PREFACE

This document is the fourth in the series of selected statistics on the economy of the occupied Palestinian territory (the Gaza Strip and the West Bank), compiled by the Special Economic Unit (Palestinian people) of the UNCTAD secretariat. It is devoted to the national accounts of the occupied Palestinian territory for the period 1968-1987. The series are based on official data published by the Israel Central Bureau of Statistics and exclude East Jerusalem. They are classified in accordance with the specifications established under the Economic Time Series (ETS) in use in the UNCTAD secretariat. In order to ensure consistency of terminology and definition with established guidelines, the United Nations System of National Accounts has been also consulted. For more technical information on the classification of the series, reference is made to the Explanatory Notes on page (iv).

EXPLANATORY NOTES

1. Tables are numbered as follows:

The first two letters in a table number refer to the major topic, as follows:

- "NA" for National Accounts

A roman numeral follows the first letters and refers to the geographic area, as follows:

- "I" for Gaza Strip
- "II" for the West Bank
- "III" for the Occupied Palestinian Territory (i.e. Gaza Strip and West Bank, excluding East Jerusalem)

The Arabic number which follows the roman numerals is preceded by a (/) symbol, and refers to the specific topic of the tables.

A capital letter follows the Arabic number, and refers to the units used:

- "A" for the national currency or natural units, according to the topic of the table;
- "B" for United States dollars;
- "C" and "D" for percentages.

EXAMPLE: Table designation NA.I/IA signifies the following:

- NA: National Accounts
- I: Gaza Strip
- 1: Gross Domestic Product by Industrial Origin
- A: New Israeli Shekels

2. Unless otherwise noted, all statistical series used for the preparation of the tables are based on figures published by the Israel Central Bureau of Statistics (CBS) in the annual Statistical Abstract of Israel and the periodic Judea, Samaria and Gaza Area Statistics (published prior to 1984 under the title The Administered Territories Statistical Quarterly). These publications are referred to in the sources of separate tables as SAI and JSGAS, respectively.
3. The figures used are the latest available estimates, which in many cases are revised versions of earlier published estimates.
4. In cases where figures were misprinted in the original published source, the sums of components were computed or other published versions of the misprinted figures were substituted.
5. Unless otherwise indicated, all "total" series have been generated from their components in order to ensure consistency between series and tables and greater accuracy than in published totals.
6. Unless otherwise indicated, variables are defined as in the original sources.
7. Whenever possible, the titles of variables have been streamlined in accordance with standard international terminology.

8. The "Occupied Territory" tables were prepared by adding up the figures for the West Bank and for Gaza Strip. Therefore, these tables do not incorporate statistics on occupied East Jerusalem.
9. New Israeli Shekel series (i.e., the "A" tables) were obtained by using published figures (in Israeli shekels) for the longest available period. For earlier years, figures in Israeli liras and old shekels were converted respectively according to the following ratios:
 - 1 new Israeli shekel = 10,000 Israeli liras
 - 1 new Israeli shekel = 1,000 old shekels.
10. United States dollar series (i.e., the "B" tables) for the period 1968-1979 were obtained by converting the computed New Israeli shekels into United States dollars using the average annual exchange rate as quoted in the International Monetary Fund, International Financial Statistics (Washington DC, IMF, 1985 and 1987).

Conversion of series originally expressed in national currency into a common currency - U.S. dollars - through the use of official exchange rates is not always satisfactory owing to the deviation of the official exchange rates from purchasing power parities. For this reason some data in U.S. dollars - such as GDP and GNP per capita - contained in this document are subject to certain distortions and can be used only as a rough approximation of the relative magnitudes involved. They can alternatively serve as a source of primary data requiring further processing and adjustment.

