International Investment Instruments: A Compendium

Volume XIV

United Nations
New York and Geneva, 2005
Note

UNCTAD serves as the focal point within the United Nations Secretariat for all matters related to foreign direct investment and transnational corporations. In the past, the Programme on Transnational Corporations was carried out by the United Nations Centre on Transnational Corporations (1975-1992) and the Transnational Corporations and Management Division of the United Nations Department of Economic and Social Development (1992-1993). In 1993, the Programme was transferred to the United Nations Conference on Trade and Development. UNCTAD seeks to further the understanding of the nature of transnational corporations and their contribution to development and to create an enabling environment for international investment and enterprise development. UNCTAD's work is carried out through intergovernmental deliberations, technical assistance activities, seminars, workshops and conferences.

The term "country", as used in the boxes added by the UNCTAD secretariat at the beginning of the instruments reproduced in this volume, also refers, as appropriate, to territories or areas; the designations employed and the presentation of the material do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Moreover, the country or geographical terminology used in the boxes may occasionally depart from standard United Nations practice when this is made necessary by the nomenclature used at the time of negotiation, signature, ratification or accession of a given international instrument.

To preserve the integrity of the texts of the instruments reproduced in this volume, references to the sources of the instruments that are not contained in their original text are identified as "note added by the editor".

The texts of the instruments included in this volume are reproduced as they were written in one of their original languages or as an official translation thereof. When an obvious linguistic mistake has been found, the word "sic" has been added in brackets.

The materials contained in this volume have been reprinted with special permission of the relevant institutions. For those materials under copyright protection, all rights are reserved by the copyright holders.

It should be further noted that this collection of instruments has been prepared for documentation purposes only, and its contents do not engage the responsibility of UNCTAD.
PREFACE

International Investment Instruments: A Compendium contains a collection of international instruments relating to foreign direct investment (FDI) and transnational corporations (TNCs). The collection is presented in fourteen volumes. The first three volumes were published in 1996. Volumes IV and V were published in 2000 followed by Volume VI in 2001. Volumes VII, VIII, IX and X were published in 2002. Volumes XI and XII were published in 2003 bringing the collection up to date. The present publication comprises volumes XIII and XIV.

The collection has been prepared to make the texts of international investment instruments conveniently available to interested policy-makers, scholars and business executives. The need for such a collection has increased in recent years as bilateral, regional, interregional and multilateral instruments dealing with various aspects of FDI have proliferated, and as new investment instruments are being negotiated or discussed at all levels.

While by necessity selective, the Compendium seeks to provide a faithful record of the evolution and present status of intergovernmental cooperation concerning FDI and TNCs. Although the emphasis of the collection is on relatively recent documents, it was deemed useful to include important older instruments as well, with a view to providing some indications of the historical development of international concerns about FDI in the decades since the end of the Second World War.

The core of this collection consists of legally binding international instruments, mainly multilateral conventions, regional agreements, and bilateral treaties that have entered into force. In addition, a number of "soft law" documents, such as guidelines, declarations and resolutions adopted by intergovernmental bodies, have been included since these instruments also play a role in the evolution of international agreements concerning FDI. In an effort to enhance the understanding of this evolution, certain draft instruments that never entered into force, or texts of instruments on which the negotiations were not concluded, are also included; prototypes of bilateral investment treaties are reproduced as well. Included also are a number of influential documents prepared by business, consumer and labour organizations, as well as by other non-governmental organizations. It is clear from the foregoing that no conclusions concerning the legal status or the legal effect of an instrument can be drawn from its inclusion in this collection.

In view of the great diversity of the instruments in this Compendium -- in terms of subject matter, approach, legal form and extent of participation of States -- the simplest possible method of presentation was deemed the most appropriate. With regard to previous volumes, the structure and content are indicated in the table of content which is included below (see pp. ix-xli). As far as volumes XIII and XIV are concerned relevant instruments are distributed as follows:

Volume XIII is divided into the following three parts:

- Part One contains additional regional instruments, including agreements and other texts from regional organizations with an inclusive geographical context.
• Part Two reproduces investment-related provisions in a number of additional free trade, economic partnership arrangements and framework frame-work agreements not covered in previous volumes.

• Part Three contains the texts of a number of additional prototype BITs not covered in previous volumes.

*Volume XIV* is divided into the following two parts:

• Part One reproduces investment-related provisions in three free trade agreements and a framework agreement not covered in previous volumes.

• Part Two contains the text of a number of an additional prototype BIT not covered in previous volumes.

Within each of these subdivisions and in previous volumes, instruments are reproduced in chronological order, except for the sections dedicated to prototype instruments.

The multilateral and regional instruments covered are widely differing in scope and coverage. Some are designed to provide an overall, general framework for FDI and cover many, although rarely all, aspects of investment operations. Most instruments deal with particular aspects and issues concerning FDI. A significant number address core FDI issues, such as the promotion and protection of investment, investment liberalization, dispute settlement and insurance and guarantees. Others cover specific issues, of direct but not exclusive relevance to FDI and TNCs, such as transfer of technology, intellectual property, avoidance of double taxation, competition and the protection of consumers and the environment. A relatively small number of instruments of this last category has been reproduced, since each of these specific issues often constitutes an entire system of legal regulation of its own, whose proper coverage would require an extended exposition of many kinds of instruments and arrangements.\(^a\)

The *Compendium* is meant to be a collection of instruments, not an anthology of relevant provisions. Indeed, to understand a particular instrument, it is normally necessary to take its entire text into consideration. An effort has been made, therefore, to reproduce complete instruments, even though, in a number of cases, reasons of space and relevance have dictated the inclusion of excerpts. Owing to their size, annexes containing the list of reservations and exceptions are also excluded in many cases. The excerpts are meant to reflect all provisions directly relevant to investment in an international agreement. There are other provisions that have an indirect bearing on investment but are not covered in the *Compendium*. The mark "[…]" has been inserted to indicate missing text.

The UNCTAD secretariat has deliberately refrained from adding its own commentary to the texts reproduced in the *Compendium*. The only exception to this rule is the boxes added to each instrument. They provide some basic facts, such as its date of adoption and date of entry into force and, where appropriate, signatory countries. Also, a list of agreements containing investment-related provisions signed by the EFTA countries and by the EC countries with third

countries or regional groups are reproduced in the *Compendium*. Moreover, to facilitate the identification of each instrument in the table of contents, additional information has been added, in brackets, next to each title, on the year of its signature and the name of the relevant institution involved.

Volume XIV of the Compendium was prepared by Abraham Negash under the supervision of Torbjörn Fredriksson and the overall guidance of Anne Miroux and Karl P. Sauvant. Comments and inputs were received from James Zhan, Amare Bekele, Hamid El-Khadi, Gabriele Koehler, Moritz Meier-Ewert and Elisabeth Tuerk. The cooperation of the relevant countries and organizations from which the instruments originate is acknowledged with gratitude.

CHAPTER TEN  
INVESTMENT

Section A: Investment

ARTICLE 10.1: SCOPE AND COVERAGE

This Chapter applies to measures adopted or maintained by a Party relating to:

(a) investors of the other Party;

(b) covered investments; and

(c) with respect to Articles 10.8 and 10.10, all investments in the territory of the Party.

ARTICLE 10.2: RELATION TO OTHER CHAPTERS

1. In the event of any inconsistency between this Chapter and another Chapter, the other Chapter shall prevail to the extent of the inconsistency.

2. A requirement by a Party that a service supplier of the other Party post a bond or other form of financial security as a condition of the cross-border supply of a service does not of itself make this Chapter applicable to measures adopted or maintained by the Party relating to such cross-border supply of the service. This Chapter applies to measures adopted or maintained by the Party relating to the posted bond or financial security, to the extent that such bond or financial security is a covered investment.

3. This Chapter does not apply to measures adopted or maintained by a Party to the extent that they are covered by Chapter Twelve (Financial Services).

ARTICLE 10.3: NATIONAL TREATMENT

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords, in like circumstances, to its own investors with respect to the establishment,
acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments in its territory of its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

3. The treatment to be accorded by a Party under paragraphs 1 and 2 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that regional level of government to investors, and to investments of investors, of the Party of which it forms a part.

**ARTICLE 10.4: MOST-FAVORED-NATION TREATMENT**

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords, in like circumstances, to investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments in its territory of investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

**ARTICLE 10.5: MINIMUM STANDARD OF TREATMENT**

1. Each Party shall accord to covered investments treatment in accordance with customary international law, including fair and equitable treatment and full protection and security.

2. For greater certainty, paragraph 1 prescribes the customary international law minimum standard of treatment of aliens as the minimum standard of treatment to be afforded to covered investments. The concepts of “fair and equitable treatment” and “full protection and security” do not require treatment in addition to or beyond that which is required by that standard, and do not create additional substantive rights. The obligation in paragraph 1 to provide:

   (a) “fair and equitable treatment” includes the obligation not to deny justice in criminal, civil, or administrative adjudicatory proceedings in accordance with the principle of due process embodied in the principal legal systems of the world; and

   (b) “full protection and security” requires each Party to provide the level of police protection required under customary international law.

3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

---

1 Article 10.5 shall be interpreted in accordance with Annex 10-A.
4. Notwithstanding Article 10.12.5(b), each Party shall accord to investors of the other Party, and to covered investments, non-discriminatory treatment with respect to measures it adopts or maintains relating to losses suffered by investments in its territory owing to armed conflict or civil strife.

5. Notwithstanding paragraph 4, if an investor of a Party, in the situations referred to in paragraph 4, suffers a loss in the territory of the other Party resulting from:

(a) requisitioning of its covered investment or part thereof by the latter’s forces or authorities; or

(b) destruction of its covered investment or part thereof by the latter’s forces or authorities, which was not required by the necessity of the situation, the latter Party shall provide the investor restitution, compensation, or both, as appropriate, for such loss. Any compensation shall be prompt, adequate, and effective in accordance with Article 10.6.2 through 10.6.4, mutatis mutandis.

6. Paragraph 4 does not apply to existing measures relating to subsidies or grants that would be inconsistent with Article 10.3 but for Article 10.12.5(b).

ARTICLE 10.6: EXPROPRIATION AND COMPENSATION

1. Neither Party may expropriate or nationalize a covered investment either directly or indirectly through measures equivalent to expropriation or nationalization (“expropriation”), except:

(a) for a public purpose;

(b) in a non-discriminatory manner;

(c) on payment of prompt, adequate, and effective compensation; and

(d) in accordance with due process of law and Article 10.5.1 through 10.5.3.

2. The compensation referred to in paragraph 1(c) shall:

(a) be paid without delay;

(b) be equivalent to the fair market value of the expropriated investment immediately before the expropriation took place (“the date of expropriation”);

(c) not reflect any change in value occurring because the intended expropriation had become known earlier; and

(d) be fully realizable and freely transferable.

3. If the fair market value is denominated in a freely usable currency, the compensation referred to in paragraph 1(c) shall be no less than the fair market value on the date of

---

2 Article 10.6 shall be interpreted in accordance with Annexes 10-A and 10-B.
expropriation, plus interest at a commercially reasonable rate for that currency, accrued from the date of expropriation until the date of payment.

4. If the fair market value is denominated in a currency that is not freely usable, the compensation referred to in paragraph 1(c) – converted into the currency of payment at the market rate of exchange prevailing on the date of payment – shall be no less than:

(a) the fair market value on the date of expropriation, converted into a freely usable currency at the market rate of exchange prevailing on that date, plus

(b) interest, at a commercially reasonable rate for that freely usable currency, accrued from the date of expropriation until the date of payment.

5. This Article does not apply to the issuance of compulsory licenses granted in relation to intellectual property rights in accordance with the TRIPS Agreement, or to the revocation, limitation, or creation of intellectual property rights, to the extent that such issuance, revocation, limitation, or creation is consistent with Chapter Fifteen (Intellectual Property Rights).

ARTICLE 10.7: TRANSFERS

1. Each Party shall permit all transfers relating to a covered investment to be made freely and without delay into and out of its territory. Such transfers include:

(a) contributions to capital;

(b) profits, dividends, capital gains, and proceeds from the sale of all or any part of the covered investment or from the partial or complete liquidation of the covered investment;

(c) interest, royalty payments, management fees, and technical assistance and other fees;

(d) payments made under a contract, including a loan agreement;

(e) payments made pursuant to Article 10.5.4 and 10.5.5 and Article 10.6; and

(f) payments arising out of a dispute.

2. Each Party shall permit transfers relating to a covered investment to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Each Party shall permit returns in kind relating to a covered investment to be made as authorized or specified in a written agreement between the Party and a covered investment or an investor of the other Party.

---

3 For purposes of this paragraph and Article 10.7.2, Morocco’s foreign exchange system in effect on the date of signature of this Agreement yields an exchange rate comparable to a “market rate of exchange.”

4 For greater certainty, the reference to the TRIPS Agreement in paragraph 5 includes any waiver in force between the Parties of any provision of that agreement granted by WTO Members in accordance with the WTO Agreement.
4. Notwithstanding paragraphs 1 through 3, a Party may prevent a transfer through the equitable, non-discriminatory, and good faith application of its laws relating to:

(a) bankruptcy, insolvency, or the protection of the rights of creditors;
(b) issuing, trading, or dealing in securities, futures, options, or derivatives;
(c) criminal or penal offenses;
(d) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities; or
(e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

ARTICLE 10.8: PERFORMANCE REQUIREMENTS

1. Neither Party may, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment of an investor of a Party or of a non-Party in its territory, impose or enforce any requirement or enforce any commitment or undertaking:

(a) to export a given level or percentage of goods or services;
(b) to achieve a given level or percentage of domestic content;
(c) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;
(d) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment;
(e) to restrict sales of goods or services in its territory that such investment produces or supplies by relating such sales in any way to the volume or value of its exports or foreign exchange earnings;
(f) to transfer a particular technology, a production process, or other proprietary knowledge to a person in its territory; or
(g) to supply exclusively from the territory of the Party the goods that such investment produces or the services that it supplies to a specific regional market or to the world market.

2. Neither Party may condition the receipt or continued receipt of an advantage, in connection with the establishment, acquisition, expansion, management, conduct, operation, or

5 For greater certainty, a condition for the receipt or continued receipt of an advantage referred to in paragraph 2 does not constitute a “commitment or undertaking” for the purposes of paragraph 1.
sale or other disposition of an investment in its territory of an investor of a Party or of a non-Party, on compliance with any requirement:

(a) to achieve a given level or percentage of domestic content;

(b) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;

(c) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment; or

(d) to restrict sales of goods or services in its territory that such investment produces or supplies by relating such sales in any way to the volume or value of its exports or foreign exchange earnings.

3. (a) Nothing in paragraph 2 shall be construed to prevent a Party from conditioning the receipt or continued receipt of an advantage, in connection with an investment in its territory of an investor of a Party or of a non-Party, on compliance with a requirement to locate production, supply a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory.

(b) Paragraph 1(f) does not apply:

(i) when a Party authorizes use of an intellectual property right in accordance with Article 31 of the TRIPS Agreement, or to measures requiring the disclosure of proprietary information that fall within the scope of, and are consistent with, Article 39 of the TRIPS Agreement; or

(ii) when the requirement is imposed or the commitment or undertaking is enforced by a court, administrative tribunal, or competition authority to remedy a practice determined after judicial or administrative process to be anticompetitive under the Party’s competition laws.

(c) Provided that such measures are not applied in an arbitrary or unjustifiable manner, and provided that such measures do not constitute a disguised restriction on international trade or investment, paragraphs 1(b), (c), and (f), and 2(a) and (b), shall not be construed to prevent a Party from adopting or maintaining measures, including environmental measures:

(i) necessary to secure compliance with laws and regulations that are not inconsistent with this Agreement;

(ii) necessary to protect human, animal, or plant life or health; or

---

6 For greater certainty, the references to the TRIPS Agreement in paragraph 3(b)(i) include any waiver in force between the Parties of any provision of that agreement granted by WTO Members in accordance with the WTO Agreement.

7 The Parties recognize that a patent does not necessarily confer market power.
(iii) related to the conservation of living or non-living exhaustible natural resources.

(d) Paragraphs 1(a), (b), and (c), and 2(a) and (b), do not apply to qualification requirements for goods or services with respect to export promotion and foreign aid programs.

(e) Paragraphs 1(b), (c), (f), and (g), and 2(a) and (b), do not apply to procurement.

(f) Paragraphs 2(a) and (b) do not apply to requirements imposed by an importing Party relating to the content of goods necessary to qualify for preferential tariffs or preferential quotas.

4. For greater certainty, paragraphs 1 and 2 do not apply to any requirement other than the requirements set out in those paragraphs.

5. This Article does not preclude enforcement of any commitment, undertaking, or requirement between private parties, where a Party did not impose or require the commitment, undertaking, or requirement.

ARTICLE 10.9: SENIOR MANAGEMENT AND BOARDS OF DIRECTORS

1. Neither Party may require that an enterprise of that Party that is a covered investment appoint to senior management positions natural persons of any particular nationality.

2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise of that Party that is a covered investment, be of a particular nationality, or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

ARTICLE 10.10: INVESTMENT AND ENVIRONMENT

Nothing in this Chapter shall be construed to prevent a Party from adopting, maintaining, or enforcing any measure otherwise consistent with this Chapter that it considers appropriate to ensure that investment activity in its territory is undertaken in a manner sensitive to environmental concerns.

ARTICLE 10.11: DENIAL OF BENEFITS

1. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to investments of that investor if persons of a non-Party own or control the enterprise and the denying Party:

(a) does not maintain diplomatic relations with the non-Party; or

(b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or to its investments.
2. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to investments of that investor if the enterprise has no substantial business activities in the territory of the other Party and persons of a non-Party, or of the denying Party, own or control the enterprise.

**ARTICLE 10.12: NON-CONFORMING MEASURES**

1. Articles 10.3, 10.4, 10.8, and 10.9 do not apply to:

   (a) any existing non-conforming measure that is maintained by a Party at:

   (i) the central level of government, as set out by that Party in its Schedule to Annex I,

   (ii) a regional level of government, as set out by that Party in its Schedule to Annex I, or

   (iii) a local level of government;

   (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or

   (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Article 10.3, 10.4, 10.8, or 10.9.

2. Articles 10.3, 10.4, 10.8, and 10.9 do not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities, as set out in its Schedule to Annex II.

3. Neither Party may, under any measure adopted after the date of entry into force of this Agreement and covered by its Schedule to Annex II, require an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment existing at the time the measure becomes effective.

4. Articles 10.3 and 10.4 do not apply to any measure that is an exception to, or derogation from, the obligations under Article 15.1.5 (General Provisions) as specifically provided in that Article.

5. Articles 10.3, 10.4, and 10.9 do not apply to:

   (a) procurement; or

   (b) subsidies or grants provided by a Party, including government-supported loans, guarantees, and insurance.

**ARTICLE 10.13: SPECIAL FORMALITIES AND INFORMATION REQUIREMENTS**

1. Nothing in Article 10.3 shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with covered
investments, such as a requirement that investors be residents of the Party or that covered investments be legally constituted under the laws or regulations of the Party, provided that such formalities do not materially impair the protections afforded by a Party to investors of the other Party and covered investments pursuant to this Chapter.

2. Notwithstanding Articles 10.3 and 10.4, a Party may require an investor of the other Party, or a covered investment, to provide information concerning that investment solely for informational or statistical purposes. The Party shall protect any confidential business information from any disclosure that would prejudice the competitive position of the investor or the covered investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

Section B: Investor-State Dispute Settlement

ARTICLE 10.14: CONSULTATION AND NEGOTIATION

In the event of an investment dispute, the claimant and the respondent should initially seek to resolve the dispute through consultation and negotiation, which may include the use of non-binding, third-party procedures.

ARTICLE 10.15: SUBMISSION OF A CLAIM TO ARBITRATION

1. In the event that a disputing party considers that an investment dispute cannot be settled by consultation and negotiation:

(a) the claimant, on its own behalf, may submit to arbitration under this Section a claim that the respondent has breached

   (i) an obligation under Section A,
   (B) an investment authorization, or
   (C) an investment agreement; and

   (ii) that the claimant has incurred loss or damage by reason of, or arising out of, that breach; and

(b) the claimant, on behalf of an enterprise of the respondent that is a juridical person that the claimant owns or controls directly or indirectly, may submit to arbitration under this Section a claim that the respondent has breached

   (i) an obligation under Section A,
   (B) an investment authorization, or
   (C) an investment agreement; and
(ii) that the enterprise has incurred loss or damage by reason of, or arising out of, that breach.

2. At least 90 days before submitting any claim to arbitration under this Section, a claimant shall deliver to the respondent a written notice of its intention to submit the claim to arbitration (“notice of intent”). The notice shall specify:

(a) the name and address of the claimant and, where a claim is submitted on behalf of an enterprise, the name, address, and place of incorporation of the enterprise;

(b) for each claim, the provision of this Agreement, investment authorization, or investment agreement alleged to have been breached and any other relevant provisions;

(c) the legal and factual basis for each claim; and

(d) the relief sought and the approximate amount of damages claimed.

3. Provided that six months have elapsed since the events giving rise to the claim, a claimant may submit a claim referred to in paragraph 1:

(a) under the ICSID Convention and the ICSID Rules of Procedures for Arbitration Proceedings, provided that both the respondent and the nondisputing Party are parties to the ICSID Convention;

(b) under the ICSID Additional Facility Rules, provided that either the respondent or the non-disputing Party is a party to the ICSID Convention;

(c) under the UNCITRAL Arbitration Rules; or

(d) if the claimant and respondent agree, to any other arbitration institution or under any other arbitration rules.

4. A claim shall be deemed submitted to arbitration under this Section when the claimant’s notice of or request for arbitration (“notice of arbitration”):

(a) referred to in paragraph 1 of Article 36 of the ICSID Convention is received by the Secretary-General;

(b) referred to in Article 2 of Schedule C of the ICSID Additional Facility Rules is received by the Secretary-General;

(c) referred to in Article 3 of the UNCITRAL Arbitration Rules, together with the statement of claim referred to in Article 18 of the UNCITRAL Arbitration Rules, are received by the respondent; or

(d) referred to under any other arbitral institution or arbitral rules selected under paragraph 3(d) is received by the respondent.
A claim asserted by the claimant for the first time after such notice of arbitration is submitted shall be deemed submitted to arbitration under this Section on the date of its receipt under the applicable arbitral rules.

5. The arbitration rules applicable under paragraph 3, and in effect on the date the claim or claims were submitted to arbitration under this Section, shall govern the arbitration except to the extent modified by this Agreement.

6. The claimant shall provide with the notice of arbitration:
   (a) the name of the arbitrator that the claimant appoints; or
   (b) the claimant’s written consent for the Secretary-General to appoint that arbitrator.

ARTICLE 10.16: CONSENT OF EACH PARTY TO ARBITRATION

1. Each Party consents to the submission of a claim to arbitration under this Section in accordance with this Agreement.

2. The consent under paragraph 1 and the submission of a claim to arbitration under this Section shall satisfy the requirements of:
   (a) Chapter II of the ICSID Convention (Jurisdiction of the Centre) and the ICSID Additional Facility Rules for written consent of the parties to the dispute; and
   (b) Article II of the New York Convention for an “agreement in writing.”

ARTICLE 10.17: CONDITIONS AND LIMITATIONS ON CONSENT OF EACH PARTY

1. No claim may be submitted to arbitration under this Section if more than three years have elapsed from the date on which the claimant first acquired, or should have first acquired, knowledge of the breach alleged under Article 10.15.1 and knowledge that the claimant (for claims brought under Article 10.15.1(a)) or the enterprise (for claims brought under Article 10.15.1(b)) has incurred loss or damage.

2. No claim may be submitted to arbitration under this Section unless:
   (a) the claimant consents in writing to arbitration in accordance with the procedures set out in this Agreement; and
   (b) the notice of arbitration is accompanied,
      (i) for claims submitted to arbitration under Article 10.15.1(a), by the claimant’s written waiver, and
      (ii) for claims submitted to arbitration under Article 10.15.1(b), by the claimant’s and the enterprise’s written waivers of any right to initiate or continue before any administrative tribunal or court under the law of either Party, or other dispute settlement procedures, any proceeding with respect to any measure alleged to constitute a breach referred to in Article 10.15.
3. Notwithstanding paragraph 2(b), the claimant (for claims brought under Article 10.15.1(a)) and the claimant or the enterprise (for claims brought under Article 10.15.1(b)) may initiate or continue an action that seeks interim injunctive relief and does not involve the payment of monetary damages before a judicial or administrative tribunal of the respondent, provided that the action is brought for the sole purpose of preserving the claimant’s or the enterprise’s rights and interests during the pendency of the arbitration. In no case should such relief, if granted, be dispositive of the issues in dispute before the tribunal or suspend the proceedings before the tribunal.

**ARTICLE 10.18: SELECTION OF ARBITRATORS**

1. Unless the disputing parties agree otherwise, the tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties.

2. The Secretary-General shall serve as appointing authority for an arbitration under this Section.

3. If a tribunal has not been constituted within 75 days from the date that a claim is submitted to arbitration under this Section, the Secretary-General, on the request of a disputing party, shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed.

4. For purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator on a ground other than nationality:
   
   (a) the respondent agrees to the appointment of each individual member of a tribunal established under the ICSID Convention or the ICSID Additional Facility Rules;

   (b) a claimant referred to in Article 10.15.1(a) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant agrees in writing to the appointment of each individual member of the tribunal; and

   (c) a claimant referred to in Article 10.15.1(b) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant and the enterprise agree in writing to the appointment of each individual member of the tribunal.

**ARTICLE 10.19: CONDUCT OF THE ARBITRATION**

1. The disputing parties may agree on the legal place of any arbitration under the arbitral rules applicable under Article 10.15.3. If the disputing parties fail to reach agreement, the tribunal shall determine the place in accordance with the applicable arbitral rules, provided that the place shall be in the territory of a State that is a party to the New York Convention.

2. The non-disputing Party may make oral and written submissions to the tribunal regarding the interpretation of this Agreement.
3. The tribunal shall have the authority to accept and consider amicus curiae submissions from a person or entity that is not a disputing party.

4. Without prejudice to a tribunal’s authority to address other objections as a preliminary question, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favor of the claimant may be made under Article 10.25.

   (a) Such objection shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial (or, in the case of an amendment to the notice of arbitration, the date the tribunal fixes for the respondent to submit its response to the amendment).

   (b) On receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor.

   (c) In deciding an objection under this paragraph, the tribunal shall assume to be true claimant’s factual allegations in support of any claim in the notice of arbitration (or any amendment thereof) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in Article 18 of the UNCITRAL Arbitration Rules. The tribunal may also consider any relevant facts not in dispute.

   (d) The respondent does not waive any objection as to competence or any argument on the merits merely because the respondent did or did not raise an objection under this paragraph or make use of the expedited procedure set out in paragraph 5.

5. In the event that the respondent so requests within 45 days after the tribunal is constituted, the tribunal shall decide on an expedited basis an objection under paragraph 4 and any objection that the dispute is not within the tribunal’s competence. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection(s), stating the grounds therefor, no later than 150 days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional 30 days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period, which may not exceed 30 days.

6. When it decides a respondent’s objection under paragraph 4 or 5, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorney’s fees incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant’s claim or the respondent’s objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.
7. A respondent may not assert as a defense, counterclaim, right of set-off, or for any other reason that the claimant has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an insurance or guarantee contract.

8. The tribunal may order an interim measure of protection to preserve the rights of a disputing party, or to ensure that the tribunal’s jurisdiction is made fully effective, including an order to preserve evidence in the possession or control of a disputing party or to protect the tribunal’s jurisdiction. The tribunal may not order attachment or enjoin the application of a measure alleged to constitute a breach referred to in Article 10.15. For purposes of this paragraph, an order includes a recommendation.

9. (a) In any arbitration conducted under this Section, at the request of a disputing party, a tribunal shall, before issuing a decision or award on liability, transmit its proposed decision or award to the disputing parties and to the non-disputing Party. Within 60 days after the tribunal transmits its proposed decision or award, the disputing parties may submit written comments to the tribunal concerning any aspect of its proposed decision or award. The tribunal shall consider any such comments and issue its decision or award not later than 45 days after the expiration of the 60-day comment period.

(b) Subparagraph (a) shall not apply in any arbitration conducted pursuant to this Section for which an appeal has been made available pursuant to paragraph 10 or Annex 10-D.

10. If a separate regional or multilateral agreement concerning investment enters into force between the Parties that establishes an appellate body for purposes of reviewing awards rendered by tribunals constituted pursuant to international trade or investment arrangements to hear investment disputes, the Parties shall strive to reach an agreement that would have such appellate body review awards rendered under Article 10.25 in arbitrations commenced after the regional or multilateral agreement enters into force between the Parties.

ARTICLE 10.20: TRANSPARENCY OF ARBITRAL PROCEEDINGS

1. Subject to paragraphs 2 and 4, the respondent shall, after receiving the following documents, promptly transmit them to the non-disputing Party and make them available to the public:

   (a) the notice of intent;

   (b) the notice of arbitration;

   (c) pleadings, memorials, and briefs submitted to the tribunal by a disputing party and any written submissions submitted pursuant to Article 10.19.2 and 10.19.3 and Article 10.24;

   (d) minutes or transcripts of hearings of the tribunal, where available; and

   (e) orders, awards, and decisions of the tribunal.
2. The tribunal shall conduct hearings open to the public and shall determine, in consultation with the disputing parties, the appropriate logistical arrangements. However, any disputing party that intends to use information designated as protected information in a hearing shall so advise the tribunal. The tribunal shall make appropriate arrangements to protect the information from disclosure.

3. Nothing in this Section requires a respondent to disclose protected information or to furnish or allow access to information that it may withhold in accordance with Article 21.2 (Essential Security) or Article 21.5 (Disclosure of Information).

4. Any protected information that is submitted to the tribunal shall be protected from disclosure in accordance with the following procedures:
   
   (a) Subject to subparagraph (d), neither the disputing parties nor the tribunal shall disclose to the non-disputing Party or to the public any protected information where the disputing party that provided the information clearly designates it in accordance with subparagraph (b);

   (b) Any disputing party claiming that certain information constitutes protected information shall clearly designate the information at the time it is submitted to the tribunal;

   (c) A disputing party shall, at the time it submits a document containing information claimed to be protected information, submit a redacted version of the document that does not contain the information. Only the redacted version shall be provided to the non-disputing Party and made public in accordance with paragraph 1; and

   (d) The tribunal shall decide any objection regarding the designation of information claimed to be protected information. If the tribunal determines that such information was not properly designated, the disputing party that submitted the information may (i) withdraw all or part of its submission containing such information, or (ii) agree to resubmit complete and redacted documents with corrected designations in accordance with the tribunal’s determination and subparagraph (c). In either case, the other disputing party shall, whenever necessary, resubmit complete and redacted documents which either remove the information withdrawn under (i) by the disputing party that first submitted the information or redesignate the information consistent with the designation under (ii) of the disputing party that first submitted the information.

5. Nothing in this Section requires a respondent to withhold from the public information required to be disclosed by its laws.

**ARTICLE 10.21: GOVERNING LAW**

1. Subject to paragraph 3, when a claim is submitted under Article 10.15.1(a)(i)(A) or Article 10.15.1(b)(i)(A), the tribunal shall decide the issues in dispute in accordance with this Agreement and applicable rules of international law.

2. Subject to paragraph 3 and the other terms of this Section, when a claim is submitted under Article 10.15.1(a)(i)(B) or (C), or Article 10.15.1(b)(i)(B) or (C), the tribunal shall apply:
(a) the rules of law specified in the pertinent investment authorization or investment agreement, or as the disputing parties may agree otherwise; or

(b) if the rules of law have not been specified or agreed otherwise:

(i) the law of the respondent, including its rules on the conflict of laws; and

(ii) such rules of international law as may be applicable.

3. A decision of the Joint Committee declaring its interpretation of a provision of this Agreement under Article 19.2 (Joint Committee) shall be binding on a tribunal, and any decision or award issued by a tribunal must be consistent with that decision.

ARTICLE 10.22: INTERPRETATION OF ANNEXES

1. Where a respondent asserts as a defense that the measure alleged to be a breach is within the scope of an entry set out in Annex I or Annex II, the tribunal shall, on request of the respondent, request the interpretation of the Joint Committee on the issue. The Joint Committee shall submit in writing any decision declaring its interpretation under Article 19.2 (Joint Committee) to the tribunal within 60 days of delivery of the request.

2. A decision issued by the Joint Committee under paragraph 1 shall be binding on the tribunal, and any decision or award issued by the tribunal must be consistent with that decision. If the Joint Committee fails to issue such a decision within 60 days, the tribunal shall decide the issue.

Article 10.23: EXPERT REPORTS

Without prejudice to the appointment of other kinds of experts where authorized by the applicable arbitration rules, a tribunal, at the request of a disputing party or, unless the disputing parties disapprove, on its own initiative, may appoint one or more experts to report to it in writing on any factual issue concerning environmental, health, safety, or other scientific matters raised by a disputing party in a proceeding, subject to such terms and conditions as the disputing parties may agree.

ARTICLE 10.24: CONSOLIDATION

1. Where two or more claims have been submitted separately to arbitration under Article 10.15.1 and the claims have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of paragraphs 2 through 10.

2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the Secretary-General and to all the disputing parties sought to be covered by the order and shall specify in the request:

---

8 The law of the respondent means the law that a domestic court or tribunal of proper jurisdiction would apply in the same case.
(a) the names and addresses of all the disputing parties sought to be covered by the order;

(b) the nature of the order sought; and

(c) the grounds on which the order is sought.

3. Unless the Secretary-General finds within 30 days after receiving a request under paragraph 2 that the request is manifestly unfounded, a tribunal shall be established under this Article.

4. Unless all the disputing parties sought to be covered by the order agree otherwise, a tribunal established under this Article shall comprise three arbitrators:

(a) one arbitrator appointed by agreement of the claimants;

(b) one arbitrator appointed by the respondent; and

(c) the presiding arbitrator appointed by the Secretary-General, provided, however, that the presiding arbitrator shall not be a national of either Party.

5. If, within 60 days after the Secretary-General receives a request made under paragraph 2, the respondent fails or the claimants fail to appoint an arbitrator in accordance with paragraph 4, the Secretary-General, on the request of any disputing party sought to be covered by the order, shall appoint the arbitrator or arbitrators not yet appointed. If the respondent fails to appoint an arbitrator, the Secretary-General shall appoint a national of the disputing Party, and if the claimants fail to appoint an arbitrator, the Secretary-General shall appoint a national of the non-disputing Party.

6. Where a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration under Article 10.15.1 have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:

(a) assume jurisdiction over, and hear and determine together, all or part of the claims;

(b) assume jurisdiction over, and hear and determine one or more of the claims, the determination of which it believes would assist in the resolution of the others; or

(c) instruct a tribunal previously established under Article 10.18 to assume jurisdiction over, and hear and determine together, all or part of the claims, provided that

(i) that tribunal, at the request of any claimant not previously a disputing party before that tribunal, shall be reconstituted with its original members, except that the arbitrator for the claimants shall be appointed pursuant to paragraphs 4(a) and 5; and

(ii) that tribunal shall decide whether any prior hearing shall be repeated.
7. Where a tribunal has been established under this Article, a claimant that has submitted a claim to arbitration under Article 10.15.1 and that has not been named in a request made under paragraph 2 may make a written request to the tribunal that it be included in any order made under paragraph 6, and shall specify in the request:

(a) the name and address of the claimant;
(b) the nature of the order sought; and
(c) the grounds on which the order is sought.

The claimant shall deliver a copy of its request to the Secretary-General.

8. A tribunal established under this Article shall conduct its proceedings in accordance with the UNCITRAL Arbitration Rules, except as modified by this Section.

9. A tribunal established under Article 10.18 shall not have jurisdiction to decide a claim, or a part of a claim, over which a tribunal established or instructed under this Article has assumed jurisdiction.

10. On application of a disputing party, a tribunal established under this Article, pending its decision under paragraph 6, may order that the proceedings of a tribunal established under Article 10.18 be stayed, unless the latter tribunal has already adjourned its proceedings.

**ARTICLE 10.25: AWARDS**

1. Where a tribunal makes a final award against a respondent, the tribunal may award, separately or in combination, only:

(a) monetary damages and interest, as appropriate; and
(b) restitution of property, in which case the award shall provide that the respondent may pay monetary damages and interest, as appropriate, in lieu of restitution.

