## NOTE

Symbols of United Nations documents are composed of capital letters combined with figures. Mention of such a symbol indicates a reference to a United Nations document.

### *General disclaimer*

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Where the designation "country or area" appears in the dimensions of tables, it covers countries, territories, cities and areas.

The designations "developed" and "developing" are intended for statistical convenience and do not necessarily express a judgement about the stage reached by a particular country or area in the development process.

\*  
\* \*

## NOTE

La cote des documents de l'Organisation des Nations Unies se compose de lettres majuscules et de chiffres. La mention d'une telle cote indique qu'il est fait référence à un document de l'Organisation.

### *Déni de responsabilité*

Les appellations employées dans cette publication et la présentation des données qui y figurent n'impliquent, de la part du Secrétariat de l'Organisation des Nations Unies, aucune prise de position quant au statut juridique des pays, territoires, villes ou zones, ou de leurs autorités, ni quant au tracé de leurs frontières ou limites.

L'appellation «pays ou zone» figurant dans certaines rubriques des tableaux désigne des pays, des territoires, des villes ou des zones.

Les termes «développés» et «en développement» sont utilisés pour plus de commodité dans la présentation des statistiques et n'impliquent pas nécessairement un jugement quant au stade de développement auquel est parvenu un pays ou une zone donnée.

The *UNCTAD Handbook of Statistics* provides a comprehensive collection of statistical data relevant to the analysis of world trade, investment and development for the use of government officials, university and other research specialists, and others interested in these subjects.

As the complementary CD-ROM version of the *Handbook* presents the full time series of data, this printed publication focuses on recent statistics.

The tables, while largely based on existing international and national data sources, provide a compilation of data that is unique in the following ways:

- ◆ Wherever possible, data are presented in an analytical way, through the use of rank orderings, growth rates, shares and other special calculations, so as to facilitate their interpretation. Statistical classifications have been condensed into groupings of particular relevance to the analysis of trade and development.
- ◆ Time series of basic trade data cover periods that the UNCTAD secretariat considers as particularly relevant to statistical and other applicable analysis.
- ◆ A number of the series shown represent UNCTAD secretariat estimates based on detailed research and analysis. Examples are the terms of trade and related indices (shown in tables 2.1).
- ◆ Every effort has been made to take account of all available information in order to provide as complete coverage as possible for individual countries. In some cases this has involved secretariat judgements regarding data sources for a particular country.

Particular acknowledgement is made of the cooperation extended by the Statistics Division, Department of Economic and Social Affairs of the United Nations, as well as by other international organisations, in the preparation of this publication.

Le but du *Manuel de statistiques de la CNUCED* est de fournir, à l'intention des administrations nationales, des universitaires et autres spécialistes de la recherche, des organisations internationales, et de tous ceux que la question intéresse, l'ensemble de données statistiques essentielles à l'analyse du commerce mondial, de l'investissement et du développement.

Comme la version CD-ROM du *Manuel*, complémentaire à cette publication, présente les séries complètes de données, la version imprimée fait apparaître les valeurs récentes.

Les tableaux, qui font appel principalement aux sources de données internationales et nationales existantes, forment un catalogue unique de statistiques établies de la manière suivante :

- ◆ Chaque fois que possible, les données ont été présentées d'une manière analytique, classées par ordre de grandeur, taux de croissance, parts et autres calculs spéciaux, afin d'en faciliter l'interprétation. Des groupements se prêtant particulièrement bien à l'analyse du commerce et du développement ont été réalisés au sein des nomenclatures statistiques.
- ◆ Les séries chronologiques de données de base sur le commerce couvrent des périodes que le secrétariat de la CNUCED considère être d'une importance particulière pour des analyses statistiques et autres analyses du sujet.
- ◆ Un certain nombre de séries correspondent à des estimations du secrétariat de la CNUCED fondées sur des recherches et des analyses détaillées. On peut mentionner à cet égard les termes de l'échange et indices connexes (figurant aux tableaux 2.1).
- ◆ Le secrétariat s'est efforcé de tenir compte de tous les renseignements disponibles afin de broser dans chaque cas un tableau aussi complet que possible de la situation. Ce faisant, il a parfois dû opérer un choix entre différentes sources de données pour tel ou tel pays.

Le secrétariat de la CNUCED tient à remercier la Division de statistiques, Département des affaires économiques et sociales de l'ONU, et diverses organisations internationales du concours qu'elles ont apporté à la préparation de cette publication.

## GENERAL NOTES

These notes summarize briefly the coverage of each part of the *Handbook* and highlight modifications as compared with previous issues. The 2002 version of the *UNCTAD Handbook of Statistics* offers users two new parts or categories of statistics. Figures on trade in services now form a separate category (V) and include two new tables. The part Special studies (VIII) includes sets of data published in the *Handbook* for the first time in order to further enhance the analytical value of the publication and to respond to the interests and suggestions of users. The Annex that contained information on the network of world exports, which was published in previous issues of the *Handbook*, has been discontinued in the printed version, but the corresponding data are included on the CD-ROM.

Chapter and table numbering and titles have been modified where appropriate in order to exactly match the numbering of tables in the CD-ROM version of the *UNCTAD Handbook of Statistics 2002*, and thus to make locating information easier for those who use both versions complementarily.

The next paragraphs contain short descriptions of all the data tables presented in the *Handbook*. The following designations are used:

- \* indicates a data set presented in the *Handbook* for the first time
- \*\* gives a corresponding table number from the 2001 edition of the printed version of the *Handbook*
- \*\*\* designates a table number from the 2001 issue to which this year's version of the table partially corresponds.

### PART ONE

#### **Value, growth and shares of world trade in current prices; trade balances; intra-trade by region**

The national system of reporting (general trade or special trade) and valuation is indicated in table 1.1A. Regional totals for developed market-economy countries have been adjusted where necessary to approximate imports c.i.f. and exports f.o.b. in special trade. (\*\*1.1/2) The same data for different economic groupings are shown in table 1.1B. (\*\*1.3/4)

Table 1.1C includes shares of world exports and imports. (\*\*1.9/10)

Growth rates derived from tables 1.1A and 1.1B are presented in tables 1.2A (\*\*1.5/6) and 1.2B (\*\*1.7/8).

Table 1.3 contains trade balances (exports f.o.b. minus imports c.i.f.) and these balances as a percentage of imports by country, region and economic grouping. (\*\*1.11/12)

Table 1.4 shows the relative importance of intra-trade in total trade of different trade blocs or regional groupings. (1.13\*)

### PART TWO

#### **Volume, unit value and terms of trade indices by region and economic grouping; commodity price indices**

The group of tables 2.1 (2.1A to 2.1F) shows volume and unit value indices for exports and imports, and the terms of trade and purchasing power of exports for developed and developing countries by region and economic grouping. The indices for developing countries and territories are based on estimates by the UNCTAD secretariat. (\*\*2.1 to 2.6) Complete details are shown in table 8.1, which also provides a description of the methodology.

Table 2.2 includes aggregated price indices for primary commodity groups such as food, tropical beverages, vegetable oilseeds and oils, agricultural raw materials and minerals, ores and metals as well as a combined price index in current US dollars.

Also included are the annual and quarterly free-market price indices of selected commodities exported by developing countries. For reference, market prices in current dollars are shown for the base year. The table is based on data from the *UNCTAD Commodity Price Bulletin*. (\*\*2.7)

### PART THREE

#### **Network of world trade: summary by selected regions of origin and destination; export and import structure by selected commodity groups**

Tables 3.1A and 3.1B show, respectively, the export and import structure of individual countries by main regions of origin and destination. (\*\*3.3 and 3.4)

The group of tables 3.2.1 presents the export structure by destination and by major commodity groups for the world and selected regions, while tables grouped under the 3.2.2 heading provide the same information for imports by origin. The complete data on which the figures shown are based are contained in table 3.2 of the CD-ROM version of the *UNCTAD Handbook of Statistics 2002*. (\*\*3.1 and 3.2)

### PART FOUR

#### **Export and import structure by commodity group and by country; major exports of developing countries and territories by leading exporters**

Tables 4.1A and 4.1B show the export and import structure of individual countries and territories for selected years. The tables contain the share of total trade accounted for by specific commodity categories. (\*\*4.1 and 4.2)

Tables 4.2A, B and C present SITC group Revision 2 (3-digit) level exports for the world, for developed countries and for developing countries and territories respectively. The share of the commodity in the exports of the region and world is shown, as are its annual average growth rate in the region and its deviation from that of the world. (\*\*4.3A, B and C)

Table 4.2D shows the leading exports at the SITC group Revision 2 (3-digit) level for individual countries and territories. Each commodity's share in the total exports of the countries, as well as in those of the region and the world, is also presented. (\*\*4.3D)

Table 4.2E includes information on the major exporters of 70 leading commodities among developing countries and territories at the SITC group Revision 2 (3-digit) level, with their shares shown in a manner similar to that used in table 4.2 D. (\*\*4.4)

### PART FIVE

#### **Trade in services**

Table 5.1 presents the value of total trade in commercial services by country, region and economic grouping. The figures refer to 10 principal service categories as defined in the *IMF Balance of Payments Manual* (1993, BPM 5). However, government services, n.i.e., the 11<sup>th</sup> category in the BPM 5 division, are not taken into account. The aggregate figures presented also include the UNCTAD secretariat's estimates that are not shown separately. (\*\*1.14)

Table 5.2A\* indicates 20 major exporters, among developing countries, for each of the 10 principal service categories as defined in the *IMF Balance of Payments Manual* (1993, BPM 5). Government services, n.i.e., are not included. Table 5.2B\* presents the same information for 20 major importers of services among developing countries.

Table 5.3\* focuses on travel services. It presents selected tourism statistics for individual countries for recent years.

## PART SIX

### **Balance of payments; foreign direct investment; financial resource flows and external indebtedness**

Table 6.1 presents summaries of the current account of the balance of payments for all countries and territories. Following the table are notes that provide explanations of the categories and terminology employed. (\*\*5.1)

Table 6.2 comprises information on foreign direct investment (FDI) inflows and outflows by country and regional grouping. (\*\*5.3)

Tables 6.3A and B present information on major receivers and benefactors of workers' remittances among developing countries. Following the table are notes that provide a definition of this category. (\*\*5.5A and B)

Table 6.4 presents data on international reserves of developing countries and territories by country, region and economic grouping. Also shown are the months of imports that these reserves could finance. (\*\*5.2)

Table 6.5 gives a summary of the different types of official financial flows to developing countries and territories by country, region and economic grouping. (\*\*5.4)

Table 6.6 shows data on the external indebtedness of developing countries and territories by region and economic grouping. It also provides a detailed breakdown of public and publicly guaranteed debt by source of lending. (\*\*5.6)

## PART SEVEN

### **Some basic indicators of development**

Table 7.1 provides information on population and density, area and total and per capita current GDP (in dollars) by country, region and economic grouping. GDP per capita estimates in US dollars presented in this table are derived from data in national currency converted into dollars at the prevailing exchange rates. In some cases and owing to conversion methods with market and official exchange rates that are not always satisfactory, GDP per capita levels shown may be subject to distortions. Such figures could, therefore, require further processing. (\*\*6.1)

Table 7.2 contains annual average growth rates of total and per capita real GDP at market prices by country, region and economic grouping. (\*\*6.2)

Table 7.3 provides data on GDP by type of expenditure and kind of economic activity, by country, region and economic grouping. (\*\*6.3)

Table 7.4 shows selected economic and social indicators for individual countries. It contains information on population, in addition to that shown in table 7.1, other demographic data, and health and environment statistics. (\*\*6.4)

Table 7.5 presents another set of socio-economic data for individual countries. It focuses on education, labour force, gender and migration indicators. (\*\*6.4)

Table 7.6 contains data on telecommunications, information and media access. Indicators shown refer to television sets, telephones, personal computers, the Internet, costs and revenues in the telecommunications sector, etc. (\*\*6.5)

## PART EIGHT

### **Special studies**

Table 8.1 contains tentative estimates of export and import unit value indices for individual developing countries and territories, as well as the terms of trade and purchasing power of exports derived from them. (\*\*7.1)

Table 8.2A includes the time series of export concentration and diversification indices for individual countries and territories, while table 8.2B presents the same indices for imports. (\*\*4.5)

Tables 8.3A\* and B\* provide the concentration and structural change indices for exports and imports by product at the SITC group Revision 2 (3-digit) level.

Instability indices and trends in monthly market prices for selected primary commodities are presented in table 8.4\*.

## **OTHER NOTES AND EXPLANATION OF SYMBOLS**

Details and percentages in tables do not necessarily add to totals because of rounding.

"Dollars" (\$) refers to US dollars, unless otherwise stated. The term "billion" signifies 1,000 million.

A zero (0) means that the amount is nil or negligible.

The symbol underscore ( ) indicates that the item is not applicable.

Two dots (..) indicate that the data are not available or are not separately reported.

Use of a hyphen (-) between years (e.g. 1965-1970) signifies the full period involved, including the initial and final years.

## DISTRIBUTION OF COUNTRIES AND TERRITORIES

### THREE MAIN GROUPS OF COUNTRIES / TERRITORIES

The country distributions presented on the following pages have been adopted for statistical convenience only and follow those used by the Statistics Division, Department of Economic and Social Affairs (DESA) of the United Nations.

#### **Developed market economy countries / territories:**

---

*In America:* Canada and the United States.

*In Europe:* Austria; Belgium; Denmark; Faeroe Islands; Finland; France; Germany; Gibraltar; Greece; Iceland; Ireland; Italy; Luxembourg; Malta; the Netherlands; Norway; Portugal; Spain; Sweden; Switzerland; and the United Kingdom.

*In Africa:* South Africa.

*In Asia:* Israel and Japan.

*In Oceania:* Australia and New Zealand.

#### **Countries in Eastern Europe:**

---

Albania; Belarus; Bulgaria; Czech Republic; Estonia; Hungary; Latvia; Lithuania; Poland; Republic of Moldova; Romania; Russian Federation; Slovakia; and Ukraine.

#### **Developing countries / territories:**

---

All other countries and territories in Africa, America, Asia, Europe and Oceania not specified above. For developing countries and territories, the main regions have been further subdivided into subregions to provide additional information.

A number of economic classifications have been used in the *UNCTAD Handbook of Statistics* in order to reflect more accurately differences among developing countries and territories, and thus to facilitate the analysis of socio-economic data. These classifications distinguish, in the first instance, between the major petroleum-exporting countries and other developing countries and territories. The latter are in turn subdivided into two categories: a) major exporters of manufactures, and b) remaining countries distributed by major geographical regions.

The group "Major petroleum exporters" was revised in 2001. Yemen was included in the group, while Ecuador was removed. "Major petroleum exporters" consists of all 11 OPEC member countries. In addition, nine non-OPEC countries are included on the basis of the following criteria: the share of petroleum and petroleum products was not less than 40 percent of total exports, and exports of those products amounted to at least US\$1 billion on average in the period 1997-1998.

The group "Major exporters of manufactures" was also reviewed in 2001 and includes 12 countries/territories (compared with 10 in *Handbook* editions prior to 2001). The former Yugoslavia was left out, while China, India and the Philippines were added. "Major exporters of manufactures" contains countries/territories included on the basis of the following criteria: the share of manufactured products was not less than 50 percent of total exports, and exports of those products amounted to at least US\$20 billion on average in the period 1997-1998.

In addition, all developing countries have been classified, according to their per capita GDP in 1995, into three groupings: high-income, middle-income and low-income countries. For further reference, the groups of "Least developed countries" (LDCs), "Heavily indebted poor countries" (HIPC) and "Landlocked countries" are shown as memo items.

Trade groupings (e.g. ASEAN, EU, LAIA) are included in certain tables, which makes it possible to include groups that cut across regions, such as CIS and APEC.

All groups are presented based on the latest information available in May 2002.

## DISTRIBUTION OF DEVELOPING COUNTRIES / TERRITORIES BY REGION

### A m e r i c a 49

#### South America 14

Argentina	Ecuador	Peru
Bolivia	Falkland Islands (Malvinas)	Suriname
Brazil	French Guiana	Uruguay
Chile	Guyana	Venezuela
Colombia	Paraguay	

#### Other America 35

Anguilla	Dominican Republic	Netherlands Antilles
Antigua and Barbuda	El Salvador	Nicaragua
Aruba	Greenland	Panama
Bahamas	Grenada	Puerto Rico
Barbados	Guadeloupe	Saint Kitts and Nevis
Belize	Guatemala	Saint Lucia
Bermuda	Haiti	Saint Pierre and Miquelon
British Virgin Islands	Honduras	Saint Vincent and the Grenadines
Cayman Islands	Jamaica	Trinidad and Tobago
Costa Rica	Martinique	Turks and Caicos Islands
Cuba	Mexico	United States Virgin Islands
Dominica	Montserrat	

### A f r i c a 57

#### North Africa 7

Algeria	Morocco	Western Sahara
Egypt	Sudan	
Libyan Arab Jamahiriya	Tunisia	

#### Other Africa 50

Angola	Ethiopia	Niger
Benin	Gabon	Nigeria
Botswana	Gambia	Reunion
British Indian Ocean Territory	Ghana	Rwanda
Burkina Faso	Guinea	Saint Helena
Burundi	Guinea-Bissau	Sao Tome and Principe
Cameroon	Kenya	Senegal
Cape Verde	Lesotho	Seychelles
Central African Republic	Liberia	Sierra Leone
Chad	Madagascar	Somalia
Comoros	Malawi	Swaziland
Congo	Mali	Togo
Côte d'Ivoire	Mauritania	Uganda
Democratic Republic of the Congo	Mauritius	United Republic of Tanzania
Djibouti	Mayotte	Zambia
Equatorial Guinea	Mozambique	Zimbabwe
Eritrea	Namibia	

### A s i a 49

#### West Asia 15

Bahrain	Kuwait	Saudi Arabia
Cyprus	Lebanon	Syrian Arab Republic
Iran, Islamic Republic of	Palestinian territory	Turkey
Iraq	Oman	United Arab Emirates
Jordan	Qatar	Yemen

#### Central Asia 8

Armenia	Kazakhstan	Turkmenistan
Azerbaijan	Kyrgyzstan	Uzbekistan
Georgia	Tajikistan	

**Other Asia 26**

Afghanistan	East Timor	Myanmar
Bangladesh	India	Nepal
Bhutan	Indonesia	Pakistan
Brunei Darussalam	Korea, Democratic People's Republic of	Philippines
Cambodia	Korea, Republic of	Singapore
China	Lao People's Democratic Republic	Sri Lanka
China, Hong Kong SAR	Malaysia	Thailand
China, Macao SAR	Maldives	Viet Nam
China, Taiwan Province of	Mongolia	

**Oceania 28**

American Samoa	Micronesia, Federated States of	Samoa
Christmas Island	Midway Islands	Solomon Islands
Cocos Islands	Nauru	Tokelau
Cook Islands	New Caledonia	Tonga
Fiji	Niue	Tuvalu
French Polynesia	Norfolk Island	Vanuatu
Guam	Northern Mariana Islands	Wake Island
Johnston Island	Palau	Wallis and Futuna Islands
Kiribati	Papua New Guinea	
Marshall Islands	Pitcairn	

**Europe 5**

Bosnia and Herzegovina	Slovenia	Yugoslavia, Federal Republic of
Croatia	The former Yugoslav Republic of Macedonia	

**DISTRIBUTION OF DEVELOPING COUNTRIES / TERRITORIES BY ECONOMIC GROUPING****A. DISTRIBUTION OF DEVELOPING COUNTRIES / TERRITORIES BY MAJOR CATEGORY****Major petroleum exporters 20**

Algeria*	Libyan Arab Jamahiriya*
Angola	Nigeria*
Bahrain	Oman
Brunei Darussalam	Qatar*
Congo	Saudi Arabia*
Gabon	Syrian Arab Republic
Indonesia*	Trinidad and Tobago
Iran, Islamic Republic of*	United Arab Emirates*
Iraq*	Venezuela*
Kuwait*	Yemen

(\* OPEC member country)

**Major exporters of manufactures 12**

Brazil
China
China, Hong Kong SAR
China, Taiwan Province of
India
Korea, Republic of
Malaysia
Mexico
Philippines
Singapore
Thailand
Turkey

**Remaining countries / territories 156**

All other developing countries / territories not listed among Major petroleum exporters or Major exporters of manufactures.

