NOTE

Symbols of United Nations documents are composed of capital letters combined with figures. Mention of such a symbol indicates a reference to a United Nations document.

General disclaimer

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Where the designations "economy" or "country or area" appear in tables, they cover countries, territories, cities and areas.

The designations "developed" and "developing" are intended for statistical convenience and do not necessarily express a judgement about the stage reached by a particular country or area in the development process.

Material in this publication may be freely quoted or reprinted, but acknowledgement is obligatory, together with a reference to the document number (TD/STAT.29). A copy of the publication containing the quotation or reprint should be sent to the UNCTAD secretariat.

*
* *

La cote des documents de l'Organisation des Nations Unies se compose de lettres majuscules et de chiffres. La mention d'une telle cote indique qu'il est fait référence à un document de l'Organisation.

Déni de responsabilité

Les appellations employées dans cette publication et la présentation des données qui y figurent n'impliquent, de la part du Secrétariat de l'Organisation des Nations Unies, aucune prise de position quant au statut juridique des pays, territoires, villes ou zones, ou de leurs autorités, ni quant au tracé de leurs frontières ou limites.

Les appellations «économie» ou «pays ou zone» figurant dans certaines rubriques des tableaux désignent des pays, des territoires, des villes ou des zones.

Les termes «développés» et «en développement» sont utilisés pour plus de commodité dans la présentation des statistiques et n'impliquent pas nécessairement un jugement quant au stade de développement auquel est parvenu un pays ou une zone donnée.

Le contenu de la présente publication peut être cité ou reproduit sans autorisation, sous réserve qu'il soit fait mention de ladite publication et de sa cote (TD/STAT.29) et qu'un justificatif soit adressé au secrétariat de la CNUCED.

The *UNCTAD Handbook of Statistics* provides a comprehensive collection of statistical data relevant to the analysis of international trade, investment and development for the use of government officials, university and other research specialists, and others interested in these subjects. The publication is available in three complementary formats: printed copy, CD-ROM and on-line: (www.unctad.org/statistics/handbook).

While the complementary CD-ROM and Internet versions of the *Handbook* present the full time series of data, this printed publication focuses on recent statistics.

The tables, while largely based on existing international and national data sources, provide a compilation of data that is unique in the following ways:

- ◆ Wherever possible, data are presented in an analytical way, through the use of rank orderings, growth rates, shares and other special calculations, so as to facilitate their interpretation. Statistical classifications have been condensed into groupings of particular relevance to the analysis of trade and development.
- ◆ Time series of basic trade data cover periods that the UNCTAD secretariat considers to be particularly relevant to statistical and other applicable analysis.
- ◆ A number of the series shown represent UNCTAD secretariat estimates based on detailed research and analysis.
- ◆ Every effort has been made to take account of all available information in order to provide as complete coverage as possible for individual countries. In some cases this has involved secretariat judgements regarding data sources for a particular country.

Particular acknowledgement is made of the cooperation extended by the Statistics Division, Department of Economic and Social Affairs of the United Nations, as well as by other international organisations, in the preparation of this publication.

Le but du *Manuel de statistiques de la CNUCED* est de fournir, à l'intention des administrations nationales, des universitaires et autres spécialistes de la recherche, des organisations internationales, et de tous ceux que la question intéresse, l'ensemble de données statistiques essentielles à l'analyse du commerce mondial, de l'investissement et du développement. La publication est disponible dans trois formats complémentaires : l'édition imprimée, le CD-ROM et la version en ligne (www.unctad.org/statistics/handbook).

Comme les versions CD-ROM et Internet du *Manuel*, complémentaires à cette publication, présentent les séries chronologiques complètes, cette version imprimée fait davantage apparaître les données récentes.

Les tableaux, qui font appel principalement aux sources de données internationales et nationales existantes, forment un catalogue unique de statistiques établies de la manière suivante :

- ◆ Chaque fois que possible, les données ont été présentées d'une manière analytique, classées par ordre de grandeur, taux de croissance, parts et autres calculs spéciaux, afin d'en faciliter l'interprétation. Des groupements se prêtant particulièrement bien à l'analyse du commerce et du développement ont été réalisés au sein des nomenclatures statistiques.
- ◆ Les séries chronologiques de données de base sur le commerce couvrent des périodes que le secrétariat de la CNUCED considère être d'une importance particulière pour des analyses statistiques et autres analyses du sujet.
- ◆ Un certain nombre de séries correspondent à des estimations du secrétariat de la CNUCED fondées sur des recherches et des analyses détaillées.
- ◆ Le secrétariat s'est efforcé de tenir compte de tous les renseignements disponibles afin de broser dans chaque cas un tableau aussi complet que possible de la situation. Ce faisant, il a parfois dû opérer un choix entre différentes sources de données pour tel ou tel pays.

Le secrétariat de la CNUCED tient à remercier la Division de statistique, Département des affaires économiques et sociales de l'ONU, et diverses organisations internationales du concours qu'elles ont apporté à la préparation de cette publication.

Abréviations	xxviii

PREMIERE PARTIE
Commerce international des marchandises

1.1A Valeur des exportations et des importations par régions et par pays	2
1.1B Valeur des exportations et des importations par groupements économiques	12
1.1C Parts des régions et groupements économiques dans les exportations et les importations	14
1.2A Taux d'évolution annuels moyens des exportations et des importations par régions et par pays	16
1.2B Taux d'évolution annuels moyens des exportations et des importations par groupements économiques	24
1.3 Valeur de la balance commerciale et sa part dans les importations	26
1.4 Commerce interne des groupements régionaux et commerciaux	34

DEUXIEME PARTIE
Indices du commerce et des prix des produits de base

2.1A Indices du volume des exportations	38
2.1B Indices du volume des importations	39
2.1C Indices de la valeur unitaire des exportations	40
2.1D Indices de la valeur unitaire des importations	41
2.1E Indices des termes de l'échange	42
2.1F Indices du pouvoir d'achat des exportations	43
2.2 Indices annuels et trimestriels des prix de certains produits de base sur le marché libre	44

PART THREE
Structure of international trade by region

3.1A	Export structure by main regions of destination	52
3.1B	Import structure by main regions of origin	67
3.2.1	Export structure by destination and by major commodity groups:	
	A. World	82
	B. Developed economies	84
	C. South-East Europe and CIS	86
	D. Developing economies	88
	E. Major petroleum exporters	90
	F. Major exporters of manufactures	92
	G. Developing America	94
	H. Developing Africa	96
	I. Developing West Asia	98
	J. Other developing Asia	100
3.2.2	Import structure by origin and by major commodity groups:	
	A. World	102
	B. Developed economies	104
	C. South-East Europe and CIS	106
	D. Developing economies	108
	E. Major petroleum exporters	110
	F. Major exporters of manufactures	112
	G. Developing America	114
	H. Developing Africa	116
	I. Developing West Asia	118
	J. Other developing Asia	120

PART FOUR
Structure of international trade by product

4.1A	Export structure by main categories	124
4.1B	Import structure by main categories	136
4.2	Export structure at the SITC Revision 2 group (3-digit) level (ranked by average 2001-2002 values):	
	A. World	148
	B. Developed economies	152
	C. Developing economies	156
	D. Individual countries and territories	160
4.2E	Major exporters for 70 leading products among developing economies, at the SITC Revision 2 group (3-digit) level (ranked by average 2001-2002 values)	180
	<i>English/French Glossary of 3-digit Standard International Trade Classification (SITC), Revision 2 Groups</i>	191

