Development Branch, United Nations Conference on Trade and  
Development (UNCTAD) (TBC)

**Group Photo & Networking Session**

12:35–12:40

**Lunch**

12:40

*Venue: Damar Restaurant, Floor 3*

**Departure of Delegates**

## **Co-organizers**

### **About the AIPA**

AIPA was established as a regional parliamentary organization on 2 September 1977 initially as AIPO (ASEAN Inter-Parliamentary Organization) and later renamed as ASEAN Inter-Parliamentary Assembly. AIPA serves as the center of communication and information for its members, which comprise parliaments of Brunei Darussalam, Cambodia, Indonesia, Lao PDR, Malaysia, Myanmar, the Philippines, Singapore, Thailand, and Viet Nam. AIPA's aims and purposes are to promote solidarity, understanding, cooperation, and close relations among parliaments of ASEAN Member States, other parliaments, and parliamentary organizations; to study, discuss, and suggest solutions to problems of common interest and express its views on such issues with the aim of bringing about action and timely response by the members of AIPA; and to promote the principles of human rights, democracy, peace, security, and prosperity in ASEAN.

### **About the ICCF Group**

The ICCF Group provides on-the-ground solutions to build political will and catalyze change to preserve the world's most critical landscapes. The ICCF Group has supported the establishment of legislative caucuses in more than 20 countries, working directly with parliaments committed to advancing natural resource governance. In AIPA countries, the ICCF Group serves as the Secretariat for the Kaukus Kelautan (Oceans Caucus) Republic of Indonesia and the Thailand Senate Conservation Caucus. The ICCF Group hopes to expand the caucus model for willing AIPA parliaments who will gain access to ICCF's vast network of conservation leaders and experts. ICCF takes a holistic approach to conservation models that promotes tools for the benefit of the environment, wildlife, and the community. The ICCF model is leading in addressing environmental challenges by making "conservation for the people."

### **About the UNCTAD**

The United Nations Conference on Trade and Development (UNCTAD) is the UN's leading institution dealing with trade and development. It is a permanent intergovernmental body established by the United Nations General Assembly in 1964. UNCTAD supports developing countries to access the benefits of a globalized economy more fairly and effectively. It provides economic and trade analysis, facilitates consensus-building and offer technical assistance to help developing countries use trade, investment, finance and technology for inclusive and sustainable development. UNCTAD Oceans Programme seeks to identify the opportunities and challenges that the growing global ocean economy can bring. It also supports national trade and other competent authorities to design and create an enabling policy and regulatory environment that promotes the development and emergence of sustainable ocean economic sectors. UNCTAD Sustainable Manufacturing and Environmental Pollution Programme aims reducing the environmental health and socio-economic impacts of the manufacturing sector in target

countries, as well as addressing some of the most pressing challenges associated with plastic pollution.
