Note

UNCTAD serves as the focal point within the United Nations Secretariat for all matters related to foreign direct investment and transnational corporations. In the past, the Programme on Transnational Corporations was carried out by the United Nations Centre on Transnational Corporations (1975-1992) and the Transnational Corporations and Management Division of the United Nations Department of Economic and Social Development (1992-1993). In 1993, the Programme was transferred to the United Nations Conference on Trade and Development. UNCTAD seeks to further the understanding of the nature of transnational corporations and their contribution to development and to create an enabling environment for international investment and enterprise development. UNCTAD's work is carried out through intergovernmental deliberations, technical assistance activities, seminars, workshops and conferences.

The term "country", as used in the boxes added by the UNCTAD secretariat at the beginning of the instruments reproduced in this volume, also refers, as appropriate, to territories or areas; the designations employed and the presentation of the material do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Moreover, the country or geographical terminology used in the boxes may occasionally depart from standard United Nations practice when this is made necessary by the nomenclature used at the time of negotiation, signature, ratification or accession of a given international instrument.

To preserve the integrity of the texts of the instruments reproduced in this volume, references to the sources of the instruments that are not contained in their original text are identified as "note added by the editor".

The texts of the instruments included in this volume are reproduced as they were written in one of their original languages or as an official translation thereof. When an obvious linguistic mistake has been found, the word "sic" has been added in brackets.

The materials contained in this volume have been reprinted with special permission of the relevant institutions. For those materials under copyright protection, all rights are reserved by the copyright holders.

It should be further noted that this collection of instruments has been prepared for documentation purposes only, and its contents do not engage the responsibility of UNCTAD.

PREFACE

International Investment Instruments: A Compendium contains a collection of international instruments relating to foreign direct investment (FDI) and transnational corporations (TNCs). The collection is presented in ten volumes. The first three volumes were published in 1996. *Volumes IV* and *V* were published in 2000 followed by *Volume VI* in 2001. Four volumes were published in 2002, *Volumes VII, VIII, and IX* in June, followed by *Volume X* in August, bringing the collection up to date.

The collection has been prepared to make the texts of international investment instruments conveniently available to interested policy-makers, scholars and business executives. The need for such a collection has increased in recent years as bilateral, regional, interregional and multilateral instruments dealing with various aspects of FDI have proliferated, and as new investment instruments are being negotiated or discussed at all levels.

While by necessity selective, the present collection seeks to provide a faithful record of the evolution and present status of intergovernmental cooperation concerning FDI and TNCs. Although the emphasis of the collection is on relatively recent documents (the majority of the instruments reproduced date from after 1990), it was deemed useful to include important older instruments as well, with a view towards providing some indications of the historical development of international concerns over FDI in the decades since the end of the Second World War.

The core of this collection consists of legally binding international instruments, mainly multilateral conventions, regional agreements, and bilateral treaties that have entered into force. In addition, a number of "soft law" documents, such as guidelines, declarations and resolutions adopted by intergovernmental bodies, have been included since these instruments also play a role in the elaboration of an international framework for FDI. In an effort to enhance the understanding of the efforts behind the elaboration of this framework, certain draft instruments that never entered into force, or texts of instruments on which the negotiations were not concluded, are also included; prototypes of bilateral investment treaties are reproduced as well. Included also are a number of influential documents prepared by business, consumer and labour organizations, as well as by other non-governmental organizations. It is clear from the foregoing that no implications concerning the legal status or the legal effect of an instrument can be drawn from its inclusion in this collection.

In view of the great diversity of the instruments in this *Compendium* -- in terms of subject matter, approach, legal form and extent of participation of States -- the simplest possible method of presentation was deemed the most appropriate. Thus, the relevant instruments are distributed among the *ten volumes of the Compendium* as follows:

- *Volume I* is devoted to multilateral instruments, that is to say, multilateral conventions as well as resolutions and other documents issued by multilateral organizations.
- *Volume II* covers interregional and regional instruments, including agreements, resolutions and other texts from regional organizations with an inclusive geographical context.
- *Volume III* is divided into three annexes covering three types of instruments that

differ in their context or their origin from those included in the first two volumes:

- Annex A reproduces investment-related provisions in free trade and regional integration agreements. The specific function and, therefore, the effect of such provisions is largely determined by the economic integration process which they are intended to promote and in the context of which they operate.
- Annex B (the only section that departs from the chronological pattern) offers the texts of prototype bilateral treaties for the promotion and protection of foreign investments (BITs) of several developed and developing countries, as well as a list of these treaties concluded up to July 1995. The bilateral character of these treaties differentiates them from the bulk of the instruments included in this *Compendium*. Over 900 such treaties had been adopted by July 1995.
- Annex C supplies the texts of documents prepared by non-governmental organizations; these give an indication of the broader environment in which the instruments collected here are prepared.
- *Volume IV*, divided into two parts, covers additional multilateral (Part One) and regional instruments (Part Two) not covered in *Volumes I* and *II*, including, but not limited to, those adopted between 1996 and the end of 1999.
- *Volume V* is divided into four parts, as follows:
 - Part One reproduces investment-related provisions in a number of additional free trade and economic integration agreements not covered in *Volume III*.
 - Part Two includes for the first time investment-related provisions in association agreements as well as bilateral and interregional cooperation agreements. These are divided into three annexes. Annex A is devoted to agreements signed between the countries members of the European Free Trade Association (EFTA) and third countries. Annex B covers investment-related provisions in agreements signed between the countries members of the European Community (EC) and third countries as well as other regional groups. Annex C includes types of bilateral agreements related to investment that differ from those covered in other parts.
 - Part Three contains the texts of a number of additional prototype BITs of several developed and developing countries, as well as a list of these treaties concluded between July 1995 and the end of 1998, when the total number of BITs concluded since 1959 reached over 1,730.
 - Part Four reproduces additional texts of recent documents prepared by non-governmental organizations.
- *Volume VI* is divided into the following six parts:

- Part One contains an additional multilateral instrument.
 - Part Two covers additional interregional and regional instruments, including agreements, resolutions and other texts from regional organizations with an inclusive geographical context.
 - Part Three reproduces investment-related provisions in a number of additional free trade and economic integration agreements not covered in previous volumes.
 - Part Four includes investment-related provisions in association agreements as well as bilateral and interregional cooperation agreements not covered in previous volumes.
 - Part Five contains the texts of a number of additional prototype BITs of several developed and developing countries not covered in previous volumes.
 - Part Six includes for the first time prototype double taxation treaties (DTTs).
 - *Volume VII* is divided into the following three parts:
 - Part One contains an additional multilateral instrument.
 - Part Two reproduces investment-related provisions in a number of additional free trade and cooperation agreements signed between countries members of the European Free Trade Association (EFTA) and countries members of the European Community (EC) with third countries not covered in previous volumes.
 - Part Three contains the texts of a number of additional prototype BITs not covered in previous volumes.
 - *Volume VIII* is divided into the following three parts:
 - Part One covers additional interregional and regional instruments, including agreements and other texts from regional organizations with an inclusive geographical context.
 - Part Two reproduces investment-related provisions in a number of additional free trade, economic integration and cooperation agreements not covered in previous volumes.
 - Part Three contains the texts of a number of additional prototype BITs not covered in previous volumes.
 - *Volume IX* is divided into the following three parts:
-

- Part One covers additional interregional and regional instruments, including agreements and other texts from regional organizations with an inclusive geographical context.
- Part Two reproduces investment-related provisions in a number of additional free trade, economic integration and cooperation agreements not covered in previous volumes.
- Part Three contains the texts of a number of additional prototype BITs not covered in previous volumes.
- *Volume X* is divided into the following two parts:
 - Part One reproduces investment-related provisions in a number of additional free trade, economic integration and cooperation agreements not covered in previous volumes.
 - Part Two contains texts of additional prototype BITs and a prototype double taxation treaty not included in previous volumes.

Within each of these subdivisions, instruments are reproduced in chronological order, except for the sections dedicated to prototypes instruments.

The multilateral and regional instruments covered are widely differing in scope and coverage. Some are designed to provide an overall, general framework for FDI and cover many, although rarely all, aspects of investment operations. Most instruments deal with particular aspects and issues concerning FDI. A significant number address core FDI issues, such as the promotion and protection of investment, investment liberalization, dispute settlement and insurance and guarantees. Others cover specific issues, of direct but not exclusive relevance to FDI and TNCs, such as transfer of technology, intellectual property, avoidance of double taxation, competition and the protection of consumers and the environment. A relatively small number of instruments of this last category has been reproduced, since each of these specific issues often constitutes an entire system of legal regulation of its own, whose proper coverage would require an extended exposition of many kinds of instruments and arrangements.^a

The *Compendium* is meant to be a collection of instruments, not an anthology of relevant provisions. Indeed, to understand a particular instrument, it is normally necessary to take its entire text into consideration. An effort has been made, therefore, to reproduce complete instruments, even though, in a number of cases, reasons of space and relevance have dictated the inclusion of excerpts.

The UNCTAD secretariat has deliberately refrained from adding its own commentary to the texts reproduced in the *Compendium*. The only exception to this rule is the boxes added to each instrument. They provide some basic facts, such as its date of adoption and date of entry into

force and, where appropriate, signatory countries. Also, a list of agreements containing investment-related provisions signed by the EFTA countries and by the EC countries with third countries or regional groups are reproduced in the *Compendium*. Moreover, to facilitate the identification of each instrument in the table of contents, additional information has been added, in brackets, next to each title, on the year of its signature and the name of the relevant institution involved.

TITLE II

Article 13

1. The Contracting Parties shall make every effort to promote, expand and diversify their trade on the basis of non-discrimination and reciprocity. In the spirit of this Article, the Joint Committee established under Title V of this Agreement will attach special importance to examining ways of encouraging the reciprocal and harmonious expansion of trade.

2. In furtherance of the aims of this Article and within the limits of their respective powers, the Contracting Parties agree on the necessity to improve favourable business regulations and facilities for each other's firms or companies on their respective markets, inter alia by taking steps:

- to ensure the publication and facilitate exchanges of commercial and economic information on all matters which would assist the development of commercial and economic cooperation, for example:
- economic development plans or forecasts,
- general and sectoral import arrangements,
- economic and commercial law, including regulations on markets, companies and investment,
- macro-economic information and statistics, including production, consumption and foreign trade statistics,

3. Albania will take measures guaranteeing an effective and adequate protection of intellectual, industrial and commercial property, at a level similar to that which exists in the Community, and will adhere to International Conventions on intellectual, industrial and commercial property.

4. The Contracting Parties undertake to facilitate, within the limits of their respective powers, administrative cooperation between the appropriate authorities in matters relating to customs, in particular in the following areas:

- vocational training,
- simplification of customs documentation and procedures, and
- prevention and detection of infringements of the rules on customs matters, including the rules governing import quotas.

5. The Contracting Parties recognize that counter-trade practices may create distortions in international trade and that they should be regarded as temporary and exceptional.

For this reason they agree not to impose countertrade requirements on companies established in Albania or the Community, or to compel them to engage in such trade practices.

Nevertheless, where firms or companies decide to resort to counter-trade operations, the Contracting Parties shall encourage them to furnish all relevant information to facilitate the transaction.

Article 14

Within the limits of their respective powers, the Contracting Parties:

- shall encourage the adoption of arbitration for the settlement of disputes arising out of commercial and cooperation transactions concluded by companies, enterprises or economic organizations of the Community and those of Albania,
- agree that when a dispute is submitted to arbitration, each party to the dispute may freely choose its own arbitrator, irrespective of nationality, and that the presiding third arbitrator or the sole arbitrator may be a citizen of a third State,
- shall encourage recourse to the arbitration rules developed by the United Nations Commission on International Trade Law (Uncitral) and to arbitration by any centre of a State signatory to the Convention on Recognition and Enforcement of Foreign Arbitral Awards concluded in New York on 10 June 1958.

