Partnership on Measuring ICT for Development

- Launched in 2004 to improve the availability and quality of ICT data and indicators, particularly in developing countries.
- The Partnership work is coordinated by a Steering Committee, which is elected every 3 years. The current Steering Committee is made up of ITU, UNCTAD, and UIS. ITU is the Chair of Steering Committee from January – June 2021.
- The Partnership helps developing countries collect ICT statistics, particularly through capacity-building and hands-on training for national statistical offices and collects and disseminates information society statistics. Its membership has grown from originally 11, to today 14 regional and international organisations.

WSIS ACTIVITIES RELATED TO COVID-19 RESPONSE

1. WSIS TalkX

In April 2020, at the request of WSIS stakeholders, the WSIS Team hosted regular weekly virtual WSIS TalkX for the WSIS Stakeholders to interact, connect and collaborate. The virtual WSIS TalkX sessions explore an aspect of the global response to COVID-19, providing WSIS Stakeholders with a platform to create partnerships for on-the-ground action. The sessions have been adapted to podcasts and are available to listen and download at [WSIS TalkX Podcast](#).

2. The Coronavirus (COVID-19) Response – ICT Case Repository

As part of the WSIS Stocktaking ongoing efforts to promote the good use of ICTs in making social impact, and in order to provide useful, replicable and actionable information to all WSIS community and beyond, the Coronavirus (COVID-19) Response – ICT Case Repository was initiated for collecting projects and activities on how ICTs are assisting stakeholders in their everyday life, work, and combating challenges caused by this extraordinary pandemic. The Coronavirus Response is now available here: <http://www.itu.int/go/wsis2020outcomes>

3. Workshops at WSIS Forum 2021

More than 70 workshops organised by various stakeholders highlighted issues and efforts related to the topic of COVID-19 at the WSIS Forum 2021. Many emphasised the importance of ICTs, in particular internet access and connectivity for all during the COVID-19 pandemic.
