Assistance aux pays de la région de l'Asie
concernant la négociation de droits NPF et préférentiels
et l'utilisation du SGP

(RAS/97/A18)

NATIONS UNIES
New York et Genève, novembre 2002

Résumé

C'est à l'issue de négociations intergouvernementales menées sous l'égide de la CNUCED qu'a été adopté, en 1971, le système généralisé de préférences (SGP), au titre duquel la plupart des pays développés accordent un traitement tarifaire préférentiel, sans réciprocité ni discrimination, aux exportations des pays en développement, en les faisant bénéficier de droits réduits ou nuls par rapport au régime de la nation la plus favorisée (NPF).

Les appellations employées dans cette publication, le classement des pays et territoires qui y est effectué et la présentation des données qui y figurent n'impliquent de la part du Secrétariat de l'Organisation des Nations Unies, aucune prise de position quant au statut juridique des pays, territoires, villes ou zones, ou de leurs autorités, ni quant au tracé de leurs frontières ou limites, ni quant à leur système économique ou à leur degré de développement.

INTRODUCTION

Le présent manuel vise à donner des informations synthétiques et concises sur les avantages tarifaires que le Japon accorde au titre de son schéma de préférences aux pays en développement, ainsi que sur les conditions à remplir pour que les produits visés importés dans ce pays soient admis à bénéficier d'un traitement préférentiel.

Le présent manuel fait partie d'une série de publications ayant pour objet d'aider les exportateurs, les producteurs et les fonctionnaires à mettre à profit le SGP. Il donne des conseils pratiques sur la manière d'utiliser les préférences prévues par le schéma du Japon.

Outre des explications concernant les bénéficiaires, les produits visés, l'ampleur des réductions tarifaires, les mesures spéciales en faveur des PMA, les critères de gradation et les règles d'origine, etc., on y trouvera des informations détaillées produit par produit sur les taux SGP, les plafonds et les conditions particulières à remplir pour que soit reconnu le pays d'origine.

Ce manuel est publié grâce à une contribution du Gouvernement japonais, dans le cadre du projet de coopération technique de la CNUCED sur l'assistance aux pays de la région de l'Asie concernant la négociation de droits NPF et préférentiels et l'utilisation du SGP (RAS/97/A18).

La CNUCED a vérifié avec le plus grand soin l'information présentée dans ce manuel, mais n'assume aucune responsabilité en la matière. Le présent document n'a pas de valeur juridique. PARTIE I

Notes explicatives concernant le schéma de préférences du Japon

Le système généralisé de préférences (SGP), tel qu'issu de l'accord conclu à la CNUCED, vise à contribuer au développement économique des pays en développement; il instaure l'octroi d'un traitement préférentiel à ces pays en permettant aux produits visés d'être importés sur les marchés des pays donneurs (pays développés) à des taux réduits ou en franchise de douane.

A. Bénéficiaires

Le Japon accorde un traitement préférentiel à 164 pays et territoires en développement (voir la liste ci-après). Les préférences du schéma japonais sont octroyées par décret ministériel aux pays ou territoires qui en font la demande à condition de satisfaire aux critères suivants:

- L'économie du pays ou du territoire demandeur doit être en voie de développement;
- Le territoire demandeur doit posséder son propre régime tarifaire et commercial;
- Le pays ou le territoire demandeur souhaite bénéficier d'avantages spéciaux en matière de droits de douane;
- Le pays ou le territoire demandeur doit être admis, par décret ministériel, à bénéficier d'un traitement préférentiel.

B. Produits visés

1. *Produits agricoles (chap. 1 à 24 du SH)*

Le Japon octroie des préférences à certains produits de l'agriculture et de la pêche, dont la liste complète se trouve à l'annexe 2. En outre, la liste des produits provenant de PMA qui bénéficient d'une admission en franchise de douane et hors contingent est reproduite à l'annexe 5.

2. *Produits industriels (chap. 25 à 97 du SH)*

Un traitement préférentiel est accordé à tous les produits industriels, y compris ceux de l'exploitation forestière et minière, à l'exception des articles dont la liste figure dans l'annexe 3. En outre, la liste des produits provenant de PMA qui bénéficient d'une admission en franchise de douane et hors contingent est reproduite à l'annexe 5.