TITLE III

que tengan el mismo tipo de relaciones cercanas, que no se haya formado con el propósito principal de recibir esas ejecuciones y comunicaciones de obras;

señal de satélite cifrada portadora de programas: aquella que se transmite de forma tal que las características auditivas o visuales, o ambas, se modifican o alteran para impedir la recepción no autorizada por personas que carezcan del equipo autorizado que está diseñado para eliminar los efectos de esa modificación o alteración del programa portado en esa señal.

Artículo 16-02: Protección de los derechos de propiedad intelectual.

1. Cada Parte otorgará en su territorio a los nacionales de la otra Parte, protección y defensa adecuada y eficaz para los derechos de propiedad intelectual y asegurará que las medidas destinadas a defender esos derechos no se conviertan, a su vez, en obstáculos al comercio legítimo.

2. Cada Parte podrá otorgar en su legislación una protección más amplia a los derechos de propiedad intelectual que la requerida en este capítulo, siempre que esa protección no sea incompatible con el mismo.

Artículo 16-03: Principios básicos.

1. Artículo 16-05: Trato de nación más favorecida.

Con respecto a la protección de los derechos de propiedad intelectual, toda ventaja, favor, privilegio o inmunidad que conceda un Parte a los nacionales de cualquier otro país, se otorgará inmediatamente y sin condiciones a los nacionales de la otra Parte. Quedan exentos de esta obligación toda ventaja, favor, privilegio o inmunidad concedidos por una Parte que:

- a) sea necesaria para asegurar el cumplimiento de medidas que no sean incompatibles con este capítulo; y
- b) no se aplique en forma tal que constituya una restricción encubierta al comercio.

Artículo 16-07: Control de prácticas y condiciones abusivas o contrarias a la competencia.

Ninguna disposición de este capítulo impedirá que cada Parte contemple en su legislación prácticas o condiciones relativas a la concesión de licencias que, en casos particulares, puedan constituir un abuso de los derechos de propiedad intelectual con efecto negativo sobre la competencia en el mercado correspondiente. Cada Parte podrá adoptar o mantener, de conformidad con otras disposiciones de este Tratado, las medidas adecuadas para impedir o controlar esas prácticas o condiciones.

Artículo 16-08: Cooperación para eliminar el comercio de bienes objeto de infracciones.

Artículo 16-09: Promoción de la innovación y la transferencia de tecnología.

Las Partes contribuirán a la promoción de la innovación tecnológica y a la transferencia y difusión de la tecnología, mediante regulaciones gubernamentales favorables para la industria y el comercio, que no sean contrarias a la libre competencia.

1. Cada Parte protegerá las obras comprendidas en el artículo 2 del Convenio de Berna, incluyendo cualesquiera otras que incorporen una expresión original en el sentido que confiere a este término ese convenio, tales como los programas de cómputo o las compilaciones de datos que, por razones de compendio, selección, arreglo o disposición de su contenido constituyan creaciones de carácter intelectual. La protección conferida a las compilaciones de datos no se

extenderá a los datos o materiales en sí mismos, ni se otorgará en perjuicio de derecho de autor alguno que exista sobre esos datos o materiales.

2. Cada Parte otorgará a los autores o a sus causahabientes los derechos que se enuncian en el Convenio de Berna con respecto a las obras contempladas en el párrafo 1, incluyendo el derecho de autorizar o prohibir:

4. Cada Parte dispondrá que para los derechos de autor y derechos conexos:

- a) cualquier persona que adquiera o detente derechos económicos pueda, libremente y por separado, transferirlos mediante contrato para efectos de explotación y goce por el cesionario; y
- b) cualquier persona que adquiera y detente esos derechos económicos, en virtud de un contrato, incluidos los contratos de fonograma y los de empleo que impliquen la creación de cualquier tipo de obra, tenga la capacidad de ejercitar esos derechos en nombre propio y de disfrutar plenamente los beneficios derivados de los mismos.

5. Cada Parte circunscribirá las limitaciones o excepciones a los derechos que establece este artículo a casos especiales determinados que no impidan la explotación normal de la obra ni ocasionen perjuicios injustificados a los legítimos intereses del titular del derecho.

6. Ninguna Parte concederá licencias para la reproducción y traducción permitidas conforme al Apéndice del Convenio de Berna, cuando las necesidades legítimas de copias o traducciones de la obra en el territorio de esa Parte pudieran cubrirse mediante acciones voluntarias del titular del derecho, de no ser por obstáculos creados por las medidas de la Parte.

7. Los derechos de autor son permanentes durante toda la vida de éste. Después de su fallecimiento, quienes hayan adquirido legítimamente esos derechos, los disfrutarán por el término de 50 años como mínimo. Cuando la duración de la protección de una obra se calcule sobre una base distinta de la vida de una persona física, esa duración será de:

- a) no menos de 50 años contados a partir del final del año de la publicación o divulgación autorizada de la obra; o

- b) 50 años a partir del final del año de la realización de la obra, a falta de su publicación o divulgación autorizada dentro de un plazo de 50 años contado a partir de su realización.

 - c) la primera distribución pública del original y de cada copia del fonograma mediante venta, arrendamiento o cualquier otro medio; y
 - d) el arrendamiento del original o de una copia del fonograma, excepto cuando exista estipulación expresa en otro sentido en un contrato celebrado entre el productor del fonograma y los autores de las obras fijadas en el mismo.
2. Cada Parte dispondrá que la introducción del original o de una copia de un fonograma en el mercado, con el consentimiento del titular del derecho, no agote el derecho de arrendamiento.
3. Cada Parte establecerá un periodo de protección para los fonogramas de por lo menos 50 años, contado a partir del final del año en que se haya hecho la primera fijación.
4. Cada Parte circunscribirá las limitaciones o excepciones a los derechos que establece este artículo a casos especiales determinados que no impidan la explotación normal del fonograma ni ocasionen perjuicios injustificados a los legítimos intereses del titular del derecho.

Artículo 16-13: Protección de señales de satélite portadoras de programas.

1. Dentro del año siguiente a la entrada en vigor de este Tratado, cada Parte:
-

- b) establecerá como causa de responsabilidad civil la recepción, en relación con actividades comerciales, o la ulterior distribución de una señal de satélite cifrada portadora de programas, que ha sido recibida sin autorización del distribuidor legítimo de la señal, o la participación en cualquier actividad prohibida conforme al literal a).

Sección C - Propiedad industrial

Marcas

Artículo 16-15: Materia objeto de protección.

1. Podrá constituir una marca cualquier signo o combinación de signos que permita distinguir los bienes o servicios de una persona de los de otra, inclusive nombres de personas, diseños, letras, números, colores, elementos figurativos, o la forma de los bienes o la de su empaque. Las marcas incluirán las de servicio y las colectivas. Cada Parte podrá establecer como condición para el registro de las marcas que los signos sean visibles.

2. La naturaleza de los bienes y servicios a los que se aplica una marca no será, en ningún caso, obstáculo para su registro.
3. Las Partes ofrecerán a las personas interesadas una oportunidad razonable para oponerse al registro de una marca o para solicitar la cancelación del mismo.

Artículo 16-16: Derechos conferidos.

El titular de una marca registrada tendrá el derecho de impedir a cualquier tercero que no cuente con el consentimiento del titular, usar en el comercio signos idénticos o similares para bienes o servicios que sean idénticos o similares a aquéllos para los que se ha registrado la marca del titular, cuando ese uso genere una probabilidad de confusión. Se presumirá que existe probabilidad de confusión cuando se use un signo idéntico o similar para bienes o servicios idénticos o similares. Los derechos antes mencionados se otorgarán sin perjuicio de derechos existentes con anterioridad y no afectarán la posibilidad de cada Parte para reconocer derechos sobre la base del uso.

Artículo 16-17: Marcas notoriamente conocidas.

1. Cada Parte aplicará el artículo 6bis del Convenio de París, con las modificaciones que corresponda, a las marcas de servicio. Se entenderá que una marca es notoriamente conocida en una Parte cuando un sector determinado del público o de los círculos comerciales de la Parte conozca la marca como consecuencia de las actividades comerciales desarrolladas en una Parte o fuera de ésta, por una persona que emplea esa marca en relación con sus bienes o servicios. A efecto de demostrar la notoriedad de la marca, podrá emplearse todos los medios probatorios admitidos en la Parte de que se trate.
2. Ninguna Parte registrará como marca aquellos signos o figuras iguales o similares a una marca notoriamente conocida, para ser aplicada a cualquier bien o servicio, en cualquier caso en que el uso de la marca, por quien solicita su registro, pudiese crear confusión o un riesgo de asociación con la persona referida en el párrafo 1, o constituyese un aprovechamiento injusto del prestigio de la marca. Esta prohibición no será aplicable cuando el solicitante del registro sea la persona referida en el párrafo 1.
3. La persona que inicie una acción de nulidad de un registro de marca concedido en contravención del párrafo 2, deberá acreditar haber solicitado, en una Parte, el registro de la marca notoriamente conocida, cuya titularidad reivindica.

Artículo 16-18: Marcas registradas.

1. Cuando en las Partes existan registros sobre una marca idéntica o similar a nombre de titulares diferentes, para distinguir bienes o servicios idénticos o similares, se prohibirá la comercialización de los bienes o servicios identificados con esa marca en el territorio de la otra Parte donde se encuentre también registrada, salvo que los titulares de esas marcas suscriban acuerdos que permitan esa comercialización.
2. Los titulares de las marcas que suscriban los acuerdos mencionados en el párrafo 1, deberán adoptar las provisiones necesarias para evitar la confusión del público respecto del origen de los bienes o servicios de que se trate, incluyendo lo relativo a la identificación del origen de los bienes o servicios en cuestión, con caracteres destacados y proporcionales a los

mismos para la debida información al público consumidor. Esos acuerdos deberán respetar las normas sobre prácticas comerciales y promoción de la libre competencia e inscribirse en las oficinas nacionales competentes.

3. En cualquier caso, no se prohibirá la importación de un bien o servicio que se encuentre en la situación descrita en el párrafo 2, cuando la marca no esté siendo utilizada por su titular en el territorio de la Parte importadora, salvo que el titular de esa marca presente razones válidas apoyadas en la existencia de obstáculos para el uso. Cada Parte reconocerá como razones válidas para la falta de uso, las circunstancias ajenas a la voluntad del titular de la marca que constituyan un obstáculo para el uso de la misma, tales como restricciones a la importación u otros requisitos gubernamentales aplicables a bienes o servicios identificados por la marca.

4. Se entenderá que una marca se encuentra en uso, cuando los bienes o servicios que ella distingue han sido puestos en el comercio o se encuentran disponibles en el mercado bajo esa marca, en la cantidad y del modo que normalmente corresponde, teniendo en cuenta la naturaleza de los bienes o servicios y las modalidades bajo las cuales se efectúa su comercialización en el mercado.

Artículo 16-19: Excepciones.

Cada Parte podrá establecer excepciones limitadas a los derechos conferidos por una marca, tal como el uso correcto de términos descriptivos, a condición de que, en las excepciones, se tomen en cuenta los intereses legítimos del titular de la marca y de terceros.

Artículo 16-20: Duración de la protección.

El registro inicial de una marca tendrá, por lo menos, una duración de diez años contados, de conformidad con la legislación de cada Parte, a partir de la fecha de la presentación de la solicitud o de la fecha de su concesión, y podrá renovarse indefinidamente por periodos sucesivos no menores de diez años, siempre que se satisfagan las condiciones para su renovación.