TROISIEME PARTIE
Structure du commerce international par régions

3.1A	Structure des exportations par principales régions de destination	52
3.1B	Structure des importations par principales régions d'origine	67
3.2.1	Structure des exportations par destination et par principaux groupes de produits :	
	A. Monde	82
	B. Economies développées	84
	C. Europe du Sud-Est et CEI	86
	D. Economies en développement	88
	E. Principaux exportateurs de pétrole	90
	F. Principaux exportateurs d'articles manufacturés	92
	G. Amérique en développement	94
	H. Afrique en développement	96
	I. Asie occidentale en développement	98
	J. Autres pays d'Asie en développement	100
3.2.2	Structure des importations par origine et par principaux groupes de produits :	
	A. Monde	102
	B. Economies développées	104
	C. Europe du Sud-Est et CEI	106
	D. Economies en développement	108
	E. Principaux exportateurs de pétrole	110
	F. Principaux exportateurs d'articles manufacturés	112
	G. Amérique en développement	114
	H. Afrique en développement	116
	I. Asie occidentale en développement	118
	J. Autres pays d'Asie en développement	120

QUATRIEME PARTIE
Structure du commerce international par produits

4.1A	Structure des exportations par principales catégories	124
4.1B	Structure des importations par principales catégories	136
4.2	Structure des exportations au niveau des groupes (position à trois chiffres) de la CTCl révision 2 (classées d'après la moyenne des valeurs de 2001-2002) :	
	A. Monde	148
	B. Economies développées	152
	C. Economies en développement	156
	D. Pays et territoires individuels	160
4.2E	Principaux exportateurs de 70 produits majeurs parmi les économies en développement, au niveau des groupes (position à trois chiffres) de la CTCl révision 2 (classés d'après la moyenne des valeurs de 2001-2002)	180
	<i>Glossaire anglais/français de la Classification type pour le commerce international (CTCI), révision 2, au niveau des groupes (position à trois chiffres)</i>	191

PART FIVE
International trade in services

5.1	Value of exports and imports of services by region and country	200
5.2A	Leading exporters of services among developing economies by main category of services (ranked by 2002 values)	209
5.2B	Leading importers of services among developing economies by main category of services (ranked by 2002 values)	214
5.3	Selected indicators of tourism	220

PART SIX
International finance

6.1A	Balance of payments: current account summaries	242
6.1B	Balance of payments: capital and financial account summaries	257
6.2	Foreign direct investment: inward and outward flows	272
6.3	Workers' remittances A. Receipts B. Payments	280
6.4	International reserves of developing economies	284
6.5	Official financial flows from bilateral and multilateral sources to developing economies	291
6.6	External long-term debt of developing economies by source of lending A. Developing economies B. Major petroleum exporters C. Other developing economies D. Major exporters of manufactures E. Remaining countries	306 307 308 309 310

PART SEVEN
Indicators of development

7.1	Population, area, density and total and per capita gross domestic product	314
7.2	Annual average growth rates of total and per capita real gross domestic product at market prices	320
7.3	Gross domestic product by type of expenditure and by kind of economic activity	330
7.4	Selected indicators of development: population, health and environment	350
7.5	Selected indicators of development: education, employment, gender equality and migration	360
7.6	Information and communication technology indicators by country	370

CINQUIEME PARTIE
Commerce international des services

5.1	Valeur des exportations et des importations de services par régions et par pays	200
5.2A	Principaux exportateurs de services parmi les économies en développement par catégories de services (classés d'après les valeurs de 2002)	209
5.2B	Principaux importateurs de services parmi les économies en développement par catégories de services (classés d'après les valeurs de 2002)	214
5.3	Sélection d'indicateurs du tourisme	220

SIXIEME PARTIE
Flux financiers internationaux

6.1A	Balance des paiements : sommaires des comptes des transactions courantes	242
6.1B	Balance des paiements : sommaires des comptes de capital et d'opérations financières	257
6.2	Investissement étranger direct : flux entrants et sortants	272
6.3	Envois de fonds des travailleurs A. Recettes B. Paiements	280
6.4	Réserves internationales des économies en développement	284
6.5	Flux financiers publics bilatéraux et multilatéraux à destination des économies en développement	291
6.6	Dette extérieure à long terme des économies en développement par catégorie de prêt A. Economies en développement B. Principaux exportateurs de pétrole C. Autres économies en développement D. Principaux exportateurs d'articles manufacturés E. Autres pays	306 307 308 309 310

SEPTIEME PARTIE
Indicateurs du développement

7.1	Population, superficie, densité et produit intérieur brut, total et par habitant	314
7.2	Taux d'évolution annuels moyens du produit intérieur brut réel total et par habitant aux prix du marché	320
7.3	Produit intérieur brut par catégorie de dépense et par branche d'activité économique	330
7.4	Quelques indicateurs du développement : population, santé et environnement	350
7.5	Quelques indicateurs du développement : éducation, emploi, égalité entre hommes et femmes et migration	360
7.6	Indicateurs des technologies de l'information et de la communication par pays	370

PART EIGHT Special studies		HUITIEME PARTIE Études spéciales			
8.1	Tentative terms of trade estimates for developing economies	380	8.1	Estimations approximatives des termes de l'échange pour les économies en développement	380
8.2A	Export concentration and diversification indices by region and country	399	8.2A	Indices de concentration et de diversification des exportations par régions et par pays	399
8.2B	Import concentration and diversification indices by region and country	402	8.2B	Indices de concentration et de diversification des importations par régions et par pays	402
8.3A	Export concentration and structural change indices by product	406	8.3A	Indices de concentration et de changements structurels des exportations par produits	406
8.3B	Import concentration and structural change indices by product	410	8.3B	Indices de concentration et de changements structurels des importations par produits	410
8.4	Average applied import MFN tariff rates on non-agricultural and non-fuel products	415	8.4	Droits de douane moyens NPF appliqués à l'importation des produits non-agricoles et non-pétroliers	415
8.5	Instability indices and trends in free-market prices for selected primary commodities	430	8.5	Indices d'instabilité et tendances des prix sur le marché libre d'une sélection de produits de base	430
8.6	World merchant fleet by flag of registration and type of ship	432	8.6	Flotte marchande mondiale par pavillons d'immatriculation et par types de navires	432

GENERAL NOTES

These notes summarize the coverage of each part of the *Handbook* and highlight modifications as compared with previous issues.

The tables included in this book represent analytical summaries of the full time series contained in the *UNCTAD Handbook of Statistics 2004* presented on CD-ROM and on the Internet (www.unctad.org/statistics/handbook). This printed version includes more concise table formats, with the emphasis on recent information. In certain instances, the two electronic versions might have different figures from the printed volume, as they are published somewhat later and take into account more recent data.

PART ONE

International merchandise trade

Table 1.1A shows the value of total exports and imports for individual countries and for geographical groups, expressed in millions of dollars. The national system of reporting (general trade or special trade) and valuation is indicated.

The same data as in table 1.1A are shown in table 1.1B for different economic groupings.

Table 1.1C includes shares of exports and imports for different geographical and economic groups.

Growth rates of international trade, derived from tables 1.1A and 1.1B, are presented in tables 1.2A and 1.2B.

Table 1.3 contains trade balances (exports f.o.b. minus imports c.i.f.) and these balances as a percentage of imports by country, region and economic grouping.

Table 1.4 shows the relative importance of intra-trade in total trade of different trade or regional groupings, such as EU, ASEAN or MERCOSUR, by comparing their respective exports of goods within the group, the geographical region they belong to and the world. Thirty different trade groups are included in this analysis.

PART TWO

Trade and commodity price indices

The group of tables 2.1 (2.1A to 2.1F) shows volume and unit value indices for exports and imports, and the terms of trade and purchasing power of exports for developed and developing countries by region and economic grouping. The indices for individual developing economies are shown separately in table 8.1.

Table 2.2 includes aggregated price indices for primary commodity groups such as food, tropical beverages, vegetable oilseeds and oils, agricultural raw materials and minerals, ores and metals, as well as a combined price index in current US dollars. Also included are the annual and quarterly free-market price indices of selected commodities exported by developing economies. For reference, market prices in current dollars are shown for the base year. The table is based on data from the *UNCTAD Commodity Price Bulletin*.

PART THREE

Structure of international trade by region

Tables 3.1A and 3.1B show, respectively, the export and import structure of individual countries by main regions of origin and destination, in percentages. Data are presented for as many individual countries as possible, while trade partners are grouped in 13 major clusters according to the UNCTAD secretariat's judgement as to their relevance for the analysis of the direction of international trade.

