

Transport and trade connectivity in the age of pandemics: Closing project meeting, 20-23 June 2022

Cluster C: Collaborative

UNCTAD in collaboration with the UN regional commissions for Africa (ECA), Europe (ECE), Latin America and the Caribbean (ECLAC), Asia and the Pacific (ESCAP), and Western Asia (ESCWA)

Transport Section Technical Assistance Work

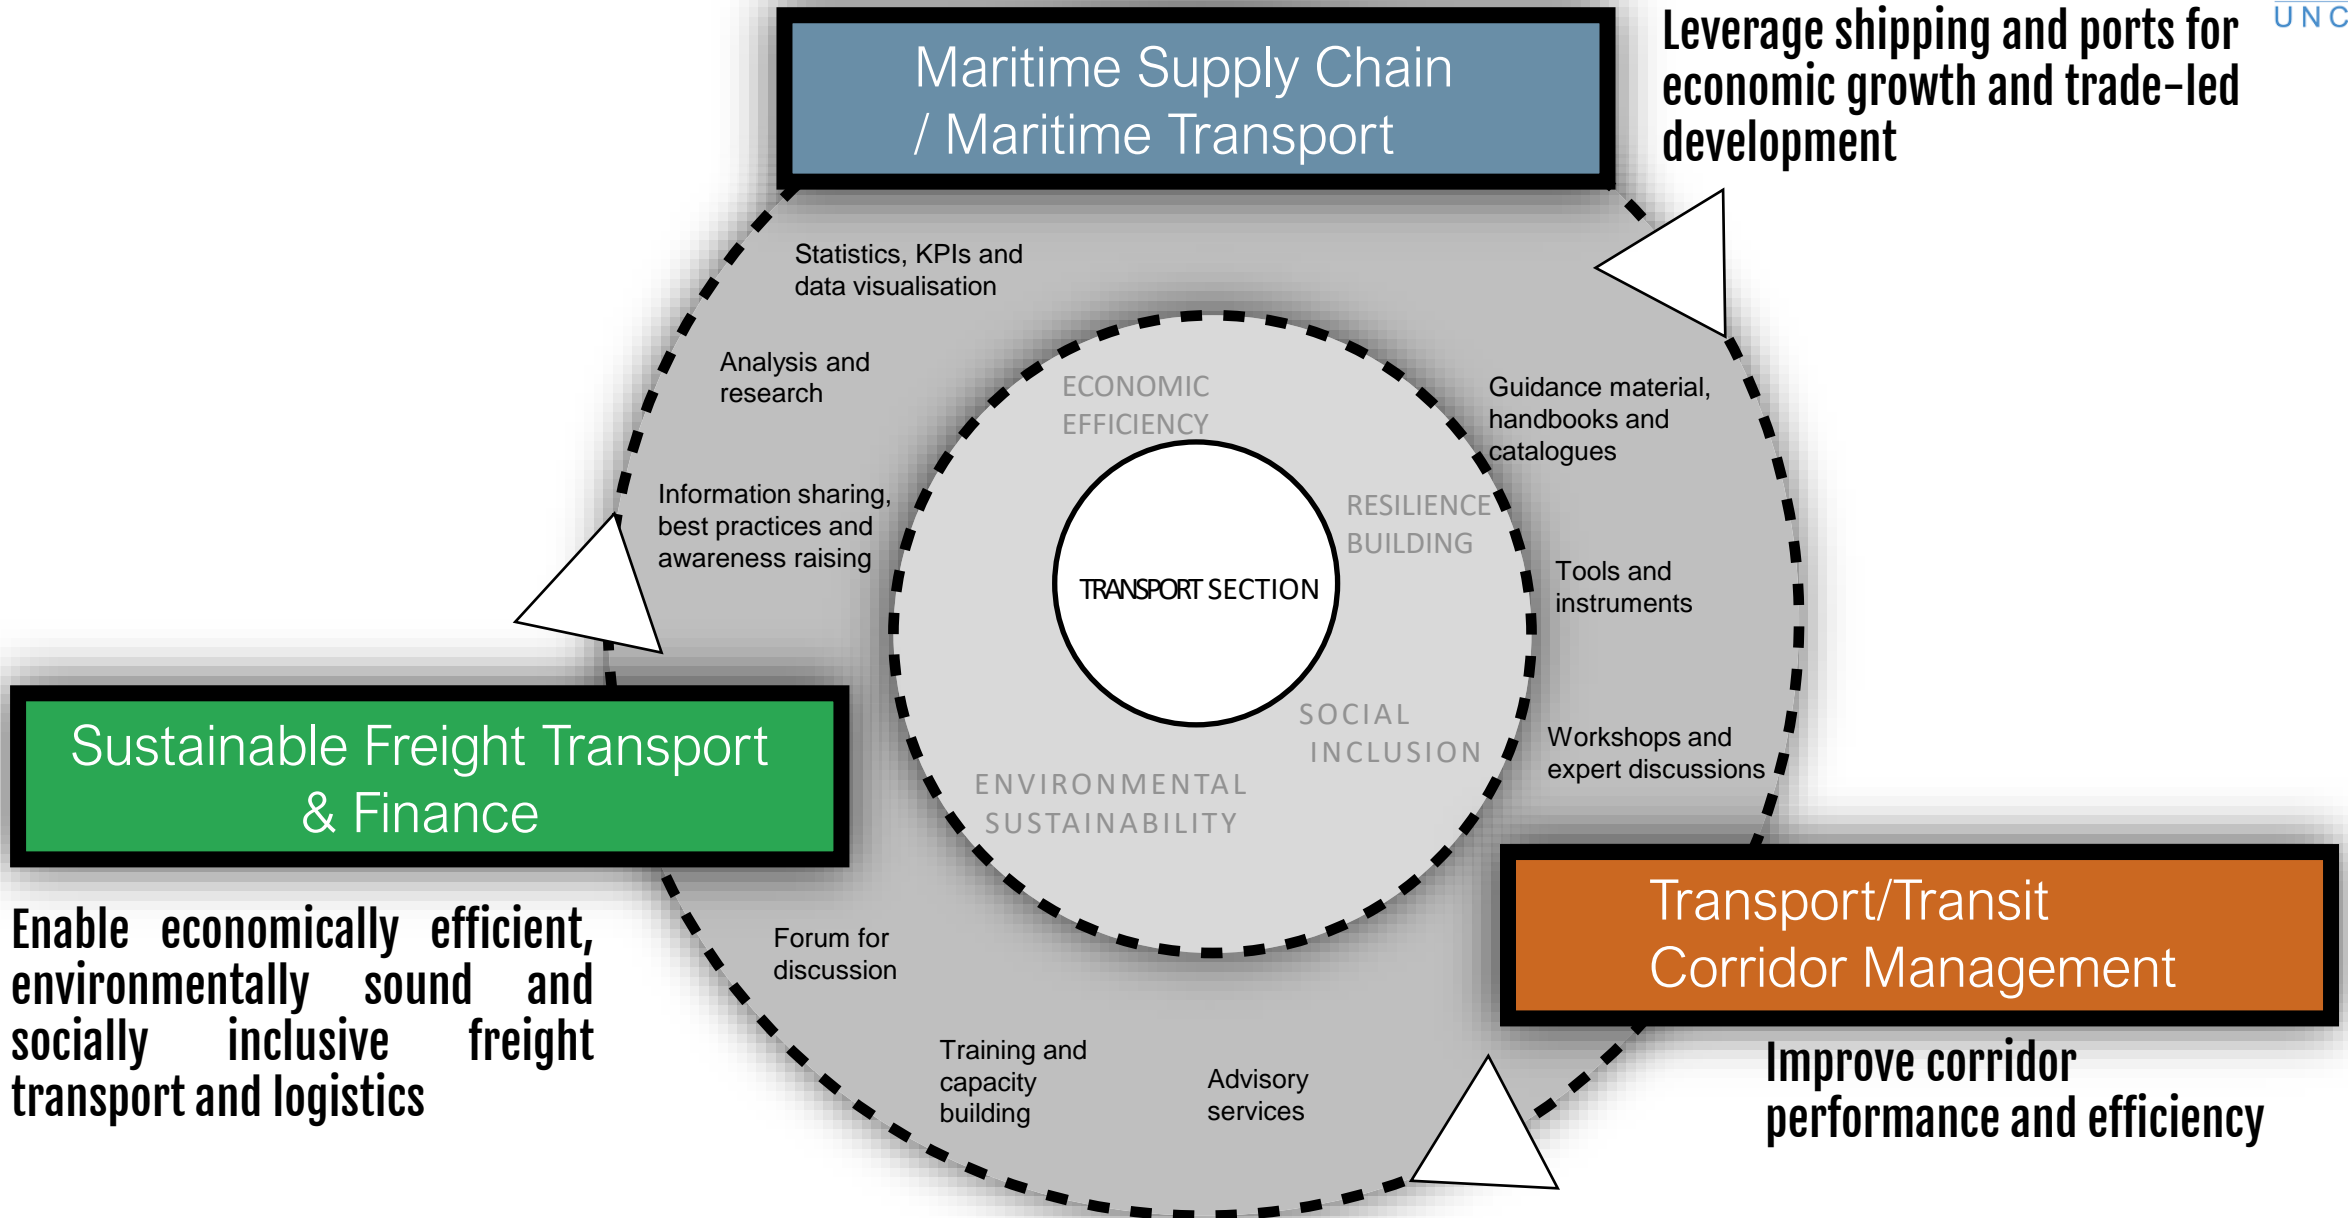

Frida Youssef

Chief, Transport Section, Trade Logistics Branch

Division on Technology and Logistics (frida.youssef@unctad.org)

Transport Section Work Programme

AREAS OF WORK

KNOWLEDGE AND TRAINING PRODUCTS

Shipping and ports

12 modules

Maritime Supply Chain

Corridor Management

- Introduction to CSR
- Shipping, trade regulations and operations
- Sustainability in shipping
- Instruments and policies
- Economy, governance, management and operations
- Sustainability in ports
- Instruments and policies
- Lessons learned, open issues and conclusions
- Trends in international maritime trade
- Trends in international world fleet and ports