11. For the period 1980-1988, Israeli data as originally published in U.S. dollars were used wherever available. Since the U.S. dollar series published by the Israel CBS is computed using quarterly data expressed in New Israeli Shekels and quarterly exchange rates, it is more accurate than the series generated by the use of annual exchange rates. Recourse to calculations based on annual exchange rates was only made when original data were found to be inaccurate or missing.
12. All tables in percentages (i.e., the "C" tables) are calculated from tables denominated in United States dollars (i.e., the "B" tables).
13. The following symbols are used:
 - . = category not applicable
 - .. = unknown, series discontinued, or not available for publication
 - US\$ = United States Dollars
 - NIS = New Israeli Shekels

All years refer to calendar years, starting on 1 January and ending on 31 December.

- (3) Net Factor Income from Abroad: figures are obtained by subtracting Factor Income to Abroad from Factor Income from Abroad.
- (4) Gross National Product: is computed as the sum of GDP at Market Prices in column (1) and net Factor Income from Abroad in column (4).
- (5) Net Current Transfers from Abroad:
1985-87: JSGAS, 1988, vol. XVIII, No. 1, Table 9, p. 31 and Table 2, p. 21 for Gaza Strip and the West Bank respectively.
1984: SAI, 1987, No. 38, Table XXVII/7, p. 706.
1977-83: JSGAS, 1985, vol. XV, No. 2, Table 9, p. 171 and Table 2, p. 164 for Gaza Strip and the West Bank respectively.
- For years prior to 1977, data series for Net Current Transfers is not available in published national accounts statistics. Accordingly, the series were completed using data for Net Transfer Payments from the Balance of Payments on the Current Account:
1976: SAI, 1979, No. 30, Table XXVII/10, p. 724.
1975: SAI, 1977, No. 28, Table XXVII/11, p. 712.
1973-74: SAI, 1975, No. 26, Table XXVII/11, p. 692.
1972: SAI, 1974, No. 25, Table XXVI/10, p. 684.
1971: SAI, 1973, No. 24, Table XXVI/11, p. 701.
1970: SAI, 1972, No. 23, Table XXVI/10, p. 651.
1969: SAI, 1971, No. 22, Table X/3, p. 629.
1968: SAI, 1969, No. 20, Table X/3, p. 634.
- (6) Figures for Gross National Disposable Income were obtained by adding Net Current Transfers from Abroad to Gross National Product. Gross National Disposable Income differs from Net National Disposable Income in that the former does not account for the consumption of fixed capital.

SOURCES: TABLES NA.1/4A NA.111/4A

(1) Unless otherwise stated, sources quoted are for all series in the tables:

- 1985-87: JSGAS, 1988, vol. XVIII, No. 2, Table 11, p. 32 and Table 3, p. 22 for Gaza Strip and the West Bank respectively.
For 1985-87, figures for Domestic Consumption Expenditure by Households are computed as the sum of the three components, namely the Consumption of Agricultural Goods, the Consumption of Manufactured Goods and the Consumption of Services. These replace inaccurate figures published by the Israel CBS. Consequently, figures for Private Consumption Expenditure have also been recomputed.
- 1984: SAI, 1987, No. 38, Table XXVII/8, p. 707.
- 1977-83: JSGAS, 1985, vol. XV, No. 2, Table 10, p. 172 and Table 3, p. 165 for Gaza Strip and the West Bank respectively.
- 1975-76: SAI, 1978, No. 29, Table XXVII/8, pp. 771.
- 1972-74: JSGAS, 1976, vol. VI, No. 1, Table 6, p. 72 and Table 5, p. 71 for Gaza Strip and the West Bank respectively.
- 1971: SAI, 1975, No. 26, Table XXVI/1, p. 691.
- 1968-70: SAI, 1973, No. 24, Table XXVI/8, p. 700.

(2) Private Final Consumption Expenditure is equal to Domestic Consumption Expenditure by Households plus the Net Direct Purchases Abroad (i.e. direct purchases by residents abroad less direct purchases in the domestic market by non-residents). This differs from the procedure followed by CBS, whereby Net Consumption of non-residents (i.e., the direct purchases of non-residents in the domestic market less direct purchases of residents abroad) is a negative flow which is subtracted from Private Domestic Consumption Expenditure.

