

Dr McLean Sibanda

Founder and CEO, Megethos Legacy Catalyst, South Africa

A seasoned business executive, academic, respected intellectual property (IP), innovation and entrepreneurship expert and thought leader, with an excellent understanding of the African continent. He currently serves on boards of companies in agriculture, health, ICT, infrastructure, and philanthropy. Passionate about Africa's socioeconomic development, he has consulted for and acted as an expert for Africa Union, AfCFTA, SADC, UNCTAD, UNECA, WIPO, and various governments in Africa. An engineer and patent attorney, Dr Sibanda is an Adjunct Professor of Innovation at University of South Africa. He has published two books "Nuts & Bolts, and "Footprints."

He was CEO of The Innovation Hub Science Park (South Africa) for nearly 8 years. A former President of the Africa Division of the International Association of Science Parks (IASP) and former Board member and President of the Advisory Council of the IASP. He has consulted for or world with science parks in Botswana, Eswatini, Kenya, Mozambique and Ghana. His first book, "Nuts & Bolts - Strengthening Africa's Innovation and Entrepreneurship Ecosystems" (Jan 2021), captures stories of science parks.