- Port Performance Indicators
- Freight markets

PPI & PPPs

3 modules

Maritime Supply Chain

Corridor Management

- Port performance indicators
- Concessions in ports
- Port clusters and key concepts in port development

Single windows and port community systems

1 module

SFTF

Green freight improving environmental performance /SFTF

19 modules

SFTF

- Introduction to freight transportation, logistics and supply chain management
- Freight corridors
- Sustainable freight transport
- Framework for assessing opportunities for environmental improvement
- Measuring environmental impacts of freight transport
- Calculating the environmental costs of freight transport
- Setting targets for reducing emissions from freight transport
- Reducing freight transport intensity
- Shifting freight to greener transport modes
- Improving vehicles use
- Increasing energy efficiency
- Switching to lower emission energy sources
- Reducing the environmental impact in urban areas
- Greening the maritime supply chain
- Financing SME's for Green Freight Improvement
- Financing green Freight infrastructure
- PPPs in infrastructure
- Scaling up green freight initiatives
- Fifteen ways of greening freight corridors

TC PROJECTS

Shipping and ports

Maritime seaborne trade

Maritime transport cost

Port indicators

Maritime connectivity for ASEAN and the Pacific region – UNCTAD/ESCAP collaboration

UNDA project on sustainable smart port (SSP) in Africa including SIDS

Corridor

Tran-Saharan Road (TSR) Corridor

Northern and Central Corridors

SFT

SFT assessment for Fiji as well as support in the subregional strategies – UNCTAD/ESCAP collaboration

Angola SFT assessment including corridors

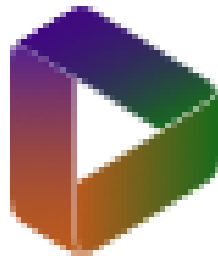

PPPS and Finance

Angola EU-UNCTAD TrainforTrade project , PPPs for transport infrastructure and logistics hubs

PPPs and innovative financing tools for sustainable transport sector development in Burkina Faso and Zambia – as part of a joint-UNDA project on “Towards integrated national financing framework” (2021-2024) led by DESA
