FIRST INTERNATIONAL FORUM FOR NATIONAL TRADE FACILITATION COMMITTEES

Boosting capacities and partnerships for implementation

23 January 2017

PREMIER FORUM INTERNATIONAL SUR LES COMITÉS NATIONAUX DE FACILITATION DES ÉCHANGES

Renforcement des capacités et des partenariats pour la mise en œuvre

HOW TO GUIDE AND LEAD YOUR NTFC IN THE PROCESS OF DRAFTING A 3-5 YEAR TRADE FACILITATION ROADMAP WITH KEY PERFORMANCE INDICATORS

Maria Teresa Pisani, UNECE, Poul Hansen, UNCTAD, Pamela Ugaz, UNCTAD, Arántzazu Sánchez, UNCTAD

Julian Fraga-Campos, UNECE

With support of / Avec l’appui de
A Trade Facilitation Roadmap means you are going into a JOURNEY.
Imagine that the members of the NTFC are the ones asked to undertake that journey.
To start this journey, you need to know...

1) **WHERE**
   exactly you are going

2) **WHAT**
   is the best way to reach there
So... what do you need?
The TF Roadmap is a GPS for the NTFC
In the journey of establishing and implementing a roadmap many things can happen...

- You can run out of fuel (financing)
- Your driver might leave you in the middle of your journey (rotation of participant)
- Your members don't know how to read a map or do not want to ask for the way. (lack of engagement)

ESTABLISHING A ROADMAP IS NOT AN EASY TASK TO DO, that is why...
AGENDA

1. What is a roadmap
2. How to draft a roadmap
   2.1 - Process of drafting a roadmap
   2.2 - Content of the roadmap
Your team today
WHAT IS A ROADMAP AND ITS BENEFITS

Maria Teresa Pisani
Acting Chief, UN/CEFACT Support Unit, UNECE
UNECE Technical Assistance for Trade Facilitation Implementation

- In 2015 UNECE published a «Guide to drafting a National Trade Facilitation Roadmap»
- The Guide has tailor-made methodology for drafting a NTFR
- Based on lessons learned from experts around the world
- The TF Roadmap methodology has been successfully applied by Greece
What *is* a National Trade Facilitation Roadmap and what *is not*?
a National Trade Facilitation Roadmap Is:

- Is a **short** but comprehensive **document**
- Laying down a **strategic vision for implementing TF reforms** in a country
- Within a **given period** (usually three to five years)
- Includes set of **Activities** in order to reach pre-defined **goals** that will be measured
- With the help of **performance indicators**.

→ Not an easy task to do...
A TF ROADMAP IS NOT...

- A **project proposal** for a particular measure
- An **annual plan** for the National Trade Facilitation Committee or a particular agency (i.e., Customs)
- A WTO TFA Implementation Plan
Does it work?
The Context

- The **Greek economic crisis** led to a **severe contraction of the internal market** and exporting was considered a key condition for economic recovery.

- However, Greek exporters **faced widespread administrative barriers to trade**. **Simplifying customs** and other trade procedures became a key objective of the Greek Government.

- In 2012, the Government developed a **national trade facilitation strategy** to support economic recovery by simplifying export procedures and reducing export time and cost.
The project

- In 2012, UNECE supported the Greek Government to launch the Greek Trade Facilitation Roadmap 2013-2014, a holistic trade facilitation reform programme including key performance indicators (KPIs) to measure progress.

- This Roadmap was approved by the Parliament and became part of the lending agreement between Greece and the international donors. Its delivery was seen as a crucial milestone to establish trust in the Greek economy and to return to sustainable economic growth.

- The Roadmap contained 25 specific reform programmes such as:
  - Simplification of export procedures,
  - Reorganization of customs procedures and their automation,
  - Implementation of paperless trade
  - Reform of agriculture trade procedures
It all started in Greece...