The group of tables 3.2.1 presents the export structure by destination and by major commodity groups for the world and selected regions, while tables grouped under the 3.2.2 heading provide the same information for imports by origin. The total of all products is presented in dollar terms, while percentages are presented for different product groups. These sets of data provide detailed information on the trade network for the world, 22 regions of origin and 22 regions of destination for each of the 12 commodity groups shown. The commodity groups are based on the SITC (Rev. 2) classification. Figures in these tables are not strictly comparable with the trade data in table 1.1, mainly owing to more frequent revisions of the latter. The complete data on which the figures shown are based are contained in table 3.2 of the CD-ROM and the Internet version of the *UNCTAD Handbook of Statistics 2004*.

PART FOUR

Structure of international trade by product

Tables 4.1A and 4.1B show, respectively, the export and import structure of individual economies by commodity groups for selected years. The eight commodity groups shown, based on the SITC (Rev. 2) classification, are the following: all food items, agricultural raw materials, fuels, ores and metals, manufactured goods, chemical products, other manufactured goods, and machinery and transport equipment.

Tables 4.2A, B and C present the structure of exports for the world and for developed and developing economies at the SITC group (Rev. 2, 3-digit) level. The share of the commodity in the exports of the region and world is shown, as are its annual average growth rate and its difference from that of the world.

Table 4.2D shows the leading exports at the SITC group (Rev. 2, 3-digit) level for individual economies. Each commodity's share in the total exports of the countries, as well as in those of the region and the world, is also presented.

Table 4.2E summarizes information on the major exporters of 70 leading commodities among developing economies at the SITC group (Rev. 2, 3-digit) level.

PART FIVE

International trade in services

Table 5.1 presents the value of total trade in services by country, region and economic grouping. The figures refer to 11 principal service categories as defined in the IMF *Balance of Payments Manual* (1993, BPM 5). The aggregate figures presented also include the UNCTAD secretariat's estimates that are not shown separately. The commercial services, which exclude government services and follow the GATS definition, can be viewed as a memo item in table 5.2 on the CD-ROM or the Internet version of the *Handbook*. Given the general difficulties in statistically capturing certain aspects of the trade in services, the balance-of-payments figures presented here may be somewhat downward biased as compared with existing flows of the international trade in services.

Table 5.2A indicates 20 major exporters, among developing economies, for each of the 10 principal service categories as defined in the IMF *Balance of Payments Manual* (1993, BPM 5). Table 5.2B presents the same information for 20 major importers of services among developing economies. The sectors shown are transport, travel, communication, construction, computer and information services, insurance, financial services, royalties and licence fees, other business services, personal, cultural and recreational services. Government services n.i.e. are not included.

Table 5.3 focuses on tourism services. It presents, for individual economies and for recent years, the following statistics: value of tourism expenditure, number of overnight stays, number of arrivals and the average length of stay. All figures refer to non-resident tourists (inbound tourism).

PART SIX

International finance

Table 6.1A presents summaries of the current account of the balance of payments for individual countries and territories. Balance-of-payments current account data cover all transactions between residents and non-residents of a reporting economy, involving economic values and mainly concerning goods, services, income and current transfers. Following the table are notes that provide explanations of the categories and terminology employed.

Table 6.1B contains summaries of the capital and financial account of the balance of payments for individual economies. Capital and financial account figures, recorded as net values, cover transactions in foreign assets and liabilities. All valuation changes or other non-transaction modifications of net foreign assets are not reflected in these accounts. Capital account includes capital transfers and acquisition and disposal of non-produced, non-financial assets. Financial account covers investments (direct, portfolio and other) and reserve assets (monetary gold, SDRs, foreign exchange and others). The *Handbook* includes capital and financial account data for the first time in this edition. Detailed notes with explanations of categories and terminology used are provided after the table.

Table 6.2 contains information on foreign direct investment (FDI) inflows and outflows by country and regional grouping. These figures correspond to the Statistical Annexes of UNCTAD's *World Investment Report 2004: The Shift Towards Services*.

Tables 6.3A and B present information on major receivers and benefactors of workers' remittances among developing economies. They also show workers' remittances as percentages of international trade data. The IMF *Balance of Payments Manual (1993, BPM 5)* classifies workers' remittances separately from compensation of employees and from migrants' capital transfers. Table 6.3 includes all three categories in the values shown, in order to present a clearer picture of the flows that enter or exit economies via transfers by migrant workers.

Table 6.4 presents data on international reserves (total reserves minus gold) of developing economies by country, region and economic grouping. Other calculations included show months of imports that these reserves could finance at current import levels, as well as annual change in total reserves.

Table 6.5 gives a summary of the different types of official financial flows to developing economies by country, region and economic grouping. Flows from bilateral and multilateral sources are taken into account, as recorded by the Development Assistance Committee (DAC – OECD).

Table 6.6 shows data on the external indebtedness of developing economies by region and economic grouping. It also provides a detailed breakdown of public and publicly guaranteed debt by source of lending. External debt data in this table are based on the Debtor Reporting System (DRS), maintained by the World Bank.

PART SEVEN

Indicators of development

Table 7.1 provides information on population and density, area and total and per capita current GDP (in dollars) by country, region and economic grouping. The GDP per capita estimates in US dollars presented in this table are derived from data in national currency converted into dollars. Comparison of these series converted into current dollars through the use of official exchange rates is not always satisfactory owing to differences in price levels in individual economies.

Table 7.2 contains annual average growth rates of total and per capita real GDP at market prices by country, region and economic grouping.

Table 7.3 provides data on GDP by type of expenditure and kind of economic activity, by country, region and economic grouping.

Table 7.4 shows selected economic and social indicators for individual countries. It contains information on vital, health and environment statistics. This table presents the latest available figures for each indicator and makes it possible to compare countries on the basis of different aspects of socio-economic development at a given time. Among the indicators presented are urban population, infant mortality, life expectancy, access to adequate sanitation facilities, HIV/AIDS, emissions of carbon dioxide and total energy consumption.

Table 7.5 focuses on other socio-economic data related to education, labour force, gender and migration. The latest available figure is shown for each indicator, among which are: school enrolment, illiteracy rate, unemployment rate, employment by sector, number of migrants and gender perspective statistics.

Table 7.6 presents selected information and communication technology (ICT) indicators. It focuses on development and use of new technologies and on access to information and media by including indicators referring to the number of television sets, telephones, telecommunication costs, personal computers, the Internet, investment in telecommunications, etc.

PART EIGHT

Special studies

Table 8.1 contains tentative estimates of export and import unit value indices for individual developing economies, as well as the terms of trade and purchasing power of exports derived from them. The aggregates in table 2.1 have been calculated on the basis of the figures from this table.

Table 8.2A includes time series of export concentration and diversification indices for individual countries and territories and for regional groupings, while table 8.2B presents the same indices for imports.

Tables 8.3A and B provide the concentration and structural change indices for exports and imports by product at the SITC group (Rev. 2, 3-digit) level.

Table 8.4 presents average applied import tariff rates for major categories of non-agricultural and non-fuel products by individual markets and by groups of exporting countries.

Table 8.5 presents instability indices and trends in free-market prices for selected primary commodities that are of particular interest to developing economies.

Table 8.6 focuses on international maritime transport. It contains data on the world merchant fleet by flag of registration and by type of ship. This table, being published for the first time in the *Handbook*, contains consolidated time series that appeared in the various issues of UNCTAD *Review of Maritime Transport*.

OTHER NOTES AND EXPLANATION OF SYMBOLS

Because of rounding, details and percentages in tables do not necessarily add up to totals.

"Dollars" (\$) refers to US dollars, unless otherwise stated.

Zero (0) means that the amount is nil or negligible.

The symbol underscore (⏟) indicates that the item is not applicable.

Two dots (..) indicate that the data are not available or are not separately reported.

Use of a hyphen (-) between years (e.g. 1985-1990) signifies the full period involved, including the initial and final years. Some exceptions are indicated in footnotes.

