Measuring the Information Society

- Two authoritative benchmarking tools to monitor information society developments worldwide.

- The **ICT Development Index (IDI)** ranks 155 countries' performance with regard to information and communication technology (ICT) infrastructure and uptake.

- The **ICT Price Basket (IPB)** is a unique metric that tracks and compares the cost and affordability of ICT services in more than 160 countries globally. Both the IDI and the IPB combined are powerful measures for benchmarking and explaining differences among countries and within regions when it comes to ICT developments.

- This year's edition of the report also features brand new data and analyses on revenue and investment in the ICT sector and proposes a new methodology to measure the world's telecommunication capacity.

- The MIS 2012 report will be launched on **11 October, 2012**.
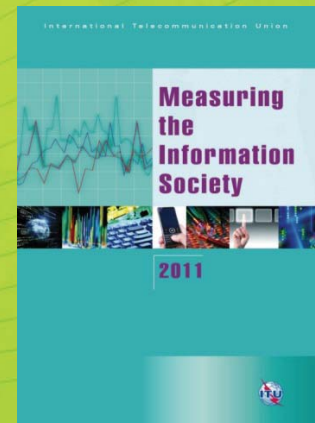

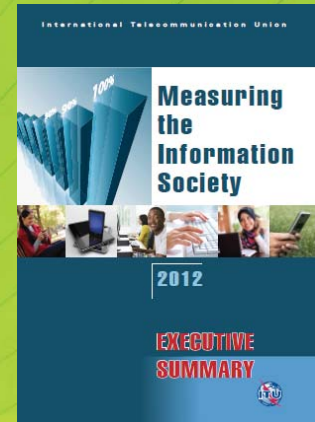

# The 10th World Telecommunication/ICT Indicators Meeting (WTIM)

- **25-27 September, 2012, in Bangkok, Thailand**.

- Organized by the ITU Telecommunication Development Bureau (BDT)

- Hosted by the Ministry of Information and Communication Technology (MICT) of Thailand.

- The WTIM will be preceded by a two-day meeting of the Expert Group on Telecommunication/ICT Indicators (EGTI), in the same location.

- The WTIM, open to all the membership, is primarily targeted at those responsible for ICT statistics in relevant Ministries, regulatory agencies, telecommunication operating companies and national statistical offices. Experts interested in the subject of information society measurements are also welcome to attend the meeting.

- The WTIM 2012 will address, among others, the following topics:

  – The national coordination of ICT statistics

  – Measuring fixed and mobile broadband, including pricing, traffic and capacity

  – Measuring progress towards the achievement of the WSIS outcomes (jointly organized with the Partnership on Measuring ICT for Development)

  – Revisions to the indicators on household ICT access and individual ICT usage

  – Measuring gender-related ICT indicators

  – Emerging issues such as measuring digital broadcasting, including IPTV

  – Results of the work carried out by the EGTI since the 9th WTIM

World Telecommunication/ICT Development Report 2010 –

Monitoring the WSIS targets

- The 9th edition of the ITU World Telecommunication/ ICT Development Report (WTDR 2010)
- Monitoring the WSIS Targets.
- The year 2010 marks the midpoint between the 2005 Tunis phase of the World Summit on the Information Society (WSIS) and 2015, the deadline for achieving the ten targets that governments agreed upon at the WSIS.
- The Report reviews the 10 targets, proposes concrete indicators to monitor them and makes recommendations on policies and measures to help achieve them.
- The Report reflects a joint effort among several international organisations, led by ITU and including contributions from UNESCO, WHO and UNDESA, as well as from representatives of civ society.

- Joint Initiative: **Mobile for Development**

- **RIO+ Conference**: UNGIS submitted a joint contribution and organized a side event at RIO+20 on *ICTs, the foundation of our sustainable future.*
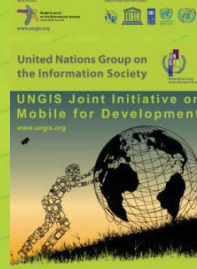

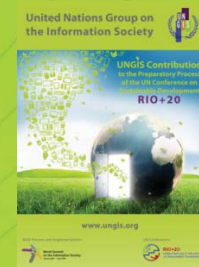

Towards WSIS+10

- **Origins**

- **UNGIS Open Consultations**

- **Plan of Action**

- **Expected Outcomes**

Origins of the Consultations

- **WSIS outcome documents and the UN General Assembly Resolution 60/252** resolved to **conduct an Overall Review** of the Implementation of the WSIS Outcomes in 2015.

- The **ITU Plenipotentiary Resolution 172 (PP-10)** on the Overall Review of the Implementation of the Outcomes of the WSIS; including the possibility of holding a high-level event in 2014/2015, had requested ITU Secretary General to **initiate the preparatory process at the UN Chief Executives Board (CEB)**.

- Consequently, in **2011 CEB tasked UNGIS**, **under ITU leadership**, to prepare, on the basis of an open consultation, an Plan of Action for the WSIS Overall Review (WSIS+10). The Board requested **UNGIS to present the Plan of Action** at its spring 2012 session.

World Summit Geneva 2003 Tunis 2005
on the Information Society

Origins of the Consultations

- **2011 ECOSOC Resolution (2011/16)** requested UNGIS to **report on the outcomes of the UNGIS consultation to the 15th Session** of the Commission on the Science and Technology for Development.

- In **April 2012 UN High Level Committee on Programmes** noted the plan and forwarded to CEB for its endorsement. During the CEB Spring Session held at ITU Headquarters in April 2012, the **plan was approved**.

- Following the **ITU Council Resolution 1334**, the ITU Secretary General had proposed to the CEB that the **ITU should play a leading managerial role** in the process of the Overall Review of the Implementation of the WSIS Outcomes (WSIS+10). **This proposal was endorsed by the CEB during its spring session of 2012.**
