Item 3

Enhancing the comparability of sustainability reporting: Selection of core indicators for entity reporting on the contribution towards the attainment of the Sustainable Development Goals

3. Delegates at the thirty-fourth session of the Intergovernmental Working Group of Experts on International Standards of Accounting and Reporting highlighted the essential role that accounting and enterprise reporting play in realizing the ambitions of the 2030 Agenda for Sustainable Development. High-quality financial and sustainability information reported by companies is essential for promoting financial stability, fostering an enabling investment climate, facilitating transparency and accountability, and supporting sustainable practices in consumption and production. In light of the increasing demand for information on sustainability reporting in recent years, supported by relevant developments at the international, regional and national levels, delegates at the thirty-fourth session of the Intergovernmental Working Group of Experts on International Standards of Accounting and Reporting noted the importance of practical tools for countries to assist them in their efforts to harness the potential of the private sector as a contribution towards the attainment of the Sustainable Development Goals.

4. The thirty-fourth session of the Intergovernmental Working Group of Experts took note of the significant progress that was made during the intersessional period on developing a set of proposed core indicators for enterprise reporting, in alignment with the monitoring framework of the Inter-Agency and Expert Group on Sustainable Development Goal Indicators. In concluding their deliberations on this topic, delegates called on the UNCTAD secretariat to further advance work on a guidance document on the core indicators, in collaboration with leading stakeholders in the area of sustainability, integrated and non-financial reporting. In cooperation with the Consultative Group on Enterprise Reporting and the Sustainable Development Goals, the UNCTAD secretariat has prepared the background documentation indicated below to facilitate deliberations on this agenda item.
