

Unlock your potential in smart logistics

Designed by UNCTAD, and industry experts, Empretec LogiHub aims to create an agile and inclusive entrepreneurial ecosystem by enhancing entrepreneurship capacities and leveraging technological capabilities.

Boost the entrepreneurial journey in the logistics sector through a three tracks approach, including the possibility of study tours and mentoring

LogiHub LAUNCHPAD

5 - Day workshop for early-stage start-ups, with national and international experts focusing on skills development, team building and innovation in Logistics.

LogiHub ACCELERATE

4 - Day workshop for mid-stage start-ups, with national and international experts to teach them how to scale up their start-ups in the smart logistics sector.

LogiHub MASTERY

6 - Month programme for mature start-ups to create comprehensive, integrated and connected business networks with global market access.

Do not miss the opportunity to learn, grow and excel in the fast-paced logistics industry
