“Deep Regional Integration and Non-Tariff Measures: A Methodology for Data Analysis” (2015) provides policymakers and trade analysts with **methods to assess the benefits of ‘deep’ regional integration** with respect to non-tariff measures.

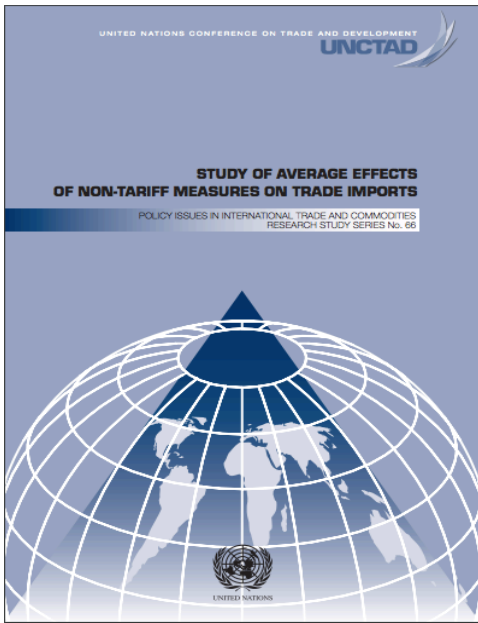

Link: http://unctad.org/en/PublicationsLibrary/itcdtab71_en.pdf

“Non-Tariff Measures and Regional Integration in the Southern African Development Community” (2014) presents a non-technical summary of methodologies to assess the **regulatory distance** between SADC members and the political greater economic benefits from reducing NTMs.