A tribunal may also award costs and attorney’s fees in accordance with this Section and the applicable arbitration rules.

2. Subject to paragraph 1, where a claim is submitted to arbitration under Article 0.15.1(b):

(a) an award of restitution of property shall provide that restitution be made to the enterprise;
(b) an award of monetary damages and interest, as appropriate, shall provide that the sum be paid to the enterprise; and
(c) the award shall provide that it is made without prejudice to any right that any person may have in the relief under applicable domestic law.

3. A tribunal may not award punitive damages.
4. An award made by a tribunal shall have no binding force except between the disputing parties and in respect of the particular case.

5. Subject to paragraph 6 and the applicable review procedure for an interim award, a disputing party shall abide by and comply with an award without delay.

6. A disputing party may not seek enforcement of a final award until:

   (a) in the case of a final award made under the ICSID Convention

      (i) 120 days have elapsed from the date the award was rendered and no disputing party has requested revision or annulment of the award; or

      (ii) revision or annulment proceedings have been completed; and

   (b) in the case of a final award under the ICSID Additional Facility Rules, the UNCITRAL Arbitration Rules, or the rules selected pursuant to Article 10.15.3(d)

      (i) 90 days have elapsed from the date the award was rendered and no disputing party has commenced a proceeding to revise, set aside, or annul the award; or

      (ii) a court has dismissed or allowed an application to revise, set aside, or annul the award and there is no further appeal.

7. Each Party shall provide for the enforcement of an award in its territory.

8. If the respondent fails to abide by or comply with a final award, on delivery of a request by the non-disputing Party, a panel shall be established under Article 20.7 (Establishment of Panel). The requesting Party may seek in such proceedings:

   (a) a determination that the failure to abide by or comply with the final award is inconsistent with the obligations of this Agreement; and

   (b) in accordance with Article 20.9.2 (Panel Report), a recommendation that the respondent abide by or comply with the final award.

9. A disputing party may seek enforcement of an arbitration award under the ICSID Convention or the New York Convention regardless of whether proceedings have been taken under paragraph 8.

10. A claim that is submitted to arbitration under this Section shall be considered to arise out of a commercial relationship or transaction for purposes of Article I of the New York Convention.

**ARTICLE 10.26: SERVICE OF DOCUMENTS**

Delivery of notice and other documents on a Party shall be made to the place named for that Party in Annex 10-C.

ICSID Convention means the Convention on the Settlement of Investment Disputes between States and Nationals of Other States, done at Washington, March 18, 1965;

investment means every asset that an investor owns or controls, directly or indirectly, that has the characteristics of an investment, including such characteristics as the commitment of capital or other resources, the expectation of gain or profit, or the assumption of risk.

Forms that an investment may take include:

(a) an enterprise;
(b) shares, stock, and other forms of equity participation in an enterprise;
(c) bonds, debentures, other debt instruments, and loans;9
(d) futures, options, and other derivatives;
(e) turnkey, construction, management, production, concession, revenuesharing, and other similar contracts;
(f) intellectual property rights;

9 Some forms of debt, such as bonds, debentures, and long-term notes, are more likely to have the characteristics of an investment, while other forms of debt, such as claims to payment that are immediately due and result from the sale of goods or services, are less likely to have such characteristics.
(g) licenses, authorizations, permits, and similar rights conferred pursuant to domestic law,\textsuperscript{10,11} and

(h) other tangible or intangible, movable or immovable property, and related property rights, such as leases, mortgages, liens, and pledges;

investment agreement means a written agreement\textsuperscript{12} that takes effect on or after the date of entry into force of this Agreement between a national authority\textsuperscript{13} of a Party and a covered investment or an investor of the other Party that grants the covered investment or investor rights:

(a) with respect to natural resources or other assets that a national authority controls; and

(b) upon which the covered investment or the investor relies in establishing or acquiring a covered investment other than the written agreement itself;

investor of a non-Party means, with respect to a Party, an investor that concretely attempts to make, is making, or has made an investment in the territory of that Party, that is not an investor of either Party;

investor of a Party means a Party or state enterprise thereof, or a national or an enterprise of a Party, that concretely attempts to make, is making, or has made an investment in the territory of the other Party; provided, however, that a natural person who is a dual national shall be deemed to be exclusively a national of the State of his or her dominant and effective nationality;

non-disputing Party means the Party that is not a party to an investment dispute;

\textsuperscript{10} Whether a particular type of license, authorization, permit, or similar instrument (including a concession, to the extent that it has the nature of such an instrument) has the characteristics of an investment depends on such factors as the nature and extent of the rights that the holder has under the law of the Party. Among the licenses, authorizations, permits, and similar instruments that do not have the characteristics of an investment are those that do not create any rights protected under domestic law. For greater certainty, the foregoing is without prejudice to whether any asset associated with the license, authorization, permit, or similar instrument has the characteristics of an investment.

\textsuperscript{11} The term “investment” does not include an order or judgment entered in a judicial or administrative action.

\textsuperscript{12} “Written agreement” refers to an agreement in writing, executed by both parties, that creates an exchange of rights and obligations, binding on both parties under the law applicable under Article 10.21.2. For greater certainty, (a) a unilateral act of an administrative or judicial authority, such as a permit, license, or authorization issued by a Party solely in its regulatory capacity or a decree, order, or judgment; and (b) an administrative or judicial consent decree or order, shall not be considered a written agreement.

\textsuperscript{13} For purposes of this definition, “national authority” means an authority at the central level of government.

\textsuperscript{14} For greater certainty, actions taken by a Party to enforce laws of general application, such as competition laws, are not encompassed within this definition.
respondent means the Party that is a party to an investment dispute;

Secretary-General means the Secretary-General of ICSID; and

ANNEX 10-A
CUSTOMARY INTERNATIONAL LAW

The Parties confirm their shared understanding that “customary international law” generally and as specifically referenced in Article 10.5 and Annex 10-B results from a general and consistent practice of States that they follow from a sense of legal obligation.

With regard to Article 10.5, the customary international law minimum standard of treatment of aliens refers to all customary international law principles that protect the economic rights and interests of aliens.

ANNEX 10-B
EXPROPRIATION

The Parties confirm their shared understanding that:

1. Article 10.6.1 is intended to reflect customary international law concerning the obligation of States with respect to expropriation.

2. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right or property interest in an investment.

3. Article 10.6.1 addresses two situations. The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through formal transfer of title or outright seizure.

4. The second situation addressed by Article 10.6.1 is indirect expropriation, where an action or series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.

(a) The determination of whether an action or series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a caseby-case, fact-based inquiry that considers, among other factors:

(i) the economic impact of the government action, although the fact that an action or series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;

(ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations; and
(iii) the character of the government action.

(b) Except in rare circumstances, non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety, and the environment, do not constitute indirect expropriations.

(a) on its own behalf under Article 10.15.1(a), or
(b) on behalf of the enterprise under Article 10.15.1(b),

6. This Chapter does not apply to services supplied in the exercise of governmental authority within the territory of each respective Party.

ARTICLE 11.2: NATIONAL TREATMENT

1. Each Party shall accord to service suppliers of the other Party treatment no less favorable than that it accords, in like circumstances, to its own service suppliers.

2. The treatment to be accorded by a Party under paragraph 1 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that regional level of government to service suppliers of the Party of which it forms a part.

ARTICLE 11.3: MOST-FAVORED-NATION TREATMENT

Each Party shall accord to service suppliers of the other Party treatment no less favourable than that it accords, in like circumstances, to service suppliers of a non-Party.

ARTICLE 11.4: MARKET ACCESS

1. Neither Party may adopt or maintain, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

   (a) impose limitations on:

      (i) the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirement of an economic needs test;

      (ii) the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;
(iii) the total number of service operations or on the total quantity of services output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test; or

(iv) the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test; or

(b) restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service.

ARTICLE 11.5: LOCAL PRESENCE

Neither Party may require a service supplier of the other Party to establish or maintain a representative office or any form of enterprise, or to be resident, in its territory as a condition for the cross-border supply of a service.

      (ii) a regional level of government, as set out by that Party in its Schedule to Annex I; or

      (iii) a local level of government;

   (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or

   (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 11.2, 11.3, 11.4, or 11.5.

2. Articles 11.2, 11.3, 11.4, and 11.5 do not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors, or activities set out in its Schedule to Annex II.

3. Annex 11-A sets out specific commitments by the Parties.

---

2 This paragraph does not cover measures of a Party that limit inputs for the supply of services.
ARTICLE 11.7: DOMESTIC REGULATION

1. Where a Party requires authorization for the supply of a service, the Party’s competent authorities shall, within a reasonable period after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Party shall provide, without undue delay, information concerning the status of the application. This obligation shall not apply to authorization requirements that are within the scope of Article 11.6.2.

2. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards, and licensing requirements do not constitute unnecessary barriers to trade in services, each Party shall endeavor to ensure, as appropriate for individual sectors, that such measures are:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service; and

(c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

3. If the results of the negotiations related to Article VI:4 of GATS (or the results of any similar negotiations undertaken in other multilateral fora in which both Parties participate) enter into effect, this Article shall be amended, as appropriate, after consultations between the Parties, to bring those results into effect under this Agreement.

The Parties agree to coordinate on such negotiations, as appropriate.

ARTICLE 11.8: TRANSPARENCY IN DEVELOPMENT AND APPLICATION OF REGULATIONS

Further to Chapter Eighteen (Transparency):

1. Each Party shall establish or maintain appropriate mechanisms for responding to inquiries from interested persons regarding its regulations relating to the subject matter of this Chapter.34

2. If a Party does not provide advance notice of and opportunity for comment on proposed regulations relating to the subject matter of this Chapter pursuant to Article 18.1.2 (Publication), it shall, to the extent possible, address in writing the reasons therefore.

3. At the time it adopts final regulations relating to the subject matter of this Chapter, a Party shall, to the extent possible, including on request, address in writing substantive comments received from interested persons with respect to the proposed regulations.

3 For greater certainty, such regulations include regulations establishing or applying to licensing authorization or criteria.

4 Morocco’s implementation of its obligation to establish appropriate mechanisms for small administrative agencies may need to take into account resource and budget constraints.
4. To the extent possible, each Party shall allow reasonable time between publication of final regulations relating to the subject matter of this Chapter and their effective date.

**ARTICLE 11.9: MUTUAL RECOGNITION**

1. For the purposes of the fulfillment, in whole or in part, of its standards or criteria for the authorization, licensing, or certification of services suppliers, and subject to the requirements of paragraph 4, a Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in a particular country, including the other Party and non-Parties. Such recognition, which may be achieved through harmonization or otherwise, may be based on an agreement or arrangement with the country concerned or may be accorded autonomously.

2. Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, nothing in Article 11.3 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, if the other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in that other Party’s territory should be recognized.

4. Neither Party may accord recognition in a manner that would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing, or certification of services suppliers, or a disguised restriction on trade in services.

5. Annex 11-B applies to measures adopted or maintained by a Party relating to the licensing or certification of professional service suppliers as set out in that Annex.

**ARTICLE 11.10: TRANSFERS AND PAYMENTS**

1. Each Party shall permit all transfers and payments relating to the cross-border supply of services to be made freely and without delay into and out of its territory.

2. Each Party shall permit such transfers and payments relating to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent a transfer or payment through the equitable, non-discriminatory, and good faith application of its laws relating to:

   (a) bankruptcy, insolvency, or the protection of the rights of creditors;

   (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
(c) financial reporting or record keeping of transfers, when necessary to assist law enforcement or financial regulatory authorities;

(d) criminal or penal offenses; or

(e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

**ARTICLE 11.11: DENIAL OF BENEFITS**

1. A Party may deny the benefits of this Chapter to a service supplier of the other Party if the service is being supplied by an enterprise owned or controlled by persons of a non-Party, and the denying Party:

   (a) does not maintain diplomatic relations with the non-Party, or

   (b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise.

2. A Party may deny the benefits of this Chapter to a service supplier of the other Party if the service is being supplied by an enterprise that has no substantial business activities in the territory of the other Party and the enterprise is owned or controlled by persons of a non-Party or of the denying Party.

**ARTICLE 11.12: IMPLEMENTATION**

The Parties shall meet annually, and as otherwise agreed, on any issues of mutual interest arising from the implementation of this Chapter.

**ARTICLE 11.13: DEFINITIONS**

**ANNEX 11-A**

**EXPRESS DELIVERY SERVICES**

1. The Parties affirm that measures affecting express delivery services are subject to the provisions of this Agreement.

2. For purposes of this Agreement, express delivery services means the collection, transport, and delivery of documents, printed matter, parcels, goods, or other items on an expedited basis, while tracking and maintaining control of these items throughout the supply of the service. Express delivery services do not include (1) air transport services, (2) services supplied in the exercise of governmental authority, or (3) maritime transport services.

3. The Parties express their desire to maintain at least the level of market openness for express delivery services they provide on the date of signature of this Agreement.

4. Morocco shall not adopt any new restriction on the supply of express delivery services after the date of signature of this Agreement.

(a) education – accreditation of schools or academic programs;

   (b) Section B of Chapter Ten (Investor-State Dispute Settlement) is hereby incorporated into and made a part of this Chapter solely for claims that a Party has breached Articles 10.6 (Expropriation and Compensation), 10.7 (Transfers), 10.11 (Denial of Benefits), or 10.13 (Special Formalities and Information Requirements), as incorporated into this Chapter.

   (c) Article 11.10 (Transfers and Payments) is incorporated into and made a part of this Chapter to the extent that cross-border trade in financial services is subject to obligations pursuant to Article 12.5.

3. This Chapter does not apply to measures adopted or maintained by a Party relating to:

   (a) activities or services forming part of a public retirement plan or statutory system of social security; or

   (b) activities or services conducted for the account or with the guarantee or using the financial resources of the Party, including its public entities, except that this Chapter shall apply if a Party allows any of the activities or services referred to in subparagraphs (a) or (b) to be conducted by its financial institutions in competition with a public entity or a financial institution.

ARTICLE 12.2: NATIONAL TREATMENT

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords to its own investors, in like circumstances, with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of financial institutions and investments in financial institutions in its territory.
2. Each Party shall accord to financial institutions of the other Party and to investments of investors of the other Party in financial institutions treatment no less favorable than that it accords to its own financial institutions, and to investments of its own investors in financial institutions, in like circumstances, with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of financial institutions and investments.

3. For purposes of the national treatment obligations in Article 12.5.1, a Party shall accord to cross-border financial service suppliers of the other Party treatment no less favorable than that it accords to its own financial service suppliers, in like circumstances, with respect to the supply of the relevant service.

ARTICLE 12.3: MOST-FAVORED-NATION TREATMENT

1. Each Party shall accord to investors of the other Party, financial institutions of the other Party, investments of investors in financial institutions, and cross-border financial service suppliers of the other Party treatment no less favorable than that it accords to the investors, financial institutions, investments of investors in financial institutions, and cross-border financial service suppliers of a non-Party, in like circumstances.

2. A Party may recognize prudential measures of a non-Party in the application of measures covered by this Chapter. Such recognition may be:

   (a) accorded unilaterally;

   (b) achieved through harmonization or other means; or

   (c) based upon an agreement or arrangement with the non-Party.

3. A Party according recognition of prudential measures under paragraph 2 shall provide adequate opportunity to the other Party to demonstrate that circumstances exist in which there are or would be equivalent regulation, oversight, implementation of regulation, and, if appropriate, procedures concerning the sharing of information between the Parties.

4. Where a Party accords recognition of prudential measures under paragraph 2(c) and the circumstances set out in paragraph 3 exist, the Party shall provide adequate opportunity to the other Party to negotiate accession to the agreement or arrangement, or to negotiate a comparable agreement or arrangement.

ARTICLE 12.4: MARKET ACCESS FOR FINANCIAL INSTITUTIONS

Neither Party may adopt or maintain, with respect to financial institutions of the other Party or investors of the other Party in such institutions, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

      (i) the number of financial institutions whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirement of an economic needs test;
(ii) the total value of financial service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

2. Each Party shall permit persons located in its territory, and its nationals wherever located, to purchase financial services from cross-border financial service suppliers of the other Party located in the territory of the other Party. This obligation does not require a Party to permit such suppliers to do business or solicit in its territory. Each Party may define “doing business” and “solicitation” for purposes of this obligation, provided that those definitions are not inconsistent with paragraph 1.

3. Without prejudice to other means of prudential regulation of cross-border trade in financial services, a Party may require the registration of cross-border financial service suppliers of the other Party and of financial instruments.

ARTICLE 12.6: NEW FINANCIAL SERVICES²

1. Each Party shall permit a financial institution of the other Party, on request or notification to the relevant regulator, where required, to supply any new financial service that the Party would permit its own financial institutions, in like circumstances, to supply under its domestic law, provided that the introduction of the new financial service does not require the Party to adopt a new law or modify an existing law.

2. A Party may determine the institutional and juridical form through which the new financial service may be supplied and may require authorization for the supply of the service. Where a Party would permit the new financial service and authorization is required, the decision

Such application shall be subject to the law of the Party to which the application is made and, for greater certainty, shall not be subject to the obligations of Article 12.6.
shall be made within a reasonable time and authorization may only be refused for prudential reasons.

**ARTICLE 12.7: TREATMENT OF CERTAIN INFORMATION**

Article 21.5 (Disclosure of Information) does not apply to this Chapter. Nothing in this Chapter shall be construed to require a Party to furnish or allow access to:

(a) information related to the financial affairs and accounts of individual customers of financial institutions or cross-border financial service suppliers; or

(b) any confidential information the disclosure of which would impede law enforcement or otherwise be contrary to the public interest or prejudice legitimate commercial interests of particular enterprises.

**ARTICLE 12.8: SENIOR MANAGEMENT AND BOARDS OF DIRECTORS**

1. Neither Party may require financial institutions of the other Party to engage individuals of any particular nationality as senior managerial or other essential personnel.

2. Neither Party may require that more than a minority of the board of directors of a financial institution of the other Party be composed of nationals of the Party, persons residing in the territory of the Party, or a combination thereof.

   (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or

   (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 12.2, 12.3, 12.4, or 12.8.

2. Articles 12.2 through 12.5 and 12.8 do not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities set out in Section B of its Schedule to Annex III.
3. Annex 12-B sets out certain specific commitments by each Party.

4. A non-conforming measure set out in a Party’s Schedule to Annex I or II as a measure to which Article 10.3 (National Treatment), 10.4 (Most-Favored-Nation Treatment), 11.2 (National Treatment), 11.3 (Most-Favored-Nation Treatment), or 11.4 (Market Access) does not apply shall be treated as a non-conforming measure to which Article 12.2, Article 12.3, or Article 12.4, as the case may be, does not apply, to the extent that the measure, sector, sub-sector, or activity set out in the Schedule of nonconforming measures is covered by this Chapter.

ARTICLE 12.10: EXCEPTIONS

Notwithstanding any other provision of this Chapter or Chapters Ten (Investment), Thirteen (Telecommunications), or Fourteen (Electronic Commerce), including specifically Article 13.16 (Telecommunications, Relationship to Other Chapters), and Article 11.1 (Scope and Coverage) with respect to the supply of financial services in the territory of a Party by a covered investment, neither Party shall be prevented from adopting or maintaining measures for prudential reasons, including for the protection of investors, depositors, policy holders, or persons to whom a fiduciary duty is owed by a financial institution or cross-border financial service supplier, or to ensure the integrity and stability of the financial system. Where such measures do not conform with the provisions of this Agreement referred to in this paragraph, they shall not be used as a means of avoiding the Party’s commitments or obligations under such provisions.

2. Nothing in this Chapter or Chapters Ten (Investment), Thirteen (Telecommunications), or Fourteen (Electronic Commerce), including specifically Article 13.16 (Telecommunications, Relationship to Other Chapters), and Article 11.1 (Scope and Coverage) with respect to the supply of financial services in the territory of a Party by a covered investment applies to non-discriminatory measures of general application taken by any public entity in pursuit of monetary and related credit policies or exchange rate policies. 3. Notwithstanding Articles 10.7 (Transfers) and 11.10 (Transfers and Payments), as incorporated into this Chapter, a Party may prevent or limit transfers by a financial institution or cross-border financial service supplier to, or for the benefit of, an affiliate of or person related to such institution or supplier, through the equitable, nondiscriminatory, and good faith application of measures relating to maintenance of the safety, soundness, integrity, or financial responsibility of financial institutions or crossborder financial service suppliers. This paragraph does not prejudice any other provision of this Agreement that permits a Party to restrict transfers.

4. For greater certainty, nothing in this Chapter shall be construed to prevent the adoption or enforcement by a Party of measures necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter, including those relating to the prevention of deceptive and fraudulent practices or to deal with the effects of a default on financial services contracts, subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between countries where like conditions prevail, or a

**ARTICLE 12.11: TRANSPARENCY**

9. A Party’s regulatory authority shall make an administrative decision on a completed application of an investor in a financial institution, a financial institution, or a cross-border financial service supplier of the other Party relating to the supply of a financial service within 120 days, and shall promptly notify the applicant of the decision.

An application shall not be considered complete until all relevant hearings are held and all necessary information is received. Where it is not practicable for a decision to be made within 120 days, the regulatory authority shall notify the applicant without undue delay and shall endeavor to make the decision within a reasonable time thereafter.
ARTICLE 12.12: SELF-REGULATORY ORGANIZATIONS

Where a Party requires a financial institution or a cross-border financial service supplier of the other Party to be a member of, participate in, or have access to, a self-regulatory organization to provide a financial service in or into its territory, the Party shall ensure observance of the obligations of Articles 12.2 and 12.3 by such self-regulatory organization.

ARTICLE 12.16: CONSULTATIONS

1. A Party may request consultations with the other Party regarding any matter arising under this Agreement that affects financial services. The other Party shall give sympathetic consideration to the request. The Parties shall report the results of their consultations to the Subcommittee on Financial Services.

2. Consultations under this Article shall include officials of the authorities specified in Annex 12-D.

3. Nothing in this Article shall be construed to require regulatory authorities participating in consultations under paragraph 1 to disclose information or take any action that would interfere with specific regulatory, supervisory, administrative, or enforcement matters.

4. Nothing in this Article shall be construed to require a Party to derogate from its relevant law regarding sharing of information among financial regulators or the requirements of an agreement or arrangement between financial authorities of the Parties.

ARTICLE 12.17: DISPUTE SETTLEMENT

1. Chapter Twenty (Dispute Settlement) applies as modified by this Article to the settlement of disputes arising under this Chapter.
2. When a Party claims that a dispute arises under this Chapter, Article 20.7 (Establishment of Panel) shall apply, except that, unless the Parties agree otherwise, the panel shall be composed entirely of individuals meeting the qualifications in paragraph 3.

3. Financial services panelists shall:

(a) have expertise or experience in financial services law or practice, which may include the regulation of financial institutions;

(b) be chosen strictly on the basis of objectivity, reliability, and sound judgment; and

(c) meet the qualifications set out in Article 20.7.5(b) and (c) (Establishment of Panel).

4. Notwithstanding Article 20.11 (Non-Implementation), where a panel finds a measure to be inconsistent with this Agreement and the measure under dispute affects:

(a) only the financial services sector, the complaining Party may suspend benefits only in the financial services sector;

(b) the financial services sector and any other sector, the complaining Party may suspend benefits in the financial services sector that have an effect equivalent to the effect of the measure in the Party’s financial services sector; or

(c) only a sector other than the financial services sector, the complaining Party may not suspend benefits in the financial services sector.

ARTICLE 12.18: INVESTOR-STATE DISPUTE SETTLEMENT IN FINANCIAL SERVICES

1. Where an investor of a Party submits a claim under Section B of Chapter Ten (Investor-State Dispute Settlement) against the other Party and the respondent invokes Article 12.10 (Exceptions), on request of the respondent, the tribunal shall refer the matter in writing to the Subcommittee on Financial Services for a decision. The tribunal may not proceed pending receipt of a decision or report under this Article.

2. In a referral pursuant to paragraph 1, the Subcommittee on Financial Services shall decide the issue of whether and to what extent Article 12.10 (Exceptions) is a valid defense to the claim of the investor. The Subcommittee shall transmit a copy of its decision to the tribunal and to the Joint Committee. The decision shall be binding on the tribunal.

3. Where the Subcommittee on Financial Services has not decided the issue within 60 days of the receipt of the referral under paragraph 1, the respondent or the Party of the claimant may refer the issue to a panel under Chapter Twenty (Dispute Settlement). **ANNEX 12-B**

**SPECIFIC COMMITMENTS**

**United States – Expedited Availability of Insurance**

Recognizing the principles of federalism under the U.S. Constitution, the history of state regulation of insurance in the United States, and the McCarran-Ferguson Act, the United States welcomes the efforts of the National Association of Insurance Commissioners (“NAIC”) relating to the availability of insurance services as expressed in the NAIC’s “Statement of Intent: The Future of Insurance Regulation,” including the initiatives on speed-to-market intentions and regulatory re-engineering (under Part II of the Statement of Intent).

**Morocco – Expedited Availability of Insurance**

Morocco reaffirms the transparency, rapidity, and efficiency of its procedures regarding introduction and distribution of products issued by insurance companies in its territory.

In particular, Morocco deems any product to be approved unless it is disapproved within 30 days. Morocco imposes no limitations on the number or frequency of product introductions. As part of the work program of the Subcommittee on Financial Services,

Morocco will be open to further discussions of the need for continuing review of products other than those sold to individuals (including life insurance), small- or medium-sized businesses, or compulsory insurance.

**Morocco – Future Consultation and Implementing Actions Regarding Non-Insurance Financial Services**
To follow up on discussions that took place during the negotiation of this Agreement with respect to non-insurance financial services, Morocco and the United States agree as follows:

1. Morocco shall begin consultations, in the context of the Subcommittee on Financial Services, and shall consider liberalizing changes with respect to the following two areas:

   (a) Morocco’s current requirement that operations of banks incorporated abroad and functioning as branches in Morocco be limited by the amount of capital effectively allocated by those institutions to their operations in Morocco (dotation en capital). Morocco and the United States agree that any liberalizing change to this requirement would apply to new bank branches established after the change becomes effective and would not apply in the case of the conversion to a branch by a foreign bank operating through a subsidiary in Morocco, where that subsidiary is systemically important. Among possible approaches to liberalizing this requirement, the following two are noted:

   (i) allowing a foreign branch bank to operate based on the capital of its parent company through a multiplying coefficient of the branch’s paid-in capital in Morocco, and

   (ii) allowing a foreign branch bank to operate based on the capital of its parent company, up to an amount that would be limited to the average of total capital of the banks operating in Morocco, as calculated at the end of the prior year.

   (b) Morocco’s current prohibition on the holding of non-Moroccan securities by Moroccan mutual funds. Morocco and the United States agree that any such change to this prohibition would be implemented at a pace to be determined. Among possible approaches to liberalizing this prohibition, the following two examples are noted:

   (i) Morocco considers that a possible first step would be to permit five percent of the total amount of securities to be invested in non-Moroccan securities; and

   (ii) the United States considers that a possible first step would be to permit 25 percent of the total amount of securities to be invested in non-Moroccan securities.

2. Morocco agrees that it will decide, by no later than three years from the date of entry into force of this Agreement, to take action to implement liberalizing changes with respect to one of the above two areas.

---

4 For example, a bank with assets comprising one percent or less of the total assets of the Moroccan banking sector would not be considered systemically important.
ANNEX 12-C
IMPLEMENTATION OF ARTICLE 12.11

The Parties recognize that Morocco’s implementation of the obligations of paragraphs 2, 3, and 4 of Article 12.11 may require changes to its process for issuing regulations.

Morocco shall implement the obligations of paragraphs 2, 3, and 4 of Article 12.11 no later than two years after the date of entry into force of this Agreement. Morocco shall implement Article 12.11.2 within its constitutional framework.

   (a) safeguard the public service responsibilities of suppliers of public telecommunications transport networks and services, in particular their ability to make their networks or services available to the public generally;

   (b) protect the technical integrity of public telecommunications transport networks or services; or

   (c) ensure that service suppliers of the other Party do not supply services unless permitted pursuant to commitments in this Agreement.

6. Provided that they satisfy the criteria set out in paragraph 5, conditions for access to and use of public telecommunications transport networks and services may include:

   (a) a requirement to use specified technical interfaces, including interface protocols, for interconnection with such networks and services;

   (b) requirements, where necessary, for the inter-operability of such services;

   (c) type approval of terminal or other equipment that interfaces with the network and technical requirements relating to the attachment of such equipment to such networks;

Co-location

6. (a) Subject to subparagraphs (b) and (c), each Party shall ensure that major suppliers in its territory provide to suppliers of public telecommunications services of the other Party physical co-location of equipment necessary for interconnection on terms and conditions, and at cost-oriented rates, that are reasonable, nondiscriminatory, and transparent.

(b) Where physical co-location is not practical for technical reasons or because of space limitations, each Party shall ensure that major suppliers in its territory

9 In the United States, this obligation may be satisfied by requiring filing with a state regulatory authority.
(i) provide an alternative solution or

(ii) facilitate virtual co-location,

on terms and conditions, and at cost-oriented rates, that are reasonable, nondiscriminatory, and transparent.

(c) Each Party may determine through its law or regulations which premises are subject to subparagraphs (a) and (b).

*Access to Rights-of-Way*

7. Each Party shall endeavor to ensure that major suppliers in its territory afford access to their poles, ducts, conduits, and rights-of-way to suppliers of public telecommunications services of the other Party on terms and conditions, and at rates, that are reasonable and nondiscriminatory.

**ARTICLE 13.5: SUBMARINE CABLE SYSTEMS AND SATELLITE SERVICES**

1. Each Party shall ensure that any enterprise that it authorizes to operate a submarine cable system in its territory as a public telecommunications service accords reasonable and non-discriminatory treatment with respect to access to that system (including landing facilities) to suppliers of public telecommunications services of the other Party.

2. Each Party shall ensure that any enterprise that it authorizes to provide satellite services in its territory as a public telecommunications service accords reasonable and non-discriminatory treatment with respect to access to those services by suppliers of public telecommunications services of the other Party.

**ARTICLE 13.6: CONDITIONS FOR THE SUPPLY OF VALUE-ADDED SERVICES**

1. Neither Party may require an enterprise in its territory that it classifies as a supplier of value-added services and that supplies those services over facilities that it does not own to:

   (a) supply those services to the public generally;

   (b) cost-justify its rates for those services;

   (c) file a tariff for those services;

   (d) interconnect its networks with any particular customer for the supply of those services; or

   (e) conform with any particular standard or technical regulation for interconnection other than for interconnection to a public telecommunications network.

2. Notwithstanding paragraph 1, a Party may take the actions described in paragraph 1 to remedy a practice of a supplier of value-added services that the Party has found in a particular
case to be anticompetitive under its law or regulations, or to otherwise promote competition or safeguard the interests of consumers.

**ARTICLE 13.7: INDEPENDENT REGULATORY BODIES AND PRIVATIZATION**

1. Each Party shall ensure that its telecommunications regulatory body is separate from, and not accountable to, any supplier of public telecommunications services. To this end, each Party shall ensure that its telecommunications regulatory body does not hold a financial interest or maintain an operating role in any such supplier.

2. Each Party shall ensure that the decisions and procedures of its telecommunications regulatory body are impartial with respect to all interested persons. To this end, each Party shall ensure that any financial interest that it holds in a supplier of public telecommunications services does not influence the decisions and procedures of its telecommunications regulatory body.

3. Each Party shall maintain the absence of or eliminate as soon as feasible national government ownership in any supplier of public telecommunications services. Where a Party has an ownership interest in a supplier of public telecommunications services and intends to reduce or eliminate its interest, it shall notify the other Party of its intention as soon as possible.

**ARTICLE 13.8: UNIVERSAL SERVICE**

Each Party shall administer any universal service obligation that it maintains in a transparent, non-discriminatory, and competitively neutral manner and shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined.

**ARTICLE 13.9: LICENSING PROCESS**

1. When a Party requires a supplier of public telecommunications services to have a license, the Party shall make publicly available:

   (a) all the licensing criteria and procedures it applies;

   (b) the time it normally requires to reach a decision concerning an application for a license; and

   (c) the terms and conditions of all licenses it has issued.

2. Each Party shall ensure that, on request, an applicant receives the reasons for its denial of a license.

**ARTICLE 13.10: ALLOCATION AND USE OF SCARCE RESOURCES**

1. Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers, and rights-of-way, in an objective, timely, transparent, and non-discriminatory manner.

2. Each Party shall make publicly available the current state of allocated frequency bands but shall not be required to provide detailed identification of frequencies allocated for specific government uses.
3. Decisions on allocating and assigning spectrum and frequency management are not measures that are per se inconsistent with Article 11.4 (Market Access), which is applied to Chapter Ten (Investment) through Article 11.1.3 (Scope and Coverage). Accordingly, each Party retains the right to exercise its spectrum and frequency management policies, which may affect the number of suppliers of public telecommunications services, provided that this is done in a manner that is consistent with the provisions of this Agreement. The Parties also retain the right to allocate frequency bands taking into account existing and future needs and spectrum availability.

ARTICLE 13.11: ENFORCEMENT

Each Party shall provide its competent authority with the authority to enforce the Party’s measures relating to the obligations set out in Articles 13.2 through 13.5. Such authority shall include the ability to impose effective sanctions, which may include financial penalties, injunctive relief (on an interim or final basis), or the modification, suspension, and revocation of licenses.

ARTICLE 13.12: RESOLUTION OF TELECOMMUNICATIONS DISPUTES

Further to Articles 18.3 (Administrative Proceedings) and 18.4 (Review and Appeal), each Party shall ensure the following:

Recourse to Telecommunications Regulatory Bodies

(a) (i) Enterprises of the other Party may seek review by a telecommunications regulatory body or other relevant body of the Party to resolve disputes regarding the Party’s measures relating to a matter set out in Articles 13.2 through 13.5.

(ii) Suppliers of public telecommunications services of the other Party that have requested interconnection with a major supplier in the Party’s territory may seek review, within a reasonable and publicly specified period after the supplier requests interconnection, by its telecommunications regulatory body to resolve disputes regarding the terms, conditions, and rates for interconnection with such major supplier.

Reconsideration

(b) Any enterprise that is aggrieved or whose interests are adversely affected by a determination or decision of its telecommunications regulatory body may petition the body to reconsider that determination or decision. Neither Party may permit such a petition to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body unless an appropriate authority stays the determination or decision.

10 The United States may comply with this obligation by providing for review by a state regulatory authority.
Judicial Review

(c) Any enterprise that is aggrieved or whose interests are adversely affected by a determination or decision of its telecommunications regulatory body may obtain judicial review of the determination or decision by an impartial and independent judicial authority.

ARTICLE 13.13: TRANSPARENCY

Further to Article 18.1 (Publication), each Party shall ensure that:

(a) rulemakings, including the basis for such rules, of its telecommunications regulatory body and end-user tariffs filed with its telecommunications regulatory body are promptly published or otherwise made available to all interested persons;

(b) interested persons are provided with adequate advance public notice of and the opportunity to comment on any rulemaking that its telecommunications regulatory body proposes; and

(c) its measures relating to public telecommunications services are made publicly available, including measures relating to:

(i) tariffs and other terms and conditions of service;

(ii) procedures relating to judicial and other adjudicatory proceedings;

(iii) specifications of technical interfaces;

(iv) conditions for attaching terminal or other equipment to the public telecommunications network; and

(v) notification, permit, registration, or licensing requirements, if any.

ARTICLE 13.14: FLEXIBILITY IN THE CHOICE OF TECHNOLOGIES

Neither Party may prevent suppliers of public telecommunications services from choosing the technologies that they use to supply their services, including commercial mobile wireless services, except that a Party shall be free to establish and apply spectrum and frequency management policies and other measures necessary to satisfy legitimate public policy interests, such as a requirement to comply with technical specifications and national frequency tables.

ARTICLE 13.15: FORBEARANCE

The Parties recognize the importance of relying on market forces to provide wide choices in the supply of telecommunications services. To this end, each Party may forbear from applying a regulation to a service that the Party classifies as a public telecommunications service, if its telecommunications regulatory body determines that:

(a) enforcement of the regulation is not necessary to prevent unreasonable or discriminatory practices;
(b) enforcement of the regulation is not necessary for the protection of consumers; and

(c) forbearance is consistent with the public interest, including promoting and enhancing competition between suppliers of public telecommunications services.

