Two ways;

Provide logistic and policy supports and

Exchange positive and negative findings of experience among countries

7. How can enhanced cooperation enable other stakeholders to carry out their roles and responsibilities?

Each stakeholder must think the issue seriously.

8. What are the most appropriate mechanisms to fully implement enhanced cooperation as recognized in the Tunis Agenda, including on international public policy issues pertaining to the Internet and public policy issues associated with coordination and management of critical Internet resources?

Make a declaration and ask governments and countries to follow the protocol to enhance the positive usage of Internet.

9. What is the possible relationship between enhanced cooperation and the IGF?

NA

10. How can the role of developing countries be made more effective in global Internet governance?

Due to lack of adequate expertise developing countries felt severe problems in making Internet governance properly. Training and advice from the developed world inclusive of cooperation among neighbouring countries can be a suitable way to address the issue.

11. What barriers remain for all stakeholders to fully participate in their respective roles in global Internet governance? How can these barriers best be overcome?

Finance, expertise, infrastructure and law are the major flaws.

12. What actions are needed to promote effective participation of all marginalised people in the global information society?

A broad-based campaign can be a good idea to include the marginal people in the process.

13. How can enhanced cooperation address key issues toward global, social and economic development?

Share ideas, work jointly with state mechanisms and raise the voice in the regional and international fora.

14. What is the role of various stakeholders in promoting the development of local language content?

National government must commission local experts and can take assistance from other countries.

15. What are the international internet-related public policy issues that are of special relevance to developing countries?

The ultimate goal of any step is to ensure human development. A public policy would work as a guideline for developing countries.

16. What are the key issues to be addressed to promote the affordability of the Internet, in particular in developing countries and least developed countries?

Make internet connection available everywhere with minimal cost.
Produce a policy guideline for the stakeholders and users
Take cooperation from regional and international agencies eg UN

17. What are the national capacities to be developed and modalities to be considered for national governments to develop Internet-related public policy with participation of all stakeholders?

Use of local resource and experites are enough for this activities.

18. Are there other comments, or areas of concern, on enhanced cooperation you would like to submit?

NA