DISTRIBUTION OF COUNTRIES AND TERRITORIES

The country distributions presented on the following pages have been adopted for statistical convenience only and follow those used by the Statistics Division, Department of Economic and Social Affairs (DESA) of the United Nations.

The term *economies*, as used in this publication, covers regions, countries and territories.

A number of modifications have been introduced in country groupings as compared with the distributions of countries presented in the previous *Handbook*. The changes follow the enlargement of the European Union, as of 1 May 2004, and include consequent adjustments, particularly for the countries of Central and South-East Europe and those succeeding the former USSR. The cluster South-East Europe and Commonwealth of Independent States (CIS) has been newly introduced.

THREE MAIN GROUPS OF COUNTRIES / TERRITORIES

Developed economies:

In Europe:

European Union:

Austria	Greece	Netherlands
Belgium	Hungary	Poland
Czech Republic	Ireland	Portugal
Cyprus	Italy	Slovakia
Denmark	Latvia	Slovenia
Estonia	Lithuania	Spain
Finland	Luxembourg	Sweden
France	Malta	United Kingdom of Great Britain and Northern Ireland
Germany		

Other developed Europe:

Andorra	Holy See	Monaco
Channel Island	Iceland	Norway
Faeroe Islands	Isle of Man	San Marino
Gibraltar	Liechtenstein	Switzerland

In America: Canada and the United States of America

In Asia: Israel and Japan

In Oceania: Australia and New Zealand

South-East Europe and Commonwealth of Independent States (CIS):

South-East Europe:

Albania	Croatia	Serbia and Montenegro
Bosnia and Herzegovina	Romania	The former Yugoslav Republic of Macedonia
Bulgaria		

Commonwealth of Independent States (CIS):

Armenia	Kazakhstan	Tajikistan
Azerbaijan	Kyrgyzstan	Turkmenistan
Belarus	Republic of Moldova	Ukraine
Georgia	Russian Federation	Uzbekistan

Developing economies:

All other countries and territories in Africa, America, Asia and Oceania not specified above. For developing economies, the main regions have been further subdivided into subregions to provide additional information. The exact composition of each region is shown on the following pages. Possible exceptions to this classification in some of the *Handbook* tables are specified in footnotes.

A number of economic classifications have been used in the *UNCTAD Handbook of Statistics* in order to reflect more accurately differences among developing countries and territories, and thus to facilitate the analysis of socio-economic data. These classifications distinguish, in the first instance, between the major petroleum-exporting countries and other developing economies. The latter are in turn subdivided into two categories: (a) major exporters of manufactures, and (b) remaining economies distributed by major geographical regions.

The group "Major petroleum exporters" consists of all 11 OPEC member countries. In addition, 10 non-OPEC countries are included on the basis of the following criteria: the share of petroleum and petroleum products was not less than 50 per cent of their total exports, and exports of those products amounted to at least US\$ 1.5 billion on average in the period 1999-2001. The Netherlands Antilles were added to the group in this year's *Handbook*, as this state satisfies the criteria cited for the given period.

The group "Major exporters of manufactures" consists of 12 economies included on the basis of the following criteria: the share

of manufactured products was not less than 50 per cent of total exports, and exports of those products amounted to at least US\$ 20 billion on average in the period 1999-2001.

In addition, all developing economies have been classified, according to their per capita GDP in 2000, into three groupings: high-income, middle-income and low-income countries.

For further reference, the groups of "Least developed countries" (LDCs), "Heavily indebted poor countries" (HIPC) and "Landlocked countries" are shown as memo items. Certain tables present the grouping "Developing countries excluding China", which refers to mainland China only. "Sub-Saharan Africa" (South Africa included) forms another memo item.

Trade groupings (e.g. ASEAN, EU, LAIA) are included in certain tables, which makes it possible to include groups that cut across regions, such as APEC.

All groups are presented on the basis of the latest information available in May 2004.

DISTRIBUTION OF DEVELOPING COUNTRIES / TERRITORIES BY REGION

A m e r i c a 49

South America 14

Argentina	Ecuador	Peru
Bolivia	Falkland Islands (Malvinas)	Suriname

NOTES GENERALES

Ces notes donnent des indications sur le contenu de chaque partie du *Manuel*, en particulier sur les modifications apportées par rapport aux précédentes éditions.

Les tableaux inclus dans cette publication constituent un résumé analytique des séries chronologiques complètes publiées dans le *Manuel de statistiques de la CNUCED 2004* sur CD-ROM et dans la version Internet (www.unctad.org/statistics/handbook). L'édition imprimée présente les mêmes tableaux dans un format concis, avec toutefois une place plus grande consacrée aux informations récentes. Les données dans les deux versions électroniques pourront, dans certaines cas, être différentes de celles de la variante imprimée en raison de leur publication à une date ultérieure.

PREMIERE PARTIE

Commerce international des marchandises

Le tableau 1.1A donne la valeur des exportations et des importations totales de marchandises par pays et par groupements régionaux et économiques, exprimée en millions de dollars. Le système national d'enregistrement (commerce général ou commerce spécial) et d'évaluation est indiqué.

Les mêmes données sont présentées dans le tableau 1.1B pour des groupements économiques différents.

Le tableau 1.1C fait apparaître les parts dans les exportations et les importations de différents groupements géographiques et économiques.

Les taux de croissance calculés à partir des valeurs des tableaux 1.1A et 1.1B figurent aux tableaux 1.2A et 1.2B.

Le tableau 1.3 présente les balances commerciales (exportations f.a.b. moins importations c.a.f.), ainsi que ces mêmes balances en pourcentage des importations par pays, par régions et par groupements économiques.

Le tableau 1.4 indique l'importance relative des échanges intrarégionaux dans le commerce total des groupements commerciaux, comme l'UE, l'ANASE ou le MERCOSUR. Il présente la valeur de leurs exportations de marchandises au sein du groupement, ainsi que leur part dans le commerce régional et mondial. 30 groupes commerciaux sont inclus dans cette analyse.

DEUXIEME PARTIE

Indices du commerce et des prix des produits de base

Le groupe de tableaux 2.1 (2.1A à 2.1F) fournit les indices du volume et de la valeur unitaire des exportations et des importations, ainsi que des termes de l'échange et du pouvoir d'achat des exportations, pour les pays développés et les pays en développement par régions et par groupements économiques. Les indices concernant les économies en développement figurent au tableau 8.1.

Le tableau 2.2 donne les indices de prix agrégés pour des groupes de produits de base tels que les produits alimentaires, les boissons tropicales, les huiles et graines oléagineuses, les matières premières d'origine agricole, les minéraux, métaux ainsi qu'un indice de l'ensemble en dollars courants des Etats-Unis. Il contient également des indices annuels et trimestriels de prix sur le marché libre d'une sélection de produits de base exportés par les économies en développement. Pour mémoire, les prix du marché en dollars courants sont donnés pour l'année de base. Ce tableau a été établi à partir de données extraites du *Bulletin des prix des produits de base* de la CNUCED.

TROISIEME PARTIE

Structure du commerce international par régions

Les tableaux 3.1A et 3.1B présentent respectivement la structure des exportations et des importations des pays par régions d'origine et de destination. Le plus grand nombre possible de pays en développement sont inclus dans cette étude, tandis que les partenaires commerciaux sont regroupés en 13 groupes, considérés particulièrement importants pour analyser les flux du commerce international.

Le groupe de tableaux 3.2.1 indique la structure des exportations par destinations et par principaux groupes de produits pour le monde et pour certaines régions, tandis que les tableaux sous le titre 3.2.2 donnent les mêmes renseignements concernant les importations par origines. Ces ensembles de données fournissent les informations détaillées sur le réseau du commerce international pour le monde, 22 régions d'origine et 22 régions de destination, pour chacun de 12 groupes de produits présentés. Ces derniers se basent sur la classification CTCl (rév. 2). Les données dans ce tableau ne sont pas strictement comparables à celles du tableau 1.1, principalement en raison de la révision plus fréquente de ces dernières. Les données complètes à partir desquelles ces tableaux ont été composés sont disponibles dans le tableau 3.2 des versions CD-ROM et Internet du *Manuel de statistiques de la CNUCED 2004*.