ARTICLE 13.16: RELATIONSHIP TO OTHER CHAPTERS

In the event of any inconsistency between this Chapter and another Chapter, this Chapter shall prevail to the extent of the inconsistency.

ARTICLE 13.17: DEFINITIONS

Public telecommunications services in the territory of the United States do not include value-added services;

reference interconnection offer means an interconnection offer extended by a major supplier and filed with or approved by a telecommunications regulatory body\textsuperscript{11} that is sufficiently detailed to enable a supplier of public telecommunications services that is willing to accept its rates, terms, and conditions to obtain interconnection without having to engage in negotiations with the major supplier;

In addition, a state regulatory authority may exempt a rural local exchange carrier, as defined in section 251(f)(2) of the Communications Act of 1934, as amended, from the obligations contained in Article 13.4.

2. For purposes of this Chapter, Article 13.4 does not apply to the United States with respect to suppliers of commercial mobile services.

CHAPTER 15
INTELLECTUAL PROPERTY RIGHTS

ARTICLE 15.1: GENERAL PROVISIONS

International Agreements and Recommendations

2. Each Party shall ratify or accede to the following agreements:

(a) the Patent Cooperation Treaty (1970), as amended in 1979;

(b) the Convention Relating to the Distribution of Programme-Carrying Signals Transmitted by Satellite (1974);

(c) the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks (1989);

13 Suppliers of value-added services in the territory of Morocco are subject to Morocco’s declaration regime.

(e) the International Convention for the Protection of New Varieties of Plants (1991) (UPOV Convention);

(f) the Trademark Law Treaty (1994);

(g) the WIPO Copyright Treaty (1996); and

(h) the WIPO Performances and Phonograms Treaty (1996).

3. Each Party shall make all reasonable efforts to ratify or accede to the following agreements:

   (a) the Patent Law Treaty (2000); and

   (b) the Hague Agreement Concerning the International Registration of Industrial Designs (1999).

More Extensive Protection and Enforcement

4. A Party may provide more extensive protection for, and enforcement of, intellectual property rights under its law than this Chapter requires, provided that the additional protection and enforcement is not inconsistent with this Chapter.

National Treatment

5. In respect of all categories of intellectual property covered in this Chapter, each Party shall accord to nationals\(^1\) of the other Party treatment no less favourable than that it accords to its own nationals with regard to the protection\(^2\) and enjoyment of such intellectual property rights and any benefits derived from such rights.

6. A Party may derogate from paragraph 5 in relation to its judicial and administrative procedures, including requiring a national of another Party to designate an address for service of process in its territory, or to appoint an agent in its territory, provided that such derogation:

   (a) is necessary to secure compliance with laws and regulations that are not inconsistent with this Chapter; and

   (b) is not applied in a manner that would constitute a disguised restriction on trade.

---

\(^1\) For purposes of Articles 15.1.5, 15.1.6, 15.3.1, and 15.7.1, a “national of a Party” shall also mean, in respect of the relevant right, entities of that Party that would meet the criteria for eligibility for protection provided for in the agreements listed in Article 15.1.2 and the TRIPS Agreement.

\(^2\) For purposes of this paragraph, “protection” includes matters affecting the availability, acquisition, scope, maintenance, and enforcement of intellectual property rights, as well as matters affecting the use of intellectual property rights specifically covered by this Chapter. Further, for purposes of this paragraph, “protection” also includes the prohibition on circumvention of effective technological measures set out in Article 15.5.8 and the rights and obligations concerning rights management information set out in Article 15.5.9.
7. Paragraph 5 does not apply to procedures provided in multilateral agreements concluded under the auspices of the World Intellectual Property Organization (WIPO) in relation to the acquisition or maintenance of intellectual property rights.

**Application of Agreement to Existing Subject Matter and Prior Acts**

8. Except as it provides otherwise, including in Article 15.5.6, this Chapter gives rise to obligations in respect of all subject matter existing at the date of entry into force of this Agreement, that is protected on that date in the territory of the Party where protection is claimed, or that meets or comes subsequently to meet the criteria for protection under this Chapter.

9. Except as otherwise provided in this Chapter, including Article 15.5.6, a Party shall not be required to restore protection to subject matter that on the date of entry into force of this Agreement has fallen into the public domain in its territory.

10. This Chapter does not give rise to obligations in respect of acts that occurred before the date of entry into force of this Agreement.

**Transparency**

11. Further to Article 18.1 (Publication), and with the object of making the protection and enforcement of intellectual property rights as transparent as possible, each Party shall ensure that all laws, regulations, and procedures concerning the protection or enforcement of intellectual property rights shall be in writing and shall be published, or where publication is not practicable made publicly available, in a national language in such a manner as to enable governments and right holders to become acquainted with them. Nothing in this paragraph shall require a Party to disclose confidential information which would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interests of particular enterprises, public or private.

**ARTICLE 15.2: TRADEMARKS**

1. Neither Party may require, as a condition of registration, that signs be visually perceptible, nor may a Party deny registration of a trademark solely on the ground that the sign of which it is composed is a sound or a scent.

2. Each Party shall provide that trademarks shall include certification marks.

3. Each Party shall ensure that its measures mandating the use of the term customary in common language as the common name for a good or service (“common name”), including, inter alia, requirements concerning the relative size, placement, or style of use of the trademark in relation to the common name, do not impair the use or effectiveness of trademarks used in relation to such good or service.

4. Each Party shall provide that the owner of a registered trademark shall have the exclusive right to prevent all third parties not having the owner’s consent from using in the course of trade identical or similar signs, including geographical indications, for goods or services that are related to those goods or services in respect of which the owner’s trademark is registered, where

3 For greater certainty, a Party may satisfy the requirement to publish a law, regulation, or procedure by making it available to the public on the Internet.
such use would result in a likelihood of confusion. In case of the use of an identical sign, including a geographical indication, for identical goods or services, a likelihood of confusion shall be presumed.

5. Each Party may provide limited exceptions to the rights conferred by a trademark, including a geographical indication, such as fair use of descriptive terms, provided that such exceptions take account of the legitimate interest of the owner of the trademark and of third parties.

6. Article 6bis of the Paris Convention for the Protection of Industrial Property (1967) shall apply, mutatis mutandis, to goods or services that are not identical or similar to those identified by a well-known trademark, whether registered or not, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the trademark and provided that the interests of the owner of the trademark are likely to be damaged by such use.

7. Each Party shall provide a system for the registration of trademarks, which shall include:

(a) providing to the applicant a communication in writing, which may be provided electronically, of the reasons for a refusal to register a trademark;

(b) an opportunity for the applicant to respond to communications from the trademark authorities, to contest an initial refusal, and to appeal judicially a final refusal to register;

(c) an opportunity for interested parties to oppose a trademark application or to seek cancellation of a trademark after it has been registered; and

(d) a requirement that decisions in opposition or cancellation proceedings be reasoned and in writing.

8. Each Party shall provide:

(a) an electronic means for applying for, processing, registering, and maintaining trademarks, and

(b) a publicly available electronic database, including an online database, of trademark applications and registrations.

9. Each Party shall provide that:

(a) each registration, or publication that concerns a trademark application or registration, that indicates goods or services shall indicate the goods or services by their names, grouped according to the classes of the classification established by the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks (1979), as revised and amended (“Nice Classification”).

4 In determining whether a trademark is well known, the reputation of the trademark need not extend beyond the sector of the public that normally deals with the relevant goods or services.
(b) goods or services may not be considered as being similar to each other solely on the ground that, in any registration or publication, they appear in the same class of the Nice Classification.

Conversely, each Party shall provide that goods or services may not be considered as being dissimilar from each other solely on the ground that, in any registration or publication, they appear in different classes of the Nice Classification.

10. Each Party shall provide that initial registration and each renewal of registration of a trademark shall be for a term of no less than ten years.

11. Neither Party may require recordation of trademark licenses to establish the validity of the license, to assert any rights in a trademark, or for other purposes.

ARTICLE 15.3: GEOGRAPHICAL INDICATIONS

Procedures with Respect to Geographical Indications

1. If a Party provides the means to apply for protection or petition for recognition of geographical indications, it shall:

   (a) accept those applications and petitions without requiring intercession by a Party on behalf of its nationals;

   (b) process those applications or petitions, as relevant, with a minimum of formalities.

   (c) ensure that its regulations governing filing of those applications or petitions, as relevant, are readily available to the public and set out clearly the procedures for these actions;

   (d) make available contact information sufficient to allow the general public to obtain guidance concerning the procedures for filing applications or petitions and the processing of those applications or petitions in general; and to allow applicants, petitioners, or their representatives to ascertain the status of, and to obtain procedural guidance concerning, specific applications and petitions; and

   (e) ensure that applications or petitions, as relevant, for geographical indications are published for opposition, and provide procedures for opposing geographical indications that are the subject of applications or petitions. Each Party shall also provide procedures to cancel a registration resulting from an application or a petition.

Relationship to Trademarks

2. Each Party shall provide that each of the following shall be a ground for refusing protection or recognition of a geographical indication:

   (a) the geographical indication is likely to be confusingly similar to a trademark that is the subject of a good-faith pending application or registration; and
(b) the geographical indication is confusingly similar to a pre-existing trademark, the rights to which have been acquired in the territory of the Party through use in good faith.

Definition

3. For purposes of this Chapter, geographical indications means indications that identify a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good is essentially attributable to its geographical origin. Any sign or combination of signs (such as words, including geographical and personal names, as well as letters, numerals, figurative elements, and colors, including single colors), in any form whatsoever, shall be eligible to be a geographical indication.

ARTICLE 15.4: DOMAIN NAMES ON THE INTERNET

1. In order to address the problem of trademark cyber-piracy, each Party shall require that the management of its country-code top-level domain (“ccTLD”) provide an appropriate procedure for the settlement of disputes, based on the principles established in the Uniform Domain-Name Dispute-Resolution Policy.

2. Each Party shall require that the management of its ccTLD provide online public access to a reliable and accurate database of contact information for domainname registrants.

ARTICLE 15.5: COPYRIGHT AND RELATED RIGHTS

1. Each Party shall provide that authors, performers, and producers of phonograms have the right to authorize or prohibit all reproductions of their works, performances, and phonograms, in any manner or form, permanent or temporary (including temporary storage in electronic form).

2. Each Party shall provide to authors, performers, and producers of phonograms the right to authorize or prohibit the importation into that Party’s territory of copies of the work, performance, or phonogram that are made without authorization, or made outside that Party’s territory with the authorization of the author, performer, or producer of the phonogram.

3. Each Party shall provide to authors, performers, and producers of phonograms the right to authorize the making available to the public of the original and copies of their works, performances, and phonograms through sale or other transfer of ownership.

4. In order to ensure that no hierarchy is established between rights of authors, on the one hand, and rights of performers and producers of phonograms, on the other hand, each Party shall provide that in cases where authorization is needed from both the author of a work embodied in a phonogram and a performer or producer owning rights in the phonogram, the need for the

---

5 For greater certainty, the term “originating”, as used in this Chapter, does not have the meaning ascribed to the term originating good in Article 1.3 (Definitions).

6 “Authors, performers, and producers of phonograms” includes any successors in interest.

7 With respect to copyrights and related rights in this Chapter, the “right to authorize or prohibit” and the “right to authorize” refer to exclusive rights.

8 With respect to copyrights and related rights in this Chapter, a “performance” means a performance fixed in a phonogram unless otherwise specified.
authorization of the author does not cease to exist because the authorization of the performer or producer is also required. Likewise, each Party shall establish that in cases where authorization is needed from both the author of a work embodied in a phonogram and a performer or producer owning rights in the phonogram, the need for the authorization of the performer or producer does not cease to exist because the authorization of the author is also required.

5. Each Party shall provide that, where the term of protection of a work (including a photographic work), performance, or phonogram is to be calculated:

(a) on the basis of the life of a natural person, the term shall be not less than the life of the author and 70 years after the author’s death; and

(b) on a basis other than the life of a natural person, the term shall be (i) not less than 70 years from the end of the calendar year of the first authorized publication of the work, performance, or phonogram, or (ii) failing such authorized publication within 50 years from the creation of the work, performance, or phonogram, not less than 70 years from the end of the calendar year of the creation of the work, performance, or phonogram.

6. Each Party shall apply Article 18 of the Berne Convention for the Protection of Literary and Artistic Works (1971) (Berne Convention) and Article 14.6 of the TRIPS Agreement, mutatis mutandis, to the subject matter, rights, and obligations in this Article and Articles 15.6 and 15.7.

7. Each Party shall provide that for copyright and related rights, any person acquiring or holding any economic right in a work, performance, or phonogram:

(a) may freely and separately transfer that right by contract; and

(b) by virtue of a contract, including contracts of employment underlying the creation of works, performances, and phonograms, shall be able to exercise that right in that person’s own name and enjoy fully the benefits derived from that right.

8. (a) In order to provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that authors, performers, and producers of phonograms use in connection with the exercise of their rights and that restrict unauthorized acts in respect of their works, performances, and phonograms, each Party shall provide that any person who:

(i) circumvents without authority any effective technological measure that controls access to a protected work, performance, phonogram, or other subject matter; or

(ii) manufactures, imports, distributes, offers to the public, provides, or otherwise trafficks in devices, products, or components, or offers to the public or provides services, that:

(A) are promoted, advertised, or marketed for the purpose of circumvention of any effective technological measure,
(B) have only a limited commercially significant purpose or use other than to circumvent any effective technological measure, or

(C) are primarily designed, produced, or performed for the purpose of enabling or facilitating the circumvention of any effective technological measure, shall be liable and subject to the remedies set out in Article 15.11.14. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public non-commercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in any of the foregoing activities.

(b) In implementing subparagraph (a), neither Party shall be obligated to require that the design of, or the design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure, so long as the product does not otherwise violate any measures implementing subparagraph (a).

(c) Each Party shall provide that a violation of a measure implementing this paragraph is a separate civil or criminal offense, independent of any infringement that might occur under the Party’s law on copyright and related rights.

(d) Each Party shall confine exceptions and limitations to any measures implementing subparagraph (a) to the following activities, which shall be applied to relevant measures in accordance with subparagraph (e):

(i) noninfringing reverse engineering activities with regard to a lawfully obtained copy of a computer program, carried out in good faith with respect to particular elements of that computer program that have not been readily available to the person engaged in those activities, for the sole purpose of achieving interoperability of an independently created computer program with other programs;

(ii) noninfringing good faith activities, carried out by an appropriately qualified researcher who has lawfully obtained a copy, unfixed performance, or display of a work, performance, or phonogram and who has made a good faith effort to obtain authorization for such activities, to the extent necessary for the sole purpose of research consisting of identifying and analyzing flaws and vulnerabilities of technologies for scrambling and descrambling of information;

(iii) the inclusion of a component or part for the sole purpose of preventing the access of minors to inappropriate online content in a technology, product, service, or device that itself is not prohibited under the measures implementing subparagraph (a)(ii);

(iv) noninfringing good faith activities that are authorized by the owner of a computer, computer system, or computer network for the sole purpose of
testing, investigating, or correcting the security of that computer, computer
system, or computer network;

(v) noninfringing activities for the sole purpose of identifying and disabling a
capability to carry out undisclosed collection or dissemination of
personally identifying information reflecting the online activities of a
natural person in a way that has no other effect on the ability of any person
to gain access to any work;

(vi) lawfully authorized activities carried out by government employees,
agents, or contractors for the purpose of law enforcement, intelligence,
esential security, or similar governmental purposes; and

(vii) access by a nonprofit library, archive, or educational institution to a work
not otherwise available to it, for the sole purpose of making acquisition
decisions; and

(viii) noninfringing uses of a work, performance, or phonogram in a particular
class of works, performances, or phonograms when an actual or likely
adverse impact on those noninfringing uses is demonstrated in a legislative
or administrative proceeding by substantial evidence; provided that any
limitation or exception adopted in reliance upon this clause shall have
effect for a period of not more than three years from the date of conclusion
of such proceeding.

(e) The exceptions and limitations to any measures implementing subparagraph (a)
for the activities set forth in subparagraph (d) may only be applied as follows,
provided that they do not impair the adequacy of legal protection or the
effectiveness of legal remedies against the circumvention of effective
technological measures:

(i) Measures implementing subparagraph (a)(i) may be subject to exceptions
and limitations with respect to each activity set forth in subparagraph (d).

(ii) Measures implementing subparagraph (a)(ii), as they apply to effective
technological measures that control access to a work, performance, or
phonogram, may be subject to exceptions and limitations with respect to
activities set forth in subparagraph (d)(i), (ii), (iii), (iv), and (vi).

(iii) Measures implementing subparagraph (a)(ii), as they apply to effective
technological measures that protect any copyright or any rights related to
copyright, may be subject to exceptions and limitations with respect to
activities set forth in subparagraph (d)(i) and (vi).

(f) For purposes of this paragraph, effective technological measure means any
technology, device, or component that, in the normal course of its operation,
controls access to a protected work, performance, phonogram, or other protected
subject matter, or protects any copyright or any rights related to copyright.
9. In order to provide adequate and effective legal remedies to protect rights management information:

(a) each Party shall provide that any person who without authority, and knowing, or, with respect to civil remedies, having reasonable grounds to know, that it would induce, enable, facilitate, or conceal an infringement of any copyright or related right,

(i) knowingly removes or alters any rights management information;

(ii) distributes or imports for distribution rights management information knowing that the rights management information has been removed or altered without authority; or

(iii) distributes, imports for distribution, broadcasts, communicates, or makes available to the public copies of works, performances, or phonograms, knowing that rights management information has been removed or altered without authority, shall be liable and subject to the remedies set out in Article 15.11.14. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public noncommercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in any of the foregoing activities.

(b) Each Party shall confine exceptions and limitations to measures implementing subparagraph (a) to lawfully authorized activities carried out by government employees, agents, or contractors for the purpose of law enforcement, intelligence, essential security, or similar government purposes.

(c) For purposes of this paragraph, rights management information means:

(i) information that identifies a work, performance, or phonogram; the author of the work, the performer of the performance, or the producer of the phonogram; or the owner of any right in the work, performance, or phonogram;

(ii) information about the terms and conditions of the use of the work, performance, or phonogram; or

(iii) any numbers or codes that represent such information, when any of these items is attached to a copy of the work, performance, or phonogram or appears in connection with the communication or making available of a work, performance, or phonogram to the public.

(d) For greater certainty, nothing in this paragraph obligates a Party to require the owner of any right in the work, performance, or phonogram to attach rights management information to copies of the work, performance, or phonogram, or to cause rights management information to appear in connection with a communication of the work, performance, or phonogram to the public.
10. Each Party shall issue appropriate laws, orders, regulations, or administrative or executive decrees mandating that its agencies use computer software only as authorized by the right holder. These measures shall actively regulate the acquisition and management of software for government use.

11. (a) With respect to this Article and Articles 15.6, and 15.7, each Party shall confine limitations or exceptions to exclusive rights to certain special cases that do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.

(b) Notwithstanding subparagraph (a) and Article 15.7.3(b), neither Party may permit the retransmission of television signals (whether terrestrial, cable, or satellite) on the Internet without the authorization of the right holder or right holders of the content of the signal, if any, and of the signal.

**ARTICLE 15.6: COPYRIGHT**

Without prejudice to Articles 11(1)(ii), 11bis(1)(i) and (ii), 11ter(1)(ii), 14(1)(ii), and 14bis(1) of the Berne Convention, each Party shall provide to authors the exclusive right to authorize or prohibit the communication to the public of their works, by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.

**ARTICLE 15.7: RELATED RIGHTS**

1. Each Party shall accord the rights provided for in this Chapter with respect to performers and producers of phonograms to the performers and producers of phonograms who are nationals of the other Party and to performances or phonograms first published or fixed in the territory of the other Party. A performance or phonogram shall be considered first published in the territory of a Party in which it is published within 30 days of its original publication.

2. Each Party shall provide to performers the right to authorize or prohibit:

(a) the broadcasting and communication to the public of their unfixed performances, except where the performance is already a broadcast performance, and

(b) the fixation of their unfixed performances.

3. (a) Each Party shall provide to performers and producers of phonograms the right to authorize or prohibit the broadcasting or any communication to the public of their performances or phonograms, by wire or wireless means, including the making available to the public of those performances and phonograms in such a way that members of the public may access them from a place and at a time individually chosen by them.

(b) Notwithstanding subparagraph (a) and Article 15.5.11, the application of this right to traditional free over-the-air (i.e., noninteractive) broadcasting, and exceptions or limitations to this right for such activity, shall be a matter of each Party’s law.

---

9 For purposes of this Article, “fixation” includes the finalization of the master tape or its equivalent.
(c) Each Party may adopt limitations to this right in respect of other noninteractive transmissions in accordance with Article 15.5.11, provided that the limitations do not prejudice the right of the performer or producer of phonograms to obtain equitable remuneration.

4. Neither Party may subject the enjoyment and exercise of the rights of performers and producers of phonograms provided for in this Chapter to any formality.

5. For purposes of this Article and Article 15.5, the following definitions apply with respect to performers and producers of phonograms:

(a) broadcasting means the transmission to the public by wireless means or satellite of sounds or sounds and images, or representations thereof, including wireless transmission of encrypted signals where the means for decrypting are provided to the public by the broadcasting organization or with its consent; “broadcasting” does not include transmissions over computer networks or any transmissions where the time and place of reception may be individually chosen by members of the public;

(b) communication to the public of a performance or a phonogram means the transmission to the public by any medium, other than by broadcasting, of sounds of a performance or the sounds or the representations of sounds fixed in a phonogram. For purposes of paragraph 3, “communication to the public” includes making the sounds or representations of sounds fixed in a phonogram audible to the public;

(c) fixation means the embodiment of sounds, or of the representations thereof, from which they can be perceived, reproduced, or communicated through a device;

(d) performers means actors, singers, musicians, dancers, and other persons who act, sing, deliver, declaim, play in, interpret, or otherwise perform literary or artistic works or expressions of folklore;

(e) phonogram means the fixation of the sounds of a performance or of other sounds, or of a representation of sounds, other than in the form of a fixation incorporated in a cinematographic or other audiovisual work;

(f) producer of a phonogram means the person who, or the legal entity which, takes the initiative and has the responsibility for the first fixation of the sounds of a performance or other sounds, or the representations of sounds; and

(g) publication of a performance or a phonogram means the offering of copies of the performance or the phonogram to the public, with the consent of the right holder, and provided that copies are offered to the public in reasonable quantity.

ARTICLE 15.8: PROTECTION OF ENCRYPTED PROGRAM-CARRYING SATELLITE SIGNALS

1. Each Party shall make it a criminal offense:
(a) to manufacture, assemble, modify, import, export, sell, lease, or otherwise distribute a tangible or intangible device or system, knowing or having reason to know that the device or system is primarily of assistance in decoding an encrypted program-carrying satellite signal without the authorization of the lawful distributor of such signal; and

(b) willfully to receive or further distribute a program-carrying signal that originated as an encrypted satellite signal knowing that it has been decoded without the authorization of the lawful distributor of the signal.

2. Each Party shall provide for civil remedies, including compensatory damages, for any person injured by any activity described in paragraph 1, including any person that holds an interest in the encrypted programming signal or its content.

ARTICLE 15.9: PATENTS

1. Each Party may only exclude from patentability inventions, the prevention within its territory of the commercial exploitation of which is necessary to protect ordre public or morality, including to protect human, animal, or plant life or health or to avoid serious prejudice to the environment, provided that such exclusion is not made merely because the exploitation is prohibited by law.

2. Each Party shall make patents available for the following inventions:

(a) plants, and

(b) animals.

In addition, the Parties confirm that patents shall be available for any new uses or methods of using a known product, including new uses of a known product for the treatment of humans and animals.

3. Each Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

4. Each Party shall provide that the exclusive right of the patent owner to prevent importation of a patented product, or a product that results from patented process, without the consent of the patent owner shall not be limited by the sale or distribution of that product outside its territory.

5. Each Party shall provide that a patent may be revoked only on grounds that would have justified a refusal to grant the patent. A Party may also provide that fraud, misrepresentation, or inequitable conduct may be the basis for revoking a patent or holding a patent unenforceable. Where a Party provides proceedings that permit a third party to oppose the grant of a patent, a Party shall not make such proceedings available before the grant of the patent.

10 A Party may limit application of this paragraph to cases where the patent owner has placed restrictions on importation by contract or other means.
6. Consistent with paragraph 3, if a Party permits a third person to use the subject matter of a subsisting patent to generate information necessary to support an application for marketing approval of a pharmaceutical product, that Party shall provide that any product produced under such authority shall not be made, used, or sold in its territory other than for purposes related to generating information to meet requirements for approval to market the product, and if the Party permits exportation, the Party shall provide that the product shall only be exported outside its territory for purposes of meeting marketing approval requirements of that Party.

7. Each Party, at the request of the patent owner, shall adjust the term of a patent to compensate for unreasonable delays that occur in granting the patent. For purposes of this paragraph, an unreasonable delay shall at least include a delay in the issuance of the patent of more than four years from the date of filing of the application in the territory of the Party, or two years after a request for examination of the application, whichever is later. Periods attributable to actions of the patent applicant need not be included in the determination of such delays.

8. Each Party shall disregard information contained in public disclosures used to determine if an invention is novel or has an inventive step if the public disclosure:
   (a) was made or authorized by, or derived from, the patent applicant, and
   (b) occurred within 12 months prior to the date of filing of the application in the territory of the Party.

9. Each Party shall provide patent applicants with at least one opportunity to make amendments, corrections, and observations in connection with their applications.

10. Each Party shall provide that a disclosure of a claimed invention shall be considered to be sufficiently clear and complete if it provides information that allows the invention to be made and used by a person skilled in the art, without undue experimentation, as of the filing date.

11. Each Party shall provide that a claimed invention:
   (a) is sufficiently supported by its disclosure if the disclosure reasonably conveys to a person skilled in the art that the applicant was in possession of the claimed invention, as of the filing date, and
   (b) is industrially applicable if it has a specific, substantial, and credible utility.

**ARTICLE 15.10: MEASURES RELATED TO CERTAIN REGULATED PRODUCTS**

1. If a Party requires, as a condition of approving the marketing of a new pharmaceutical or agricultural chemical product, the submission of:
   (a) safety and efficacy data, or
   (b) evidence of prior approval of the product in another territory that requires such information,

---

11 For purposes of this Article, “inventive step” shall be treated as synonymous with the term “non-obvious.”
the Party shall not permit third persons not having the consent of the person providing the information to market a product on the basis of the approval granted to the person submitting that information for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date of approval in the Party’s territory. For purposes of this paragraph, a new product is one that contains a new chemical entity that has not been previously approved in the Party’s territory.12

2. If a Party requires the submission of

(a) new clinical information that is essential to the approval of a pharmaceutical product (other than information related to bioequivalency), or

(b) evidence of prior approval of the product in another territory that requires such new information,

the Party shall not permit third persons not having the consent of the person providing the information to market a pharmaceutical product on the basis of such new information or the approval granted to the person submitting such information for at least three years from the date of approval in the Party. A Party may limit such protection to new clinical information the origination of which involves considerable effort.13

3. With respect to patents covering pharmaceutical products, each Party shall make available an extension of the patent term to compensate the patent owner for unreasonable curtailment of the effective patent term as a result of the marketing approval process.

4. With respect to any pharmaceutical product that is subject to a patent, and where a Party permits authorizations to be granted or applications to be made to market a pharmaceutical product based on information previously submitted concerning the safety and efficacy of a product, including evidence of prior marketing approval by persons other than the person that previously submitted such information, that Party:

(a) shall implement measures in its marketing approval process to prevent such other persons from marketing a product covered by a patent during the term of that patent, unless by consent or with the acquiescence of the patent owner,14 and

(b) if it allows applications15 to be made to market a product during the term of a patent covering that product, shall provide that the patent owner shall be notified

---

12 As of the date of signature of this Agreement, neither Party permits third persons not having the consent of the person providing such information to market a product on the basis of such information submitted in another territory or evidence of prior approval of the product in another territory. In addition, when a product is subject to a system of marketing approval pursuant to this paragraph and is also subject to a patent in the territory of a Party, that Party may not alter the term of protection that it provides in accordance with this paragraph in the event that the patent protection terminates before the end of the term of protection specified in Article 10.1.

13 As of the date of signature of this Agreement, neither Party permits third persons not having the consent of the person providing such new information to market a product on the basis of such information submitted in another territory or evidence of prior approval of the product in another territory. In addition, when a product is subject to a system of marketing approval pursuant to this paragraph and is also subject to a patent in the territory of a Party, that Party may not alter the term of protection that it provides in accordance with this paragraph in the event that the patent protection terminates before the end of the term of protection specified in Article 10.2.

14 Each Party may limit such measures to patents claiming the product and patents covering approved indications.
of the identity of any such other person who requests marketing approval to enter
the market during the term of a patent notified to or identified by the approving
authority as covering that product.

ARTICLE 15.11: ENFORCEMENT OF INTELLECTUAL PROPERTY RIGHTS

General Obligations

1. Further to Article 18.1 (Publication), each Party shall provide that final judicial decisions
and administrative rulings of general application pertaining to the enforcement of intellectual
property rights shall be in writing and shall state any relevant findings of fact and the reasoning
or the legal basis on which the decisions or rulings are based. Each Party shall provide that such
decisions or rulings shall be published\textsuperscript{16} or, where publication is not practicable, otherwise made
available to the public in a national language in such a manner as to enable governments and
right holders to become acquainted with them.

2. Each Party shall publicize information on its efforts to provide effective enforcement of
intellectual property rights in its civil, administrative, and criminal system, including any
statistical information that the Party may collect for such purpose. Nothing in this paragraph
shall require a Party to disclose confidential information that would impede law enforcement or
otherwise be contrary to the public interest or would prejudice the legitimate commercial
interests of particular enterprises, public or private.

3. The Parties understand that a decision that a Party makes on the distribution of
enforcement resources shall not excuse that Party from complying with this Chapter.

4. In civil, administrative, and criminal proceedings involving copyright or related rights,
each Party shall provide for a presumption that, in the absence of proof to the contrary, the
person whose name is indicated as the author, producer, performer, or publisher of the work,
performance, or phonogram in the usual manner is the designated right holder in such work,
performance, or phonogram.

Each Party shall also provide for a presumption that, in the absence of proof to the contrary, the
copyright or related right subsists in such subject matter.

Civil and Administrative Procedures and Remedies

5. Each Party shall make available to right holders\textsuperscript{17} civil judicial procedures concerning the
enforcement of any intellectual property right.

6. Each Party shall provide that:

\textsuperscript{15} The Parties understand that as of the date of signature of this Agreement Morocco does not allow such
applications to be made, except in cases that are consistent with Article 15.9.6, which is commonly referred to as the
“Bolar provision.”

\textsuperscript{16} For greater certainty, a Party may satisfy the requirement for publication by making the decision or ruling
available to the public on the Internet.

\textsuperscript{17} For purposes of this Article, “right holder” includes exclusive licensees as well as federations and associations
having the legal standing and authority to assert such rights. “Exclusive licensee” includes the exclusive licensee of
any one or more of the exclusive intellectual property rights encompassed in a given intellectual property.
in civil judicial proceedings, its judicial authorities shall have the authority to order the infringer to pay the right holder:

(i) damages adequate to compensate for the injury the right holder has suffered as a result of the infringement and,

(ii) at least in the case of copyright or related rights infringement and trademark counterfeiting, the profits of the infringer that are attributable to the infringement and that are not taken into account in computing the amount of the damages referred to in clause (i); and

(b) in determining damages for infringement of intellectual property rights, its judicial authorities shall consider, inter alia, the value of the infringed-on good or service, measured by the suggested retail price or other legitimate measure of value submitted by the right holder.

7. In civil judicial proceedings, each Party shall, at least with respect to works, phonograms, and performances protected by copyright or related rights, and in cases of trademark counterfeiting, establish or maintain pre-established damages, which shall be available on the election of the right holder. Pre-established damages shall be in an amount sufficient to constitute a deterrent to future infringements and to compensate fully the right holder for the harm caused by the infringement. In civil judicial proceedings concerning patent infringement, each Party shall provide that its judicial authorities, except in exceptional circumstances, shall have the authority to increase damages to an amount that is up to three times the amount of the injury found or assessed.

8. Each Party shall provide that its judicial authorities, except in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, that the prevailing party shall be awarded payment of court costs or fees and reasonable attorney’s fees by the losing party. Further, each Party shall provide that its judicial authorities, at least in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning patent infringement, that the prevailing party shall be awarded payment of reasonable attorney’s fees by the losing party.

9. In civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, each Party shall provide that its judicial authorities shall have the authority to order the seizure of suspected infringing goods, any related materials and implements, and, at least for trademark counterfeiting, documentary evidence relevant to the infringement.

10. Each Party shall provide that:

(a) in civil judicial proceedings, at the right holder’s request, goods that have been found to be pirated or counterfeit shall be destroyed, except in exceptional circumstances;

18 Neither Party shall be required to apply this paragraph to actions for (a) infringement by a Party, or (b) infringement authorized by a Party.
(b) its judicial authorities shall have the authority to order that materials and implements that have been used in the manufacture or creation of the pirated or counterfeit goods be, without compensation of any sort, promptly destroyed or, in exceptional circumstances, without compensation of any sort, disposed of outside the channels of commerce in such a manner as to minimize the risks of further infringements; and

(c) in regard to counterfeit trademarked goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of goods into the channels of commerce.

11. Each Party shall provide that in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities shall have the authority to order the infringer to provide any information that the infringer possesses regarding any person involved in any aspect of the infringement and regarding the means of production or distribution channel of such goods, including the identification of third persons involved in the production and distribution of the infringing goods or services or in their channels of distribution, and to provide this information to the right holder.

12. Each Party shall provide that its judicial authorities have the authority to:

(a) fine or imprison, in appropriate cases, a party to a litigation who fails to abide by valid orders issued by such authorities; and

(b) impose sanctions on parties to a litigation, their counsel, experts, or other persons subject to the court’s jurisdiction, for violation of judicial orders regarding the protection of confidential information produced or exchanged in a proceeding.

13. To the extent that any civil remedy can be ordered as a result of administrative procedures on the merits of a case, each Party shall provide that such procedures conform to principles equivalent in substance to those set out in this Chapter.

14. In civil judicial proceedings concerning the acts described in Articles 15.5.8 and 15.5.9, each Party shall provide that its judicial authorities shall have the authority to order or award at least:

(a) provisional measures, including seizure of devices and products suspected of being involved in the prohibited activity;

(b) the opportunity for the right holder to elect between actual damages it suffered (plus any profits attributable to the prohibited activity not taken into account in computing those damages) or pre-established damages;

(c) payment to the prevailing right holder at the conclusion of civil judicial proceedings of court costs and fees, and reasonable attorney’s fees, by the party engaged in the prohibited conduct; and

(d) destruction of devices and products found to be involved in the prohibited activity.
Neither Party may make damages available against a nonprofit library, archive, educational institution, or public noncommercial broadcasting entity that sustains the burden of proving that it was not aware and had no reason to believe that its acts constituted a prohibited activity.

15. In civil judicial proceedings concerning the enforcement of intellectual property rights, each Party shall provide that its judicial authorities shall have the authority to order a party to desist from an infringement, in order, inter alia, to prevent, immediately after they clear customs, the entry into the channels of commerce in the jurisdiction of those authorities of imported goods that involve the infringement of an intellectual property right, or to prevent their exportation.

16. In the event that a Party’s judicial or other authorities appoint technical or other experts in civil proceedings concerning the enforcement of intellectual property rights and require that the parties to the litigation bear the costs of such experts, the Party should seek to ensure that such costs are closely related, inter alia, to the quantity and nature of work to be performed and do not unreasonably deter recourse to such proceedings.

Provisional Measures

17. Parties shall act on requests for relief inaudita altera parte expeditiously, and shall, except in exceptional circumstances, generally execute such requests within ten days.

18. Each Party shall provide that its judicial authorities have the authority to require the plaintiff to provide any reasonably available evidence in order to satisfy themselves with a sufficient degree of certainty that the plaintiff’s right is being infringed or that such infringement is imminent, and to order the plaintiff to provide a reasonable security or equivalent assurance set at a level sufficient to protect the defendant and to prevent abuse, and so as not to unreasonably deter recourse to such procedures.

19. In proceedings concerning the grant of provisional measures in relation to enforcement of a patent, each Party shall provide for a rebuttable presumption that the patent is valid.