	Produits visés		Réductions tarifaires	Mesures de sauvegarde
Produits agricoles	Produits visés à l'annexe 2 (produits pour lesquels seuls les PMA bénéficient de préférences - annexe 5)		Diverses réductions tarifaires	Clause de sauvegarde
Produits industriels	Tous les produits, à l'exception de ceux énumérés à l'annexe 3 (produits pour lesquels seuls les PMA bénéficient de préférences - annexe 5)	Produits énumérés à l'annexe 4	entre 100 % et 20 %	Plafonds (annexe 6)
		Autres produits industriels	100 % (franchise de douane)	Clause de sauvegarde

C. Ampleur des réductions tarifaires

1. *Produits agricoles (chap. 1 à 24 du SH)*

Diverses réductions tarifaires, y compris l'admission en franchise de droits de douane, sont appliquées aux produits visés par le schéma. La liste des taux SGP frappant ces articles est reproduite à l'annexe 2.

2. *Produits industriels (chap. 25 à 97 du SH)*

Les produits industriels visés par le schéma bénéficient en principe de l'admission en franchise de droits de douane, à l'exception de certains produits (voir l'annexe 4) pour lesquels les droits ont été réduits - entre 100 % et 20 % - par rapport aux taux NPF.

D. Plafonds

1. *Plafonds*

- a) Les produits agricoles (chap. 1 à 24 du SH) ne sont pas soumis à des plafonds.
- b) Parmi les produits industriels (chap. 25 à 97 du SH), certains ne sont pas soumis à des plafonds. Les autres peuvent être importés en régime préférentiel jusqu'à ce que le plafond fixé soit atteint. Les plafonds fixés pour 81 groupes de produits correspondant chacun à un chapitre, à une position ou à une sous-position du SH, sont calculés pour l'année budgétaire. Des informations sur les plafonds de l'année budgétaire 2001 sont données à l'annexe 6.

2. *Méthodes de calcul*

Pour calculer le PLAFOND POUR L'ANNÉE BUDGÉTAIRE 2001, il faut ajouter 3 % des importations totalisées par les pays non bénéficiaires pendant l'année budgétaire 1999.

Pour calculer le PLAFOND POUR L'ANNÉE BUDGÉTAIRE 2002 ET LES ANNÉES SUIVANTES, il faut multiplier par 1,03 le plafond de l'année budgétaire antérieure.

3. *Utilisation des plafonds*

Les plafonds fixés pour chaque groupe de produits sont valables pour tous les pays bénéficiaires de préférences, sans distinction. Aucune quantité n'est allouée ou réservée à un pays en particulier.

Le taux de droit NPF s'applique lorsque le plafond est dépassé. Le traitement préférentiel accordé à un bénéficiaire est également suspendu quand ses exportations d'articles donnés dépassent le montant maximum autorisé par pays, à savoir le cinquième de la valeur/quantité totale du plafond fixé pour le groupe de produits visé.

4. *Administration des plafonds et des montants maximaux autorisés par pays*

Les importations des produits visés bénéficient, à hauteur des plafonds fixés et des montants maximaux autorisés par pays, d'un traitement préférentiel dans l'ordre des demandes présentées et font l'objet d'un contrôle.

Contrôle mensuel

Les importations sont comptabilisées mensuellement; le taux NPF est imposé le seizième jour du premier mois suivant le mois où les importations ont dépassé le plafond ou le montant maximum autorisé par pays.

Exemple: plafond: 1 000; montant maximum autorisé par pays: 200

E. Mesures de sauvegarde

Comme tous les autres pays donneurs de préférences, le Japon se réserve le droit de suspendre, dans certaines conditions, le traitement préférentiel réservé aux produits visés par son schéma.

