Preliminary results of the pilot to measure Illicit Financial Flows in Latin America
The Sustainable Development Goals (SDGs) are 17 global targets endorsed by the United Nations General Assembly in 2015 for the year 2030.

The SDGs are the blueprint for a better and more sustainable future for all.
Indicator 16.4.1 of the 2030 Agenda

Goal 16:
Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

Target 16.4.:
By 2030, significantly reduce illicit financial and arms flows, strengthen the recovery and return of stolen assets and combat all forms of organized crime

Indicator 16.4.1:
Total value of inward and outward illicit financial flows (in current United States dollars)
• Statistical definition of IFFs and concepts to enable their measurement.

• The custodian agencies (UNCTAD and UNODC) developed common statistical definitions and methods for measuring different types of IFFs in one indicator.

• It identifies different types of IFFs and lays out a framework based on existing statistical definitions, classifications and methodologies, in line with the System of National Accounts (SNA) and the balance of payments.
IFFs from illegal markets/activities

Illegal markets
- Drug trafficking
- Firearm trafficking
- Illegal mining
- Smuggling of migrants
- Smuggling of goods
- Wildlife trafficking
- ...

Corruption
- Bribery
- Embezzlement
- Abuse of functions
- Trading in influence
- Illicit enrichment
- Other acts of corruption

Exploitation-type and terrorism financing
- Kidnapping
- Slavery and exploitation
- Trafficking in persons
- Sexual exploitation
- Extortion
- Robbery
- Burglary
- Theft
- Financing of terrorism
**INCOME GENERATION**

- Economic operations carried out along the *value chain* of the illicit market studied.
- Production, import and export of illicit goods
- Purchase/sale of intermediate goods and services

**INCOME MANAGEMENT**

- Economic operations that generate *investment and consumption* in countries other than where the illicit income was generated.
- Consumption and investment patterns of the key actors in the market studied
**Methodology overview: the drug supply chain**

Statistical Framework for measuring IFFs

Key features:

- **Country-Level**: Allows to measure IFFs at the level of countries (in line with SDG indicator framework)
- **Disaggregated**: Separate estimates for each IFF type
- **Comprehensive**: Encompasses main types of illicit activities that cause IFFs
- **Compatible**: Aligned to established concepts and standards from economics and accounting
Objective:
Adapt the conceptual framework and test the methodology to measure IFFs

Timeframe: 2018-2020

Participating countries:
- Colombia
- Ecuador
- Mexico
- Peru

Illicit markets:
- Drugs
- Trafficking in persons
- Smuggling of migrants
- Illegal mining
Technical regional meeting on the measurement of illicit financial flows

**Date:** November 20-22, 2018, Mexico City

**Objective:** Discuss and select illegal markets for the participating countries.

**Participation:** Seven countries and three international organizations participated.

**Result:** National work plans were developed and agreed to conduct pilot IFF measurement activities starting in 2019.
Preliminary results of Mexico: smuggling of migrants
## Variables

<table>
<thead>
<tr>
<th>Variables</th>
<th>SOURCE</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Number of irregular migrants apprehended in Mexico (by nationality)</td>
<td>• Ministry of the Interior of Mexico</td>
</tr>
<tr>
<td>• Number of irregular migrants apprehended by U.S. Border Patrol (by</td>
<td>• US Department of Homeland Security, US Border Patrol</td>
</tr>
<tr>
<td>nationality)</td>
<td></td>
</tr>
<tr>
<td>• Approximate % of irregular migrants who pay to cross Mexico</td>
<td></td>
</tr>
<tr>
<td>• Approximate % of irregular migrants who pay to enter the U.S. irregularly</td>
<td></td>
</tr>
<tr>
<td>• Prices paid by irregular migrants to cross Mexico</td>
<td>• Colegio de la Frontera Norte, Migration Surveys on the Southern and Northern Borders (EMIF)</td>
</tr>
<tr>
<td>• Prices paid by irregular migrants to enter the United States illegally</td>
<td></td>
</tr>
</tbody>
</table>
Formulas

\[
\text{OUTWARD IFFs} = \# \text{ of national irregular migrants} \times \%	ext{ who hired a smuggler} \times \$ \text{ fee} \times \%	ext{ earned by non resident smugglers}
\]

</tbody>
</table>
Formulas

**Supply-based model (heroin)**

Exports x export prices

Where: Exports = Production – Seizures – Consumption

**Demand-based model (cocaine, metamphetamine)**

(destination country´s consumption + destination country´s seizures) x producing country´s market share x prices
Range of estimated inward IFFs from drug trafficking in Mexico, in billion USD

Estimated drug trafficking inward IFFs per drug, in billion USD:
**CHALLENGES**

**Methodological**
- Adapt the methodology to the regional and national context as well as the specific illicit market

**Cooperation**
- Raise awareness about indicator 16.4
- Consider the diversity of the relevant institutions
- Institutional engagement

**Data collection**
- Scarcity
- Confidentiality

**BENEFITS**

**Data collection**
- Use data for something that has never been done before
- Identify data gaps

**Increased capacity**
- Analytical capacities to understand how the markets work

**Partnership development**
- Awareness on the importance of public policies to address IFFs
- Start dialogues between countries on measuring IFFs
Pilot Report

The pilot report with the countries’ results will be published during the first semester of 2021.