## B. DISTRIBUTION OF DEVELOPING COUNTRIES / TERRITORIES BY INCOME GROUP

### 1995 per capita GDP above US\$4,000: High-income 48

American Samoa	China, Taiwan Province of	New Caledonia
Anguilla	Cook Islands	Oman
Antigua and Barbuda	Croatia	Palau
Argentina	Cyprus	Puerto Rico
Aruba	French Guiana	Qatar
Bahamas	French Polynesia	Reunion
Bahrain	Gabon	Republic of Korea
Barbados	Greenland	Saint Kitts and Nevis
Bermuda	Guadeloupe	Saudi Arabia
Brazil	Guam	Seychelles
British Virgin Islands	Kuwait	Singapore
Brunei Darussalam	Libyan Arab Jamahiriya	Slovenia
Cayman Islands	Malaysia	Trinidad and Tobago
Chile	Martinique	United Arab Emirates
China, Hong Kong SAR	Montserrat	United States Virgin Islands
China, Macao SAR	Netherlands Antilles	Uruguay

### 1995 per capita GDP between US\$800 and US\$4,000: Middle-income 72

Algeria	Iraq	Pitcairn
Armenia	Jamaica	Saint Helena
Belize	Johnston Island	Saint Lucia
Bolivia	Jordan	Saint Pierre and Miquelon
Botswana	Kazakhstan	Saint Vincent and the Grenadines
Cape Verde	Lebanon	Samoa
Christmas Island	Maldives	Solomon Islands
Cocos (Keeling) Islands	Marshall Islands	Suriname
Colombia	Mauritius	Swaziland
Congo	Mexico	Syrian Arab Republic
Costa Rica	Micronesia, Federated States of	Thailand
Cuba	Midway Islands	The former Yugoslav Republic of Macedonia
Djibouti	Morocco	Tokelau
Dominica	Namibia	Tonga
Dominican Republic	Nauru	Tunisia
East Timor	Niue	Turkey
Ecuador	Norfolk Island	Turkmenistan
Egypt	Northern Mariana Islands	Tuvalu
El Salvador	Palestinian territory	Vanuatu
Falkland Islands (Malvinas)	Panama	Venezuela
Fiji	Papua New Guinea	Wake Island
Grenada	Paraguay	Wallis and Futuna Islands
Guatemala	Peru	Yugoslavia, Federal Republic of
Indonesia	Philippines	
Iran, Islamic Republic of		

### 1995 per capita GDP below US\$800: Low-income 66

Afghanistan	Ghana	Nicaragua
Angola	Guinea	Niger
Azerbaijan	Guinea-Bissau	Nigeria
Bangladesh	Guyana	Pakistan
Benin	Haiti	Rwanda
Bhutan	Honduras	Sao Tome and Principe
Bosnia and Herzegovina	India	Senegal
British Indian Ocean Territory	Kenya	Sierra Leone
Burkina Faso	Kiribati	Somalia
Burundi	Korea, Democratic People's Republic of	Sri Lanka
Cambodia	Kyrgyzstan	Sudan
Cameroon	Lao People's Democratic Republic	Tajikistan
Central African Republic	Lesotho	Togo
Chad	Liberia	Turks and Caicos Islands
China	Madagascar	Uganda
Comoros	Malawi	United Republic of Tanzania
Côte d'Ivoire	Mali	Uzbekistan
Democratic Republic of the Congo	Mauritania	Viet Nam
Equatorial Guinea	Mongolia	Yemen
Eritrea	Mozambique	Zambia
Ethiopia	Myanmar	Zimbabwe
Gambia	Nepal	
Georgia		

**C. OTHER GROUPINGS OF DEVELOPING COUNTRIES / TERRITORIES (MEMO ITEMS)****Landlocked countries 30**

---

Afghanistan	Kazakhstan	Swaziland
Armenia	Kyrgyzstan	Tajikistan
Azerbaijan	Lao People's Democratic Republic	The former Yugoslav Republic of Macedonia
Bhutan	Lesotho	Turkmenistan
Bolivia	Malawi	Uganda
Botswana	Mali	Uzbekistan
Burkina Faso	Mongolia	Zambia
Burundi	Nepal	Zimbabwe
Central African Republic	Niger	
Chad	Paraguay	
Ethiopia	Rwanda	

**Least developed countries (LDCs) 49**

---

Afghanistan	Gambia	Rwanda
Angola	Guinea	Samoa
Bangladesh	Guinea-Bissau	Sao Tome and Principe
Benin	Haiti	Senegal
Bhutan	Kiribati	Sierra Leone
Burkina Faso	Lao People's Democratic Republic	Solomon Islands

WTO	World Trade Organisation
WTO	World Tourism Organisation

## NOTES GENERALES

Ces notes donnent de brèves indications sur le contenu de chaque partie du *Manuel*, en particulier sur les modifications apportées par rapport aux précédentes éditions. Deux nouveautés majeures sont introduites dans le *Manuel de statistiques de la CNUCED 2002*. Les statistiques sur le commerce des services forment maintenant une partie à part (V) et incluent deux nouveaux tableaux. La catégorie Etudes spéciales (VIII) comprend plusieurs ensembles de données présentés dans le *Manuel* pour la première fois, afin de renforcer un peu plus la valeur analytique de la publication et de répondre aux intérêts et suggestions des utilisateurs. L'annexe des précédentes éditions du *Manuel* consacré au réseau des exportations mondiales a disparu, mais les données correspondantes sont disponibles sur le CD-ROM.

En plus, les numéros et les noms des tableaux et des chapitres ont été changés dans certains cas pour obtenir exactement la même numérotation sur le CD-ROM et dans la version imprimée du *Manuel de statistiques 2002* et ainsi permettre une correspondance aisée entre les deux versions pour tous ceux qui les utilisent de façon complémentaire.

Les paragraphes suivants contiennent une brève description de tous les tableaux inclus dans le *Manuel*. La signification des symboles est la suivante :

- \* indique que l'ensemble de données est présenté dans le *Manuel* pour la première fois
- \*\* donne le numéro du tableau correspondant de la version imprimée 2001 du *Manuel*
- \*\*\* désigne le numéro du tableau de la version imprimée 2001 du *Manuel* auquel le tableau correspond partiellement.

### PREMIERE PARTIE

#### **Valeur, croissance et parts du commerce mondial en prix courants ; balances commerciales ; commerce intra-régional par régions**

Le système national d'enregistrement (commerce général ou commerce spécial) et d'évaluation est indiqué dans le tableau 1.1A. Les totaux régionaux pour les pays développés à économie de marché ont été ajustés, si nécessaire, en vue d'obtenir la valeur approchée des importations c.a.f. et des exportations f.a.b. dans le commerce spécial. (\*\*1.1/2) Les mêmes données sont présentées dans le tableau 1.1B pour des groupements économiques différents. (\*\*1.3/4)

Le tableau 1.1C présente les parts dans les exportations et les importations mondiales. (\*\*1.9/10)

Les taux de croissance calculés à partir des chiffres des tableaux 1.1A et 1.1B figurent aux tableaux 1.2A (\*\*1.5/6) et 1.2B (\*\*1.7/8).

Le tableau 1.3 fait apparaître les balances commerciales (exportations f.a.b. moins importations c.a.f.), ainsi que ces mêmes balances en pourcentage des importations par pays, par régions et par groupements économiques. (\*\*1.11/12)

Le tableau 1.4 indique l'importance relative des échanges intra-régionaux dans le commerce total des groupements commerciaux et régionaux. (\*\*1.13)

### DEUXIEME PARTIE

#### **Indices du volume, de la valeur unitaire et des termes de l'échange par régions et par groupements économiques ; indices des prix des produits de base**

Le groupe de tableaux 2.1 (2.1A à 2.1F) fait apparaître les indices du volume et de la valeur unitaire des exportations et des importations, ainsi que des termes de l'échange et du pouvoir d'achat des exportations, pour les pays développés et

les pays en développement par régions et par groupements économiques. Les indices concernant les pays et territoires en développement sont fondés sur des estimations du secrétariat de la CNUCED. (\*\*2.1 à 2.6) On trouvera tous les détails et une description des méthodes employées au tableau 8.1.

Le tableau 2.2 donne les indices de prix agrégés pour des groupes de produits de base tels que les produits alimentaires, boissons tropicales, huiles et graines oléagineuses, matières premières d'origine agricole, minéraux, minerais et métaux ainsi qu'un indice de l'ensemble en dollars courants des Etats-Unis. Il contient également des indices annuels et trimestriels de prix sur le marché libre d'une sélection de produits de base exportés par les pays en développement. Pour mémoire, les prix du marché en dollars courants sont donnés pour l'année de base. Ce tableau a été établi à partir de données extraites du *Bulletin des prix des produits de base* de la CNUCED. (\*\*2.7)

### TROISIEME PARTIE

#### **Réseau du commerce mondial : résumé par principales régions d'origine et de destination ; structure des exportations et des importations par principaux groupes de produits**

Les tableaux 3.1A et 3.1B présentent respectivement la structure des exportations et des importations de divers pays par régions d'origine et de destination. (\*\*3.3 et 3.4)

Le groupe de tableaux 3.2.1 indique la structure des exportations par destinations et par principaux groupes de produits pour le monde et pour certaines régions, tandis que les tableaux sous le titre 3.2.2 donnent les mêmes renseignements concernant les importations par origines. Les données complètes à partir desquelles ces tableaux ont été composés sont présentées au tableau 3.2 de la version CD-ROM du *Manuel de statistiques de la CNUCED 2002*. (\*\*3.1 et 3.2)

### QUATRIEME PARTIE

#### **Structure des exportations et des importations par groupes de produits et par pays ; principales exportations des pays et territoires en développement, par principaux exportateurs**

Les tableaux 4.1A et 4.1B fait apparaître la structure des exportations et des importations de divers pays et territoires par catégories de produits pour une sélection d'années. (\*\*4.1 et 4.2)

Dans les tableaux 4.2A, B et C sont présentées les exportations par groupes de la CTCI (position à trois chiffres [Révision 2]) pour le monde, les pays développés et les pays et territoires en développement, respectivement. On y trouve également la part du groupe de produits considéré dans les exportations de la région et du monde, ainsi que le taux annuel moyen de croissance correspondant pour la région et l'écart de ce dernier par rapport au taux de croissance mondial. (\*\*4.3A, B et C)

Le tableau 4.2D fait apparaître, pour les différents pays et territoires, les principaux produits exportés (position à trois chiffres de la CTCI [Révision 2]). La part de chaque produit dans le total des exportations du pays, de la région et du monde est également indiquée. (\*\*4.3D)

Le tableau 4.2E indique les plus gros exportateurs des 70 principaux produits exportés par les pays et territoires en développement (position à trois chiffres de la CTCI [Révision 2]), ainsi que les parts correspondantes, de la même façon que le tableau 4.2D. (\*\*4.4)

## CINQUIEME PARTIE

### Commerce des services

Le tableau 5.1 indique la valeur des exportations et des importations des services commerciaux par pays, par régions et par groupements économiques. Les services se divisent en 10 principales catégories, conformément à la définition du *Manuel de la balance des paiements* du FMI (1993, MBP 5). Cependant, les services fournis ou reçus par les administrations publiques, n.c.a., qui présentent la 11<sup>e</sup> catégorie parmi les services définis dans le MBP 5, n'apparaissent pas ici. Les agrégats qui figurent au tableau incluent les valeurs estimées par le secrétariat de la CNUCED qui ne sont pas présentées séparément. (\*\*1.14)

Le tableau 5.2A\* fait apparaître les 20 plus gros pays exportateurs, parmi les pays en développement, pour chacune des 10 catégories principales de services, selon la définition du *Manuel de la balance des paiements* du FMI (1993, MBP 5). Les services fournis ou reçus par les administrations publiques, n.c.a. n'y sont pas présentés. Le tableau 5.2B\* fournit les mêmes informations sur les 20 plus gros pays importateurs de services parmi les pays en développement.

Le tableau 5.3\* contient les données sur les services de voyages en présentant certaines statistiques sur le tourisme par pays pour les années récentes.

## SIXIEME PARTIE

### Balance des paiements ; investissement direct étranger ; flux de ressources financières et endettement extérieur

Le tableau 6.1 contient un état récapitulatif du «compte courant» des balances des paiements pour tous les pays et territoires. Des notes explicatives concernant les catégories et la terminologie employée se trouvent à la suite du tableau. (\*\*5.1)

Le tableau 6.2 est consacré aux investissements directs en provenance de l'étranger (IDE) et présente les flux entrants et sortants par pays et par groupements régionaux. (\*\*5.3)

Les tableaux 6.3A et B fournissent des informations sur les principaux pays en développement destinataires et expéditeurs des envois de fonds des travailleurs. À la suite du tableau, on trouve des définitions concernant cette catégorie. (\*\*5.5 A et B)

Le tableau 6.4 fournit des données relatives aux réserves internationales des pays et territoires en développement par pays, par régions et par groupements économiques. Les mois d'importation que ces réserves peuvent financer sont également indiqués. (\*\*5.2)

Le tableau 6.5 fait apparaître la structure des flux financiers officiels vers les pays et territoires en développement par pays, par régions et par groupements économiques. (\*\*5.4)

Le tableau 6.5 contient des données sur la dette extérieure des pays et territoires en développement par régions et par groupements économiques, ainsi qu'une ventilation détaillée de la dette publique ou garantie par l'état par sources d'emprunt. (\*\*5.6)

## SEPTIEME PARTIE

### Quelques indicateurs fondamentaux du développement

Le tableau 7.1 fournit des renseignements sur le chiffre et la densité de la population, la superficie et le PIB courant total et par habitant (en dollars), par pays, par régions et par groupements économiques. Les estimations du PIB par habitant (en dollars) présentées dans ce tableau ont été obtenues à partir de données en monnaies nationales converties en dollars, en appliquant les taux de change officiels en vigueur. Il n'est pas toujours satisfaisant de ramener la valeur de séries de ce type à une devise commune - le dollar des Etats-Unis - en appliquant

les taux de change officiels. C'est pourquoi, dans certains cas, les données relatives au PIB par habitant ne sont pas exemptes de distorsions. Il convient alors d'ajuster davantage tels chiffres. (\*\*6.1)

Le tableau 7.2 indique les taux annuels moyens de croissance du PIB réel total et du PIB par tête d'habitant au prix de marché, par pays, par régions et par groupements économiques. (\*\*6.2)

Le tableau 7.3 contient les données sur la structure du PIB par catégories de dépenses et par branches d'activité économique, par pays, par régions et par groupements économiques. (\*\*6.3)

Le tableau 7.4 présente quelques indicateurs économiques et sociaux pour les différents pays. Il fournit des données relatives à la population (en plus de ce qui est montré dans le tableau 7.1) et d'autres statistiques démographiques ainsi que des statistiques relatives à la santé et l'environnement. (\*\*6.4)

Le tableau 7.5 fait apparaître un autre ensemble d'indicateurs socio-économiques par pays sur l'éducation, la main-d'œuvre, l'égalité entre femmes et hommes et les migrations. (\*\*6.4)

Le tableau 7.6 comprend les données sur les télécommunications, l'information et l'accès aux médias. Les indicateurs présentés se réfèrent aux postes de téléviseur, téléphones, ordinateurs personnels, l'Internet, coûts et revenus dans le secteur des télécommunications etc. (\*\*6.5)

## HUITIEME PARTIE

### Etudes spéciales

Le tableau 8.1 fait apparaître des estimations provisoires des indices de la valeur unitaire des exportations et des importations pour différents pays et territoires en développement, ainsi que les termes de l'échange et le pouvoir d'achat des exportations calculés à partir de ces indices. (\*\*7.1)

Le tableau 8.2A contient les séries de données sur les indices de concentration et de diversification des exportations des pays et territoires individuels, tandis que le tableau 8.2B présente les mêmes indices pour les importations. (\*\*4.5)

Les tableaux 8.3A\* et B\* fournissent les indices de concentration et de changements structurels des exportations et des importations par groupes de produits de la CTCI (position à trois chiffres [Révision 2]).

Les indices d'instabilité et les tendances des prix mensuels de certains produits de base sur le marché sont présentés dans le tableau 8.4\*.

## AUTRES NOTES ET EXPLICATIONS DES SYMBOLES

Les chiffres et les pourcentages indiqués dans les tableaux ont été souvent arrondis; leur somme ne correspond donc pas nécessairement aux totaux.

Sauf indication contraire, le terme «dollar» s'entend du dollar des Etats-Unis d'Amérique. Le terme «billion» signifie 1 000 millions.

Un zéro (0) signifie que le montant est nul ou négligeable.

Un tiret (–) signifie que la rubrique est sans objet.

Deux points (..) signifient que les données ne sont pas disponibles ou ne sont pas communiquées séparément.

Le trait d'union (-) entre deux millésimes (par exemple 1965-1970) indique qu'il s'agit de la période tout entière (y compris la première et la dernière année mentionnées).

## REPARTITION DES PAYS ET TERRITOIRES

### TROIS GRANDS GROUPES DES PAYS / TERRITOIRES

Les répartitions des pays, présentées dans les pages suivantes, sont adoptées uniquement pour des raisons de présentation statistique et sont celles qu'utilise la Division de statistique, Département des affaires économiques et sociales (DAES) de l'ONU.

#### **Pays / territoires développés à économie de marché :**

*En Amérique :* Canada et Etats-Unis d'Amérique.

*En Europe :* Allemagne; Autriche; Belgique; Danemark; Espagne; Finlande; France; Gibraltar; Grèce; îles Féroé; Irlande; Islande; Italie; Luxembourg; Malte; Norvège; Pays-Bas; Portugal; Royaume-Uni de Grande-Bretagne et d'Irlande du Nord; Suède ; et Suisse.

*En Afrique :* Afrique du Sud.

*En Asie :* Israël et Japon.

*En Océanie :* Australie et Nouvelle-Zélande.

#### **Pays d'Europe orientale :**

Albanie; Bélarus; Bulgarie; Estonie; Fédération de Russie; Hongrie; Lettonie; Lituanie; Pologne; République de Moldova; République tchèque; Roumanie; Slovaquie ; et Ukraine.

#### **Pays et territoires en développement :**

Tous les autres pays et territoires d'Afrique, d'Amérique, d'Asie, d'Europe et d'Océanie non mentionnés ci-dessus. Les grandes régions couvrant l'ensemble des pays et territoires développés et en développement ont été divisées en sous-régions pour permettre la présentation de renseignements supplémentaires.

Dans le *Manuel de statistiques de la CNUCED*, un certain nombre de classifications économiques sont utilisées afin de mieux faire ressortir les différences entre pays et territoires en développement et ainsi faciliter l'analyse des données socio-économiques. Ces classifications distinguent, en premier lieu, les principaux pays exportateurs de pétrole des autres pays et territoires en développement. Ces derniers ont été à leur tour répartis en deux sous-catégories: a) principaux exportateurs d'articles manufacturés et b) autres pays. La rubrique «Autres pays» a été elle-même subdivisée d'après les principales régions géographiques.

Le groupement «Principaux exportateurs de pétrole» a été révisé en 2001. Le Yémen a été inclus, tandis que l'Equateur n'en fait plus partie. Le groupement des «Principaux exportateurs de pétrole» comprend les 11 pays membres de l'OPEP. En plus, il inclut 9 pays non-membres de l'OPEP choisis en fonction des critères suivants : la part du pétrole et des produits pétroliers ne représentait pas moins de 40% de leurs exportations totales, et les exportations de ces produits s'élevaient au moins à 1 milliard de dollars en 1997-1998 en moyenne.

Le groupement «Principaux exportateurs d'articles manufacturés» a aussi été révisé en 2001 et contient 12 pays/territoires (comparé à 10 dans les éditions précédentes). L'ancienne Yougoslavie ne fait plus partie du groupe ; cependant la Chine, l'Inde et les Philippines ont été ajoutés. Le groupement des «Principaux exportateurs d'articles manufacturés» comprend les pays/territoires sélectionnés en fonction des critères suivants : la part d'articles manufacturés ne représentait pas moins de 50% de leurs exportations totales, et leurs exportations d'articles manufacturés avaient une valeur moyenne d'au moins 20 milliards de dollars en 1997-1998.