Special Requirements Related to Border Measures

20. Each Party shall provide that any right holder initiating procedures for its competent authorities to suspend release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods into free circulation is required to provide adequate evidence to satisfy the competent authorities that, under the laws of the country of importation, there is prima facie an infringement of the right holder’s intellectual property right and to supply sufficient information that may reasonably be expected to be within the right holder’s knowledge to make the suspected goods reasonably recognizable by its competent authorities. The requirement to provide sufficient information shall not unreasonably deter recourse to these procedures. Each

---

19 For purposes of paragraphs 20 through 25:

(a) counterfeit trademark goods means any goods, including packaging, bearing without authorization a trademark that is identical to the trademark validly registered in respect of such goods, or that cannot be distinguished in its essential aspects from such a trademark, and that thereby infringes the rights of the owner of the trademark in question under the law of the country of importation; and

(b) pirated copyright goods means any goods that are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and which are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the country of importation.
Party shall provide that the application to suspend the release of goods shall remain in force for a period of not less than one year from the date of application, or the period that the good is protected by copyright or the relevant trademark registration, whichever is shorter.

21. Each Party shall provide that its competent authorities shall have the authority to require a right holder initiating procedures to suspend the release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods, to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Each Party shall provide that such security or equivalent assurance shall not unreasonably deter recourse to these procedures. Each Party may provide that such security may be in the form of a bond conditioned to hold the importer or owner of the imported merchandise harmless from any loss or damage resulting from any suspension of the release of goods in the event the competent authorities determine that the article is not an infringing good.

22. Where its competent authorities have made a determination that goods are counterfeit or pirated, a Party shall grant its competent authorities the authority to inform the right holder of the names and addresses of the consignor, the importer, and the consignee, and of the quantity of the goods in question.

23. Each Party shall provide that its competent authorities may initiate border measures ex officio, with respect to imported, exported, or in-transit merchandise suspected of infringing an intellectual property right, without the need for a formal complaint from a private party or right holder.

24. Each Party shall provide that goods that have been determined to be pirated or counterfeit by its competent authorities shall be destroyed, except in exceptional circumstances. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of the goods into the channels of commerce. In no event shall the competent authorities be authorized, except in exceptional circumstances, to permit the exportation of counterfeit or pirated goods or to permit such goods to be subject to other customs procedures.

25. Where an application fee or merchandise storage fee is assessed in connection with border measures to enforce an intellectual property right, each Party shall provide that such fee shall not be set at an amount that unreasonably deters recourse to these measures.

**Criminal Procedures and Remedies**

26. (a) Each Party shall provide for criminal procedures and penalties to be applied at least in cases of willful trademark counterfeiting or copyright or related rights piracy on a commercial scale. Willful copyright or related rights piracy on a commercial scale includes (i) significant willful copyright or related rights infringements that have no direct or indirect motivation of financial gain, and (ii) willful infringements for purposes of commercial advantage or private financial gain.

Each Party shall treat willful importation or exportation of counterfeit or pirated goods as unlawful activities subject to criminal penalties to the same extent as the trafficking or distribution of such goods in domestic commerce.
(b) Specifically, each Party shall provide:

(i) remedies that include sentences of imprisonment as well as monetary fines sufficient to provide a deterrent to future infringements, consistent with a policy of removing the infringer’s monetary incentive, and shall further establish policies or guidelines that encourage judicial authorities to impose those remedies at levels sufficient to provide a deterrent to future infringements;

(ii) that its judicial authorities shall have the authority to order the seizure of suspected counterfeit or pirated goods, any related materials and implements used in the commission of the offense, any assets traceable to the infringing activity, and any documentary evidence relevant to the offense. Each Party shall provide that items that are subject to seizure pursuant to any such judicial order need not be individually identified, so long as they fall within general categories specified in the order;

(iii) that its judicial authorities shall have the authority, among other measures, to order the forfeiture of any assets traceable to the infringing activity and shall, except in exceptional cases, order the forfeiture and destruction of all counterfeit or pirated goods, and, at least with respect to wilful copyright or related rights piracy, order the forfeiture and destruction of materials and implements that have been used in the creation of infringing goods. Each Party shall further provide that such forfeiture and destruction shall occur without compensation of any kind to the defendant; and

(iv) that its authorities may initiate legal action ex officio with respect to the offenses described in this Chapter, without the need for a formal complaint by a private party or right holder.

27. Each Party shall also provide for criminal procedures and penalties to be applied in the following cases, even absent willful trademark counterfeiting or copyright piracy:

(a) knowing trafficking in counterfeit labels affixed or designed to be affixed to: a phonogram, a copy of a computer program, documentation or packaging for a computer program, or a copy of a motion picture or other audiovisual work; and

(b) knowing trafficking in counterfeit documentation or packaging for a computer program.

Limitations on Liability for Service Providers

28. For the purpose of providing enforcement procedures that permit effective action against any act of copyright infringement covered by this Chapter, including expeditious remedies to prevent infringements and criminal and civil remedies, each Party shall provide, consistent with the framework set out in this Article:
(a) legal incentives for service providers to cooperate with copyright owners in deterring the unauthorized storage and transmission of copyrighted materials; and

(b) limitations in its law regarding the scope of remedies available against service providers for copyright infringements that they do not control, initiate, or direct, and that take place through systems or networks controlled or operated by them or on their behalf, as set forth in this subparagraph.\(^{21}\)

(i) These limitations shall preclude monetary relief, and provide reasonable restrictions on court-ordered relief to compel or restrain certain actions, for the following functions, and shall be confined to those functions:\(^{22}\)

(A) transmitting, routing, or providing connections for material without modification of its content, or the intermediate and transient storage of such material in the course thereof;

(B) caching carried out through an automatic process;

(C) storage at the direction of a user of material residing on a system or network controlled or operated by or for the service provider; and

(D) referring or linking users to an online location by using information location tools, including hyperlinks and directories.

(ii) These limitations shall apply only where the service provider does not initiate the chain of transmission of the material and does not select the material or its recipients (except to the extent that a function described in clause (i)(D) in itself entails some form of selection).

(iii) Qualification by a service provider for the limitations as to each function in clause (i)(A) through (D) shall be considered separately from qualification for the limitations as to each other function, in accordance with the conditions for qualification set forth in clauses (iv) through (vii).

(iv) With respect to functions referred to in clause (i)(B), the limitations shall be conditioned on the service provider:

(A) permitting access to cached material in significant part only to users of its system or network who have met conditions on user access to that material;

(B) complying with rules concerning the refreshing, reloading, or other updating of the cached material when specified by the person making the material available online in accordance with a generally accepted industry standard data communications protocol.

\(^{20}\) For purposes of this paragraph, “copyright” includes related rights.

\(^{21}\) This subparagraph is without prejudice to the availability of defenses to copyright infringement that are of general applicability.

\(^{22}\) Either Party may request consultations with the other Party to consider how to address under this paragraph functions of a similar nature that a Party identifies after the date of entry into force of this Agreement.
protocol for the system or network through which that person makes the material available;

(C) not interfering with technology consistent with industry standards accepted in the Party’s territory used at the originating site to obtain information about the use of the material, and not modifying its content in transmission to subsequent users; and

(D) expeditiously removing or disabling access, on receipt of an effective notification of claimed infringement, to cached material that has been removed or access to which has been disabled at the originating site.

(v) With respect to functions referred to in clause (i)(C) and (D), the limitations shall be conditioned on the service provider:

(A) not receiving a financial benefit directly attributable to the infringing activity, in circumstances where it has the right and ability to control such activity;

(B) expeditiously removing or disabling access to the material residing on its system or network on obtaining actual knowledge of the infringement or becoming aware of facts or circumstances from which the infringement was apparent, such as through effective notifications of claimed infringement in accordance with clause (ix); and

(C) publicly designating a representative to receive such notifications.

(vi) Eligibility for the limitations in this subparagraph shall be conditioned on the service provider:

(A) adopting and reasonably implementing a policy that provides for termination in appropriate circumstances of the accounts of repeat infringers; and

(B) accommodating and not interfering with standard technical measures accepted in the Party’s territory that protect and identify copyrighted material, that are developed through an open, voluntary process by a broad consensus of copyright owners and service providers, that are available on reasonable and nondiscriminatory terms, and that do not impose substantial costs on service providers or substantial burdens on their systems or networks.

(vii) Eligibility for the limitations in this subparagraph may not be conditioned on the service provider monitoring its service, or affirmatively seeking facts indicating infringing activity, except to the extent consistent with such technical measures.
If the service provider qualifies for the limitations with respect to the function referred to in clause (i)(A), court-ordered relief to compel or restrain certain actions shall be limited to terminating specified accounts, or to taking reasonable steps to block access to a specific, non-domestic online location. If the service provider qualifies for the limitations with respect to any other function in clause (i), court-ordered relief to compel or restrain certain actions shall be limited to removing or disabling access to the infringing material, terminating specified accounts, and other remedies that a court may find necessary, provided that such other remedies are the least burdensome to the service provider among comparably effective forms of relief. Each Party shall provide that any such relief shall be issued with due regard for the relative burden to the service provider and harm to the copyright owner, the technical feasibility and effectiveness of the remedy and whether less burdensome, comparably effective enforcement methods are available.

Except for orders ensuring the preservation of evidence, or other orders having no material adverse effect on the operation of the service provider’s communications network, each Party shall provide that such relief shall be available only where the service provider has received notice of the court order proceedings referred to in this subparagraph and an opportunity to appear before the judicial authority.

For purposes of the notice and take down process for the functions referred to in clauses (i)(C) and (D), each Party shall establish appropriate procedures for effective notifications of claimed infringement, and effective counrtnotifications by those whose material is removed or disabled through mistake or misidentification. Each Party shall also provide for monetary remedies against any person who makes a knowing material misrepresentation in a notification or counter-notification that causes injury to any interested party as a result of a service provider relying on the misrepresentation.

If the service provider removes or disables access to material in good faith based on claimed or apparent infringement, each Party shall provide that the service provider shall be exempted from liability for any resulting claims, provided that, in the case of material residing on its system or network, it takes reasonable steps promptly to notify the person making the material available on its system or network that it has done so and, if such person makes an effective counter-notification and is subject to jurisdiction in an infringement suit, to restore the material online unless the person giving the original effective notification seeks judicial relief within a reasonable time.

Each Party shall establish an administrative or judicial procedure enabling copyright owners who have given effective notification of claimed infringement to obtain expeditiously from a service provider information in its possession identifying the alleged infringer.
(xii) For purposes of the function referred to in clause (i)(A), **service provider** means a provider of transmission, routing, or connections for digital online communications without modification of their content between or among points specified by the user of material of the user’s choosing, and for purposes of the functions referred to in clause (i)(B) through (D), **service provider** means a provider or operator of facilities for online services or network access.

**ARTICLE 15.12: TRANSITIONAL PROVISIONS**

Each Party shall:

(a) implement the obligations set out in Article 15.4 within one year of the date of entry into force of this Agreement, and shall implement the obligations set out in Article 15.11.28 by January 1, 2006, and

(b) ratify or accede to the agreements listed in paragraph 2(d), (e), and (f) of Article 15.1 by January 1, 2006.

[excerpts]

The Dominican Republic-Central America-United States Free Trade Agreement was signed on 5 August 2004.

Chapter Ten
Investment

Section A: Investment

Article 10.1: Scope and Coverage

1. This Chapter applies to measures adopted or maintained by a Party relating to:
   
   (a) investors of another Party;
   
   (b) covered investments; and
   
   (c) with respect to Articles 10.9 and 10.11, all investments in the territory of the Party.

2. A Party’s obligations under this Section shall apply to a state enterprise or other person when it exercises any regulatory, administrative, or other governmental authority delegated to it by that Party.

3. For greater certainty, this Chapter does not bind any Party in relation to any act or fact that took place or any situation that ceased to exist before the date of entry into force of this Agreement.

Article 10.2: Relation to Other Chapters

1. In the event of any inconsistency between this Chapter and another Chapter, the other Chapter shall prevail to the extent of the inconsistency.

2. A requirement by a Party that a service supplier of another Party post a bond or other form of financial security as a condition of the cross-border supply of a service does not of itself make this Chapter applicable to measures adopted or maintained by the Party relating to such cross-border supply of the service. This Chapter applies to measures adopted or maintained by the Party relating to the posted bond or financial security, to the extent that such bond or financial security is a covered investment.

3. This Chapter does not apply to measures adopted or maintained by a Party to the extent that they are covered by Chapter Twelve (Financial Services).

**Article 10.3: National Treatment**

1. Each Party shall accord to investors of another Party treatment no less favorable than that it accords, in like circumstances, to its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments in its territory of its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

3. The treatment to be accorded by a Party under paragraphs 1 and 2 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that regional level of government to investors, and to investments of investors, of the Party of which it forms a part.

**Article 10.4: Most-Favored-Nation Treatment**

1. Each Party shall accord to investors of another Party treatment no less favorable than that it accords, in like circumstances, to investors of any other Party or of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments in its territory of investors of any other Party or of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

**Article 10.5: Minimum Standard of Treatment**

1. Each Party shall accord to covered investments treatment in accordance with customary international law, including fair and equitable treatment and full protection and security.

2. For greater certainty, paragraph 1 prescribes the customary international law minimum standard of treatment of aliens as the minimum standard of treatment to be afforded to covered investments. The concepts of “fair and equitable treatment” and “full protection and security” do not require treatment in addition to or beyond that which is required by that standard, and do not create additional substantive rights. The obligation in paragraph 1 to provide:

   (a) “fair and equitable treatment” includes the obligation not to deny justice in criminal, civil, or administrative adjudicatory proceedings in accordance with the principle of due process embodied in the principal legal systems of the world; and

---

1 Article 10.5 shall be interpreted in accordance with Annex 10-B.
“full protection and security” requires each Party to provide the level of police protection required under customary international law.

3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

**Article 10.6: Treatment in Case of Strife**

1. Notwithstanding Article 10.13.5(b), each Party shall accord to investors of another Party, and to covered investments, non-discriminatory treatment with respect to measures it adopts or maintains relating to losses suffered by investments in its territory owing to armed conflict or civil strife.

2. Notwithstanding paragraph 1, if an investor of a Party, in the situations referred to in paragraph 1, suffers a loss in the territory of another Party resulting from:

   (a) requisitioning of its covered investment or part thereof by the latter’s forces or authorities; or

   (b) destruction of its covered investment or part thereof by the latter’s forces or authorities, which was not required by the necessity of the situation, the latter Party shall provide the investor restitution or compensation, which in either case shall be in accordance with customary international law and, with respect to compensation, shall be in accordance with Article 10.7.2 through 10.7.4.2

3. Paragraph 1 does not apply to existing measures relating to subsidies or grants that would be inconsistent with Article 10.3 but for Article 10.13.5(b).

**Article 10.7: Expropriation and Compensation**

1. No Party may expropriate or nationalize a covered investment either directly or indirectly through measures equivalent to expropriation or nationalization ("expropriation"), except:

   (a) for a public purpose;

   (b) in a non-discriminatory manner;

   (c) on payment of prompt, adequate, and effective compensation in accordance with paragraphs 2 through 4; and

   (d) in accordance with due process of law and Article 10.5.

2. Compensation shall:

   (a) be paid without delay;

---

2 The limitations set out in Annex 10-D apply to the submission to arbitration under Section B of a claim alleging a breach of this paragraph.
3 Article 10.7 shall be interpreted in accordance with Annexes 10-B and 10-C.
(b) be equivalent to the fair market value of the expropriated investment immediately before the expropriation took place ("the date of expropriation");

(c) not reflect any change in value occurring because the intended expropriation had become known earlier; and

(d) be fully realizable and freely transferable.

3. If the fair market value is denominated in a freely usable currency, the compensation paid shall be no less than the fair market value on the date of expropriation, plus interest at a commercially reasonable rate for that currency, accrued from the date of expropriation until the date of payment.

4. If the fair market value is denominated in a currency that is not freely usable, the compensation paid – converted into the currency of payment at the market rate of exchange prevailing on the date of payment – shall be no less than:

   (a) the fair market value on the date of expropriation, converted into a freely usable currency at the market rate of exchange prevailing on that date, plus

   (b) interest, at a commercially reasonable rate for that freely usable currency, accrued from the date of expropriation until the date of payment.

5. This Article does not apply to the issuance of compulsory licenses granted in relation to intellectual property rights in accordance with the TRIPS Agreement, or to the revocation, limitation, or creation of intellectual property rights, to the extent that such issuance, revocation, limitation, or creation is consistent with Chapter Fifteen (Intellectual Property Rights).  

Article 10.8: Transfers

1. Each Party shall permit all transfers relating to a covered investment to be made freely and without delay into and out of its territory. Such transfers include:

   (a) contributions to capital;

   (b) profits, dividends, capital gains, and proceeds from the sale of all or any part of the covered investment or from the partial or complete liquidation of the covered investment;

   (c) interest, royalty payments, management fees, and technical assistance and other fees;

   (d) payments made under a contract, including a loan agreement;

   (e) payments made pursuant to Article 10.6.1 and 10.6.2 and Article 10.7; and

   (f) payments arising out of a dispute.

---

4 For greater certainty, the reference to “the TRIPS Agreement” in paragraph 5 includes any waiver in force between the Parties of any provision of that Agreement granted by WTO Members in accordance with the WTO Agreement.
2. Each Party shall permit transfers relating to a covered investment to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Each Party shall permit returns in kind relating to a covered investment to be made as authorized or specified in a written agreement between the Party and a covered investment or an investor of another Party.

4. Notwithstanding paragraphs 1 through 3, a Party may prevent a transfer through the equitable, nondiscriminatory, and good faith application of its laws relating to:
   (a) bankruptcy, insolvency, or the protection of the rights of creditors;
   (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
   (c) criminal or penal offenses;
   (d) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities; or
   (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

Article 10.9: Performance Requirements

1. No Party may, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment of an investor of a Party or of a non-Party in its territory, impose or enforce any of the following requirements, or enforce any commitment or undertaking:
   (a) to export a given level or percentage of goods or services;
   (b) to achieve a given level or percentage of domestic content;
   (c) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;
   (d) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment;
   (e) to restrict sales of goods or services in its territory that such investment produces or supplies by relating such sales in any way to the volume or value of its exports or foreign exchange earnings;
   (f) to transfer a particular technology, a production process, or other proprietary knowledge to a person in its territory; or
   (g) to supply exclusively from the territory of the Party the goods that such investment produces or the services that it supplies to a specific regional market or to the world market.
2. No Party may condition the receipt or continued receipt of an advantage, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment in its territory of an investor of a Party or of a non-Party, on compliance with any of the following requirements:

(a) to achieve a given level or percentage of domestic content;

(b) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;

(c) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment; or

(d) to restrict sales of goods or services in its territory that such investment produces or supplies by relating such sales in any way to the volume or value of its exports or foreign exchange earnings.

3. (a) Nothing in paragraph 2 shall be construed to prevent a Party from conditioning the receipt or continued receipt of an advantage, in connection with an investment in its territory of an investor of a Party or of a non-Party, on compliance with a requirement to locate production, supply a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory.

(b) Paragraph 1(f) does not apply:

(i) when a Party authorizes use of an intellectual property right in accordance with Article 31 of the TRIPS Agreement, or to measures requiring the disclosure of proprietary information that fall within the scope of, and are consistent with, Article 39 of the TRIPS Agreement; or

(ii) when the requirement is imposed or the commitment or undertaking is enforced by a court, administrative tribunal, or competition authority to remedy a practice determined after judicial or administrative process to be anticompetitive under the Party’s competition laws.

(c) Provided that such measures are not applied in an arbitrary or unjustifiable manner, and provided that such measures do not constitute a disguised restriction on international trade or investment, paragraphs 1(b), (c), and (f), and 2(a) and (b), shall not be construed to prevent a Party from adopting or maintaining measures, including environmental measures:

(i) necessary to secure compliance with laws and regulations that are not inconsistent with this Agreement;

---

5 For greater certainty, the references to “the TRIPS Agreement” in paragraph 3(b)(i) include any waiver in force between the Parties of any provision of that Agreement granted by WTO Members in accordance with the WTO Agreement.

6 The Parties recognize that a patent does not necessarily confer market power.
(ii) necessary to protect human, animal, or plant life or health; or

(iii) related to the conservation of living or non-living exhaustible natural resources.

(d) Paragraphs 1(a), (b), and (c), and 2(a) and (b), do not apply to qualification requirements for goods or services with respect to export promotion and foreign aid programs.

(e) Paragraphs 1(b), (c), (f), and (g), and 2(a) and (b), do not apply to procurement.

(f) Paragraphs 2(a) and (b) do not apply to requirements imposed by an importing Party relating to the content of goods necessary to qualify for preferential tariffs or preferential quotas.

4. For greater certainty, paragraphs 1 and 2 do not apply to any requirement other than the requirements set out in those paragraphs.

5. This Article does not preclude enforcement of any commitment, undertaking, or requirement between private parties, where a Party did not impose or require the commitment, undertaking, or requirement.

Article 10.10: Senior Management and Boards of Directors

1. No Party may require that an enterprise of that Party that is a covered investment appoint to senior management positions natural persons of any particular nationality.

2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise of that Party that is a covered investment, be of a particular nationality, or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

Article 10.11: Investment and Environment

Nothing in this Chapter shall be construed to prevent a Party from adopting, maintaining, or enforcing any measure otherwise consistent with this Chapter that it considers appropriate to ensure that investment activity in its territory is undertaken in a manner sensitive to environmental concerns.

Article 10.12: Denial of Benefits

1. A Party may deny the benefits of this Chapter to an investor of another Party that is an enterprise of such other Party and to investments of that investor if persons of a non-Party own or control the enterprise and the denying Party:

   (a) does not maintain diplomatic relations with the non-Party; or

   (b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or
circumvented if the benefits of this Chapter were accorded to the enterprise or to its investments.

2. Subject to Articles 18.3 (Notification and Provision of Information) and 20.4 (Consultations), a Party may deny the benefits of this Chapter to an investor of another Party that is an enterprise of such other Party and to investments of that investor if the enterprise has no substantial business activities in the territory of any Party, other than the denying Party, and persons of a non-Party, or of the denying Party, own or control the enterprise.

**Article 10.13: Non-Conforming Measures**

1. Articles 10.3, 10.4, 10.9, and 10.10 do not apply to:
   
   (a) any existing non-conforming measure that is maintained by a Party at:
      
      (i) the central level of government, as set out by that Party in its Schedule to Annex I,
      
      (ii) a regional level of government, as set out by that Party in its Schedule to Annex I, or
      
      (iii) a local level of government;
      
   (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
      
   (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Article 10.3, 10.4, 10.9, or

2. Articles 10.3, 10.4, 10.9, and 10.10 do not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities, as set out in its Schedule to Annex II.

3. No Party may, under any measure adopted after the date of entry into force of this Agreement and covered by its Schedule to Annex II, require an investor of another Party, by reason of its nationality, to sell or otherwise dispose of an investment existing at the time the measure becomes effective.

4. Articles 10.3 and 10.4 do not apply to any measure that is an exception to, or derogation from, the obligations under Article 15.1.8 (General Provisions) as specifically provided in that Article.

5. Articles 10.3, 10.4, and 10.10 do not apply to:

   (a) procurement; or

   (b) subsidies or grants provided by a Party, including government-supported loans, guarantees, and insurance.
**Article 10.14: Special Formalities and Information Requirements**

1. Nothing in Article 10.3 shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with covered investments, such as a requirement that investors be residents of the Party or that covered investments be legally constituted under the laws or regulations of the Party, provided that such formalities do not materially impair the protections afforded by a Party to investors of another Party and covered investments pursuant to this Chapter.

2. Notwithstanding Articles 10.3 and 10.4, a Party may require an investor of another Party, or a covered investment, to provide information concerning that investment solely for informational or statistical purposes. The Party shall protect any confidential business information from any disclosure that would prejudice the competitive position of the investor or the covered investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

**Section B: Investor-State Dispute Settlement**

**Article 10.15: Consultation and Negotiation**

In the event of an investment dispute, the claimant and the respondent should initially seek to resolve the dispute through consultation and negotiation, which may include the use of non-binding, third-party procedures such as conciliation and mediation.

**Article 10.16: Submission of a Claim to Arbitration**

1. In the event that a disputing party considers that an investment dispute cannot be settled by consultation and negotiation:

   (a) the claimant, on its own behalf, may submit to arbitration under this Section a claim

      (i) that the respondent has breached

          (A) an obligation under Section A,

          (B) an investment authorization, or

          (C) an investment agreement; and

      (ii) that the claimant has incurred loss or damage by reason of, or arising out of, that breach; and

   (b) the claimant, on behalf of an enterprise of the respondent that is a juridical person that the claimant owns or controls directly or indirectly, may submit to arbitration under this Section a claim

      (i) that the respondent has breached
(A) an obligation under Section A,

(B) an investment authorization, or

(C) an investment agreement; and

(ii) that the enterprise has incurred loss or damage by reason of, or arising out of, that breach.

2. At least 90 days before submitting any claim to arbitration under this Section, a claimant shall deliver to the respondent a written notice of its intention to submit the claim to arbitration (“notice of intent”). The notice shall specify:

(a) the name and address of the claimant and, where a claim is submitted on behalf of an enterprise, the name, address, and place of incorporation of the enterprise;

(b) for each claim, the provision of this Agreement, investment authorization, or investment agreement alleged to have been breached and any other relevant provisions;

(c) the legal and factual basis for each claim; and

(d) the relief sought and the approximate amount of damages claimed.

3. Provided that six months have elapsed since the events giving rise to the claim, a claimant may submit a claim referred to in paragraph 1:

(a) under the ICSID Convention and the ICSID Rules of Procedures for Arbitration Proceedings, provided that both the respondent and the Party of the claimant are parties to the ICSID Convention;

(b) under the ICSID Additional Facility Rules, provided that either the respondent or the Party of the claimant is a party to the ICSID Convention; or

(c) under the UNCITRAL Arbitration Rules.

4. A claim shall be deemed submitted to arbitration under this Section when the claimant’s notice of or request for arbitration (“notice of arbitration”):

(a) referred to in paragraph 1 of Article 36 of the ICSID Convention is received by the Secretary-General;

(b) referred to in Article 2 of Schedule C of the ICSID Additional Facility Rules is received by the Secretary-General; or

(c) referred to in Article 3 of the UNCITRAL Arbitration Rules, together with the statement of claim referred to in Article 18 of the UNCITRAL Arbitration Rules, are received by the respondent.
A claim asserted for the first time after such notice of arbitration is submitted shall be deemed submitted to arbitration under this Section on the date of its receipt under the applicable arbitral rules.

5. The arbitration rules applicable under paragraph 3, and in effect on the date the claim or claims were submitted to arbitration under this Section, shall govern the arbitration except to the extent modified by this Agreement.

6. The claimant shall provide with the notice of arbitration:

(a) the name of the arbitrator that the claimant appoints; or

(b) the claimant’s written consent for the Secretary-General to appoint such arbitrator.

**Article 10.17: Consent of Each Party to Arbitration**

1. Each Party consents to the submission of a claim to arbitration under this Section in accordance with this Agreement.

2. The consent under paragraph 1 and the submission of a claim to arbitration under this Section shall satisfy the requirements of:

(a) Chapter II of the ICSID Convention (Jurisdiction of the Centre) and the ICSID Additional Facility Rules for written consent of the parties to the dispute;

(b) Article II of the New York Convention for an “agreement in writing;” and

(c) Article I of the Inter-American Convention for an “agreement.”

**Article 10.18: Conditions and Limitations on Consent of Each Party**

1. No claim may be submitted to arbitration under this Section if more than three years have elapsed from the date on which the claimant first acquired, or should have first acquired, knowledge of the breach alleged under Article 10.16.1 and knowledge that the claimant (for claims brought under Article 10.16.1(a)) or the enterprise (for claims brought under Article 10.16.1(b)) has incurred loss or damage.

2. No claim may be submitted to arbitration under this Section unless:

(a) the claimant consents in writing to arbitration in accordance with the procedures set out in this Agreement; and

(b) the notice of arbitration is accompanied,

(i) for claims submitted to arbitration under Article 10.16.1(a), by the claimant’s written waiver, and

(ii) for claims submitted to arbitration under Article 10.16.1(b), by the claimant’s and the enterprise’s written waivers of any right to initiate or
continue before any administrative tribunal or court under the law of any Party, or other dispute settlement procedures, any proceeding with respect to any measure alleged to constitute a breach referred to in Article 10.16.

3. Notwithstanding paragraph 2(b), the claimant (for claims brought under Article 10.16.1(a)) and the claimant or the enterprise (for claims brought under Article 10.16.1(b)) may initiate or continue an action that seeks interim injunctive relief and does not involve the payment of monetary damages before a judicial or administrative tribunal of the respondent, provided that the action is brought for the sole purpose of preserving the claimant’s or the enterprise’s rights and interests during the pendency of the arbitration.

4. No claim may be submitted to arbitration:

(a) for breach of an investment authorization under Article 10.16.1(a)(i)(B) or Article 10.16.1(b)(i)(B), or

(b) for breach of an investment agreement under Article 10.16.1(a)(i)(C) or Article 10.16.1(b)(i)(C), if the claimant (for claims brought under Article 10.16.1(a)) or the claimant or the enterprise (for claims brought under Article 10.16.1(b)) has previously submitted the same alleged breach to an administrative tribunal or court of the respondent, or to any other binding dispute settlement procedure, for adjudication or resolution.

Article 10.19: Selection of Arbitrators

1. Unless the disputing parties otherwise agree, the tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties.

2. The Secretary-General shall serve as appointing authority for an arbitration under this Section.

3. If a tribunal has not been constituted within 75 days from the date that a claim is submitted to arbitration under this Section, the Secretary-General, on the request of a disputing party, shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed.

4. For purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator on a ground other than nationality:

(a) the respondent agrees to the appointment of each individual member of a tribunal established under the ICSID Convention or the ICSID Additional Facility Rules;

(b) a claimant referred to in Article 10.16.1(a) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant agrees in writing to the appointment of each individual member of the tribunal; and

(c) a claimant referred to in Article 10.16.1(b) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID
Additional Facility Rules, only on condition that the claimant and the enterprise agree in writing to the appointment of each individual member of the tribunal.

**Article 10.20: Conduct of the Arbitration**

1. The disputing parties may agree on the legal place of any arbitration under the arbitral rules applicable under Article 10.16.3. If the disputing parties fail to reach agreement, the tribunal shall determine the place in accordance with the applicable arbitral rules, provided that the place shall be in the territory of a State that is a party to the New York Convention.

2. A non-disputing Party may make oral and written submissions to the tribunal regarding the interpretation of this Agreement.

3. The tribunal shall have the authority to accept and consider *amicus curiae* submissions from a person or entity that is not a disputing party.

4. Without prejudice to a tribunal’s authority to address other objections as a preliminary question, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favor of the claimant may be made under Article 10.26.

   (a) Such objection shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial (or, in the case of an amendment to the notice of arbitration, the date the tribunal fixes for the respondent to submit its response to the amendment).

   (b) On receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor.

   (c) In deciding an objection under this paragraph, the tribunal shall assume to be true claimant’s factual allegations in support of any claim in the notice of arbitration (or any amendment thereof) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in Article 18 of the UNCITRAL Arbitration Rules. The tribunal may also consider any relevant facts not in dispute.

   (d) The respondent does not waive any objection as to competence or any argument on the merits merely because the respondent did or did not raise an objection under this paragraph or make use of the expedited procedure set out in paragraph 5.

5. In the event that the respondent so requests within 45 days after the tribunal is constituted, the tribunal shall decide on an expedited basis an objection under paragraph 4 and any objection that the dispute is not within the tribunal’s competence. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection(s), stating the grounds therefor, no later than 150 days after the date of the request. However, if a disputing
party requests a hearing, the tribunal may take an additional 30 days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period, which may not exceed 30 days.

6. When it decides a respondent’s objection under paragraph 4 or 5, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorney’s fees incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant’s claim or the respondent’s objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.

7. A respondent may not assert as a defense, counterclaim, right of set-off, or for any other reason that the claimant has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an insurance or guarantee contract.

8. A tribunal may order an interim measure of protection to preserve the rights of a disputing party, or to ensure that the tribunal’s jurisdiction is made fully effective, including an order to preserve evidence in the possession or control of a disputing party or to protect the tribunal’s jurisdiction. A tribunal may not order attachment or enjoin the application of a measure alleged to constitute a breach referred to in Article 10.16. For purposes of this paragraph, an order includes a recommendation.

9. (a) In any arbitration conducted under this Section, at the request of a disputing party, a tribunal shall, before issuing a decision or award on liability, transmit its proposed decision or award to the disputing parties and to the non-disputing Parties. Within 60 days after the tribunal transmits its proposed decision or award, the disputing parties may submit written comments to the tribunal concerning any aspect of its proposed decision or award. The tribunal shall consider any such comments and issue its decision or award not later than 45 days after the expiration of the 60-day comment period.

(b) Subparagraph (a) shall not apply in any arbitration conducted pursuant to this Section for which an appeal has been made available pursuant to paragraph 10 or Annex 10-F.

10. If a separate multilateral agreement enters into force as between the Parties that establishes an appellate body for purposes of reviewing awards rendered by tribunals constituted pursuant to international trade or investment arrangements to hear investment disputes, the Parties shall strive to reach an agreement that would have such appellate body review awards rendered under Article 10.26 in arbitrations commenced after the multilateral agreement enters into force as between the Parties.

**Article 10.21: Transparency of Arbitral Proceedings**

1. Subject to paragraphs 2 and 4, the respondent shall, after receiving the following documents, promptly transmit them to the non-disputing Parties and make them available to the public:

   (a) the notice of intent;
(b) the notice of arbitration;

(c) pleadings, memorials, and briefs submitted to the tribunal by a disputing party and any written submissions submitted pursuant to Article 10.20.2 and 10.20.3 and Article 10.25;

(d) minutes or transcripts of hearings of the tribunal, where available; and

(e) orders, awards, and decisions of the tribunal.

2. The tribunal shall conduct hearings open to the public and shall determine, in consultation with the disputing parties, the appropriate logistical arrangements. However, any disputing party that intends to use information designated as protected information in a hearing shall so advise the tribunal. The tribunal shall make appropriate arrangements to protect the information from disclosure.

3. Nothing in this Section requires a respondent to disclose protected information or to furnish or allow access to information that it may withhold in accordance with Article 21.2 (Essential Security) or Article 21.5 (Disclosure of Information).

4. Any protected information that is submitted to the tribunal shall be protected from disclosure in accordance with the following procedures:

(a) Subject to subparagraph (d), neither the disputing parties nor the tribunal shall disclose to any non-disputing Party or to the public any protected information where the disputing party that provided the information clearly designates it in accordance with subparagraph (b);

(b) Any disputing party claiming that certain information constitutes protected information shall clearly designate the information at the time it is submitted to the tribunal;

(c) A disputing party shall, at the same time that it submits a document containing information claimed to be protected information, submit a redacted version of the document that does not contain the information. Only the redacted version shall be provided to the non-disputing Parties and made public in accordance with paragraph 1; and

(d) The tribunal shall decide any objection regarding the designation of information claimed to be protected information. If the tribunal determines that such information was not properly designated, the disputing party that submitted the information may (i) withdraw all or part of its submission containing such information, or (ii) agree to resubmit complete and redacted documents with corrected designations in accordance with the tribunal’s determination and subparagraph (c). In either case, the other disputing party shall, whenever necessary, resubmit complete and redacted documents which either remove the information withdrawn under (i) by the disputing party that first submitted the information or redesignate the information consistent with the designation under (ii) of the disputing party that first submitted the information.
5. Nothing in this Section requires a respondent to withhold from the public information required to be disclosed by its laws.

Article 10.22: Governing Law

1. Subject to paragraph 3, when a claim is submitted under Article 10.16.1(a)(i)(A) or Article 10.16.1(b)(i)(A), the tribunal shall decide the issues in dispute in accordance with this Agreement and applicable rules of international law.

2. Subject to paragraph 3 and the other terms of this Section, when a claim is submitted under Article 10.16.1(a)(i)(B) or (C), or Article 10.16.1(b)(i)(B) or (C), the tribunal shall apply:

   (a) the rules of law specified in the pertinent investment agreement or investment authorization, or as the disputing parties may otherwise agree; or

   (b) if the rules of law have not been specified or otherwise agreed:

      (i) the law of the respondent, including its rules on the conflict of laws;\(^7\) and

      (ii) such rules of international law as may be applicable.