The project had several deliverables. Some of the project results are:

A Operational Steering Committee and six Working Groups to manage the different reform programmes were established

Substantive reform of Customs procedures initiated, support to the automation of the customs procedures (ICISNet rollout) and implementation of an automated risk assessment system

Authorized economic operator scheme rolled out

More than 15 workshops and capacity building events organized

Business Processes Analysis and simplification undertaken using UNNEXT Business Process Analysis Method

Authorized Traders Scheme established with over 40 exporters registered (accounting for 40% of the total exporting activity in fresh fruits and vegetables)

Proposal for a competitive agriculture export strategy (Greek Smarter Food) developed pilot project for the implementation of a Single Window launched
What are the results?

- Since 2012, Greece has improved its ranking in the World Bank Doing Business study by 39 positions from position 100 to 61 in 2014.

- The competitive position of Greece in the Logistic Performance Index has improved by 22 positions. The concrete results for Customs are overwhelming with an improvement by 52 positions, from 94 to 42.

- The time to export and import has been reduced by 25% and 44% respectively.

- The cost to export and import has gone down by approximately 10%.
What are the specific benefits of a Roadmap?
BENEFITS of a Roadmap

I. Provides a **common vision** to all TF stakeholders (Public and Private)

II. Provides **continuity to public agencies** implementing reforms (change of Gov.)

III. The Roadmap **complements other TF planning tools** (WTO TFA needs assessments)

IV. **Support** the work of a National Trade Facilitation Committee and other TF implementation bodies.
To sum up, Today we have covered...

- Documentation available
- What is a Roadmap
- What is not
- Share case study to reflex the utility of a RoadMap
- Benefits
A useful tool... The TFIG
Developing a National Trade Facilitation Roadmap

This Itinerary presents the components of a National Trade Facilitation (NTF) Roadmap and describes how such a document can be drafted in a country. It presents a tailor-made methodology and document structure and is based on lessons learned from trade facilitation (TF) experts around the world.

PROCESS OF DRAFTING A TRADE FACILITATION IMPLEMENTATION ROADMAP

Poul Hansen
Officer in Charge, Chief, Trade Facilitation Section, UNCTAD
PROCESS OF DRAFTING A TRADE FACILITATION IMPLEMENTATION ROADMAP

INITIATION PHASE

Mandate and establishment of Drafting Team

CONCEPTION PHASE

Stakeholder engagement

Establishment of Goal Performance Indicators

Identification of issues and action plan

VALIDATION PHASE

Approval of the Roadmap
1. A high level authority needs to mandate (request) the development of a document that describes the national trade facilitation reform programme.
2. This authority also needs to nominate the Lead Editor or Drafting Team that will lead the drafting process.
Stakeholder engagement

Identify → Communicate → Ensure support

CONCEPTION PHASE

Stakeholder engagement

Establishment of Goal Performance Indicators → Identification of issues and action plan
1. Drafting Team submit the final draft of the Roadmap to the project Sponsor for approval.

2. If draft is supported by Sponsor, Drafting Team organise a public event to inform a broader range of stakeholders.

3. Sponsor needs to ensure that Roadmap receives the legislative and political approval.
PROCESS OF DRAFTING A TRADE FACILITATION IMPLEMENTATION ROADMAP

INITIATION PHASE

Mandate and establishment of Drafting Team

CONCEPTION PHASE

Stakeholder engagement

Establishment of Goal Performance Indicators

Identification of issues and action plan

VALIDATION PHASE

Approval of the Roadmap
Main challenges you might face during that process

Arántzazu Sánchez
Economic Affairs Officer, Trade Facilitation Section, UNCTAD
Your challenge #1

Who wants a TF roadmap?

Who wants to draft it?
How to deal with it?

- Get support (from above and below)
- Divide the work among institutions

→ TOOL: what about including this exercise in your future requests for assistance?
Your challenge #2

- Participation always by the same people
- Some organization don't raise their voices

Source picture: Disney
How to avoid that?