Les groupements économiques sont divisés en trois groupes de revenu (en fonction du PIB par habitant en 1995) : revenu élevé, revenu intermédiaire et revenu faible. En plus, les groupements des «Pays les moins avancés» (PMA), «Pays pauvres lourdement endettés» (PPLE) et «Pays enclavés» sont présentés pour mémoire.

Les groupements commerciaux (par exemple Union européenne, ALADI, Accord de Bangkok) sont inclus dans un certain nombre de tableaux. Cela a permis de faire figurer des groupements à caractère interrégional tels que le CEI et la CEAP.

Les dernières informations disponibles au mois de mai 2002 ont été prises en compte pour présenter les groupements contenus dans ce *Manuel de statistiques*.

## 1.1A Value of exports and imports by region and country

### Sources:

United Nations, *Yearbook of International Trade Statistics*; United Nations, *Monthly Bulletin of Statistics*; United Nations, Economic Commission for Europe; International Monetary Fund, *International Financial Statistics*; International Monetary Fund, *Direction of Trade Statistics*; World Trade Organization; Eastern Caribbean Central Bank; National Sources and UNCTAD secretariat estimates.

### Notes:

Figures in this table refer to total export and total import of goods. Data on trade in services are shown in table 5.1.

Two trade systems are in common use: the *General Trade System* and the *Special Trade System*.

The *General Trade System* is used when the statistical territory of a compiling country coincides with its economic territory. Consequently, imports include all goods entering the economic territory of a compiling country and exports include all goods leaving the economic territory of a compiling country.

The *Special Trade System* is used when the statistical territory comprises only a particular part of the economic territory within which goods may be disposed without customs restriction (free circulation area).

Imports include all goods entering the free circulation area of a compiling country, which means cleared through customs for home use; and exports include all goods leaving the free circulation area. However, goods entering and goods leaving an industrial free zone are not recorded since they have not been cleared through customs for home use. The products processed in free zones are also excluded from exports.

For further explanations, see United Nations, *International Trade Statistics: Concepts and Definitions, Series M, No 52, Revision 2*.

The trade flows shown in this table refer to the general trade system except, the countries and territories listed below, which employ the special trade system:

Albania; Algeria; American Samoa; Angola; Argentina; Aruba; Austria; Belgium-Luxembourg; Benin; Botswana; Brunei Darussalam; Bulgaria; Burkina Faso; Burundi; Cambodia; Cameroon; Cape Verde; Central African Republic; Chad; Chile; China; Comoros; Congo; Costa Rica; Côte d'Ivoire; Cuba; Dem. Rep. of the Congo; Denmark; Djibouti; Dominica; Egypt; El Salvador; France; French Guiana; French Polynesia; Gabon; Germany; Greece; Grenada; Guadeloupe; Guam; Guatemala; Guinea-Bissau; Guyana; Honduras; Hungary; Indonesia; Iran, Islamic Rep. of; Iraq; Israel; Italy; Kiribati; Kuwait; Kyrgyzstan; Lao People's Dem. Rep.; Latvia; Lebanon; Lesotho; Liberia; Luxembourg; Madagascar; Mali; Martinique; Mauritania; Montserrat; Morocco; Mozambique; Namibia; Netherlands; Netherlands Antilles; New Caledonia; Niger; Panama; Paraguay; Peru; Poland; Portugal; Qatar; Reunion; Romania; Saint Kitts and Nevis; Saint Lucia; Saint Pierre and Miquelon; Saint Vincent and the Grenadines; Samoa; Sao Tome and Principe; Saudi Arabia; Senegal; Slovenia; Solomon Islands; Somalia; Spain; Suriname; Swaziland; Switzerland; Syrian Arab Republic; Thailand; The former Yugoslav Rep. of Macedonia; Togo; Trinidad and Tobago; Turkey; Yugoslavia, Fed. Rep. of.

- 1 Prior to 1985, general trade.
- 2 Data prior to July 1990 pertain to the territorial boundaries of the Federal Republic of Germany prior to 3 October 1990.
- 3 From 1990 onwards, trade statistics exclude certain oil and chemical products.
- 4 Inter-trade between the countries of the Customs Union (UDEAC) is excluded.
- 5 Prior to 1993, data refer to Ethiopia (former) including Eritrea.
- 6 Excluding military imports.
- 7 Prior to 1990, data refer to Yemen, Arab Republic (former) and Yemen, Democratic Republic (former).
- 8 Prior to 1994, covers only trade with countries outside the CIS.
- 9 Excluding imports of goods financed through foreign aid.
- 10 Inter-trade between the States of Malaysia included.

## 1.1A Valeur des exportations et des importations par régions et par pays

### Sources :

Organisation des Nations Unies, *Annuaire statistique du commerce international*; Organisation des Nations Unies, *Bulletin mensuel de statistique*; Organisation des Nations Unies, Commission économique pour l'Europe; Fonds monétaire international, *International Financial Statistics*; Fonds monétaire international, *Direction of Trade Statistics*; Organisation mondiale du commerce; Eastern Caribbean Central Bank; Sources nationales et estimations du secrétariat de la CNUCED.

### Notes :

Les chiffres de ce tableau se réfèrent aux exportations et importations totales des biens. Les données sur le commerce des services sont montrées dans le tableau 5.1.

Deux systèmes d'enregistrement des marchandises sont couramment utilisés: le *Système du Commerce Général* et le *Système du Commerce Spécial*.

Le *Système du Commerce Général* est utilisé lorsque le territoire statistique d'un pays coïncide avec son territoire économique. Par conséquent, les importations comprennent tous les biens admis sur le territoire du pays déclarant et les exportations comprennent tous les biens qui le quittent.

Le *Système du Commerce Spécial* est utilisé lorsque le territoire statistique ne comprend qu'une partie du territoire économique à l'intérieur de laquelle les biens peuvent être écoulés librement sans restriction douanière (zone de libre de circulation).

Les importations comprennent tous les biens qui entrent dans la zone de libre circulation du pays déclarant et donc qui ont été dédouanés pour mise à la consommation; les exportations comprennent tous les biens qui en sortent. Toutefois, les biens importés en vue d'un perfectionnement actif ainsi que les biens qui entrent ou qui sortent d'une zone franche industrielle ne sont pas enregistrés. Sont également exclus, les produits résultant du perfectionnement actif.

Pour de plus amples explications se référer à la publication des Nations Unies, *Statistique du commerce international de marchandises: Concepts et définitions, Série M, No 52, Révision 2*.

Les flux du commerce présentés dans ce tableau se réfèrent au Système du commerce général à l'exception des pays et territoires qui utilisent le Système du commerce spécial et dont la liste suit :

Albanie; Algérie; Allemagne; Angola; Antilles néerlandaises; Arabie saoudite; Argentine; Aruba; Autriche; Belgique-Luxembourg; Bénin; Botswana; Brunéi Darussalam; Bulgarie; Burkina Faso; Burundi; Cambodge; Cameroun; Cap-Vert; Chili; Chine; Comores; Congo; Costa Rica; Côte d'Ivoire; Cuba; Danemark; Djibouti; Dominique; Egypte; El Salvador; Espagne; France; Gabon; Grenade; Grèce; Guadeloupe; Guam; Guatemala; Guinée-Bissau; Guyana; Guyane française; Honduras; Hongrie; Îles Salomon; Indonésie; Iran, Rép. islamique d'; Iraq; Israël; Italie; Kirghizistan; Kiribati; Koweït; Lesotho; Lettonie; Liban; Libéria; Luxembourg; Ex-Rép. Yougoslave de Macédoine; Madagascar; Mali; Maroc; Martinique; Mauritanie; Montserrat; Mozambique; Namibie; Niger; Nouvelle-Calédonie; Panama; Paraguay; Pays-Bas; Pérou; Pologne; Polynésie française; Portugal; Qatar; Rép. dém. du Congo; Rép. dém. populaire lao; République arabe syrienne; République centrafricaine; Réunion; Roumanie; Saint-Kitts-et-Nevis; Saint-Pierre-et-Miquelon; Saint-Vincent-et-les Grenadines; Sainte-Lucie; Samoa; Samoa américaines; Sao Tomé-et-Principe; Sénégal; Slovaquie; Somalie; Suisse; Suriname; Swaziland; Tchad; Thaïlande; Togo; Trinité-et-Tobago; Turquie; Yougoslavie, Rép. féd. de.

- 1 Avant 1985, commerce général.
- 2 Les données relatives à la période précédant juillet 1990 correspondent aux limites territoriales de la République fédérale d'Allemagne antérieures au 3 octobre 1990.
- 3 A partir de 1990, certains produits pétroliers et chimiques ne sont plus inclus dans les statistiques du commerce.
- 4 Non compris le commerce entre les pays de l'Union douanière (UDEAC).
- 5 Avant 1993, les données se réfèrent à l'Éthiopie (anc.) y compris l'Erythrée.
- 6 Non compris les importations militaires.
- 7 Avant 1990, les données se réfèrent à la République arabe du Yémen (anc.) et la République démocratique du Yémen (anc.).
- 8 Avant 1994, concerne seulement le commerce avec les pays extérieurs à la CEI.
- 9 Non compris les biens d'importation financés par l'aide à l'étranger.
- 10 Y compris le commerce entre les États de la Malaisie.

### **1.1A Value of exports and imports by region and country**

- 11 Excluding military imports and offshore installations of petroleum industry.
- 12 Including transshipments to and from peninsular Malaysia.
- 13 Prior to 1998, data refer to the Federation of Bosnia and Herzegovina only. The other entity of Bosnia and Herzegovina, Republika Srpska is not included.
- 14 From 1985 onwards, data are not comparable to those shown for prior periods due to revisions of the koruna-to-US dollar exchange rate.

### **1.1A Valeur des exportations et des importations par régions et par pays**

- 11 Non compris les importations militaires et l'installation près des côtes de l'industrie pétrolière.
- 12 Y compris les transbordements vers et en provenance de la Malaisie péninsulaire.
- 13 Avant 1998, les données se réfèrent uniquement à la Fédération de Bosnie-Herzégovine. L'autre entité de la Bosnie-Herzégovine, Republika Srpska n'est pas incluse.
- 14 A partir de 1985, les chiffres ne sont pas comparables à ceux des années antérieures à cause des révisions du taux de change de la couronne par rapport au dollar des Etats-Unis.

**1.1B Value of exports and imports by economic grouping**

Landlocked countries	63	-593	-2426	-3275	-4202	-5310	-6512	-8770	-4297

Sources: Data are derived from figures reported in table 1.1 of the *UNCTAD Handbook of Statistics 2002 on CD-ROM*.

Notes: For those countries which report their imports on an f.o.b. basis, the trade balance shown is on an f.o.b./f.o.b. basis. The regional trade balances are the sums of the reported trade balances for the relevant individual countries. A negative sign indicates a deficit of the trade balance.

Sources : Les données ont été calculées d'après les chiffres du tableau 1.1 du *Manuel de statistiques de la CNUCED 2002 sur CD-ROM*.

Notes : Lorsque les pays ont fourni leurs importations sur la base f.a.b., la balance commerciale de chaque pays est montrée sur la base f.a.b./f.a.b. Les balances commerciales régionales sont calculées à partir des balances commerciales des pays correspondants. Un signe négatif indique un déficit de la balance commerciale.

Sources: UNCTAD secretariat estimates based on various national and international sources (see tables 1.1A and 8.1).

Notes:

For description of the method used, see explanatory notes to table 8.1.

For tables 2.1C and 2.1D, regional aggregates are current period weighted.

Sources: Estimations du secrétariat de la CNUCED d'après des sources nationales et internationales (voir tableaux 1.1A et 8.1).

Notes:

Pour la description de la méthode utilisée, se reporter aux notes explicatives du tableau 8.1.

Dans les tableaux 2.1C et 2.1D, les totaux régionaux sont à coefficients de pondération correspondant à la période en cours.

Sources: The prices used in the calculation of the indices shown in this table are extracted from the UNCTAD *Commodity Price Bulletin* and its *Monthly Updates*.

Notes: The group indices have been initially based on 1985 and include all commodities shown except for those with an asterisk (\*).  
For the group indices based on 1985, please refer to the *UNCTAD Handbook of Statistics 2002 on CD-ROM*.  
The average annual indices are calculated from monthly data and may not correspond to the average from quarterly data.  
As a result of the discontinuation of some series, the following aggregated indices have been recalculated: total, all food, food and tropical beverages, food and agricultural raw materials.

(\_) Not applicable

(..) Not available

1 Dollars per metric ton (if not indicated otherwise)

2 Cents per pound

3 Cents per kilogram

4 1993 level

5 Dollars per 100 kilograms

6 Dollars per cubic meter

7 Cents per sheet

8 Cents per Fe unit

9 Dollars per metric ton unit of WO<sub>3</sub>

10 Dollars per troy ounce

11 Cents per troy ounce

12 Dollars per barrel

Sources : Les prix utilisés pour le calcul des indices présentés dans ce tableau sont extraits du *Bulletin des prix des produits de base* de la CNUCED ainsi que de ses *mises à jour mensuelles*.

Notes : Les indices relatifs aux groupes de produits ont été initialement basés sur 1985; ils recouvrent tous les produits présentés à l'exception de ceux munis d'un astérisque (\*). Pour les indices des groupes basés sur 1985, veuillez vous référer au *Manuel de statistiques 2002 de la CNUCED sur CD-ROM*. Les indices moyens annuels sont calculés sur la base de données mensuelles et peuvent ne pas correspondre aux moyennes calculées sur la base des trimestres. Suite à l'interruption de certaines séries, les indices agrégés suivants ont été recalculés : total, total des produits alimentaires, produits alimentaires et boissons tropicales, produits alimentaires et matières premières d'origine agricole.

(\_) Sans objet

## 2.2 Annual and quarterly indices of free market prices of selected primary commodities

1990 = 100

### Specifications

#### Food

1. Wheat: Argentina, Trigo Pan Upriver, f.o.b.
2. Wheat: United States, No. 2, Hard Red Winter (ordinary), f.o.b. Gulf ports.
3. Maize: Argentina, Rosario, f.o.b.
4. Maize: United States, No. 3 yellow, c.i.f. Rotterdam.
5. Rice: Thailand, white milled, 5 % broken, f.o.b. Bangkok.
6. Sugar: Caribbean ports, f.o.b. bulk basis (I.S.A.).
7. Beef: All origins (mainly Australia), frozen and boneless, 85% visible lean, f.o.b., United States ports.
8. Bananas: Central America and Ecuador, fresh, f.o.b. United States ports.
9. Pepper: Singapore, White Sarawak, 100 %, closing quotations.
10. Fish meal: Any origin, 64/65 %, c&f Hamburg.
11. Soybean meal: Hamburg, 44/45 %, f.o.b. ex-mill.

#### Tropical beverages

12. Coffee: Colombian mild Arabicas, ex-dock New York (I.C.A.).
13. Coffee: Brazilian and other natural Arabicas, ex-dock New York (I.C.A.).
14. Coffee: Other mild Arabicas, ex-dock New York (I.C.A.).
15. Coffee: Robustas, ex-dock New York (I.C.A.).
16. Coffee: Composite indicator price 1976 (I.C.A.).
17. Cocoa: Average of daily prices, New York/London, 3 months futures (I.C.C.A.).
18. Tea: London auction prices (all tea).  
London auctions ceased on 29 June 1998.
19. Tea: Kenya, auction prices, Best Pekoe Fannings 1, 1993=100.

#### Vegetable oils and oilseeds

20. Soybeans: United States, No. 2 yellow, c.i.f. Rotterdam.
21. Soybean oil: Any origin, crude oil, Dutch, f.o.b. ex-mill.
22. Sunflower oil: EU, f.o.b. N.W. European ports.
23. Groundnut oil: Any origin, c.i.f. Rotterdam.
24. Copra: Philippines/Indonesia, bulk, c.i.f. N.W. European ports.
25. Coconut oil: Philippines/Indonesia, c.i.f. Rotterdam.
26. Palm kernel oil: Malaysia, c.i.f. Rotterdam.
27. Palm oil: Indonesia/Malaysia, 5%, c.i.f. N.W. European ports.

#### Agricultural raw materials

28. Tobacco: United States, leaf tobacco, US general import price.
29. Tobacco: United States, leaf tobacco, average prices received by producers (all markets).
30. Linseed oil: Any origin, ex-tank Rotterdam.
31. Cotton: Cotton Outlook Index A, Middling 1-3/32", c.i.f. North Europe.
32. Cotton: Egypt, Giza 45, good + 3/8, c.i.f. North Europe.
33. Cotton: Sudan, Barakat, X4B, c.i.f. North Europe.
34. Cotton: United States, Memphis Territory, M 1-3/32", c.i.f. North Europe.
35. Cotton: Pakistan, Sind/Punjab, Afzal 1-1/16", c.i.f. North Europe.
36. Cotton: United States; New Orleans/Texas, Mid. 1", c.i.f. North Europe.
37. Wool: United Kingdom Dominion clean: 64's (dry-combed basis).
38. Wool: United Kingdom Dominion clean: 48's (dry-combed basis).
39. Sisal: Tanzania/Kenya, No. 3 long, c.i.f., European ports. Prior to 1997, c.i.f. London.
40. Sisal: East Africa, UG, c.i.f. European ports. Prior to 1997, c.i.f. London.
41. Jute: Bangladesh, B.W.D., f.o.b. Chittagong-Chalna/Mongla.
42. Non-coniferous woods: United Kingdom, import price index 1995 = 100, dollar equivalent.
43. Tropical logs: Cameroon, Sapelli, loyal and marchand, f.o.b.
44. Tropical sawnwood: Malaysia, Dark Red Meranti, select and better, c.i.f., French ports.
45. Plywood: Southeast Asian, Lauan, 3-ply, Extra, 182 cm x 91 cm x 4 mm, wholesale price, spot Tokyo.
46. Rubber: Singapore, No. 1 RSS, f.o.b. in bales.
47. Hides and skins: East Africa, 8/12 pounds.

#### Ores and metals

48. Manganese ore: Metallurgical 48/50 % Mn content, f.o.b. United Kingdom.
49. Phosphate rock: Khouribga, 70-72 % BPL, f.a.s. Casablanca.
50. Iron ore: Australian to Japan, fines, Hamersley, f.o.b.
51. Iron ore: Brazilian to Europe, fines, C.V.R.D., f.o.b.
52. Aluminium: London Metal Exchange, high grade, cash.
53. Copper: United States producer, wire bars, f.o.b. refinery.
54. Copper: London Metal Exchange, grade A, cash.
55. Lead: London Metal Exchange, settlement and cash seller's price in warehouse, excluding duty, range main United Kingdom ports; purity 99.97% Pb.

## 2.2 Indices annuels et trimestriels des prix de certains produits de base sur le marché libre

1990 = 100

### Spécifications

#### Produits alimentaires

1. Blé: Argentine, Trigo Pan Upriver, f.a.b.
2. Blé: Etats-Unis, Hard Red Winter, n° 2 (ordinaire), f.a.b. ports du Golfe.
3. Maïs: Argentine, Rosario, f.a.b.
4. Maïs: Etats-Unis, jaune n° 3, c.a.f. Rotterdam.
5. Riz: Thaïlande, blanchi, 5 % brisures, f.a.b. Bangkok.
6. Sucre: Ports des Caraïbes, f.a.b., en vrac (A.I.S.).
7. Viande de boeuf: Toutes origines (principalement d'Australie), désossée et congelée, maigres à 85% visibles, f.a.b. ports des Etats-Unis.
8. Bananes: Amérique centrale et Equateur, fraîches, f.a.b. ports des Etats-Unis.
9. Poivre: Singapour, Sarawak blanc, 100 %, cours à la fermeture.
10. Farine de poisson: Toutes origines, 64/65 %, c&f Hamburg.
11. Farine de soja: Hamburg, 44/45 %, f.a.b. départ moulin.