F. Gradation des bénéficiaires avancés

Tout produit exporté par un bénéficiaire peut être exclu du bénéfice du traitement SGP par décret ministériel:

- a) Si le bénéficiaire en question est répertorié dans l'Atlas de la Banque mondiale comme pays à haut revenu ou, dans le cas où il n'y figurera pas, si son produit national brut (PNB) par habitant est équivalent à celui d'un pays à haut revenu;
- b) Si les exportations du bénéficiaire au Japon dépassent 25 % des exportations mondiales du produit considéré vers le Japon;
- c) Si les exportations de ce produit réalisées par le bénéficiaire en question au Japon sont évaluées à plus d'un milliard de yen.

Un pays peut être exclu de la liste des bénéficiaires si, pendant les trois années antérieures, il a été répertorié comme pays à haut revenu dans l'Atlas de la Banque mondiale. La liste des pays exclus du bénéfice du traitement préférentiel est reproduite à l'annexe 9.

G. Mesures spéciales en faveur des pays les moins avancés

Tous les produits des pays les moins avancés visés par le schéma du Japon bénéficient du traitement spécial suivant:

- a) Admission en franchise de droits de douane;
- b) Exemption des plafonds restreignant les importations préférentielles.
- c) Préférences accordées exclusivement aux produits industriels des PMA énumérés à l'annexe 5.

	Produits visés	Réductions tarifaires	Mesures de sauvegarde
Produits agricoles	Produits visés à l'annexe 2 Produits visés à l'annexe 5	100 % (admission en franchise)	Clause de sauvegarde
Produits industriels	Tous les produits industriels, à l'exception de ceux (y compris ceux figurant dans l'annexe 5) énumérés à l'annexe 3	100 % (admission en franchise)	Clause de sauvegarde

Exception: importations de cuivre affiné (groupe de produits n° 70 - annexe 4) provenant de la République démocratique du Congo et de la Zambie.

H. Information sur les importations bénéficiant de préférences

La valeur (ou la quantité) des importations bénéficiant d'un régime préférentiel pour chaque groupe de produits est publiée mensuellement au Journal officiel japonais.

PARTIE II

Règles d'origine du schéma de préférences du Japon

Pour pouvoir bénéficier du régime tarifaire préférentiel, les marchandises exportées par un pays bénéficiaire doivent se voir reconnaître la qualité de produits originaires dudit pays selon les critères d'origine stipulés dans le schéma japonais et avoir été transportées vers le Japon conformément aux règles prescrites.

A. Règles en matière de transport (expédition directe)

La règle de l'expédition directe a pour objet de s'assurer que les marchandises conservent leur identité propre et ne subissent pas de modification ou de transformation supplémentaire en cours de transport.

- a) En principe, les marchandises doivent être acheminées directement au Japon, sans transiter par un territoire autre que celui du pays bénéficiaire exportateur.
- b) Toutefois, des marchandises importées transitant par des territoires autres que celui du pays bénéficiaire exportateur peuvent bénéficier d'un traitement préférentiel si:
 - i) Elles n'ont subi dans le pays de transit aucune opération en dehors d'un transbordement ou d'un entreposage temporaire justifié par des considérations tenant exclusivement aux exigences du transport;
 - ii) Le transbordement ou l'entreposage temporaire ont eu lieu dans une zone sous douane ou dans une zone analogue sous contrôle douanier des pays de transit.
- c) Les marchandises exportées par un pays bénéficiaire à des fins d'entreposage temporaire ou pour des expositions, foires et manifestations analogues organisées dans un pays tiers avant d'être réexportées vers le Japon par leur premier exportateur peuvent bénéficier d'un traitement préférentiel:
 - i) Si leur expédition vers le Japon à partir du pays où s'est tenue l'exposition, etc., s'est faite conformément aux alinéas *i* ou *ii* ci-dessus; et
 - ii) Si l'exposition s'est déroulée dans une zone sous douane ou dans une zone analogue, sous la surveillance du pays organisateur.

B. Critères d'origine

Des marchandises sont réputées originaires d'un pays bénéficiaire si elles y ont été entièrement obtenues.

Les biens produits entièrement ou partiellement à partir de matières ou de pièces importées d'autres pays ou dont l'origine est inconnue sont réputés originaires d'un pays bénéficiaire si les matières ou pièces en question y ont subi une ouvraison ou une transformation suffisante.