Artículo 16-21: Uso de la marca.

1. Cada Parte exigirá el uso de una marca para mantener el registro. El registro podrá cancelarse por falta de uso únicamente después de que transcurra, como mínimo, un periodo ininterrumpido de falta de uso de dos años, a menos de que el titular de la marca demuestre razones válidas apoyadas en la existencia de obstáculos para el uso. Cada Parte reconocerá como razones válidas para la falta de uso, las circunstancias referidas en el párrafo 3 del artículo 16-18.

2. Para fines de mantener el registro, se reconocerá el uso de una marca por una persona distinta del titular de la marca, cuando ese uso esté sujeto al control del titular.

Artículo 16-22: Otros requisitos.

No se dificultará en el comercio el uso de una marca mediante requisitos especiales, tales como un uso que disminuya la función de la marca como indicación de procedencia, o un uso con otra marca.

Artículo 16-23: Licencias y cesión.

Cada Parte podrá establecer condiciones para el licenciamiento y cesión de marcas, quedando entendido que no se permitirán las licencias obligatorias de marcas y que el titular de una marca registrada tendrá derecho a cederla con o sin la transferencia de la empresa a que pertenezca la marca.

Artículo 16-24: Franquicias.

Cada Parte protegerá y facilitará el establecimiento de franquicias permitiendo la celebración de contratos que incluyan la licencia de uso de una marca, la transmisión de conocimientos técnicos o de asistencia técnica, para que la persona a quien se le concede esa franquicia pueda producir o vender bienes o prestar servicios de manera uniforme y con los métodos operativos, comerciales y administrativos establecidos por el titular de la marca, tendientes a mantener la calidad, prestigio e imagen de los bienes o servicios a los que ésta distingue.

Indicaciones geográficas y denominaciones de origen

Artículo 16-25: Protección de las indicaciones geográficas y de las denominaciones de origen.

1. Cada Parte protegerá las denominaciones de origen y las indicaciones geográficas, en los términos de su legislación.
 2. Cada Parte podrá declarar la protección de denominaciones de origen o, en su caso, de indicaciones geográficas, según lo prevea su legislación, a solicitud de las autoridades competentes de la Parte donde la denominación de origen esté protegida.
 3. Las denominaciones de origen o las indicaciones geográficas protegidas en una Parte no serán consideradas comunes o genéricas para distinguir el bien, mientras subsista su protección en el país de origen.
 4. En relación con las denominaciones de origen y las indicaciones geográficas, cada Parte establecerá los medios legales para que las personas interesadas puedan impedir:
 - a) el uso de cualquier medio que, en la designación o presentación del bien, indique o sugiera que el bien de que se trate proviene de un territorio, región o localidad distinto del verdadero lugar de origen, de modo que induzca al público a error en cuanto al origen geográfico del bien; y
 - b) cualquier otra utilización que constituya un acto de competencia desleal en el sentido del artículo 10bis del Convenio de París.
 5. Cada Parte, de oficio si su legislación lo permite, o a petición de persona interesada, negará o anulará el registro de una marca que contenga o consista en una indicación geográfica o denominación de origen respecto a bienes que no se originen en el territorio, región o localidad indicado, si el uso de esa indicación en la marca para esos bienes es de naturaleza tal que induzca al público a error en cuanto al verdadero lugar de origen de los bienes.
-

6. Los párrafos 4 y 5 se aplican a toda denominación de origen o indicación geográfica que, aunque indique de manera correcta el territorio, región o localidad en que se originan los bienes, proporcione al público una idea falsa de que éstos se originan en otro territorio, región o localidad.

Diseños industriales

Artículo 16-26: Condiciones para la protección.

1. Cada Parte otorgará protección a los diseños industriales nuevos u originales que sean de creación independiente. Cada Parte podrá establecer que los diseños no se consideren nuevos u originales si no difieren en grado significativo de diseños conocidos o de combinaciones de características de diseños conocidos. Cada Parte podrá establecer que esa protección no se extienda a los diseños basados esencialmente en consideraciones funcionales o técnicas.

2. Cada Parte garantizará que los requisitos para obtener la protección de diseños industriales, particularmente en lo que se refiere a cualquier costo, examen o publicación, no menoscaben injustificadamente la oportunidad de una persona para solicitar y obtener esa protección.

Artículo 16-27: Duración de la protección.

Cada Parte otorgará un periodo de protección para los diseños industriales de por lo menos diez años, contados a partir de la fecha de la presentación de la solicitud.

Artículo 16-28: Derechos conferidos.

1. El titular de un diseño industrial tendrá el derecho de impedir que terceros que no cuenten con el consentimiento del titular, fabriquen o vendan bienes que ostenten o incorporen su diseño o que fundamentalmente copien el mismo, cuando esos actos se realicen con fines comerciales.

2. Cada Parte podrá prever excepciones limitadas a la protección de los diseños industriales, a condición de que esas excepciones no interfieran la explotación normal de los diseños industriales de manera indebida, ni ocasionen un perjuicio injustificado a los legítimos intereses del titular del diseño, tomando en cuenta los intereses legítimos de terceros.

Patentes

Artículo 16-29: Materia patentable.

1. Sujeto a lo dispuesto en los párrafos 2 y 3, las patentes se otorgarán para invenciones, ya sean de bienes o de procesos, en aquellas áreas tecnológicas que permita la legislación de cada Parte, siempre que sean nuevas, resulten de una actividad inventiva y sean susceptibles de aplicación industrial.

2. Sujeto a lo dispuesto en el párrafo 3, no habrá discriminación en el otorgamiento de las patentes, ni en el goce de los derechos respectivos, en función del campo de la tecnología, del territorio del país en que la invención fue realizada o de si los bienes son importados o producidos localmente.

3. Cada Parte podrá excluir de la patentabilidad las invenciones cuya explotación comercial en su territorio deba impedirse para proteger el orden público o la moral, inclusive para proteger la salud o la vida humana, animal o vegetal, o para evitar daño grave a la naturaleza o al ambiente, siempre que esa exclusión no se fundamente únicamente en que la Parte prohíba en su territorio la explotación comercial de la materia que sea objeto de la patente.

4. De conformidad con su legislación, cada Parte otorgará protección a las variedades vegetales. Cada Parte procurará, en la medida en que sus sistemas sean compatibles, atender las disposiciones sustantivas vigentes del Convenio UPOV.

Artículo 16-30: Derechos conferidos.

1. Una patente conferirá a su titular los siguientes derechos exclusivos:

- a) cuando la materia de una patente sea un bien, el de impedir que terceros, sin su consentimiento, fabriquen, usen o vendan la materia objeto de la patente; y
- b) cuando la materia de la patente sea un proceso, el de impedir que terceros, sin su consentimiento, utilicen el proceso y usen, vendan o importen por lo menos el bien obtenido directamente de ese proceso.

2. Los titulares de las patentes tendrán asimismo el derecho de ceder o transferir por cualquier medio la patente y de concertar contratos de licencia.

Artículo 16-31: Excepciones.

Cada Parte podrá prever excepciones limitadas a los derechos exclusivos conferidos por una patente, a condición de que esas excepciones no impidan la explotación normal de la patente de manera indebida, ni ocasionen un perjuicio injustificado a los intereses legítimos de terceros.

Artículo 16-32: Otros usos sin autorización del titular del derecho.

1. Cuando la legislación de una Parte permita otros usos de la materia objeto de una patente, distintos a los permitidos conforme al artículo 16-31, sin autorización del titular del derecho, incluido el uso por el gobierno o por terceros autorizados por el gobierno, se observarán las siguientes disposiciones:

- a) la autorización de esos usos se considerará en función del fondo del asunto del que se trate;
- b) sólo podrá permitirse esos usos cuando, con anterioridad a los mismos, el usuario potencial hubiera hecho esfuerzos por obtener la autorización del titular del derecho en términos y condiciones comerciales razonables y esos esfuerzos no hubiesen tenido éxito en un plazo razonable. Cada Parte podrá soslayar requisitos en casos de emergencia nacional o en circunstancias de extrema urgencia, o en casos de uso público sin fines comerciales. No obstante, en situaciones de emergencia nacional o en circunstancias de extrema urgencia, se notificará al titular del derecho tan pronto como sea razonablemente posible. En el caso de uso público sin fines comerciales, cuando el gobierno o el contratista, sin hacer una búsqueda de patentes, sepa o tenga bases comprobables para saber que una

- patente válida es o será utilizada por o para el gobierno, se informará con prontitud al titular del derecho;
- c) el alcance y duración de esos usos se limitarán a los fines para los que hayan sido autorizados;
 - d) esos usos no serán exclusivos;
 - e) esos usos no podrán cederse, excepto junto con la parte de la empresa que goce esos usos;
 - f) se autorizarán esos usos principalmente para abastecer el mercado interno de la Parte que los autorice;
 - g) a reserva de la protección adecuada de los intereses legítimos de las personas que han recibido autorización para esos usos, podrá revocarse su autorización, si las circunstancias que la motivaron dejan de existir y sea improbable que se susciten nuevamente. La autoridad competente estará facultada para revisar, previa petición fundada, si esas circunstancias siguen existiendo;
 - h) al titular del derecho se le pagará una remuneración adecuada según las circunstancias de cada caso, habida cuenta del valor económico de la autorización;
 - i) la validez jurídica de cualquier resolución relativa a la autorización de esos usos estará sujeta a revisión judicial o a una revisión independiente por una autoridad superior diferente;
 - j) cualquier resolución relativa a la remuneración otorgada para esos usos estará sujeta a revisión judicial o a una revisión independiente por una autoridad superior diferente;
 - k) ninguna Parte estará obligada a aplicar las condiciones establecidas en los literales b) y f) cuando esos usos se permitan para corregir una práctica que, en virtud de un procedimiento judicial o administrativo, se haya encontrado contraria a la libre competencia. La autoridad competente estará facultada para rechazar la revocación de la autorización si resulta probable que las condiciones que la motivaron se repitan; y
 - l) ninguna Parte autorizará el uso de la materia objeto de una patente para permitir la explotación de otra patente, salvo para corregir una infracción que hubiere sido sancionada en un procedimiento sobre prácticas contrarias a la libre competencia de conformidad con su legislación.

Artículo 16-33: Revocación.

Cada Parte podrá revocar una patente solamente cuando:

- a) existan motivos que habrían justificado la negativa de otorgarla; o

- b) el otorgamiento de una licencia obligatoria no haya corregido su falta de explotación.

Artículo 16-34: Pruebas en casos de infracción de procesos patentados.

1. Cuando la materia de una patente es un proceso para la obtención de un bien, cada Parte dispondrá que, en cualquier procedimiento de infracción, el demandado tenga la carga de probar que el bien objeto de la presunta infracción fue hecho por un proceso diferente al patentado, en el caso de que:

- a) el bien obtenido por el proceso patentado sea nuevo; o
- b) exista una probabilidad significativa de que el bien objeto de la presunta infracción haya sido fabricado mediante el proceso patentado y el titular de la patente no haya logrado, mediante esfuerzos razonables, determinar el proceso efectivamente utilizado.

2. En la recopilación y valoración de las pruebas se tomará en cuenta el interés legítimo del demandado para la protección de su información no divulgada.

Artículo 16-35: Duración de la protección.

Cada Parte establecerá un periodo de protección para las patentes de por lo menos 20 años, contado a partir de la fecha de presentación de la solicitud.

Modelos de utilidad

Artículo 16-36: Protección a los modelos de utilidad.

1. Cada Parte protegerá los modelos de utilidad, entendidos como objetos, utensilios, aparatos y herramientas que, como resultado de una modificación en su disposición, configuración, estructura o forma, presenten una función diferente respecto de las partes que los integran o ventajas en cuanto a su utilidad.

