### **Multi-year Expert Meeting on Commodities and Development Eleventh session**

**Geneva, 15 and 16 April 2019**

The eleventh session of the Multi-year Expert Meeting on Commodities and Development will be held on 15 and 16 April 2019 in Room XXVI of the Palais des Nations, Geneva, Switzerland. It will start at 10 a.m. on Monday, 15 April.

#### **Background and purpose of the meeting**

The topics for this session were approved by the extended Bureau of the Board in November 2017 and agreed by the Trade and Development Board at its sixty-fifth session, part II, on 4 October 2018. The Nairobi Maafikiano calls upon UNCTAD to “strengthen the capacity of commodity-dependent and net food-importing developing countries to reduce the short-term negative effects of price volatility, through instruments for market risk management” (paragraph 76 (p)). Hence, the meeting will provide a forum for sharing country experiences in addressing the impacts of commodity price risk as well as weather-based risk particularly in commodity-dependent developing countries. Better risk management is expected to stabilize and even increase incomes of commodity producers, helping them to achieve the Sustainable Development Goals by 2030. The meeting will identify policies that these countries may pursue to maximize development benefits from commodity production and trade. It will also evaluate the major risks facing the commodity sector in developing countries, with a view to identifying the challenges posed by the impact of large variations in commodity prices and commodity production on economic performance in these countries. Participants will discuss policy options for managing risk in the commodity sector of commodity-dependent developing countries.

#### **Participation**

The meeting is open to all member States of UNCTAD. Representatives of other organizations, including specialized agencies, intergovernmental bodies and non-governmental organizations in the general and special categories, as well as academia and the private sector, may participate as observers.

### **Financial assistance**

Depending on the availability of funding, financial assistance may be granted to a limited number of officially nominated experts from developing countries. Governments requiring funding are invited to specifically request financing in their letters of nomination. It should be understood that there are limited funds available. The decision as to which nominated experts should receive financing will be based on the direct involvement and expertise of the experts, on the principle of equitable geographical and gender representation and on the needs of beneficiaries. Changes in the experts nominated by Governments will be considered new nominations. Nominations with requests for financing should be received no later than 14 March 2019 and should be accompanied by the following information about each nominee: curriculum vitae, mailing and email addresses, telephone and fax numbers, and name of contact person in the relevant permanent mission in Geneva.