- Be inclusive
- Give a voice to everyone
- Don't let some stronger personalities overtake discussions
- Create a trustful environment
- Use the power of anonymity
- Give a true opportunity to everyone to give their opinions

→ TOOL: use an anonymous survey to gather key information
Your challenge #3

- Discussions without end
- People don't get to the point
- No decisions are taken

"THE CHICKEN - or - THE CHICKEN EGG"
How to avoid that?

- Lead fruitful discussions
- Lead efficient discussions

→ TOOL: prepare always a proposal based on facts to start and lead discussions

→ TIP: hold some discussions with people standing up
Your challenge #4

- From discussion to agreement
How to ensure that?

- Synthetize ideas and present them to the team
- Make people agree on a concrete proposal

→ TOOL: Use a neutral person with that capacity to do this function if you feel overwhelmed

→ TIP: use a smart time schedule to provide you with time to synthetize the ideas of the brainstorming (coffee breaks, after workshop, half day workshops - people are more motivated, they get to go ½ to work, they are less tired)
Establishing a vision

Poul Hansen
Officer in Charge, Chief, Trade Facilitation Section, UNCTAD
The Rationale:
Why is the reform necessary? Where do we stand, where do we want to go?

The Strategy:
What do we want to do and how will we do it?

Implementation of the Roadmap: Who will do what? When? And how much will it cost?

Conditions: What are the risks and assumptions that need to be considered?

Don’t forget… to agree to timeline.
1. VISION STATEMENT

- Summarizes the **objectives** of the trade facilitation reform and the **benefits** for the country.

- Express benefits of trade facilitation reform in a language that is more understandable to the general public → help gather **political support** and commitment

- Provides **guidance** and direction for the reform process

- Serves as **inspiration** and a source of motivation.

- A vision statement should not be confused with a mission statement. A mission statement explains why the organisation exists, not what it wants to achieve in the future.
1. VISION STATEMENT

- It should be formulated in a **clear and concise** way, focusing on what and when - and not necessarily on how - this is going to be achieved.

- It should display the benefits to be achieved in quantifiable form (using figures) and timelines by which they should be achieved (dates).

### Reaching results

- “By [date], the trade facilitation reforms in [country] will result in an increase/decrease of [indicator] by [percentage]”

- Indicators can be, for example, an increase in the Gross Domestic Product (GDP), exports, employment or a reduction in the time and costs required for import, export and transit.

### Reaching benchmarks

- “By [date], [country] will rank among the Top XX countries of the world in [performance indicator]”.

### High level policy objective

- “By [date], [country] will implement all provisions included in [trade agreement]”.
- “By [date], [project/trade reform] will be in place in [country]”.

- Or a vision statement including the 2 or 3 of these types of vision description
In 2016, (Country) was in position XX of the 189 countries ranked in the World Bank Doing Business – Trading Across Borders Ranking. Given the ongoing trade facilitation reforms in your country, in which position do you see (Country) in the next 5 years (i.e. Doing Business ranking of 2019)?

- a little bit worse than now, because other countries are improving faster
- no change in ranking
- a little bit better than now
- a lot better than now
Building a vision "reaching results" - Time to export

According to the 2016 World Bank Doing Business – Trading Across Borders report, the time to export in COUNTRY (the time for border compliance, which includes time for obtaining, preparing and submitting documents during port or border handling, customs clearance and inspection procedures) is XX days and XX hours. The average in REGION is XX. Considering this and the current capacity of implementing trade facilitation in XX, how much do you think that the time to export could be reduced in 5 years?

<table>
<thead>
<tr>

<tr>
<td>Reduction of time by more than 50% meaning average time to export will be less than 4 days and 9 hours</td>
<td>44.83% 13</td>
</tr>
<tr>
<td>Total</td>
<td>29</td>
</tr>
</tbody>
</table>

77% believe reduction by 40% or more
EXAMPLE - VISION GREECE

"25 actions to reducing time to export by 50% and costs by 20% by the end of 2015, thus leading to at least 10% increase in exports’ value, 1.7% increase of the GDP and 80,000 new jobs"
The Sudan Trade Facilitation Implementation Roadmap will help mainstream trade facilitation in Sudan's development policy and improve the security and well-being of Sudanese consumers.