2. El registro de los modelos de utilidad tendrá una vigencia de diez años improrrogables contados a partir de la fecha de presentación de la solicitud.

Protección a la información no divulgada

Artículo 16-37: Protección de los secretos industriales y de negocios.

1. Cada Parte protegerá los secretos industriales y de negocios, entendidos éstos como aquellos que incorporan información de aplicación industrial o comercial que, guardada con carácter confidencial, permita a una persona obtener o mantener una ventaja competitiva frente a terceros en la realización de actividades económicas.

2. Las personas tendrán los medios legales para impedir que los secretos industriales y de negocios se revelen, adquieran o usen por terceros sin el consentimiento de la persona que

legalmente tenga bajo control la información, de manera contraria a las prácticas leales del comercio, tales como el incumplimiento de contratos, el abuso de confianza, la instigación a la infracción y la adquisición de información no divulgada por terceros que supieran, o que no supieran por negligencia grave, que la adquisición implicaba esas prácticas, siempre que:

- a) la información sea secreta, en el sentido de que, como conjunto o en la configuración y composición precisas de sus elementos, no sea conocida en general ni fácilmente accesible a las personas integrantes de los círculos que normalmente manejan el tipo de información de que se trate;
- b) la información tenga un valor comercial efectivo o potencial por ser secreta; y
- c) en las circunstancias dadas, la persona que legalmente la tenga bajo control haya adoptado medidas razonables para mantenerla secreta.

3. Para otorgar la protección a que se refiere este artículo, cada Parte exigirá que un secreto industrial y de negocios conste en documentos, medios electrónicos o magnéticos, discos ópticos, microfilmes, películas u otros instrumentos similares.

4. Ninguna Parte podrá limitar la duración de la protección para los secretos industriales y de negocios, en tanto existan las condiciones descritas en los literales a), b) y c) del párrafo 2.

5. Ninguna Parte desalentará ni impedirá el licenciamiento voluntario de secretos industriales y de negocios imponiendo condiciones excesivas o discriminatorias a esas licencias, o condiciones que diluyan el valor de los secretos industriales y de negocios.

Artículo 16-38: Protección de datos de bienes farmoquímicos o agroquímicos.

1. Si como condición para aprobar la comercialización de bienes farmoquímicos o de bienes agroquímicos que utilicen nuevos componentes químicos, una Parte exige la presentación de datos sobre experimentos o de otro tipo que no se hayan publicado y que sean necesarios para determinar su seguridad y eficacia, esa Parte protegerá los datos referidos, siempre que su generación implique un esfuerzo considerable, salvo cuando la publicación de esos datos sea necesaria para proteger al público o cuando se adopten medidas para garantizar la protección de los datos contra todo uso comercial desleal.

2. Cada Parte dispondrá, respecto de los datos mencionados en el párrafo 1 que le sean presentados después de la entrada en vigor de este Tratado, que ninguna persona distinta a la que los haya presentado pueda, sin autorización de esta última, contar con esos datos en apoyo a una solicitud para la aprobación de un bien durante un periodo razonable después de su presentación. Para este fin, por periodo razonable se entenderá normalmente un lapso no menor a cinco años contado a partir de la fecha en que la Parte haya concedido a la persona que produjo los datos, la aprobación para poner en el mercado su bien, tomando en cuenta la naturaleza de los datos y los esfuerzos y gastos de la persona para generarlos. Sujeto a esta disposición, nada impedirá que una Parte lleve a cabo procedimientos sumarios de aprobación para esos bienes sobre la base de estudios de bioequivalencia o biodisponibilidad.

Sección D - Observancia de los derechos de propiedad intelectual

Artículo 16-39: Disposiciones generales.

1. Cada Parte garantizará que en su legislación se establezcan procedimientos de observancia de los derechos de propiedad intelectual conforme a lo previsto en este artículo y en los artículos 16-40 al 16-43, que permitan la adopción de medidas eficaces contra cualquier acción infractora de los derechos de propiedad intelectual a que se refiere este capítulo, incluyendo recursos ágiles para prevenir las infracciones y recursos que constituyan un medio eficaz de disuasión de nuevas infracciones. Estos procedimientos se aplicarán de forma que se evite la creación de obstáculos al comercio legítimo y preverán salvaguardias contra su abuso.
2. Los procedimientos relativos a la observancia de los derechos de propiedad intelectual serán justos y equitativos, y no serán innecesariamente complicados o gravosos ni comportarán plazos injustificados o retrasos indebidos.
3. Las decisiones sobre el fondo de un caso se formularán por escrito y contendrán las razones en que se fundan. Esas decisiones se pondrán a disposición al menos de las partes en litigio, sin retrasos indebidos, y sólo se basarán en pruebas acerca de las cuales se haya dado a las partes la oportunidad de ser oídas.
4. Se dará a las partes en litigio la oportunidad de una revisión por una autoridad judicial de las decisiones administrativas finales y de al menos los aspectos jurídicos de todas las decisiones judiciales de primera instancia sobre el fondo del caso, con sujeción a las disposiciones en materia de competencia jurisdiccional de las leyes relativas a la importancia de un caso. Sin embargo, no será obligatorio darles la oportunidad de revisión de las sentencias absolutorias dictadas en casos penales.
5. Queda entendido que esta sección no impone ninguna obligación de instaurar un sistema judicial para la observancia de los derechos de propiedad intelectual distinto del ya existente para la aplicación de la legislación en general. Asimismo, la aplicación de esos derechos no crea obligación alguna con respecto a la distribución de los recursos entre los medios destinados a lograr la observancia de los derechos de propiedad intelectual y los destinados a la observancia de las leyes en general.

Artículo 16-40: Aspectos procesales específicos y recursos en los procedimientos civiles y administrativos.

1. Cada Parte pondrá al alcance de los titulares de derechos los procedimientos judiciales civiles para la defensa de cualquier derecho de propiedad intelectual comprendido en este capítulo y preverá que:
 - a) los demandados tengan derecho a recibir una notificación oportuna por escrito en la que conste con suficiente detalle el fundamento de la reclamación;
 - b) se autorice a las partes en un procedimiento a estar representadas por un abogado independiente;
 - c) los procedimientos no impongan requisitos excesivos de comparencias personales obligatorias;

- d) todas las partes en un procedimiento estén debidamente facultadas para sustanciar sus pretensiones y presentar pruebas pertinentes; y
 - e) los procedimientos incluyan medios para identificar y proteger la información confidencial.
2. Cada Parte preverá que sus autoridades judiciales tengan la facultad de:
- a) ordenar que, cuando una parte en un procedimiento haya presentado las pruebas suficientes a las que razonablemente tenga acceso como base de sus alegatos y haya identificado alguna prueba pertinente para sustanciar sus alegatos que se encuentre bajo el control de la contraparte, esta última aporte esa prueba, con sujeción, en su caso, a las condiciones que garanticen la protección de la información confidencial;
 - b) dictar resoluciones preliminares y definitivas, de naturaleza positiva o negativa, en caso de que una de las partes en un procedimiento, voluntariamente y sin motivo válido, niegue el acceso a pruebas o no proporcione pruebas pertinentes bajo su control en un plazo razonable u obstaculice de manera significativa un procedimiento relativo a un caso de defensa de derechos de propiedad intelectual. Esas resoluciones se dictarán con base en las pruebas presentadas, incluyendo la demanda o los alegatos presentados por la parte que afecte desfavorablemente la denegación del acceso a las pruebas, a condición de que se conceda a las partes la oportunidad de ser oídas respecto de los alegatos o las pruebas;
 - c) ordenar a una parte en un procedimiento que desista de la presunta infracción hasta la resolución final del caso, incluso para impedir que los bienes importados que impliquen la infracción de un derecho de propiedad intelectual entren en los circuitos comerciales de su jurisdicción. Esta orden se pondrá en práctica al menos inmediatamente después del despacho aduanal de esos bienes;
 - d) ordenar al infractor de un derecho de propiedad intelectual que pague al titular del derecho un resarcimiento adecuado como compensación por el daño que el titular del derecho haya sufrido como consecuencia de la infracción, cuando el infractor sabía que estaba involucrado en una actividad infractora o tenía fundamentos razonables para saberlo;
 - e) ordenar al infractor de un derecho de propiedad intelectual que cubra los gastos del titular del derecho, que podrán incluir los honorarios apropiados de abogado; y
 - f) ordenar a una parte en un procedimiento, a cuya solicitud se hubieran adoptado medidas y que hubiera abusado de los procedimientos de defensa, que proporcione una adecuada compensación a cualquier parte erróneamente sometida o restringida en el procedimiento, por concepto de daño sufrido a causa de ese abuso y para pagar los gastos de esa parte, que podrán incluir honorarios apropiados de abogado.
3. Con relación a la facultad señalada en el literal c) del párrafo 2, ninguna Parte estará obligada a otorgar esa facultad respecto a la materia objeto de protección que hubiera sido

adquirida u ordenada por una persona antes que esa persona supiera que el tratar con esa materia implicaría la infracción de un derecho de propiedad intelectual o tuviera fundamentos razonables para saberlo.

4. Con respecto a la facultad indicada en el literal d) del párrafo 2, cada Parte podrá, al menos en lo relativo a las obras protegidas por derechos de autor y a los fonogramas, prever en favor de las autoridades judiciales la facultad de ordenar la recuperación de ganancias o el pago de daños previamente determinados, o ambos, aun cuando el infractor no supiera que estaba involucrado en una actividad infractora o no tuviera fundamentos razonables para saberlo.

5. Cada Parte preverá, con objeto de disuadir eficazmente que se cometan infracciones, que sus autoridades judiciales tengan la facultad de ordenar que:

- a) los bienes que éstas hayan determinado que infringen los derechos de propiedad intelectual sean, sin indemnización de ningún tipo, retirados de los circuitos comerciales de modo tal que se evite cualquier daño al titular del derecho, o bien se destruyan, siempre que no sea contrario a las disposiciones constitucionales vigentes; y
- b) los materiales e instrumentos que se hayan utilizado predominantemente para la producción de bienes objeto de infracciones sean, sin indemnización de ningún tipo, retirados de los circuitos comerciales de modo tal que se reduzcan al mínimo los riesgos de infracciones subsecuentes.

6. Al considerar la emisión de las órdenes a que se refiere el párrafo 5, las autoridades judiciales de cada Parte tomarán en cuenta la necesidad de proporcionalidad entre la gravedad de la infracción y las medidas ordenadas, así como los intereses de otras personas, incluidos los del titular del derecho. En cuanto a los bienes falsificados, la simple remoción de la marca ilícitamente adherida no será suficiente para permitir el despacho de aduanas de los bienes, salvo en casos excepcionales tales como aquellos en que la autoridad disponga su donación a instituciones de beneficencia.

7. Con respecto a la administración de cualquier ley relativa a la protección o defensa de los derechos de propiedad intelectual, cada Parte sólo eximirá a las autoridades y funcionarios públicos de la responsabilidad a que den lugar las medidas correctoras apropiadas, cuando las acciones se hayan adoptado o dispuesto de buena fe durante la administración de esas leyes.

8. Sin perjuicio de las disposiciones de los artículos 16-39 al 16-43, cuando una Parte sea demandada por la infracción de un derecho de propiedad intelectual como resultado del uso, por ésta o por su cuenta, de ese derecho, esa Parte podrá establecer como único recurso disponible contra ella, el pago de una compensación adecuada al titular del derecho, según las circunstancias del caso, tomando en consideración el valor económico del uso.

