

**DRAFT PROJECT PROPOSAL  
FOR THE FOLLOW UP TO  
THE RECOMMENDATIONS OF  
MONGOLIA PEER REVIEW**

UNCTAD Secretariat

# Technical Assistance Project Proposal for Mongolia

- **Duration: 3 years**
- **Starting Date: 2013**
- **Sector: Competition law and policy**
- **Project Objective: To assist the Authority for Fair Competition and Consumer Protection (AFCCP) of Mongolia to enhance its enforcement capacity and to develop a competition culture.**

*The project proposal is prepared on the basis of the recommendations of Mongolia peer review in consultation with the AFCCP.*

# Technical Assistance Project Proposal for Mongolia

- **The overall goal is to create a well-functioning economic environment conducive to enterprise development, increased investment and improved consumer welfare.**

## **Project Objectives**

- **To improve the competition legislation of Mongolia by reviewing the current law and reinforcing it with additional regulations and guidelines;**
- **To strengthen the AFCCP's enforcement capacities in case handling, investigation and legal procedures, and merger control, with a view to improving the quality of its decisions;**

# Technical Assistance Project Proposal for Mongolia

## Project Objectives (cont'd)

- **To raise awareness on the benefits of competition law and policy amongst all the stakeholders, including government institutions, the judiciary, the business community and consumers, thereby promoting voluntary compliance with the competition law and raising the profile of AFCCP;**
- **To endow the AFCCP with the necessary tools and mechanisms to enhance its coordination and cooperation with sector regulators or other agencies whose decisions and policies may have implications for competition in the markets, with a view to increasing efficiency and competition in infrastructure industries.**

# Technical Assistance Project Proposal for Mongolia

## Outcome

Enhanced effectiveness and efficiency in competition law enforcement by the AFCCP and improved business environment conducive to inclusive development in Mongolia.

## Project Strategy

- To use some of the practices, which have worked well in Mongolia, such as working groups
- To carry out the Project activities in an inclusive manner by involving all the stakeholders
- To assist building local capacity to improve the competition regime in Mongolia in the long run.

# Technical Assistance Project Proposal for Mongolia

## Outcome Indicators

- (i) Number of competition cases handled successfully by the AFCCP per year
- (ii) Increased level of awareness of competition law amongst stakeholders, possibly measured by surveys
- (iii) Increased role of competition policy in traditionally state controlled or regulated sectors and in economic policy making, measured by the review of new laws and policies with respect to consideration of competition issues

# Technical Assistance Project Proposal for Mongolia

## Project Activities

### 1. Legal Framework

- Review of the current competition law and drafting implementation guidelines and regulations.

### 2. Capacity-building

- Training on competition law and policy for AFCCP Board members.
- Training on investigative procedures, case handling and merger review for case handlers.
- Training for the judiciary on competition law enforcement.
- Developing competition law and economics courses in the main university in Ulaanbaatar.
- Preparing studies in markets where there are competition concerns.

# Technical Assistance Project Proposal for Mongolia

## Project Activities

### 3. Competition Advocacy

- **Establishing mechanisms to promote mutual understanding and to improve cooperation between the AFCCP on the one hand, and other Government institutions, such the sector regulators, the business community, judiciary and academia, on the other hand.**
- **Conducting advocacy seminars on the role of competition law and its benefits for the economy and consumers for government officials, consumer associations, the business community, academics, lawyers and the judiciary.**
- **Developing the AFCCP website to ensure efficient communication with stakeholders and competition advocacy through the use of media.**

## Institutional and Implementation Arrangements

- **Executing Agency:** UNCTAD  
UNCTAD shall retain overall responsibility for the execution of the project in consultation with the AFCCP. All services shall be provided in accordance with United Nations procedures, rules and regulations.
- **National Project Coordinator:** AFCCP  
AFCCP will provide policy guidelines and extend logistical support and assistance to UNCTAD during the implementation of the project.
- **Project Management Committee** will be composed of representatives from UNCTAD and AFCCP. The Committee will prepare and adopt a yearly work plan including specific activities. It will carry out a mid-term review every six months and hold an annual meeting with the participation of the donors to monitor the implementation and the progress achieved as well as to revise the priorities, if need be.