Through the implementation of the actions included in this Trade Facilitation Roadmap, by the end of 2021 Sudan will reduce the time of import and export by 40% and remove unnecessary costs for traders, thus, leading to at least a 25% increase of exports' volume.

It is expected that the implementation of this Roadmap will have a substantive positive impact on Sudan's Gross Domestic Product as well as on the county’s position in international logistics rankings such as the World Bank Trading Across Borders.
Baselining

Pamela Ugaz
Associate Economic Affairs Officer, Trade Facilitation Section, UNCTAD
• Self-Assessment
• Look at the “as-is”

• Compare to the “to be”
• Basis to set up goals and activities
What to look for?

“you cannot know where you're going until you know where you have been”
George Santayana
ESTABLISHING GOALS

Arántzazu Sánchez
Economic Affairs Officer, Trade Facilitation Section, UNCTAD
What we are working towards

Vision

Goal 1
- Activity 1.1
- Activity 1.2

Goal 2
- Activity 2.1
- Activity 2.2
- Activity 2.3
3. GOALS

- define the future outcome that needs to be achieved.
- can go into detail about the results to be attained, building on the possible solutions to the previously described impediments detailed in the Baseline.
- goals contemplated in the strategy should be S.M.A.R.T.
SMART GOALS

Definition

SPECIFIC
What exactly do you want to achieve?

MEASURABLE
Establish clear definitions to help you measure if you’re reaching your goal.

ATTAINABLE
What steps can you take to reach your goal? Outline the exact steps to accomplish your goal.

RELEVANT
How will meeting this goal help you? Does your goal relate to your mission?

TIME-BOUND
How long will it take to reach your goal?
3. GOALS

For instance:

“Goal 1: To reduce transaction time by (percentage) by establishing paperless trade for exports by (date). Traders will be allowed to submit all documents requested for export electronically.”

“Goal 2: To reduce release times by (percentage) for imports by upgrading the Customs risk management system and implementing risk management systems in other Agencies dealing with inspections such as the MoA and the Min of Heath by (date).”
3. GOALS need to include performance indicators

Example of Goal Performance Indicator with **internal** benchmark

Average import clearance time for ordinary containerized cargo in the sea-ports will decrease by [percent]

Example of Goal Performance Indicator with **external** benchmark

Improvement of international ranking for the time to import as published in the World Bank Doing Business Index from position X in [year] to position Y in [year]
TIPS TO GET YOUR NTFC TO GO FROM BRAINSTORMING TO ACTUAL GOALS

- Before separating them into the groups, **make sure that they all understand the difference between a goal and an activity** (trust me, it is not that simple)
- Each group shall **present the outcome of the discussion** in plenary
- Give the opportunity to participants to explain themselves but also to **comment and ask** questions about the goals presented by each group
- As a chairperson, identify goals that are somehow **repetitive**
- Make sure you **don't have too many** goals (some of them might be re-agrupped)
- Check the **scope**:
  - Does it fits to Trade Facilitation or it goes to other areas?
  - Does it serves the vision?
- Consider **semantic** of the formulation of the goal
- Consider if these are **goals or activities**
- Consider if the goals are **S.M.A.R.T.** If not, reformulate them in plenary
**EXAMPLE GOALS SUDAN**

