Mujeres TIC-Ayni Bolivia
When women get wings!

Bolivian schools experience poverty and its detrimental effects for years.The lack of resources is a common denominator in the public schools.

Since 1999, AYNI works on empowering students & teachers through Technology.

.

Mujeres TIC-Ayni Bolivia: when women get wings!

- reduce the digital gap, specially for women.
- improve life opportunities for school students.

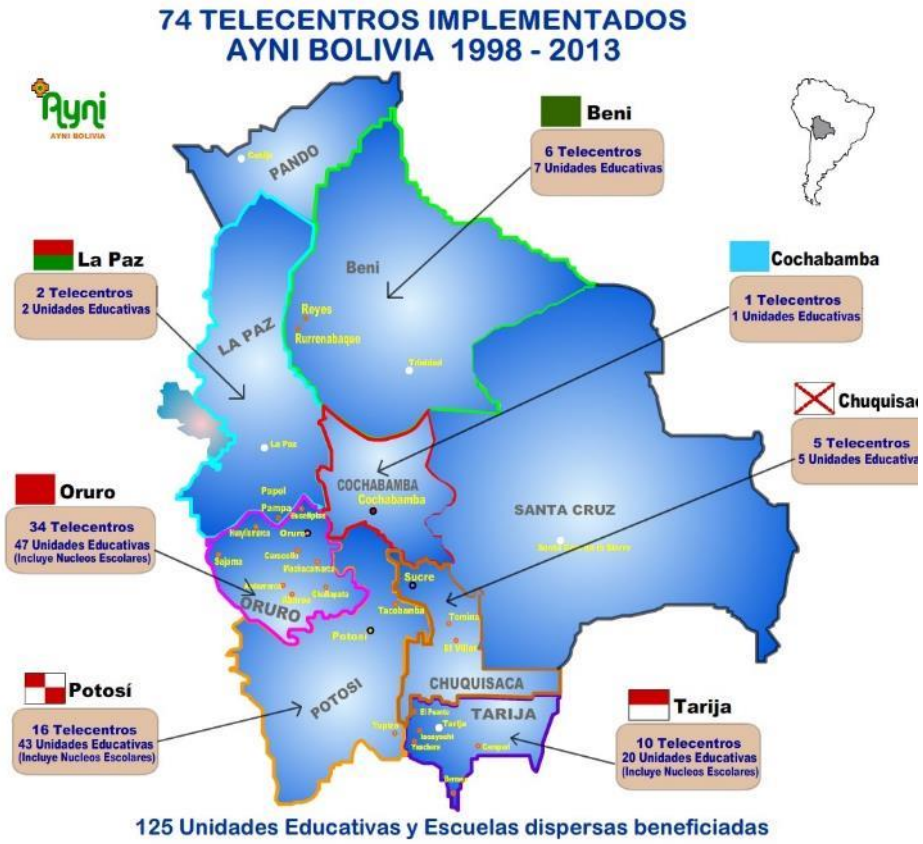
APRENDER CREANDO
LEARNING BY CREATING

USING COMPUTER GAMES IN TEACHING

The students and teachers are equipped with IT and media skills and are then encouraged to become entrepreneurs.

Stimulation of vocational training and professional guidance to combat poverty.

Capacity building



- During the last years we have trained, almost 2000 students directly and 4.000 indirectly.
- Due to corona, in 2020 we only trained 835 students and 35 teachers through a Moodle platform.

- **TIC Mujeres Program:** more than 72% of trainees are women. *

- *- Scratch Programming*
  - Educational Robotics
  - 3D Printer Management
  - Computer Maintenance
  - Prevention of Human Trafficking in Social Networks

Participants

‘I am so grateful! This was the first time for me working with a computer’ Rita, lives with her four brothers and one sister at her grandmother’s. Mother works outside the country and grandma works washing clothes for rich people.

From a shy girl to a smart one!
‘’I also got empowered through Ayni TICMujeres. Now, am into IT and I want to build a career in it!’’

‘’This project helped me to get better grades and to perform beter at school. I already knew how to use a computer but now I know more programs, and other possibilities. I can install and clean computers.”

Impact

- Female participation
- Increased parent involvement
- Additional family income
- Confidence