SOURCES: TABLES NA.1/5A - NA.111/5A

(1) Sources for all series except Gross Domestic Capital Formation:

- 1985-87: JSGAS, 1988, vol. XVIII, No. 2, Table 12, p. 33 and Table 4, p. 23 for Gaza Strip and the West Bank respectively. For Total Private Fixed Capital Formation and hence, Gross Fixed Capital Formation in the West Bank, the series have been recomputed as the published figures are an incorrect sum of their components.
- 1984: SAI, 1987, No. 38, Table XXVII/9, p. 708. For changes in olive oil stocks in 1984: JSGAS, 1985, vol. XV., No. 2, Table 4, p. 70.
- 1977-83: JSGAS, 1985, vol. XV, No. 1, Table 11, p. 175 and Table 4, p. 166 for Gaza Strip and the West Bank respectively.
- 1976: JSGAS, 1980, vol. X, No. 1-2, Table 6, p. 68.
- 1974-75: JSGAS, 1979, vol. IX, No. 2, Table 6, p. 68.
- 1972-73: JSGAS, 1976, vol. VI, No. 1, Table 7, p. 73.
- 1968: SAI, 1988, No. 38, Table XXVI/9, p. 708.

(2) Gross Domestic Capital Formation:

- 1984-87: Due to calculation errors in the published figures, totals were recomputed by adding the correct figures for Total Private Fixed Capital Formation, Changes in Olive Oil Stocks and Government and Local Authorities.
- 1977-83: JSGAS, 1985, vol. XV, No. 1, Table 11, p. 175 and Table 4, p. 166 for Gaza Strip and the West Bank respectively.
- 1976: JSGAS, 1980, vol. X, No. 1-2, Table 6, p. 68.
- 1974-75: JSGAS, 1979, vol. IX, No. 2, Table 6, p. 68.
- 1972-73: JSGAS, 1976, vol. VI, No. 1, Table 7, p. 73.
- 1968-71: SAI, 1975, No. 26, Table XXVI/9, pp. 688-689.

(3) Building and Construction Works, which is the main component of Private Fixed Capital Formation, largely constitute Palestinian private expenditure on housing in the occupied territory.

1968-70: SAI, 1972, No. 23, Table XXVI/9, p. 650.
- (2) Gross Disposable Domestic Private Income was generated by first adding Transfers from Governments and Local Authorities to Gross National Income, then subtracting Income Tax and Transfers to Governments, i.e.:
column (4) = column (1) + column (2) - column (3).
Gross Disposable Domestic Private Income differs from the normally measured Net Disposable Domestic Private Income in that Gross National Income at market price includes Taxes in Production.
- (3) Gross Disposable Private Income was generated by adding Private Transfers from Abroad to Gross Disposable Domestic Private Income, i.e.:
column (6) = column (4) + column (5)
- (4) Private Savings was computed as the difference between Gross Disposable Private Income and Private Final Consumption Expenditure. This difference tallies almost exactly with the published series for Private Savings, which only covers the period 1977-1987.

SOURCES: TABLES NA.PC/8, NA.PC/9, NA.PC/10

- (1) Per capita figures were obtained by dividing the relevant National Accounts indicators (using data series from the respective tables) by the total mid-year population of the particular area.
- (3) Mid-Year Population was obtained as the mean of End-of-year and Beginning-of-year Population figures.
- (2) Population at End-of-year; Population at Beginning-of-year:
1967-88 SAI, 1989, No. 40, Table XXVII/1, p. 700.

Except:

- 1986-87: For Gaza Strip, computed figures for Population at end- and beginning-of-year replace published figures.
- 1983-84: For the West Bank, computed figures for Population at end- and beginning-of-year replace published figures.

SURVEY OF THE QUALITY AND USEFULNESS OF UNCTAD PUBLICATIONS AND OF THEIR END-USERS