<table>
<thead>
<tr>
<th>Mainstream trade facilitation into Sudan's development policy</th>
<th>Reduce time of exports and imports by 40%</th>
<th>Reduce cost of import and export by 10%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reduce the average number of documents requested for import and export procedures of 10 key products by 20%</td>
<td>Implement at least 70% of the measures of the Trade Facilitation Agreement</td>
<td>Foster paperless trade by connecting electronically at least two trade border agencies and by providing the possibility of using e-payment at all border posts</td>
</tr>
<tr>
<td>Goals</td>
<td>Goal Performance Indicator</td>
<td>Means of verification</td>
</tr>
<tr>
<td>----------------------------------------------------------------------</td>
<td>------------------------------------------------------------------------------------------</td>
<td>--------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>1 Mainstream trade facilitation into Sudan's development policy</td>
<td></td>
<td>Trade facilitation is mentioned the next Sudan development policy</td>
</tr>
<tr>
<td>2 Reduce time of exports and imports by 40%</td>
<td></td>
<td>Time reduced by 40%</td>
</tr>
<tr>
<td>3 Reduce cost of import and export by 10%</td>
<td></td>
<td>Cost is reduced by 10%</td>
</tr>
<tr>
<td>4 Reduce the average number of documents requested for import and export procedures of 10 key products by 20%</td>
<td></td>
<td>Number of documents is reduced by 20% in 10 key products</td>
</tr>
<tr>
<td>5 Implement at least 70% of the measures of the Trade Facilitation Agreement</td>
<td></td>
<td>50% of measures are implemented and categorised as A</td>
</tr>
<tr>
<td>6 Foster paperless trade by connecting electronically at least two trade border agencies and by providing the possibility of using e-payment at all border posts</td>
<td></td>
<td>2 border agencies are electronically connected E-payment is available in all border posts</td>
</tr>
</tbody>
</table>
A GOAL WITHOUT A PLAN IS JUST A WISH
4. ACTIVITIES

- an Activity is a specific action or project that will implement a trade facilitation instrument or solution.

- An Activity can be, for example:

  “Activity 1: Introduce an electronic payment system for importers and exporters at Customs clearance points.”

  “Activity 2: Conduct a Business Process Analysis on the procedures and documents required for key national export products.”

- Including activities performance indicators
HOW CAN YOU STEER YOUR NTFC TO COME UP WITH ACTIVITIES FOR THE ROADMAP?

- Come up with a **pool of activities**
  - From your categorisation exercise of the TFA
  - From previous discussions of the NTFC
  - Ask each member of the NTFC to provide you with some activities
    → Usually, you will have **TOO MANY** for a period of 3 or 5 years
    → **REVISE** them (repetition, reaggrupation, out of scope...)

- Once the list is finalised, get support from members of the NTFC to figure out, what can **realistically** being done and what would have a **bigger impact** (thus, what should have a priority)
HOW CAN YOU STEER YOUR NTFC TO COME UP WITH ACTIVITIES FOR THE ROADMAP?

For Sudan, we include these kind of questions in a survey.

The results were shown to the NTFC to promote discussion NOT as given decisions.
### Being realistic, which of the following measures can be implemented in the NEXT FIVE YEARS in Sudan?

<table>
<thead>
<tr>
<th>Answer Choices</th>
<th>Responses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Introduce the electronic payment system for importers and exporters at all Customs clearance points (not just the main ones)</td>
<td>68.97% 20</td>
</tr>
<tr>
<td>Conduct a Business Process Analysis on the procedures and documents required for key national export products</td>
<td>37.93% 11</td>
</tr>
<tr>
<td>Revise trade procedures for at least 10 key products in Sudan’s economy and propose simplification for those procedures</td>
<td>44.83% 13</td>
</tr>
<tr>
<td>Introduce an electronic Port Management System in Port Sudan</td>
<td>44.83% 13</td>
</tr>
<tr>
<td>Implementing WCO best practices / guidelines on Customs laboratories and integrating with risk management principles</td>
<td>68.97% 20</td>
</tr>
<tr>
<td>Promote the use of the existing pre-arrival processing of goods among traders to ensure that this system is used by at least 20% of Customs declarations.</td>
<td>31.03% 9</td>
</tr>
</tbody>
</table>
Being realistic, which of the following measures can be implemented in the NEXT FIVE YEARS in Sudan?

<table>

<td>16.67%</td>
<td>4</td>
</tr>
</tbody>
</table>
Work in groups to identify activities for each of the goals
HOW TO MAKE THE GROUPS?

