# China Customs practice on measuring Cross-border e-commerce

3rd UNCTAD e-commerce week Geneva, Switzerland 22th April, 2016

## Cross-border e-commerce a power engine for import and export growth

Since Dec., 2012, 10 cities have been entitled to piloting import/export cross-border e-commerce by the State Council.

In Jan., 2016, 12 comprehensive pilot zones for cross-border e-commerce were approved by State Council in Tianjin, Shanghai, Chongqing, Hefei, Zhengzhou, Guangzhou, Chengdu, Dalian, Ningbo, Qingdao, Shenzhen and Suzhou, plus Hangzhou which approved earlier

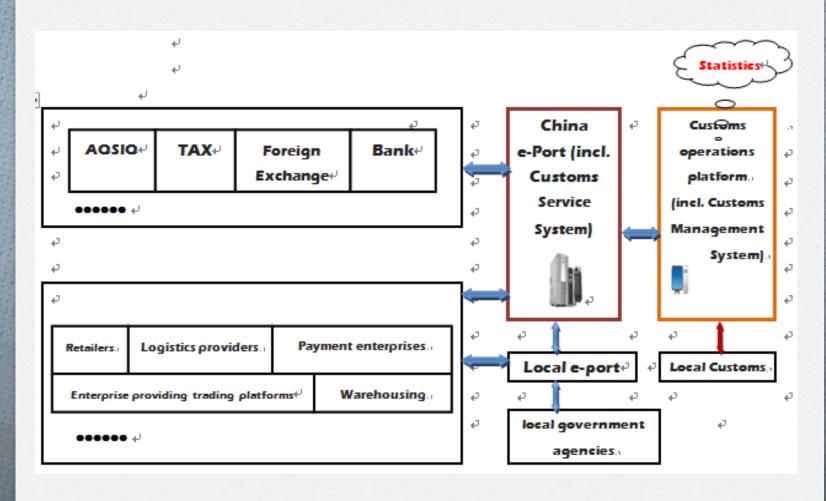

#### **Customs control on cross-border e-commerce**

- Created customs control model code for cross-border ecommerce
  - 6 "9610" started in Feb., 2014, cross-border e-commerce
  - "1210" started in Aug., 2014, bonded cross-border trade by ecommerce
- Requirements
  - All enterprises engaged in cross border e-commerce shall complete recordation with Customs;
  - Provide "transaction", "logistics" and "payment/payment collection" info with Customs before import/export declaration;
  - Checklist verification and release of goods

#### Where cross-border e-commerce data is collected?

### Samples for statistics

### A demo on Customs Management System for measuring

- IT supporting system
- Rules by regulatory authorities
- data sharing among all stakeholders involved in cross-border e-commerce
- Start with small, continuous improvement
