

Editorial statement

Transnational Corporations (which replaces *The CTC Reporter*) is a refereed journal published three times a year by the Transnational Corporations and Management Division, Department of Economic and Social Development, United Nations. The basic objective of the journal is to publish articles that provide insights on the economic, legal, social and cultural impacts of transnational corporations in an increasingly global economy and the policy implications that arise therefrom. It focuses especially on political-economy issues related to transnational corporations. In addition to articles, *Transnational Corporations* features notes on developments in the field of international business as well as book reviews. The journal welcomes contributions from the academic community, policy makers and staff members of research institutions and international organizations.