#### Boissons tropicales

12. Café: Arabicas doux colombiens, ex-dock New York (A.I.C.).
13. Café: Brésilien et autres Arabicas naturels, ex-dock New York (A.I.C.).
14. Café: Autres Arabicas doux, ex-dock New York (A.I.C.).
15. Café: Robustas, ex-dock New York (A.I.C.).
16. Café: Prix indicatif composite de 1976 (A.I.C.).
17. Cacao: Moyenne des cours quotidiens New York/Londres, 3 mois à terme (A.I.C.C.).
18. Thé: Cours aux enchères à Londres (toutes catégories de thé).  
Les enchères de Londres ont cessé le 29 juin 1998.
19. Thé: Cours aux enchères au Kenya, Best Pekoe Fannings 1, 1993=100.

#### Huiles végétales et graines oléagineuses

20. Soja: Etats-Unis, n° 2 jaune, c.a.f. Rotterdam.
21. Huile de soja: Toutes origines, huile brute, f.a.b. Pays-Bas, départ raffinerie.
22. Huile de tournesol: EU, f.a.b. ports de l'Europe du Nord-Ouest.
23. Huile d'arachide: Toutes origines, c.a.f. Rotterdam.
24. Coprah: Philippines/Indonésie, en vrac, c.a.f. ports de l'Europe du Nord-Ouest.
25. Huile de coprah: Philippines/Indonésie, c.a.f. Rotterdam.
26. Huile de palmiste: Malaisie, c.a.f. Rotterdam.
27. Huile de palme: Indonésie/Malaisie, 5 %, c.a.f. ports de l'Europe du Nord-Ouest.

#### Matières premières d'origine agricole

28. Tabac: Etats-Unis, en feuilles, prix général à l'importation.
29. Tabac: Etats-Unis, en feuilles, prix moyens reçus par les producteurs (toutes catégories).
30. Huile de lin: Toutes origines, cours du disponible, c.a.f. Rotterdam.
31. Cotton: Indice A de 'Cotton Outlook', Middling 1-3/32", c.a.f. Europe du Nord.
32. Coton: Egypte, Giza 45, good + 3/8, c.a.f. Europe du Nord.
33. Coton: Soudan, Barakat, classe X4B, c.a.f. Europe du Nord.
34. Coton: Etats-Unis, Territoire de Memphis, M 1-3/32", c.a.f. Europe du Nord.
35. Coton: Pakistan, Sind/Punjab, Afzal 1-1/16", c.a.f. Europe du Nord.
36. Coton: Etats-Unis, La Nouvelle-Orléans/Texas, Middling 1, c.a.f., Europe du Nord.
37. Laine: Ventes aux enchères au Royaume-Uni et dans les dominions, laine de 64', lavée et peignée à sec.
38. Laine: Ventes aux enchères au Royaume-Uni et dans les dominions, laine de 48', lavée et peignée à sec.
39. Sisal: Tanzanie/Kenya, n° 3 long, c.a.f. ports européens. Avant 1997 : c.a.f. Londres.
40. Sisal: Afrique de l'Est, UG, c.a.f. ports européens. Avant 1997 : c.a.f. Londres.
41. Jute: Bangladesh, B.W.D., f.a.b. Chittagong-Chalna/Mongla.
42. Bois non conifères: Royaume-Uni, indice des prix à l'importation 1995 = 100, équivalent dollar.
43. Grumes tropicales: Cameroun, Sapelli, loyal et marchand, f.a.b.
44. Grumes tropicales sciées: Malaisie, Meranti rouge foncé, select and better, c.a.f. ports français.
45. Contre-plaqué: Asie du Sud-Est, Lauan, 3-feuilles, extra, 182 cm x 91 cm x 4 mm, prix de gros, cours du disponible à Tokyo.
46. Caoutchouc: Singapour, n° 1 RSS, f.a.b. en balles.
47. Peaux: Afrique de l'Est, 8/12 livres.

#### Minerais et métaux

48. Minerai de manganèse: 48/50 % teneur en Mn, f.a.b. Royaume-Uni.
49. Phosphate brut: Khouribga, 70-72 % BPL, f.a.s. Casablanca.
50. Minerai de fer: Australien vers le Japon, fines, Hamersley, f.a.b.
51. Minerai de fer: Brésilien vers l'Europe, fines, C.V.R.D., prix f.a.b.
52. Aluminium: Bourse des métaux de Londres, haute qualité, cours au comptant.
53. Cuivre: Producteur Etats-Unis, barres à fil, f.a.b. sortie d'usine.
54. Cuivre: Bourse des métaux de Londres, grade A, comptant.
55. Plomb: Bourse des métaux de Londres, prix vendeur, à terme et au comptant, à l'entrepôt, droits non acquittés, principaux ports du Royaume-Uni; pureté: 99,97% Pb.

## 2.2 Annual and quarterly indices of free market prices of selected primary commodities

1990 = 100

56. Lead: North America, producer price, refined.
57. Zinc: North America, high grade, daily weighted average, delivered basis.
58. Zinc: London Metal Exchange, cash settlement.
59. Nickel: London Metal Exchange, cash.
60. Nickel: New York dealer, 4x4 cathodes, free market.
61. Tin: London Metal Exchange, high grade, cash.
62. Tin: Ex-smelter price Kuala Lumpur market.
63. Tungsten: wolframite and scheelite, c.i.f. European ports, basis minimum 65% WO<sub>3</sub>. Prior to April 1992 : Wolfram.
64. Gold: United Kingdom, 99.5 % fine, London afternoon fixing, average of daily rates.
65. Silver: Handy & Harman, 99.9 % grade refined, average of daily quotations, New York.

### Memo items

66. Crude petroleum: Average of Dubai, United Kingdom Brent and West Texas crude prices, reflecting relatively equal consumption of medium, light and heavy crudes worldwide.
67. Manufactures export unit value: Developed economies, sections 5-8 of the Standard International Trade Classification (SITC), Revision 2.

## 2.2 Indices annuels et trimestriels des prix de certains produits de base sur le marché libre

1990 = 100

56. Plomb: Amérique du Nord, prix des producteurs, raffiné.
57. Zinc: Amérique du Nord, haute qualité, moyenne pondérée des prix journaliers à la livraison.
58. Zinc: Bourse des métaux de Londres, cours de vente au comptant.
59. Nickel: Bourse des métaux de Londres, cours au comptant.
60. Nickel: Prix du négociant à New York, cathodes 4x4, marché libre.
61. Etain: Bourse des métaux de Londres, haute qualité, cours au comptant.
62. Etain: Prix départ fonderie, marché de Kuala Lumpur.
63. Tungstène: wolframite et scheelite, c.a.f. ports européens, minimum 65% de WO<sub>3</sub>. Avant avril 1992 : Wolfram.
64. Or: Royaume-Uni, 99,5 % fin, cotation de l'après-midi à Londres, moyenne des taux journaliers.
65. Argent: Handy & Harman, 99,9 % raffiné, moyenne des cotations journalières à New York.

### Pour mémoire

66. Pétrole brut: moyenne des prix du Dubaï, Brent du Royaume-Uni et du Texas de l'Ouest, correspondant aux parts relatives de la consommation mondiale du brut moyen, léger et lourd.
67. Valeur unitaire des exportations des produits manufacturés: Economies développées, sections 5 à 8 de la Classification type pour le commerce international (CTCI), révision 2.

PART THREE

**Network of world trade: summary by selected regions of origin and destination; export and import structure by selected commodity groups**

## Network of world trade

Sources: UNCTAD secretariat computations based on United Nations Statistics Division data.

*General note:*

With certain exceptions specified in the notes, regions shown are defined as in the introduction.

Data in this table are not strictly comparable with the export and import data in table 1.1, mainly due to more frequent revisions of the latter table. Furthermore, certain adjustments made for total exports are not reflected in this table as it is not possible to distribute them by destination.

The commodity classification is in accordance with the United Nations Standard International Trade Classification (SITC), Revision 2, for 1980, except for countries which report trade data only in terms of the SITC, Revised. Beginning in 1990 the commodity classification is in accordance with the SITC, Revision 3, except for countries which report trade data only in terms of the SITC, Revision 2, or the SITC, Revised.

Data shown in the network tables are based on official export figures converted to US dollars. Where official figures were not available, estimates have been based on imports reported by partner countries and on other subsidiary data. The data have been adjusted: (a) to include estimates for countries and territories for which either no official data are available, or for which data are not officially analysed by the SITC; (b) to approximate calendar years; (c) where possible, to include ships' stores and bunkers in total exports. Except for a few countries, figures are in accordance with the special trade system.

It should be noted that while data in the network tables show exports by destination, these data may differ considerably from data on imports as reported by countries of destination. The differences are accounted for by a variety of factors, among which the following may be of particular importance:

(1) Most import data are reported on a c.i.f. rather than an f.o.b. basis.

(2) Imports arrive at destination, and are registered with some time-lag from the date they were recorded as exports.

(3) There may be considerable differences between the recorded destination of exports and the actual destination as shown in import statistics. Similarly, the SITC classification used by the exporting country may differ from the one assigned by the importing country.

(4) Both exports and imports may, for various reasons, be over- or under-invoiced (to avoid taxes or controls or to facilitate capital flight).

Despite efforts to allocate all exports by destination, a margin of unallocated exports remains.

*Footnotes:*

1 Includes special category exports, ships' stores and bunkers and other exports of minor importance whose destination could not be determined.

2 Exports of the former USSR for which country of destination could not be attributed are included in the totals of the world, the developed market economy countries and the developing countries and territories, but data are not available to allow their inclusion in the figures for the components of these regions. They are also excluded from the commodity groups by destination data.

3 Beginning in 1995, including Central Asia (Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan).

4 Prior to 1995, including all countries of the former USSR. Beginning in 1995, including the European countries of the former USSR.

5 Prior to 1990, excluding Austria, Finland and Sweden.

6 Prior to 2000, data refer to the Southern African Customs Union (Botswana, Lesotho, Namibia, South Africa, Swaziland); beginning with 2000, they refer solely to South Africa.

## Réseau du commerce mondial

Sources : Calculs du secrétariat de la CNUCED basés sur des données de la Division de statistique des Nations Unies.

### Remarques générales :

En dehors de certaines exceptions spécifiées dans les notes, les régions indiquées sont définies de la même manière que dans l'introduction.

Les données présentées dans ce tableau ne sont pas strictement comparables à celles des exportations et importations du tableau 1.1, principalement en raison de la révision plus fréquente de ces dernières. De plus, certains ajustements apportés au total des exportations n'apparaissent pas dans le présent tableau du fait qu'il n'est pas possible de les répartir par destination.

La classification par produits utilisée est la Classification type pour le commerce international (CTCI), révision 2, des Nations Unies, pour l'année 1980, en dehors des pays qui déclarent exclusivement leurs données du commerce selon la CTCI, révisée. À partir de 1990, la classification par produits utilisée est la CTCI, révision 3, en dehors des pays qui déclarent exclusivement leurs données du commerce sur la base de la CTCI, révision 2 ou de la CTCI, révisée.

Les données présentées dans ce tableau sont fondées essentiellement sur des chiffres officiels d'exportation, convertis en dollars des Etats-Unis. Quand les chiffres officiels n'étaient pas disponibles, on a eu recours à des estimations basées sur les importations déclarées par les pays partenaires ou sur d'autres données subsidiaires. Les données ont été ajustées pour : a) que soient incluses les estimations faites pour les pays ne fournissant pas de données officielles ou dont les données ne sont pas analysées selon la CTCI; b) qu'elles correspondent aux années civiles; c) que les exportations de combustibles de soute et avitaillement des navires et aéronefs étrangers soient, dans la mesure du possible, comprises dans les totaux. À l'exception de quelques pays, les chiffres correspondent au commerce spécial.

Il faut relever que les données présentées dans les tableaux du réseau se rapportant aux exportations ventilées par destination peuvent accuser un écart considérable par rapport aux données des importations déclarées par les pays destinataires. Cet écart est dû à divers facteurs dont les suivants sont d'une importance particulière :

1. Les importations sont déclarées en principe "valeur c.a.f." plutôt que "valeur f.a.b".
2. Les importations des marchandises peuvent arriver à destination et être enregistrées longtemps après la date de leur enregistrement à l'exportation.
3. D'importantes différences peuvent exister entre la destination des exportations déclarée par les pays exportateurs et la destination réelle telle qu'indiquée dans les statistiques d'importation. De même, une version différente de la CTCI peut avoir été utilisée par le pays exportateur et le pays importateur.
4. Les exportations et les importations peuvent, pour différentes raisons, avoir été sous-évaluées ou surévaluées (pour éviter le paiement de taxes, éviter leur contrôle ou faciliter la fuite de capitaux).

En dépit des efforts déployés pour répartir toutes les exportations par région de destination, il subsiste encore une marge d'exportations non distribuées.

### Notes :

- 1 Y compris les exportations de catégorie spéciale, combustibles de soute et avitaillement des navires et aéronefs et autres exportations de moindre importance dont la destination n'a pas pu être déterminée.
- 2 Les exportations en provenance de l'ancienne URSS pour lesquelles chaque pays de destination n'a pu être déterminé séparément sont incluses dans les totaux du monde, des pays développés à économie de marché et des pays et territoires en développement, mais ne sont pas comprises dans les exportations vers chaque partie composant ces régions. Elles sont également exclues des données détaillées par groupes de produits et par destinations.
- 3 À partir de 1995, y compris l'Asie centrale (l'Arménie, l'Azerbaïdjan, la Géorgie, le Kazakhstan, le Kirghizistan, l'Ouzbékistan, le Tadjikistan et le Turkménistan).
- 4 Avant 1995, y compris tous les pays de l'ancienne URSS. À partir de 1995, y compris les pays européens de l'ancienne URSS.
- 5 Avant 1990, non compris l'Autriche, la Finlande et la Suède.
- 6 Avant 2000, les données se rapportent à l'Union douanière d'Afrique australe (Afrique du Sud, Botswana, Lesotho, Namibie, Swaziland); à partir de 2000, elles se réfèrent à l'Afrique du Sud uniquement.

## Export structure

### Explanatory notes for table 4.2

Source: UNCTAD secretariat computations based on UN, DESA, Statistics Division data.

In the case of tables 4.2A, B and C, columns (1) and (4) show export values f.o.b. in millions of dollars. Columns (2) and (5) show the percentage share of each commodity in the grouping total (i.e. "World" in table 4.2A, "Developed market economy countries" in table 4.2B, and "Developing countries and territories" in table 4.2C).

Columns (3) and (6) refer to the percentage share which the indicated value (for a particular commodity in a particular country grouping) represents of world total exports of that commodity. For the purpose of these tables, the world total for each commodity represents the sum of the exports of that commodity for each of the individual countries, adjusted to include estimates where data for 1990, 1991, 1999 or 2000 were not available.

Column (7) shows compound annual average growth rates, based on the values for 1990 and 2000.

Column (8) shows the amount by which the growth rate in column (7) differs from the corresponding average world growth for the particular commodity (as shown in table 4.2A).

In the case of tables 4.2D and 4.2E, column (1) shows export values f.o.b. in thousands of dollars. Column (2) shows, for each commodity presented, its percentage share in the individual country's export total.

In table 4.2D column (3) shows the relative importance of each commodity shown, expressed as a percentage share of the relevant grouping total for that commodity (i.e. "developed", which refers to developed market economy countries; "developing", which refers to developing countries and territories; or "E. Europe", which refers to the countries in Eastern Europe). The symbol \*\* is defined for each country shown and indicates the grouping total to which the percentage share shown applies.

In the case of table 4.2E, column (3) refers only to the share of individual developing countries in the particular commodity total for all developing countries.

Column (4) refers to the percentage share which the value indicated (for a particular commodity in a particular country or country grouping) represents of world total exports of that commodity. The world total for each commodity, for the purpose of these tables, represents the sum of the exports of that commodity for each of the individual countries, adjusted to include estimates where data for 1999 and 2000 were not available.

While the groupings and world totals for each commodity (shown in tables 4.2A, B and C) are based on the most complete data available for each of the individual countries, the data actually shown in table 4.2 D have been limited to the 10 most important exports for each country in cases in which sufficient data were available.

For convenience, the "remainder" (i.e. all commodities other than the ones explicitly shown in the table) has been shown in table 4.2D. The relatively large size of this remainder in the case of the developed market economy countries, the more advanced developing countries and the countries in Eastern Europe results from the higher degree of diversification of exports.

## Structure des exportations

### Notes explicatives du tableau 4.2

Source : Calculs du secrétariat de la CNUCED fondés sur des données de la Division de statistiques, DAES, des Nations Unies.

Dans le cas des tableaux 4.2A, B et C, les colonnes (1) et (4) présentent la valeur des exportations f.a.b. en millions de dollars. Les colonnes (2) et (5) montrent la part en pourcentage de chaque produit dans le total du groupement, c'est-à-dire «Monde» dans le tableau 4.2A, «Pays développés à économie de marché» dans le tableau 4.2B et «Pays et territoires en développement» dans le tableau 4.2C.

Les colonnes (3) et (6) se réfèrent à la part en pourcentage que la valeur indiquée (pour un produit déterminé dans un pays ou groupement de pays déterminés) représente dans le total des exportations mondiales de ce produit. Dans ces tableaux, le total mondial pour chaque produit représente la somme des exportations de ce produit pour chaque pays, ajustée pour y inclure des estimations lorsque les données de 1990, 1991, 1999 ou 2000 n'étaient pas disponibles.

La colonne (7) présente les taux d'accroissement annuel moyen, calculés d'après les valeurs de 1990 et 2000.

La colonne (8) présente la différence en points entre le taux d'accroissement dans la colonne (7) et le taux d'accroissement moyen mondial pour le produit déterminé (comme indiqué dans le tableau 4.2A).

Dans le cas des tableaux 4.2D et 4.2E, la colonne (1) montre la valeur des exportations f.a.b. en milliers de dollars. La colonne (2) montre, pour chaque produit indiqué, sa part en pourcentage dans le total des exportations du pays concerné.

Dans le tableau 4.2D la colonne (3) montre l'importance relative de chaque produit indiqué, présenté en terme de pourcentage du total du groupement auquel le pays appartient ("*developed*" se réfère aux pays développés à économie de marché, "*developing*" aux pays et territoires en développement, et "*E. Europe*" aux pays de l'Europe orientale). Le symbole \*\* est défini pour chaque pays inclus et se réfère au groupement auquel la part en pourcentage donnée correspond.

Dans le cas du tableau 4.2E, la colonne (3) se rapporte seulement à la part de chaque pays en développement dans le total des exportations des pays en développement du produit déterminé.

La colonne (4) se réfère à la part en pourcentage que la valeur indiquée (pour un produit déterminé dans un pays ou groupement de pays déterminés) représente dans le total des exportations mondiales de ce produit. Dans ces tableaux, le total mondial pour chaque produit représente la somme des exportations de ce produit pour chaque pays, ajustée pour inclure des estimations lorsque les données de 1999 et 2000 n'étaient pas disponibles.

Les totaux du monde ou des groupements de pays pour chaque produit (figurant dans les tableaux 4.2A, B et C) sont fondés sur toutes les données disponibles pour chaque pays, alors que les chiffres présentés dans le tableau 4.2 D ont été limités aux 10 exportations les plus importantes pour chaque pays, lorsque les données étaient disponibles.

Pour plus de commodité, le "*remainder*" (reste) est indiqué dans le tableau 4.2D (il représente l'ensemble des produits autres que ceux explicitement inscrits au tableau). La relative importance de ce reste dans le cas des pays développés à économie de marché, des pays les plus avancés parmi les pays en développement ainsi que des pays d'Europe orientale, résulte du très haut degré de diversification de leurs exportations.

**Export structure**  
**Explanatory notes for table 4.2**  
(concluded)

In the case of some of the developing countries and some of the countries in Eastern Europe, a high remainder may indicate incomplete data on the commodity structure, with a relatively large "unallocated" share. (See also table 4.1A.)

Table 4.2E shows 10 leading developing exporting countries for each of 70 commodity groups, selected on the basis of ranking by value presented in table 4.2C. In addition, the sub-table on each commodity group shows the world total, the total exports from developed market economy countries and developing countries and territories.

The French equivalent of the country names shown in table 4.2E can be found in table 4.2D. The French equivalent for the 3-digit SITC classification shown in the group of tables 4.2 may be found in the *English/French Glossary of 3-digit SITC Headings*, included after these *Explanatory notes*.

