

# TRADE FACILITATION INNOVATION DAYS 2023

## AGENDA (CET)

### Tuesday, 19 September

10:00 am

TFID Launch

10:30 am

#### Trade Tech - Seizing the future Harnessing the power of technology to streamline trade

- 1) **Application:** What emerging technologies are available and how can we best use them?
- 2) **Challenges:** What are the main obstacles to adoption?
- 3) **Endorsement:** How can we accelerate technological integration?

Elevating innovation - jump with us on the elevator (pitches)

12:30 pm

Break

1:30 pm

#### Reinventing Supply Chains Exploring how technology can reinforce resilience and drive greater efficiencies

- 1) **Performance:** How might innovation further optimise logistics?
- 2) **Amenability:** Can emerging, innovative transparency tools help in building public private sector trust?
- 3) **Disruption:** How might innovation reinforce disaster preparedness in supply chain management?

3:30 pm

Break

4:00 pm

#### Advancing E-Commerce Technology has made it possible - now it's time to improve it

- 1) **Inclusivity:** Do simplified Customs procedures and e-platforms hold the key to true e-Commerce democratisation?
- 2) **Readiness:** Is there enough emphasis on technological agility to take advantage of future opportunities?
- 3) **Resiliency:** How can we best ensure the continuation and acceleration of e-Commerce growth?

Elevating innovation - jump with us on the elevator (pitches)

### Wednesday, 20 September

Inspirational Talk

#### Risk Management - Embracing Adaptability Using cutting-edge technologies to streamline compliance processes

- 1) **New frontiers:** What opportunities does Artificial Intelligence present for improving risk management?
- 2) **Structural deficits:** Can enhanced information and technology assist in identifying and promoting regulatory trade reform?
- 3) **Brokering trust:** Which technologies might increase positive inter-agency and traders engagement, reducing red tape at borders?

Elevating innovation - jump with us on the elevator (pitches)

Break

#### Climate Smart Trade Facilitation Accelerating clean energy transition in global trade

- 1) **Centrality:** In what way can trade facilitation become essential for reducing global emissions?
- 2) **Carbon footprint:** What is the true value of paperless trade in reducing Co2 emissions?
- 3) **Sustainability:** Should trade facilitation play a more holistic role in encouraging sustainable practices by enforcing renewable energy implementation in border agencies?

Elevating innovation - jump with us on the elevator (pitches)

Conclusion
