- ¹ The totals reported by the BP Annual Report 2002 include crude oil, shale oil, oil sands and natural gas liquids (NGL) – the liquid content of natural gas when this is recovered separately.
- ² Measured at 15 degrees C and 1013 mbar.
- ³ See www.vhss.de/englisch/hax.html.
- ⁴ In some jurisdictions, the negotiable bill of lading is truly negotiable in the sense of providing any transferee with good title, i.e. property in the goods, free from any existing defect in ownership. In other jurisdictions, such as the United Kingdom, the same effect is achieved through statutory provisions, but the document itself is not considered to have the same inherent proprietary value.
- ⁵ Where delivery is made against a letter of indemnity to the wrong consignee, or to a consignee who has failed to pay his seller, the carrier faces a claim for misdelivery and may not in all cases be able to enforce the indemnity.

Notes

- ^a This classification is for statistical purposes only and does not imply any judgement regarding the stage of development and the political situation of any country or territory.
- ^b The following are groups of countries or territories used for presenting statistics in this *Review*:
 - Developed market-economy countries: Codes 1, 2, 3, 4 and 5
 - Countries of Central and Eastern Europe and Republics of the former Soviet Union: Code 6
 - Socialist countries in Asia: Code 7
 - Developing countries and territories: Codes 8, 9, 10, 11 and 12
 - of which:*
 - In Africa: Codes 8.1, 8.2 and 8.3
 - In America: Codes 9.1, 9.2, 9.3, 9.4 and 9.5
 - In Asia: Codes 10.1 and 10.2
 - In Europe: Code 11
 - In Oceania: Code 12
- ^c In certain tables, where appropriate, open-registry countries are recorded in a separate group. The group comprises the Bahamas, Bermuda, Cyprus, Liberia, Malta, Panama and Vanuatu.
- ^d Trade statistics are based on data recorded at the ports of loading and unloading. Trade originating in or destined for neighbouring countries is attributed to the country in which the ports are situated; for this reason, landlocked countries do not figure in these tabulations. On the other hand, statistical tabulations on merchant fleets include data for landlocked countries that possess fleets.
- ^e A dispute exists between the Governments of Argentina and the United Kingdom of Great Britain and Northern Ireland concerning sovereignty over the Falkland Islands (Malvinas).
