1

# An Evolving Risk Landscape

The global risk profile has shifted from economic to environmental & social challenges

Source: World Economic Forum (January 2019), The Global Risks Report 2019, 14th Edition.

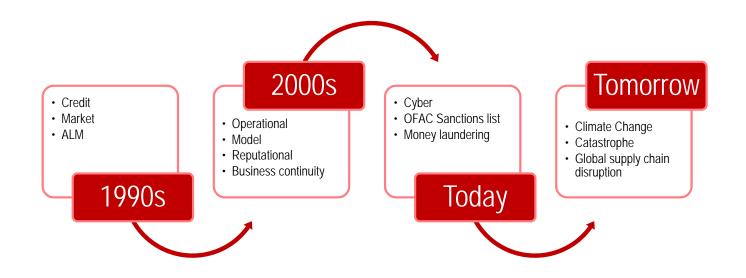

© SASB™

2

# **Risk Management Has Evolved, Too**

Risk management has adapted to changing markets over the last few decades

Where risk management once meant focusing on market risk, credit risk, and asset/liability mismatch risk, today it covers a much broader array of risks

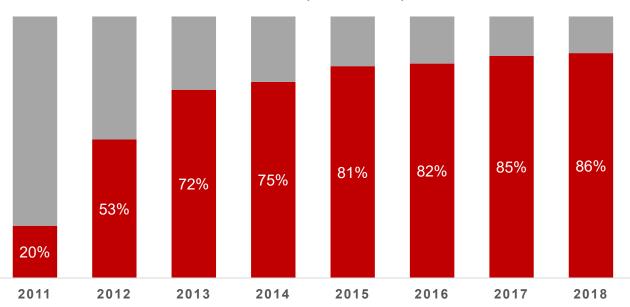

# **ESG-Related Information Abounds**

The rapid rise of CSR reporting has given researchers new data sets to study

From a minority of the S&P 500 in 2011 ...

■ Issue CSR report ■ No report

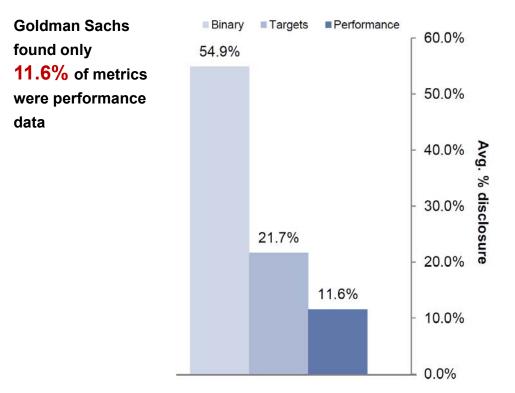

... to a clear majority in 2018.

Source: Governance and Accountability Institute

### **Data Quality Lags Data Volume**

Most ESG reporting covers policies and targets—not performance—limiting usefulness

Source: Goldman Sachs Global Investment Research, *The PM's Guide to the ESG Revolution*, April 18, 2017.

## **Comparability Is Also Limited**

Even when data are numeric, they aren't always comparable across companies

# **Example:** 24 different metrics used across 50 Fortune 500 companies to 'quantify' 1 ESG topic

In disclosing information regarding <u>employee health and safety</u>, a random sample of 50 large, publicly listed, Fortune 500 companies used the following metrics:

- 1. Lost time incident rate (per 100, 5,000, 200,000)
- 2. Lost time frequency rate
- 3. Injuries resulting in lost time
- 4. Accident rate
- 5. Accidents requiring time off
- 6. Days lost due to injury
- 7. Financial loss due to accidents
- Injuries resulting in more than 1 day lost
- 9. Injury rate
- 10. Lost day rate
- 11. Lost time of fewer than 61 days due to occupational illness or injury
- 12. Lost time incident severity rate

- 13. Number of accidents
- 14. Number of accidents without lost time
- 15. Number of lost workdays
- 16. Number of severe accidents occurred
- 17. Rate of injury per 200,000 hours worked
- 18. Reduced working days caused by work-related injuries
- 19. Time loss claims
- 20. Lost time
- 21. Incident numbers of occupational disease
- 22. Occupational illness rate
- 23. Occupational illness cases
- 24. Occupational disease rate

Uncomparable metrics

Unclear methodologies

Different units of measurement

Limited usefulness

# **Investor Needs vs. Issuer Reporting**

The users and providers of ESG information have starkly different perspectives

Investor Satisfaction	% Investors Satisfied
Disclosure of ESG-related risk/opportunity that could affect business models	7%
Ease of comparing peer companies based on ESG data disclosed	8%
Sources: EY, <u>Is your non-financial performance revealing the true value of your business</u> , 2017;	

.....

