

Republic of Rwanda

Rwanda STI Overview

20th Annual Session of the UNCSTD

“In Rwanda, we put science at the very centre of our national development strategy, starting from 1997, when urgent questions of national reconstruction still, of necessity, consumed almost all of our attention. But it was clear, even then, that our pathway to prosperity lays in investing in the productive capabilities of our people, which until then had not been given adequate attention”

H.E. Paul KAGAME, President of the Republic of Rwanda, ICTP,

Trieste, Italy, 2014

Enabling Environment & Ecosystem

Diversified and Sustainable Energy: Methane Gas, Solar Energy, Peat

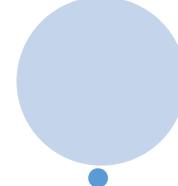

Modern broadband infrastructure: Fiber Optic, 4G, Data Center

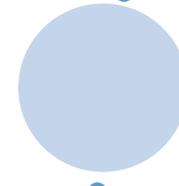

Agriculture: Seed Bank, eSoko, EAX, mFarm, Fertilizer Voucher MS, Mechanization

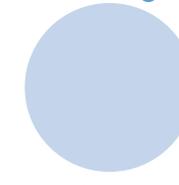

Growing Network of Regional and National Centers of Excellence

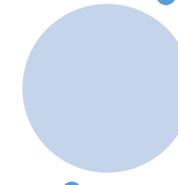

Africa Center of Excellence in Data Sciences (UR, WB)

Africa Center of Excellence in Internet of Things (UR, WB)

Carnegie Mellon University Africa (CoE in ICT)

Regional Health Supply Chain Management and Logistics

East African CoE in Biomedical Eng. (UR, AfDB)

African Institute of Mathematical Sciences (AIMS)

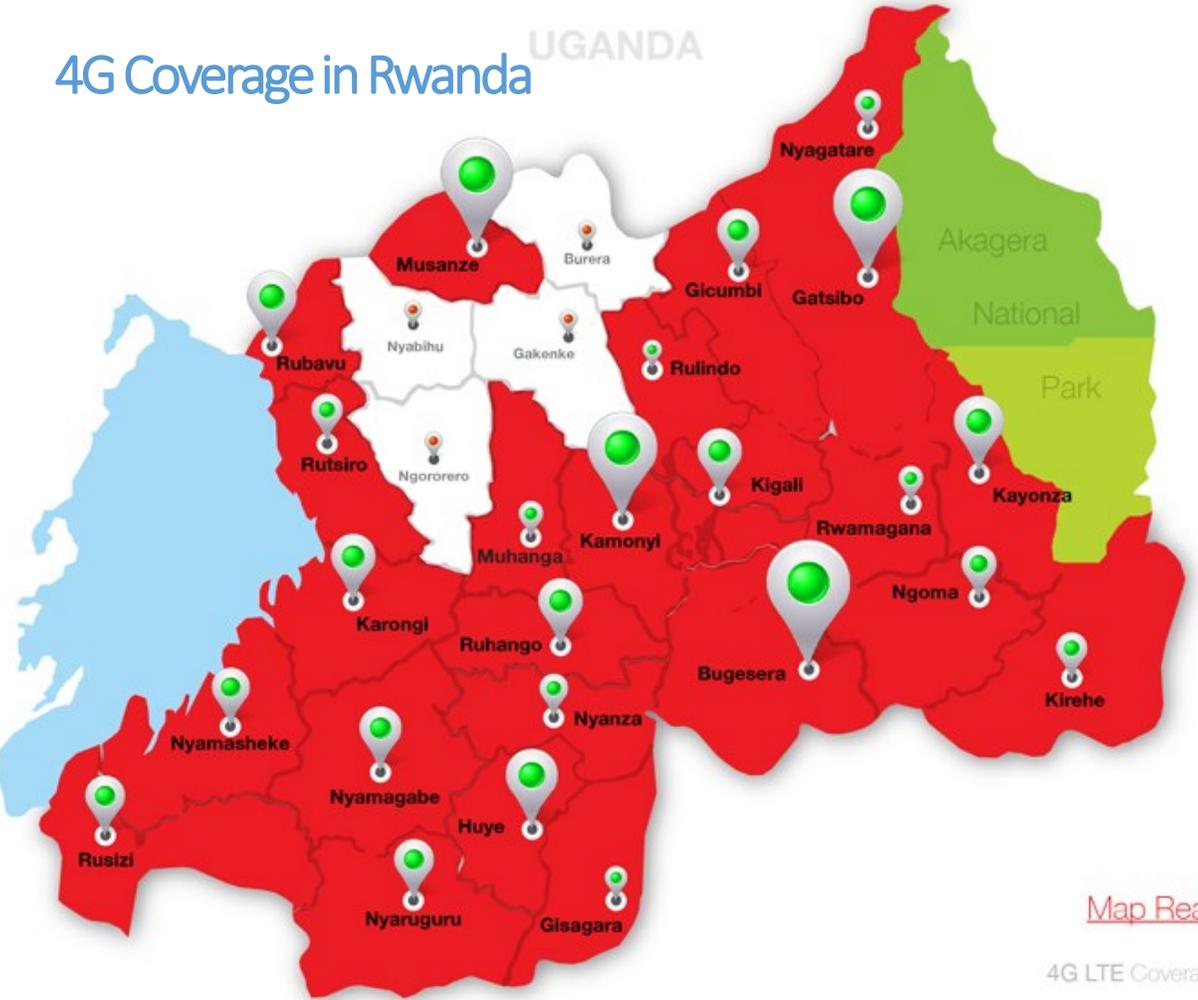

Growth of the Telecommunication Sector

Rwanda Elected as ITU Council member

4G Coverage in Rwanda

Today: **4G LTE** in 21 cities of Rwanda

Driving Regional Integration

ONE NETWORK SERVICE.
NO CHARGES FOR
RECEIVED CALLS.

VOICE TRAFFIC RWANDA TO UGANDA

One-Network-Area

Adopted by the Northern Corridor member countries

- roaming charges to be scrapped and
- cost of calls reduce by 60%