- Identify groups with *common interests*

- Ensure *representation of "weak" institutions*

- **Suggestion** - at least 4 groups
  - Private sector
  - Trade
  - Customs
  - Health/Agriculture/Standards
HOW CAN YOU STEER YOUR NTFC TO COME UP WITH ACTIVITIES FOR THE ROADMAP?

• Each group should come up with **activities** indicating:
  - Activity performance indicator
  - Lead agency
  - To which goal do they MAINLY contribute to

• Put all results in a **table** and consult with the rest of the NTFC if they agree with the suggestion of the group
PRIORITIZATION OF ACTIVITIES

Activities should be scheduled according to their prioritization and interdependency.

- **Interdependency** means that some measures can only be achieved after others have already been implemented.

- **Prioritization** is the process of evaluating the effort and time needed to implement an Activity and the impact it will have on the Goals compared to other Activities.
ORGANISE ACTIVITIES IN 3 GROUPS

- **Quick wins**: Activities with low to medium effort, realised in the short term. Moderate impact.

- **Leverage**: Activities with medium to high effort, realised in mid term. Considerable impact.

- **Strategic**: Activities with greater effort, realised in the long term. High impact on Goals.
ORGANISE ACTIVITIES IN 3 GROUPS

Activities are presented graphically in a chart.

1 axis represents the time required to implement the Activity.

1 axis represents the amount of effort (in terms of cost and/or change management) required for the implementation of the Activity.

The Activity itself is depicted as a circle within the chart.

The expected impact/benefit of the Activity is represented by the size (diameter) of this circle; the bigger the circle, the bigger the impact of the Activity to the achievement of Goals.
5. IMPLEMENTATION STRUCTURE

Start up phase 0-1 year
- Governance structure established.
- Preparation for delivery of actions (project plans, teams, etc)
- Quick win actions implemented.

Delivery phase 1-4 years
- Actions implemented.
- Completion of actions is reviewed using the performance indicators.
- At the middle of the Delivery Phase, KPIs should be monitored to make sure that the country is on the right track to achieve the identified Goals.

Closing phase 0-1 year
- Evaluation of the achievement of Goals using Goal Performance Indicators.
- Drafting of new Roadmap document for the next three to five years and ensure approval.
5. IMPLEMENTATION STRUCTURE

**START-UP PHASE**
- Formal adoption of the Roadmap
- Identification of resources and finding financing for activities of the Roadmap
- Organise awareness raising meetings to inform key stakeholders of Sudan’s development policy on the importance of trade facilitation
- Organise regular consultations with private sector to inform them on ongoing trade facilitation reforms
- Organise regular consultations with private sector to inform them on ongoing trade facilitation reforms

**DELIVERY PHASE**
- Organise training sessions for traders on trade facilitation matters
- Motivate the exporters to facilitate the financing of guarantees
- Ensure that all laws, regulations, fees, charges and procedures from ALL border agencies are published on the Internet
- Establish an enquiry point for traders in each border agency
- Revise fees and taxes for 10 key products so as to identify unnecessary costs to traders
- Analyse trade procedures for 10 key products to identify unnecessary steps and simplify procedures according to international standards
- Establish of SSMO health, animal resources and agriculture laboratories at 3 entry points
- Review and update regulations and laws of Ministry of Environment, Health and Agriculture that could have an impact in trade facilitation
- Ensure that specific SPS requests for 10 key products are being implemented
- Identify which veterinary procedures could have an impact on trade facilitation
- Roll-out of pre-arrival processing procedures for SSMO to five more countries
- Ensure that other agencies are implementing the national standards already established by SSMO for food, agriculture, engineering, chemical and general goods
- Implementing ISO standards that will support trade facilitation (22000, 9001, 17025) including ISO 17025 standard in laboratories of Customs and SSMO, Health, Agriculture, Animal Resources
- Roll out e-payment at all main border posts
- Improving internal border agency cooperation (i.e. cooperation at inspections and within all laboratories of different border agencies)
- Implementation of the Green Customs Strategy
- Come up with a plan to unify all channels to collect fees and charges
- Establish effective advance ruling
- Establish and promote electronic cargo manifest submissions
- Promote and foster the use and operationalization of the Authorised Economic Operation Scheme
- Implement Time Release Study every two years (mid-term and final review of Roadmap) to monitor progress and identify challenges
- Roll-up of Customs automated risk management at all border posts
- Implementation of Customs Valuation Code as indicated in Article 7 of GATT
- Harmonise documents and electronic systems to facilitate the interconnectivity of at least two border agencies so as to start the creation of Single Window for Import, Export and Transit procedures
- Create a plan to foster transshipment and transit in Sudan
- Create a specific plan to reduce delays in clearance at maritime ports