3. A decision of the Commission declaring its interpretation of a provision of this Agreement under Article 19.1.3(c) (The Free Trade Commission) shall be binding on a tribunal established under this Section, and any decision or award issued by the tribunal must be consistent with that decision.

Article 10.23: Interpretation of Annexes

1. Where a respondent asserts as a defense that the measure alleged to be a breach is within the scope of Annex I or Annex II, the tribunal shall, on request of the respondent, request the interpretation of the Commission on the issue. The Commission shall submit in writing any decision declaring its interpretation under Article 19.1.3(c) (The Free Trade Commission) to the tribunal within 60 days of delivery of the request.

2. A decision issued by the Commission under paragraph 1 shall be binding on the tribunal, and any decision or award issued by the tribunal must be consistent with that decision. If the Commission fails to issue such a decision within 60 days, the tribunal shall decide the issue.

Article 10.24: Expert Reports

Without prejudice to the appointment of other kinds of experts where authorized by the applicable arbitration rules, a tribunal, at the request of a disputing party or, unless the disputing parties disapprove, on its own initiative, may appoint one or more experts to report to it in writing on any factual issue concerning environmental, health, safety, or other scientific matters raised by a disputing party in a proceeding, subject to such terms and conditions as the disputing parties may agree.

\(^7\) The “law of the respondent” means the law that a domestic court or tribunal of proper jurisdiction would apply in the same case.
Article 10.25: Consolidation

1. Where two or more claims have been submitted separately to arbitration under Article 10.16.1 and the claims have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of paragraphs 2 through 10.

2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the Secretary-General and to all the disputing parties sought to be covered by the order and shall specify in the request:

   (a) the names and addresses of all the disputing parties sought to be covered by the order;

   (b) the nature of the order sought; and

   (c) the grounds on which the order is sought.

3. Unless the Secretary-General finds within 30 days after receiving a request under paragraph 2 that the request is manifestly unfounded, a tribunal shall be established under this Article.

4. Unless all the disputing parties sought to be covered by the order otherwise agree, a tribunal established under this Article shall comprise three arbitrators:

   (a) one arbitrator appointed by agreement of the claimants;

   (b) one arbitrator appointed by the respondent; and

   (c) the presiding arbitrator appointed by the Secretary-General, provided, however, that the presiding arbitrator shall not be a national of any Party.

5. If, within 60 days after the Secretary-General receives a request made under paragraph 2, the respondent fails or the claimants fail to appoint an arbitrator in accordance with paragraph 4, the Secretary-General, on the request of any disputing party sought to be covered by the order, shall appoint the arbitrator or arbitrators not yet appointed. If the respondent fails to appoint an arbitrator, the Secretary-General shall appoint a national of the disputing Party, and if the claimants fail to appoint an arbitrator, the Secretary-General shall appoint a national of a Party of the claimants.

6. Where a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration under Article 10.16.1 have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:

   (a) assume jurisdiction over, and hear and determine together, all or part of the claims;
(b) assume jurisdiction over, and hear and determine one or more of the claims, the
determination of which it believes would assist in the resolution of the others; or

(c) instruct a tribunal previously established under Article 10.19 to assume
jurisdiction over, and hear and determine together, all or part of the claims,
provided that

(i) that tribunal, at the request of any claimant not previously a disputing
party before that tribunal, shall be reconstituted with its original members,
except that the arbitrator for the claimants shall be appointed pursuant to
paragraphs 4(a) and 5; and

(ii) that tribunal shall decide whether any prior hearing shall be repeated.

7. Where a tribunal has been established under this Article, a claimant that has submitted a
claim to arbitration under Article 10.16.1 and that has not been named in a request made under
paragraph 2 may make a written request to the tribunal that it be included in any order made
under paragraph 6, and shall specify in the request:

(a) the name and address of the claimant;

(b) the nature of the order sought; and

(c) the grounds on which the order is sought.

The claimant shall deliver a copy of its request to the Secretary-General.

8. A tribunal established under this Article shall conduct its proceedings in accordance with
the UNCITRAL Arbitration Rules, except as modified by this Section.

9. A tribunal established under Article 10.19 shall not have jurisdiction to decide a claim, or
a part of a claim, over which a tribunal established or instructed under this Article has assumed
jurisdiction.

10. On application of a disputing party, a tribunal established under this Article, pending its
decision under paragraph 6, may order that the proceedings of a tribunal established under
Article 10.19 be stayed, unless the latter tribunal has already adjourned its proceedings.

**Article 10.26: Awards**

1. Where a tribunal makes a final award against a respondent, the tribunal may award,
separately or in combination, only:

(a) monetary damages and any applicable interest;

(b) restitution of property, in which case the award shall provide that the respondent
may pay monetary damages and any applicable interest in lieu of restitution.

A tribunal may also award costs and attorney’s fees in accordance with this Section and the
applicable arbitration rules.
2. Subject to paragraph 1, where a claim is submitted to arbitration under Article 10.16.1(b):
   (a) an award of restitution of property shall provide that restitution be made to the enterprise;
   (b) an award of monetary damages and any applicable interest shall provide that the sum be paid to the enterprise; and
   (c) the award shall provide that it is made without prejudice to any right that any person may have in the relief under applicable domestic law.

3. A tribunal is not authorized to award punitive damages.

4. An award made by a tribunal shall have no binding force except between the disputing parties and in respect of the particular case.

5. Subject to paragraph 6 and the applicable review procedure for an interim award, a disputing party shall abide by and comply with an award without delay.

6. A disputing party may not seek enforcement of a final award until:
   (a) in the case of a final award made under the ICSID Convention
      (i) 120 days have elapsed from the date the award was rendered and no disputing party has requested revision or annulment of the award; or
      (ii) revision or annulment proceedings have been completed; and
   (b) in the case of a final award under the ICSID Additional Facility Rules or the UNCITRAL Arbitration Rules
      (i) 90 days have elapsed from the date the award was rendered and no disputing party has commenced a proceeding to revise, set aside, or annul the award; or
      (ii) a court has dismissed or allowed an application to revise, set aside, or annul the award and there is no further appeal.

7. Each Party shall provide for the enforcement of an award in its territory.

8. If the respondent fails to abide by or comply with a final award, on delivery of a request by the Party of the claimant, a panel shall be established under Article 20.6 (Request for an Arbitral Panel). The requesting Party may seek in such proceedings:
   (a) a determination that the failure to abide by or comply with the final award is inconsistent with the obligations of this Agreement; and
   (b) in accordance with Article 20.13 (Initial Report), a recommendation that the respondent abide by or comply with the final award.
9. A disputing party may seek enforcement of an arbitration award under the ICSID Convention, the New York Convention, or the Inter-American Convention regardless of whether proceedings have been taken under paragraph 8.

10. A claim that is submitted to arbitration under this Section shall be considered to arise out of a commercial relationship or transaction for purposes of Article I of the New York Convention and Article I of the Inter-American Convention.

**Article 10.27: Service of Documents**

Delivery of notice and other documents on a Party shall be made to the place named for that Party in Annex 10-G.

(a) an enterprise;
(b) shares, stock, and other forms of equity participation in an enterprise;
(c) bonds, debentures, other debt instruments, and loans;8,9
(d) futures, options, and other derivatives;

---

8 Some forms of debt, such as bonds, debentures, and long-term notes, are more likely to have the characteristics of an investment, while other forms of debt are less likely to have such characteristics.
9 For purposes of this Agreement, claims to payment that are immediately due and result from the sale of goods or services are not investments.
10 Whether a particular type of license, authorization, permit, or similar instrument (including a concession, to the extent that it has the nature of such an instrument) has the characteristics of an investment depends on such factors as the nature and extent of the rights that the holder has under the law of the Party. Among the licenses, authorizations, permits, and similar instruments that do not have the characteristics of an investment are those that do not create any rights protected under domestic law. For greater certainty, the foregoing is without prejudice to whether any asset associated with the license, authorization, permit, or similar instrument has the characteristics of an investment.
11 The term “investment” does not include an order or judgment entered in a judicial or administrative action.
12 “Written agreement” refers to an agreement in writing, executed by both parties, that creates an exchange of rights and obligations, binding on both parties under the law applicable under Article 10.22.2. For greater certainty, (a) a unilateral act of an administrative or judicial authority, such as a permit, license, or authorization issued by a Party solely in its regulatory capacity or a decree, order, or judgment; and (b) an administrative or judicial consent decree or order, shall not be considered a written agreement.
13 For purposes of this definition, “national authority” means an authority at the central level of government.

**national** means a natural person who has the nationality of a Party according to Annex 2.1 (Country-Specific Definitions);

**non-disputing Party** means a Party that is not a party to an investment dispute;

### Annex 10-A

**Public Debt**

The rescheduling of the debts of a Central American Party or the Dominican Republic, or of such Party’s institutions owned or controlled through ownership interests by such Party, owed to the United States and the rescheduling of any of such Party’s debts owed to creditors in general are not subject to any provision of Section A other than Articles 10.3 and 10.4.

### Annex 10-B

**Customary International Law**

The Parties confirm their shared understanding that “customary international law” generally and as specifically referenced in Articles 10.5, 10.6, and Annex 10-C results from a general and consistent practice of States that they follow from a sense of legal obligation. With regard to Article 10.5, the customary international law minimum standard of treatment of aliens refer to all customary international law principles that protect the economic rights and interests of aliens.

---

14 For greater certainty, actions taken by a Party to enforce laws of general application, such as competition laws, are not encompassed within this definition.
Annex 10-C
Expropriation

The Parties confirm their shared understanding that:

1. Article 10.7.1 is intended to reflect customary international law concerning the obligation of States with respect to expropriation.

2. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right or property interest in an investment.

3. Article 10.7.1 addresses two situations. The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through formal transfer of title or outright seizure.

4. The second situation addressed by Article 10.7.1 is indirect expropriation, where an action or series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.

(a) The determination of whether an action or series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors:

   (i) the economic impact of the government action, although the fact that an action or series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;

   (ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations; and

   (iii) the character of the government action.

(b) Except in rare circumstances, nondiscriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety, and the environment, do not constitute indirect expropriations.

Annex 10-D
Treatment in Case of Strife

1. No investor may submit to arbitration under Section B a claim alleging that Guatemala has breached Article 10.6.2 as a result of an armed movement or civil disturbance and that the investor or the investor’s enterprise has incurred loss or damage by reason of or arising out of such movement or disturbance.

2. No investor of Guatemala may submit to arbitration under Section B a claim alleging that any other Party has breached Article 10.6.2(b).
3. The limitation set out in paragraph 1 is without prejudice to other limitations existing in Guatemala’s law with respect to an investor’s claim that Guatemala has breached Article 10.6.2.

Annex 10-E

Submission of a Claim to Arbitration

1. An investor of the United States may not submit to arbitration under Section B a claim that a Central American Party or the Dominican Republic has breached an obligation under Section A either:

   (a) on its own behalf under Article 10.16.1(a), or

   (b) on behalf of an enterprise of a Central American Party or the Dominican Republic that is a juridical person that the investor owns or controls directly or indirectly under Article 10.16.1(b),

   if the investor or the enterprise, respectively, has alleged that breach of an obligation under Section A in proceedings before a court or administrative tribunal of a Central American Party or the Dominican Republic.

2. For greater certainty, if an investor of the United States elects to submit a claim of the type described in paragraph 1 to a court or administrative tribunal of a Central American Party or the Dominican Republic, that election shall be definitive, and the investor may not thereafter submit the claim to arbitration under Section B.

3. Notwithstanding Article 10.18, an investor of the United States may not submit to arbitration under Section B a claim relating to an investment in sovereign debt instruments with a maturity of less than one year unless one year has elapsed from the date of the events giving rise to the claim.

Annex 10-F

Appellate Body or Similar Mechanism

1. Within three months of the date of entry into force of this Agreement, the Commission shall establish a Negotiating Group to develop an appellate body or similar mechanism to review awards rendered by tribunals under this Chapter. Such appellate body or similar mechanism shall be designed to provide coherence to the interpretation of investment provisions in the Agreement. The Commission shall direct the Negotiating Group to take into account the following issues, among others:

   (a) the nature and composition of an appellate body or similar mechanism;

   (b) the applicable scope and standard of review;

   (c) transparency of proceedings of an appellate body or similar mechanism;

   (d) the effect of decisions by an appellate body or similar mechanism;

   (e) the relationship of review by an appellate body or similar mechanism to the arbitral rules that may be selected under Articles 10.16 and 10.25; and
(f) the relationship of review by an appellate body or similar mechanism to existing domestic laws and international law on the enforcement of arbitral awards.

2. The Commission shall direct the Negotiating Group to provide to the Commission, within one year of establishment of the Negotiating Group, a draft amendment to the Agreement that establishes an appellate body or similar mechanism. On approval of the draft amendment by the Parties, in accordance with Article 22.2 (Amendments), the Agreement shall be so amended.

Chapter Eleven
Cross-Border Trade in Services

Article 11.1: Scope and Coverage

1. This Chapter applies to measures adopted or maintained by a Party affecting cross-border trade in services by service suppliers of another Party. Such measures include measures affecting:

(a) the production, distribution, marketing, sale, and delivery of a service;

(b) the purchase or use of, or payment for, a service;

(c) the access to and use of distribution, transport, or telecommunications networks and services in connection with the supply of a service;

(d) the presence in its territory of a service supplier of another Party; and
the provisions of a bond or other form of financial security as a condition for the supply of a service.

2. For purposes of this Chapter, “measures adopted or maintained by a Party” means measures adopted or maintained by:

   (a) central, regional, or local governments and authorities; and

   (b) non-governmental bodies in the exercise of powers delegated by central, regional, or local governments or authorities.

3. Articles 11.4, 11.7, and 11.8 also apply to measures by a Party affecting the supply of a service in its territory by an investor of another Party as defined in Article 10.28 (Definitions) or a covered investment.¹

4. This Chapter does not apply to:

   (a) financial services, as defined in Article 12.20 (Definitions), except as provided in paragraph 3;

   (b) air services, including domestic and international air transportation services, whether scheduled or non-scheduled, and related services in support of air services, other than:

      (i) aircraft repair and maintenance services during which an aircraft is withdrawn from service, and

      (ii) specialty air services;

   (c) procurement; or

   (d) subsidies or grants provided by a Party, including government-supported loans, guarantees and insurance.

5. This Chapter does not impose any obligation on a Party with respect to a national of another Party seeking access to its employment market, or employed on a permanent basis in its territory, and does not confer any right on that national with respect to that access or employment.

6. This Chapter does not apply to services supplied in the exercise of governmental authority. A “service supplied in the exercise of governmental authority” means any service that is supplied neither on a commercial basis, nor in competition with one or more service suppliers.

Article 11.2: National Treatment

1. Each Party shall accord to service suppliers of another Party treatment no less favorable than that it accords, in like circumstances, to its own service suppliers.

¹ The Parties understand that nothing in this Chapter, including this paragraph, is subject to investor-state dispute settlement pursuant to Section B of Chapter Ten (Investment).
2. The treatment to be accorded by a Party under paragraph 1 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that regional level of government to service suppliers of the Party of which it forms a part.

**Article 11.3: Most-Favored-Nation Treatment**

Each Party shall accord to service suppliers of another Party treatment no less favorable than that it accords, in like circumstances, to service suppliers of any other Party or a non-Party.

**Article 11.4: Market Access**

No Party may adopt or maintain, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

(a) impose limitations on:
   
   (i) the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirement of an economic needs test,

   (ii) the total value of service transactions or assets in form of numerical quotas or the requirement of an economic needs test,

   (iii) the total number of service operations or on the total quantity of services output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test, or

   (iv) the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test; or

(b) restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service.

**Article 11.5: Local Presence**

No Party may require a service supplier of another Party to establish or maintain a representative office or any form of enterprise, or to be resident, in its territory as a condition for the cross-border supply of a service.

**Article 11.6: Non-conforming Measures**

1. Articles 11.2, 11.3, 11.4, and 11.5 do not apply to:

(a) any existing non-conforming measure that is maintained by a Party at:

---

2 This clause does not cover measures of a Party that limit inputs for the supply of services.
(i) the central level of government, as set out by that Party in its Schedule to Annex I;

(ii) a regional level of government, as set out by that Party in its Schedule to Annex I; or

(iii) a local level of government;

(b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or

(c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 11.2, 11.3, 11.4, and 11.5 do not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors or activities as set out in its Schedule to Annex II.

Article 11.7: Transparency in Developing and Applying Regulations

Further to Chapter Eighteen (Transparency):

(a) each Party shall maintain or establish appropriate mechanisms for responding to inquiries from interested persons regarding its regulations relating to the subject matter of this Chapter;

(b) at the time it adopts final regulations relating to the subject matter of this Chapter, each Party shall, to the extent possible, including on request, address in writing substantive comments received from interested persons with respect to the proposed regulations; and

(c) to the extent possible, each Party shall allow a reasonable time between publication of final regulations and their effective date.

Article 11.8: Domestic Regulation

1. Where a Party requires authorization for the supply of a service, the Party’s competent authorities shall, within a reasonable time after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the Party’s competent authorities shall provide, without undue delay, information concerning the status of the application. This obligation shall not apply to authorization requirements that are within the scope of Article 11.6.2.

2. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards, and licensing requirements do not constitute unnecessary

---

For greater certainty, “regulations” includes regulations establishing or applying to licensing authorization or criteria.
barriers to trade in services, each Party shall endeavor to ensure, as appropriate for individual sectors, that any such measures that it adopts or maintains are:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service; and

(c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

3. If the results of the negotiations related to Article VI:4 of the GATS (or the results of any similar negotiations undertaken in other multilateral fora in which the Parties participate) enter into effect for each Party, this Article shall be amended, as appropriate, after consultations between the Parties, to bring those results into effect under this Agreement. The Parties will coordinate on such negotiations as appropriate.

Article 11.9: Mutual Recognition

1. For the purposes of the fulfillment, in whole or in part, of its standards or criteria for the authorization, licensing, or certification of services suppliers, and subject to the requirements of paragraph 4, a Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in a particular country, including another Party and a non-Party. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement with the country concerned or may be accorded autonomously.

2. Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of another Party or a non-Party, nothing in Article 11.3 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of any other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for another Party, if that other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for another Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in that other Party’s territory should be recognized.

4. No Party may accord recognition in a manner that would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing, or certification of services suppliers, or a disguised restriction on trade in services.

5. Annex 11.9 applies to measures adopted or maintained by a Party relating to the licensing or certification of professional service suppliers as set out in that Annex.
Article 11.10: Transfers and Payments

1. Each Party shall permit all transfers and payments relating to the cross-border supply of services to be made freely and without delay into and out of its territory.

2. Each Party shall permit such transfers and payments relating to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent a transfer or payment through the equitable, non-discriminatory, and good faith application of its laws relating to:

   (a) bankruptcy, insolvency, or the protection of the rights of creditors;

   (b) issuing, trading, or dealing in securities, futures, options, or derivatives;

   (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;

   (d) criminal or penal offenses; or

   (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

Article 11.11: Implementation

The Parties shall consult annually, or as otherwise agreed, to review the implementation of this Chapter and consider other issues of mutual interest.

Article 11.12: Denial of Benefits

1. A Party may deny the benefits of this Chapter to a service supplier of another Party if the service is being supplied by an enterprise owned or controlled by persons of a non-Party, and the denying Party:

   (a) does not maintain diplomatic relations with the non-Party; or

   (b) adopts or maintains measures with respect to the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise.

2. Subject to Articles 18.3 (Notification and Provision of Information) and 20.4 (Consultations), a Party may deny the benefits of this Chapter to a service supplier of another Party that is an enterprise of such other Party if the enterprise has no substantial business activities in the territory of any Party, other than the denying Party, and persons of a non-Party, or the denying Party, own or control the enterprise.

Article 11.13: Specific Commitments

1. Express Delivery Services:
The Parties affirm that measures affecting express delivery services are subject to this Agreement.

For purposes of this Agreement, express delivery services means the collection, transport, and delivery, of documents, printed matter, parcels, goods, or other items on an expedited basis, while tracking and maintaining control of these items throughout the supply of the service. Express delivery services do not include (i) air transport services, (ii) services supplied in the exercise of governmental authority, or (iii) maritime transport services.4

The Parties express their desire to maintain at least the level of market openness they provided for express delivery services existing on the date this Agreement is signed.

Neither a Central American Party nor the Dominican Republic may adopt or maintain any restriction on express delivery services that is not in existence on the date this Agreement is signed. Each such Party confirms that it does not intend to direct revenues from its postal monopoly to benefit express delivery services as defined in subparagraph (b). Under title 39 of the United States Code, an independent government agency determines whether postal rates meet the requirement that each class of mail or type of mail service bear the direct and indirect postal costs attributable to that class or type plus that portion of all other costs of the U.S. Postal Service reasonably assignable to such class or type.

Each Party shall ensure that, where its monopoly supplier of postal services competes, either directly or through an affiliated company, in the supply of express delivery services outside the scope of its monopoly rights, such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with the Party’s obligations under Articles 11.2, 11.3, 11.4, 10.3 (National Treatment), or 10.4 (Most-Favored-Nation Treatment). The Parties also reaffirm their obligations under Article VIII of the GATS.5

2. A Party’s Section of Annex 11.13 sets out specific commitments by that Party.

Article 11.14: Definitions

For purposes of this Chapter:

cross-border trade in services or cross-border supply of services means the supply of a service:

(a) from the territory of one Party into the territory of another Party;

(b) in the territory of one Party by a person of that Party to a person of another Party;

4 For greater certainty, for the United States, express delivery services do not include delivery of letters subject to the Private Express Statutes (18 U.S.C. § 1693 et seq., 39 U.S.C. § 601 et seq.), but do include delivery of letters subject to the exceptions to, or suspensions promulgated under, those statutes, which permit private delivery of extremely urgent letters.

5 For greater certainty, the Parties reaffirm that nothing in this Article is subject to investor-state dispute settlement pursuant to Section B of Chapter Ten (Investment).
(c) by a national of a Party in the territory of another Party;

but does not include the supply of a service in the territory of a Party by an investor of another Party as defined in Article 10.28 (Definitions) or a covered investment;

**enterprise** means an “enterprise” as defined in Article 2.1 (Definitions of General Application), and a branch of an enterprise;

**professional services** means services, the provision of which requires specialized postsecondary education, or equivalent training or experience, and for which the right to practice is granted or restricted by a Party, but does not include services provided by trades-persons or vessel and aircraft crew members;

**service supplier of a Party** means a person of a Party that seeks to supply or supplies a service;⁶ and

**specialty air services** means any non-transportation air services, such as aerial fire-fighting, sightseeing, spraying, surveying, mapping, photography, parachute jumping, glider towing, and helicopter-lift for logging and construction, and other airborne agricultural, industrial, and inspection services.

### Annex 11.9

**Professional Services**

**Development of Professional Standards**

1. The Parties shall encourage the relevant bodies in their respective territories to develop mutually acceptable standards and criteria for licensing and certification of professional service suppliers and to provide recommendations on mutual recognition to the Commission.

2. The standards and criteria referred to in paragraph 1 may be developed with regard to the following matters:

   (a) education – accreditation of schools or academic programs;

   (b) examinations – qualifying examinations for licensing, including alternative methods of assessment such as oral examinations and interviews;

   (c) experience – length and nature of experience required for licensing;

   (d) conduct and ethics – standards of professional conduct and the nature of disciplinary action for non-conformity with those standards;

---

⁶ The Parties understand that for purposes of Articles 11.2 and 11.3, “service suppliers” has the same meaning as “services and service suppliers” in the GATS.
(e) professional development and re-certification – continuing education and ongoing requirements to maintain professional certification;

(f) scope of practice – extent of, or limitations on, permissible activities;

(g) local knowledge – requirements for knowledge of such matters as local laws, regulations, language, geography, or climate; and

(h) consumer protection – alternatives to residency requirements, including bonding, professional liability insurance, and client restitution funds, to provide for the protection of consumers.

3. On receipt of a recommendation referred to in paragraph 1, the Commission shall review the recommendation within a reasonable time to determine whether it is consistent with this Agreement. Based on the Commission’s review, each Party shall encourage its respective competent authorities, where appropriate, to implement the recommendation within a mutually agreed time.

Temporary licensing

4. Where the Parties agree, each Party shall encourage the relevant bodies in its territory to develop procedures for the temporary licensing of professional service suppliers of another Party.

Review

5. The Commission shall review the implementation of this Annex at least once every three years.

Annex 11.13
Specific Commitments

Section A: Costa Rica

1. Costa Rica shall repeal articles 2 and 9 of Law No. 6209, entitled Ley de Protección al Representante de Casas Extranjeras, dated 9 March 1978, and its regulation, and item b) of article 361 of the Código de Comercio, Law No. 3284 of 24 April 1964, effective on the date of entry into force of this Agreement.

2. Subject to paragraph 1, Costa Rica shall enact a new legal regime that shall become applicable to contracts of representation, distribution, or production, and:

   (a) shall apply principles of general contract law to such contracts;

   (b) shall be consistent with the obligations of this Agreement and the principle of freedom of contract;

   (c) shall treat such contracts as establishing an exclusive relationship only if the contract explicitly states that the relationship is exclusive;
(d) shall provide that the termination of such contracts either on their termination dates or in the circumstances described in subparagraph (e) is just cause for a goods or service supplier of another Party to terminate the contract or allow the contract to expire without renewal; and

(e) will allow contracts with no termination date to be terminated by any of the parties by giving ten months advance termination notice.

3. The absence of an express provision for settlement of disputes in a contract of representation, distribution, or production shall give rise to a presumption that the parties intended to settle any disputes through binding arbitration. Such arbitration may take place in Costa Rica. However, the presumption of an intent to submit to arbitration shall not apply where any of the parties objects to arbitration.

4. The United States and Costa Rica shall encourage parties to existing contracts of representation, distribution, or production to renegotiate such contracts so as to make them subject to the new legal regime enacted in accordance with paragraph 2.

5. In any case, the repeal of articles 2 and 9 of Law No. 6209 shall not impair any vested right, when applicable, derived from that legislation and recognized under Article 34 of the Constitución Política de la República de Costa Rica.

6. Costa Rica shall, to the maximum extent possible, encourage and facilitate the use of arbitration for the settlement of disputes in contracts of representation, distribution, or production. To this end, Costa Rica shall endeavor to facilitate the operation of arbitration centers and other effective means of alternative resolution of claims arising pursuant to Law No. 6209 or the new legal regime enacted in accordance with paragraph 2, and shall encourage the development of rules for such arbitrations that provide, to the greatest extent possible, for the prompt, low-cost, and fair resolution of such claims.

7. For purposes of this Section:

(a) contract of representation, distribution, or production has the same meaning as under Law No. 6209; and

(b) termination date means the date provided in the contract for the contract to end, or the end of a contract extension period agreed upon by the parties to the contract.

Section B: The Dominican Republic

1. The Dominican Republic shall not apply Law No. 173 to any covered contract signed after the date of entry into force of this Agreement unless the contract explicitly provides for the application of Law No. 173 and in place of Law No. 173 shall:

(a) apply principles of the Código Civil of the Dominican Republic to the covered contract;

(b) treat the covered contract in a manner consistent with the obligations of this Agreement and the principle of freedom of contract;
(c) treat the termination of the covered contract, either on its termination date or pursuant to subparagraph (d), as just cause for a goods or service supplier to terminate the contract or allow the contract to expire without renewal;

(d) if the covered contract has no termination date, allow it to be terminated by any of the parties by giving six months advance termination notice;

(e) provide that after the termination of the covered contract or the decision not to renew it:

(i) if the covered contract contains an indemnification provision, including a provision providing for no indemnification, the indemnification shall be based on such provision;

(ii) if the covered contract contains no such provision, any indemnification shall be based on actual economic damages and not on a statutory formula;

(iii) the principal shall honor any pending warranties; and

(iv) the principal shall compensate the distributor for the value of any inventory that the distributor is unable to sell by reason of the termination or decision not to renew the contract. The value of inventory shall include any customs duties, surcharges, freight expenses, internal movement costs, and inventory carrying costs paid by the distributor;

(f) allow disputes arising from the covered contract to be resolved through binding arbitration; and

(g) allow the parties to the covered contract to establish in the contract the mechanisms and forums that will be available in the case of disputes.

Nothing in subparagraph (c) shall prevent parties from demanding indemnification, when appropriate, in the form, type, and amount agreed in the contract.

2. If Law No. 173 applies to a covered contract, either because the contract was signed before the entry into force of this Agreement or the contract explicitly provides for the application of Law No. 173, and the contract is registered with the Banco Central in accordance with Article 10 of Law No. 173, the Dominican Republic shall provide, consistent with articles 46 and 47 of the Constitución de la República Dominicana, that:

(a) the amount of an indemnity for termination of a covered contract based on the factors listed in Article 3 of Law No. 173 shall be no greater than would be available to the claimant under the Código Civil of the Dominican Republic;

(b) during or after the conciliation process under Article 7 of Law No. 173, the parties to a contract may agree to resolve the dispute through binding arbitration; and
(c) the Government of the Dominican Republic and the conciliation authorities shall take all appropriate steps to encourage the resolution of disputes arising under covered contracts through binding arbitration.

3. For all covered contracts,

(a) a goods or service supplier shall not be required to pay damages or an indemnity for terminating a covered contract for just cause or allowing such a contract to expire without renewal for just cause; and

(b) a contract shall be interpreted as establishing an exclusive distributorship only to the extent that the terms of the contract explicitly state that the distributor has exclusive rights to distribute a product or service.

4. The requirement that the parties to a contract seek a negotiated settlement of any dispute through conciliation, and all other provisions of Law No. 173, shall retain all their validity and force for all contractual relations not subject to paragraph 1.

5. For purposes of this Section:

(a) covered contract means a concession contract, as defined in Law No. 173, to which a goods or service supplier of the United States or any enterprise controlled by such supplier is a party;

(b) Law No. 173 means Law No. 173, entitled “Ley sobre Protección a los Agentes Importadores de Mercancías y Productos,” dated April 6, 1966, and its modifications; and

(c) termination date means the date provided in the contract, or the end of a period of extension of a contract agreed upon by the parties to the contract.

Section C: El Salvador

1. Articles 394 through 399-B of the Código de Comercio shall apply only to contracts that were entered into after such Articles entered into force.

2. Articles 394 through 399-B of the Código de Comercio shall not apply to any distribution contract that a person of the United States enters into after the date of entry into force of this Agreement, as long as the contract so provides.

3. Parties to a distribution contract shall be permitted to establish in the contract the mechanisms and forums that will be available in the case of disputes.

4. If a distribution contract makes specific provision for indemnification, including a provision providing for no indemnification, Article 397 of the Código de Comercio shall not apply to that contract.

5. Under Salvadoran law, a distribution contract shall be treated as exclusive only if the contract states so expressly.
6. El Salvador shall encourage parties to distribution contracts made after the date of entry into force of this Agreement to include provisions providing for binding arbitration of disputes and specifying methods for determining any indemnity.

7. For purposes of this Section, distribution contract has the same meaning as under Articles 394 through 399-B of the Código de Comercio.

Section D: Guatemala

1. The Parties recognize that Guatemala, through Decree 8-98 of the Congreso de la República, which reformed the Código de Comercio de Guatemala, repealed Decree 78-71, which regulated contracts of agency, distribution, or representation, and created a new regime for agents of commerce, distributors, and representatives.

2. During the year following the date of entry into force of this Agreement, the United States and Guatemala shall encourage parties to contracts without a fixed termination date that remain subject to Decree 78-71 to renegotiate such contracts. The new contracts shall be based on the terms and conditions established by mutual agreement of the parties and on the provisions of the Código de Comercio de Guatemala, which shall regulate the activities of agents of commerce, distributors, and representatives. The United States and Guatemala shall also encourage parties to other contracts of agency, distribution, or representation that remain subject to Decree 78-71 to renegotiate such contracts so as to make them subject to the new regime referenced in paragraph 1.

3. The absence of an express provision for settlement of disputes in a contract of agency, distribution, or representation shall, to the extent consistent with the Constitución Política de la República de Guatemala, give rise to a rebuttable presumption that the parties intended to settle any disputes through binding arbitration.

4. The United States and Guatemala shall encourage the parties to contracts of agency, distribution, or representation to settle any disputes through binding arbitration. In particular, if the amount and form of any indemnification payment is not established in the contract and a party wishes to terminate the contract, the parties may agree to arbitration to establish the amount, if any, of the indemnity.

5. For purposes of this Section:

(a) termination date means the date provided in the contract for the contract to end, or the end of a contract extension period agreed upon by the parties to the contract; and

(b) contract of agency, distribution, or representation has the same meaning as under Decree 78-71.

Section E: Honduras

1. The obligations set out in paragraphs 2, 3, and 4 shall not apply to:
(a) express conditions included in a contract of representation, distribution, or agency; or

(b) to contractual relations entered into before the date of entry into force of this Agreement.

2. Honduras may not require a goods or service supplier of another Party:

   (a) to supply such goods or services in Honduras by means of a representative, agent, or distributor, except as otherwise provided by law for reasons of health, safety, or consumer protection;

   (b) to offer or introduce goods or services in the territory of Honduras through existing concessionaires for such goods or services unless a contract between them requires an exclusive relationship; or

   (d) to pay damages or an indemnity for terminating a contract of representation, or agency for just cause or allowing such a contract to expire without renewal for just cause.

3. Honduras may not require that a representative, agent, or distributor be a national of Honduras or an enterprise controlled by nationals of Honduras;

4. Honduras shall provide that:

   (a) the fact that a contract of representation, distribution, or agency has reached its termination date shall be considered just cause for a goods or service supplier of another Party to terminate the contract or allow the contract to expire without renewal; and

   (b) any damages or indemnity for terminating a contract of representation, distribution, or agency, or allowing it to expire without renewal, without just cause shall be based on the general law of contracts.

Nothing in subparagraph (b) shall be construed to require Honduras to adopt any measure that affects the right of the parties to demand indemnification, when appropriate, in the form, type, and amount agreed in the contract.

5. Honduras shall provide that:

   (a) if the amount and form of any indemnification payment is not established in a contract of representation, distribution, or agency and a party wishes to terminate the contract;

      (i) the parties may agree to resolve any dispute regarding such payment in the Center for Conciliation and Arbitration of Honduras, or if the parties agree otherwise, to another arbitration center; and

      (ii) in such proceeding general principles of contract law will be applied;
(b) Decree Law No. 549 shall apply to a contract only if:

(i) the representative, distributor, or agent has registered with the Secretaría de Estado en los Despachos de Industria y Comercio, which shall be possible only if it is party to a written contract of representation, distribution, or agency; and

(ii) the contract was entered into while such law was in effect; and

(c) in any decision awarding an indemnity calculated under Article 14 of Decree Law No. 549, the amount shall be calculated as of the date of entry into force of this Agreement, expressed in terms of Honduran lempiras as of that date, and converted into U.S. dollars at the exchange rate in effect on the date of the decision.

6. Under Honduran law, a contract of representation, distribution, or agency is exclusive only if the contract states so expressly.

7. For purposes of this Section:

(a) **termination date** means the date provided in the contract for the contract to end, at 12:00 p.m. on that day, or the end of a contract extension period agreed upon by the parties to the contract; and

(b) **contract of representation, distribution, or agency** has the same meaning as under Decree Law No. 549.

(a) activities or services forming part of a public retirement plan or statutory system of social security; or

(b) activities or services conducted for the account or with the guarantee or using the financial resources of the Party, including its public entities, except that this Chapter shall apply if a Party allows any of the activities or services referred to in subparagraph (a) or (b) to be conducted by its financial institutions in competition with a public entity or a financial institution.

4. (a) Subject to subparagraph (c), for two years beginning on the date of entry into force of this Agreement, this Chapter shall not apply to:

(i) measures adopted or maintained by the Dominican Republic relating to financial institutions of Costa Rica, El Salvador, Honduras, or Nicaragua to the extent they supply banking services; investors of Costa Rica, El Salvador, Honduras, or Nicaragua, and investments of such investors, in such financial institutions in the territory of the Dominican Republic; or cross-border trade in financial services between the Dominican Republic and Costa Rica, El Salvador, Honduras, or Nicaragua; or

in the territory of Guatemala; or cross-border trade in financial services between Guatemala and the Dominican Republic.

(b) During the two-year period referred to in subparagraph (a), the Dominican Republic and each Central American Party shall seek to agree on those measures described in subparagraph (a) that shall be considered non-conforming measures pursuant to Article 12.9 and that shall be reflected in their respective Schedules to Annex III for purposes of modifying their rights and obligations with respect to each other under this Chapter.

