## Russian STI solutions related to COVID-19

Name / Category	Description	URL (if available)
<i>Information-sharing mechanisms</i>		
Information portal on COVID-19 <b>Public</b>	The official portals of the Russian Government and Moscow Government provide: - COVID-19-related real-time data; - Information on measures taken by the government; - Recommendations and news; - Information on emergency flights to get Russian citizens back home from abroad.	<a href="http://www.стопкоронавирус.рф">www.стопкоронавирус.рф</a> <a href="http://www.mos.ru/projects/covid-19">www.mos.ru/projects/covid-19</a>
Information portal with online services compilation <b>Public-private</b>	Public-private initiatives run by the Ministry of Digital Development, Communications and Mass Media of the Russian Federation to pool online services that might be useful during the self-isolation period.	<a href="http://www.все.онлайн">www.все.онлайн</a> <a href="http://www.доступвсем.рф">www.доступвсем.рф</a>
Chat-bot on COVID-19 <b>Public</b>	Ministry of Healthcare of the Russian Federation launched a chat-bot in messengers WhatsApp and ICQ New, to provide COVID-19-related information 24/7. It is used as an alternative to a telephone helpline.	-
<i>Self-isolation monitoring mechanisms</i>		
QR-based & numerical passes <b>Public</b>	The initiative launched by several regional governments (e.g. Moscow, Moscow region, Tatarstan) which requires citizens to apply for a pass to leave home for work or health purposes during the self-isolation period.  In some regions (Moscow), a pass is required only for those who use public or private transport. In this case, the pass should be linked to train/bus pass or license plate number.	<a href="http://www.nedoma.mos.ru">www.nedoma.mos.ru</a> <a href="http://www.uslugi.mosreg.ru/stop-covid">www.uslugi.mosreg.ru/stop-covid</a> <a href="http://www.covid19.tatarstan.ru">www.covid19.tatarstan.ru</a>
Private Transport Passes Enforcement App <b>Public</b>	«Quarantine» App is an app, which enables a traffic patrol in Moscow to identify vehicles without a pass.  The app is driven by traffic data from public CCTV networks.	-
Self-isolation Index <b>Private</b>	Research being done by Yandex based on its data from Yandex ecosystem apps.  It shows the daily level of social activity in Russian cities compared with an average day before COVID-19. Integrated into Yandex.Maps for better visibility.	<a href="http://www.yandex.ru/maps">www.yandex.ru/maps</a>
<i>Online public services related to COVID-19</i>		
Public Services Portal of the Russian Federation <b>Public</b>	With regard to the COVID-19 crisis Public Services Portal now allows citizens to apply for: - Medical leave without visiting a hospital; - Grants and other forms of financial support announced by the government; - An emergency flight to get back home from abroad.	<a href="http://www.gosuslugi.ru">www.gosuslugi.ru</a>
<i>Devices related to COVID-19</i>		
Non-contact Body Temperature Measuring <b>Private</b>	Thermocontrol is an autonomous non-contact body temperature measuring terminal developed by Promobot.  It measures body temperature in 5 second with accuracy of 0.2C°, recognizes faces and speech and, if necessary, sends notifications to security and access systems.	<a href="http://www.promo-bot.ru/production/thermocontrol/">www.promo-bot.ru/production/thermocontrol/</a>
Disinfection Robots <b>Private</b>	Disinfection robots are designed to carry out disinfection autonomously at (1) streets and public places; (2) rooms and premises.  There are a number of solutions in this segment in Russia developed by Promobot, Sberbank Robotics Laboratory, etc.	<a href="http://www.promo-bot.ru/use-case/disinfection">www.promo-bot.ru/use-case/disinfection</a>

*Educational and training programmes*

Distance learning projects  <b>Public-Private</b>	There are a number of free distance learning solutions on the federal and regional level recommended by the Ministry of Education of the Russian Federation.  <i>Federal level:</i> Russian Electronic School, Sirius Courses, WordSkills Russia, Proektoria, etc.  <i>Regional level:</i> Moscow Electronic School, Mosobr.TV, MySkills, etc.	Recommendations: <a href="http://www.edu.gov.ru/distance">www.edu.gov.ru/distance</a> Sources: <a href="http://www.reshe.edu.ru">www.reshe.edu.ru</a> <a href="http://www.mes.mosedu.ru">www.mes.mosedu.ru</a> <a href="http://www.edu.sirius.online">www.edu.sirius.online</a> <a href="http://www.wordskills.ru">www.wordskills.ru</a> <a href="http://www.proektoria.online">www.proektoria.online</a> <a href="http://www.mosobr.tv">www.mosobr.tv</a> <a href="http://www.myskills.ru">www.myskills.ru</a>