**REVIEW PHASE**
- Evaluation of current Roadmap and drafting of new Roadmap
Through the implementation of the actions included in this Trade Facilitation Roadmap, by the end of 2021 Sudan will reduce the time of import and export by 40% and remove unnecessary costs for traders, thus, leading to at least a 25% increase of exports' volume.

**Vision**

- Mainstream trade facilitation into Sudan’s development policy
- Reduce time of exports and imports by 40%
- Reduce cost of import and export by 10%
- Reduce the average number of documents requested for import and export procedures of the 10 key products by 20%
- Implement at least 70% of the measures of the Trade Facilitation Agreement
- Foster paperless trade by connecting electronically at least two trade border agencies and by providing the possibility of using e-payment at all border posts

**Goals**

- Organize awareness raising meetings to inform key stakeholders of Sudan’s development policy on the importance of trade
- Implementation of Customs Valuation Code as indicated in Article 7 of GATT
- Revise fees and taxes for the 10 key products so as to identify unnecessary costs to traders
- Analyze trade procedures for the 10 key products to identify unnecessary steps and simplify procedures according to international standards
- Harmonize documents and electronic systems to facilitate the interconnectivity of at least two border agencies so as to start the creation of Single Window for Import, Export and Transit procedures

**Activities**

- Review and update regulations and laws of Ministry of Environment, Health and Agriculture that could have an impact in trade facilitation
- Foster policies to facilitate the financing of guarantees for exporters
- Promote and foster the use and operationalization of the Authorized Economic Operation Scheme
- Organize regular consultations with the private sector to inform them on ongoing trade facilitation reforms
- Establish an enquiry point for traders in each border agency

- Ensure that specific SPS requests for the top 10 key products are being implemented
- Identify which veterinary procedures could have an impact on trade facilitation
- Implementing ISO standards that will support trade facilitation (22000, 9001, 17020)
- Roll-out of pre-arrival processing procedures for SSMO to five more countries
- Ensure that all laws, regulations, fees, charges and procedures from all border agencies are published on the Internet
- Establish SSMO, health, animal resources and agriculture laboratories at 3 entry points

- Come up with a plan to unity all channels collecting fees and charges
- Establish and promote electronic cargo manifest
- Create a specific plan to reduce delays in clearance at maritime ports
- Establish effective advance ruling
- Implementation of the Green Customs Strategy
- Improving internal border agency cooperation (i.e. cooperation at inspections and within all laboratories of different border agencies)
- Implementation of ISO 17025 standard in laboratories of Customs and SSMO, Health, Agriculture, Animal Resources

- Identification of resources and donors for activities of the Roadmap
- Evaluation of current Roadmap and drafting of new Roadmap
- Ensure that other agencies are implementing the national standards already established by SSMO for food, agriculture, engineering, chemical and general goods.
- Create a plan to foster transhipment and transit in Sudan
- Roll-up of Customs automated risk management at all border posts
- Implement Time Release Studies every two years (mid-term and final review of Roadmap) to monitor progress and identify challenges
GOVERNANCE STRUCTURE, RESOURCES, RISKS AND ASSUMPTIONS

Julian Fraga-Campos
Associate Economic Affairs Officer
Trade Facilitation Section
UNECE
GOVERNANCE STRUCTURE

