A New Perspective on ESG

A timeline of Arabesque’s journey since 2013

Disrupting through Sustainability and AI

Sustainability is part of our DNA

The Arabesque Board is made up of leaders in sustainability. With their guidance, we have embedded sustainability in everything we do across the Arabesque Group.

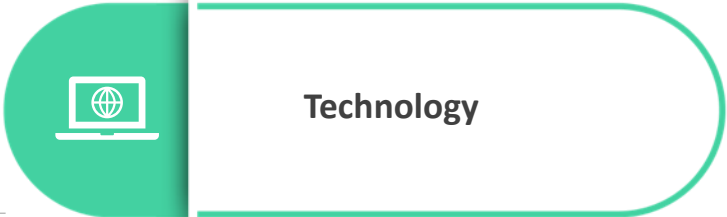

A new experience of investing

We have built Arabesque on the two disruptors of finance, sustainability and AI, to deliver a new approach to investing.

Scalable infrastructure

Through our quantitative tools, we can assess vast, complex data sets to identify patterns to support more sustainable investment decision-making.

The challenges of sustainability data

Our products and solutions have been developed to help overcome common challenges around ESG data

The Problem

ARABESQUE S-RAY®

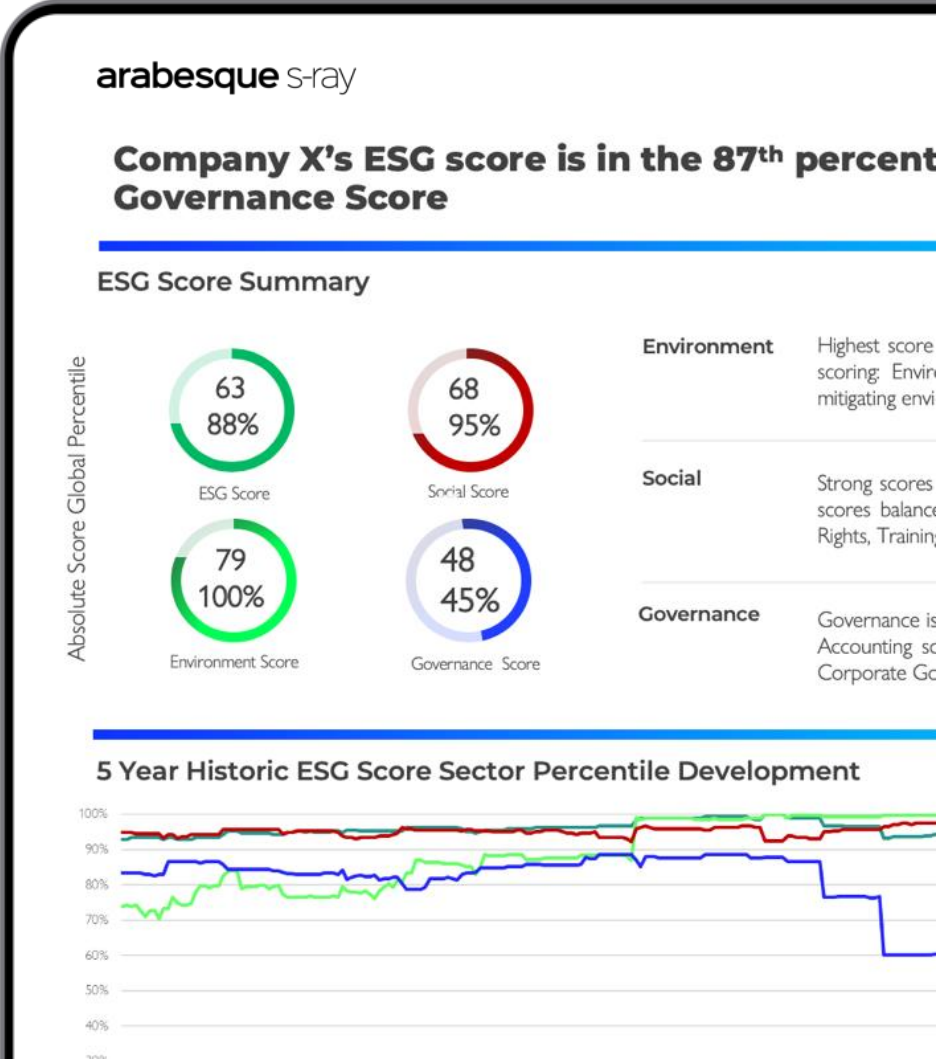

The Solution

Introducing Arabesque S-Ray®

Assess corporate sustainability performance through the world's leading daily ESG analytics

Arabesque S-Ray is a quantitative data tool that analyses the sustainability performance of over 7,000 of the world's largest listed corporations using self-learning quantitative models and data scores.

The quantitative technology of S-Ray enables clients to evaluate the alpha impact of sustainability, and our dynamic, daily frequency data products and services are used by some of the world's leading financial institutions, investors, corporations and consultants.
