, the invoice numbers must be identified within the statement. A statement with an attached list of invoice numbers will not be acceptable. The CCRA must be certain that the exporters certified the origin of goods and that they are aware of the goods being certified.

### **OBLIGATIONS REGARDING IMPORTATIONS**

23. According to section 4 of the *Proof of Origin of Imported Goods Regulations*, to claim the GPT or LDCT benefits, importers must make a declaration that they have in their possession the required proof of origin, either Form A or the Exporter's Statement of Origin.

24. The importer makes this declaration on Form B3, *Canada Customs Coding Form*, by inserting Code 9 for GPT or Code 8 for LDCT in Field No. 14, "Tariff Treatment." Also, the importer declaration field on Form B3 must be completed with the signature of the importer. For further instructions concerning Form B3, please refer to Memorandum D17-1-10, *Coding of Customs Accounting Documents*.

25. The proof of origin must be presented to the CCRA upon request. Failure to do so will result in the application of either the Most-Favoured-Nation (MFN) tariff treatment or other appropriate tariff treatment.

26. When requested by the CCRA to present the proof of origin, the importer may be required to provide a complete and accurate translation in English or French.

27. Importers may be requested to submit further documentation to substantiate the origin of the goods, such as bills of materials and purchase orders.

### **FALSE DECLARATIONS**

28. The making or assenting to the making of a false declaration in a statement made verbally or in writing to the CCRA is an offence under section 153 of the *Customs Act* and may be subject to sanctions under section 160 of that Act.

### **SHIPPING REQUIREMENT**

29. The goods must be shipped directly on a TBL to a consignee in Canada from the beneficiary country in which the goods were certified. Evidence in the form of a TBL (or a copy) showing that the goods have been shipped directly to a consignee in Canada must be presented to the CCRA upon request.

30. In the case of consolidated freight, where the TBL is a lengthy document covering unrelated goods, the importer may present the cargo receipt from the carrier (or a copy) in lieu of the TBL. The CCRA may request that the TBL be presented as final verification that the goods have been shipped directly to Canada.

31. The TBL is a contract to convey goods from one point to another. It is to ensure the direct shipment of goods from the country of origin to a consignee in Canada. The TBL is one single document that is issued prior to the goods beginning their journey when the carrier assumes care, custody, and control of the goods. It usually contains the following information:

- (a) the identity of the exporter in the country of origin;
- (b) the identity of the consignee in Canada;
- (c) the identity of the carrier or agent who assumes liability for the performance of the contract;
- (d) the contracted routing of the goods identifying all points of transshipment;
- (e) a full description of the goods and the marks and numbers of the package; and
- (f) the place and date of issue.

**Note:** A TBL that does not include all points of transshipment may be accepted, if these are set out in related shipping documents presented with the TBL.

32. On a case-by-case basis, an amended TBL may be accepted as proof of direct shipment where documentation errors have occurred and the amended TBL corrects an error in the original document. In such cases, the carrier must provide proof that the amended TBL reflects the actual movement of the goods as contracted when the goods began their journey. Documentation presented must clearly indicate the actual movement of the goods.

33. Air cargo is usually transhipped in the air carrier's home country even if no transshipment is shown on the house air waybill. Therefore, where goods are transported via air freight, the house air waybill is acceptable as a TBL.

### **Consignee**

34. To fulfil the direct shipment requirement, goods must be shipped to a consignee in Canada. The consignee is the person or company, whether the importer, agent, or other party in Canada, to which goods are shipped under a TBL and is so named in the bill. In circumstances where goods are consigned "to order," the TBL is acceptable as evidence of direct shipment as long as the party within Canada to whom the goods are shipped is identified on the TBL, usually in the "Notify Party" field.

## **Transshipment**

35. Transshipment through an intermediate country is allowed provided the conditions prescribed by section 18 of the *Customs Tariff* are met, as follows:

- (a) the goods remain under customs transit control in the intermediate country;
- (b) the goods do not undergo any operation in the intermediate country other than unloading, reloading, splitting up of loads, or operations required to keep the goods in good condition;
- (c) the goods do not enter into trade or consumption in the intermediate country; and
- (d) the goods do not remain in temporary storage in the intermediate country for a period exceeding six months.

36. Transshipment is the act of taking cargo out of one conveyance and loading it into another conveyance. This includes the act of taking cargo out of one conveyance and reloading it into the same conveyance. The landing of an airplane for refuelling or docking of a ship to take on additional cargo does not constitute transshipment if the goods in question are not unloaded from the conveyance.

37. Some exceptions exist where goods may be entitled to alternative shipping requirements. For more information, please refer to Memorandum D11-4-9, *Mexico Goods Deemed to Be Directly Shipped to Canada for the Purposes of the General Preferential Tariff (GPT)*, or Memorandum D11-4-10, *China Direct Shipment Condition Exemption Order*.

## **REFUNDS**

38. Where the GPT or the LDCT treatment is not claimed at time of importation as a result of an error, involuntary omission, proof of origin not available at time of importation, or any other circumstances, an application for a refund may be submitted under paragraph 74(1)(e) of the *Customs Act*. An application for a refund of duties must be filed on Form B2, *Canada Customs – Adjustment Request*, within **four** years from the date of accounting at a customs office in the region where the goods were accounted for under the *Customs Act*. Refer to Memorandum D6-2-2, *Refund of Duties*, for more information.

## **CERTIFICATION REQUIREMENTS – CASUAL GOODS**

39. Section 4 of the *Proof of Origin of Imported Goods Regulations*, found in Memorandum D11-4-2, outlines the requirements for the GPT and LDCT proof of origin for casual goods. Where casual goods are:

- (a) imported in a traveller's baggage or consigned from an individual in the beneficiary country to an individual in Canada; and
- (b) declared at the time of importation as not intended for resale, the importer is exempt from providing proof of origin, if there is no evidence to indicate that the goods are not the product of the beneficiary country.