### **Investor Confidence vs. Issuer Confidence**

Investor confidence in the quality of the ESG information received from issuers	29%
Issuer confidence in the quality of the ESG information reported	100%

Sources: PwC, Sustainability Goes Mainstream, May 2014; ESG Pulse, 2016.

# Alphabet Soup: Who's Who in the Disclosure Space

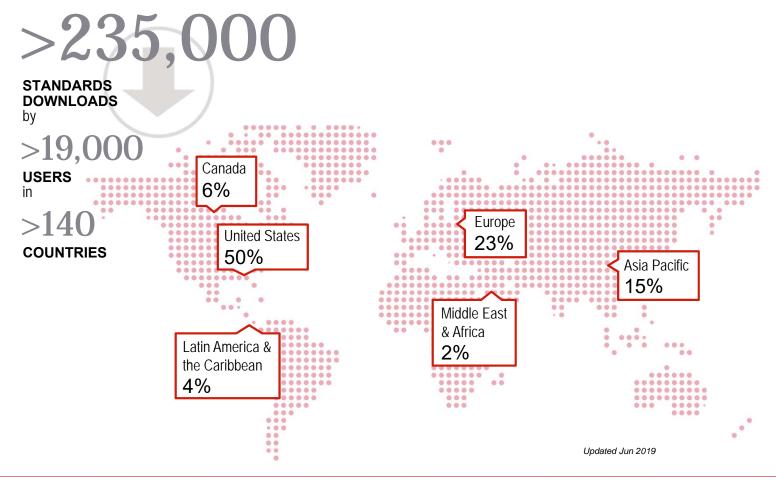

Of six major disclosure frameworks, only two set reporting standards

	SASB	CDP	CDSB	GRI	IIRC	TCFD	
Subject	Sustainability	Environment	Environment	Sustainability	Sustainability and Financial	Climate Change	
Type of Guidance	Standards	Questionnaires	Framework	Standards	Framework	Framework	
Scope	Financial Materiality Industry- Specific	General and industry-specific	General	Materiality General and industry- specific	General	General and industry- specific	
Target Audience	Investors	Investors, customers, and policy makers	Investors	All stakeholders	Investors	Investors	
Reporting Channel	Core comms to investors	Online portal	Annual report	Sustainability report	Integrated report	Mainstream financial filings	

### **SASB Making an Impact**

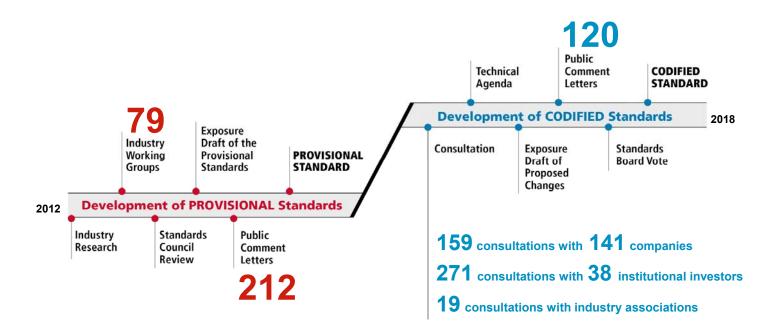

SASB standards are increasingly used across the global capital markets

# SASB Standards: Created For the Market, By the Market

Market input has strengthened the standards throughout their development

Over 6 years, thousands of corporate professionals, investors, and industry experts have provided input on the standards