QUATRIEME PARTIE

Structure du commerce international par produits

Les tableaux 4.1A et 4.1B font apparaître la structure des exportations et des importations des économies individuelles par catégories de produits pour une sélection d'années. Huit groupes de produits, qui se basent sur la classification CTCl (rév. 2), sont présentés : les produits alimentaires, les matières premières d'origine agricole, les combustibles, les minerais et métaux, les produits manufacturés, les produits chimiques, les articles manufacturés divers, ainsi que les machines et le matériel de transport.

Dans les tableaux 4.2A, B et C sont présentées respectivement les exportations du monde, des économies développées et de celles en développement, par groupes de la CTCl (rév. 2, position à trois chiffres). On y trouve également la part de chaque groupe de produits dans les exportations de la région et du monde, ainsi que le taux annuel moyen de croissance correspondant et l'écart de ce dernier par rapport au taux de croissance mondial.

Le tableau 4.2D fait apparaître, pour les différentes économies, les principaux produits qu'elles exportent (CTCl rév. 2, position à trois chiffres). La part de chaque produit dans le total des exportations du pays, de la région et du monde est également indiquée.

Le tableau 4.2E indique les plus gros exportateurs des 70 principaux produits exportés par les économies en développement (CTCl rév. 2, position à trois chiffres), ainsi que les parts correspondantes.

CINQUIEME PARTIE

Commerce international des services

Le tableau 5.1 présente la valeur des exportations et des importations des services par pays, par régions et par groupements économiques. Les services se divisent en 11 catégories principales, conformément à la définition du *Manuel de la balance des paiements* du FMI (1993, MBP 5). Les agrégats incluent les valeurs estimées par le secrétariat de la CNUCED qui ne sont pas présentées séparément. Les services commerciaux, qui excluent les services des administrations publiques et suivent la définition des AGCS, sont présentés pour

mémoire dans le tableau 5.2 du *Manuel de statistiques de la CNUCED 2004* sur CD-ROM ou sur l'Internet. De manière générale, les difficultés à mesurer statistiquement la valeur du commerce des services persistent et les données de la balance des paiements peuvent être inférieures aux flux existants du commerce international des services.

Le tableau 5.2A fait apparaître les 20 plus gros exportateurs, parmi les économies en développement, pour chacune des 10 catégories principales de services, selon la définition du *Manuel de la balance des paiements* du FMI (1993, MBP 5). Le tableau 5.2B fournit les mêmes informations sur les 20 plus gros importateurs de services parmi les économies en développement. Les secteurs présentés sont : les transports, les voyages, les communications, le bâtiment et les travaux publics, l'informatique et l'information, les assurances, les services financiers, les redevances et droits de licence, les services personnels, culturels et relatifs aux loisirs et les services fournis ou reçus par les administrations publiques. Les services fournis ou reçus par les administrations publiques, n.c.a. ne sont pas inclus.

Le tableau 5.3 fait apparaître les données sur les services liés au tourisme en présentant, par pays et pour les années récentes, les statistiques suivantes : montant des dépenses des touristes, nombre des nuitées des touristes, nombre des arrivées et durée moyenne de séjour. Tous les indicateurs se réfèrent aux touristes non résidents.

SIXIEME PARTIE

Flux financiers internationaux

Le tableau 6.1A contient un état récapitulatif du «compte courant» des balances des paiements des pays et territoires individuels. Les données du compte des transactions courantes de la balance des paiements recouvrent toutes les transactions, entre entités résidentes et non résidentes, portant sur des valeurs économiques, concernant principalement les biens, les services, les revenus et les transferts courants. Des notes explicatives concernant les catégories et la terminologie employée se trouvent à la suite du tableau.

Le tableau 6.1B fait apparaître le sommaire du «compte de capital et d'opérations financières» des balances des paiements des pays et territoires individuels. Les chiffres des comptes de capital et des comptes financiers, rapportés en valeurs nettes, couvrent les transactions en avoirs et engagements étrangers. Toutes les réévaluations et autres variations d'avoirs et d'engagements qui ne reflètent pas des transactions sont exclues du compte de capital et d'opérations financières. Le compte de capital est subdivisé en transferts de capital et en acquisitions et cession d'avoirs non financiers non produits. Le compte financier recouvre les investissements (directs, de portefeuille et autres) et les avoirs de réserve (or monétaire, DTS, devises et autres créances). Ces statistiques sont présentées dans le Manuel pour la première fois. Les explications détaillées des catégories et de la terminologie utilisées sont présentées à la suite du tableau.

Le tableau 6.2 est consacré aux investissements directs en provenance de l'étranger (IDE) et présente les flux entrants et sortants par pays et par groupements régionaux. Ces chiffres correspondent aux données présentées dans l'Annexe statistique du *World Investment Report 2004: The Shift Towards Services*, de la CNUCED.

Les tableaux 6.3A et B fournissent des informations sur les principaux économies en développement destinataires et expéditeurs des envois de fonds des travailleurs. En plus, ils présentent les versements des travailleurs en pourcentage du commerce international. Le *Manuel de la balance des paiements* du FMI (1993, MBP 5) classe séparément les versements des travailleurs, la rémunération des salariés et les transferts de capital des migrants. Les valeurs dans le tableau 6.3 incluent les trois catégories mentionnées, afin d'offrir une présentation plus exhaustive des flux entrants ou sortants d'une économie à travers les transferts réalisés par les travailleurs migrants.

Le tableau 6.4 fournit les données relatives aux réserves internationales (les réserves totales moins l'or) des économies en développement par pays, par régions et par groupements économiques. Les mois d'importation que ces réserves peuvent financer, dans la situation actuelle du commerce international du pays, sont également indiqués, ainsi que la variation annuelle des réserves totales.

Le tableau 6.5 fait apparaître la composition des flux financiers officiels vers les économies en développement par pays, par régions et par groupements économiques. Les flux bilatéraux et multilatéraux sont pris en compte, selon les publications du Comité d'aide au développement (CAD – OCDE).

Le tableau 6.6 contient des données sur la dette extérieure des économies en développement par régions et par groupements économiques, ainsi qu'une ventilation détaillée de la dette publique ou garantie par l'état par sources d'emprunt. Les données de la dette extérieure présentées dans ce tableau se basent sur le Système de notification des pays débiteurs (SNPD), géré par la Banque mondiale.

SEPTIEME PARTIE

Indicateurs du développement

Le tableau 7.1 fournit des renseignements sur le chiffre et la densité de la population, la superficie et le PIB courant total et par habitant (en dollars), par pays, par régions et par groupements économiques. Les estimations du PIB par habitant (en dollars) présentées dans ce tableau ont été obtenues à partir de données en monnaies nationales. Il n'est pas toujours satisfaisant de ramener la valeur de séries de ce type à une devise commune - le dollar des Etats-Unis - en appliquant les taux de change officiels, étant donné les différences de niveau de prix entre les économies individuelles.

Le tableau 7.2 indique les taux annuels moyens de croissance du PIB réel total et du PIB par tête d'habitant au prix de marché, par pays, par régions et par groupements économiques.

Le tableau 7.3 contient les données sur la structure du PIB par catégories de dépenses et par branches d'activité économique, par pays, par régions et par groupements économiques.

Le tableau 7.4 présente quelques indicateurs économiques et sociaux pour les différents pays. Il fournit des statistiques vitales, ainsi que celles relatives à la santé et l'environnement. Grâce aux dernières données disponibles, le tableau permet la comparaison des pays à travers différents aspects de leur développement socio-économique. Parmi les indicateurs présentés, on trouve : la population urbaine, la mortalité infantile, l'espérance de vie, la disponibilité des sanitaires, le VIH/SIDA, les émissions de dioxyde de carbone, la consommation totale d'énergie.