*Note for tables in part 4:*

The figures shown refer in general to special or national trade. They may therefore differ from those in tables 1.1A.

1 Data for Botswana and South Africa refer to the year 2000.

**Structure des exportations**  
**Notes explicatives du tableau 4.2**  
(fin)

Dans le cas de certains pays en développement et de pays d'Europe orientale, un reste élevé peut indiquer des données incomplètes sur la structure des produits, avec une part «non distribuée» relativement grande. (Voir également le tableau 4.1A.)

Le tableau 4.2E présente 10 principaux pays en développement exportateurs pour chacun des 70 groupes de produits, sélectionnés sur la base du classement par valeur présenté dans le tableau 4.2C. De plus, le sous-tableau de chaque groupe de produits fait apparaître le total mondial, le total des exportations des pays développés à économie de marché et des pays et territoires en développement.

Pour la traduction des noms des pays présentés dans le tableau 4.2E, se reporter au tableau 4.2D. Pour la traduction des groupes de la CTIC (position à trois chiffres) présentés dans le groupe de tableaux 4.2, se reporter au *Glossaire anglais/français de la CTIC au niveau des groupes (position à trois chiffres)*, qui apparaît après ces *Notes explicatives*.

*Note relative aux tableaux de la partie 4 :*

Les données présentées correspondent en général au commerce spécial ou national. Elles peuvent, par conséquent, dans certains cas être différentes de celles présentées dans le tableau 1.1A.

1 Les données pour le Botswana et l'Afrique du Sud se rapportent à l'année 2000.

**233** Latex de caoutchouc synthétique et régénéré; déchets et débris.  
  
**244** Liège naturel brut et déchets (y compris en bloc ou en feuilles).  
**245** Bois de chauffage (non compris les déchets) et charbon de bois.  
**246** Bois de trituration (y compris les plaquettes et déchets).  
**247** Autres bois bruts ou simplement équarris.  
**248** Bois, simplement travaillés, et traverses pour voies ferrées.  
  
**251** Pâtes à papier et déchets de papier.  
  
**261** Soie.  
**263** Coton.  
**264** Jute et autres fibres textiles libériennes, n.d.a., bruts ou autrement traités.  
**265** Fibres végétales, autres que le coton et le jute.  
**266** Fibres synthétiques de longueur suffisante pour être filées.  
**267** Autres fibres textiles synthétiques de longueur suffisante pour être filées.  
**268** Laines et poils fins ou grossiers (non compris les rubans).  
**269** Friperie, drilles et chiffons.  
  
**271** Engrais bruts.  
**273** Pierres, sables et graviers.  
**274** Soufre et pyrites de fer non grillées.  
**277** Abrasifs naturels, n.d.a, (y compris les diamants industriels).  
**278** Autres minéraux bruts.  
  
**281** Minerais de fer et concentrés.  
**282** Ferrailles, déchets et débris de fonte, de fer ou d'acier.  
**286** Minerais d'uranium et de thorium, même enrichis.  
**287** Minerais de métaux communs, même enrichis, n.d.a.  
**288** Déchets et débris de métaux communs non ferreux, n.d.a.  
**289** Minerais de métaux précieux; cendres d'orfèvre.  
  
**291** Matières brutes d'origine animale, n.d.a.  
**292** Matières brutes d'origine végétale, n.d.a.

**English/French Glossary of 3-digit Standard  
International Trade Classification (SITC),  
Revision 2 Headings (continued)**

**Section 3** Mineral fuels, lubricants and related materials.

- 322 Coal, lignite and peat.
- 323 Briquettes; coke and semi-coke of coal, lignite or peat.
  
- 333 Petroleum oils, crude, and crude oils obtained from bituminous minerals.
- 334 Petroleum products, refined.
- 335 Residual petroleum products, n.e.s., and related materials.
  
- 341 Gas, natural and manufactured.
- 351 Electric current.

**Section 4** Animal and vegetable oils and fats.

- 411 Animal oils and fats.
  
- 423 Fixed vegetable oils, soft, crude, refined or purified.
- 424 Other fixed vegetable oils, fluid or solid, crude, refined or purified.
  
- 431 Animal and vegetable oils and fats, processed and waxes.

**Section 5** Chemicals.

- 511 Hydrocarbons, n.e.s., and their halogenated, sulphonated, nitrated or nitrosated derivatives.
- 512 Alcohols, phenols, and their derivatives.
- 513 Carboxylic acids, and their anhydrides, halides, and derivatives.
- 514 Nitrogen-function compounds.
- 515 Organo-inorganic and heterocyclic compounds.
- 516 Other organic chemicals.
  
- 522 Inorganic chemical elements, oxides and halogen salts.
- 523 Other inorganic chemicals.
- 524 Radioactive and associated materials.
  
- 531 Synthetic organic dyestuffs, etc., natural indigo and colour lakes.
- 532 Dyeing and tanning extracts; synthetic tanning materials.
- 533 Pigments, paints, varnishes and related materials.
  
- 541 Medicinal and pharmaceutical products.
  
- 551 Essential oils, perfume and flavour materials.
- 553 Perfumery, cosmetics and toilet preparations.
- 554 Soap, cleansing and polishing preparations.
  
- 562 Fertilizers, manufactured.
  
- 572 Explosives and pyrotechnic products.

**Glossaire anglais/français de la Classification type  
pour le commerce international (CTCI), révision 2  
au niveau des groupes (position à trois chiffres) (suite)**

**Section 3** Combustibles minéraux, lubrifiants et produits connexes.

- 322 Houilles, lignites et tourbe.
- 323 Briquettes; cokes et semi-cokes de houille, lignite et tourbe.
  
- 333 Huiles brutes de pétrole ou de minéraux bitumineux.
- 334 Produits raffinés du pétrole.
- 335 Produits résiduels du pétrole, n.d.a., et produits connexes.
  
- 341 Gaz naturel et gaz manufacturé.
- 351 Energie électrique.

**Section 4** Huiles et graisses d'origine animale ou végétale.

- 411 Huiles et graisses d'origine animale.
  
- 423 Huiles végétales fixes, douces, brutes, épurées ou raffinées.
- 424 Autres huiles végétales fixes.
  
- 431 Huiles et graisses animales et végétales, préparées et cires.

**Section 5** Produits chimiques.

- 511 Hydrocarbures, n.d.a., et leurs dérivés halogénés, sulfonés, nitrés et nitrosés.
- 512 Alcools, phénols, et leurs dérivés halogénés.
- 513 Acides carboxyliques, leurs anhydrides, halogénures et dérivés.
- 514 Composés à fonctions azotées.
- 515 Composés organo-minéraux et composés hétérocycliques
- 516 Autres produits chimiques organiques.
  
- 522 Produits chimiques inorganiques; oxydes et sels halogénés.
- 523 Autres produits chimiques inorganiques.
- 524 Matières radioactives et produits associés.
  
- 531 Matières colorantes organiques synthétiques, etc., indigo naturel et laques colorantes.
- 532 Extraits utilisés pour la teinture et le tannage.
- 533 Pigments, peintures, vernis et produits connexes.
  
- 541 Produits médicaux et pharmaceutiques.
  
- 551 Huiles essentielles, produits utilisés en parfumerie et confiserie.
- 553 Produits de parfumerie ou de toilette préparés et cosmétiques.
- 554 Savons, produits détersifs et d'entretien.
  
- 562 Engrais manufacturés.
  
- 572 Explosifs et articles de pyrotechnie.

**Section 5** *Chemicals (continued).*

- 582** Condensation, polycondensation and polyaddition products.
- 583** Polymerization and copolymerization products.
- 584** Regenerated cellulose; cellulose nitrate and other cellulose esters.
- 585** Other artificial resins and plastic materials.
  
- 591** Disinfectants, insecticides, fungicides, weedkillers.
- 592** Starches, inulin and wheat gluten, albuminoidal substances.
- 598** Miscellaneous chemical products, n.e.s.

**Section 6** *Manufactured goods classified chiefly by material.*

- 611** Leather.
- 612** Manufactures of leather or composition leather, n.e.s.
- 613** Fur skins, tanned or dressed, pieces or cuttings of fur skin.
  
- 621** Materials of rubber (pastes, plates, sheets).
- 625** Rubber tyres, tyre cases, for wheels of all kinds.
- 628** Articles of rubber, n.e.s.
  
- 633** Cork manufactures.
- 634** Veneers, plywood, improved or reconstituted wood.
- 635** Wood manufactures, n.e.s.
  
- 641** Paper and paperboard.
- 642** Paper and paperboard, cut to size or shape.
  
- 651** Textile yarn.
- 652** Cotton fabrics, woven.
- 653** Fabrics, woven, of man-made fibres.
- 654** Textile fabrics, woven, other than cotton man-made fibres.
- 655** Knitted or crocheted fabrics.
- 656** Tulle, lace, embroidery, and small wares.
- 657** Special textile fabrics and related products.
- 658** Made-up articles wholly or chiefly of textile materials.
- 659** Floor coverings.
  
- 661** Lime, cement, and fabricated construction materials.
- 662** Clay construction materials and refractory construction materials.
- 663** Mineral manufactures, n.e.s.
- 664** Glass
- 665** Glassware
- 666** Pottery
- 667** Pearls, precious and semi-precious stones, unworked or worked.
  
- 671** Pig iron, spiegeleisen, sponge iron, iron or steel.
- 672** Ingots and other primary forms of iron or steel.
- 673** Iron and steel bars, rods, angles, shapes and sections.
- 674** Universals, plates and sheets, of iron or steel.
- 675** Hoop and strip, of iron or steel, hot-rolled or cold-rolled.
- 676** Rails and railway track construction material.
- 677** Iron or steel wire, whether or not coated.
- 678** Tubes, pipes and fittings, of iron or steel.
- 679** Iron and steel castings, forgings and stampings; rough.

**Section 5** *Produits chimiques (suite).*

- 582** Produits de condensation, polycondensation et polyaddition.
- 583** Produits de polymérisation et copolymérisation.
- 584** Cellulose régénérée; nitrates, acétates et autres esters.
- 585** Autres résines artificielles et matières plastiques.
  
- 591** Désinfectants, insecticides, fongicides, herbicides.
- 592** Amidons, inuline, gluten de froment, matières albuminoïdes.
- 598** Produits divers des industries chimiques, n.d.a.

**Section 6** *Articles manufacturés classés principalement d'après la matière première.*

- 611** Cuirs et peaux.
- 612** Ouvrages en cuir, articles de bourrellerie, n.d.a.
- 613** Pelleteries tannées ou apprêtées, déchets et chutes.
  
- 621** Produits en caoutchouc (pâtes, plaques, tubes).
- 625** Bandages, pneumatiques en caoutchouc vulcanisé, pour roues de tous genres.
- 628** Ouvrages en caoutchouc, n.d.a.
  
- 633** Ouvrages en liège.
- 634** Placages, contreplaques et autres bois façonnés.
- 635** Articles manufacturés en bois, n.d.a.
  
- 641** Papiers et cartons.
- 642** Papiers et cartons découpés.
  
- 651** Fils textiles.
- 652** Tissus de coton.
- 653** Tissus de fibres textiles synthétiques.
- 654** Tissus autres que le coton, matières textiles synthétiques et artificielles.
- 655** Etoffés de bonneterie.
- 656** Tulles, dentelles, broderie, articles de mercerie.
- 657** Tissus spéciaux et produits connexes.
- 658** Articles façonnés entièrement en matières textiles.
- 659** Couvre-parquets.
  
- 661** Chaux, ciments et matériaux de construction fabriqués.
- 662** Matériaux de construction en argile et réfractaires.
- 663** Articles minéraux manufacturés, n.d.a.
- 664** Verre.
- 665** Ouvrages en verre.
- 666** Poterie.
- 667** Perles fines, pierres gemmes et similaires brutes ou travaillées.
  
- 671** Fonte, fonte spiegel, fer spongieux, poudres de fer.
- 672** Lingots et formes primaires en fer ou en acier.
- 673** Barres et profilés en fer ou en acier.
- 674** Grandes plaques et tôles, en fer ou en acier.
- 675** Feuillards en fer ou en acier, laminés à chaud ou à froid.
- 676** Rails et autres éléments de voies ferrées, en fonte.
- 677** Fils de fer ou d'acier, nus ou revêtus.
- 678** Tubes, tuyaux et accessoires, en fonte, fer ou acier.
- 679** Ouvrages en fonte, fer ou acier, à l'état brut

**English/French Glossary of 3-digit Standard  
International Trade Classification (SITC),  
Revision 2 Headings (continued)**

**Section 6** Manufactured goods classified chiefly by material  
(continued).

- 681 Silver, platinum and other metals of the platinum group.
- 682 Copper.
- 683 Nickel.
- 684 Aluminium.
- 685 Lead.
- 686 Zinc.
- 687 Tin.
- 688 Uranium depleted in U235, thorium and alloys.
- 689 Miscellaneous non-ferrous base metals, metallurgy.
  
- 691 Structures and parts of structures; iron, steel and aluminium.
- 692 Metal containers for storage and transport.
- 693 Wire products and fencing grills.
- 694 Nails, screws, nuts and bolts of iron, steel or copper.
- 695 Tools for use in hand or in machines.
- 696 Cutlery.
- 697 Household equipment of base metal, n.e.s.
- 699 Manufactures of base metal, n.e.s.

**Section 7** Machinery and transport equipment.

- 711 Steam and other vapour generating boilers, and parts.
- 712 Steam and other vapour power units, steam engines.
- 713 Internal combustion piston engines, and parts.
- 714 Engines and motors, non-electric.
- 716 Rotating electric plant and parts.
- 718 Other power generating machinery and parts.
  
- 721 Agricultural machinery and parts.
- 722 Tractors whether or not fitted with power take-offs.
- 723 Civil engineering and contractors plant and parts.
- 724 Textile and leather machinery and parts.
- 725 Paper and pulp mill machinery, machinery for manufacture of paper.
- 726 Printing and bookbinding machinery, and parts.
- 727 Food processing machines and parts.
- 728 Machinery and equipment specialized for particular industries.
  
- 736 Machine tools for working metal or metal carbides, and parts.
- 737 Metalworking machinery, and parts.
  
- 741 Heating and cooling equipment, and parts.
- 742 Pumps for liquids, liquid elevators, and parts.
- 743 Pumps, compressors, fans and blowers.
- 744 Mechanical handling equipment, and parts.
- 745 Other non-electrical machinery, tools, apparatus, and parts.
- 749 Non-electric accessories of machinery.
  
- 751 Office machines.
- 752 Automatic data processing machines and units thereof.
- 759 Parts of and accessories suitable for 751, 752.

**Glossaire anglais/français de la Classification type  
pour le commerce international (CTCI), révision 2  
au niveau des groupes (position à trois chiffres) (suite)**

**Section 6** Articles manufacturés classés principalement d'après  
la matière première (suite).

- 681 Argent, platine et autres métaux de la mine du platine.
- 682 Cuivre.
- 683 Nickel.
- 684 Aluminium.
- 685 Plomb.
- 686 Zinc.
- 687 Etain.
- 688 Uranium appauvri en U235, thorium et alliages.
- 689 Autres métaux communs non ferreux, et cermets.
  
- 691 Constructions et parties de constructions, en fer, acier et aluminium.
- 692 Récipients métalliques pour le stockage et le transport.
- 693 Ouvrages en fils métalliques et grillages.
- 694 Clous, vis, écrous, rivets et similaires en fer, acier et cuivre.
- 695 Outils à main et outils pour machines.
- 696 Coutellerie.
- 697 Articles de ménage et domestiques en métaux communs.
- 699 Articles manufacturés en métaux communs, n.d.a

**Section 7** Machines et matériel de transport.

- 711 Générateurs de vapeur d'eau et appareils auxiliaires.
- 712 Machines à vapeur d'eau, locomotives et pièces.
- 713 Moteurs à explosion, combustion interne et pièces.
- 714 Moteurs et machines motrices, non électriques.
- 716 Machines et appareils électriques rotatifs et pièces.
- 718 Autres moteurs et machines motrices et parties.
  
- 721 Machines agricoles et leurs parties détachées.
- 722 Tracteurs (y compris les tracteurs-treuil).
- 723 Appareils et matériels de génie civil et de construction.
- 724 Machines et appareils pour l'industrie textile, cuirs, et pièces.
- 725 Machines et appareils pour fabrication de pâte à papier et du papier.
- 726 Machines et appareils pour l'imprimerie, brochage, et pièces.
- 727 Machines et appareils pour l'industrie alimentaire, et pièces.
- 728 Autres machines et appareils pour l'industrie particulière, et pièces.
  
- 736 Machines-outils pour le travail des métaux et carbures métalliques.
- 737 Machines et appareils pour le travail des métaux, et pièces.
  
- 741 Machines et appareils de chauffage, réfrigération, et pièces.
- 742 Pompes, motopompes et turbopompes pour liquides.
- 743 Pompes, compresseurs et ventilateurs.
- 744 Equipement mécanique de manutention, et pièces.
- 745 Autres machines, appareils et outils, non électriques, et pièces.
- 749 Pièces détachées de machines non électriques.
  
- 751 Machines et appareils de bureau.
- 752 Machines automatiques de traitement de l'information.
- 759 Pièces détachées et accessoires pour machines du 751, 752.

**Section 7** Machinery and transport equipment (*continued*).

- 761 Television receivers.
- 762 Radio-broadcast receivers.
- 763 Gramophones, dictating and sound recorders.
- 764 Telecommunications equipment, and parts.
  
- 771 Electric power machinery, and parts thereof.
- 772 Electrical apparatus such as switches, relays, fuses and plugs.
- 773 Equipment for distributing electricity.
- 774 Electric and radiological apparatus, for medical purposes.
- 775 Household type, electrical and non-electrical equipment.
- 776 Thermionic, cold and photo-cathode valves, tubes, and parts.
- 778 Electrical machinery and apparatus, n.e.s.
  
- 781 Passenger motor cars for transport of passengers and goods.
- 782 Motor vehicles for transport of goods materials.
- 783 Road motor vehicles, n.e.s.
- 784 Parts and accessories of 722, 781, 782, 783.
- 785 Motorcycles, motor scooters and invalid carriages.
- 786 Trailers and other vehicles, not motorized.
  
- 791 Railway vehicles and associated equipment.
- 792 Aircraft and associated equipment and parts.
- 793 Ships, boats and floating structures.

**Section 8** Miscellaneous manufactured articles.

- 812 Sanitary, plumbing, heating and lighting fixtures.
  
- 821 Furniture and parts thereof.
  
- 831 Travel goods, handbags, briefcases, purses and sheaths.
- 842 Outergarments, men's, of textile fabrics.
- 843 Outergarments, women's, of textile fabrics.
- 844 Undergarments of textile fabrics.
- 845 Outergarments and other articles, knitted.
- 846 Undergarments, knitted or crocheted.
- 847 Clothing accessories of textile fabrics.
- 848 Articles of apparel and clothing accessories, non-textile.
  
- 851 Footwear.
  
- 871 Optical instruments and apparatus.
- 872 Medical instruments and appliances.
- 873 Meters and counters, n.e.s.
- 874 Measuring, checking, analysing instruments.
  
- 881 Photographic apparatus and equipment, n.e.s.
- 882 Photographic and cinematographic supplies.
- 883 Cinematography film, exposed and developed, negative or positive.
- 884 Optical goods, n.e.s.
- 885 Watches and clocks.

**Section 7** Machines et matériel de transport (*suite*).

- 761 Récepteurs de télévision.
- 762 Récepteurs de radiodiffusion et combinés.
- 763 Phonographes, machines à dicter et appareils d'enregistrement.
- 764 Équipement de télécommunication, et pièces.
  
- 771 Machines et appareils pour la production et la transformation de l'électricité.
- 772 Appareillage pour la coupure, le sectionnement et la protection des circuits électriques.
- 773 Équipement pour la distribution d'électricité.
- 774 Appareils d'électricité médicale et de radiologie.
- 775 Machines et appareils, électriques ou non, à usage domestique.
- 776 Lampes, tubes, valves électroniques à vide et à vapeur.
- 778 Autres machines et appareils électriques, n.d.a.
  
