UNGA Overall Review

WSIS implementation beyond 2015

(...)

UNGA Overall Review

Outcome Document

OUTLINE

Preamble

1. ICT for Development

1.1 Bridging the Digital Divide

1.2 Enabling Environment

1.3 Financial Mechanisms

2. Human rights in the Information Society

3. Building Confidence and Security in the Use of ICTs

4. Internet Governance

4.1. Enhanced Cooperation

5. Follow-Up and Review

Outcomes of the Overall Reviews and WSIS implementation beyond 2015

- Call for close **alignment** between the World Summit on the Information Society process and the **2030 Agenda for Sustainable Development** (P.5)
- Call to all stakeholders to integrate ICTs into their approaches to implementing the Goals, and request **UN entities facilitating WSIS Action Lines to review their reporting and work plans to support implementation of the 2030 Agenda**. (P.12)
- we call on all stakeholders, particularly United Nations entities that are facilitating the World Summit on the Information Society action lines, within their mandate and existing resources, to continue working together to **regularly analyse the nature of digital divides, study strategies to bridge them, and make their findings available to the international community**. (P.23)
- We recognize that ending the **gender digital divide** and the achievement of Sustainable Development Goal 5 on gender are mutually reinforcing efforts, and we commit to mainstreaming gender in the World Summit on the Information Society process, including through a **new emphasis on gender in the implementation and monitoring of the action lines**, with the support of relevant United Nations entities, including the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women). (P.7)

Outcomes of the Overall Reviews and WSIS implementation beyond 2015

- We recognize that certain policies have substantially contributed to bridging digital divides and the value of information and communications technologies for sustainable development, and **we commit to continuing to identify and implement best and emerging practices for the establishment and functioning of education, innovation and investment frameworks for information and communications technologies.** (P.28)
- We also request the Commission on Science and Technology for Development, within its mandate related to the follow-up to the World Summit on the Information Society, and **all action line facilitators**, within their respective mandates and existing resources, to work with all stakeholders to **regularly identify and promote specific, detailed actions to support the enabling environment for information and communications technologies and development and provide the demand-driven policy advice, technical assistance and capacity-building, as appropriate, to realize them.** (P.33)

Outcomes of the Overall Reviews and WSIS implementation beyond 2015

- We encourage a **prominent profile for information and communications technologies in the new Technology Facilitation Mechanism** established in the Addis Ababa Action Agenda, and consideration of how it can contribute to implementation of the World Summit on the Information Society action lines. (P.39)
- **regular review of progress of the full set of Summit action lines** will be essential to achieving the vision of the Summit. (P.66)
- We also call for the **continuation of the work of the United Nations Group on the Information Society** in coordinating the work of United Nations agencies, according to their mandates and competencies, and we invite the **regional commissions to continue** their work in implementation of the World Summit on the Information Society action lines and their contribution to the reviews thereof, including through regional reviews. (P.68)
- The activities of the **Partnership on Measuring Information and Communications Technology for Development** have made a valuable contribution to data-gathering and dissemination and should be continued. (P.70)
- We recognize that the **World Summit on the Information Society Forum has been a platform for discussion and sharing of best practices in the implementation of the World Summit outcomes** by all stakeholders, and it should continue to be held annually. (P.69)

UN CEB Joint Statement on WSIS+10

UN Chief Executives Board 2015

On the occasion of the WSIS+10 High-Level Event the Chief Executive Board, composed by all heads of UN System, has endorsed a Joint Statement.

To read full version of the statement see:

www.unsceb.org/content/statements or www.ungis.org

UNITED NATIONS SYSTEM
Chief Executives Board for Coordination

Chief Executives Board Joint Statement to the United Nations General Assembly on the Overall Review of the Implementation of World Summit on the Information Society Outcomes

We, the Chief Executives of organizations of the United Nations system, witnessing the momentous events taking place, with the adoption of the Sustainable Development Goals and the ongoing United Nations General Assembly Overall Review of the World Summit on the Information Society (WSIS), held in two phases in Geneva (2003) and Tunis (2005), reaffirm the important role of information and communications technologies (ICTs) as a critical enabler for advancing the globally agreed development goals, in particular in the context of the new development framework in resolution 70/1, entitled "Transforming our world: the 2030 Agenda for Sustainable Development", which acknowledges that "the spread of information and communications technology and global interconnectedness has great potential to accelerate human progress... and to develop knowledge societies" and contains targets on use of ICTs for the empowerment of women, for education and on access to ICTs for least developed countries (LDCs).