Le tableau 7.5 présente d'autres indicateurs socio-économiques par pays relatifs à l'éducation, à la main-d'œuvre, à l'égalité entre femmes et hommes et aux migrations. Les dernières données disponibles sont prises en compte pour tous les indicateurs parmi lesquels figurent : les inscriptions scolaires, l'éducation des femmes, l'analphabétisme, le taux de chômage, le taux de chômage féminin, la main-d'œuvre par secteur, le nombre de migrants.

Le tableau 7.6 contient une sélection de données relatives aux technologies de l'information et de la communication, qui se réfèrent au développement et à l'usage des nouvelles technologies, ainsi qu'à l'informatique et l'accès aux médias. Le tableau inclut des indicateurs sur les postes téléviseurs, les téléphones, les ordinateurs personnels, l'Internet, l'investissement dans les télécommunications, etc.

HUITIEME PARTIE

Etudes spéciales

Le tableau 8.1 fait apparaître des estimations provisoires des indices de la valeur unitaire des exportations et des importations pour différents pays et territoires en développement, ainsi que les termes de l'échange et le pouvoir d'achat des exportations calculés à partir de ces indices. Les agrégats présentés dans le tableau 2.1 sont calculés à partir des estimations qui figurent ici.

Le tableau 8.2A contient les séries de données sur les indices de concentration et de diversification des exportations des pays et territoires individuels et des différents groupements régionaux. Le tableau 8.2B présente les mêmes indices pour les importations.

Les tableaux 8.3A et B fournissent les indices de concentration et de changements structurels des exportations et des importations par groupes de produits de la CTCI (rév. 2, position à trois chiffres).

Le tableau 8.4 contient les données sur les droits de douane moyens appliqués à l'importation des principales catégories de produits non-agricoles et non-pétroliers, par marchés individuels et par groupes de pays exportateurs.

Le tableau 8.5 présente les indices d'instabilité et les tendances des prix sur le marché libre d'une sélection de produits de base ayant une importance particulière pour les économies en développement.

Le tableau 8.6 concerne le transport maritime international. Il contient des données sur la flotte marchande mondiale par pavillons d'immatriculation et par types de navires. Ce tableau, qui paraît pour la première fois dans le *Manuel*, incorpore les informations consolidées provenant des différentes éditions de la publication *Review of Maritime Transport* de la CNUCED.

AUTRES NOTES ET EXPLICATIONS DES SYMBOLES

La somme des chiffres et des pourcentages indiqués dans les tableaux ne correspond pas nécessairement aux totaux en raison des arrondis.

Sauf indication contraire, le terme «dollar» s'entend du dollar des Etats-Unis d'Amérique.

Un zéro (0) signifie que le montant est nul ou négligeable.

Un tiret (-) signifie que la rubrique est sans objet.

Deux points (..) signifient que les données ne sont pas disponibles ou ne sont pas communiquées séparément.

Le trait d'union (-) entre deux millésimes (par exemple 1985-1990) indique qu'il s'agit de la période tout entière (y compris la première et la dernière année mentionnées). Les exceptions sont indiquées dans les notes de bas de page.

REPARTITION DES PAYS ET TERRITOIRES

Les répartitions des pays, incluses dans les pages suivantes, sont adoptées uniquement pour des raisons de présentation statistique et sont celles qu'utilise la Division de statistique, Département des affaires économiques et sociales (DAES) de l'ONU.

Dans cette publication, le terme *économie* couvre les régions, les pays et les territoires.

TROIS GRANDS GROUPES DE PAYS / TERRITOIRES

Économies développées :

En Europe :

Union européenne :

Allemagne	Grèce	Pays-Bas
Autriche	Hongrie	Pologne
Belgique	Irlande	Portugal
Chypre	Italie	République Tchèque
Danemark	Lettonie	Royaume-Uni de Grande-Bretagne et d'Irlande du Nord
Espagne	Lituanie	Slovénie
Estonie	Luxembourg	Slovaquie
Finlande	Malte	Suède
France		

Autres pays développés d'Europe :

Andorre	Iles Féroé	Norvège
Gibraltar	Islande	Saint-Marin
Ile de Man	Liechtenstein	Saint-siège
Iles Anglo-Normandes	Monaco	Suisse

En Amérique : Canada et Etats-Unis d'Amérique

En Asie : Israël et Japon

En Océanie : Australie et Nouvelle-Zélande

Europe du Sud-Est et Communauté des Etats indépendants (CEI) :

Europe du Sud-Est :

Albanie	Croatie	Roumanie
Bosnie-Herzégovine	Macédoine, l'ex-République yougoslave de	Serbie-et-Monténégro
Bulgarie		

Communauté des Etats indépendants (CEI) :

Arménie	Géorgie	Ouzbékistan
Azerbaïdjan	Kazakhstan	Tadjikistan
Bélarus	Kirghizstan	Turkménistan
Fédération de Russie	Moldova, République de	Ukraine

Économies en développement :

Tous les autres pays et territoires d'Afrique, d'Amérique, d'Asie et d'Océanie non mentionnés ci-dessus. Les grandes régions couvrant l'ensemble des économies en développement ont été divisées en sous-régions pour permettre la présentation de statistiques plus détaillées. La composition de chaque région est présentée dans les pages suivantes. Les exceptions à ce classement que comportent quelques tableaux sont indiquées dans des notes.

Dans le *Manuel de statistiques de la CNUCED*, un certain nombre de classifications des pays et territoires sont utilisées afin de mieux faire ressortir les différences entre les économies en développement et ainsi faciliter l'analyse des données socio-économiques. Ces classifications distinguent, en premier lieu, les principaux pays exportateurs de pétrole des autres économies en développement. Ces derniers ont été à leur tour répartis en deux sous-catégories: (a) principaux exportateurs d'articles manufacturés et (b) autres économies. La rubrique «Autres économies» a été elle-même subdivisée d'après les principales régions géographiques.

Le groupement des «Principaux exportateurs de pétrole» comprend les 11 pays membres de l'OPEP et 10 pays non-membres de l'OPEP choisis en fonction des critères suivants : la part du pétrole et des produits pétroliers ne représentait pas moins de 50% de leurs exportations totales, et les exportations de ces produits s'élevaient à au moins 1,5 milliards de dollars en 1999 - 2001 en moyenne. Les Antilles néerlandaises ont été ajoutées à ce groupe dans la présente édition du *Manuel de statistiques de la CNUCED*.

Le groupement des «Principaux exportateurs d'articles manufacturés» comprend les économies sélectionnées en fonction

En comparaison avec le *Manuel de statistiques de la CNUCED* de l'année précédente, la présente édition comporte quelques modifications, notamment dans la présentation des groupes de pays. Les changements suivent l'élargissement de l'Union européenne du 1 mai 2004 et incluent les ajustements conséquents, particulièrement concernant les pays d'Europe centrale et du Sud-Est et pays qui ont succédé de l'ex-URSS. Le nouveau groupement Europe du Sud-Est et Communauté des Etats indépendants (CEI) a été introduit.

des critères suivants : la part d'articles manufacturés ne représentait pas moins de 50% de leurs exportations totales, et leurs exportations d'articles manufacturés avaient une valeur moyenne d'au moins 20 milliards de dollars en 1999 - 2001.

Les économies en développement sont aussi divisées en trois groupes de revenu (en fonction du PIB par habitant en 2000) : revenu élevé, revenu intermédiaire et revenu faible.

En plus, les groupements des «Pays les moins avancés» (PMA), «Pays pauvres très endettés» (PPTTE) et «Pays enclavés» sont présentés pour mémoire. Certains tableaux incluent aussi le groupe des «Pays en développement, Chine non comprise», qui se réfère seulement à la Chine continentale. Les pays de «l'Afrique subsaharienne» (Afrique du Sud comprise) forment un autre groupe.

Les groupements commerciaux (par exemple Union européenne, ALADI, Accord de Bangkok) sont présentés dans un certain nombre de tableaux. Cela a permis de faire figurer des groupements à caractère interrégional tels la CEAP.