(c) If the Commission approves any such agreement during this period, each relevant Party’s schedule shall be modified accordingly. Subparagraph (a) shall cease to apply as between the Dominican Republic and the relevant Central American Party on the date the modification takes effect.

**Article 12.2: National Treatment**

1. Each Party shall accord to investors of another Party treatment no less favorable than that it accords to its own investors, in like circumstances, with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of financial institutions and investments in financial institutions in its territory.

2. Each Party shall accord to financial institutions of another Party and to investments of investors of another Party in financial institutions treatment no less favorable than that it accords to its own financial institutions, and to investments of its own investors in financial institutions, in like circumstances, with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of financial institutions and investments.

3. For purposes of the national treatment obligations in Article 12.5.1, a Party shall accord to cross-border financial service suppliers of another Party treatment no less favorable than that it accords to its own financial service suppliers, in like circumstances, with respect to the supply of the relevant service.

**Article 12.3: Most-Favored-Nation Treatment**

1. Each Party shall accord to investors of another Party, financial institutions of another Party, investments of investors in financial institutions, and cross-border financial service suppliers of another Party treatment no less favorable than that it accords to the investors, financial institutions, investments of investors in financial institutions, and cross-border financial service suppliers of any other Party or of a non-Party, in like circumstances.

2. A Party may recognize prudential measures of another Party or of a non-Party in the application of measures covered by this Chapter. Such recognition may be:

   (a) accorded unilaterally;

   (b) achieved through harmonization or other means; or

   (c) based upon an agreement or arrangement with another Party or a non-Party.
3. A Party according recognition of prudential measures under paragraph 2 shall provide adequate opportunity to another Party to demonstrate that circumstances exist in which there are or would be equivalent regulation, oversight, implementation of regulation, and, if appropriate, procedures concerning the sharing of information between the relevant Parties.

4. Where a Party accords recognition of prudential measures under paragraph 2(c) and the circumstances set out in paragraph 3 exist, the Party shall provide adequate opportunity to another Party to negotiate accession to the agreement or arrangement, or to negotiate a comparable agreement or arrangement.

**Article 12.4: Market Access for Financial Institutions**

No Party may adopt or maintain, with respect to financial institutions of another Party, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

(a) impose limitations on:

(i) the number of financial institutions whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirements of an economic needs test;

(ii) the total value of financial service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

(iii) the total number of financial service operations or on the total quantity of financial services output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test; or

(iv) the total number of natural persons that may be employed in a particular financial service sector or that a financial institution may employ and who are necessary for, and directly related to, the supply of a specific financial service in the form of numerical quotas or the requirement of an economic needs test; or

For purposes of this Article, “financial institutions of another Party” includes financial institutions that investors of another Party seek to establish in the territory of the Party.

**Article 12.5: Cross-Border Trade**

1. Each Party shall permit, under terms and conditions that accord national treatment, crossborder financial service suppliers of another Party to supply the services specified in Annex 12.5.1.

2. Each Party shall permit persons located in its territory, and its nationals wherever located, to purchase financial services from cross-border financial service suppliers of another Party located in the territory of that other Party or of any other Party. This obligation does not require a Party to permit such suppliers to do business or solicit in its territory. Each Party may define
“doing business” and “solicitation” for purposes of this obligation, provided that those definitions are not inconsistent with paragraph 1.

3. Without prejudice to other means of prudential regulation of cross-border trade in financial services, a Party may require the registration of cross-border financial service suppliers of another Party and of financial instruments.

**Article 12.6: New Financial Services**

Each Party shall permit a financial institution of another Party to supply any new financial service that the Party would permit its own financial institutions, in like circumstances, to supply without additional legislative action by the Party. Notwithstanding Article 12.4(b), a Party may determine the institutional and juridical form through which the new financial service may be supplied and may require authorization for the supply of the service. Where a Party requires authorization to supply a new financial service, a decision shall be made within a reasonable time and the authorization may only be refused for prudential reasons.

**Article 12.7: Treatment of Certain Information**

Nothing in this Chapter requires a Party to furnish or allow access to:

(a) information related to the financial affairs and accounts of individual customers of financial institutions or cross-border financial service suppliers; or

(a) any existing non-conforming measure that is maintained by a Party at

---

1 The Parties understand that nothing in Article 12.6 prevents a financial institution of a Party from applying to another Party to request it to consider authorizing the supply of a financial service that is not supplied in the territory of any Party. The application shall be subject to the law of the Party to which the application is made and, for greater certainty, shall not be subject to the obligations of Article 12.6.
(ii) a regional level of government, as set out by that Party in its Schedule to Annex III, or

(iii) a local level of government;

(b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or

(c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Article 12.2, 12.3, 12.4, or 12.8.²

2. Annex 12.9.2 sets out certain specific commitments by each Party.

3. Annex 12.9.3 sets out, solely for purposes of transparency, supplementary information regarding certain aspects of financial services measures of a Party that the Party considers are not inconsistent with its obligations under this Chapter.

4. Articles 12.2 through 12.5 and 12.8 do not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities, as set out in its Schedule to Annex III.

5. A non-conforming measure set out in a Party’s Schedule to Annex I or II as a measure to which Article 10.3 (National Treatment), 10.4 (Most-Favored-Nation Treatment), 11.2 (National Treatment), 11.3 (Most-Favored-Nation Treatment), or 11.4 (Market Access) does not apply shall be treated as a non-conforming measure to which Article 12.2, 12.3, or 12.4, as the case may be, does not apply, to the extent that the measure, sector, subsector, or activity set out in the Schedule is covered by this Chapter.

Article 12.10: Exceptions

1. Notwithstanding any other provision of this Chapter or Chapters Ten (Investment), Thirteen (Telecommunications), including specifically Article 13.16 (Relationship to Other Chapters), or Fourteen (Electronic Commerce), and Article 11.1.3 (Scope and Coverage) with respect to the supply of financial services in the territory of a Party by an investor of another Party or a covered investment, a Party shall not be prevented from adopting or maintaining measures for prudential reasons,³ including for the protection of investors, depositors, policy holders, or persons to whom a fiduciary duty is owed by a financial institution or cross-border financial service supplier, or to ensure the integrity and stability of the financial system. Where such measures do not conform with the provisions of this Agreement referred to in this paragraph, they shall not be used as a means of avoiding the Party’s commitments or obligations under such provisions.

² For greater certainty, Article 12.5 does not apply to an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed on the date of entry into force of this Agreement, with Article 12.5.

³ It is understood that the term “prudential reasons” includes the maintenance of the safety, soundness, integrity, or financial responsibility of individual financial institutions or cross-border financial service suppliers.
2. Nothing in this Chapter or Chapters Ten (Investment), Thirteen (Telecommunications), including specifically Article 13.16 (Relationship to Other Chapters), or Fourteen (Electronic Commerce), and Article 11.1.3 (Scope and Coverage) with respect to the supply of financial services in the territory of a Party by an investor of another Party or a covered investment, applies to non-discriminatory measures of general application taken by any public entity in pursuit of monetary and related credit policies or exchange rate policies. This paragraph shall not affect a Party’s obligations under Article 10.9 (Performance Requirements) with respect to measures covered by Chapter Ten (Investment) or under Article 10.8 (Transfers) or 11.10 (Transfers and Payments).

3. Notwithstanding Articles 10.8 (Transfers) and 11.10 (Transfers and Payments), as incorporated into this Chapter, a Party may prevent or limit transfers by a financial institution or cross-border financial service supplier to, or for the benefit of, an affiliate of or person related to such institution or supplier, through the equitable, non-discriminatory, and good faith application of measures relating to maintenance of the safety, soundness, integrity, or financial responsibility of financial institutions or cross-border financial service suppliers. This paragraph does not prejudice any other provision of this Agreement that permits a Party to restrict transfers.

4. For greater certainty, nothing in this Chapter shall be construed to prevent the adoption or enforcement by any Party of measures necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter, including those relating to the prevention of deceptive and fraudulent practices or to deal with the effects of a default on financial services contracts, subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where like conditions prevail, or a disguised restriction on investment in financial institutions or cross-border trade in financial services.

**Article 12.11: Transparency**

1. The Parties recognize that transparent regulations and policies governing the activities of financial institutions and cross-border financial service suppliers are important in facilitating both access of foreign financial institutions and foreign cross-border financial service suppliers to, and their operations in, each other’s markets. Each Party commits to promote regulatory transparency in financial services.

2. In lieu of Article 18.2.2 (Publication), each Party shall, to the extent practicable:

   (a) publish in advance any regulations of general application relating to the subject matter of this Chapter that it proposes to adopt; and

   (b) provide interested persons and Parties a reasonable opportunity to comment on the proposed regulations.

4. To the extent practicable, each Party should allow reasonable time between publication of final regulations and their effective date.
5. Each Party shall ensure that the rules of general application adopted or maintained by self-regulatory organizations of the Party are promptly published or otherwise made available in such a manner as to enable interested persons to become acquainted with them.

6. Each Party shall maintain or establish appropriate mechanisms that will respond to inquiries from interested persons regarding measures of general application covered by this Chapter.

7. Each Party’s regulatory authorities shall make available to interested persons the requirements, including any documentation required, for completing applications relating to the supply of financial services.

8. On the request of an applicant, a Party’s regulatory authority shall inform the applicant of the status of its application. If the authority requires additional information from the applicant, it shall notify the applicant without undue delay.

9. A Party’s regulatory authority shall make an administrative decision on a completed application of an investor in a financial institution, a financial institution, or a cross-border financial service supplier of another Party relating to the supply of a financial service within 120 days, and shall promptly notify the applicant of the decision. An application shall not be considered complete until all relevant hearings are held and all necessary information is received.

Where it is not practicable for a decision to be made within 120 days, the regulatory authority shall notify the applicant without undue delay and shall endeavor to make the decision within a reasonable time thereafter.

**Article 12.12: Self-Regulatory Organizations**

Where a Party requires a financial institution or a cross-border financial service supplier of another Party to be a member of, participate in, or have access to, a self-regulatory organization to provide a financial service in or into the territory of that Party, the Party shall ensure observance of the obligations of Articles 12.2 and 12.3 by such self-regulatory organization.

**Article 12.13: Payment and Clearing Systems**

Under terms and conditions that accord national treatment, each Party shall grant financial institutions of another Party established in its territory access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business. This paragraph is not intended to confer access to the Party’s lender of last resort facilities.

**Article 12.14: Domestic Regulation**

Except with respect to non-conforming measures listed in its Schedule to Annex III, each Party shall ensure that all measures of general application to which this Chapter applies are administered in a reasonable, objective, and impartial manner.
Article 12.15: Expedited Availability of Insurance Services

The Parties recognize the importance of maintaining and developing regulatory procedures to expedite the offering of insurance services by licensed suppliers.

   (b) consider issues regarding financial services that are referred to it by a Party; and

All decisions of the Committee shall be taken by consensus, unless the Committee otherwise decides.

3. The Committee shall meet annually, or as otherwise agreed, to assess the functioning of this Agreement as it applies to financial services. The Committee shall inform the Commission of the results of each meeting.

Article 12.17: Consultations

1. A Party may request consultations with another Party regarding any matter arising under this Agreement that affects financial services. The other Party shall give sympathetic consideration to the request. The consulting Parties shall report the results of their consultations to the Committee.

2. Consultations under this Article shall include officials of the authorities specified in Annex 12.16.1.

3. Nothing in this Article shall be construed to require regulatory authorities participating in consultations under paragraph 1 to disclose information or take any action that would interfere with specific regulatory, supervisory, administrative, or enforcement matters.

4. Nothing in this Article shall be construed to require a Party to derogate from its relevant law regarding sharing of information among financial regulators or the requirements of an agreement or arrangement between financial authorities of two or more Parties.

Article 12.18: Dispute Settlement

1. Section A of Chapter Twenty (Dispute Settlement) applies as modified by this Article to the settlement of disputes arising under this Chapter.
2. The Parties shall establish within six months after the date of entry into force of this Agreement and maintain a roster of up to 28 individuals who are willing and able to serve as financial services panelists. Unless the Parties otherwise agree, the roster shall include up to three individuals who are nationals of each Party and up to seven individuals who are not nationals of any Party. The roster members shall be appointed by consensus and may be reappointed. Once established, a roster shall remain in effect for a minimum of three years, and shall remain in effect thereafter until the Parties constitute a new roster. The Parties may appoint a replacement where a roster member is no longer available to serve.

3. Financial services roster members, as well as financial services panelists, shall:

(a) have expertise or experience in financial services law or practice, which may include the regulation of financial institutions;

(b) be chosen strictly on the basis of objectivity, reliability, and sound judgment;

(c) be independent of, and not be affiliated with or take instructions from, any Party; and

(d) comply with a code of conduct to be established by the Commission.

(a) where the disputing Parties so agree, the panel shall be composed entirely of panelists meeting the qualifications in paragraph 3; and

(b) in any other case,

(i) each disputing Party may select panelists meeting the qualifications set out in paragraph 3 or in Article 20.8 (Qualifications of Panelists), and

(ii) if the Party complained against invokes Article 12.10, the chair of the panel shall meet the qualifications set out in paragraph 3, unless the disputing Parties otherwise agree.

(a) only the financial services sector, the complaining Party may suspend benefits only in the financial services sector;

(b) the financial services sector and any other sector, the complaining Party may suspend benefits in the financial services sector that have an effect equivalent to the effect of the measure in the Party’s financial services sector; or

(c) only a sector other than the financial services sector, the complaining Party may not suspend benefits in the financial services sector.
Article 12.19: Investment Disputes in Financial Services

1. Where an investor of a Party submits a claim under Section B of Chapter Ten (Investment) against another Party and the respondent invokes Article 12.10, on request of the respondent, the tribunal shall refer the matter in writing to the Financial Services Committee for a decision. The tribunal may not proceed pending receipt of a decision or report under this Article.

2. In a referral pursuant to paragraph 1, the Financial Services Committee shall decide the issue of whether and to what extent Article 12.10 is a valid defense to the claim of the investor. The Committee shall transmit a copy of its decision to the tribunal and to the Commission. The decision shall be binding on the tribunal.

3. Where the Financial Services Committee has not decided the issue within 60 days of the receipt of the referral under paragraph 1, the respondent or the Party of the claimant may request the establishment of an arbitral panel under Article 20.6 (Request for an Arbitral Panel). (a) require a Party or require a Party to compel any enterprise to establish, construct, acquire, lease, operate, or provide telecommunications networks or services where such networks or services are not offered to the public generally;

1 In place of the obligations established in this Chapter, Costa Rica shall undertake the specific commitments set out in Annex 13.
(b) require a Party to compel any enterprise exclusively engaged in the broadcast or cable distribution of radio or television programming to make available its broadcast or cable facilities as a public telecommunications network; or

(c) prevent a Party from prohibiting persons operating private networks from using their networks to supply public telecommunications networks or services to third parties.

**Article 13.2: Access to and Use of Public Telecommunications Services**

4. Notwithstanding paragraph 3, a Party may take such measures as are necessary to:

   (a) ensure the security and confidentiality of messages; or

   (b) protect the privacy of non-public personal data of subscribers to public telecommunications services, subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or disguised restriction on trade in services.

5. Each Party shall ensure that no condition is imposed on access to and use of public telecommunications networks or services, other than that necessary to:

   (a) safeguard the public service responsibilities of suppliers of public telecommunications networks or services, in particular their ability to make their networks or services available to the public generally; or
(b) protect the technical integrity of public telecommunications networks or services.

6. Provided that conditions for access to and use of public telecommunications networks or services satisfy the criteria set out in paragraph 5, such conditions may include:

(a) a requirement to use specified technical interfaces, including interface protocols, for interconnection with such networks or services; and

**Article 13.4: Additional Obligations Relating to Major Suppliers of Public Telecommunications Services**

*Treatment by Major Suppliers*

1. Each Party shall ensure that major suppliers in its territory accord suppliers of public telecommunications services of another Party treatment no less favorable than such major suppliers accord to their subsidiaries, their affiliates, or non-affiliated service suppliers regarding:

(b) do not impose unreasonable or discriminatory conditions or limitations on the resale of such services.⁷

**Unbundling of Network Elements**

4. (a) Each Party shall provide its telecommunications regulatory body the authority to require major suppliers in its territory to offer access to network elements on an unbundled basis on terms, conditions, and at cost-oriented rates that are reasonable, non-discriminatory, and transparent for the supply of public telecommunications services.

(b) Each Party may determine the network elements required to be made available in its territory, and the suppliers that may obtain such elements, in accordance with its law and regulations.

**Interconnection**

5. (a) General Terms and Conditions

Each Party shall ensure that major suppliers in its territory provide interconnection for the facilities and equipment of suppliers of public telecommunications services of another Party:

(iv) in a timely fashion, on terms, conditions (including technical standards and specifications), and, subject to Annex 13.4.5, cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the suppliers need not pay for network components or facilities that they do not require for the service to be provided; and

(v) on request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

(b) Options for Interconnecting with Major Suppliers

---

⁷ Where provided in its law or regulations, a Party may prohibit a reseller that obtains, at wholesale rates, a public telecommunications service available at retail to only a limited category of subscribers from offering the service to a different category of subscribers.
Each Party shall ensure that suppliers of public telecommunications services of another Party may interconnect their facilities and equipment with those of major suppliers in its territory pursuant to at least one of the following options:

(i) a reference interconnection offer or another standard interconnection offer containing the rates, terms, and conditions that the major suppliers offer generally to suppliers of public telecommunications services; or

(ii) the terms and conditions of an interconnection agreement in force or through negotiation of a new interconnection agreement.

(c) Public Availability of Interconnection Offers

(b) In carrying out subparagraph (a), each Party shall provide its telecommunications regulatory body the authority to require major suppliers in its territory to offer leased circuits services that are public telecommunications services to enterprises of another Party at flat-rate, cost-oriented prices.

Co-location

7. (a) Subject to subparagraphs (b) and (c), each Party shall ensure that major suppliers in its territory provide to suppliers of public telecommunications services of another Party physical co-location of equipment necessary for interconnection on terms, conditions, and at cost-oriented rates that are reasonable, nondiscriminatory, and transparent.
(b) Where physical co-location is not practical for technical reasons or because of space limitations, each Party shall ensure that major suppliers in its territory:

(i) provide an alternative solution, or

(ii) facilitate virtual co-location in its territory, on terms, conditions, and at cost-oriented rates that are reasonable, nondiscriminatory, and transparent.

(c) Each Party may specify in its law or regulations which premises are subject to subparagraphs (a) and (b).

Access to Rights-of-Way

8. Subject to Annex 13.4.8, each Party shall ensure that major suppliers in its territory afford access to their poles, ducts, conduits, and rights-of-way to suppliers of public telecommunications services of another Party on terms, conditions, and at rates that are reasonable and non-discriminatory.

2. Notwithstanding paragraph 1, a Party may take the actions described in subparagraphs (a) through (e) to remedy a practice of a supplier of information services that the Party has found in a particular case to be anti-competitive under its law or regulations, or to otherwise promote competition or safeguard the interests of consumers.

---

8 For purposes of applying this provision, each Party may, through its telecommunications regulatory body, classify which services in its territory are information services.
Article 13.7: Independent Regulatory Bodies⁹ and Government-Owned Telecommunications Suppliers

1. Each Party shall ensure that its telecommunications regulatory body is separate from, and not accountable to, any supplier of public telecommunications services. To this end, each Party shall ensure that its telecommunications regulatory body does not hold a financial interest or maintain an operating role in any such supplier.

2. Each Party shall ensure that the decisions and procedures of its telecommunications regulatory body are impartial with respect to all interested persons. To this end, each Party shall ensure that any financial interest that it holds in a supplier of public telecommunications services does not influence the decisions and procedures of its telecommunications regulatory body.

3. No Party may accord more favorable treatment to a supplier of public telecommunications services or to a supplier of information services than that accorded to a like supplier of another Party on the ground that the supplier receiving more favorable treatment is owned, wholly or in part, by the national government of the Party.

Article 13.8: Universal Service

Each Party shall administer any universal service obligation that it maintains in a transparent, non-discriminatory, and competitively neutral manner and shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined.

2. Each Party shall ensure that, on request, an applicant receives the reasons for the denial of a license, concession, permit, registration, or other type of authorization.

Article 13.10: Allocation and Use of Scarce Resources

1. Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers, and rights-of-way, in an objective, timely, transparent, and non-discriminatory manner.

⁹ Each Party shall endeavor to ensure that its telecommunications regulatory body has adequate resources to carry out its functions.
2. Each Party shall make publicly available the current state of allocated frequency bands but shall not be required to provide detailed identification of frequencies allocated for specific government uses.

3. For greater certainty, a Party’s measures regarding the allocation and assignment of spectrum and regarding frequency management are not measures that are per se inconsistent with Article 11.4 (Market Access), which is applied to Chapter Ten (Investment) through Article 11.1.3 (Scope and Coverage). Accordingly, each Party retains the right to establish and apply its spectrum and frequency management policies, which may limit the number of suppliers of public telecommunications services, provided that it does so in a manner that is consistent with this Agreement. Each Party also retains the right to allocate frequency bands taking into account present and future needs.

**Article 13.11: Enforcement**

Each Party shall provide its competent authority with the authority to establish and enforce the Party’s measures relating to the obligations set out in Articles 13.2 through 13.5. Such authority shall include the ability to impose effective sanctions, which may include financial penalties, injunctive relief (on an interim or final basis), or the modification, suspension, and revocation of licenses or other authorizations.

**Article 13.12: Resolution of Domestic Telecommunications Disputes**

Further to Articles 18.4 (Administrative Proceedings) and 18.5 (Review and Appeal), each Party shall ensure the following:

**Recourse to Telecommunications Regulatory Bodies**

(a) (i) Each Party shall ensure that enterprises of another Party may seek review by a telecommunications regulatory body or other relevant body to resolve disputes regarding the Party’s measures relating to a matter set out in Articles 13.2 through 13.5.

(ii) Each Party shall ensure that suppliers of public telecommunications services of another Party that have requested interconnection with a major supplier in the Party’s territory may seek review, within a reasonable and publicly available period of time after the supplier requests interconnection, by a telecommunications regulatory body to resolve disputes regarding the terms, conditions, and rates for interconnection with such major supplier.

**Reconsideration**

(b) Each Party shall ensure that any enterprise that is aggrieved or whose interests are adversely affected by a determination or decision of the Party’s telecommunications regulatory body may petition the body to reconsider that determination or decision. No Party may permit such a petition to constitute grounds for non-compliance with the determination or decision of the

telecommunications regulatory body unless an appropriate authority stays such determination or decision.

**Judicial Review**

(c) Each Party shall ensure that any enterprise that is aggrieved or whose interests are adversely affected by a determination or decision of the Party’s telecommunications regulatory body may obtain judicial review of such determination or decision by an independent judicial authority.

**Article 13.13: Transparency**

Further to Articles 18.2 (Publication) and 18.3 (Notification and Provision of Information), each Party shall ensure that:

(a) rulemakings, including the basis for such rulemakings, of its telecommunications regulatory body and end-user tariffs filed with its telecommunications regulatory body are promptly published or otherwise made publicly available;

(b) interested persons are provided with adequate advance public notice of, and the opportunity to comment on, any rulemaking that its telecommunications regulatory body proposes; and

(c) its measures relating to public telecommunications services are made publicly available, including measures relating to:

(i) tariffs and other terms and conditions of service;

(vi) notification, permit, registration, or licensing requirements, if any.

**Article 13.14: Flexibility in the Choice of Technologies**

No Party may prevent suppliers of public telecommunications services from having the flexibility to choose the technologies that they use to supply their services, including commercial mobile wireless services, subject to requirements necessary to satisfy legitimate public policy interests.
Article 13.15: Forbearance

The Parties recognize the importance of relying on market forces to achieve wide choices in the supply of telecommunications services. To this end, each Party may forbear from applying a regulation to a service that the Party classifies as a public telecommunications service, if its telecommunications regulatory body determines that:

(a) enforcement of such regulation is not necessary to prevent unreasonable or discriminatory practices;
(b) enforcement of such regulation is not necessary for the protection of consumers; and
(c) forbearance is consistent with the public interest, including promoting and enhancing competition between suppliers of public telecommunications services.

Annex 13
Specific Commitments of Costa Rica on Telecommunications Services

I. Preamble

The Government of the Republic of Costa Rica:

acknowledging the unique nature of the Costa Rican social policy on telecommunications, and reaffirming its decision to ensure that the process of opening its telecommunications services sector must be based on its Constitution;

emphasizing that such process shall be to the benefit of the user and shall be based on the principles of graduality, selectivity, and regulation, and in strict conformity with the social objectives of universality and solidarity in the supply of telecommunications services; and

recognizing its commitment to strengthen and modernize the Instituto Costarricense de Electricidad (ICE) as a market participant in a competitive telecommunications marketplace while ensuring that the use of its infrastructure shall be remunerated and to develop a regulatory body to oversee market development;

undertakes through this Annex the following specific commitments on telecommunications services.

II. Modernization of ICE

Costa Rica shall enact a new legal framework to strengthen ICE, through its appropriate modernization, no later than December 31, 2004.

III. Selective and Gradual Market Opening Commitments

1. Market Access Standstill

Costa Rica shall allow service providers of another Party to supply telecommunications services on terms and conditions that are no less favorable than those established by or granted pursuant to its legislation in force on January 27, 2003.

2. Gradual and Selective Opening of Certain Telecommunications Services

(a) As provided in Annex I, Costa Rica shall allow telecommunications services providers of another Party, on a non-discriminatory basis, to effectively compete
to supply directly to the customer, through the technology of their choice, the following telecommunications services in its territory:¹

(i) Private network services,² no later than January 1, 2006;
(ii) Internet services,³ no later than January 1, 2006; and
(iii) mobile wireless services,⁴ no later than January 1, 2007.

(b) Subparagraph (a) shall also apply to any other telecommunications service that Costa Rica may decide to allow in the future.

IV. Regulatory Principles⁵

The regulatory framework on telecommunications services that the Government of Costa Rica shall have in force as of January 1, 2006, shall conform, among others, to the following provisions:

1. Universal Service

Costa Rica has the right to define the kind of universal service obligations it wishes to maintain. Such obligations will not be regarded as anti-competitive per se, provided they are administered in a transparent, non-discriminatory, and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined.

2. Independence of the Regulatory Authority

Costa Rica shall establish or maintain a regulatory authority for telecommunications services, which shall be separate from and not accountable to any supplier of telecommunications services. Costa Rica shall ensure that its telecommunications regulatory authority is authorized to impose effective sanctions to enforce domestic measures relating to the obligations set out in this Annex. This regulatory authority may include jurisdiction over spectrum management, universal service, tariffing, and licensing of new market entrants. The decisions and the procedures of the regulatory authority shall be impartial with respect to all market participants.

¹ If Costa Rica requires a license for the provision of a listed service, Costa Rica shall make licenses available within the timeframes specified in this subparagraph.
² Private network services (closed-user group services) mean networks provided for communications with no interconnection to the public switched telecommunications network at either end. Nothing in this Annex shall be construed to prevent Costa Rica from prohibiting persons operating private networks from using their networks to supply public telecommunications networks or services to third parties.

⁴ Mobile wireless services mean voice, data, and/or broadband services provided by radio electric means in specifically allocated bands, using mobile or fixed terminal equipment, using cellular, PCS (Personal Communications Service), satellite, or any other similar technology that may be developed in the future for these services.
⁵ For greater certainty, this section does not create market access rights or obligations.
3. **Transparency**

Costa Rica shall ensure that applicable procedures for interconnection to a major supplier and either its interconnection agreements or referenced interconnection offers are made publicly available. Costa Rica shall also make publicly available all licensing or authorization criteria and procedures required for telecommunications service suppliers, and the terms and conditions of all licenses or authorizations issued.

4. **Allocation and Use of Scarce Resources**

Costa Rica shall ensure that procedures for the allocation and use of limited resources, including frequencies, numbers, and rights of way, are administered in an objective, timely, transparent, and non-discriminatory manner by a competent domestic authority. The Republic of Costa Rica shall issue licenses for use of spectrum directly to the service providers, in accordance with article 121, item 14 of the *Constitución Política de la República de Costa Rica*.

5. **Regulated Interconnection**

   (a) Costa Rica shall ensure that public telecommunications services suppliers of another Party are provided interconnection with a major supplier in a timely fashion, under non-discriminatory terms, conditions, and cost-oriented rates that are transparent, reasonable, and having regard to economic feasibility.

   (b) Costa Rica shall also ensure that a service supplier requesting interconnection with a major supplier has recourse to an independent domestic body, which may be the regulatory authority referred to in paragraph 2, to resolve disputes regarding appropriate terms, conditions, and rates for interconnection within a reasonable time.

6. **Access to and Use of the Network**

   (a) Costa Rica shall ensure that enterprises of another Party have access to and use of any public telecommunications services, including leased circuits, offered in its territory or across its borders, on reasonable and non-discriminatory terms and conditions and are permitted to:

   (i) purchase or lease and attach terminal or other equipment that interfaces with a public telecommunications network;

   (ii) provide services to individual or multiple end-users over leased or owned circuits;

(iv) perform switching, signaling, processing, and conversion functions, and use operating protocols of their choice; and

(v) use public telecommunications services for the movement of information contained in databases or otherwise stored in machine-readable form in the territory of any Party.

(b) Notwithstanding subparagraph (a), Costa Rica may take such measures as are necessary to ensure the security and confidentiality of messages or to protect the privacy of non-public personal data of subscribers to public telecommunications services, subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or disguised restriction on trade in services.

(c) Costa Rica shall also ensure that no condition is imposed on access to and use of public telecommunications networks or services, other than that necessary to safeguard the public service responsibilities of providers of public telecommunications networks or services, in particular their ability to make their networks or services available to the public generally, or protect the technical integrity of public telecommunications networks or services.

7. **Provision of Information Services**

(ii) cost-justify rates for such services;

(iii) file tariffs for such services;

(iv) interconnect its networks with any particular customer for the supply of such services; or

(v) conform to any particular standard or technical regulation for interconnection other than that for interconnection to a public telecommunications network.

regulations, or to otherwise promote competition or safeguard the interests of consumers.

8. **Competition**

Costa Rica shall maintain appropriate measures for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in anti-competitive practices, such as not making available, on a timely basis, to suppliers of public telecommunications services, technical information about essential facilities and commercially relevant information that is necessary for them to provide public telecommunications services.

9. **Submarine Cable Systems**

Costa Rica shall ensure reasonable and non-discriminatory treatment for access to submarine cable systems (including landing facilities) in its territory, where a supplier is authorized to operate such submarine cable system as a public telecommunications service.

10. **Flexibility in the Choice of Technologies**

Costa Rica may not prevent suppliers of public telecommunications services from having the flexibility to choose the technologies that they use to supply their services, subject to requirements necessary to satisfy legitimate public policy interests.

**Annex 13.3**

**Rural Telephone Suppliers**

1. A state regulatory authority in the United States may exempt a rural local exchange carrier, as defined in section 251(f)(2) of the *Communications Act of 1934*, as amended, from the obligations contained in paragraphs 2 through 4 of Article 13.3 and from the obligations contained in Article 13.4.

2. Article 13.4 does not apply to rural telephone companies in the United States, as defined in section 3(37) of the *Communications Act of 1934*, as amended, unless a state regulatory authority orders otherwise.

3. El Salvador, Guatemala, Honduras, and Nicaragua may designate and exempt a rural telephone company in its territory from paragraphs 2 through 4 of Article 13.3 and from Article 13.4, provided that the rural telephone company supplies public telecommunications services to fewer than two percent of the subscriber lines installed in the Party’s territory. The number of subscriber lines supplied by a rural telephone company includes all subscriber lines supplied by the company, and by its owners, subsidiaries, and affiliates.

4. Nothing in this Annex shall be construed to preclude a Party from imposing the requirements set out in Article 13.4 on rural telephone companies.
Annex 13.4.5

1. For any Party that does not have an existing commitment under the GATS to ensure that a major supplier in its territory provides interconnection at cost-oriented rates, the obligation under Article 13.4.5 to ensure the provision of cost-oriented interconnection shall become effective:

   (a) two years after the date of entry into force of this Agreement; or

   (b) January 1, 2007, whichever is earlier.

2. During the transition period, each such Party shall ensure that major suppliers of public telecommunications services in its territory:

   (a) do not charge interconnection rates above the rates charged on December 31, 2003; and

   (b) proportionally reduce interconnection rates as necessary to ensure that a cost-oriented interconnection rate has been achieved by the end of the transition period.

Annex 13.4.8

Article 13.4.8 shall apply with respect to El Salvador beginning when its law provides that poles, ducts, conducts, and rights-of-way constitute essential resources. […]

Chapter Fifteen
Intellectual Property Rights

Article 15.1: General Provisions

1. Each Party shall, at a minimum, give effect to this Chapter. A Party may, but shall not be obliged to, implement in its domestic law more extensive protection and enforcement of intellectual property rights than is required under this Chapter, provided that such protection and enforcement does not contravene this Chapter.

2. Each Party shall ratify or accede to the following agreements by the date of entry into force of this Agreement:

   (a) the WIPO Copyright Treaty (1996); and

   (b) the WIPO Performances and Phonograms Treaty (1996).

3. Each Party shall ratify or accede to the following agreements by January 1, 2006:

   (a) the Patent Cooperation Treaty, as revised and amended (1970); and
(b) the *Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure* (1980).

4. Each Party shall ratify or accede to the following agreements by January 1, 2008:

(a) the *Convention Relating to the Distribution of Programme-Carrying Signals Transmitted by Satellite* (1974); and

(b) the *Trademark Law Treaty* (1994).

(b) Subparagraph (a) shall not apply to any Party that provides effective patent protection for plants by the date of entry into force of this Agreement. Such Parties shall make all reasonable efforts to ratify or accede to the UPOV Convention 1991.

6. Each Party shall make all reasonable efforts to ratify or accede to the following agreements:

(a) the *Patent Law Treaty* (2000);

(b) the *Hague Agreement Concerning the International Registration of Industrial Designs* (1999); and

(c) the *Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks* (1989).

7. Further to Article 1.3 (Relation to Other Agreements), the Parties affirm their existing rights and obligations under the TRIPS Agreement and intellectual property agreements concluded or administered under the auspices of the World Intellectual Property Organization (WIPO) and to which they are party.

8. In respect of all categories of intellectual property covered in this Chapter, each Party shall accord to nationals² of the other Parties treatment no less favorable than it accords to its

¹ The Parties recognize that the UPOV Convention 1991 contains exceptions to the breeder’s right, including for acts done privately and for non-commercial purposes, such as private and non-commercial acts of farmers. Further, the Parties recognize that the UPOV Convention 1991 provides for restrictions to the exercise of a breeder’s right for reasons of public interest, provided that the Parties take all measures necessary to ensure that the breeder receives equitable remuneration. The Parties also understand that each Party may avail itself of these exceptions and restrictions. Finally, the Parties understand that there is no conflict between the UPOV Convention 1991 and a Party’s ability to protect and conserve its genetic resources.

² For purposes of Articles 15.1.8, 15.1.9, 15.4.2, and 15.7.1, a national of a Party shall also mean, in respect of the relevant right, an entity located in that Party that would meet the criteria for eligibility for protection provided for in the agreements listed in Article 15.1.2 through 15.1.6 and the TRIPS Agreement.
own nationals with regard to the protection\(^3\) and enjoyment of such intellectual property rights and any benefits derived from such rights.

9. A Party may derogate from paragraph 8 in relation to its judicial and administrative procedures, including any procedure requiring a national of another Party to designate for service of process an address in its territory or to appoint an agent in its territory, provided that such derogation:

   (a) is necessary to secure compliance with laws and regulations that are not inconsistent with this Chapter; and

   (b) is not applied in a manner that would constitute a disguised restriction on trade.

10. Paragraph 8 does not apply to procedures provided in multilateral agreements to which the Parties are party concluded under the auspices of WIPO in relation to the acquisition or maintenance of intellectual property rights.

11. Except as it provides otherwise, this Chapter gives rise to obligations in respect of all subject matter existing on the date of entry into force of this Agreement that is protected on that date in the Party where protection is claimed, or that meets or comes subsequently to meet the criteria for protection under this Chapter.

12. Except as otherwise provided in this Chapter, a Party shall not be required to restore protection to subject matter that on the date of entry into force of this Agreement has fallen into the public domain in the Party where the protection is claimed.

