

UNITED NATIONS CONFERENCE ON TRADE AND DEVELOPMENT

**DEVELOPING COUNTRIES IN  
INTERNATIONAL TRADE  
2007**

**TRADE AND DEVELOPMENT INDEX**

UNITED NATIONS  
New York and Geneva, 2007

## COUNTRY PROFILES

Part  
**II**

## Readers reference to country profiles of TDI

The trade and development country profiles provides a comprehensive presentation of TDI, two sub-indices and selected information for each of the 123 individual countries included in *Developing Countries in International Trade 2007: Trade and Development Index* (DCIT-TDI 2007).

The country profile presents three sets of information. The first shows selected indicators for 2005 or the latest available year. The second presents a recomputed version of comparison of TDI and its two sub-indices for 2005 and 2006. TDI 2006 is computed based on the three-year average between 2003 and 2005 and TDI 2005 for the years 2000 and 2002. The final set of figures indicates not only the countries' performance across InputMI and OutcomeMI, but also change in TDI and comparison with its own regional performance and groups.

The TDI uses data sources from several international organizations. The list of all indicators and data sources is presented in the table in appendix 3. The missing data on some indicators were imputed based on previous data and/or estimates.

The TDI 2005 score and ranking in DCIT-TDI 2005 are not comparable with the TDI 2005 score and ranking as presented in DCIT-TDI 2007 due to changes in composing indicators, computational approach and country coverage. However, the TDI 2005 and TDI 2006 in the present report are comparable, and an increase in score in TDI indicates better performance of a country.

### Selected indicators

The data on the selected indicators are for the year 2005 and/or the latest available year:

1. Population in millions: The sources are the United Nations Population Division's World Population Prospects and national statistical offices.
2. Area (km<sup>2</sup>): The source is the Production Yearbook of the Food and Agriculture Organization of the United Nations and data files.
3. GDP (constant 2000 United States dollars): The source is the World Bank, World Development Indicators 2007.
4. GDP per capita (constant 2000 United States dollars): The source is the World Bank, World Development Indicators 2007.
5. Merchandise and Service Exports (percentage of world): The source is UNCTAD GlobStat.
6. Applied trade-weighted average tariff (percentage): The source is the UNCTAD Trade Analysis and Information System (TRAINS) database.

### TDI and sub-indices

1. TDI 2005 and TDI 2006: The TDI is a simple average of InputMI and OutcomeMI. The increase in the TDI score indicates improvement in TDI, which is a composite quantitative indication describing the degree of integration between development and trade performance.
2. InputMI 2005 and InputMI 2006: The InputMI has two broad sets of determinants, which are referred to as *dimensions*: structural and institutional context and trade policies and processes. InputMI is a weighed sum of 11 components. These are human capital (HC), physical infrastructure (PI), financial intermediation (FI), domestic finance (DF), international finance (IF), institutional quality (IQ), economic structure (ET), macroeconomic stability (MS) and environmental sustainability (ES), which are part of the structural and institutional context; while openness to trade (OT) and access to foreign market (MA) are part of trade policies and processes (TPP) dimension. The higher score of InputMI indicates improvements in input indicators.
3. OutcomeMI 2005 and OutcomeMI 2006: OutcomeMI is computed by taking the weighted sum of two components under the trade and development performance dimension, which

are trade performance (TP) and economic and social well-being (EW). The higher score of OutcomeMI indicates improvements in outcome indicators.

### ***TDI ladder and benchmarking***

1. InputMI 2006: This presents the performance of the nine components, which are based on several indicators, in 2006, derived based on coverage over 2003, 2004 and 2005. It provides a clear indication of a country-level performance and clue for important policymaking
2. OutcomeMI 2006: This presents the performance of two components, which are based on several indicators, in 2006. It shows the outcome in trade and development at the country level.
3. Climbing the TDI ladder: The TDI, InputMI and OutcomeMI in 2005 and 2006 provide a comprehensive view of a country-level improvement or decline. The higher value in 2006 compared to 2005 indicates overall improvement in the indices.
4. Benchmarking TDI: This helps a country to compare the TDI performance to its own region and other groups of countries. The regions and country groups are the following: East Asia and Pacific (EAP), Europe and Central Asia (ECA), Latin America and Caribbean (LAC), Middle East and North Africa (MENA), North America (NA), South Asia (SA), South Eastern Europe and Commonwealth of Independent States (SECIS), Sub-Saharan Africa (SSA), Western Europe (WE), Least Developed Countries (LDC), Developing Countries (DVG), European Union (EU) Countries, 10 new EU members (EU10), Developed Countries (DEV) and the Seven Emerging Economies (E7).

## QUESTIONNAIRE

### DEVELOPING COUNTRIES IN INTERNATIONAL TRADE 2007 Trade and Development Index

#### *Readership Survey*

Since 1999, the Trade Analysis Branch of the Division on International Trade in Goods and Services, and Commodities of UNCTAD has been carrying out policy-oriented analytical work aimed at improving the understanding of current and emerging issues in international trade and development. In order to improve the quality of the work of the Branch, it would be useful to receive the views of readers on this and other similar publications. It would therefore be greatly appreciated if you could complete the following questionnaire and return to:

*Trade Analysis Branch, DITC  
Rm. E-8076  
United Nations Conference on Trade and Development  
Palais des Nations  
CH-1211 Geneva 10, Switzerland*

1. Name and address of respondent (optional):

---

---

---

---

2. Which of the following describes your area of work?

Government	<input type="checkbox"/>	Public enterprise	<input type="checkbox"/>
Private enterprise institution	<input type="checkbox"/>	Academic or research	<input type="checkbox"/>
International organization	<input type="checkbox"/>	Media	<input type="checkbox"/>
Not-for-profit organization	<input type="checkbox"/>	Other (specify)	_____

3. In which country do you work? \_\_\_\_\_

4. Did you find this publication  Very useful  Of some use  Little use to your work?

5. What is your assessment of the contents of this publication?

Excellent     Good     Adequate     Poor