Though access to advanced technologies has grown at a fast pace since the celebration of WSIS, the impressive gains observed during the era of the Millennium Development Goals are still hampered by existing gaps in ICT access – between and within countries, between urban and rural settings, among men and women, and boys and girls. A major digital divide is still in place, with more people offline than online and particularly poor access in vulnerable developing nations, which include LDCs, landlocked developing countries (LLDCs) and small island developing States (SIDS). The WSIS vision remains valid and we therefore commit ourselves collectively to reignite collaborative action to harness the power of new technologies in promoting sustainable development and making the goal of universal and affordable access to ICTs and knowledge a reality. This should include also a new focus on relevant content, skills, capacity building, and an enabling environment, including multilingualism, to empower the implementation of the sustainable development goals, as well as to further freedom of expression and to promote cultural diversity on the basis of human rights.

In the national development process, use of ICTs need to be systematically integrated into development plans. Renewed efforts should be made to ensure that the enabling ICT dimension is adequately reflected in United Nations Development Assistance Frameworks and equivalent instruments.

Coherence across the United Nations system in the implementation of multiple goals and commitments is essential. In this regard, we reaffirm the role of United Nations Group on the Information Society (UNGIS)¹ as the inter-agency coordination mechanism for issues related to the implementation of the outcomes of the WSIS and call on UNGIS to include in its strategic priority the alignment between WSIS implementation and the implementation of the Sustainable Development Goals.

We also recognize the WSIS Forum has evolved as an efficient mechanism for multi-stakeholder implementation of WSIS action lines and cross-cutting commitments on gender equality, information exchange, knowledge creation and the sharing of best practices. Beyond 2015, it can serve as a key forum for discussing the role of ICTs as a means of implementation of the Sustainable Development Goals and targets, with due regard to the global mechanism for follow-up and review of the implementation of the 2030 Agenda for Sustainable Development, as set out in General Assembly resolution A/70/1.

As Chief Executives of the United Nations system, we look forward to the successful outcomes of United Nations General Assembly's Overall Review of the Implementation of WSIS Outcomes and we pledge our collective support for their implementation.

UN CEB Joint Statement on WSIS+10

- Reaffirmation of the important role of ICTs as a **critical enabler** for advancing the globally agreed development goals.
- Call for renewed efforts to ensure that the **enabling ICT dimension is adequately reflected in UNDAF** and equivalent documents as well as in **poverty reduction strategies**.
- Reaffirmation of the role of UNGIS as the **inter-agency coordination mechanism** for issues related to the implementation of the outcomes of the WSIS.
- Call on UNGIS to include in its strategic priority the alignment between WSIS implementation and the implementation of the SDGs.
- **WSIS Forum** recognized as an efficient mechanism for multi-stakeholder implementation of WSIS action lines. Beyond 2015, it can serve as a **key forum for discussing the role of ICTs as a means of implementation** of the Sustainable Development Goals and targets.

As Chief Executives of the United Nations system, we look forward to the successful outcomes of United Nations General Assembly's Overall Review of the Implementation of WSIS Outcomes and we pledge our collective support for their implementation.

Follow up to the UN CEB Joint Statement

United Nations General Assembly WSIS+10 High-Level Meeting on the Overall Review of the Implementation of the WSIS Outcomes

Meeting of the United Nations Group on the Information Society
15 December 2015
UN Headquarters, New York

WSIS Forum beyond 2015

Mr Ban Ki-moon, UN SG
UNGA HLM, 15 Dec 2015

We will strengthen the WSIS Forum as a key platform for discussing the role of ICTs as a means of implementation of the SDGs and targets.

Beyond 2015, following the multistakeholder approach, the WSIS Forum, will build upon the outcomes of the WSIS+10 Review and the 2030 Agenda for Sustainable Development. In this regard the WSIS-SDG Matrix developed by UN WSIS Action line Facilitators will serve as the mechanism to map, analyse and coordinate the implementation of ICTs as enablers and accelerators of the SDGs.