13. This Chapter does not give rise to obligations in respect of acts that occurred before the date of entry into force of this Agreement.

14. Each Party shall ensure that all laws, regulations, and procedures concerning the protection or enforcement of intellectual property rights shall be in writing and shall be published\(^4\), or where such publication is not practicable, made publicly available, in a national language in such a manner as to enable governments and right holders to become acquainted with them, with the object of making the protection and enforcement of intellectual property rights transparent.

15. Nothing in this Chapter shall be construed to prevent a Party from adopting measures necessary to prevent anticompetitive practices that may result from the abuse of the intellectual property rights set out in this Chapter, provided that such measures are consistent with this Chapter.

16. Recognizing the Parties’ commitment to trade capacity building as reflected in the establishment of the Committee on Trade Capacity Building under Article 19.4 (Committee on Trade Capacity Building) and the importance of trade capacity building activities, the Parties

---

\(^3\) For purposes of this paragraph, “protection” shall include matters affecting the availability, acquisition, scope, maintenance, and enforcement of intellectual property rights as well as matters affecting the use of intellectual property rights specifically covered by this Chapter. Further, for purposes of this paragraph, “protection” shall also include the prohibition on circumvention of effective technological measures set out in Article 15.5.7 and the rights and obligations concerning rights management information set out in Article 15.5.8.

\(^4\) A Party may satisfy the requirement for publication by making the measure available to the public on the Internet.
shall cooperate through that Committee in the following initial capacity-building priority activities, on mutually agreed terms and conditions, and subject to the availability of appropriated funds:

(a) educational and dissemination projects on the use of intellectual property as a research and innovation tool, as well as on the enforcement of intellectual property rights;

(b) appropriate coordination, training, specialization courses, and exchange of information between the intellectual property offices and other institutions of the Parties; and

(c) enhancing the knowledge, development, and implementation of the electronic systems used for the management of intellectual property.

Article 15.2: Trademarks

1. Each Party shall provide that trademarks shall include collective, certification, and sound marks, and may include geographical indications and scent marks. A geographical indication is capable of constituting a mark to the extent that the geographical indication consists of any sign, or any combination of signs, capable of identifying a good or service as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good or service is essentially attributable to its geographical origin.

2. In view of the obligations of Article 20 of the TRIPS Agreement, each Party shall ensure that measures mandating the use of the term customary in common language as the common name for a good or service ("common name") including, inter alia, requirements concerning the relative size, placement, or style of use of the trademark in relation to the common name, do not impair the use or effectiveness of trademarks used in relation to such goods.

3. Each Party shall provide that the owner of a registered trademark shall have the exclusive right to prevent all third parties not having the owner’s consent from using in the course of trade identical or similar signs, including geographical indications, for goods or services that are related to those goods or services in respect of which the owner’s trademark is registered, where such use would result in a likelihood of confusion. In case of the use of an identical sign, including a geographical indication, for identical goods or services, a likelihood of confusion shall be presumed.

4. Each Party may provide limited exceptions to the rights conferred by a trademark, such as fair use of descriptive terms, provided that such exceptions take account of the legitimate interest of the owner of the trademark and of third parties.

5. Article 6bis of the Paris Convention for the Protection of Industrial Property (1967) (Paris Convention) shall apply, mutatis mutandis, to goods or services that are not identical or similar to those identified by a well-known trademark, whether registered or not, provided that use of that trademark in relation to those goods or services would indicate a connection between

---

5 For purposes of this Chapter, “originating” does not have the meaning ascribed to that term in Article 2.1 (Definitions of General Application).

6 In determining whether a trademark is well known, the reputation of the trademark need not extend beyond the sector of the public that normally deals with the relevant goods or services.
those goods or services and the owner of the trademark, and provided that the interests of the owner of the trademark are likely to be damaged by such use.

6. Each Party shall provide a system for the registration of trademarks, which shall include:

(a) providing to the applicant a communication in writing, which may be electronic, of the reasons for any refusal to register a trademark;

(b) an opportunity for the applicant to respond to communications from the trademark authorities, to contest an initial refusal, and to appeal judicially a final refusal to register;

(c) an opportunity for interested parties to petition to oppose a trademark application or to seek cancellation of a trademark after it has been registered; and

(d) a requirement that decisions in opposition or cancellation proceedings be reasoned and in writing.

7. Each Party shall provide, to the maximum degree practical, a system for the electronic application, processing, registration, and maintenance of trademarks, and work to provide, to the maximum degree practical, a publicly available electronic database – including an on-line database – of trademark applications and registrations.

8. (a) Each Party shall provide that each registration or publication that concerns a trademark application or registration and that indicates goods or services shall indicate the goods or services by their common names, grouped according to the classes of the classification established by the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks (1979), as revised and amended (Nice Classification).

(b) Each Party shall provide that goods or services may not be considered as being similar to each other solely on the ground that, in any registration or publication, they appear in the same class of the Nice Classification. Conversely, each Party shall provide that goods or services may not be considered as being dissimilar from each other solely on the ground that, in any registration or publication, they appear in different classes of the Nice Classification.

9. Each Party shall provide that initial registration and each renewal of registration of a trademark shall be for a term of no less than ten years.

10. No Party may require recordal of trademark licenses to establish the validity of the license, to assert any rights in a trademark, or for other purposes.7

---

7 A Party may establish a means to allow licensees to record licenses for the purpose of providing notice to the public as to the existence of the license. However, no Party may make notice to the public a requirement for asserting any rights under the license.
Article 15.3: Geographical Indications

Definition

1. For purposes of this Article, geographical indications are indications that identify a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good is essentially attributable to its geographical origin. Any sign or combination of signs, in any form whatsoever, shall be eligible to be a geographical indication.

Procedures with Respect to Geographical Indications

2. Each Party shall provide the legal means to identify and protect geographical indications of the other Parties that meet the criteria of paragraph 1. Each Party shall provide the means for persons of another Party to apply for protection or petition for recognition of geographical indications. Each Party shall accept applications and petitions from persons of another Party without the requirement for intercession by that Party on behalf of its persons.

3. Each Party shall process applications or petitions, as the case may be, for geographical indications with a minimum of formalities.

4. Each Party shall make its regulations governing filing of such applications or petitions, as the case may be, readily available to the public.

5. Each Party shall ensure that applications or petitions, as the case may be, for geographical indications are published for opposition, and shall provide procedures for opposing geographical indications that are the subject of applications or petitions. Each Party shall also provide procedures to cancel any registration resulting from an application or a petition.

6. Each Party shall ensure that measures governing the filing of applications or petitions, as the case may be, for geographical indications set out clearly the procedures for these actions. Each Party shall make available contact information sufficient to allow (a) the general public to obtain guidance concerning the procedures for filing applications or petitions and the processing of those applications or petitions in general; and (b) applicants, petitioners, or their representatives to ascertain the status of, and to obtain procedural guidance concerning, specific applications and petitions.

Relationship between Trademarks and Geographical Indications

7. Each Party shall ensure that grounds for refusing protection or recognition of a geographical indication include the following:

   (a) the geographical indication is likely to be confusingly similar to a trademark that is the subject of a good-faith pending application or registration; and

---

8 For purposes of this paragraph, legal means to identify means a system that permits applicants to provide information on the quality, reputation, or other characteristics of the asserted geographical indication.
(b) the geographical indication is likely to be confusingly similar to a pre-existing trademark, the rights to which have been acquired in accordance with the Party’s law.9

Article 15.4: Domain Names on the Internet

1. In order to address trademark cyber-piracy, each Party shall require that the management of its country-code top-level domain (ccTLD) provides an appropriate procedure for the settlement of disputes based on the principles established in the Uniform Domain-Name Dispute-Resolution Policy.

2. Each Party shall require that the management of its ccTLD provides on-line public access to a reliable and accurate database of contact information for domain-name registrants. In determining the appropriate contact information, the management of a Party’s ccTLD may give due regard to the Party’s laws protecting the privacy of its nationals.

Article 15.5: Obligations Pertaining to Copyright and Related Rights

1. Each Party shall provide that authors, performers, and producers of phonograms10 have the right11 to authorize or prohibit all reproductions of their works, performances, or phonograms, in any manner or form, permanent or temporary (including temporary storage in electronic form).12

2. Each Party shall provide to authors, performers, and producers of phonograms the right to authorize the making available to the public of the original and copies of their works, performances, and phonograms13 through sale or other transfer of ownership.

3. In order to ensure that no hierarchy is established between rights of authors, on the one hand, and rights of performers and producers of phonograms, on the other hand, each Party shall establish that in cases where authorization is needed from both the author of a work embodied in a phonogram and a performer or producer owning rights in the phonogram, the need for the authorization of the author does not cease to exist because the authorization of the performer or producer is also required. Likewise, each Party shall establish that in cases where authorization is needed from both the author of a work embodied in a phonogram and of a performer or producer owning rights in the phonogram, the need for the authorization of the performer or producer does not cease to exist because the authorization of the author is also required.

---

9 For purposes of this paragraph, the Parties understand that each Party has already established grounds for refusing protection of a trademark under its law, including that (a) the trademark is likely to be confusingly similar to a geographical indication that is the subject of a registration; and (b) the trademark is likely to be confusingly similar to a pre-existing geographical indication, the rights to which have been acquired in accordance with the Party’s law.
10 References in this Chapter to “authors, performers, and producers of phonograms” include any successors in interest.
11 With respect to copyrights and related rights in this Chapter, a right to authorize or prohibit or a right to authorize means an exclusive right.
12 The Parties understand that the reproduction right as set out in this paragraph and in Article 9 of the Berne Convention for the Protection of Literary and Artistic Works (1971) (Berne Convention) and the exceptions permitted under the Berne Convention and Article 15.5.10(a) fully apply in the digital environment, in particular to the use of works in digital form.
13 With respect to copyright and related rights in this Chapter, a “performance” refers to a performance fixed in a phonogram, unless otherwise specified.
4. Each Party shall provide that, where the term of protection of a work (including a photographic work), performance, or phonogram is to be calculated:

   (a) on the basis of the life of a natural person, the term shall be not less than the life of the author and 70 years after the author’s death; and

   (b) on a basis other than the life of a natural person, the term shall be:

       (i) not less than 70 years from the end of the calendar year of the first authorized publication of the work, performance, or phonogram, or

       (ii) failing such authorized publication within 50 years from the creation of the work, performance, or phonogram, not less than 70 years from the end of the calendar year of the creation of the work, performance, or phonogram.

5. Each Party shall apply the provisions of Article 18 of the Berne Convention and Article 14.6 of the TRIPS Agreement, mutatis mutandis, to the subject matter, rights, and obligations provided for in this Article and Articles 15.6 and 15.7.

6. Each Party shall provide that for copyright and related rights:

   (a) any person acquiring or holding any economic right in a work, performance, or phonogram may freely and separately transfer such right by contract; and

   (b) any person acquiring or holding any such economic right by virtue of a contract, including contracts of employment underlying the creation of works and performances, and production of phonograms, shall be able to exercise such right in that person’s own name and enjoy fully the benefits derived from such right.

7. (a) In order to provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that authors, performers, and producers of phonograms use in connection with the exercise of their rights and that restrict unauthorized acts in respect of their works, performances, and phonograms, each Party shall provide that any person who:

       (i) circumvents without authority any effective technological measure that controls access to a protected work, performance, phonogram, or other subject matter; or

       (ii) manufactures, imports, distributes, offers to the public, provides, or otherwise traffics in devices, products, or components, or offers to the public or provides services, that:

           (A) are promoted, advertised, or marketed for the purpose of circumvention of any effective technological measure; or

           (B) have only a limited commercially significant purpose or use other than to circumvent any effective technological measure; or
are primarily designed, produced, or performed for the purpose of enabling or facilitating the circumvention of any effective technological measure,

shall be liable and subject to the remedies provided for in Article 15.11.14. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public non-commercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in any of the foregoing activities.

(b) In implementing subparagraph (a), no Party shall be obligated to require that the design of, or the design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure, so long as the product does not otherwise violate any measures implementing subparagraph (a).

(c) Each Party shall provide that a violation of a measure implementing this paragraph is a separate civil cause of action or criminal offense, independent of any infringement that might occur under the Party’s law on copyright and related rights.

(d) Each Party shall confine exceptions to any measures implementing the prohibition in subparagraph (a)(ii) on technology, products, services, or devices that circumvent effective technological measures that control access to, and, in the case of clause (i), that protect any of the exclusive rights of copyright or related rights in, a protected work, performance, or phonogram referred to in subparagraph (a)(ii), to the following activities, provided that they do not impair the adequacy of legal protection or the effectiveness of legal remedies against the circumvention of effective technological measures:

(i) noninfringing reverse engineering activities with regard to a lawfully obtained copy of a computer program, carried out in good faith with respect to particular elements of that computer program that have not been readily available to the person engaged in those activities, for the sole purpose of achieving interoperability of an independently created computer program with other programs;

(ii) noninfringing good faith activities, carried out by an appropriately qualified researcher who has lawfully obtained a copy, unfixed performance or display of a work, performance, or phonogram, and who has made a good faith effort to obtain authorization for such activities, to the extent necessary for the sole purpose of identifying and analyzing flaws and vulnerabilities of technologies for scrambling and descrambling of information;

(iii) the inclusion of a component or part for the sole purpose of preventing the access of minors to inappropriate on-line content in a technology, product,
service, or device that itself is not prohibited under the measures implementing subparagraph (a)(ii); and

(iv) noninfringing good faith activities that are authorized by the owner of a computer, computer system, or computer network for the sole purpose of testing, investigating, or correcting the security of that computer, computer system, or computer network.

each Party shall confine exceptions to any measures implementing the prohibition referred to in subparagraph (a)(i) to the activities listed in subparagraph (d) and the following activities, provided that they do not impair the adequacy of legal protection or the effectiveness of legal remedies against the circumvention of effective technological measures:

(i) access by a nonprofit library, archive, or educational institution to a work, performance, or phonogram, not otherwise available to it, for the sole purpose of making acquisition decisions;

(ii) noninfringing activities for the sole purpose of identifying and disabling a capability to carry out undisclosed collection or dissemination of personally identifying information reflecting the on-line activities of a natural person in a way that has no other effect on the ability of any person to gain access to any work; and

(iii) noninfringing uses of a work, performance, or phonogram, in a particular class of works, performances, or phonograms, when an actual or likely adverse impact on those noninfringing uses is demonstrated in a legislative or administrative proceeding by substantial evidence; provided that in order for any such exception to remain in effect for more than four years, a Party must conduct a review before the expiration of the four-year period and at intervals of at least every four years thereafter, pursuant to which it is demonstrated in such a proceeding by substantial evidence that there is a continuing actual or likely adverse impact on the particular noninfringing use.

Each Party may provide exceptions to any measures implementing the prohibitions referred to in subparagraph (a) for lawfully authorized activities carried out by government employees, agents, or contractors for law enforcement, intelligence, essential security, or similar governmental purposes.

effective technological measure means any technology, device, or component that, in the normal course of its operation, controls access to a protected work, performance, phonogram, or other protected subject matter, or protects any copyright or any rights related to copyright.

8. In order to provide adequate legal protection and effective legal remedies to protect rights management information:

(a) Each Party shall provide that any person who, without authority, and knowing, or, with respect to civil remedies, having reasonable grounds to know, that it would
induce, enable, facilitate, or conceal an infringement of any copyright or related
right,

(i) knowingly removes or alters any rights management information;

(ii) distributes or imports for distribution rights management information
knowing that the rights management information has been removed or
altered without authority; or

(iii) distributes, imports for distribution, broadcasts, communicates or makes
available to the public copies of works, performances, or phonograms,
knowing that rights management information has been removed or altered
without authority,

shall be liable and subject to the remedies provided for in Article 15.11.14. Each
Party shall provide for criminal procedures and penalties to be applied when any
person, other than a nonprofit library, archive, educational institution, or public
non-commercial broadcasting entity, is found to have engaged willfully and for
purposes of commercial advantage or private financial gain in any of the
foregoing activities.

(b) Each Party shall confine exceptions to measures implementing subparagraph (a)
to lawfully authorized activities carried out by government employees, agents, or
contractors for law enforcement, intelligence, national defense, essential security,
or similar governmental purposes.

(c) Rights management information means:

(i) information that identifies a work, performance, or phonogram, the author
of the work, the performer of the performance, or the producer of the
phonogram, or the owner of any right in the work, performance, or
phonogram; or

(ii) information about the terms and conditions of the use of the work,
performance, or phonogram; or

(iii) any numbers or codes that represent such information,

when any of these items is attached to a copy of the work, performance, or
phonogram or appears in connection with the communication or making available
of a work, performance, or phonogram to the public. Nothing in this paragraph
shall obligate a Party to require the owner of any right in the work, performance,
or phonogram to attach rights management information to copies of the work,
performance, or phonogram, or to cause rights management information to appear
in connection with a communication of the work, performance, or phonogram to
the public.

9. In order to confirm that all agencies at the central level of government use computer
software only as authorized, each Party shall issue appropriate laws, orders, regulations, or
decrees to actively regulate the acquisition and management of software for such use. These
measures may take the form of procedures such as preparing and maintaining inventories of software on agency computers and inventories of software licenses.

10. (a) With respect to Articles 15.5, 15.6, and 15.7, each Party shall confine limitations or exceptions to exclusive rights to certain special cases that do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.

(b) Notwithstanding subparagraph (a) and Article 15.7.3(b), no Party may permit the retransmission of television signals (whether terrestrial, cable, or satellite) on the Internet without the authorization of the right holder or right holders of the content of the signal and, if any, of the signal.

**Article 15.6: Obligations Pertaining Specifically to Copyright**

Without prejudice to Articles 11(1)(ii), 11bis(1)(i) and (ii), 11ter(1)(ii), 14(1)(ii), and 14bis(1) of the Berne Convention, each Party shall provide to authors the exclusive right to authorize or prohibit the communication to the public of their works, directly or indirectly, by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.

**Article 15.7: Obligations Pertaining Specifically to Related Rights**

1. Each Party shall accord the rights provided for in this Chapter with respect to performers and producers of phonograms to the performers and producers of phonograms who are nationals of another Party and to performances or phonograms first published or fixed in the territory of a Party. A performance or phonogram shall be considered first published in the territory of a Party in which it is published within 30 days of its original publication.\(^\text{14}\)

2. Each Party shall provide to performers the right to authorize or prohibit:

   (a) the broadcasting and communication to the public of their unfixed performances except where the performance is already a broadcast performance; and

   (b) the fixation of their unfixed performances.

3. (a) Each Party shall provide to performers and producers of phonograms the right to authorize or prohibit the broadcasting or any communication to the public of their performances or phonograms, by wire or wireless means, including the making available to the public of those performances and phonograms in such a way that members of the public may access them from a place and at a time individually chosen by them.

   (b) Notwithstanding subparagraph (a) and Article 15.5.10, the application of this right to traditional free over-the-air noninteractive broadcasting, and exceptions or limitations to this right for such broadcasting, shall be a matter of domestic law.

---

\(^{14}\) For purposes of this Article, fixation includes the finalization of the master tape or its equivalent.
Each Party may adopt limitations to this right in respect of other noninteractive transmissions in accordance with Article 15.5.10, provided that the limitations do not prejudice the right of the performer or producer of phonograms to obtain equitable remuneration.

4. No Party may subject the enjoyment and exercise of the rights of performers and producers of phonograms provided for in this Chapter to any formality.

5. For purposes of this Article and Article 15.5, the following definitions apply with respect to performers and producers of phonograms:

(a) performers means actors, singers, musicians, dancers, and other persons who act, sing, deliver, declaim, play in, interpret, or otherwise perform literary or artistic works or expressions of folklore;

(b) phonogram means the fixation of the sounds of a performance or of other sounds, or of a representation of sounds, other than in the form of a fixation incorporated in a cinematographic or other audiovisual work;

(c) fixation means the embodiment of sounds, or of the representations thereof, from which they can be perceived, reproduced, or communicated through a device;

(d) producer of a phonogram means the person, or the legal entity, who or which takes the initiative and has the responsibility for the first fixation of the sounds of a performance or other sounds, or the representations of sounds;

(e) publication of a performance or a phonogram means the offering of copies of the fixed performance or the phonogram to the public, with the consent of the right holder, and provided that copies are offered to the public in reasonable quantity;

(f) broadcasting means the transmission by wireless means or satellite to the public of sounds or sounds and images, or of the representations thereof, including wireless transmission of encrypted signals where the means for decrypting are provided to the public by the broadcasting organization or with its consent; and

(g) communication to the public of a performance or a phonogram means the transmission to the public by any medium, otherwise than by broadcasting, of sounds of a performance or the sounds or the representations of sounds fixed in a phonogram. For purposes of paragraph 3, “communication to the public” includes making the sounds or representations of sounds fixed in a phonogram audible to the public.

**Article 15.8: Protection of Encrypted Program-Carrying Satellite Signals**

1. Each Party shall make it a criminal offense:

(a) to manufacture, assemble, modify, import, export, sell, lease, or otherwise distribute a tangible or intangible device or system, knowing or having reason to know that the device or system is primarily of assistance in decoding an encrypted
program-carrying satellite signal without the authorization of the lawful distributor of such signal; and

(b) willfully to receive and further distribute a program-carrying signal that originated as an encrypted satellite signal knowing that it has been decoded without the authorization of the lawful distributor of the signal.

2. Each Party shall provide for civil remedies, including compensatory damages, for any person injured by any activity described in paragraph 1, including any person that holds an interest in the encrypted programming signal or its content.

**Article 15.9: Patents**

1. Each Party shall make patents available for any invention, whether a product or a process, in all fields of technology, provided that the invention is new, involves an inventive step, and is capable of industrial application. For purposes of this Article, a Party may treat the terms “inventive step” and “capable of industrial application” as being synonymous with the terms “non-obvious” and “useful,” respectively.

2. Nothing in this Chapter shall be construed to prevent a Party from excluding inventions from patentability as set out in Articles 27.2 and 27.3 of the TRIPS Agreement. Notwithstanding the foregoing, any Party that does not provide patent protection for plants by the date of entry into force of this Agreement shall undertake all reasonable efforts to make such patent protection available. Any Party that provides patent protection for plants or animals on or after the date of entry into force of this Agreement shall maintain such protection.

3. A Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

4. Without prejudice to Article 5.A(3) of the Paris Convention, each Party shall provide that a patent may be revoked or cancelled only on grounds that would have justified a refusal to grant the patent. However, a Party may also provide that fraud, misrepresentation, or inequitable conduct may be the basis for revoking, canceling, or holding a patent unenforceable.

5. Consistent with paragraph 3, if a Party permits a third person to use the subject matter of a subsisting patent to generate information necessary to support an application for marketing approval of a pharmaceutical or agricultural chemical product, that Party shall provide that any product produced under such authority shall not be made, used, or sold in the territory of that Party other than for purposes related to generating information to meet requirements for approval to market the product once the patent expires, and if the Party permits exportation, the product shall only be exported outside the territory of that Party for purposes of meeting marketing approval requirements of that Party.

6. (a) Each Party, at the request of the patent owner, shall adjust the term of a patent to compensate for unreasonable delays that occur in granting the patent. For purposes of this paragraph, an unreasonable delay shall at least include a delay in the issuance of the patent of more than five years from the date of filing of the application in the territory of the Party, or three years after a request for
examination of the application has been made, whichever is later, provided that periods attributable to actions of the patent applicant need not be included in the determination of such delays.

(b) With respect to any pharmaceutical product that is covered by a patent, each Party shall make available a restoration of the patent term to compensate the patent owner for unreasonable curtailment of the effective patent term resulting from the marketing approval process related to the first commercial marketing of the product in that Party.

7. Each Party shall disregard information contained in public disclosures used to determine if an invention is novel or has an inventive step if the public disclosure (a) was made or authorized by, or derived from, the patent applicant, and (b) occurred within 12 months prior to the date of filing of the application in the territory of the Party.

8. Each Party shall provide patent applicants with at least one opportunity to submit amendments, corrections, and observations in connection with their applications.

9. Each Party shall provide that a disclosure of a claimed invention shall be considered to be sufficiently clear and complete if it provides information that allows the invention to be made and used by a person skilled in the art, without undue experimentation, as of the filing date.

10. Each Party shall provide that a claimed invention is sufficiently supported by its disclosure if the disclosure reasonably conveys to a person skilled in the art that the applicant was in possession of the claimed invention as of the filing date.

11. Each Party shall provide that a claimed invention is industrially applicable if it has a specific, substantial, and credible utility.

**Article 15.10: Measures Related to Certain Regulated Products**

1. (a) If a Party requires, as a condition of approving the marketing of a new pharmaceutical or agricultural chemical product, the submission of undisclosed data concerning safety or efficacy, the Party shall not permit third persons, without the consent of the person who provided the information, to market a product on the basis of (1) the information, or (2) the approval granted to the person who submitted the information for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date of approval in the Party.\(^{15}\)

\(^{15}\) Where a Party, on the date it implemented the TRIPS Agreement, had in place a system for protecting pharmaceutical or agricultural chemical products not involving new chemical entities from unfair commercial use that conferred a period of protection shorter than that specified in paragraph 1, that Party may retain such system notwithstanding the obligations of paragraph 1.
such approval in the other territory, to obtain authorization or to market a product on the basis of (1) evidence of prior marketing approval in the other territory, or (2) information concerning safety or efficacy that was previously submitted to obtain marketing approval in the other territory, for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date approval was granted in the Party’s territory to the person who received approval in the other territory. In order to receive protection under this subparagraph, a Party may require that the person providing the information in the other territory seek approval in the territory of the Party within five years after obtaining marketing approval in the other territory.

(e) For purposes of this paragraph, a new product is one that does not contain a chemical entity that has been previously approved in the territory of the Party.

(d) For purposes of this paragraph, each Party shall protect such undisclosed information against disclosure except where necessary to protect the public, and no Party may consider information accessible within the public domain as undisclosed data. Notwithstanding the foregoing, if any undisclosed information concerning safety and efficacy submitted to a Party, or an entity acting on behalf of a Party, for purposes of obtaining marketing approval is disclosed by such entity, the Party is still required to protect such information from unfair commercial use in the manner set forth in this Article.

2. Where a Party permits, as a condition of approving the marketing of a pharmaceutical product, persons, other than the person originally submitting safety or efficacy information, to rely on evidence or information concerning the safety and efficacy of a product that was previously approved, such as evidence of prior marketing approval in the territory of a Party or in another country, that Party:

(a) shall implement measures in its marketing approval process to prevent such other persons from marketing a product covered by a patent claiming the previously approved product or its approved use during the term of that patent, unless by consent or acquiescence of the patent owner; and

(b) shall provide that the patent owner shall be informed of the request and the identity of any such other person who requests approval to enter the market during the term of a patent identified as claiming the approved product or its approved use.

**Article 15.11: Enforcement of Intellectual Property Rights**

**General Obligations**

1. Each Party understands that procedures and remedies required under this Article for enforcement of intellectual property rights are established in accordance with:

   (a) the principles of due process that each Party recognizes; and

   (b) the foundations of its own legal system.
2. This Article does not create any obligation:

   (a) to put in place a judicial system for the enforcement of intellectual property rights distinct from that for the enforcement of law in general; or

   (b) with respect to the distribution of resources for the enforcement of intellectual property rights and the enforcement of law in general.

The Parties understand that the decisions that a Party makes on the distribution of enforcement resources shall not excuse that Party from complying with this Chapter.

3. Each Party shall provide that final judicial decisions or administrative rulings of general applicability pertaining to the enforcement of intellectual property rights shall be in writing and shall state any relevant findings of fact and the reasoning or the legal basis on which the decisions and rulings are based. Each Party shall provide that such decisions or rulings shall be published, or where such publication is not practicable, otherwise made publicly available, in a national language in such a manner as to enable governments and right holders to become acquainted with them.

4. Each Party shall publicize information that it may collect on its efforts to provide effective enforcement of intellectual property rights in its civil, administrative, and criminal system, including any statistical information.

5. In civil, administrative, and criminal proceedings involving copyright or related rights, each Party shall provide that:

   (a) the person whose name is indicated as the author, producer, performer, or publisher of the work, performance, or phonogram in the usual manner, shall, in the absence of proof to the contrary, be presumed to be the designated right holder in such work, performance, or phonogram; and

   (b) it shall be presumed, in the absence of proof to the contrary, that the copyright or related right subsists in such subject matter.

*Civil and Administrative Procedures and Remedies*

6. Each Party shall make available to right holders civil judicial procedures concerning the enforcement of any intellectual property right.

7. Each Party shall provide that:

   (a) in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities shall have the authority to order the infringer to pay the right holder:

---

16 A Party may satisfy the requirement for publication by making the document available to the public on the Internet.

17 For the purpose of this Article, the term “right holder” shall include federations and associations as well as exclusive licensees and other duly authorized licensees, as appropriate, having the legal standing and authority to assert such rights. The term “licensee” shall include the licensee of any one or more of the exclusive intellectual property rights encompassed in a given intellectual property.
(i) damages adequate to compensate for the injury the right holder has suffered as a result of the infringement; and

(ii) at least in the case of copyright or related rights infringement and trademark counterfeiting, the profits of the infringer that are attributable to the infringement and are not taken into account in computing the amount of the damages referred to in clause (i); and

(b) in determining damages for infringement of intellectual property rights, its judicial authorities shall consider, inter alia, the value of the infringed-upon good or service based on the suggested retail price or other legitimate measure of value that the right holder presents.

8. In civil judicial proceedings, each Party shall, at least with respect to civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, establish or maintain pre-established damages as an alternative to actual damages. Such pre-established damages shall be set out in domestic law and determined by the judicial authorities in an amount sufficient to compensate the right holder for the harm caused by the infringement and constitute a deterrent to future infringements.

9. Each Party shall provide that its judicial authorities, except in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, that the prevailing party shall be awarded payment of court costs or fees and reasonable attorney’s fees by the losing party. Further, each Party shall provide that its judicial authorities, at least in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning patent infringement, that the prevailing party be awarded payment of reasonable attorney’s fees by the losing party.

10. In civil judicial proceedings concerning copyright or related right infringement and trademark counterfeiting, each Party shall provide that its judicial authorities shall have the authority to order the seizure of suspected infringing goods, any related materials and implements, and, at least for trademark counterfeiting, documentary evidence relevant to the infringement.

11. Each Party shall provide that:

(a) its judicial authorities shall have the authority to order, at their discretion, the destruction of the goods that have been found to be pirated or counterfeit;

(b) its judicial authorities shall have the authority to order that materials and implements that have been used in the manufacture or creation of such pirated or counterfeit goods be, without compensation of any sort, promptly destroyed or, in exceptional circumstances, without compensation of any sort, disposed of outside the channels of commerce in such a manner as to minimize the risks of further infringements. In considering requests for such destruction, the Party’s judicial authorities may take into account, inter alia, the gravity of the infringement, as well as the interests of third parties holding ownership, possessory, contractual, or secured interests;
(c) the charitable donation of counterfeit trademark goods and goods that infringe copyright and related rights shall not be ordered by the judicial authorities without the authorization of the right holder, except that counterfeit trademark goods may in appropriate cases be donated to charity for use outside the channels of commerce when the removal of the trademark eliminates the infringing characteristic of the good and the good is no longer identifiable with the removed trademark. In no case shall the simple removal of the trademark unlawfully affixed be sufficient to permit the release of goods into the channels of commerce.

12. Each Party shall provide that in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities shall have the authority to order the infringer to provide any information that the infringer possesses regarding any person involved in any aspect of the infringement and regarding the means of production or distribution channel for the infringing goods or services, including the identification of third persons that are involved in their production and distribution and their distribution channels, and to provide this information to the right holder. Each Party shall provide that its judicial authorities shall have the authority to impose sanctions, in appropriate cases, on a party to a proceeding that fails to abide by valid orders issued by such authorities.

13. To the extent that any civil remedy can be ordered as a result of administrative procedures on the merits of a case, each Party shall provide that such procedures conform to principles equivalent in substance to those provided for in this Chapter.

14. Each Party shall provide for civil remedies against the acts described in Article 15.5.7 and 15.5.8. Available civil remedies shall include at least:

(a) provisional measures, including seizure of devices and products suspected of being involved in the prohibited activity;

(b) actual damages (plus any profits attributable to the prohibited activity not taken into account in computing the actual damages) or pre-established damages as provided in paragraph 8;

(c) payment to the prevailing right holder, at the conclusion of civil judicial proceedings, of court costs and fees and reasonable attorney’s fees by the party engaged in the prohibited conduct; and

(d) destruction of devices and products found to be involved in the prohibited activity, at the discretion of the judicial authorities, as provided in subparagraphs (a) and (b) of paragraph 11.

No Party may make damages available against a nonprofit library, archives, educational institution, or public broadcasting entity that sustains the burden of proving that it was not aware and had no reason to believe that its acts constituted a prohibited activity.

15. In civil judicial proceedings concerning the enforcement of intellectual property rights, each Party shall provide that its judicial authorities shall have the authority to order a party to desist from an infringement, inter alia, to prevent the entry into the channels of commerce in their jurisdiction of imported goods that involve the infringement of an intellectual property right, immediately after customs clearance of such goods or to prevent their exportation.
16. In the event that a Party’s judicial or other authorities appoint technical or other experts in civil proceedings concerning the enforcement of intellectual property rights and require that the parties bear the costs of such experts, the Party should seek to ensure that such costs are closely related, inter alia, to the quantity and nature of work to be performed and do not unreasonably deter recourse to such proceedings.

**Provisional Measures**

17. Each Party shall act on requests for relief inaudita altera parte and execute such requests expeditiously, in accordance with its rules of judicial procedure.

18. Each Party shall provide that its judicial authorities shall have the authority to require the plaintiff to provide any reasonably available evidence in order to satisfy themselves with a sufficient degree of certainty that the plaintiff’s right is being infringed or that such infringement is imminent, and to order the plaintiff to provide a reasonable security or equivalent assurance set at a level sufficient to protect the defendant and to prevent abuse, and so as not to unreasonably deter recourse to such procedures.

19. In proceedings concerning the grant of provisional measures in relation to enforcement of a patent, each Party shall provide for a rebuttable presumption that the patent is valid.

**Special Requirements Related to Border Measures**

20. Each Party shall provide that any right holder initiating procedures for its competent authorities to suspend the release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods\(^\text{18}\) into free circulation is required to provide adequate evidence to satisfy the competent authorities that, under the laws of the country of importation, there is prima facie an infringement of the right holder’s intellectual property right and to supply sufficient information that may reasonably be expected to be within the right holder’s knowledge to make the suspected goods reasonably recognizable by the competent authorities. The requirement to provide sufficient information shall not unreasonably deter recourse to these procedures.

21. Each Party shall provide that its competent authorities shall have the authority to require a right holder initiating procedures for suspension to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Such security or equivalent assurance shall not unreasonably deter recourse to these procedures. Each Party shall provide that such security may take a form of an instrument issued by a financial services provider to hold the importer or owner of the imported merchandise harmless from any loss or damage resulting from any suspension of the release of goods in the event the competent authorities determine that the article is not an infringing good.

\(^{18}\) For purposes of paragraphs 20 through 25:

counterfeit trademark goods means any goods, including packaging, bearing without authorization a trademark which is identical to the trademark validly registered in respect of such goods, or which cannot be distinguished in its essential aspects from such a trademark, and which thereby infringes the rights of the owner of the trademark in question under the law of the country of importation; and

pirated copyright goods means any goods which are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and which are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the country of importation.
22. Where its competent authorities have made a determination that goods are counterfeit or pirated, a Party shall grant its competent authorities the authority to inform the right holder of the names and addresses of the consignor, the importer, and the consignee, and of the quantity of the goods in question.

23. Each Party shall provide that its competent authorities may initiate border measures ex officio, with respect to imported, exported, or in-transit merchandise suspected of infringing an intellectual property right, without the need for a formal complaint from a private party or right holder.

24. Each Party shall provide that goods that have been determined to be pirated or counterfeit by its competent authorities shall be destroyed, pursuant as appropriate to judicial order, unless the right holder consents to an alternate disposition, except that counterfeit trademark goods may in appropriate cases be donated to charity for use outside the channels of commerce, when the removal of the trademark eliminates the infringing characteristic of the good and the good is no longer identifiable with the removed trademark. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of the goods into the channels of commerce. In no event shall the competent authorities be authorized to permit the exportation of counterfeit or pirated goods or to permit such goods to be subject to other customs procedures, except in exceptional circumstances.