Les dernières informations disponibles au mois de mai 2004 ont été prises en compte pour présenter les groupements contenus dans ce *Manuel de statistiques*.

REPARTITION DES PAYS / TERRITOIRES EN DEVELOPPEMENT PAR REGIONS

ABREVIATIONS

AASP	autres apports du secteur public
AELE	Association européenne de libre-échange
AGCS	Accord général sur le commerce des services
ALADI	Association latino-américaine d'intégration
ALENA	Accord de libre-échange nord-américain
ANASE	Association des nations de l'Asie du Sud-Est
anc.	ancien, ancienne, anciennement
AP	aide publique
APD	aide publique au développement
ATEP	Approvisionnements totaux en énergie primaire
CAD	Comité d'aide au développement (OCDE)
CARICOM	Communauté des Caraïbes
CCG	Conseil de coopération du Golfe
CDAA	Communauté de développement de l'Afrique australe
CEAP	Coopération économique de l'Asie et du Pacifique
CEDEAO	Communauté économique des Etats de l'Afrique de l'Ouest
CEE	Commission économique pour l'Europe
CEEAC	Communauté économique des Etats de l'Afrique centrale
CEI	Communauté des Etats indépendants
CEMAC	Communauté économique et monétaire de l'Afrique centrale (anc. UDEAC)
CEMN	Coopération économique de la Mer Noire
CEPGL	Communauté économique des pays des Grands Lacs
CESAP	Commission économique et sociale pour l'Asie et le Pacifique
CESAO	Commission économique et sociale pour l'Asie occidentale
c.a.f.	coût, assurance, fret
CNUCED	Conférence des Nations Unies sur le commerce et le développement
COMESA	Marché commun d'Afrique de l'Est et du Sud
CTCI	Classification type pour le commerce international
DTS	droits de tirage spéciaux
EP	équivalent de pétrole
f.a.b.	franco à bord
FAO	Organisation des Nations Unies pour l'alimentation et l'agriculture
FBCF	formation brute de capital fixe
FMI	Fonds monétaire international
IDE	Investissement direct étranger
IEA	Agence internationale de l'énergie
ISBLM	institutions sans but lucratif au service des ménages
LERY	L'ex-République yougoslave (de Macédoine)
KTEP	kilo tonnes d'équivalent de pétrole
MBP	<i>Manuel de la balance des paiements</i> (FMI)
MCAC	Marché commun d'Amérique centrale
MERCOSUR	Marché commun austral
MSG	Groupe Fer de lance mélanésien
n.c.a.	non classé ailleurs
n.d.a.	non dénommé ailleurs
NEI	nouvelles économies industrialisées
OCDE	Organisation de coopération et de développement économiques
OCE	Organisation de coopération économique
OECO	Organisation des Etats des Caraïbes orientales
OIT	Organisation internationale du travail
OMC	Organisation mondiale du commerce
OMS	Organisation mondiale de la santé
ONU/DAES/DS	Organisation des Nations Unies, Département des affaires économiques et sociales, Division de statistique
ONUSIDA	Programme commun des Nations Unies sur le VIH/SIDA
OPEP	Organisation des pays exportateurs de pétrole
PIB	produit intérieur brut
PMA	pays les moins avancés
PNB	produit national brut
PPTE	pays pauvres très endettés
RAS	région administrative spéciale
SAARC	Association de l'Asie du Sud pour la coopération régionale
SNPD	Système de notification des pays débiteurs
STN	société transnationale
UE	Union européenne
UEMOA	Union économique et monétaire des Etats de l'Afrique de l'Ouest
UFM	Union du fleuve Mano
UMA	Union du Maghreb arabe
UNESCO	Organisation des Nations Unies pour l'éducation, la science et la culture
UNICEF	Fonds des Nations Unies pour l'enfance
ZLEA	Zone de libre échange des Amériques

1.1A Value of exports and imports by region and country

Sources:

United Nations, *Yearbook of International Trade Statistics*; United Nations, *Monthly Bulletin of Statistics*; United Nations, Economic Commission for Europe; International Monetary Fund, *International Financial Statistics*; International Monetary Fund, *Direction of Trade Statistics*; World Trade Organization; Eastern Caribbean Central Bank; national sources and UNCTAD secretariat estimates.

Notes:

Figures in this table refer to total exports and total imports of goods. Data on trade in services are shown in table 5.1. Unless otherwise specified, export values are free on board (f.o.b.) and import values cost, insurance and freight (c.i.f.).

Differences between data shown in this table and those shown in Part III are due to a variety of factors. For instance, imports arrive at destination and are registered with some time-lag from the date they were recorded as exports. Consequently, total exports differ from total of imports. See notes in Part III.

Two trade systems are in common use: the *General Trade System* and the *Special Trade System*.

The *General Trade System* is used when the statistical territory of a compiling country coincides with its economic territory. Consequently, imports include all goods entering the economic territory of a compiling country and exports include all goods leaving the economic territory of a compiling country.

The *Special Trade System* is used when the statistical territory comprises only a particular part of the economic territory within which goods may be disposed without customs restriction (free circulation area). Imports include all goods entering the free circulation area of a compiling country, which means cleared through customs for home use; exports include all goods leaving the free circulation area. However, goods entering and goods leaving an industrial free zone are not recorded since they have not been cleared through customs for home use. The products processed in free zones are also excluded from exports.

For further explanations, see United Nations, *International Merchandise Trade Statistics: Concepts and Definitions, Series M, No. 52, Revision 2*.

The trade flows shown in this table refer to the General Trade System, except for the countries and territories listed below which employ the Special Trade System:

Algeria; American Samoa; Argentina; Armenia; Austria; Belgium; Belgium-Luxembourg; Benin; Bosnia and Herzegovina; Botswana; Brunei Darussalam; Bulgaria; Burundi; Cameroon; Central African Republic; Chad; Chile; Comoros; Congo; Costa Rica; Côte d'Ivoire; Cuba; Czech Republic; Dem. Rep. of the Congo; Denmark; Dominica; Dominican Republic; Egypt; El Salvador; France; French Guiana; French Polynesia; Gabon; Greece; Grenada; Guadeloupe; Guatemala; Guyana; Honduras; Hungary; Iran, Islamic Rep. of; Iraq; Israel; Italy; Kazakhstan; Kuwait; Lao People's Dem. Rep.; Latvia; Liberia; Luxembourg; Madagascar; Mali; Martinique; Mauritania; Montserrat; Morocco; Netherlands Antilles; New Caledonia; Niger; Panama; Peru; Poland; Portugal; Qatar; Reunion; Romania; Saint Kitts and Nevis; Saint Lucia; Saint Vincent and the Grenadines; Samoa; Sao Tome and Principe; Saudi Arabia; Serbia and Montenegro; Sierra Leone; Slovakia; Slovenia; Solomon Islands; Spain; Switzerland; Syrian Arab Republic; Thailand; Macedonia, TFYR; Togo; Trinidad and Tobago; Turkey; Ukraine; Uzbekistan; Viet Nam; Yemen; Zambia.

- 1 Prior to 1985, General Trade.
- 2 From 1996, France data include trade of French Guiana, Guadeloupe, Martinique and Reunion.
- 3 Data prior to July 1990 pertain to the territorial boundaries of the Federal Republic of Germany prior to 3 October 1990.
- 4 Excluding military imports.
- 5 From 1985 onwards, data are not comparable to those shown for prior periods due to revisions of the koruna-to-US dollar exchange rate.

1.1A Valeur des exportations et des importations par régions et par pays

Sources :

Organisation des Nations Unies, *Annuaire statistique du commerce international*; Organisation des Nations Unies, *Bulletin mensuel de statistique*; Organisation des Nations Unies, Commission économique pour l'Europe; Fonds monétaire international, *International Financial Statistics*; Fonds monétaire international, *Direction of Trade Statistics*; Organisation mondiale du commerce; Eastern Caribbean Central Bank; Sources nationales et estimations du secrétariat de la CNUCED.