- 781 Voitures automobiles pour le transport des personnes.
- 782 Voitures automobiles pour le transport des marchandises.
- 783 Véhicules automobiles routiers, n.d.a.
- 784 Pièces détachées et accessoires pour 722, 781, 782, 783.
- 785 Motocycles, scooters et véhicules similaires pour le transport des malades.
- 786 Remorques et autres véhicules non motorisés.
  
- 791 Véhicules et matériel pour chemins de fer.
- 792 Appareils de navigation aérienne, matériel connexe, et pièces.
- 793 Navires, bateaux et engins flottants.

**Section 8** Articles manufacturés divers.

- 812 Appareils sanitaires, de plomberie, de chauffage et d'éclairage.
  
- 821 Meubles et pièces détachées.
  
- 831 Articles de voyage, malles, sacs et serviettes.
  
- 842 Vêtements de dessus pour homme, en matières textiles.
- 843 Vêtements de dessus pour femmes en matières textiles.
- 844 Vêtements de dessous en matières textiles.
- 845 Vêtements de dessus et accessoires de bonneterie.
- 846 Sous-vêtements de bonneterie.
- 847 Accessoires du vêtement en matières textiles.
- 848 Vêtements et accessoires du vêtement en matières autres que les textiles.
  
- 851 Chaussures.
  
- 871 Appareils et instruments d'optique.
- 872 Instruments et appareils médico-chirurgicaux.
- 873 Compteurs et instruments de mesures, n.d.a.
- 874 Instruments de mesure, vérification et analyse.
  
- 881 Appareils et équipement photographiques, n.d.a.
- 882 Produits photographiques et cinématographiques.
- 883 Films cinématographiques, impressionnés et développés, négatifs ou positifs.
- 884 Éléments d'optique, n.d.a.
- 885 Horlogerie.

**English/French Glossary of 3-digit Standard  
International Trade Classification (SITC),  
Revision 2 Headings** (*concluded*)

**Section 8** Miscellaneous manufactured articles (*continued*).

- 892 Printed matter.
- 893 Articles of materials described in division 58.
- 894 Baby carriages and toys.
- 895 Office and stationery supplies, n.e.s.
- 896 Works of art, collectors' pieces and antiques.
- 897 Jewellery, goldsmith wares and other articles of precious materials.
- 898 Musical instruments, parts and accessories.
- 899 Other miscellaneous manufactured articles.

**Section 9** Commodities and transactions not classified according to kind.

- 911 Postal packages not classified according to kind.
- 931 Special transactions and commodities, not classified according to kind.
- 941 Animals, live, n.e.s., including zoo-animals.
- 951 Armoured fighting vehicles, arms of war and ammunition.
- 961 Coins (other than gold), not being legal tender.
- 971 Gold, non-monetary.

**Glossaire anglais/français de la Classification type  
pour le commerce international (CTCI), révision 2  
au niveau des groupes (position à trois chiffres)** (*fin*)

**Section 8** Articles manufacturés divers (*suite*).

- 892 Imprimés.
- 893 Ouvrages, en matières de la division 58.
- 894 Voitures pour le transport des enfants et jouets.
- 895 Articles de papeterie et fournitures de bureau, n.d.a.
- 896 Objets d'art, de collection ou d'antiquité.
- 897 Bijouterie, orfèvrerie, autres ouvrages en métaux précieux.
- 898 Instruments de musique et pièces détachées.
- 899 Autres articles manufacturés divers, n.d.a.

**Section 9** Articles et transactions non classés par catégories.

- 911 Colis postaux, non classés par catégories.
- 931 Transactions spéciales et articles non classés par catégories.
- 941 Animaux vivants, n.d.a., y compris les animaux de zoo.
- 951 Véhicules blindés de combat, armes de guerre et munitions.
- 961 Monnaies n'ayant pas cours légal.
- 971 Or, non monétaire.

Sources: UNCTAD secretariat calculations based on IMF, *Balance of Payments Statistics* on CD-ROM.

Notes: The table shows values of exports (credits) and imports (debits) of services that were derived from statistics on international service transactions as presented in the IMF's *Balance of Payments Statistics*. Services are defined as the economic output of intangible commodities that may be produced, transferred and consumed at the same time.

Services figures shown here comprise 10 principal services categories according to the concepts and definitions of the IMF *Balance of Payments Manual* (1993, BPM 5). However, they do not contain the eleventh main BPM 5 service category (government services n.i.e.) and are thus consistent with commercial services statistics used by WTO and with service imports/exports data used by the World Bank. The aggregate figures in this table include the UNCTAD secretariat's estimates of missing values that are not shown separately.

The 10 principal BPM 5 service components included in the figures are: transportation, travel, communications, construction, insurance, financial services, computer and information services, royalties and license fees, other business services and personal, cultural and recreational services. For more detailed explanations of each of these categories, as well as of certain inconsistencies that may arise in methods of reporting by different countries, please refer to the IMF *Balance of Payments Manual*. It is generally accepted that difficulties in statistically capturing certain dimensions of the volume of trade in services persist and that balance of payments figures for services exports and imports might therefore have a downward bias.

## 5.1 Valeur des exportations et des importations des services par régions et par pays

Sources : Secrétariat de la CNUCED, calculs basés sur FMI, *Balance of Payments Statistics* sur CD-ROM.

Notes : Le tableau présente les valeurs des exportations (crédits) et des importations (débits) des services qui ont été dérivées des statistiques sur les transactions internationales de services comme présentées dans FMI, *Balance of Payments Statistics*. Les services sont définis comme rendements économiques des produits intangibles qui peuvent être produits, transférés et consommés au même moment.

Les chiffres présentés comprennent 10 catégories principales de services conformément aux concepts et définitions du *Manuel de la balance des paiements* du FMI (1993, MBP 5). Cependant, ils ne présentent pas la onzième catégorie principale parmi les services du MBP 5, notamment les services fournis ou reçus par les administrations publiques n.c.a. Par conséquent, les chiffres de ce tableau sont cohérents avec les statistiques sur les services commerciaux utilisées par OMC et avec les données sur les exportations et les importations de services de la Banque mondiale. Les agrégats inclus dans ce tableau comprennent les valeurs manquantes estimées par le secrétariat de la CNUCED et qui ne sont pas montrées séparément.

Les 10 catégories principales des services du MBP 5, qui sont incluses dans les chiffres présentés, comprennent : les transports, les voyages, les communications, les services de bâtiment et travaux publics, assurances, les services financiers, les services d'informatique et d'information, les redevances et droits de licence, autres services aux entreprises et les services personnels, culturels et relatifs aux loisirs. Pour une explication plus détaillée de chacune de ces catégories, ainsi que pour des indications supplémentaires sur certaines incohérences qui peuvent exister dans les méthodes statistiques employées par différents pays, veuillez vous référer au *Manuel de la balance des paiements* du FMI. Aussi, de manière générale, les difficultés à mesurer statistiquement certaines dimensions du volume du commerce des services persistent et les données de la balance des paiements sur les exportations et les importations des services peuvent ainsi être inférieures au volume des transactions réelles.

## 5.2 Leading exporters and importers of services among developing countries by main category of services (ranked by year 2000 values)

Sources: International Monetary Fund (IMF), *Balance of Payments*, CD-ROM.

Notes:

- 1 Excludes freight insurance, which is included with insurance services.
- 2 Includes goods and services acquired from an economy by non-resident travelers during visits shorter than one year.
- 3 Postal, courier and telecommunications services between residents and non-residents.
- 4 Includes merchanting and other trade-related services, operational leasing services, and miscellaneous business, professional and technical services.

## 5.2 Principaux exportateurs et importateurs de services parmi les pays en développement par catégories de services (classés d'après les valeurs de l'an 2000)

Sources : Fonds monétaire international (FMI), *Balance des paiements*, CD-ROM.

Notes :

- 1 Non-compris l'assurance du fret, incluse dans la rubrique des services d'assurance.
- 2 Comprend les biens et services acquis dans une économie par les voyageurs non résidents, au cours d'un séjour inférieur à un an.
- 3 Services postaux (y compris les messageries) et les services de télécommunication, entre résidents et non résidents.
- 4 Y compris le négoce international et les autres services liés au commerce, la location-exploitation et divers services aux entreprises, spécialisés et techniques.

### 5.3 Travel services indicators (tourism statistics) by country

*Sources:*

World Tourism Organisation (WTO), Database.

*Notes:*

All indicators refer to non-resident tourists or international visitors. This includes all persons who arrive to in economy to stay for less than a year for business purposes or personal reasons. Tourists are those who stay at least one night in a collective or private accommodation in the country visited. Same-day visitors are persons who do not stay overnight in a country visited.

Tourism expenditures corresponds to the item "Travel receipts" in IMF balance of payments data. It refers to expenditures of non-resident tourists and visitors within the territory of a reporting economy. Transport expenditures are not included.

Tourists' overnight stays refer to the number of nights spent by non-resident tourists in a reporting country and concern all types of tourism-accommodation.

Arrivals of tourists represent the total number of non-resident tourists and visitors who arrived in a reporting economy during a given year. When the same person visits a country several times in a year, the total number of arrivals is counted. Similarly, when a person travels to several countries during one trip, her/his arrival in each country is recorded separately.

Countries differ in the way in which they count arrivals: some take into account all arrivals of non-resident visitors at national borders, while others count arrivals at hotels and other types of tourism accommodation. For more information refer to the World Tourism Organization's *Compendium of Tourism Statistics 2001*.

Average length-of-stay figures refer to the average number of days spent by a non-resident tourist in a reporting country.

### 5.3 Services de voyages (statistiques du tourisme) par pays

*Sources :*

Organisation mondiale du tourisme (OMT), Base de données.

*Notes :*

Tous les indicateurs se réfèrent aux touristes non-résidents ou aux visiteurs internationaux. Cela inclut des personnes qui arrivent sur le territoire d'une économie pour y rester moins d'une année pour affaires ou pour des raisons personnelles. Les touristes sont ceux qui séjournent dans le pays visité au moins une nuit dans un logement collectif ou privé. Les visiteurs d'une journée sont des personnes qui ne passent pas la nuit dans le pays visité.

Les dépenses dans le tourisme correspondent à la rubrique "Revenus des voyages" de la balance des paiements du FMI. Elles se réfèrent aux dépenses des touristes et des visiteurs non résidents sur le territoire de l'économie déclarante. Les dépenses pour le transport n'y sont pas incluses.

Les nuitées des touristes se réfèrent au nombre de nuits (nuitées) que les touristes non résidents ont passées dans le pays déclarant et concernent tout type d'établissement touristique.

Les arrivées des touristes représentent le nombre total de touristes et de visiteurs qui sont arrivés dans l'économie déclarante durant une année. Quand une personne visite un pays plusieurs fois par an, chaque visite est comptée séparément. De même, si quelqu'un se rend dans plusieurs pays durant un voyage, son arrivée dans chaque pays est prise en compte.

Les pays comptent les arrivées des visiteurs de manières différentes: certains prennent en compte toutes les arrivées aux frontières nationales et d'autres comptent les arrivées dans des hôtels et autres types de logements touristiques. Pour plus d'informations se référer au *Compendium des statistiques du tourisme 2001* de l'Organisation mondiale du tourisme.

Les chiffres sur la durée moyenne de séjour se réfèrent au nombre moyen de jours qu'un visiteur non résident a passés dans le pays déclarant.

## Balance of payments

### General notes for table 6.1

The countries presented in table 6.1 are those covered in the IMF *Balance of Payments Statistics* on CD-ROM.

The following explanatory notes are intended to provide a brief description of the balance of payments categories presented in table 6.1. There are many exceptions to the definitions of categories and for these the reader should refer to the country notes in the IMF *Balance of Payments Statistics Yearbook* or the corresponding CD-ROM. For further information on the concepts and definitions used, see the IMF *Balance of Payments Manual* (1993, BPM 5).

Balance of payments current account data cover all transactions between residents and non-residents, involving economic values and mainly concerning goods, services, income and current transfers, recorded as gross debits and gross credits.

### Column 1. Exports of goods (f.o.b.) and services

According to the definition in BPM 5, the goods component in the figures presented in table 6.1 includes general merchandise, goods for processing (gross value of goods before and after processing), repairs on goods (value of repairs only), goods procured in ports and non-monetary gold. The services component in those figures comprises 11 main BPM 5 categories: transportation, travel, communications, construction, insurance, financial services, computer and information services, royalties and licence fees, other business services, personal-cultural-recreational services, and government services n.i.e. Figures on trade in services are provided separately in table 5.1. However, data in table 6.1 comprise government services n.i.e., while they are excluded from the figures in table 5.1.

The components of export figures related to goods in table 6.1 differ from those reported in the trade returns in table 1.1 because of adjustments for coverage, valuation, timing, inland freight, etc. Such adjustments are necessary to make the trade statistics compatible with the concepts used in the balance of payments. Further adjustments are applied in cases in which the market price for goods differs from the price used for customs purposes. The valuation problem is probably more important for imports than for exports and is likely to be a factor whenever there is a long delay between the date of sale and the date on which the import duty becomes payable. For additional information on adjustments required for valuation, timing, etc., see the IMF *Balance of Payments Manual* and the United Nations *International Trade Statistics Concepts and Definitions*, Statistical Papers (Series M, No. 52).

## Balance des paiements

### Notes générales du tableau 6.1

Les pays présentés dans le tableau 6.1 sont ceux analysés dans la *Balance of Payments Statistics* sur CD-ROM du FMI.

L'objet des notes explicatives qui suivent est de fournir une description brève des rubriques des balances des paiements présentées dans le tableau 6.1. En fait, les définitions des catégories comportent plusieurs exceptions, et pour celles-ci le lecteur doit se référer aux notes par pays du FMI *Balance of Payments Statistics Yearbook* ou du CD-ROM correspondant. Pour des détails sur les concepts et les définitions utilisés, voir le *Manuel de la balance des paiements* du FMI (1993, MBP 5).

Les données du compte des transactions courantes de la balance des paiements recouvrent toutes les transactions, entre entités résidentes et non résidentes, portant sur des valeurs économiques, principalement concernant les biens, les services, les revenus et les transferts courants et faisant apparaître les crédits ou les débits bruts.

### Colonne 1. Exportations de biens (f.a.b.) et des services

Conformément à la définition du MBP 5, la partie des chiffres relative aux biens présentée dans le tableau 6.1 comprend les marchandises générales, les biens importés ou exportés pour subir une transformation (valeur brut des biens avant et après transformation), la valeur des réparations de biens (seulement la valeur des réparations), les biens achetés dans les ports et l'or non monétaire. La partie des chiffres relative aux services comprend 11 catégories principales du MBP 5: transports, voyages, communications, service de bâtiment et travaux publics, assurances, services financiers, services d'informatique et d'information, redevances et droits de licence, autres services aux entreprises, services personnels, culturels et relatifs aux loisirs et services fournis ou reçus par les administrations publiques, n.c.a. Les données sur le commerce des services sont présentées séparément dans le tableau 5.1. Cependant, le tableau 6.1 comprend les services fournis ou reçus par les administrations publiques n.c.a. qui ne sont pas inclus dans le tableau 5.1.

La partie des données relative aux exportations de biens dans le tableau 6.1 est différente des données présentées dans le tableau 1.1 relatif au commerce mondial. Ces différences sont dues principalement aux ajustements effectués sur la couverture, l'évaluation, la date d'enregistrement des transactions, le fret terrestre, etc. Les ajustements des données relatives aux importations et aux exportations sont nécessaires, car ils permettent de rendre les données du commerce extérieur compatibles avec les concepts employés dans les statistiques de balance des paiements. Les ajustements d'évaluation sont requis, en particulier dans les cas où les prix du marché auxquels les marchandises ont été vendues diffèrent des prix utilisés par les autorités douanières. Ce problème d'évaluation est probablement plus important pour les importations que pour les exportations et devient un sérieux facteur lorsque s'écoule une longue période entre la date de vente et la date à laquelle les importations deviennent redevables de droits de douane. Pour de plus amples détails sur les ajustements d'évaluation, de date d'enregistrement des transactions, etc., se référer aux publications suivantes: FMI *Manuel de la balance des paiements*, et ONU *Statistiques du commerce international – Concepts et définitions*, Etudes statistiques (Série M, No. 52).

**Column 2. Imports of goods (f.o.b.) and services**

Adjustments for coverage, valuation, timing, etc., are made to imports reported in trade returns, as described in the notes for column 1. In addition, an adjustment is made to convert imports from a c.i.f. to an f.o.b. basis for those countries reporting imports c.i.f.

**Column 3. Balance on goods and services**

The figures presented show the balance on trade in goods (f.o.b./f.o.b. basis) and services.

**Column 4. Income – debit – total**

Income figures shown on the debit side comprise compensation of non-resident employees and investment income payments on external financial assets and liabilities. Included in the investment income are payments on direct investment (column 5), and portfolio and other investment. Column 4 presents total payments for income.

**Column 5. Direct investment income – debit**

The heading includes two categories: income on equity and income on debt, as income accruing to a direct investor residing in one economy from the ownership of direct investment capital in another economy. Income on direct investment is presented on a net basis for both direct investment abroad and in the reporting economy (i.e. receipts of income on equity and income on debt less payments on income on equity and income on debt for each).

**Column 6. Income – credit – total**

This is a counterpart to column 4. Column 6 presents total receipts for income.

**Column 7. Direct investment income – credit**

This is a counterpart to column 5.

**Column 8. Current transfers – net**

Transfers are defined as economic values exchanged without *quid pro quo* (without reciprocity). BPM 5 distinguishes current and capital transfers. Current transfers comprise two main categories: general government and other transfers. General government transfers include transfers - in cash or in kind - between governments of different economies or between governments and international organizations (international cooperation). Other transfers occur between other sectors of the economy and non-residents of that economy and can take place between individuals, non-governmental institutions, organizations and groups. Workers' remittances also fall into this category.

**Colonne 2. Importations de biens (f.a.b.) et des services**

Les ajustements au titre de la couverture, de l'évaluation, de la date d'enregistrement des transactions, etc. sont également effectués sur les données présentant des importations, comme décrit ci-dessus dans les notes portant sur la colonne 1. Par ailleurs, les importations déclarées sur la base c.a.f. sont converties sur la base f.a.b. pour les pays qui reportent c.a.f.

**Colonne 3. Balance des biens et des services**

Les chiffres présentés montrent la balance du commerce de biens (f.a.b./f.a.b.) et des services.

**Colonne 4. Revenu – débit – total**

Les chiffres relatifs au revenu et montrés comme débit comprennent la rémunération des salariés non résidents et les paiements du revenu des investissements afférents aux avoirs ou engagements financiers extérieurs. Le revenu des investissements se subdivise en paiements provenant d'investissement direct (colonne 5), d'investissement de portefeuille et d'autre investissement. La colonne 4 montre les paiements totaux du revenu.

**Colonne 5. Revenu d'investissement direct – débit**

Deux catégories figurent sous cette rubrique : titres de participation et titres de créance. Ils recouvrent les revenus que rapportent à un investisseur direct, résidant dans une économie, des capitaux d'investissement direct qu'il possède dans une entreprise située dans une autre économie. Aussi bien pour les investissements directs à l'étranger que pour ceux de l'étranger, c'est le montant net des revenus que l'on reporte (autrement dit : dans chaque cas, les revenus perçus moins les revenus versés).

**Colonne 6. Revenu – crédit – total**

Voir la description de la colonne 4. La colonne 6 présente les recettes totales des revenus.

**Colonne 7. Revenu des investissements directs – crédit**

Voir la description de la colonne 5.

**Colonne 8. Transferts courants – nets**

Les transferts sont définis comme des valeurs économiques échangées sans *quid pro quo* (sans réciprocité). MBP 5 distingue transferts courants et transferts capitaux. Les transferts courants se répartissent en deux grandes catégories sectorielles: les administrations publiques et les autres secteurs. Parmi les transferts courants des administrations publiques on trouve les transferts – en espèces ou en nature – entre les administrations publiques de différentes économies ou entre les administrations publiques et les organisations internationales (coopération internationale). Les transferts d'autres secteurs s'opèrent entre tous les autres secteurs d'une économie et les non résidents de celle-ci. Ils peuvent avoir lieu entre les particuliers, les institutions non gouvernementales, les organisations et les groupes. Les envois de fonds des travailleurs sont également inclus sous cette rubrique.