25. Each Party shall provide that where an application fee or merchandise storage fee is assessed in connection with border measures to enforce an intellectual property right, the fee shall not be set at an amount that unreasonably deters recourse to such measures.

Criminal Procedures and Remedies

26. (a) Each Party shall provide for criminal procedures and penalties to be applied at least in cases of willful trademark counterfeiting or copyright or related rights piracy on a commercial scale. Willful copyright or related rights piracy on a commercial scale includes significant willful infringements of copyright or related rights, for purposes of commercial advantage or private financial gain, as well as willful infringements that have no direct or indirect motivation of financial gain, provided that there is more than a de minimis financial harm. Each Party shall treat willful importation or exportation of counterfeit or pirated goods as unlawful activities and provide for criminal penalties to the same extent as the trafficking or distribution of such goods in domestic commerce.¹⁹

(b) Specifically, each Party shall provide:

(i) remedies that include sentences of imprisonment or monetary fines, or both, sufficient to provide a deterrent to future acts of infringement. Each Party shall establish policies or guidelines that encourage penalties to be imposed by judicial authorities at levels sufficient to provide a deterrent to future infringements;

(ii) that its judicial authorities shall have the authority to order the seizure of suspected counterfeit or pirated goods, any related materials and

¹⁹ A Party may comply with this subparagraph in relation to exportation through its measures concerning distribution or trafficking.
implements that have been used in the commission of the offense, any assets traceable to the infringing activity, and any documentary evidence relevant to the offense. Each Party shall provide that items that are subject to seizure pursuant to any such judicial order need not be individually identified so long as they fall within general categories specified in the order;

(iii) that its judicial authorities shall have the authority to order, among other measures, (1) the forfeiture of any assets traceable to the infringing activity, (2) the forfeiture and destruction of all counterfeit or pirated goods, without compensation of any kind to the defendant, in order to prevent the re-entry of counterfeit and pirated goods into channels of commerce, and (3) with respect to willful copyright or related rights piracy, the forfeiture and destruction of materials and implements that have been used in the creation of the infringing goods; and

(iv) that its authorities may, at least in cases of suspected trademark counterfeiting or copyright piracy, conduct investigations or exercise other enforcement measures ex officio, without the need for a formal complaint by a private party or right holder, at least for the purpose of preserving evidence or preventing the continuation of the infringing activity.

Limitations on Liability for Service Providers

27. For the purpose of providing enforcement procedures that permit effective action against any act of infringement of copyright covered under this Chapter, including expeditious remedies to prevent infringements, and criminal and civil remedies that constitute a deterrent to further infringements, each Party shall provide, consistent with the framework set out in this Article:

(a) legal incentives for service providers to cooperate with copyright owners in deterring the unauthorized storage and transmission of copyrighted materials; and

(b) limitations in its law regarding the scope of remedies available against service providers for copyright infringements that they do not control, initiate or direct, and that take place through systems or networks controlled or operated by them or on their behalf, as set out in this subparagraph.21

(i) These limitations shall preclude monetary relief and provide reasonable restrictions on court-ordered relief to compel or restrain certain actions for the following functions and shall be confined to those functions:

(A) transmitting, routing, or providing connections for material without modification of its content, or the intermediate and transient storage of such material in the course thereof;

(B) caching carried out through an automatic process;

20 For purposes of this paragraph, “copyright” shall also include related rights.
21 The Parties understand that this subparagraph is without prejudice to the availability of defenses to copyright infringement that are of general applicability.
(C) storage at the direction of a user of material residing on a system or network controlled or operated by or for the service provider; and

(D) referring or linking users to an on-line location by using information location tools, including hyperlinks and directories.

(ii) These limitations shall apply only where the service provider does not initiate the chain of transmission of the material and does not select the material or its recipients (except to the extent that a function described in clause (i)(D) in itself entails some form of selection).

(iii) Qualification by a service provider for the limitations as to each function in clauses (i)(A) through (D) shall be considered separately from qualification for the limitations as to each other function, in accordance with the conditions for qualification set forth in clauses (iv) through (vii).

(iv) With respect to the function referred to in clause (i)(B), the limitations shall be conditioned on the service provider:

(A) permitting access to cached material in significant part only to users of its system or network who have met conditions on user access to that material;

(B) complying with rules concerning the refreshing, reloading, or other updating of the cached material when specified by the person making the material available on-line in accordance with a generally accepted industry standard data communications protocol for the system or network through which that person makes the material available;

(C) not interfering with technology consistent with industry standards accepted in the Party’s territory used at the originating site to obtain information about the use of the material, and not modifying its content in transmission to subsequent users; and

(D) expeditiously removing or disabling access, on receipt of an effective notification of claimed infringement, to cached material that has been removed or access to which has been disabled at the originating site.

(v) With respect to functions referred to in clauses (i)(C) and (D), the limitations shall be conditioned on the service provider:

(A) not receiving a financial benefit directly attributable to the infringing activity, in circumstances where it has the right and ability to control such activity;

(B) expeditiously removing or disabling access to the material residing on its system or network on obtaining actual knowledge of the infringement or becoming aware of facts or circumstances from
which the infringement was apparent, such as through effective notifications of claimed infringement in accordance with clause (ix); and

(C) publicly designating a representative to receive such notifications.

(vi) Eligibility for the limitations in this subparagraph shall be conditioned on the service provider:

(A) adopting and reasonably implementing a policy that provides for termination in appropriate circumstances of the accounts of repeat infringers; and

(B) accommodating and not interfering with standard technical measures accepted in the Party’s territory that protect and identify copyrighted material, that are developed through an open, voluntary process by a broad consensus of copyright owners and service providers, that are available on reasonable and nondiscriminatory terms, and that do not impose substantial costs on service providers or substantial burdens on their systems or networks.

(vii) Eligibility for the limitations in this subparagraph may not be conditioned on the service provider monitoring its service, or affirmatively seeking facts indicating infringing activity, except to the extent consistent with such technical measures.

(viii) If the service provider qualifies for the limitations with respect to the function referred to in clause (i)(A), court-ordered relief to compel or restrain certain actions shall be limited to terminating specified accounts, or to taking reasonable steps to block access to a specific, non-domestic on-line location. If the service provider qualifies for the limitations with respect to any other function in clause (i), court-ordered relief to compel or restrain certain actions shall be limited to removing or disabling access to the infringing material, terminating specified accounts, and other remedies that a court may find necessary provided that such other remedies are the least burdensome to the service provider among comparably effective forms of relief. Each Party shall provide that any such relief shall be issued with due regard for the relative burden to the service provider and harm to the copyright owner, the technical feasibility and effectiveness of the remedy and whether less burdensome, comparably effective enforcement methods are available. Except for orders ensuring the preservation of evidence, or other orders having no material adverse effect on the operation of the service provider’s communications network, each Party shall provide that such relief shall be available only where the service provider has received notice and an opportunity to appear before the Party’s judicial authority.

(ix) For purposes of the notice and take down process for the functions referred to in clauses (i)(C) and (D), each Party shall establish appropriate
procedures for effective notifications of claimed infringement, and effective counter-notifications by those whose material is removed or disabled through mistake or misidentification. At a minimum, each Party shall require that an effective notification of claimed infringement be a written communication, physically or electronically signed by a person who represents, under penalty of perjury or other criminal penalty, that he is an authorized representative of a right holder in the material that is claimed to have been infringed, and containing information that is reasonably sufficient to enable the service provider to identify and locate material that the complaining party claims in good faith to be infringing and to contact that complaining party. At a minimum, each Party shall require that an effective counter-notification contain the same information, mutatis mutandis, as a notification of claimed infringement, and contain a statement that the subscriber making the counter-notification consents to the jurisdiction of the courts of the Party. Each Party shall also provide for monetary remedies against any person who makes a knowing material misrepresentation in a notification or counter-notification that causes injury to any interested party as a result of a service provider relying on the misrepresentation.

(x) If the service provider removes or disables access to material in good faith based on claimed or apparent infringement, each Party shall provide that the service provider shall be exempted from liability for any resulting claims, provided that, in the case of material residing on its system or network, it takes reasonable steps promptly to notify the person making the material available on its system or network that it has done so and, if such person makes an effective counter-notification and is subject to jurisdiction in an infringement suit, to restore the material on-line unless the person giving the original effective notification seeks judicial relief within a reasonable time.

(xi) Each Party shall establish an administrative or judicial procedure enabling copyright owners who have given effective notification of claimed infringement to obtain expeditiously from a service provider information in its possession identifying the alleged infringer.

(xii) Service provider means:

(A) for purposes of the function referred to in clause (i)(A), a provider of transmission, routing, or connections for digital on-line communications without modification of their content between or among points specified by the user of material of the user’s choosing; and

(B) for purposes of the functions referred to in clause (i)(B) through (D), a provider or operator of facilities for on-line services or network access.

Annex 15.11
Procedures and Remedies Concerning Broadcast or Cable Transmissions or Retransmissions in the Dominican Republic

1. The Dominican Republic reaffirms its commitments under Chapter 15 to the application of administrative, civil, and criminal procedures and remedies in the case of broadcast or cable transmissions or retransmissions that are made without the authorization of the right holder or right holders of the content of the signal and, if any, of the signal.

2. The Dominican Republic shall provide that procedures and remedies are set out in its law for the temporary suspension of concessions or operating licenses, or both, for broadcast or cable transmissions or retransmissions in cases where the Oficina Nacional de Derecho de Autor (ONDA) or its other competent authorities determine that transmissions or retransmissions that are the subject of the concession or operating license have been made without the permission of the right holder or right holders of the content of the signal and, if any, of the signal. Such procedures shall conform to the requirements of Article 15.11 applicable to administrative enforcement, and shall include:

(a) an opportunity for right holders to make written requests to ONDA or other competent authorities for the temporary or permanent closure of establishments transmitting the unauthorized broadcast or cable transmissions (pursuant to Article 187 of the Ley sobre Derecho de Autor, No. 65-00, August 21, 2000, as implemented by Articles 116.4 and 116.5 of the Reglamento de Aplicación, No. 362-01, March 14, 2001), and for other sanctions available under its law, and to submit evidence in support of such requests;
(b) a requirement that holders of such concessions or operating licenses cooperate with ONDA or other competent authorities so that investigations and inspections concerning such a request can take place without delay, including by providing access to all documents relating to the transmissions or retransmissions; and

(c) a requirement that an administrative decision concerning such a request be rendered expeditiously and not later than 60 days after the date of the request. Such decisions shall be in writing and shall state the reasons on which they are based. Any closure shall become effective immediately following a decision requiring such closure. Temporary closure shall continue in effect for up to 30 days. Failure to cease transmission or retransmission following closure shall be considered a violation classified under Article 105(d) of the Ley General de Telecomunicaciones, No. 153-98, May 27, 1998, and shall be subject to all available sanctions authorized by that law.

The Dominican Republic shall further provide that ONDA or other competent authorities may initiate procedures for the temporary or permanent closure of establishments transmitting the unauthorized broadcast or cable transmissions and other sanctions available under national law ex officio, without the need for a written request from a private party or right holder.

3. The Dominican Republic shall provide that ONDA and its other competent authorities shall have sufficient resources to carry out the actions described in paragraph 2, and hereby reaffirms its obligations under Article 15.11.2(b).

4. INDOTEL shall exercise the powers conferred on it by the Ley General de Telecomunicaciones No. 153-98 to address copyright infringement in appropriate cases, consistent with the INDOTEL Resolution of January 30, 2004, sanctioning holders of cable transmission service authorizations who transmitted signals containing protected works or retransmitted signals issued by the entity originating the transmission without authorization. If the level of sanctions imposed in the INDOTEL Resolution of January 30, 2004 is not effective in eliminating the problem, then INDOTEL shall increase sanctions to an effective level.

5. The Dominican Republic shall provide quarterly reporting of progress made in all judicial actions concerning television broadcasting piracy consistent with the understanding set out in an exchange of letters between the Dominican Republic and the United States on the date of signature of this Agreement.

designs, distinctive signs and know-how;

(e) rights conferred by law or under contract, to undertake any economic and
commercial activity, including any rights to search for, cultivate, extract or exploit
natural resources.

Any change in the form of an investment does not affect its character as an investment; and

returns means all amounts yielded by an investment and in particular, though not exclusively,
profits, interests, capital gains, dividends, royalties, fees or other current income.

Article X.03 Promotion and Admission

1. Each Party shall encourage and create favorable conditions in its territory for investments
of the other Party, and shall admit such investments in accordance with its laws and regulations.

2. Once a Party has admitted an investment in its territory, it shall provide, in accordance
with its laws and regulations, all necessary permits related to such investment.

Article X.04 Protection

disposition thereof of such investments. Each Party shall comply with any obligation assumed
regarding investments of the other Party.

3. Returns from investments and in the event of their re-investment the returns therefrom
shall enjoy the same protection as the investment.

Article X.05 National and Most Favored Nation Treatment

1. In accordance with its laws and regulations, each Party shall accord to investments of the
other Party in the former's territory, treatment no less favourable than that granted to investment
of its own investors.

2. Each Party shall accord to investments and returns of the other Party in the former's
territory, treatment no less favourable than that granted to investments of investors of any non-
Party.

3. Each Party shall accord the treatment which is more favourable to the investment of the
other Party, either national or most favored nation treatment.
4. Nothing in this Article shall be construed so as to oblige a Party to extend to investments of investors of the other Party advantages resulting from any existing or future association or participation in a free trade area, customs union, common market, economic and monetary union or any other similar institution of economic integration.

5. Nothing in this Article shall be construed so as to oblige a Party to extend to investments of investors of the other Party deductions, fiscal exemptions or any other similar advantages resulting from double taxation agreements or any other agreement regarding tax matters negotiated by one Party and any other non-Party.

Article X.06 Expropriation and Compensation

1. Investments of either Party in the territory of the other Party shall not be nationalized, expropriated or subjected to measures having an equivalent effect (hereinafter referred to as "expropriation"), except in cases when any of such measures have been adopted for the public good, in accordance with the due process of law, on a non-discriminatory basis and against prompt, adequate and effective compensation.

2. The compensation shall amount to the market value of the expropriated investment immediately before the expropriation or impending expropriation became public knowledge, whichever is earlier. It shall include interest from the date of dispossession of the expropriated property until the date of payment. Interest shall be based on the average deposit rate prevailing in the national banking system of the Party where the expropriation was made. Compensation shall be paid without undue delay, in convertible currency, and be effectively realizable and be freely transferable.

3. The investor affected shall have a right, under the law of the Party making the expropriation, to prompt review, by a judicial or other independent authority of that Party, of his or its case and of the valuation of his or its investment in accordance with the principles set out in this Article.

4. Nothing set out in this Article shall affect the ability of a government of a Party to negotiate with the other Party or any other non-Party, quantitative restrictions of its exports or its ability to assign export quotas negotiated through appropriate mechanisms and criteria. Consequently, any dispute in this regard will be resolved in accordance with the trade agreements applicable between the Parties. Thus, nothing in this Article shall be used as a basis for an investor to argue that the effects derived from the distribution or administration of a quota represent an indirect expropriation.

Article X.07 Compensation for Losses

Investors of one Party whose investments in the territory of the other Party suffer losses owing to war or other armed conflict, revolution, a state of national emergency, insurrection, riot or any other similar event, shall be accorded by the latter Party treatment, as regards restitution, indemnification, compensation or other settlement, no less favourable than that which the latter Party accords to investments of its own investors or investments of investors of any non-Party, whichever is more favourable to the investment of the investor of the former Party. All payments that may result shall be deemed freely transferable.
Article X.08 Transfers

1. Each Party shall permit investors of the other Party, in accordance with its laws and regulations, the unrestricted transfer of payments related to their investments. Such transfers include, in particular, though not exclusively, the following:

   (g) the earnings of nationals of one Party who are allowed to work in connection with an investment in the territory of the other.

2. Transfers referred to in this Article shall be effected in freely convertible currency at the applicable exchange rate on the date of the transfer without undue delay on a non-discriminatory basis. Transfers shall be considered to have been made “without undue delay” when they have been made within the period normally necessary for the completion of the transfer.

3. Notwithstanding the provisions of paragraph 1 of this Article, each Party shall be entitled, under circumstances of exceptional or serious balance of payments difficulties, to limit transfers temporarily, on a fair and non-discriminatory basis, and in accordance with internationally accepted criteria. Limits on transfers adopted or maintained by a Party, as well as their elimination, under this paragraph shall be notified promptly to the other Party.

4. When transfers are restricted by a Party due to balance of payments difficulties, the Party shall implement measures or a programme in accordance with the rules of the International Monetary Fund.

5. Notwithstanding the above, a Party may prevent a transfer through the equitable and non-discriminatory application of its laws relating to:

   (a) bankruptcy, insolvency or the protection of the rights of creditors;

   (b) issuing, trading or dealing in securities;

   (c) criminal or administrative offenses;

   (d) failure to report transfers of currency or other monetary instruments; or
(e) ensuring the satisfaction of judgments and awards in adjudicatory proceedings.

Article X.09 Application of Other Rules

If the laws of one of the Parties or any current or future obligation under International Law, provide more favourable conditions than those granted by this Chapter to investments of investors of the other Party, the most favourable provision shall apply.

Article X.10 Subrogation

If a Party or its designated agency, makes a payment under an indemnity against non-commercial risks given in respect of an investment in the territory of the other Party, the latter Party shall recognize the assignment, under the law of that country, of any right or claim from the investor to the former Party, or its designated agency, as well as the entitlement by virtue of subrogation, to exercise the rights and enforce the claims of that investor. This subrogation shall entitle the former Party, or its designated agency, to assert any such right or claim to the same extent as its predecessor.

Article X.11 Settlement of Investment Disputes Between One Party and Investors of the Other Party

1. Any investment dispute which may arise between one Party and an investor of the other Party with respect to matters regulated by this Chapter, shall be notified in writing by the investor to the host Party. Such notification shall include in detail all relevant information. To the extent possible, the dispute shall be settled amicably between the parties.

2. If a dispute has not been settled amicably within a period of six (6) months from the date of the notification referred in paragraph 1 above, it may be submitted, at the choice of the investor concerned, either to the competent Courts or Administrative Tribunals of the Party in whose territory the investment was made, or to international arbitration. Where the dispute is referred to international arbitration, the investor may submit the dispute to either:

   (a) the International Centre for the Settlement of Investment Disputes (ICSID), established by the "Convention on the Settlement of Investment Disputes between States and Nationals of other States" opened for signature at Washington D.C. on 18 March 1965, provided both Parties are signatories of the ICSID Convention; or

   (b) the Additional Facility Rules of ICSID, provided that one of the Parties, but not both, is a party to the ICSID Convention; or

   (c) an ad hoc arbitral tribunal established under the Arbitration Rules of the United Nations Commission on International Trade Law (UNCITRAL), where none of the Parties is a signatory of the ICSID Convention.

3. Once the investor has submitted the dispute either to a competent Tribunal of the disputing Party or to an arbitral procedure, the selection of one or the other shall be final.

4. The arbitral award shall be based on:
(a) the provisions of this Chapter and any other binding agreements between the Parties;

(b) the national laws of the Party where the investment was made, including the rules dealing with conflicts of laws; and

(c) the rules and generally recognized principles of International Law.

5. The arbitral awards shall be final and binding on both parties to the dispute. Each Party assumes the commitment to implement the awards in accordance with its national laws.

6. The Parties shall abstain from addressing through diplomatic channels any matter submitted either to the domestic tribunals or to arbitration tribunals according to the terms of this Article, until such proceedings are concluded. Once the judicial proceedings or the international arbitration is concluded, a Party shall not make any diplomatic demand relating to the dispute, except where the disputing Party has not complied with the judicial or arbitral decision.

(a) investors of the other Party; and

(b) covered investments.

Article 3
National Treatment

Each Party shall accord to investors of the other Party treatment no less favourable than that it accords, in like circumstances, to its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favourable than that it accords, in like circumstances, to investments of its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of investments in its territory.

3. The treatment accorded by a Party under paragraphs 1 and 2 means, with respect to a sub-national government, treatment no less favourable than the treatment accorded, in like
circumstances, by that sub-national government to investors, and to investments of investors, of the Party of which it forms a part.

Article 4
Most-Favoured-Nation Treatment

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords, in like circumstances, to investors of a non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of investments in its territory.

Article 6

2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise that is a covered investment be of a particular nationality, or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

3. Subject to its laws, regulations and policies relating to the entry of aliens, each Party shall grant temporary entry to nationals of the other Party, employed by an investor of the other Party, who seeks to render services to an investment of that investor in the territory of the Party, in a capacity that is managerial or executive or requires specialized knowledge.

   (f) to transfer technology, a production process or other proprietary knowledge to a person in its territory, except when the requirement is imposed or the commitment or undertaking is enforced by a court, administrative tribunal or competition authority, to remedy an alleged violation of competition laws or to act in a manner not inconsistent with other provisions of this Agreement; or

   (g) to supply exclusively from the territory of the Party the goods it produces or the services it provides to a specific regional market or to the world market.

2. A measure that requires an investment to use a technology to meet generally applicable health, safety or environmental requirements shall not be construed to be inconsistent with paragraph 1(f). For greater certainty, Articles 3 and 4 apply to the measure.

   (b) to purchase, use or accord a preference to goods produced in its territory, or to purchase goods from producers in its territory;

5. Paragraphs 1 and 3 shall not apply to any requirement other than the requirements set out in those paragraphs.

Article 8
Monopolies and State Enterprises

1. Nothing in this Agreement shall be construed to prevent a Party from designating a monopoly, or from maintaining or establishing a state enterprise.

2. Where a Party intends to designate a monopoly and the designation may affect the interests of persons of the other Party, the Party shall, wherever possible, provide prior written notification to the other Party of the designation.

3. Each Party shall ensure, through regulatory control, administrative supervision or the application of other measures, that any privately-owned monopoly that it designates and any government monopoly that it maintains or designates acts in a manner that is not inconsistent with the Party's obligations under this Agreement wherever such a monopoly exercises any regulatory, administrative or other governmental authority that the Party has delegated to it in connection with the monopoly good or service, such as the power to grant import or export licenses, approve commercial transactions or impose quotas, fees or other charges.

2 Nothing in this Article shall be construed to prevent a monopoly from charging different prices in different geographic markets, where such differences are based on normal commercial considerations, such as taking account of supply and demand conditions in those markets.

3 A “delegation” includes a legislative grant, and a government order, directive or other act transferring to the monopoly, or authorizing the exercise by the monopoly of, governmental authority.
4. Each Party shall ensure, through regulatory control, administrative supervision or the application of other measures, that any state enterprise that it maintains or establishes acts in a manner that is not inconsistent with the Party's obligations under this Agreement wherever such enterprise exercises any regulatory, administrative or other governmental authority that the Party has delegated to it, such as the power to expropriate, grant licenses, approve commercial transactions or impose quotas, fees or other charges.

**Article 9**

**Reservations and Exceptions**

1. Articles 3, 4, 6 and 7 shall not apply to:
   
   (a) any existing non-conforming measure that is maintained by

2. Articles 3, 4, 6 and 7 shall not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors or activities, as set out in its schedule to Annex II.

Article 10
General Exceptions

1. Subject to the requirement that such measures are not applied in a manner that would constitute arbitrary or unjustifiable discrimination between investments or between investors, or a disguised restriction on international trade or investment, nothing in this Agreement shall be construed to prevent a Party from adopting or enforcing measures necessary:

(a) to protect human, animal or plant life or health;

(b) to ensure compliance with laws and regulations that are not inconsistent with the provisions of this Agreement; or

(c) for the conservation of living or non-living exhaustible natural resources.

2. Nothing in this Agreement shall be construed to prevent a Party from adopting or maintaining reasonable measures for prudential reasons, such as:

(a) the protection of investors, depositors, financial market participants, policy-holders, policy-claimants, or persons to whom a fiduciary duty is owed by a financial institution;

(b) the maintenance of the safety, soundness, integrity or financial responsibility of financial institutions; and

(c) ensuring the integrity and stability of a Party's financial system.

3. Nothing in this Agreement shall apply to non-discriminatory measures of general application taken by any public entity in pursuit of monetary and related credit policies or exchange rate policies. This paragraph shall not affect a Party’s obligations under Article 7 (Performance Requirements) or Article 14 (Transfer of Funds);

4. Nothing in this Agreement shall be construed:

(a) to require any Party to furnish or allow access to any information the disclosure of which it determines to be contrary to its essential security interests;

(i) relating to the traffic in arms, ammunition and implements of war and to such traffic and transactions in other goods, materials, services and technology undertaken directly or indirectly for the purpose of supplying a military or other security establishment,

(ii) taken in time of war or other emergency in international relations, or

(c) to prevent any Party from taking action in pursuance of its obligations under the United Nations Charter for the maintenance of international peace and security.

5. Nothing in this Agreement shall be construed to require a Party to furnish or allow access to information the disclosure of which would impede law enforcement or would be contrary to the Party's law protecting Cabinet confidences, personal privacy or the confidentiality of the financial affairs and accounts of individual customers of financial institutions.

6. The provisions of this Agreement shall not apply to investments in cultural industries.

7. Any measure adopted by a Party in conformity with a decision adopted, extended or modified by the World Trade Organization pursuant to Articles IX:3 or IX:4 of the WTO Agreement shall be deemed to be also in conformity with this Agreement. An investor purporting to act pursuant to Section C of this Agreement may not claim that such a conforming measure is in breach of this Agreement.

Article 11
Health, Safety and Environmental Measures

The Parties recognize that it is inappropriate to encourage investment by relaxing domestic health, safety or environmental measures. Accordingly, a Party should not waive or otherwise derogate from, or offer to waive or otherwise derogate from, such measures as an encouragement for the establishment, acquisition, expansion or retention in its territory of an investment of an investor. If a Party considers that the other Party has offered such an encouragement, it may request consultations with the other Party and the two Parties shall consult with a view to avoiding any such encouragement.

Article 12
Compensation for Losses

1. Each Party shall accord to investors of another Party, and to covered investments, non-discriminatory treatment with respect to measures it adopts or maintains relating to losses suffered by investments in its territory owing to armed conflict, civil strife or a natural disaster.

2. Paragraph (1) shall not apply to existing measures relating to subsidies or grants that would be inconsistent with Article 3 but for Article 9(5)(b).

Neither Party shall nationalize or expropriate a covered investment either directly, or indirectly through measures having an effect equivalent to nationalization or expropriation (hereinafter referred to as "expropriation"), except for a public purpose, in accordance with due process of law, in a non-discriminatory manner and on prompt, adequate and effective compensation.

\(^4\) For greater certainty, Article 13(1) shall be interpreted in accordance with Annex B.13(1) on the clarification of indirect expropriation.
2. Such compensation shall be equivalent to the fair market value of the expropriated investment immediately before the expropriation took place ("date of expropriation"), and shall not reflect any change in value occurring because the intended expropriation had become known earlier. Valuation criteria shall include going concern value, asset value including declared tax value of tangible property, and other criteria, as appropriate, to determine fair market value.

3. Compensation shall be paid without delay and shall be fully realizable and freely transferable. Compensation shall be payable in a freely convertible currency and shall include interest at a commercially reasonable rate for that currency from the date of expropriation until date of payment.

4. The investor affected shall have a right, under the law of the Party making the expropriation, to prompt review, by a judicial or other independent authority of that Party, of its case and of the valuation of its investment in accordance with the principles set out in this Article.

5. The provisions of this Article shall not apply to the issuance of compulsory licenses granted in relation to intellectual property rights, or to the revocation, limitation or creation of intellectual property rights, to the extent that such issuance, revocation, limitation or creation is consistent with the WTO Agreement.

**Article 14**

1. Each Party shall permit all transfers relating to a covered investment to be made freely, and without delay, into and out of its territory. Such transfers include:

3. Notwithstanding paragraphs 1 and 2, a Party may prevent a transfer through the equitable, non-discriminatory and good faith application of its laws relating to:

(b) issuing, trading or dealing in securities;
(c) criminal or penal offences;
(d) reports of transfers of currency or other monetary instruments; or

4. Neither Party may require its investors to transfer, or penalize its investors that fail to transfer, the income, earnings, profits or other amounts derived from, or attributable to investments in the territory of the other Party.

6. Notwithstanding the provisions of paragraphs 1, 2 and 4, and without limiting the applicability of paragraph 5, a Party may prevent or limit transfers by a financial institution to, or for the benefit of, an affiliate of or person related to such institution, through the equitable, non-discriminatory and good faith application of measures relating to maintenance of the safety, soundness, integrity or financial responsibility of financial institutions.

7. Notwithstanding paragraph 1, a Party may restrict transfers in kind in circumstances where it could otherwise restrict transfers under the WTO Agreement and as set out in paragraph 3.

Article 15
Subrogation

1. If a Party or any agency thereof makes a payment to any of its investors under a guarantee or a contract of insurance it has entered into in respect of an investment, the other Party shall recognize the validity of the subrogation in favour of such Party or agency thereof to any right or title held by the investor.

2. A Party or any agency thereof which is subrogated to the rights of an investor in accordance with paragraph 1 of this Article, shall be entitled in all circumstances to the same rights as those of the investor in respect of the investment. Such rights may be exercised by the Party or any agency thereof, or by the investor if the Party or any agency thereof so authorizes.

Article 16
Taxation Measures

1. Except as set out in this Article, nothing in this Agreement shall apply to taxation measures. For further certainty, nothing in this Agreement shall affect the rights and obligations of the Parties under any tax convention. In the event of any inconsistency between the provisions of this Agreement and any such convention, the provisions of that convention shall apply to the extent of the inconsistency.
2. Nothing in this Agreement shall be construed to require a Party to furnish or allow access to information the disclosure of which would be contrary to the Party’s law protecting information concerning the taxation affairs of a taxpayer.

3. A claim by an investor that a tax measure of a Party is in breach of an agreement between the central government authorities of a Party and the investor concerning an investment shall be considered a claim for breach of this Agreement unless the taxation authorities of the Parties, no later than six months after being notified by the investor of its intention to submit the claim to arbitration, jointly determine that the measure does not contravene such agreement. The investor shall refer the issue of whether a taxation measure does not contravene an agreement for a determination to the taxation authorities of the Parties at the same time that it gives notice under Article 24 (Notice of Intent to Submit a Claim to Arbitration).

4. The provisions of Article 13 shall apply to taxation measures unless the taxation authorities of the Parties, no later than six months after being notified by an investor that the investor disputes a taxation measure, jointly determine that the measure in question is not an expropriation. 5. An investor may submit a claim relating to taxation measures covered by this Agreement to arbitration under Section C only if the taxation authorities of the Parties fail to reach the joint determinations specified in paragraph 3 and paragraph 4 of this Article within six months of being notified in accordance with the provisions of this Article.

6. If, in connection with a claim by an investor of a Party or a dispute between the Parties, an issue arises as to whether a measure of a Party is a taxation measure, a Party may refer the issue to the taxation authorities of the Parties. The taxation authorities shall decide the issue, and their decision shall bind any Tribunal formed pursuant to Section C or arbitral panel formed pursuant to Section D, as the case may be, with jurisdiction over the claim or the dispute. A Tribunal or arbitral panel seized of a claim or a dispute in which the issue arises may not proceed pending receipt of the decision of the taxation authorities. If the taxation authorities have not decided the issue within six months of the referral, the Tribunal or arbitral panel shall decide the issue in place of the taxation authorities.

7. The taxation authorities referred to in this Article shall be the following until notice in writing to the contrary is provided to the other Party:

   (a) for Canada: the Assistant Deputy Minister, Tax Policy, of the Department of Finance Canada;

issue of whether and to what extent the said paragraphs are a valid defence to the claim of the investor. The Tribunal may not proceed pending receipt of a report under this Article.

2. Pursuant to a request received in accordance with paragraph (1), the Parties shall proceed in accordance with Section D to prepare a written report, either on the basis of agreement following consultations, or by means of an arbitral panel. The consultations shall be between the financial services authorities of the Parties. The report shall be transmitted to the Tribunal, and shall be binding on the Tribunal.

3. Where, within 70 days of the referral by the Tribunal, no request for the establishment of a panel pursuant to paragraph (2) has been made, and no report has been received by the Tribunal, the Tribunal may proceed to decide the matter.

**Article 18**

**Denial of Benefits**

1. A Party may deny the benefits of this Agreement to an investor of the other Party that is an enterprise of such Party and to investments of such investor if investors of a non-Party own or control the enterprise and the denying Party adopts or maintains measures with respect to the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Agreement were accorded to the enterprises or to its investments.

2. Subject to prior notification and consultation in accordance with Article 19, a Party may deny the benefits of this Agreement to an investor of the other Party that is an enterprise of such Party and to investments of such investors if investors of a non-Party own or control the enterprise and the enterprise has no substantial business activities in the territory of the Party under whose law it is constituted or organized.

**Article 19**

**Transparency**

1. Each Party shall, to the extent possible, ensure that its laws, regulations, procedures, and administrative rulings of general application respecting any matter covered by this Agreement are promptly published or otherwise made available in such a manner as to enable interested persons and the other Party to become acquainted with them.

   (a) publish in advance any such measure that it proposes to adopt; and

   (b) provide interested persons and the other Party a reasonable opportunity to comment on such proposed measures.

3. Upon request by a Party, information shall be exchanged on the measures of the other Party that may have an impact on covered investments.

**Annex B.13(1)**

**Expropriation**

The Parties confirm their shared understanding that:
a) Indirect expropriation results from a measure or series of measures of a Party that have an effect equivalent to direct expropriation without formal transfer of title or outright seizure;

b) The determination of whether a measure or series of measures of a Party constitute an indirect expropriation requires a case-by-case, fact-based inquiry that considers, among other factors:

i) the economic impact of the measure or series of measures, although the sole fact that a measure or series of measures of a Party has an adverse effect on the economic value of an investment does not establish that an indirect expropriation has occurred;

ii) the extent to which the measure or series of measures interfere with distinct, reasonable investment-backed expectations; and

iii) the character of the measure or series of measures;

c) Except in rare circumstances, such as when a measure or series of measures are so severe in the light of their purpose that they cannot be reasonably viewed as having been adopted and applied in good faith, non-discriminatory measures of a Party that are designed and applied to protect legitimate public welfare objectives, such as health, safety and the environment, do not constitute indirect expropriation.

The Chairman shall be appointed within two months from the date of appointment of the other two members of the arbitral panel.

4. If within the periods specified in paragraph (3) of this Article the necessary appointments have not been made, either Party may invite the President of the International Court of Justice to make the necessary appointments. If the President is a national of either Party or is otherwise prevented from discharging the said function, the Vice-President shall be invited to make the necessary appointments. If the Vice-President is a national of either Party or is prevented from discharging the said function, the Member of the International Court of Justice next in seniority, who is not a national of either Party, shall be invited to make the necessary appointments.

5. Arbitrators shall:

(a) have expertise or experience in public international law, international trade or international investment rules, or the resolution of disputes arising under international trade or international investment agreements;

(b) be independent of, and not be affiliated with or take instructions from, either Party; and

(c) comply with any Code of Conduct for Dispute Settlement as agreed by the Commission.

6. Where a Party claims that a dispute involves measures relating to financial institutions, or to investors or investments of such investors in financial institutions, then

(a) where the disputing Parties are in agreement, the arbitrators shall, in addition to the criteria set out in paragraph 5, have expertise or experience in financial services law or practice, which may include the regulation of financial institutions; or

(b) where the disputing Parties are not in agreement,

(i) each disputing Party may select arbitrators who meet the qualifications set out in subparagraph (a), and

(ii) if the Party complained against invokes Articles 14(6) or 17, the chair of the panel shall meet the qualifications set out in subparagraph (a).
7. The arbitral panel shall determine its own procedure. The arbitral panel shall reach its decision by a majority of votes. Such decision shall be binding on both Parties.

Unless otherwise agreed, the decision of the arbitral panel shall be rendered within six months of the appointment of the Chairman in accordance with paragraphs (3) or (4) of this Article.

8. Each Party shall bear the costs of its own member of the panel and of its representation in the arbitral proceedings; the costs related to the Chairman and any remaining costs shall be borne equally by the Parties. The arbitral panel may, however, in its decision direct that a higher proportion of costs be borne by one of the two Parties, and this award shall be binding on both Parties.

9. The Parties shall, within 60 days of the decision of a panel, reach agreement on the manner in which to resolve their dispute. Such agreement shall normally implement the decision of the panel. If the Parties fail to reach agreement, the Party bringing the dispute shall be entitled to compensation or to suspend benefits of equivalent value to those awarded by the panel.