D'une façon générale, l'ouvraison ou la transformation est considérée comme suffisante si le bien obtenu correspond à une position tarifaire à quatre chiffres du SH autre que celle dont relèvent les matières ou pièces non originaires utilisées.

Il existe toutefois deux exceptions à cette règle. Premièrement, l'ouvraison ou la transformation subie n'est pas jugée suffisante lorsqu'elle est très simple, même s'il en résulte un changement de position dans le SH. Deuxièmement, certains biens peuvent obtenir la qualité de produit originaire sans qu'il y ait changement de position dans le SH à condition de remplir certaines conditions.

Une liste de produits - la «liste unique» - a été établie pour déterminer les critères d'origine retenus dans les cas susmentionnés. Elle fixe, produit par produit, les transformations requises pour obtenir la qualité de produit originaire. Ces transformations correspondent essentiellement à des opérations décrites ou à un pourcentage maximum de matières importées (coût, assurance et fret).

Outre ce qui vient d'être dit des critères d'origine en général, les transformations minimales ci-après ne confèrent pas le caractère de produit originaire:

- i) Opérations destinées à assurer la bonne conservation des produits pendant leur transport et leur stockage (séchage, réfrigération, mise dans l'eau salée et opérations similaires);
- ii) Simple découpage ou contrôle préalable;
- iii) Simple mise en bouteilles, en boîtes et toutes autres opérations de conditionnement;
- iv) Remballage, triage ou classement;
- v) Apposition de marques, d'étiquettes ou d'autres signes distinctifs sur les produits eux-mêmes ou sur leur emballage;
- vi) Simple mélange de produits non originaires;
- vii) Simple réunion de parties de produits non originaires;
- viii) Simple assemblage de jeux d'articles constitués de produits non originaires;
- ix) Cumul de deux ou plusieurs opérations visées aux alinéas *i* à *viii*.

C. Matières importées du Japon

Conformément aux critères d'origine, un traitement spécial est appliqué aux matières importées du Japon par un pays bénéficiaire et utilisées pour la production de biens devant ultérieurement être exportés au Japon (règle des éléments provenant du pays donneur):

- i) Les biens produits dans un pays bénéficiaire exclusivement à partir de matières importées du Japon, ou de matières entièrement obtenues dans le pays bénéficiaire et de matières importées du Japon, sont réputés entièrement obtenus dans ledit pays bénéficiaire;

- ii) Les biens exportés du Japon entrant comme matières premières ou composants dans la production de biens autres que ceux visés au paragraphe 1 ci-dessus, sont considérés comme entièrement obtenus dans le pays bénéficiaire.

Toutefois, les produits obtenus dans un pays bénéficiaire qui sont énumérés dans l'annexe 8 ne font pas l'objet d'un traitement spécial.

D. Règles d'origine cumulative

Les biens produits dans deux ou plusieurs pays d'Asie du Sud-Est, à savoir l'Indonésie, la Malaisie, les Philippines, la Thaïlande et le Viet Nam, sont considérés comme provenant d'un seul pays bénéficiaire pour la détermination du caractère original et l'application de la règle des éléments provenant du pays donneur.

Ce groupe de pays bénéficie des traitements ci-après lorsque les critères de transformation substantielle lui sont appliqués:

- i) Les biens entièrement obtenus dans ce groupe de pays ou importés du Japon à destination de ces pays sont réputés originaires de ce groupe de pays;
- ii) Les biens produits entièrement ou partiellement à partir de matières importées de ce groupe de pays ou de matières d'origine inconnue sont réputés originaires de ce groupe de pays si ces matières ont subi une ouvraison ou une transformation suffisante dans les pays qui ont participé à la production des biens obtenus.

Les biens admis à bénéficier d'un traitement préférentiel en vertu des règles d'origine cumulative sont réputés originaires du pays qui les produit et les exporte au Japon. Pour bénéficier de ce régime, un certificat d'ouvraison/de transformation cumulative (voir l'annexe 10) doit être présenté aux autorités douanières en sus du certificat d'origine (formule A) lors de la déclaration d'importation.