**Balance of payments**  
**General notes for table 6.1**  
*(concluded)*

**Balance des paiements**  
**Notes générales du tableau 6.1**  
*(fin)*

**Column 9. Current account balance**

Balance of payments current account data cover all transactions between residents and non-residents, involving economic values and concerning goods, services, income and current transfers, recorded as gross debits and gross credits.

**Colonne 9. Solde du compte des transactions courantes**

Les données du compte des transactions courantes de la balance des paiements recouvrent toutes les transactions, entre entités résidentes et non résidentes, portant sur des valeurs économiques et principalement concernant les biens, les services, les revenus et les transferts courants, faisant apparaître les crédits ou les débits bruts.

### 6.3 Workers' remittances

Sources : IMF, *Balance of Payments Statistics* on CD-ROM.

*Notes:*

According to the definition of the IMF *Balance of Payments Manual* (1993, BPM 5), workers' remittances are goods and financial instruments transferred by migrants living and working (being residents) in a new economy to residents of the economy in which the migrants formerly resided. A migrant must live and work in the new economy for more than one year to be considered a resident there. Money remitted by a migrant for deposits to his or her own account with a bank located abroad represents a financial investment, rather than a transfer. If a migrant resident in a new economy has a business on his or her own, his or her transfers to the economy he or she previously lived in are not classified as workers' remittances, but as current transfers – other sectors.

1 Fifty developing countries and territories selected and ranked according to the 1999 values for each category of workers' remittances.

### 6.3 Envois de fonds des travailleurs

Sources : FMI, *Balance of Payments Statistics* sur CD-ROM.

*Notes :*

Selon la définition du *Manuel de la balance des paiements* du FMI (1993, MBP 5), les envois de fonds des travailleurs sont les transferts de biens ou d'actifs financiers effectués par les migrants qui vivent et travaillent dans une économie (où ils sont considérés résidents) en faveur des résidents de leur ancien pays de résidence. Un migrant doit vivre et travailler dans une nouvelle économie durant plus d'une année pour y être considéré résident. Cependant, si un migrant envoie des fonds pour qu'ils soient déposés dans le compte qu'il détient auprès d'une banque située à l'étranger, la transaction ne représente pas un transfert mais un placement financier. Si un migrant gère sa propre entreprise dans le nouveau pays, ses transferts à l'étranger ne sont pas classés comme envois de fonds des travailleurs, mais comme transferts courants – autres secteurs.

1 Cinquante pays et territoires en développement choisis et classés d'après les valeurs de 1999 pour chaque catégorie des envois de fonds des travailleurs.

## 6.4 International reserves of developing countries and territories

Sources: IMF, *International Financial Statistics* on CD-ROM.

Notes: Starting with the 2002 version of the *UNCTAD Handbook of Statistics*, International Reserves refer to Total reserves minus gold. According to the IMF definition, Total reserves minus gold consists of the sum of the country's Foreign exchange, their Reserve position in Fund and the U.S. dollar value of SDR holdings by their monetary authorities.

- 1 Reserve stock of the year divided by the average monthly imports of the current and following year. Data on imports are based on figures shown in table 1.1 of this manual. Data for year 2001 have been calculated on the basis of monthly imports of the current year.
- 2 Reserves data have been revised starting with 1996 because national financial authorities have modified their methodology for classification of foreign assets. For details, please refer to the source.

## 6.4 Réserves internationales des pays et territoires en développement

Sources : FMI, *International Financial Statistics* sur CD-ROM.

Notes : A partir de la version 2002 du *Manuel de Statistiques de la CNUCED*, les réserves internationales se réfèrent aux Réserves totales moins l'or. Selon la définition du FMI, les Réserves totales moins l'or représentent la somme des avoirs du pays en devises, leur position des réserves au FMI et la valeur en dollars E.U. des avoirs en DTS de leurs autorités monétaires.

- 1 Montant des réserves de l'année, divisé par la moyenne mensuelle des importations de l'année en cours et de l'année suivante. Les données des importations se basent sur les chiffres présentés dans le tableau 1.1 de ce manuel. Les chiffres pour l'année 2001 ont été calculés sur la base des importations mensuelles de l'année en cours.
- 2 Les données des réserves ont été révisées à partir de 1996, à cause d'une modification de la part des autorités financières nationales, de leur méthodologie de classification des avoirs extérieurs. Pour plus de détails, se reporter à la source.

## 6.5 Official financial flows from bilateral and multilateral sources to developing countries

Sources: Organisation for Economic Co-operation and Development (OECD)/Development Assistance Committee (DAC): *International Development Statistics* online database.

Notes:

Official financial flows refer to net disbursements by official sources to a recipient country. *Net disbursements* refer to the actual amounts disbursed (*gross disbursements*) less repayments of principal in respect of earlier loans.

Developing countries in this table are aid recipients included in the DAC List of Aid Recipients (see the OECD/DAC *Geographical Distribution of Financial Flows to Aid Recipients, 1994-1998*).

Unspecified groups distributed by region show flows corresponding to disbursements allocated not to an individual recipient country but to a group of countries, as classified in the *Geographical Distribution of Financial Flows to Aid Recipients* of the OECD. Such unspecified flows are not included in the categories defined by the economic groupings.

1 ODA (Official development assistance): Loans administered with the main objective of promoting the economic development and welfare of developing countries.

OA (Official aid): Loans meeting the same criteria as those of ODA, but OA loans are directed to countries listed in Part II of the DAC List of Aid Recipients.

Both ODA and OA are *concessional*. According to the DAC's definitions, *concessional* loans are those which have a grant element of 25 per cent or more, whereas *non-concessional* loans carry a grant element of less than 25 per cent.

*Grant element* reflects the financial terms of a transaction: interest rate, maturity (interval to final repayment) and grace period (interval to the first repayment of capital).

2 OOF (other official flows) are loans with a target other than economic development and welfare of the aid recipient, or loans with a grant element of less than 25 per cent. They are non-concessional.

3 Includes loans from Arab countries (OPEC bilateral) and Arab agencies (OPEC multilateral). The member countries of OPEC (Organization of Petroleum Exporting Countries) are: Algeria, Indonesia, Iraq, Islamic Republic of Iran, Kuwait, Libyan Arab Jamahiriya, Nigeria, Qatar, Saudi Arabia, United Arab Emirates and Venezuela.

4 The member countries of the DAC (Development Assistance Committee) are: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Japan, Luxembourg, Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, the United Kingdom and the United States. The Commission of the European Communities is also a member of the DAC.

5 DAC financial flows from multilateral sources cover the World Bank, regional development banks, other multilateral and intergovernmental agencies, concessional flows from the IMF and the Social Loans programme of the European Resettlement Fund. Not included are loans from funds administered by an international organization on behalf of a single donor government; this category is included in bilateral loans (from governments).

6 Albania, Israel and South Africa are shown as memo items to maintain consistency with the sources.

## 6.5 Flux financiers publics bilatéraux et multilatéraux à destination des pays en développement

Sources: Organisation de coopération et de développement économiques (OCDE)/Comité d'aide au développement (CAD): *Statistiques sur le développement international*, base de données en ligne.

Notes:

Les flux financiers publics représentent les versements nets des organismes officiels aux pays en développement. Les *versements nets* correspondent aux montants effectivement versés (*versements bruts*) moins le remboursement du capital au titre de prêts antérieurs.

Les bénéficiaires de l'aide sont des pays en développement compris dans la Liste des bénéficiaires de l'aide établie par le CAD (voir OCDE/CAD *Répartition géographique des ressources financières allouées aux pays bénéficiaires de l'aide, 1994-1998*).

Les groupes non-spécifiés distribués par région, montrent des flux correspondants à des versements qui ne sont pas distribués par pays bénéficiaire mais par des groupes de pays tels que définis dans la *Répartition géographique des ressources financières*, de l'OCDE. Ces flux non-spécifiés ne sont pas compris dans les catégories définies par des groupements économiques.

1 APD (Aide publique au développement): Prêts dispensés dans le but de favoriser le progrès économique et social des pays en développement.

AP (Aide publique): prêts qui obéissent aux mêmes critères que l'APD, mais l'AP est destinée à des pays inscrits dans la partie II de la Liste des bénéficiaires de l'aide, établie par le CAD.

L'APD et l'AP sont des prêts assortis de *conditions libérales*. Selon les définitions du CAD, les prêts assortis de *conditions libérales* comportent un élément de libéralité d'au moins 25 pour cent tandis que les prêts assortis de *conditions non libérales* ont un élément de libéralité inférieur à 25 pour cent.

*L'élément de libéralité* résume les conditions financières d'une opération: taux d'intérêt, durée de remboursement (délai jusqu'au remboursement final) et différé d'amortissement (délai jusqu'au premier remboursement du capital).

2 AASP (Autres apports du secteur public): ce sont des prêts dont le but essentiel n'est pas celui du développement économique ni l'amélioration du niveau de vie du bénéficiaire de l'aide ou des prêts assortis d'un élément de libéralité inférieur à 25 pour cent. Ces transactions sont assorties des conditions du marché.

3 Y compris des prêts en provenance des pays arabes (OPEP, bilatérale) et d'organismes financés par des pays arabes (OPEP, multilatérale). Les pays membres de l'OPEP (Organisation des pays exportateurs de pétrole) sont les suivants: Algérie, Arabie saoudite, Emirats arabes unis, Indonésie, Iraq, Jamahiriya arabe libyenne, Koweït, Nigéria, Qatar, République islamique d'Iran et Venezuela.

4 Les pays membres du CAD (Comité d'aide au développement) sont les suivants: Allemagne, Australie, Autriche, Belgique, Canada, Danemark, Espagne, Etats-Unis, Finlande, France, Grèce, Irlande, Italie, Japon, Luxembourg, Norvège, Nouvelle-Zélande, Pays-Bas, Portugal, Royaume-Uni, Suède et Suisse. La Commission de la communauté européenne est aussi membre du CAD.

5 Les apports financiers du CAD en provenance des sources multilatérales se rapportent aux organismes tels que la Banque mondiale, les banques régionales de développement, d'autres organismes multilatéraux et intergouvernementaux, et comprennent des apports concessionnels du FMI et le programme de prêts sociaux du Fonds de rétablissement européen. Ne sont pas compris les prêts provenant des fonds d'un gouvernement administrés par une organisation internationale; cette catégorie est incluse dans la rubrique des sources bilatérales (de gouvernements).

6 Les flux financiers à destination de l'Albanie, d'Israël et d'Afrique du Sud sont communiqués pour mémoire afin d'assurer la cohérence des données fournies par les sources.

**6.6A External long-term debt of developing countries, by source of lending**  
Millions of dollars

**6.6A Dette extérieure à long terme des pays en développement, par catégorie de prêt**

## 6.6 External long-term debt of developing countries, by source of lending

Millions of dollars

Sources: World Bank, *Global Development Finance 2002*.

Notes:

External debt data in this table are based on the Debtor Reporting System (DRS) maintained by the World Bank.

Long-term external debt is defined as debt that has an original or extended maturity of more than one year, is owed to non-residents and is repayable in foreign currency, goods or services. It is composed of public, publicly guaranteed and private non-guaranteed debt.

1 Covers public and publicly guaranteed debt from official and private sources.

Public debt is an external obligation of a public debtor, whether this is a national government or a political subdivision (or an agency of either), or an autonomous public body.

Publicly guaranteed debt is an external obligation of a private debtor that is guaranteed for

2 Loans from the official sector are at concessional and non-concessional terms. For definition refer to table 6.5.

3 This item covers loans from governments and their agencies (including central banks), loans from autonomous bodies and direct loans from official export credit agencies.

4 For definition refer to table 6.5.

5 For definition refer to table 6.5.

6 Including loans and credits from the World Bank, regional development banks, and other multilateral and intergovernmental agencies. It does not include loans from funds administered by an international organization on behalf of a single donor government; this category is included in bilateral loans (from governments).

7 Including credits from manufacturers, exporters and other suppliers of goods.

8 Loans from the financial market sector cover publicly issued or privately placed bonds, loans from private banks and other financial institutions.

9 Non-guaranteed private debt is an external obligation of a private debtor that is not guaranteed for repayment by a public entity.

## 6.6 Dette extérieure à long terme des pays en développement, par catégorie de prêt

Millions de dollars

Sources: Banque mondiale, *Global Development Finance 2002*.

Notes:

Les données de la dette extérieure présentées dans ce tableau se basent sur le Système de notification des pays débiteurs (SNPD), géré par la Banque mondiale.

La dette extérieure à long terme a une durée (d'origine ou différée) de remboursement supérieure à une année, et son amortissement est dû en monnaies convertibles ou en nature, à des créanciers non résidents. Elle se compose de la dette publique, la dette garantie et celle du secteur privé non garantie.

1 Couvre la dette publique et la dette garantie par le secteur public, en provenance des sources publiques et privées.

La dette publique concerne un débiteur du secteur public, y compris un gouvernement, une entité politique (ou leurs agents d'exécution), ou d'autres organismes publics autonomes.

La dette garantie par le secteur public concerne un débiteur du secteur privé, dont l'amortissement de la dette est garanti par une entité publique.

2 Les prêts du secteur public sont assortis de conditions libérales et non libérales. Pour la définition se reporter au tableau 6.5.

3 Cette rubrique comprend des prêts accordés par des gouvernements et des organismes publics (y compris les banques centrales), des prêts en provenance d'entités autonomes et des prêts octroyés directement par des organismes publics dans la catégorie de crédits à l'exportation.

4 Pour la définition se reporter au tableau 6.5.

5 Pour la définition se reporter au tableau 6.5.

6 Sont compris les prêts des sources multilatérales telles que la Banque mondiale, les banques régionales de développement, et autres organismes multilatéraux et intergouvernementaux. Ne sont pas compris les prêts provenant des fonds d'un gouvernement, administrés par une organisation internationale; cette catégorie est incluse dans la rubrique des sources bilatérales (des gouvernements).

7 Les crédits fournisseurs comprennent les crédits du secteur manufacturier, du secteur des exportations et ceux du secteur des crédits accordés par d'autres fournisseurs de biens.

8 Les prêts du secteur des marchés financiers recouvrent les émissions publiques ou privées des obligations et des prêts consentis par des banques privées et autres entités financières.

9 La dette du secteur privé non garantie concerne un débiteur du secteur privé, dont l'amortissement de la dette n'est pas garanti par une entité publique.

Sources: Department of Economic and Social Affairs of the United Nations, the World Bank, the Organisation for Economic Co-operation and Development (OECD), *World Economic Outlook* online of the International Monetary Fund (IMF), and other international and national sources.

Notes:

In the absence of official estimates, some region totals have been estimated by the secretariat and applied, whenever possible, in order to ensure comparability at the total group levels. Therefore, there may be discrepancies between the sum of the constituent items and the group totals as shown.

- Mid-year estimates.
- Total area of the country including inland water bodies. Possible variations are due to updating and revision of the country data and not necessarily to any change of area.
- In current prices and current exchange rates.
- Total area: Includes Channel Islands (195 km<sup>2</sup>) and Isle of Man (588 km<sup>2</sup>).
- Includes Christmas Islands, Cocos (Keeling) Islands and Norfolk Island.
- Total area: Based on FAO data, which refer to area free from ice.
- Including Agalega, Rodrigues and Saint Brandon.
- Including Ascension and Tristan da Cunha.
- For statistical purposes, the data for China do not include China, Hong Kong SAR and China, Taiwan Province of.
- Total area: Excludes Niue, shown separately.

Sources: Département des affaires économiques et sociales des Nations Unies, Banque mondiale, Organisation de coopération et de développement économiques (OCDE), *World Economic Outlook* en ligne du Fonds monétaire international (FMI) et autres sources internationales et nationales.

Notes :

Lorsqu'une estimation officielle n'est pas disponible, une estimation calculée par le secrétariat a été utilisée pour les totaux régionaux, chaque fois que possible, afin d'assurer la comparabilité des données au niveau des groupements. Il peut donc y avoir des différences entre la somme des éléments constituants et les totaux indiqués.

- Estimations au milieu de l'année.
- Superficie totale du pays, y compris les eaux intérieures. Les variations éventuelles résultent des mises à jour et des révisions des données par les pays et ne reflètent pas nécessairement des changements de superficie.
- Aux prix et taux de change courants.
- Superficie totale: Y compris les îles Anglo-Normandes (195 km<sup>2</sup>) et l'île de Man (588 km<sup>2</sup>).
- Y compris les îles Christmas, des Cocos (Keeling) et Norfolk.
- Superficie totale: Sur la base de données de la FAO se référant à la superficie non couverte de glace.
- Y compris Agalega, Rodrigues et Saint-Brandon.
- Y compris Ascension et Tristan da Cunha.
- Dans un but statistique, les données pour la Chine, Hong Kong RAS et pour la Province chinoise de Taiwan ne sont pas comprises dans celles de la Chine.
- Superficie totale: Non compris Nioué, qui fait l'objet d'une rubrique distincte.

Sources: World Bank, International Monetary Fund (IMF), Economic Commission for Europe, ESCWA, OECD, and other international and national sources.

Notes: In the absence of official estimates, some region totals have been estimated by the secretariat and used, whenever possible, in order to ensure comparability at the total group levels.  
Growth rates are based on gross domestic product at constant 1995 market prices in dollars.

1 From 1992 onwards, excluding Eritrea.

2 Net material product (NMP).

3 Gross national product (GNP).

4 Growth rate for period 1980-85 is based on GDP at constant 1990 prices in dollars.

5 Gross material product (GMP).

Sources : Banque mondiale, Fonds monétaire international (FMI), Commission économique pour l'Europe, CESA, OCDE et autres sources internationales et nationales.

Notes : Afin d'assurer la comparabilité des chiffres au niveau des groupements, quelques estimations de totaux régionaux ont été calculées par le secrétariat et utilisées, chaque fois que possible, lorsqu'une estimation officielle n'est pas disponible. Les taux de croissance sont fondés sur le produit intérieur brut aux prix constants du marché en dollars de 1995.

1 A partir de l'année 1992, non compris l'Erythrée.

2 Produit matériel net (PMN).

3 Produit national brut (PNB).

4 Le taux d'accroissement pour la période 1980-85 est calculé sur la base du PIB aux prix constants en dollars de 1990.

5 Produit matériel brut (PMB).

## 7.4 Selected indicators of development: population, health and environment

### Sources:

Column (1)

United Nations, DESA, Population Division, *World Urbanization Prospects: The 2001 Revision*.

Columns (2) (3) (4) (5)

United Nations, DESA, Population Division, *World Population Prospects: The 2000 Revision*, CD-ROM.

Column (6)

World Health Organisation, *Estimates of Health Personnel*, WHO Statistical Information System on-line.

Columns (7) (8)

UNICEF, *The State of the World's Children 2001*.

Columns (9) (10)

Carbon Dioxide Information Analysis Center (CDIAC).

Columns (11) (12)

International Energy Agency (IEA): Database.

### Notes:

- a Including Christmas Island, Cocos (Keeling) Islands and Norfolk Island.
- b Including Agalega, Rodrigues and Saint Brandon.
- c Including Kiribati, Marshall Islands, Nauru, Northern Mariana Islands and Palau.
- d Including Ascension and Tristan da Cunha.

A year by the column number denotes a year to which a column refers.

(1) Year 2000.

(2) (3) (5) The average value per year for the period 1995-2000.

(4) The average value per year for the period 1995-2000. "Infant" refers to a child of age younger than 1 year.

(6) The latest available year in the period 1992-1998.

(7) (8) Year 1999.

(9) Year 1998. Emissions refer to total CO<sub>2</sub> emissions from fossil-fuels, presented in thousand metric tons of carbon.

(10) Year 1998. Emissions refer to per capita total CO<sub>2</sub> emissions from fossil-fuels, presented in metric tons of carbon.

(11) Year 2000. The energy consumption data correspond to the TPES series of the IEA. TPES is measured in KTOE (kilotons of oil equivalent), (1 KTOE = 1 000 000 kg OE).

(12) Year 2000. The energy consumption data correspond to the column (11). GDP figures have been taken from the World Bank series at constant 1995 US dollar.

