Train for Trade II

The Creative Economy component will directly contribute to the implementation of Program 1.7.2: “Promotion of Cultural and Creative Arts and Industries” within the scope of Angola's National Development Plan 2018-2022.
Extending the economic potential of the cultural and creative industries in Angola.

Generate employment and development through the growth of exports.

Empower the public, private sector and civil society.
The Cultural and Creative Industries have their origin in the creative sectors, arts, culture and historical heritage, and the concept integrates all human activities based on creativity and capable of contributing to the innovation and competitiveness of countries and regions.

When formalized as businesses, the cultural and creative sectors provide, on average, higher pay and more qualified jobs than traditional service or industrial sectors.

They are driven by original creative ideas and expressions that transform people, places and economies.

The Importance of Cultural and Creative Industries

- World exports of creative goods, increased from $208 billion in 2002 to $509 billion in 2015, more than double during the 13-year period (UNCTAD Creative Economy Outlook: Trends in International Trends in Creative Industries, 2002-2015).

- In 2013, they generated US$2,250b of revenues (3% of world GDP) and 29.5 million jobs. The cultural and creative industries are major drivers of the economies of developed as well as developing countries. (Cultural times: The first global map of cultural and creative industries December 2015, Ernst and Young).

1. Mapping

Systematic study carried out to establish reliable data on the character, size and contribution of creative industries to Angola's economy.
Objective: To develop a database on Angola's cultural and creative industries

- Analyze the strengths, weaknesses, opportunities, and threats of the cultural and creative sector in Angola.
- Identify and analyze the policies and mechanisms of public private support.
- Identify the main sectors, products and services.
- Develop an estimate of the number of people involved in the sectors.
- Understand the economic value of the sector.
- Map production and distribution chains.
- Identify the spatial characteristics of the cultural and creative industries.
- Map marketing and market activation channels.

- **Activate the Economic Value of the Cultural and Creative Sector**
- **Assist in structuring public policies**
- **Activate job creation opportunities**
- **Attract foreign and domestic investment to the sector**
- **Foster Cultural and Creative Tourism**
3. Training modules in creative economics

Based on the Mapping, needs and sectors pointed out by the Angolan government

- Adding value to cultural and creative products
- Improve the export capacity and Develop the “Angola Criativa” Brand

Initial needs

1. Development of a collaborative work model
2. Appointment of interlocutors from the respective Ministries / Secretaries of State
3. Establishing direct and fluid communication
4. Identification of external persons / entities to contact
5. Data sharing
   - Documents (plans, strategic documents, studies)
   - Statistics
   - Analysis and references on sectors
Reflections

1. How can my governance area today boost the Cultural and Creative Industries in Angola?
2. How do I visualize the sector in 5 years?
3. How can I contribute to achieving these goals in the next 5 years?
Formalizing the next steps

1. Minutes of the meeting to be sent by UNCTAD by 21\textsuperscript{st} May 2020

2. Appointment of focal points by each ministry involved and their contacts (email and whatsapp) by to 21\textsuperscript{st} May 2020 by Government members

3. Submission of information note on the project by UNCTAD for external dissemination by 21\textsuperscript{st} May 2020

4. Sending an email to the meeting participants with requests for information and an invitation to a follow-up meeting by 21\textsuperscript{st} May 2020