9. Cada Parte preverá que cuando pueda ordenarse una reparación de naturaleza civil como resultado de procedimientos administrativos sobre el fondo de un asunto, esos procedimientos se ajusten a los principios que sean esencialmente equivalentes a los enunciados en este artículo.

Artículo 16-41: Medidas precautorias.

1. Cada Parte preverá que sus autoridades judiciales tengan la facultad de ordenar medidas precautorias rápidas y eficaces para:
 - a) evitar una infracción de cualquier derecho de propiedad intelectual y, en particular, evitar la introducción de bienes objeto de la presunta infracción en el comercio dentro de su jurisdicción, incluyendo medidas para evitar la entrada de bienes importados al menos inmediatamente después del despacho aduanal; y
 - b) conservar las pruebas pertinentes relacionadas con la presunta infracción.

 2. Cada Parte preverá que sus autoridades judiciales tengan la facultad de ordenar a un solicitante de medidas precautorias que presente cualquier prueba a la que razonablemente tenga acceso y que esas autoridades consideren necesaria para determinar con un grado suficiente de certidumbre si:
 - a) el solicitante es el titular del derecho;
 - b) el derecho del solicitante está siendo infringido o si esa infracción es inminente; y
 - c) cualquier demora en la emisión de esas medidas tiene la probabilidad de llegar a causar un daño irreparable al titular del derecho o si existe un riesgo comprobable de que se destruyan las pruebas.

 3. Para efectos del párrafo 2, cada Parte preverá que sus autoridades judiciales tengan la facultad de ordenar al solicitante que aporte una fianza o garantía equivalente que sea suficiente para proteger los intereses del demandado y para evitar abusos.

 4. Cada Parte preverá que sus autoridades competentes tengan la facultad de ordenar a un solicitante de medidas precautorias que proporcione cualquier información necesaria para la identificación de los bienes relevantes por parte de la autoridad que ejecute las medidas precautorias.

 5. Cada Parte preverá que sus autoridades judiciales tengan la facultad de ordenar medidas precautorias en las que no se dé audiencia a la contraparte, en particular cuando haya probabilidad de que cualquier retraso cause daño irreparable al titular del derecho o cuando haya un riesgo comprobable de que se destruyan las pruebas.

 6. Cada Parte preverá que cuando se adopten medidas precautorias por las autoridades judiciales de esa Parte en las que no se dé audiencia a la contraparte:
 - a) la persona afectada sea notificada de esas medidas sin demora y en ningún caso a más tardar inmediatamente después de la ejecución de las medidas; y
 - b) el demandado, a partir de que lo solicite, obtenga la revisión judicial de las medidas por parte de las autoridades judiciales de esa Parte, para efecto de decidir, dentro de un plazo razonable después de la notificación de esas medidas, si éstas serán modificadas, revocadas o confirmadas.
-

7. Sin perjuicio de lo dispuesto en el párrafo 6, cada Parte preverá que, a solicitud del demandado, las autoridades judiciales de la Parte revoquen o dejen de alguna manera sin efecto las medidas precautorias tomadas con fundamento en los párrafos 1 al 5, si los procedimientos conducentes a una decisión sobre el fondo del asunto no se inician:

- a) dentro de un periodo razonable que determine la autoridad judicial que ordena las medidas, cuando la legislación de esa Parte lo permita; o
- b) a falta de esa determinación, dentro de un plazo no mayor de 20 días hábiles o 31 días, aplicándose el que sea más extenso.

8. Cada Parte preverá que, cuando las medidas precautorias sean revocadas, cuando caduquen por acción u omisión del solicitante o cuando la autoridad judicial determine posteriormente que no hubo infracción ni amenaza de infracción de un derecho de propiedad intelectual, las autoridades judiciales tengan la facultad de ordenar al solicitante, a petición del demandado, que proporcione a éste último una compensación adecuada por cualquier daño causado por estas medidas.

9. Cada Parte preverá que, cuando pueda ordenarse una medida precautoria como resultado de procedimientos administrativos, esos procedimientos se ajusten a los principios que sean esencialmente equivalentes a los establecidos en este artículo.

Artículo 16-42: Procedimientos y sanciones penales.

1. Cada Parte preverá procedimientos y sanciones penales que se apliquen cuando menos en los casos de falsificación dolosa de marcas o de ejemplares protegidos por derechos de autor a escala comercial. Cada Parte dispondrá que las sanciones aplicables incluyan pena de prisión o multas, o ambas, que sean suficientes como medio de disuasión y compatibles con el nivel de las sanciones aplicadas a delitos de gravedad equiparable.

2. Cada Parte preverá que sus autoridades judiciales puedan ordenar el decomiso y la destrucción de los bienes objeto de infracciones y de cualquiera de los materiales e instrumentos que se hayan utilizado predominantemente para la comisión del ilícito.

3. Para efectos del párrafo 2, las autoridades judiciales tomarán en cuenta, al considerar la emisión de esas órdenes, la necesidad de proporcionalidad entre la gravedad de la infracción y las medidas ordenadas, así como los intereses de otras personas incluidos los del titular del derecho. En cuanto a los bienes falsificados, la simple remoción de la marca ilícitamente adherida no será suficiente para permitir el despacho de aduanas de los bienes, salvo en casos excepcionales, tales como aquellos en que la autoridad disponga su donación a instituciones de beneficencia.

4. Cada Parte podrá prever la aplicación de procedimientos y sanciones penales en casos de infracción de derechos de propiedad intelectual distintos de aquéllos a que se refiere el párrafo 1, cuando se cometan con dolo y a escala comercial.

Artículo 16-43: Defensa de los derechos de propiedad intelectual en la frontera.

1. Cada Parte adoptará, de conformidad con este artículo, los procedimientos que permitan al titular de un derecho que tenga motivos válidos para sospechar que puede producirse la

importación de bienes falsificados o pirateados relacionados con marcas o derechos de autor, presentar una solicitud por escrito ante las autoridades competentes, sean administrativas o judiciales, para que la autoridad aduanera suspenda la libre circulación de esos bienes. Ninguna Parte estará obligada a aplicar esos procedimientos a los bienes en tránsito. Cada Parte podrá autorizar la presentación de una solicitud de esta naturaleza respecto de los bienes que impliquen otras infracciones de derechos de propiedad intelectual, siempre que se cumplan los requisitos de este artículo. Cada Parte podrá establecer también procedimientos análogos para la suspensión por las autoridades aduaneras del despacho de aduanas de los bienes destinados a la exportación desde su territorio.

2. Cada Parte preverá que sus autoridades competentes tengan la facultad de ordenar a cualquier solicitante que inicie un procedimiento de conformidad con el párrafo 1, que presente pruebas adecuadas para:

- a) que las autoridades competentes de la Parte importadora se cercioren de que puede presumirse una infracción a los derechos de propiedad intelectual conforme a su legislación; y
- b) para brindar una descripción suficientemente detallada de los bienes que los haga fácilmente reconocibles para las autoridades aduaneras.

3. Cada Parte preverá que sus autoridades competentes comuniquen al actor, dentro de un plazo razonable, si han aceptado la demanda y, cuando sean esas autoridades competentes quienes lo establezcan, el plazo de actuación de las autoridades aduaneras.

4. Cada Parte preverá que sus autoridades competentes tengan la facultad de ordenar a un solicitante conforme al párrafo 1, que aporte una fianza o garantía equivalente que sea suficiente para proteger al demandado y a las autoridades competentes y para impedir abusos. Esa fianza o garantía equivalente no deberá disuadir de manera indebida al solicitante para recurrir a esos procedimientos.

5. Cada Parte preverá que, el propietario, el importador o el consignatario de bienes que conlleven diseños industriales, patentes o secretos industriales y de negocios, tenga el derecho a obtener que se proceda al despacho de aduanas de los mismos, previo depósito de una fianza por un importe suficiente para proteger al titular del derecho contra cualquier infracción, siempre que:

- a) como consecuencia de una demanda presentada de conformidad con los procedimientos de este artículo, las autoridades aduaneras hayan suspendido el despacho para la libre circulación de esos bienes, con fundamento en una resolución no dictada por una autoridad judicial o por otra autoridad independiente;
- b) el plazo estipulado en los párrafos 8, 9, 10 y 11 haya vencido sin que la autoridad competente hubiere dictado una medida de suspensión provisional; y
- c) se hayan cumplido con las demás condiciones para la importación.

6. El pago de la fianza a que se refiere el párrafo 5, se entenderá sin perjuicio de cualquier otro recurso que esté a disposición del titular del derecho, y se devolverá si el titular del derecho no ejerce su acción en un plazo razonable.

7. Cada Parte preverá que su autoridad competente notifique con prontitud al importador y al solicitante sobre la suspensión del despacho de aduanas de los bienes a que se refiere el párrafo 1.

8. Cada Parte preverá que su autoridad aduanera proceda al despacho de aduanas de los bienes siempre que se hayan cumplido todas las demás condiciones para la importación o exportación de éstos, si en un plazo que no exceda de diez días hábiles contado a partir de que se haya notificado mediante aviso la suspensión al solicitante, las autoridades aduaneras no han sido informadas de que:

- a) una parte que no sea el demandado ha iniciado el procedimiento conducente a la obtención de una decisión sobre el fondo del asunto; o
- b) la autoridad competente facultada al efecto ha adoptado medidas provisionales que prolongue la suspensión del despacho de aduanas de los bienes.

9. Para efectos del párrafo 8, cada Parte preverá que sus autoridades aduaneras tengan la facultad de prorrogar, en los casos que proceda, la suspensión del despacho de aduanas de los bienes por otros diez días hábiles.

10. Si se ha iniciado el procedimiento conducente a la obtención de una decisión sobre el fondo del asunto, a petición del demandado se procederá, en un plazo razonable, a una revisión. Esa revisión incluirá el derecho del demandado a ser oído, con objeto de decidir si esas medidas deben modificarse, revocarse o confirmarse.

11. Sin perjuicio de lo dispuesto en los párrafos 8, 9 y 10, cuando la suspensión del despacho de aduana se efectúe o se continúe de conformidad con una medida judicial precautoria, se aplicarán las disposiciones del párrafo 7 del artículo 16-41.

12. Cada Parte preverá que sus autoridades competentes tengan la facultad de ordenar al solicitante, de conformidad con el párrafo 1, que pague al importador, al consignatario y al propietario de los bienes una indemnización adecuada por cualquier daño que hayan sufrido a causa de la retención indebida de los bienes o por la retención de los bienes que se hayan liberado de conformidad con lo dispuesto en los párrafos 8 y 9.

13. Sin perjuicio de la protección a la información confidencial, cada Parte preverá que sus autoridades competentes tengan facultad de conceder:

- a) oportunidad suficiente al titular del derecho para hacer inspeccionar cualquier bien retenido por las autoridades aduaneras con el fin de sustanciar su reclamación; y
- b) una oportunidad equivalente al importador de hacer inspeccionar esos bienes.

14. Cuando las autoridades competentes hayan dictado una resolución favorable sobre el fondo del asunto, cada Parte podrá conferir a esas autoridades la facultad de proporcionar al

titular del derecho los nombres y domicilios del consignador, del importador y del consignatario, así como la cantidad de los bienes en cuestión.

15. Cuando una Parte requiera a sus autoridades competentes actuar por iniciativa propia y suspender el despacho de aduanas de los bienes respecto de los cuales tengan pruebas que, a primera vista, hagan presumir que infringen un derecho de propiedad intelectual:

- a) las autoridades competentes podrán requerir en cualquier momento al titular del derecho cualquier información que pueda auxiliarles en el ejercicio de esa facultad;
- b) el importador y el titular del derecho serán notificados de la suspensión, con prontitud, por las autoridades competentes de la Parte. Cuando el importador haya solicitado una reconsideración de la suspensión ante las autoridades competentes, esa suspensión estará sujeta, con las modificaciones conducentes, a lo dispuesto en los párrafos 8, 9, 10 y 11; y
- c) la Parte eximirá únicamente a las autoridades y funcionarios públicos de la responsabilidad a que den lugar las medidas correctivas adecuadas, tratándose de actos ejecutados o dispuestos de buena fe.