© SASB™

10/29/2019

# **SASB Membership and Advisory Bodies**

Extensive involvement shows the standards are a product of global market forces

SASB Alliance	Investor Advisory Group (IAG)	Standards Advisory Group (SAG)
<ul> <li>SASB's membership organization: provides education and resources to members for an annual fee</li> <li>Corporate, investor and individual members</li> <li>Explore ESG best practices</li> <li>Member events and networking</li> </ul>	<ul> <li>Leading investors who publicly support improved ESG disclosure</li> <li>Global asset owners and asset managers</li> <li>Engage with companies to support material ESG disclosures</li> <li>Advise on SASB strategy as needed</li> </ul>	<ul> <li>SAG to advise Standards Board on standards content</li> <li>Diverse industry experts representing companies, investors and other stakeholders</li> <li>Advise on implementation and emerging issues for Standards development</li> </ul>
98 Organizational Members 12 countries	44 Members \$33T AUM 11 countries	174 Members 24 countries

# **The SASB Difference**

What sets SASB apart from the rest of the 'alphabet soup'?

Financially Material
Decision-Useful
Cost-Effective
Industry-Specific
Evidence-Based
Market-Informed

### SASB's New Lens

### SICS<sup>®</sup> groups industries by resource intensity and sustainability impacts

- Consumer Goods
- Apparel, Accessories & Footwear Appliance Manufacturing
- **Building Products & Furnishings**
- E-Commerce
- Household & Personal Products
- Multiline and Specialty Retailers & Distributors
- Toys & Sporting Goods

### Extractives & Minerals Processing

- Coal Operations
- Construction Materials
- Iron & Steel Producers
- Metals & Mining •
- Oil & Gas Exploration & Production
- Oil & Gas Midstream
- Oil & Gas Refining & Marketing
- Oil & Gas Services

### Financials

- Asset Management & Custody Activities
- Commercial Banks
- Consumer Finance •
- Insurance
- Investment Banking & Brokerage
- Mortgage Finance
- Security & Commodity Exchanges

### Food & Beverage

- Agricultural Products
- Alcoholic Beverages
- Food Retailers & Distributors
- Meat, Poultry & Dairy
- Non-Alcoholic Beverages
- Processed Foods
- Restaurants
- Tobacco

### Health Care

- Biotechnology & Pharmaceuticals
- Drug Retailers
- Health Care Delivery
- Health Care Distributors
- Managed Care
- Medical Equipment & Supplies

### Infrastructure

- Electric Utilities & Power Generators
- **Engineering & Construction Services**
- Gas Utilities & Distributors
- Home Builders
- Real Estate
- **Real Estate Services**
- Waste Management
- Water Utilities & Services

### **Renewable Resources &**

- Alternative Energy Biofuels
- Forestry Management
- Fuel Cells & Industrial Batteries
- Pulp & Paper Products
- Solar Technology & Project Developers
- Wind Technology & Project Developers

### **Resource Transformation**

### Aerospace & Defense

- Chemicals
- Containers & Packaging
- Electrical & Electronic Equipment
- Industrial Machinery & Goods

#### Services

- Advertising & Marketing
- Casinos & Gaming
- Education
- Hotels & Lodging
- Leisure Facilities
- Media & Entertainment
- **Professional & Commercial Services** •

#### **Technology & Communications**

- Electronic Manufacturing Services & Original Design Manufacturing
- Hardware
- Internet Media & Services
- Semiconductors
- Software & IT Services
- **Telecommunication Services**

#### Transportation

- Air Freight & Logistics
- Airlines
- Auto Parts
- Automobiles
- Car Rental & Leasing
- Cruise Lines
- Marine Transportation
  - Rail Transportation
  - Road Transportation

## **Focused But Comprehensive**

SASB's research process starts with a broad universe of sustainability issues

### **Environment**

- GHG Emissions
- Air Quality
- · Energy Management
- Water & Wastewater Management
- Waste & Hazardous
   Materials Management
- Ecological Impacts

# Leadership & Governance

- Business Ethics
- Competitive Behavior
- Management of the Legal & Regulatory Environment
- Critical Incident Risk
   Management
- Systemic Risk Management

### **Business Model & Innovation**

- Product Design & Lifecycle Management
- Business Model Resilience
- Supply Chain Management
- Materials Sourcing & Efficiency
- Physical Impacts of Climate Change

