### CONCLUSIONS

1. The Reform Tracker tool has been very important to follow up and monitor the tasks that Honduras has committed to carry out to comply with the measures.

2. The Reform Tracker allows the CONFACO authorities to evaluate and monitor the progress on the fulfillment of the tasks carried out by the members of the reform teams.

3. Each member of the reform teams is assigned specific responsibilities so progress can be duly followed up. One of the main aspects of success in the implementation of the RT is that is promotes team work and coordination.

4. For Honduras, this tool is vitally important to comply with trade facilitation agreements. What's next? Our commitment is to undertake all the necessary actions for the sustainable use of the tool and the empowerment of the agencies.