16. Sin perjuicio de las demás acciones que correspondan al titular del derecho y a reserva del derecho del demandado de solicitar una revisión ante una autoridad judicial, cada Parte preverá que sus autoridades competentes tengan la facultad de ordenar la destrucción o eliminación de los bienes objeto de infracciones de conformidad con los principios establecidos en los párrafos 5 y 6 del artículo 16-40. En cuanto a los bienes falsificados, las autoridades no permitirán, salvo en circunstancias excepcionales, que éstos se reexporten en el mismo estado ni los someterán a un procedimiento aduanal distinto.

17. Cada Parte podrá excluir de la aplicación de los párrafos 1 al 16, las cantidades pequeñas de bienes que no tengan carácter comercial y formen parte del equipaje personal de los viajeros o se envíen en pequeñas partidas no reiteradas.

18. Cada Parte realizará su mayor esfuerzo para cumplir tan pronto como sea posible con las obligaciones establecidas en este artículo, y lo hará en un plazo que no exceda de tres años contado a partir de la entrada en vigor de este Tratado.

2. Treatment granted under other agreements concluded by one of the Parties with a non-Party which have been notified under Article V of the GATS shall not be subject to paragraph 1.

3. If a Party enters into an agreement of the type referred to in paragraph 2, it shall, upon request from another Party, afford adequate opportunity to the other Parties to negotiate the benefits granted therein.

Article 24: Market Access

1. With respect to market access through the modes of supply identified in Article 22 (o), each Party shall accord services and service suppliers of another Party treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule⁴.

2. In sectors where market access commitments are undertaken, the measures which a Party shall not maintain or adopt either on the basis of a regional sub-division or on the basis of its entire territory, unless otherwise specified in its Schedule, are defined as:

- (a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;
- (b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

⁴ If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in Article 22 (o) (i) and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital. Article 25: National Treatment

1. In the sectors inscribed in its Schedule, and subject to any conditions and qualifications set out therein, each Party shall accord to services and service suppliers of another Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers⁶.

2. A Party may meet the requirement in paragraph 1 by according to services and service suppliers of another Party either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of a Party compared to like services or service suppliers of another Party.

Article 26: Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 24 and 25 above, including those regarding qualifications, standards or licensing matters. Such commitments shall be entered in a Party's Schedule.

1. The Parties shall liberalise trade in services between themselves, in conformity with Article V of the GATS.

2. Each Party shall set out in a Schedule the specific commitments it undertakes under Articles 24, 25 and 26. With respect to sectors where such commitments are undertaken, each Schedule shall specify:

⁵ Paragraph 2 (c) does not cover measures of a Party which limit inputs for the supply of services.

⁶ Specific commitments assumed under this Article shall not be construed to require any Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or services suppliers.

- (a) terms, limitations and conditions on market access;
- (b) conditions and qualifications on national treatment;
- (c) undertakings relating to additional commitments; and
- (d) where appropriate, the time-frame for implementation of such commitments.

3. Measures inconsistent with both Articles 24 and 25 shall be inscribed in the column relating to Article 24. In this case, the inscription will be considered to provide a condition or qualification to Article 25 as well.

4. The Parties' Schedules of specific commitments are set out in Annex VII, and form an integral part of this Chapter.

5. The Parties undertake to review their Schedules of specific commitments at least every two years, but earlier if so agreed, with a view to provide for the elimination of substantially all remaining discrimination between the Parties with regard to trade in services covered in this Chapter at the end of a transitional period of ten years from the date of entry into force of this Agreement. Such review shall continue if substantially all remaining discrimination has not been eliminated at the end of this transitional period. This paragraph is not subject to dispute settlement pursuant to Chapter IX.

Article 28: Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier of another Party, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

3. Where authorisation is required for the supply of a service on which a specific commitment has been made, the competent authorities of a Party shall promptly, after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Party shall provide, without undue delay, information concerning the status of the application.

4. The Parties shall jointly review the results of the negotiations on disciplines for certain regulations, including qualification requirements and procedures, technical standards and licensing requirements, pursuant to Article VI.4 of the GATS, with a view to their incorporation into this Agreement. The Parties note that such disciplines aim to ensure that such requirements are inter alia:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
- (b) not more burdensome than necessary to ensure the quality of the service;
- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

5. In sectors where a Party has undertaken specific commitments, subject to any terms, limitations, conditions or qualifications set out therein, pending the incorporation of disciplines developed pursuant to paragraph 4, a Party shall not apply licensing and qualification requirements and technical standards that nullify or impair such specific commitments in a manner which:

- (a) does not comply with the criteria outlined in paragraph 4 (a), (b) or (c) and
- (b) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.

6. Whenever a domestic regulation is prepared, adopted and applied in accordance with international standards of relevant international organisations⁷ applied by a Party, there shall be a rebuttable presumption that it complies with the provisions of this Article.

7. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of another Party.

Article 29: Subsidies

A Party which considers that it is adversely affected by a subsidy of another Party may request consultations with that Party on such matters. Such requests shall be accorded sympathetic consideration.

Article 30: Recognition

1. In principle no later than three years following the entry into force of this Agreement, the Joint Committee shall establish the necessary steps for the negotiation of agreements or arrangements providing for the mutual recognition of education or experience obtained, requirements, qualifications, licenses and other regulations, for the purpose of the fulfilment, in whole or in part, by service suppliers of the criteria applied by each Party for the authorisation, licensing, operation and certification of service suppliers.

2. Any such recognition conferred by a Party shall be in conformity with the relevant provisions of the WTO and, in particular, Article VII of the GATS.

3. Where a Party recognises, by agreement or arrangement, the education or experience obtained, requirements met or licenses or certifications granted in the territory of a non-Party,

⁷ The term "relevant international organisations" refers to international bodies whose membership is open to the relevant bodies of the Parties.

that Party shall accord another Party, upon request, adequate opportunity to negotiate its accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for another Party to demonstrate that the education or experience obtained, requirements met or licenses or certifications granted in the territory of that other Party should also be recognised.

Article 31: Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with the Party's obligations under its specific commitments.
2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's obligations under its specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.
3. If a Party has reason to believe that a monopoly supplier of a service of another Party is acting in a manner inconsistent with paragraph 1 or 2, it may request that other Party to provide specific information concerning the relevant operations.
4. The provisions of this Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect, (a) authorises or establishes a small number of service suppliers and (b) substantially prevents competition among those suppliers in its territory.

Article 32: Movement of Natural Persons

1. This Chapter applies to measures affecting natural persons who are service suppliers of a Party, and natural persons of a Party who are employed by a service supplier of a Party, in respect of the supply of a service. Natural persons covered by a Party's specific commitments shall be allowed to supply the service in accordance with the terms of those commitments.
2. This Chapter shall not apply to measures affecting natural persons seeking access to the employment market of a Party, nor shall it apply to measures regarding citizenship, residence or employment on a permanent basis.
3. This Chapter shall not prevent a Party from applying measures to regulate the entry of natural persons of another Party into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across, its borders, provided that such measures are not applied in a manner so as to nullify or impair the benefits accruing to a Party under the terms of a specific commitment⁸.

Article 33: General Exceptions

Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where like

⁸ The sole fact of requiring a visa for natural persons of a certain nationality and not for those of others shall not be regarded as nullifying or impairing benefits under a specific commitment.

conditions prevail, or a disguised restriction on trade in services, nothing in this Chapter shall be construed to prevent the adoption or enforcement by any Party of measures:

- (a) necessary to protect public morals or to maintain public order⁹;
- (b) necessary to protect human, animal or plant life or health;
- (c) necessary to secure compliance with laws or regulations which are not inconsistent with the provisions of this Chapter including those relating to:
 - (i) the prevention of deceptive and fraudulent practices or to deal with the effects of a default on services contracts;
 - (ii) the protection of the privacy of individuals in relation to the processing and dissemination of personal data and the protection of confidentiality of individual records and accounts;
 - (iii) safety;
- (d) inconsistent with Article 25, provided that the difference in treatment is aimed at ensuring the equitable or effective¹⁰ imposition or collection of direct taxes in respect of services or service suppliers of another Party;
- (e) inconsistent with Article 23, provided that the difference in treatment is the result of an agreement on the avoidance of double taxation or provisions on the avoidance of double taxation in any other international agreement or arrangement by which a Party is bound.

Article 34: Security Exceptions

Nothing in this Agreement shall be construed:

- (a) to require a Party to furnish or allow access to information the disclosure of which it considers contrary to its essential security interests;

⁹ The public order exception may be invoked only where a genuine and sufficiently serious threat is posed to one of the fundamental interests of society.

¹⁰ Measures that are aimed at ensuring the equitable or effective imposition or collection of direct taxes include measures taken by a Party under its taxation system which:

- (i) apply to non-resident service suppliers in recognition of the fact that the tax obligation of non-residents is determined with respect to taxable items sourced or located in the Party's territory; or
- (ii) apply to non-residents in order to ensure the imposition or collection of taxes in the Party's territory; or
- (iii) apply to non-residents or residents in order to prevent the avoidance or evasion of taxes, including compliance measures; or
- (iv) apply to consumers of services supplied in or from the territory of another Party in order to ensure the imposition or collection of taxes on such consumers derived from sources in the Party's territory; or
- (v) distinguish service suppliers subject to tax on worldwide taxable items from other service suppliers, in recognition of the difference in the nature of the tax base between them; or
- (vi) determine, allocate or apportion income, profit, gain, loss, deduction or credit of resident persons or branches, or between related persons or branches of the same person, in order to safeguard the Member's tax base.

Tax terms or concepts in Article 33 (d) and in this footnote are determined according to tax definitions and concepts, or equivalent or similar definitions and concepts, under the domestic law of the Party taking the measure.

(b) to prevent a Party from taking any action which it considers necessary for the protection of its essential security interests:

- (i) relating to the supply of services as carried out directly or indirectly for the purpose of provisioning a military establishment;
- (ii) relating to fissionable and fusionable materials or the materials from which they are derived;
- (iii) taken in time of war or other emergency in international relations; or

(c) to prevent a Party from taking any action in pursuance of its obligations under the United Nations Charter for the maintenance of international peace and security.

Article 35: Restrictions to Safeguard the Balance-of-Payments

1. The Parties shall endeavour to avoid the imposition of restrictive measures for balance-of-payments purposes.
2. Articles XI and XII of the GATS shall apply to payments and transfers, and to restrictions to safeguard the balance-of-payments relating to trade in services.
3. A Party adopting or maintaining a measure under this Article shall promptly notify the other Parties and the Joint Committee thereof.

2. If a Party accords more favourable treatment to investors of any other State or their investments by virtue of a free trade agreement, customs union or similar agreement that also provides for substantial liberalisation of investments, it shall not be obliged to accord such

Such requests shall be accorded sympathetic consideration.

4. The standard of national treatment as provided for in paragraph 1, means, with respect to a sub-national entity, treatment no less favourable than the most favourable treatment accorded, in like situations, by that entity to investors, and to investments of investors, of the Party of which it forms a part.

The subrogated rights or claims shall not be greater than the original rights or claims of such investors.

Article 48: Disputes Between an Investor and a Party

1. If an investor of a Party considers that a measure applied by another Party is inconsistent with an obligation of this Chapter, thus causing loss or damage to him or his investment, he may request consultations with a view to solving the matter amicably.