## 7.4 Quelques indicateurs de développement : population, santé et environnement

### Sources :

Colonne (1)

Nations Unies, DAES, Division de la population, *World Urbanization Prospects: The 2001 Revision*.

Colonnes (2) (3) (4) (5)

Nations Unies, DAES, Division de la population, *World Population Prospects: The 2000 Revision*, CD-ROM.

Colonne (6)

Organisation mondiale de la santé, *Estimates of Health Personnel*, Système OMS d'information statistique en ligne.

Colonnes (7) (8)

UNICEF, *The State of the World's Children 2001*.

Colonnes (9) (10)

Centre d'analyses des informations sur dioxyde de carbone (CDIAC).

Colonnes (11) (12)

Agence internationale de l'énergie (IEA) : Base de données.

### Notes :

- a Ile Christmas, Iles des Cocos (Keeling) et Ile Norfolk inclus.
- b Agalega, Rodrigues et Saint Brandon inclus.
- c Kiribati, Iles Mariannes du Nord, Iles Marshall, Nauru et Palaos inclus.
- d Ascension et Tristan da Cunha inclus.

Une année à côté du numéro de colonne indique l'année à laquelle les données se réfèrent.

(1) Année 2000.

(2) (3) (5) La valeur moyenne par an pour la période 1995-2000.

(4) La valeur moyenne par an pour la période 1995-2000. "Infantile" se réfère aux enfants âgés de moins d'une année.

(6) La dernière année disponible de la période 1992-1998.

(7) (8) Année 1999.

(9) Année 1998. Les émissions se réfèrent aux émissions totales de CO<sub>2</sub> provenant des combustibles, qui sont mesurées en 1000 tonnes métriques de carbone.

(10) Année 1998. Les émissions se réfèrent aux émissions totales par habitant de CO<sub>2</sub> provenant des combustibles, qui sont mesurées en tonnes métriques de carbone.

(11) Année 2000. Les données sur la consommation d'énergie correspondent à la série ATEP de l'IEA. ATEP est présenté en KTEP (kilotonnes d'équivalent de pétrole), (1 KTEP = 1 000 000 kg EP).

(12) Année 2000. Les données sur la consommation de l'énergie correspondent à la colonne (11). Les chiffres sur le PNB sont pris de la série du PNB en dollar constant de 1995 de la Banque mondiale.

Notes:

<sup>a</sup> Prior to 1995

A year by the column number denotes a year to which data refer.

Two years linked with a dash signify that data refer to the latest year available in a given period.

(1) (2) (4) Year 1998. Gross enrolment ratio is defined as a total enrolment in a specific level of education, regardless of age, expressed as a percentage of the official school-age population corresponding to the same level of education in a given school year.

(3) Years 1995 - 1997. The indicator presents the ratio of female enrolment in secondary education as a percentage of male enrolment in the same level of education in a country or an area.

(5) Year 2000. The indicator presents the illiteracy rate as a percentage of total population of a country or an area.

(6) Years 1995 - 1999. The indicator presents the literacy rate of adult (age 15 and above) females as a percentage of literate adult males.

(7) (8) Years 1995 - 2000.

(9) Year 2000. The indicator represents the percentage of female labour force.

(10) Years 1998 - 2000. The indicator presents the percentage of labour force employed in industry.

(11) Years 1998 - 2000. The indicator presents the percentage of labour force employed in services sector.

(12) Data are estimated and they represent the value in thousands for the period 1995-2000 (from 1 July 1995 to 1 July 2000).

(13) Data are estimated and they represent the average value per year for the period 1995-2000.

### Notes :

a Avant 1995

Une année à côté du numéro de colonne indique l'année à laquelle les données se réfèrent.

Deux millésimes liés avec trait d'union signifient que les données se réfèrent à la dernière année disponible de la période.

(1) (2) (4) Année 1998. Le taux brut d'inscription est défini comme taux d'inscription totale (l'âge n'est pas pris en compte) à un niveau particulier d'enseignement et est exprimé en pourcentage de la population en âge de scolarité pour un niveau donné durant une année scolaire.

(3) Années 1995 -1997. Cet indicateur présente le taux d'inscription féminine dans l'enseignement secondaire en pourcentage d'inscription masculine dans le même niveau d'enseignement dans un pays ou une zone.

(5) Année 2000. Cet indicateur présente le taux d'analphabétisme en pourcentage de la population totale d'un pays ou d'une zone.

(6) Années 1995 -1999. Cet indicateur présente le taux d'alphabétisation féminine en pourcentage d'alphabétisation masculine pour des adultes de 15 ans ou plus.

(7) (8) Années 1995 -2000.

(9) Année 2000. Cet indicateur présente le pourcentage de la main-d'œuvre féminine.

(10) Années 1998 - 2000. Cet indicateur présente le pourcentage de la main-d'œuvre employé dans l'industrie.

(11) Années 1998 -2000. Cet indicateur présente le pourcentage de la main-d'œuvre employé dans le secteur des services.

(12) Les données sont estimées et représentent le nombre, en milliers, pour la période 1995 - 2000 (1 juillet 1995 au 1 juillet 2000).

(13) Les données sont estimées et représentent la valeur moyenne par an pour la période 1995-2000.

## 7.6 Selected telecommunication indicators: television sets, telephones, personal computers and Internet

### Sources:

International Telecommunication Union (ITU), *World Telecommunication Indicators*, CD-ROM.

### Notes:

A year shown by the column number denotes the year to which the data refer, unless otherwise indicated by "a" or "b".

- a data refer to the year 1999
- b data refer to the year 2000

- (1) Year 2001.
- (2) Year 2001.
- (3) Year 2000.
- (4) Year 2001.
- (5) Year 2000. "Three minute mobile phone call" refers to a local call from a cellular phone during peak hours. Its cost is expressed in dollars.
- (6) Year 2000. "Three minute fixed-line phone call" refers to a local call from a residential phone during peak hours. Its cost is expressed in dollars.
- (7) Year 2001.
- (8) Year 2001. Estimates.
- (9) Year 2001. Internet hosts refer to the number of computers in an economy that are directly linked to the worldwide Internet network. This statistic is based on the country code in the host address and thus may not correspond to the actual physical location.
- (10) Year 2000. Refers to the earnings of enterprises that are directly making available facilities for providing telecommunications services to the public (not including revenues of resellers). This includes revenues from fixed telephone, mobile and text (telex, telegraph and facsimile), communications leased circuits; and data communications services. Some countries include telecommunications-related revenue such as directory advertising and equipment rental or sales. Others include value-added telecommunications services such as the provision of electronic mail or online services. This indicator is expressed in millions of dollars.
- (11) The indicator presents data for 1998, 1999 and 2000.  
  
Refers to expenditures associated with acquiring ownership of telecommunication equipment infrastructure (including supporting land and buildings and intellectual and non-tangible property such as computer software). These include expenditures on initial installations and on additions to existing installations. This indicator is expressed in millions of dollars.
- (12) Year 2000.

## 7.6 Quelques indicateurs des télécommunications : postes téléviseurs, téléphones, ordinateurs personnels et Internet

### Sources :

Union internationale de télécommunication (UIT) , *World Telecommunication Indicators* , CD-ROM.

### Notes :

Une année à côté du numéro de colonne indique l'année à laquelle les données se réfèrent. Les exceptions sont marquées par "a" ou "b".

- a les données se réfèrent à l'année 1999
- b les données se réfèrent à l'année 2000

- (1) Année 2001.
- (2) Année 2001.
- (3) Année 2000.
- (4) Année 2001.
- (5) Année 2000. L'appel de trois minutes par téléphone mobile se réfère à un appel local d'un téléphone portable aux heures de pointe. Le coût est exprimé en dollars.
- (6) Année 2000. L'appel de trois minutes par téléphone du réseau fixe se réfère à un appel local d'un téléphone résidentiel aux heures de pointe. Le coût est exprimé en dollars.
- (7) Année 2001.
- (8) Année 2001. Estimations.
- (9) Année 2001. Les hébergeurs d'Internet sont définis comme les ordinateurs dans une économie qui sont directement liés au réseau mondial d'Internet. Ces statistiques se basent sur les codes des pays dans les adresses d'hébergeurs et ne correspondent pas toujours à l'emplacement physique de l'ordinateur.
- (10) Année 2000. Se réfère aux revenus des entreprises qui sont fournisseurs directs de services de télécommunication au public (revenus des ventes exclus). Cela comprend des revenus de téléphone fixe, de communications de mobiles, de transmission de textes (télex, télégraphe, télécopie), des circuits en location (en bail) et de services de transmission de données. Quelques pays y incluent d'autres revenus liés aux télécommunications comme les publicités dans les annuaires et la location ou la vente d'équipements. D'autres y incluent les services tenant lieu de valeur ajoutée, comme courrier électronique ou autres services en ligne. Cet indicateur est présenté en millions de dollars.
- (11) Se réfère aux années 1998, 1999 et 2000.  
  
Comprend les dépenses associées à l'acquisition d'équipements et d'infrastructures des télécommunications (y compris des terrains, des bâtiments, la propriété intellectuelle et autre propriété comme des logiciels etc.). Cela inclut les dépenses pour des installations initiales et toutes les additions aux installations existantes. L'indicateur est présenté en millions de dollars.
- (12) Année 2000.

**Explanatory notes**

Regional and overall indices are presented in Part II of this *Handbook*, while the detailed annual data for individual countries and territories are shown in table 8.1.

A consistent method has been used in constructing these indices. Data are shown here for a larger number of developing countries. However, these indices differ in many cases from national estimates published in official sources.

The main aim has been to provide tentative estimates for virtually all developing countries on a comparable basis.

**Definitions of indices:**

*Values indices:*

Current value of exports (f.o.b.) or of imports (c.i.f.) converted to dollars and expressed as a percentage of the average for the base period (1990).

*Unit value indices:*

Official data and UNCTAD secretariat estimates (see appendix to TD/138/Supp.1).

*Quantum indices:*

The ratio of the export (or import) value index to the corresponding unit value index.

*Terms of trade:*

The "net barter" terms of trade, defined as the ratio of the export unit value index to the import unit value index.

*Purchasing power of exports:*

The value index of exports deflated by the import unit value index.

**Notes explicatives**

Les indices totaux et régionaux sont présentés dans la partie II de ce *Manuel*, tandis que les données annuelles détaillées pour les pays et territoires en développement individuels sont présentées dans le tableau 8.1.

Une méthode estimative a été utilisée dans la préparation de ces indices. Les données sont présentées ici pour un plus grand nombre possible de pays en développement. Cependant, ces indices peuvent différer, dans plusieurs cas, des estimations nationales publiées dans les sources officielles.

Le but principal a été de fournir, sur une base comparable, des estimations approximatives pour virtuellement tous les pays en développement.

**Définitions des indices :**

*Indices des valeurs :*

Valeurs courantes des exportations (f.a.b.) ou des importations (c.a.f.) converties en dollars et exprimées en pourcentage de la moyenne de la période de base (1990).

*Indices de la valeur unitaire :*

Données officielles et estimations du secrétariat de la CNUCED (voir appendice au document TD/138/Supp.1).

*Indices du quantum :*

Représentent le rapport de l'indice de la valeur des exportations (ou des importations) à l'indice de la valeur unitaire correspondant.

*Terme de l'échange :*

Il s'agit de ce qu'on appelle le "troc net", défini comme étant le rapport de l'indice de la valeur unitaire des exportations et de l'indice de la valeur unitaire des importations.

*Pouvoir d'achat des exportations :*

Indice de la valeur des exportations corrigé par l'indice de la valeur unitaire des importations.

## 8.2 Concentration and diversification indices of exports and imports by country

Sources: Based on UNCTAD secretariat calculations.

Notes:

- 1 Within each group shown, countries are ranked according to the concentration index in 2000.
- 2 Number of products exported (or imported) at the three-digit SITC, Revision 2 level; this figure includes only those products that are greater than \$100,000 or more than 0.3 per cent of the country's total exports (or imports).
- 3 Absolute deviation of the country share from world structure, as follows:

$$S_j = \frac{\sum_i |h_{ij} - h_i|}{2}$$

where

$h_{ij}$  = share of commodity  $i$  in total exports (or imports) of country  $j$

$h_i$  = share of commodity  $i$  in total world exports (or imports).

- 4 Herfindahl-Hirschmann index normalized to obtain values ranking from 0 to 1 (maximum concentration), according to the following formula:

$$H_j = \frac{\sqrt{\sum_{i=1}^{239} \left(\frac{x_i}{X}\right)^2} - \sqrt{1/239}}{1 - \sqrt{1/239}}$$

where  $H_j$  = country index

$x_i$  = value of exports of product  $i$

$$X = \sum_{i=1}^{239} x_i$$

and 239 = number of products at the three-digit SITC, Revision 2 level.

## 8.2 Indices de concentration et de diversification des exportations et des importations par pays

Sources : Calculs du secrétariat de la CNUCED.

Notes :

- 1 A l'intérieur de chaque groupe, les pays sont classés d'après l'indice de concentration en 2000.
- 2 Nombre de produits exportés (ou importés) au niveau du groupe (position à trois chiffres) de la CTCL, révision 2 ; cependant, seuls les produits ayant une valeur supérieure à 100.000 dollars ou comptant pour plus de 0,3 % des exportations (ou des importations) totales du pays sont inclus.
- 3 Déviation absolue de la structure du pays par produits par rapport à la structure mondiale comme ci-dessous :

$$S_j = \frac{\sum_i |h_{ij} - h_i|}{2}$$

où

$h_{ij}$  = part du produit  $i$  dans le total des exportations (ou importations) du pays  $j$

$h_i$  = part de produit  $i$  dans le total des exportations (ou importations) mondiales.

- 4 Indice de Herfindahl-Hirschmann normalisé pour obtenir des valeurs comprises entre 0 et 1 (concentration maximale) d'après la formule suivante :

$$H_j = \frac{\sqrt{\sum_{i=1}^{239} \left(\frac{x_i}{X}\right)^2} - \sqrt{1/239}}{1 - \sqrt{1/239}}$$

où  $H_j$  = indice du pays

$x_i$  = valeur des exportations du produit  $i$

$$X = \sum_{i=1}^{239} x_i$$

et 239 = nombre de groupes (position à trois chiffres) de la CTCL, révision 2.

### 8.3 Concentration and structural change indices of exports and imports by product

Sources:

United Nations Statistics Division (COMTRADE database and estimates).

Indices are calculated from the data set that includes not only official country trade data reported to the COMTRADE but also estimates provided by the United Nations Statistics Division for all the other countries.

Notes:

- 1 Products are ranked according to the concentration index in 2000.
- 2 The Herfindahl-Hirschmann index is a measure of the degree of market concentration. It has been normalized to obtain values ranking from 0 to 1 (maximum concentration), according to the following formula:

$$H_i = \frac{\sqrt{\sum_{j=1}^n \left(\frac{x_{ij}}{X}\right)^2} - \sqrt{\frac{1}{n}}}{1 - \sqrt{\frac{1}{n}}}$$

where

$H_i$  = value of concentration index for product i

$x_{ij}$  = value of exports or imports for country j and product i

$$X = \sum_{i=1}^n x_{ij} \quad \text{and}$$

n = 242 maximum number of individual markets (countries) over the period from 1990 to 2000.

An index value that is close to 1 indicates a very concentrated market. On the contrary, values closer to 0, would demonstrate a homogeneous market between the exporters or importers.

#### 3 Structural change index:

This index, ranging from 0 to 1, reveals the structural change in trade for a particular product as compared to the reference year (1992=0).

An index value close to 1 indicates a significant change in the composition of exporters (importers). On the contrary, values closer to 0 would demonstrate a higher degree of "traditionality" in the markets over the period concerned. The value is calculated as follows:

$$I_i = \frac{\sum_{j=1}^n |S_{ij}^1 - S_{ij}^0|}{2}$$

where

$I_i$  = Value of structure index for product i

$S_{ij}^0$  = Value of trade of product i for country j in 1992

$S_{ij}^1$  = Share of trade of product i for the country j in the concerned year.

### 8.3 Indices de concentration et de changements structurels des exportations et des importations par produits

Sources :

Division de statistique des Nations Unies (Base de données COMTRADE et estimations).

Les indices sont calculés à partir de données n'incluant pas seulement les données officielles que les pays fournissent à la COMTRADE, mais aussi à partir d'estimations produites par la division statistiques des nations unies pour tous les autres pays.

Notes :

- 1 Les produits sont classés d'après l'indice de concentration en 2000.
- 2 L'indice Herfindahl-Hirschmann mesure le degré de concentration des marchés. Il a été normalisé afin d'obtenir des valeurs comprises entre 0 et 1 (concentration maximale), d'après la formule suivante:

$$H_i = \frac{\sqrt{\sum_{j=1}^n \left(\frac{x_{ij}}{X}\right)^2} - \sqrt{\frac{1}{n}}}{1 - \sqrt{\frac{1}{n}}}$$

où

$H_i$  = Valeur de l'indice de concentration pour le produit i.

$x_{ij}$  = Valeur des exportations ou des importations du pays j pour le produit i

$$X = \sum_{i=1}^n x_{ij} \quad \text{et}$$

n = 242 Nombre maximum de marchés (pays) sur la période allant de 1990 à 2000.

Un indice proche de 1 indique une concentration très forte du marché pour ce produit en particulier. En revanche, une valeur proche de 0 démontre une répartition plus homogène du commerce entre les exportateurs ou les importateurs.

#### 3 Indices de changements structurels :

Cet indice, dont la valeur est comprise entre 0 et 1, représente les changements de structure du commerce par rapport à une année de référence(1992=0).

Une valeur proche de 1, indique un important changement structurel du commerce de ce produit, c'est à dire, une grande variation des parts de marché au sein des exportateurs ou importateurs, par rapport à l'année de référence. Plus la valeur de l'indice est proche de 0, plus la structure du commerce de ce produit est stable. Il est calculé comme suit :

$$I_i = \frac{\sum_{j=1}^n |S_{ij}^1 - S_{ij}^0|}{2}$$

où

$I_i$  = Valeur de l'indice de changement structurel, pour le produit i.

$S_{ij}^0$  = Part du commerce du produit i pour le pays j par rapport au commerce total de ce produit pour l'année 1992

$S_{ij}^1$  = Part du commerce du produit i pour le pays j, par rapport au commerce total de ce produit pour l'année concernée.

#### 8.4 Instability indices and trends in monthly market prices for selected commodities

Sources:

UNCTAD calculations based on UNCTAD Monthly Commodity Price database.

Notes:

1. The measure of price instability is

$$1/n \sum_{t=1}^n \left[ \frac{|Y(t) - y(t)|}{y(t)} \right] * 100$$

Where

$Y(t)$  is the observed magnitude of the variable.

$y(t)$  is the magnitude estimated by fitting an exponential trend to the observed value and

$n$  is the number of observations.

Accordingly, instability is measured as the percentage deviation of the variables concerned from their exponential trend levels for a given period.

2. The growth rate of each period has been calculated using the formula:

$$\log(p) = a + b(t)$$

Where

$p$  is the price index and  $t$  is time.

3. Constant 1985 dollars (current dollars divided by the United Nations unit value index of manufactured goods exported by developed economies).

#### 8.4 Indices d'instabilité et tendances des prix mensuels d'une sélection de produits de base

Sources :

Calculs du Secrétariat de la CNUCED fondés sur la Base de données des prix mensuels des produits de base, de la CNUCED.

Notes :

1. L'indice d'instabilité des prix est calculé selon

$$1/n \sum_{t=1}^n \left[ \frac{|Y(t) - y(t)|}{y(t)} \right] * 100$$

où

$Y(t)$  est la valeur observée de la variable.

$y(t)$  est la valeur estimée par ajustement à la tendance exponentielle des valeurs observées et

$n$  est le nombre d'observations.

L'instabilité est le pourcentage de déviation des variables en question par rapport à la ligne de tendance exponentielle pour une période donnée.

2. Le taux de croissance de chaque période a été calculé selon la formule :

$$\log(p) = a + b(t)$$

où

$p$  est l'indice de prix et  $t$  le temps.

3. Dollars constants 1985 (dollar courant divisé par l'index des Nations Unies de la valeur unitaire des exportations des produits manufacturés par les économies développées).