### **Social Capital**

- Human Rights & Community Relations
- · Customer Privacy
- Data Security
- Access & Affordability
- Product Quality & Safety
- Customer Welfare
- Selling Practices & Product Labeling

### **Human Capital**

- Labor Practices
- Employee Health & Safety
- Employee Engagement, Diversity & Inclusion

## SASB Materiality Map Sustainability Risk Metrics for 77 Specific industries Across 26 Risk Topics

#### SASB Materiality Map<sup>®</sup>

SASB's Materiality Map<sup>®</sup> identifies sustainability issues that are likely to affect the financial condition or operating performance of companies within an industry. In the left-hand column, SASB identifies 26 sustainability-related business issues, or General Issue Categories, which encompass a range of Disclosure Topics and their associated Accounting Metrics that vary by industry. For example, the General Issue Category of Customer Welfare encompasses both the Health and Nutrition topic in the Processed Foods industry and the Counterfeit Drugs topic in the Health Care Distributors industry. For commercial use terms of the Materiality Map, please contact us.

Issue is likely to be material for more than 50% of industries in sector Il ssue is likely to be material for fewer than 50% of industries in sector Issue is not likely to be material for any of the industries in sector

# **Insurance Industry SASB Standard**

SASE

# TCFD/CDSB/SASB

Comprehensive approach for disclosure of climate risks and opportunities aligned to the TCFD

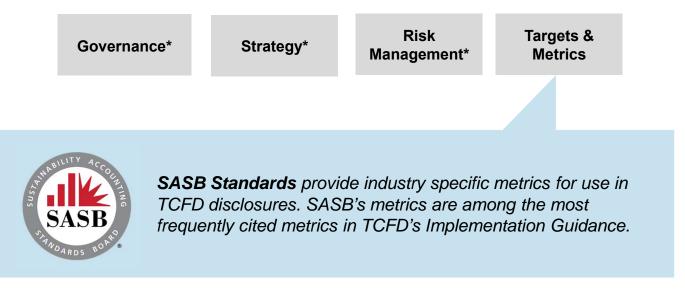

# TCFD and SASB: SASB Standards Are a Tool to Implement TCFD

SASB provides detailed, industry specific climate metrics for TCFD disclosures

TCFD Recommendations cover four broad areas:

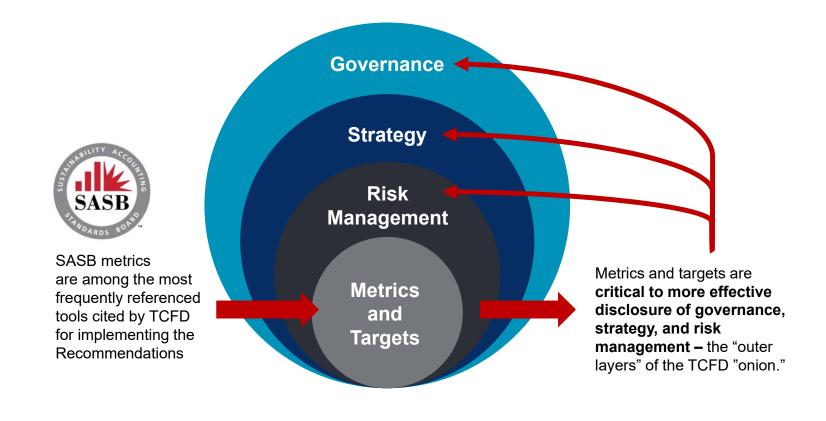

© SASB™

10/29/2019

# Industry-Specific Disclosure Is the Core of TCFD

SASB metrics sit at the heart of the recommendations, powering effective disclosure

# Large-Scale Challenges Call for Large-Scale Solutions

Only by harnessing the power of markets can global efforts be equal to the task

Markets need to be **fit for purpose** to face daunting macroeconomic trends such as climate change, resource constraints, population growth, technological innovation, globalization, and more.

At SASB, we believe our standards are a key piece of this new, **21**<sup>st</sup> **century market infrastructure.** 

By finding the common ground where business incentives are aligned with societal interests, we enable **win-win solutions** that transcend zero-sum naysaying and create shared value.