A copy of this notification shall also be communicated to all Parties so that each Party may determine whether to participate in the dispute.

Pending the adoption of such rules, the arbitration panel shall regulate its own procedures, unless the Parties to the dispute agree otherwise.

2. Notwithstanding paragraph 1, for all arbitration panel proceedings the procedures shall ensure that:

- (a) the Parties to the dispute have the right to at least one hearing before the arbitration panel as well as the opportunity to provide initial and rebuttal written submissions;

3. A Party to the dispute may submit written comments to the arbitration panel on its initial report within 14 days of presentation of the report.
4. In such an event, and after considering such written comments, the arbitration panel, on its own initiative or at the request of any of the Parties to the dispute, may:
 - (a) request the views of any of the Parties to the dispute;
 - (b) reconsider its report; and
 - (c) make any further examination that it considers appropriate.

Article 63: Final Report

1. The arbitration panel shall present to the Parties to the dispute a final report, containing the matters referred to in paragraph 2 of Article 62, including any separate opinions on matters not unanimously agreed, within 30 days of presentation of the initial report.
2. Unless the Parties to the dispute decide otherwise, the final report shall be published 15 days after it is presented to them.

Article 64: Termination of Arbitration Panel Proceedings

A complaining Party may withdraw its complaint at any time before the initial report has been issued. Such withdrawal is without prejudice to its right to introduce a new complaint regarding the same issue at a later point in time.

Article 65: Implementation of Arbitration Panel Reports

1. The final report shall be final and binding on the Parties to the dispute. Each Party to the dispute shall be bound to take the measures involved in carrying out the final report referred to in Article 63.
2. The Party or Parties concerned shall inform the other Party or Parties to the dispute within 30 days after the final report has been issued of its intentions in respect of its implementation.
3. The Parties to the dispute shall endeavour to agree on the specific measures that are required for implementing the final report. Wherever possible, the resolution shall be the removal of a measure not conforming to this Agreement, or failing such a resolution, compensation.

4. The Party or Parties concerned shall promptly comply with the final report. If it is impracticable to comply immediately, the Parties to the dispute shall endeavour to agree on a reasonable period of time to do so. In the absence of such agreement, any Party to the dispute may request the original arbitration panel to determine the length of the reasonable period of time, in light of the particular circumstances of the case. The ruling of the arbitration panel shall be given within 15 days from that request.

5. The Party or Parties concerned shall notify to the other Party or Parties to the dispute the measures adopted in order to implement the final report before the expiry of the reasonable period of time determined in accordance with paragraph 4. Upon that notification, any Party to the dispute may request the original arbitration panel to rule on the conformity of those measures with the final report. The ruling of the arbitration panel shall be given within 60 days from that request.

6. If the Party or Parties concerned fails to notify the implementing measures before the expiry of the reasonable period of time determined in accordance with paragraph 4, or if the arbitration panel rules that the implementing measures notified by the Party or Parties concerned are inconsistent with the final report, such Party or Parties shall, if so requested by the complaining Party or Parties, enter into consultations with a view to agree on a mutually acceptable compensation. If no such agreement has been reached within 20 days from the request, the complaining Party or Parties shall be entitled to suspend only the application of benefits granted under this Agreement equivalent to those affected by the measure found to violate this Agreement.

7. In considering what benefits to suspend, the complaining Party or Parties should first seek to suspend benefits in the same sector or sectors as that affected by the measure that the arbitration panel has found to violate this Agreement. The complaining Party or Parties that consider it is not practicable or effective to suspend benefits in the same sector or sectors may suspend benefits in other sectors.

8. The complaining Party or Parties shall notify the other Party or Parties of the benefits which it intends to suspend no later than 60 days before the date on which the suspension is due to take effect. Within 15 days from that notification, any of the Parties to the dispute may request the original arbitration panel to rule on whether the benefits which the complaining Party or Parties intend to suspend are equivalent to those affected by the measure found to violate this Agreement, and whether the proposed suspension is in accordance with paragraphs 6 and 7. The ruling of the arbitration panel shall be given within 45 days from that request. Benefits shall not be suspended until the arbitration panel has issued its ruling.

9. The suspension of benefits shall be temporary and shall only be applied by the complaining Party or Parties until the measure found to violate this Agreement has been withdrawn or amended so as to bring it into conformity with this Agreement, or the Parties to the dispute have reached agreement on a resolution of the dispute.

10. At the request of any of the Parties to the dispute, the original arbitration panel shall rule on the conformity with the final report of any implementing measures adopted after the suspension of benefits and, in light of such ruling, whether the suspension of benefits should be terminated or modified. The ruling of the arbitration panel shall be given within 30 days from the date of that request.

11. The rulings provided for in paragraphs 4, 5, 8 and 10 shall be binding.

Article 66: Other Provisions

Any time period mentioned in this Chapter may be extended by mutual agreement of the Parties involved.

IV. Article 2 National Treatment

1. Under terms and conditions that accord national treatment, each Party shall grant to financial service suppliers of another Party established in its territory access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business. This paragraph is not intended to confer access to the Party’s lender of last resort facilities.

2. When membership or participation in, or access to, any self-regulatory body, securities or futures exchange or market, clearing agency, or any other organisation or association, is required by a Party in order for financial service suppliers of any other Party to supply financial services on an equal basis with financial service suppliers of the Party, or when the Party provides directly or indirectly such entities, privileges or advantages in supplying financial services, the Party shall ensure that such entities accord national treatment to financial service suppliers of any other Party resident in the territory of the Party.

Article 3 Prudential Measures

1. Nothing in Chapter III and its Annexes shall be construed to prevent a Party from adopting or maintaining reasonable measures for prudential reasons, such as:

- (a) the protection of investors, depositors, policy-holders, policy-claimants, persons to whom a fiduciary duty is owed by a financial service supplier, or any similar financial market participants; or
- (b) the maintenance of the safety, soundness, integrity or financial responsibility of financial service suppliers; or
- (c) ensuring the integrity and stability of a Party's financial system.

2. These measures shall not be more burdensome than necessary to achieve their aim, and shall not constitute a means of arbitrary or unjustifiable discrimination against financial service suppliers of another Party in comparison to its own like financial service suppliers, or a disguised restriction on trade in services.

3. Nothing in Chapter III and its Annexes shall be construed to require a Party to disclose information relating to the affairs and accounts of individual consumers or any confidential or proprietary information in the possession of public entities.

4. Each Party shall make its best endeavours to ensure that the Basle Committee's "Core Principles for Effective Banking Supervision", the standards and principles of the International Association of Insurance Supervisors and the International Organisation of Securities Commissions' "Objectives and Principles of Securities Regulation" are implemented and applied in its territory.

Article 4 Recognition

1. A Party may recognise prudential measures of any other country in determining how the Party's measures relating to financial services shall be applied. Such recognition, which may be achieved through harmonisation or otherwise, may be based on an agreement or arrangement with the country concerned or may be accorded autonomously.

2. A Party that is a party to such an agreement or arrangement referred to in paragraph 1, whether future or existing, shall afford adequate opportunity for another Party to negotiate their accession to such agreements or arrangements, or to negotiate comparable ones with it, under circumstances in which there would be equivalent regulation, oversight, implementation of such regulation, and, if appropriate, procedures concerning the sharing of information between the parties to the agreement or arrangement. Where a Party accords recognition autonomously, it shall afford adequate opportunity for another Party to demonstrate that such circumstances exist.

Article 5 Data Processing

1. Each Party shall permit a financial service supplier of another Party to transfer information in electronic or other form, into and out of its territory, for data processing where such processing is required in the ordinary course of business of such financial service supplier.

2. As far as the transfer of data obtained in the course of the supply of financial services is concerned, each Party shall adopt or maintain adequate safeguards on the protection of the

confidentiality and integrity of such records, and to that end Parties may have consultations whenever necessary.

3. Nothing in this Article restricts the right of a Party to protect personal data, personal privacy and the confidentiality of individual records and accounts so long as such right is not used to circumvent the provisions of this Agreement.

Article 6 Specific Exceptions

1. Nothing in Chapter III and its Annexes shall be construed to prevent a Party, including its public entities, from exclusively conducting activities or supplying services in its territory forming part of a public retirement plan or statutory system of social security.

2. Nothing in Chapter III and its Annexes shall be construed to prevent a Party, including its public entities, from exclusively conducting activities or supplying services in its territory for the account or with the guarantee or using the financial resources of the Party, or its public entities.

3. If a Party allows any of the activities or services referred to in paragraphs 1 or 2 to be conducted or supplied by its financial service suppliers in competition with a public entity or a financial service supplier, "services" shall include such activities.

4. Nothing in Chapter III and its Annexes shall apply to activities conducted or services supplied by a central bank or monetary authority or by any other public entity, in pursuit of monetary or exchange rate policies.

Article 7 Modification of Schedules

1. A Party may propose to introduce or amend limitations contained in a specific commitment referred to in the financial services section of its Schedule, to the extent that such amendments do not decrease the level of commitment undertaken by the Party and provided that the proposed amendments do not reduce the opportunities of the service suppliers of another Party affected by the amendments compared to the situation prevailing immediately before the amendments.

2. The amending Party shall notify its intent to amend a commitment to the other Parties at least three months before the intended date of implementation of the amendment. On receiving such written notification, the other Parties may request consultations regarding the proposed amendment. If agreement is not reached by consultations, the matter shall be dealt with in accordance with Chapter IX.

**ANNEX IX
REFERRED TO IN ARTICLE 36**

TELECOMMUNICATIONS SERVICES

**Article 1
Definitions**

1. For the purposes of this Annex:
 - a) “Supplier” refers to a telecommunications operator that supplies or intends to supply telecommunications services.
 - b) “Dominant Supplier” is a Supplier who, on its own or, together with other Suppliers based on an agreement or otherwise, has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for a specific telecommunications service as a result of:
 - i) control over essential facilities; or
 - ii) use of its position in the market.
 - c) “Essential facilities” mean facilities of a public telecommunications network or service that
 - i) are exclusively or predominantly provided by a single or limited number of suppliers; and
 - ii) cannot feasibly be economically or technically substituted in order to provide a service.

**Article 2
General Principles**

1. Competition and Reliance on Market Forces

With a view to ensure the supply of cost-effective, high quality telecommunications services, the Parties shall adopt or maintain appropriate measures to prevent anti-competitive practices of Suppliers. There shall be primary reliance on private negotiations and industry self-regulation, subject to requirements designed to prevent anti-competitive conduct.

2. Regulatory Principles

Measures and their application shall be objective, impartial and non-discriminatory. They shall, to the extent feasible, be technology-neutral.

3. Transparency

Regulatory requirements shall be applied in a transparent manner. Unless there is an overriding public or private interest not to do so, the regulatory authorities shall make interconnection agreements publicly available.

4. Avoidance of Unnecessary Delay

Recognising the need to respond rapidly to changing market forces, all decisions and directions pertaining to the regulatory measures outlined in this Annex, including decisions regarding appeals, shall be implemented by the relevant authorities as quickly as reasonably possible.

5. Right to appeal

A Supplier affected by a decision of a regulatory authority shall have recourse to appeal to an independent administrative body and/or a court, in accordance with domestic legislation.

Article 3
Licensing Procedures

1. Where a licence is required, all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence shall be made publicly available.

2. The granting of the license shall be based on the licensing criteria referred to in paragraph 1.

3. The period of time normally required to reach a decision concerning an application for a licence shall be reasonable.

4. Where a licence has been denied to an applicant, the reasons for the denial shall be made known to the applicant upon request.

Article 4
Allocation and Use of Scarce Resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, shall be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands shall be made publicly available.