1. Vision Statement
2. Baseline Situation
3. Goals (and Goal performance indicators)
4. Activities (and Activity compliance indicators)
5. Schedule of implementation
6. Governance structure
7. Resources
8. Risks and assumptions
The NTF Roadmap should include a **draft outline** of the **Governance Structure required** to manage and implement the Activities.
The governance structure depends on many factors:

- Goals,
- Activities,
- Stakeholders,
- Culture,
- Past experiences,
- Budget...
The detailed governance structure and the name of the steering bodies will vary from country to country.
In the context of the implementation of the WTO TFA, WTO members are obliged to:

"establish and/or maintain a national committee on trade facilitation or designate an existing mechanism to facilitate both domestic coordination and implementation of the provisions of this Agreement" (WTO, 2014).

The national trade facilitation committee should be part of the government structure or at least actively supported by the Government.

</table>
RESOURCES

1. Vision Statement
2. Baseline situation
3. Goals (and Goal performance indicators)
4. Activities (and Activity compliance indicators)
5. Schedule of implementation
6. Governance structure
7. Resources
8. Risks and assumptions
• Resources need to be mobilized for the implementation of the Roadmap.

WHAT DO WE UNDERSTAND BY RESOURCES?

Financial

Human
RESOURCE MOBILIZATION

• Should clearly spell out the resources (human and financial) required for the implementation of the different Activities and the management and steering of the implementation process, including resources required for the operation of the Secretariat.

For instance:

• Funding: domestic or international?
• Estimated budget to cover all the actions?
• HR: Amount of time needed for the project?
• HR: Internal or external?
The development of a detailed resource plan can be identified as one Activity during the Start-up phase.
RISKS AND ASSUMPTIONS

In the context of drafting a Trade Facilitation Roadmap, a risk is defined as:

• An uncertain threat that, if it occurs, could have a negative impact in the completion of the Goal or Activity.

An assumption, on the other side:

• Is a condition that, will enable the successful completion of the Goal or Activity.
RISKS AND ASSUMPTIONS

• Serves to assess whether the Goals and Activities proposed are realistic and achievable – and provides an early indicator to potential danger areas for the project

• General risks and assumptions

• Specific risks and assumptions
• **General risks** and assumptions can be either related to the overall implementation of the Roadmap or common to all Goals included in the Roadmap.
RISKS AND ASSUMPTIONS

- **Specific risks** and assumptions will be related to a concrete Activity,

  i.e. a particular risk that could hinder the successful implementation of a concrete Activity or an assumption that is key to the implementation of a specific Activity.
LEVELS OF RISKS AND ASSUMPTIONS

GENERAL RISKS AND ASSUMPTIONS
Can be either related to the overall implementation of the Roadmap or be common to all Goals included in the Roadmap.

SPECIFIC RISKS AND ASSUMPTIONS
Specific risks and assumptions are related to a specific Activity.

GENERAL RISKS
An uncertain threat that, if it occurs, could have a negative impact in the completion of the Goals.

SPECIFIC RISKS
An uncertain threat that, if it occurs, could have a negative impact in the completion of a particular Activity.

GENERAL ASSUMPTIONS
A condition that, sine qua non, will enable the successful completion of the Goals.

SPECIFIC ASSUMPTIONS
A condition that, sine qua non, will enable the successful completion of a particular Activity.
## EXAMPLES OF GENERAL RISKS AND ASSUMPTIONS

<table>
<thead>
<tr>
<th>General risks</th>
<th>General Assumptions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lack of political commitment / support.</td>
<td>There is political commitment /support.</td>
</tr>
<tr>
<td>There is resistance to change.</td>
<td>There is no resistance to change.</td>
</tr>
<tr>
<td>Lack of necessary financial and human resources.</td>
<td>The necessary financial and human resources are available.</td>
</tr>
<tr>
<td><strong>Environmental event (typhoon, tsunami, etc).</strong></td>
<td>There is environmental stability.</td>
</tr>
</tbody>
</table>