Mr Houlin Zhao, ITU
Secretary-General

Chief Executives Board Joint Statement to the United Nations General Assembly on the Overall Review of the Implementation of World Summit on the Information Society Outcomes

We, the Chief Executives of organizations of the United Nations system, witnessing the momentous events taking place, with the adoption of the Sustainable Development Goals and the ongoing United Nations General Assembly Overall Review of the World Summit on the Information Society (WSIS), held in two phases in Geneva (2003) and Tunis (2005), reaffirm the important role of information and communications technologies (ICTs) as a critical enabler for advancing the globally agreed development goals, in particular in the context of the new development framework in resolution 70/1, entitled "Transforming our world: the 2030 Agenda for Sustainable Development", which acknowledges that "the spread of information and communications technology and global interconnectedness has great potential to accelerate human progress... and to develop knowledge societies" and contains targets on use of ICTs for the empowerment of women, for education and on access to ICTs for least developed countries (LDCs).

Though access to advanced technologies has grown at a fast pace since the celebration of WSIS, the impressive gains observed during the era of the Millennium Development Goals are still hampered by existing gaps in ICT access – between and within countries, between urban and rural settings, among men and women, and boys and girls. A major digital divide is still in place, with more people offline than online and particularly poor access in vulnerable developing nations, which include LDCs, landlocked developing countries (LLDCs) and small island developing States (SIDS). The WSIS vision remains valid and we therefore commit ourselves collectively to reignite collaborative action to harness the power of new technologies in promoting sustainable development and making the goal of universal and affordable access to ICTs and knowledge a reality. This should include also a new focus on relevant content, skills, capacity building, and an enabling environment, including multilingualism, to empower the implementation of the sustainable development goals, as well as to further freedom of expression and to promote cultural diversity on the basis of human rights.

In the national development process, use of ICTs need to be systematically integrated into development plans. Renewed efforts should be made to ensure that the enabling ICT dimension is adequately reflected in United Nations Development Assistance Frameworks and equivalent documents as well as in poverty reduction strategies.

Coherence across the United Nations system in the implementation of multiple goals and commitments is essential. In this regard, we reaffirm the role of United Nations Group on the Information Society (UNGIS)¹ as the inter-agency coordination mechanism for issues related to the implementation of the outcomes of the WSIS and call on UNGIS to include in its strategic priority the alignment between WSIS implementation and the implementation of the Sustainable Development Goals.

We also recognize the WSIS Forum has evolved as an efficient mechanism for multi-stakeholder implementation of WSIS action lines and cross-cutting commitments on gender equality, information exchange, knowledge creation and the sharing of best practices. Beyond 2015, it can serve as a key forum for discussing the role of ICTs as a means of implementation of the Sustainable Development Goals and targets, with due regard to the global mechanism for follow-up and review of the implementation of the 2030 Agenda for Sustainable Development, as set out in General Assembly resolution A/70/L.

As Chief Executives of the United Nations system, we look forward to the successful outcomes of United Nations General Assembly's Overall Review of the Implementation of WSIS Outcomes and we pledge our collective support for their implementation.

ICTs and SDGs

The spread of information and communications technology and global interconnectedness has great potential to accelerate human progress, to bridge the digital divide and to develop knowledge societies, as does scientific and technological innovation across areas as diverse as medicine and energy.

TRANSFORMING OUR WORLD: THE 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT

ICTs as a **key enabler and mean to implement and achieve the Sustainable Development Goals and Targets**

ICT related Goals and Targets

4 QUALITY EDUCATION

- **4.b** By 2030, substantially increase support for scholarships available to developing countries, in particular LDCs, SIDS and African countries, for enrolment in higher education, including vocational training and **information and communications technology**, technical, engineering and scientific programmes, in developed countries and other developing countries.

5 GENDER EQUALITY

- **5.b** Enhance the use of enabling technology, in particular **information and communications technology**, to promote the empowerment of women.

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

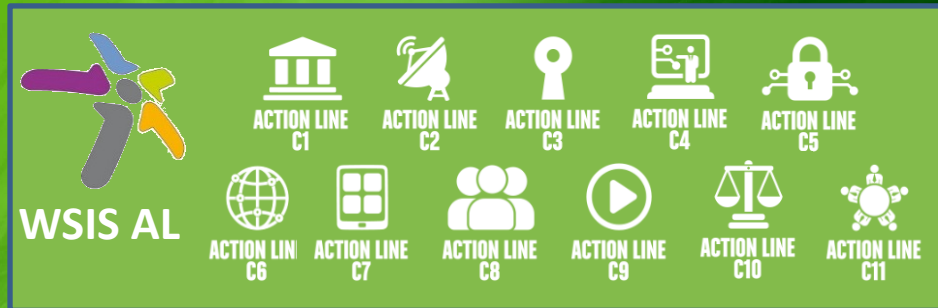

- **9.c** Significantly increase **access to information and communications technology** and strive to provide **universal and affordable access to the Internet** in least developed countries by 2020.

