## NOTIFICATION

### **Multi-year Expert Meeting on Transport, Trade Logistics and Trade Facilitation Ninth session**

#### **Sustainable and resilient transport and trade facilitation in times of pandemic and beyond: Key challenges and opportunities**

**Geneva, 12–14 July 2022**

The ninth session of the Multi-year Expert Meeting on Transport, Trade Logistics and Trade Facilitation will be held from 12 to 14 July 2022 in room XVIII of the Palais des Nations in Geneva. The session will commence at 10 a.m. on Tuesday, 12 July 2022.

The meeting will be in a hybrid format (in-person and online participation).

#### **Background and purpose of the meeting**

The disruption from the coronavirus disease (COVID-19) and uncertainty about a lasting recovery are stark reminders of how unprepared transport and logistics are in the face of disruptions. Pandemic-induced shifts in supply, consumption and demand patterns, the rise in logistical bottlenecks, port congestion and delays, the surge in shipping rates and costs, and deterioration in service reliability have all become a constant feature of the current transport and logistics landscape. The short-term outlook remains one of continued disruption amid emerging virus variants and new waves of infections, as well as a riskier geopolitical landscape. Several trends are making a rapid return to “normal” more challenging, while at the same time generating opportunities for transport and logistics, including trade facilitation. Transport and logistics are facing multiple imperatives spanning digitalization, climate change mitigation and adaptation, transition to low carbon fuels, environmental sustainability, and energy and food security. Addressing the challenges, balancing competing priorities and seizing opportunities call for adequate policies and strategies that prioritize the future proofing of transport and logistics.

The ninth session of the Multi-year Expert Meeting on Transport, Trade Logistics and Trade Facilitation provides a timely opportunity to reflect on the key issues at stake and provide recommendations on the best way forward, identify priority action areas, in particular for the most vulnerable group of countries, among these the least developed countries, small island developing States and landlocked developing countries, and define the role of relevant stakeholders, including from industry, Government, the public and private sectors and development partners and financial institutions.

Governments requiring funding are invited to specifically request financing in their letters of nomination. The decision as to which of the nominated experts should receive financing will be based on the direct involvement and expertise of the experts, on the principle of equitable geographical and gender representation and on the needs of beneficiaries. Changes in the experts nominated will be considered new nominations.

Nominations with requests for financing should be received by **13 May 2022** and should be accompanied by the following information about each nominee: curriculum vitae; postal and email addresses; telephone and fax numbers; and name of contact person in the relevant permanent mission in Geneva. Once the list of experts to receive financial assistance has been finalized, all travel arrangements will be made in accordance with United Nations rules and regulations.