E. Preuves documentaires

I. Preuve de l'origine des biens

- a) Preuves documentaires à produire pour tous les biens admis au bénéfice du traitement préférentiel

Pour que des biens reçoivent un traitement préférentiel, un certificat d'origine (déclaration et certificat combinés) (formule A) (voir l'annexe 10) doit être présenté aux autorités douanières japonaises lors de leur importation. Le certificat doit être délivré par les autorités douanières (ou par tout autre organisme gouvernemental compétent du pays bénéficiaire exportateur ou par d'autres organismes de ce pays, comme les chambres de commerce, agréés par les autorités douanières japonaises) à la demande de l'exportateur des marchandises considérées. Toutefois, aucun certificat n'est exigé pour les envois dont la valeur en douane ne dépasse pas 200 000 yen ou pour les biens dont l'origine est évidente.

b) Matières importées du Japon

Lorsqu'un traitement spécial est demandé au titre de la règle des éléments provenant du pays donneur pour des biens exportés au Japon par un pays bénéficiaire, il faut apporter la preuve que les matières utilisées ont bien été importées du Japon par le pays bénéficiaire en question, en fournissant: un certificat concernant les matières importées du Japon (voir l'annexe 10) délivré par l'autorité habilitée à délivrer les certificats d'origine (formule A).

c) Origine cumulative

Lorsqu'un traitement spécial est demandé conformément aux règles d'origine cumulative pour des biens produits dans un pays du groupe susmentionné, un certificat d'ouvraison/de transformation cumulative doit être présenté aux autorités douanières en sus du certificat d'origine (formule A) lors de la déclaration d'importation.

2. *Preuve du transport*

Les preuves documentaires à fournir pour attester que les conditions stipulées aux alinéas *ii* ou *iii* des règles d'expédition mentionnées plus haut ont bien été remplies sont les suivantes:

- a) Un connaissvement direct;
- b) Un certificat délivré par les autorités douanières ou par d'autres organismes gouvernementaux compétents des pays de transit; ou
- c) À défaut des documents susmentionnés, toute autre preuve documentaire jugée suffisante.

Toutefois, aucune preuve n'est exigée pour les envois dont la valeur en douane ne dépasse pas 200 000 yen.

Liste des produits (classés en fonction de leur position dans le SH) exemptés de la fourniture de preuves documentaires:

An information note is also obtainable from the UNCTAD secretariat.

II. General conditions

To qualify for preference products must:

- (a) Fall within a description of products eligible for preference in the country of destination. The description entered on the form must be sufficiently detailed to enable the products to be identified by the customs officer examining them;
- (b) Comply with the rules of origin of the country of destination. Each article in a consignment must qualify separately in its own right; and
- (c) comply with the consignment conditions specified by the country of destination. In general, products must be consigned direct from the country of exportation to the country of destination but most preference-giving countries accept passage through intermediate countries subject to certain conditions. (For Australia, direct consignment is not necessary).

III. Entries to be made in box 8

Preference products must either be wholly obtained in accordance with the rules of the country of destination or sufficiently worked or processed to fulfil the requirements of that country's origin rules.

- (a) Products wholly obtained: for export to all countries listed in Section I, enter the letter "P" in box 8 (for Australia and New Zealand box 8 may be left blank).
- (b) Products sufficiently worked or processed: for export to the countries specified the entry in box 8 should be as follows:
 - (1) United States of America: for single country shipments enter the letter "Y" in box 8, for shipments from recognized associations of countries the letter "Z", followed by the sum of the cost or value of the domestic materials and the direct cost of processing, expressed as a percentage of the ex-factory price of the exported products; (example "Y" 35% or "Z" 35%).
 - (2) Canada: for products which meet origin criteria from working or processing in more than one eligible least developed country enter letter "G" in box 8; otherwise "F".

 - (5) Australia and New Zealand: Completion of the box 8 is not required. It is sufficient that a declaration be properly made in box 12.

* For Australia, the main requirement is the exporter's declaration on the normal commercial invoice. From A, accompanied by the normal commercial invoice, is an acceptable alternative, but official certification is not required.

** Official certification is not required.

*** The United States does not require GSP Form A. A declaration setting forth all detailed information concerning the production or manufacture of the merchandise is considered sufficient only if requested by the District Collector of Customs.