17 PARTNERSHIPS FOR THE GOALS

- **17.8** Fully operationalize the technology bank and science, technology and innovation capacity-building mechanism for least developed countries by 2017 and enhance the use of enabling technology, in particular **information and communications technology**.

WSIS-SDG Matrix Revealed

Identified challenges

- Two communities (ICT4D and Post 2015)
- Converging objectives (Sustainable Development)
- Parallel review processes (WSIS and MDGs)
- Gradual recognition of ICTs as enabler for sustainable development
- Invite to support through relevant UN processes the creation creation of synergies and institutional linkages between WSIS and Post 2015 Development Agenda to continue strengthening the impact of ICT for sustainable development (Res.140, PP-14)

WSIS ALs-SDG Matrix

Impact of WSIS Action Lines on Sustainable Development Goals

- Released during WSIS Forum 2015
- Joint effort of all United Nations Action Line Facilitators
- Aims at drawing **direct linkages between WSIS Action Lines and proposed SDGs**, to continue strengthening the impact of ICTs for sustainable development
- analysis by each **Action Line Facilitator**, of connections and relations between their respective Action Line with the proposed SDGs and their targets

Towards Effective Measurement

 PARTNERSHIP ON
 MEASURING ICT
 FOR DEVELOPMENT

Accountability

Towards efficient and effective measurement to ensure accountability of the WSIS process beyond 2015

Connect 2020 Global Goals & Targets

Goal 1 Growth – Enable and foster access to and increased use of telecommunications/ICTs

55%
of **households**
should **have access**
to the Internet

60%
of **individuals** should
be **using the Internet**

40%
Telecommunications/ICTs
should be **40% more**
affordable

GROWTH

Goal 2 Inclusiveness – Bridge the digital divide and provide broadband for all

50%
of **households** should **have**
access to the Internet in
the **developing world**;
15% in the **least**
developed countries

50%
of **individuals** should be
using the Internet in the
developing world; **20%** in
the **least developed**
countries

40%
affordability gap
between developed
and developing
countries should be
reduced by **40%**

5%
Broadband services
should cost no more
than **5%** of average
monthly income in the
developing countries

INCLUSIVENESS

90%
of the **rural population** should be
covered by broadband services

Gender equality
among Internet users
should be reached

Enabling environments ensuring **accessible**
ICTs for persons with disabilities should be
established in all countries

Goal 3 Sustainability – Manage challenges resulting from the telecommunication/ICT development

40%
improvement in
cybersecurity readiness

50%
reduction in volume of
redundant **e-waste**

30%
decrease in **Green House Gas emissions per**
device generated by the telecommunication/ICT
sector

SUSTAINABILITY

Goal 4 Innovation and partnership – Lead, improve and adapt to the changing telecommunication/ICT environment

Telecommunication/ICT environment
conducive to innovation

Effective **partnerships** of stakeholders in
telecommunication/ICT environment

WSIS Fund in Trust of ITU: 2016 Partners

Strategic Partner: Platinum

All stakeholders are encouraged to make a contribution that will help accelerate the implementation of the WSIS-related activities, in particular will help in defraying costs of the WSIS Forum 2016. Interested stakeholders are invited to visit <http://www.itu.int/en/itu-wsis/Pages/WSIS-Fund-in-Trust.aspx> or contact secretariat at wsis-info@itu.int

ITU Contribution to the Implementation of the WSIS Outcomes

- In its capacity as leading facilitator in coordinating the multi-stakeholder implementation of the Geneva Plan of Action. (para 109 of TAIS) and primary organizer and host of the annual event in May, i.e. the WSIS Forum
- Facilitator of Action Lines C2 (Information and communication infrastructure) and C5 (Building confidence and security in the use of ICTs); as well as C6 (Enabling Environment).
- Co-facilitator of Action Lines C1, C3, C4, C7, and C11
- Partner in Action Lines C8 and C9
- Rotating Chair and Vice Chair of the United Nations Group on Information Society (UNGIS) (Para 103 of TAIS)
- Lead of Partnership on the Measuring the ICT for Development (Para 114 of TAIS)
- Facilitator of the WSIS Stocktaking Process (Para 120 of TAIS)
- Organizer of World Telecommunication and Information Society Day (Para 121 of TAIS)
- Lead of the Connect the World Initiative (Para 98 of TAIS)
- Others