Article 5
Competitive Safeguards

1. The Parties shall provide for measures to prevent anti-competitive conduct by Dominant Suppliers, acting singly or collectively, which frustrate the benefits of this Agreement as it relates to telecommunications services.

2. With regard to Dominant Suppliers, the anti-competitive practices, referred to in paragraph 1, shall include in particular:

- a) engaging in anti-competitive pricing or cross-subsidisation;
- b) using information obtained from competitors with anti-competitive results;
- c) not making available to other Suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services; and
- d) not offering to other Suppliers, on a non-discriminatory basis, access to essential facilities and commercially relevant information which are necessary for them to provide services.

Article 6

Minimum Interconnection Obligations

1. Obligation to Interconnect with Other Suppliers

Suppliers offering a public switched telephone service shall interconnect either directly or indirectly with other Suppliers.

2. Disclose Technical and Commercial Conditions

A Supplier shall be required to make publicly available, in a clear format and in sufficient detail, any technical and commercial conditions concerning interconnection.

3. Protection of Confidential Information

According to domestic laws and regulations, Suppliers shall protect from disclosure any confidential or proprietary information obtained from another Supplier in the course of negotiating or implementing an interconnection agreement. Suppliers may use such information only for the provision of the specific Interconnection Related Services (IRS) requested.

4. Duty to Prevent Technical Harm to the Network

A Supplier that interconnects with another Supplier shall only use telecommunications installations that do not cause physical or technical harm to the other Supplier's network.

5. Comply with Mandatory Technical Standards

Suppliers shall be required to comply with any applicable mandatory technical standard adopted. The telecommunications industry shall be consulted with regard to efforts to determine which technical standards should be made mandatory.

6. Facilitate Change of Suppliers

Suppliers shall be required to take any reasonable action necessary to allow an end user that chooses to obtain service from a different Supplier to do so with minimum difficulty. This includes the duty, where technically feasible, to allow the end user to retain the same telephone number or network address and to continue to receive service using the same local loop.

7. Duty to Provide Billing Information

Unless they agree otherwise, the interconnecting Suppliers shall be required to exchange information that is necessary to provide accurate and timely billing to themselves, their affiliates or other Suppliers.

Article 7

Interconnection with Dominant Suppliers

1. A Dominant Supplier shall grant interconnection to other Suppliers without discrimination and in accordance with the principles of transparent and cost oriented price policy. The provisions of Article 6, paragraphs 2 to 7 shall also apply.

2. Interconnection with a Dominant Supplier shall be ensured at any technically feasible point in the network. Such interconnection shall be provided:

- a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated Suppliers or for its subsidiaries or other affiliates;
- b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that Suppliers need not pay for network components or facilities they do not require for the service to be provided;
- c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

3. A Supplier that seeks to interconnect with a Dominant Supplier shall be able to do so pursuant to the terms of a Reference Interconnection Offer (RIO) extended by the Dominant Supplier. The RIO shall contain written statements of the prices, terms and conditions on which a Dominant Supplier will provide interconnection services to a Supplier seeking interconnection. The RIO shall be required to contain the following:

- a) A list and description of the IRS offered, the terms and conditions for such services, the commercial and technical requirements;
- b) A list of cost-based prices for the IRS where the Supplier has a dominant position. The Dominant Supplier shall use an established methodology based on long-run average incremental costs (LRAIC) or any other forward-looking methodology better reflecting the relevant costs.

4. The RIO must be modular, allowing a Supplier seeking interconnection to purchase only those IRS that it wants to obtain. -

5. Notwithstanding the provisions of paragraphs 1 and 2, a person acting in a Contracting State on behalf of an enterprise of the other Contracting State (other than an agent of an independent status to whom paragraph 6 of this Article applies) notwithstanding that he has no fixed place of business in the first-mentioned State shall be deemed to be a permanent establishment in that State if he has, and habitually exercises, a general authority in the first-mentioned State to conclude contracts in the name of the enterprise, unless his activities are limited to the purchase of goods or merchandise for the enterprise.

6. An enterprise shall not be deemed to have a permanent establishment in a Contracting State merely because it carries on business in that State through a broker, general commission agent or any other agent of an independent status, provided that such persons are acting in the ordinary course of their business.

7. The fact that a company which is a resident of a Contracting State controls or is controlled by a company which is a resident of the other Contracting State, or which carries on business in that other State (whether through a permanent establishment or otherwise), shall not of itself constitute either company a permanent establishment of the other.

ARTICLE 6 INCOME FROM IMMOVABLE PROPERTY

1. Income derived by a resident of a Contracting State from immovable property, including income from agriculture or forestry, is taxable in the Contracting State in which such property is situated.

2. The term "immovable property" shall have the meaning which it has under the law of the Contracting State in which the property in question is situated. Ships, boats and aircraft shall not be regarded as immovable property.

3. The provisions of paragraph 1 shall apply to income derived from the direct use, letting or use in any other form of immovable property.

4. The provisions of paragraphs 1 and 3 shall also apply to the income from immovable property of an enterprise and to income from immovable property used for the performance of independent personal services.

ARTICLE 7 BUSINESS PROFITS

1. The profits of an enterprise of a Contracting State shall be taxable only in that State unless the enterprise carries on business in the other Contracting State through a permanent establishment situated therein. If the enterprise carries on business as aforesaid, the profits of the enterprise may be taxed in the other State but only so much of them as is attributable to that permanent establishment.

2. Subject to the provisions of paragraph 3, where an enterprise of a Contracting State carries on business in the other Contracting State through a permanent establishment situated therein, there shall in each Contracting State be attributed to that permanent establishment the profits which it might be expected to make if it were a distinct and separate enterprise engaged in the same or similar activities under the same or similar conditions and dealing wholly independently with the enterprise of which it is a permanent establishment.

3. In determining the profits of a permanent establishment, there shall be allowed as deductions expenses which are incurred for the purposes of the permanent establishment including executive and general administrative expenses so incurred, whether in the State in which the permanent establishment is situated or elsewhere. However, no such deduction shall be allowed in respect of amounts, if any, paid (otherwise than towards reimbursement of actual expenses) by the permanent establishment to the head office of the enterprise or any of its other offices, by way of royalties, fees or other similar payments in return for the use of patents or other rights, or by way of commission, for specific services performed or for management, or, except in the case of a banking enterprise, by way of interest on moneys lent to the permanent establishment. Likewise, no account shall be taken, in determining the profits of a permanent establishment, of amounts charged (otherwise than towards reimbursement of actual expenses), by the permanent establishment to the head office of the enterprise or any of its other offices, by way of royalties, fees or other similar payments in return for the use of patents or other rights, or by way of commission for specific services performed or for management, or, except in the case of a banking enterprise, by way of interest on moneys lent to the head office of the enterprise or any of its other offices.

4. In so far as it has been customary in a Contracting State to determine the profits to be attributed to a permanent establishment on the basis of an apportionment of the total profits of the enterprise to its various parts, nothing in paragraph 2 shall preclude that Contracting State from determining the profits to be taxed by such an apportionment as may be customary. The method of apportionment adopted shall, however, be such that the result shall be in accordance with the principles contained in this Article.

5. No profits shall be attributed to a permanent establishment by reason of the mere purchase by that permanent establishment of goods or merchandise for the enterprise.

6. For the purposes of the preceding paragraphs, the profits to be attributed to the permanent establishment shall be determined by the same method year by year unless there is good and sufficient reason to the contrary.

7. Where profits include items of income which are dealt with separately in other Articles of this Agreement, then the provisions of those Articles shall not be affected by the provisions of this Article.

ARTICLE 8 SHIPPING AND AIR TRANSPORT

1. Profits of an enterprise from the operation or rental of ships or aircraft in international traffic and the rental of containers and related equipment which is incidental to the operation of ships or aircraft in international traffic shall be taxable only in the Contracting State in which the place of effective management of the enterprise is situated.

2. If the place of effective management of a shipping enterprise is aboard a ship or boat, then it shall be deemed to be situated in the Contracting State in which the home harbour of the ship or boat is situated, or, if there is no such home harbour, in the Contracting State of which the operator of the ship or boat is a resident.

3. The provisions of paragraph 1 shall also apply to profits from the participation in a pool, a joint business or an international operating agency.

ARTICLE 9 ASSOCIATED ENTERPRISES

1. Where:

- (a) an enterprise of a Contracting State participates directly or indirectly in the management, control or capital of an enterprise of the other Contracting State; or
- (b) the same persons participate directly or indirectly in the management, control or capital of an enterprise of a Contracting State and an enterprise of the other Contracting State,

and in either case conditions are made or imposed between the two enterprises in their commercial or financial relations which differ from those which would be made between independent enterprises, then any profits which would, but for those conditions, have accrued to one of the enterprises, but, by reason of those conditions, have not so accrued, may be included in the profits of that enterprise and taxed accordingly.

2. Where a Contracting State includes in the profits of an enterprise of that State - and taxes accordingly - profits on which an enterprise of the other Contracting State has been charged to tax in that other State and the profits so included are profits which would have accrued to the enterprise of the first-mentioned State if the conditions made between the two enterprises had been those which would have been made between independent enterprises, then that other State shall make an appropriate adjustment to the amount of the tax charged therein on those profits. In determining such adjustment, due regard shall be had to the other provisions of this Agreement and the competent authorities of the Contracting States shall if necessary consult each other.

which the company paying the dividends is a resident, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the holding in respect of which the dividends are paid is effectively connected with such permanent establishment or fixed base. In such a case, the provisions of Article 7 or Article 14, as the case may be, shall apply.

4. Where a company which is a resident of a Contracting State derives profits or income from the other Contracting State, that other State may not impose any tax on the dividends paid by the company except in so far as such dividends are paid to a resident of that other State or in so far as the holding in respect of which the dividends are paid is effectively connected with a permanent establishment or a fixed base situated in that other State, nor subject the company's undistributed profits to a tax on undistributed profits, even if the dividends paid or the undistributed profits consist wholly or partly of profits or income arising in such other State.

ARTICLE 11 INTEREST

1. Interest arising in a Contracting State and paid to a resident of the other Contracting State shall, if the recipient is the beneficial owner of the interest, be taxable only in that other State.

2. Penalty charges for late payment shall not be regarded as interest for the purpose of this Article. The term "interest" shall not include any item which is treated as a dividend under the provisions of Article 10 of this Agreement.

3. The provisions of paragraph 1 shall not apply if the beneficial owner of the interest, being a resident of a Contracting State, carries on business in the other Contracting State in which the interest arises, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the debt-claim in respect of which the interest is paid is effectively connected with such permanent establishment or fixed base. In such a case, the provisions of Article 7 or Article 14, as the case may be, shall apply.

4. Interest shall be deemed to arise in a Contracting State when the payer is a resident of that State. Where, however, the person paying the interest, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment or a fixed base in connection with which the indebtedness on which the interest is paid was incurred, and such interest is borne by such permanent establishment or fixed base, then such interest shall be deemed to arise in the State in which the permanent establishment or fixed base is situated.

5. Where, by reason of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the interest, having regard to the debt-claim for which it is paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In such a case, the excess part of the payments shall remain taxable according to the laws of each Contracting State, due regard being had to the other provisions of this Agreement.

In such a case, the provisions of Article 7 or Article 14, as the case may be, shall apply.
4. Royalties shall be deemed to arise in a Contracting State when the payer is a resident of that State. Where, however, the person paying the royalties, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment or a fixed base with which the right or property in respect of which the royalties are paid is effectively connected, and such royalties are borne by such permanent establishment or fixed base, then such royalties shall be deemed to arise in the State in which the permanent establishment or fixed base is situated.
5. Where, by reason of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the royalties paid, having regard to the use, right or information for which they are paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount.
