

Overview of Fiji's NTMs

Results of NTM data collection
under the UNCTAD's MSG green trade project

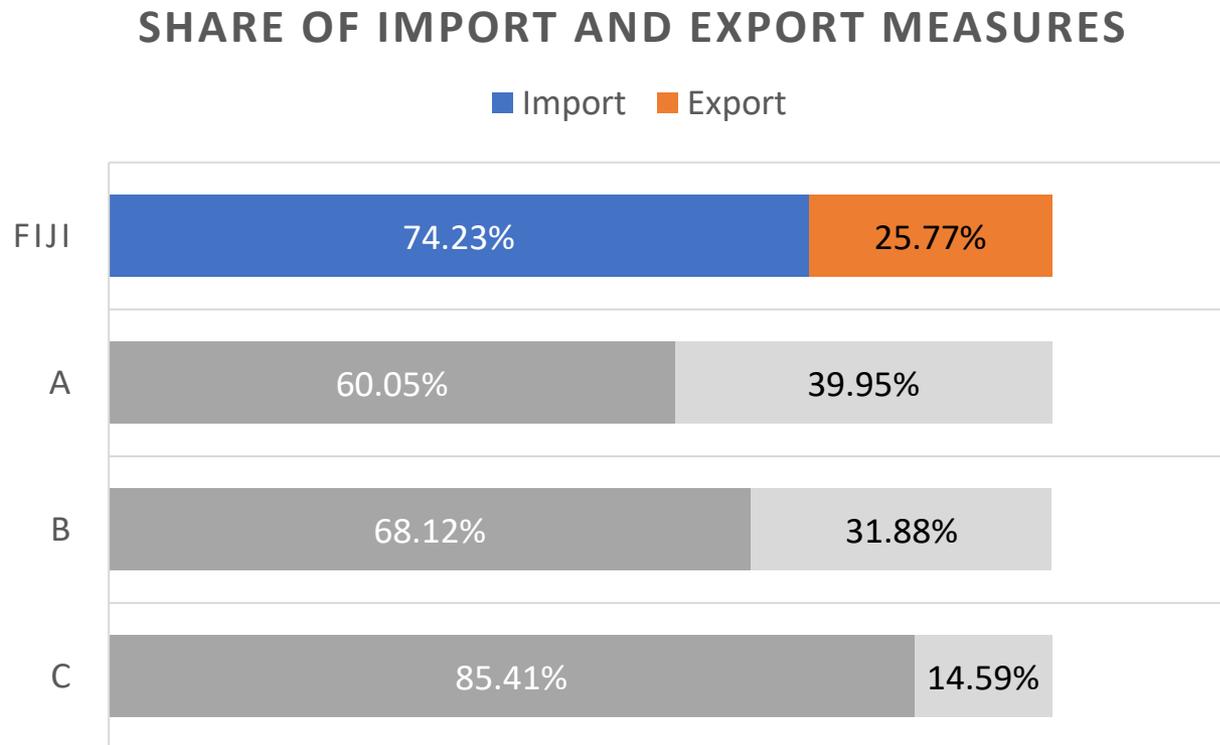

NTM data results: Initial findings

- At the time of end-2021, across regulatory documents of all hierarchies from the Laws of Fiji managed by the Office of Attorney-General
- 79 regulations introduced NTMs (both principal and subsidiary legislation)
- 388 NTMs were identified and classified
- 25 different ministries and departments were involved.
- The number of regulations, NTMs and ministries is similar to other MSG countries.

NTM data results: Product coverage

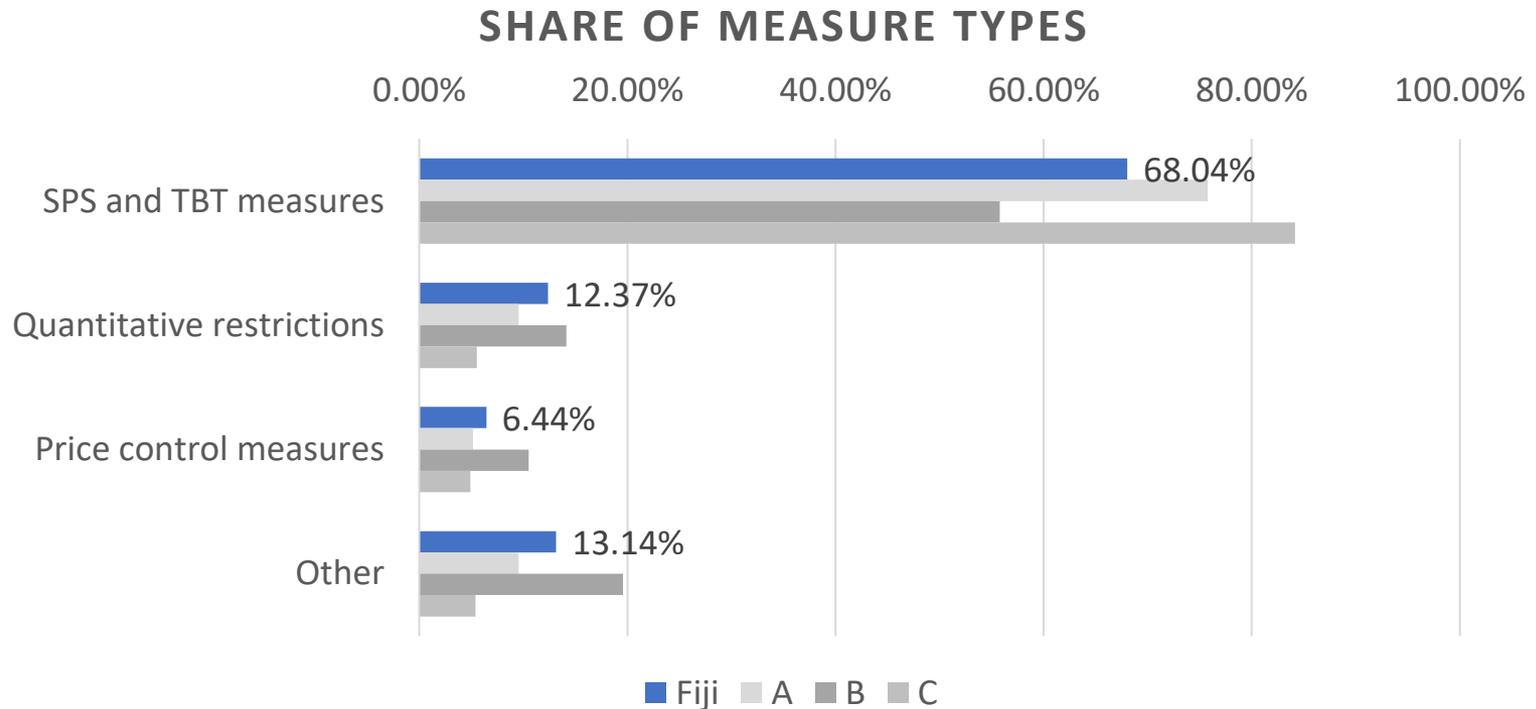

- All the products are subject to the NTMs on customs control, customs declaration, correct trade description.
- **Most regulated sectors (based on the number of regulations):**
 - Specific type of foods (for export)
 - Animals, animal products, plants and plant products
 - Hazardous substances and wastes
- **Least/non regulated sectors (based on the number of regulations):**
 - Cultural artifacts
 - Indecent publications

NTM data results: Regulatory instruments

The share between import and export measures in Fiji is within the range of other MSG countries but the share of export measures is on the low side.

NTM data results: Regulatory instruments

The share of different types of NTMs in Fiji is within the range of other MSG countries.
