Japan Network Information Center (JPNIC) is a non-profit, membership-based organization that acts as the National Internet Registry, which administers IP addresses and AS numbers in Japan, as well as is dedicated for sustainable and smooth operation of the Internet in Japan through efforts such as ensuring public interests for .JP ccTLD, and promoting the Internet by providing information and by performing research for technical and policy issues.

**2. What do you think is the significance, purpose and scope of enhanced cooperation as per the Tunis Agenda? a) Significance b) Purpose c) Scope**

(Left intentionally blank)

**3. To what extent has or has not enhanced cooperation been implemented? Please use the space below to explain and to provide examples to support your answer.**

In our view, the Internet Governance Forum, or IGF, is the core process for enhanced cooperation. It successfully increased dialogues among the Internet stakeholders including governments and various stakeholders and has been clarifying the issues on the Internet, which will help governments to carry out their roles and responsibilities in international public policy issues pertaining to the Internet.

**4. What are the relevant international public policy issues pertaining to the Internet?**

(Left intentionally blank)

**5. What are the roles and responsibilities of the different stakeholders, including governments, in implementation of the various aspects of enhanced cooperation?**

(Left intentionally blank)

**6. How should enhanced cooperation be implemented to enable governments, on an equal footing, to carry out their roles and responsibilities in international public policy issues pertaining to the Internet?**

Please refer Answer #3.

**7. How can enhanced cooperation enable other stakeholders to carry out their roles and responsibilities?**

(Left intentionally blank)

**8. What are the most appropriate mechanisms to fully implement enhanced cooperation as recognized in the Tunis Agenda, including on international public policy issues pertaining to the Internet and public policy issues associated with coordination and management of critical Internet resources?**

The Critical Internet Resources, CIRs have been managed under the scheme of ICANN and Regional Internet Registries or RIRs, with the policies considered in their open forums which have involved the global Internet stakeholders. Any public policy associated with coordination and management of CIRs should be discussed and considered in ICANN and RIRs forums. In our view, the participation of the governments in those forums is a great extent of enhanced cooperation.

**9. What is the possible relationship between enhanced cooperation and the IGF?**

We appreciate that IGF is the core process for the promotion of enhanced cooperation, which successfully gathers a lot of governments as well as various Internet stakeholders to enable active dialogues on an equal footing among them. We would like the IGF to be more activated as the promotion body of enhanced cooperation.