Notes :

Les chiffres de ce tableau se réfèrent aux exportations et importations totales des biens. Les données sur le commerce des services sont présentées dans le tableau 5.1. Sauf indications contraires, les valeurs des exportations sont franco à bord (f.a.b.) et celles des importations coût assurance et fret (c.a.f.).

Les différences entre les données de ce tableau et les tableaux de la Partie III sont dues à divers facteurs. Par exemple, les importations des marchandises peuvent arriver à destination et être enregistrées bien après la date de leur enregistrement à l'exportation. Par conséquent, le total des exportations n'est pas égal au total des importations.

Deux systèmes d'enregistrement des marchandises sont couramment utilisés: le *Système du Commerce Général* et le *Système du Commerce Spécial*.

Le *Système du Commerce Général* est utilisé lorsque le territoire statistique d'un pays coïncide avec son territoire économique. Par conséquent, les importations comprennent tous les biens admis sur le territoire du pays déclarant et les exportations comprennent tous les biens qui le quittent.

Le *Système du Commerce Spécial* est utilisé lorsque le territoire statistique ne comprend qu'une partie du territoire économique à l'intérieur de laquelle les biens peuvent être écoulés librement sans restriction douanière (zone de libre de circulation). Les importations comprennent tous les biens qui entrent dans la zone de libre circulation du pays déclarant et donc qui ont été dédouanés pour mise à la consommation; les exportations comprennent tous les biens qui en sortent. Toutefois, les biens importés en vue d'un perfectionnement actif ainsi que les biens qui entrent ou qui sortent d'une zone franche industrielle ne sont pas enregistrés. Sont également exclus, les produits résultant du perfectionnement actif.

Pour de plus amples explications se référer à la publication des Nations Unies, *Statistiques du commerce international de marchandises: Concepts et définitions, Série M, n° 52, Révision 2*.

Les flux du commerce présentés dans ce tableau se réfèrent au Système du commerce général à l'exception des pays et territoires qui utilisent le Système du commerce spécial et dont la liste suit:

Algérie; Antilles néerlandaises; Arabie saoudite; Argentine; Arménie; Autriche; Belgique; Belgique-Luxembourg; Bénin; Bosnie-Herzégovine; Botswana; Brunéi Darussalam; Bulgarie; Burundi; Cameroun; Chili; Comores; Congo; Costa Rica; Côte d'Ivoire; Cuba; Danemark; Dominique; Egypte; El Salvador; Espagne; France; Gabon; Grenade; Grèce; Guadeloupe; Guatemala; Guyana; Guyane française; Honduras; Hongrie; Îles Salomon; Iran, Rép. islamique d'; Iraq; Israël; Italie; Kazakhstan; Koweït; Lettonie; Libéria; Luxembourg; Macédoine, LERY; Madagascar; Mali; Maroc; Martinique; Mauritanie; Montserrat; Niger; Nouvelle-Calédonie; Ouzbékistan; Panama; Pérou; Pologne; Polynésie française; Portugal; Qatar; Rép. dém. du Congo; Rép. dém. populaire lao; République arabe syrienne; République centrafricaine; République dominicaine; République tchèque; Réunion; Roumanie; Saint-Kitts-et-Nevis; Saint-Vincent-et-les Grenadines; Sainte-Lucie; Samoa; Samoa américaines; Sao Tomé-et-Principe; Serbie-et-Monténégro; Sierra Leone; Slovaquie; Slovaquie; Slovaquie; Suisse; Tchad; Thaïlande; Togo; Trinité-et-Tobago; Turquie; Ukraine; Viet Nam; Yémen; Zambie.

- 1 Avant 1985, Commerce général.
- 2 A partir de 1996, les données de la France incluent celles de la Guadeloupe, la Guyane française, la Martinique et la Réunion.
- 3 Les données relatives à la période antérieure à juillet 1990 correspondent aux limites territoriales de la République fédérale d'Allemagne d'avant le 3 octobre 1990.
- 4 Non compris les importations militaires.
- 5 A partir de 1985, les chiffres ne sont pas comparables à ceux des années antérieures à cause de révisions du taux de change de la couronne par rapport au dollar des États-Unis.

1.1A Value of exports and imports by region and country

- 6 Prior to 1994, covers only trade with countries outside the CIS.
- 7 From 1990 onwards, trade statistics exclude certain oil and chemical products.
- 8 Inter-trade between the countries of the Customs Union (UDEAC) is excluded.
- 9 Prior to 1993, data refer to Ethiopia (former), including Eritrea.
- 10 Prior to 1998, data refer to the South African Common Customs Area, which includes Botswana, Lesotho, Namibia, South Africa and Swaziland. Beginning in 1998, trade data refer to South Africa only, excluding intra-trade of the South African Common Customs Area.
- 11 Prior to 1990, data refer to Yemen, Arab Republic (former) and Yemen, Democratic Republic (former).
- 12 Excluding imports of goods financed through foreign aid.
- 13 Inter-trade between the States of Malaysia included.
- 14 Excluding military imports and offshore installations of petroleum industry.
- 15 Including trans-shipments to and from peninsular Malaysia.
- 16 Prior to 1998, data refer to the Federation of Bosnia and Herzegovina only. The other entity of Bosnia and Herzegovina, Republika Srpska, is not included.

1.1A Valeur des exportations et des importations par régions et par pays

- 6 Avant 1994, concerne seulement le commerce avec les pays extérieurs à la CEI.
- 7 A partir de 1990, certains produits pétroliers et chimiques ne sont plus inclus dans les statistiques du commerce.
- 8 Non compris le commerce entre les pays de l'Union douanière (UDEAC).
- 9 Avant 1993, les données se réfèrent à l'Ethiopie (anc.) y compris l'Erythrée.
- 10 Avant 1998 les données du commerce se réfèrent à l'Union douanière de l'Afrique Australe qui comprend Botswana, Lesotho, Namibie, Afrique du Sud et Swaziland. A partir de 1998, les données se réfèrent uniquement à l'Afrique du Sud et excluent le commerce interne de l'Union.
- 11 Avant 1990, les données se réfèrent à la République arabe du Yémen (anc.) et la République démocratique du Yémen (anc.).
- 12 Non compris les biens d'importation financés par l'aide à l'étranger.
- 13 Y compris le commerce entre les Etats de la Malaisie.
- 14 Non compris les importations militaires et les installations près des côtes de l'industrie pétrolière.
- 15 Y compris les transbordements à destination et en provenance de la Malaisie péninsulaire.
- 16 Avant 1998, les données se réfèrent uniquement à la Fédération de Bosnie-Herzégovine. L'autre entité de la Bosnie-Herzégovine, Republika Srpska, n'est pas incluse.

Land-locked countries	57	-593	-2388	-3526	-4057	-5791	-6700	-4133	-5288

Sources: Data are derived from figures reported in table 1.1 of the UNCTAD Handbook of Statistics 2004 on CD-ROM.

Notes: For those countries which report their imports on an f.o.b. basis, the trade balance shown is on an f.o.b./f.o.b. basis. The regional trade balances are the sums of the reported trade balances for the relevant individual countries. A negative sign indicates a deficit of the trade balance.

Sources : Les données ont été calculées d'après les chiffres du tableau 1.1 du Manuel de statistiques de la CNUCED 2004 sur CD-ROM.

Notes : Lorsque les pays ont fourni leurs importations sur la base f.a.b., la balance commerciale de chaque pays est présentée sur la base f.a.b./f.a.b. Les balances commerciales régionales sont calculées à partir des balances commerciales des pays correspondants. Un signe négatif indique un déficit de la balance commerciale.

1.4 Intra-trade of regional and trade groups

Sources: The prices used in the calculation of the indices shown in this table are extracted from the UNCTAD *Commodity Price Bulletin* and its *Monthly Updates*.

Notes: The group indices have been initially based on 1985 and include all commodities shown except for those with an asterisk (*).
For the group indices based on 1985, please refer to the *UNCTAD Handbook of Statistics 2004 on CD-ROM*.
The average annual indices are calculated from monthly data and may not correspond to the average from quarterly data.

- 1 Dollars per metric ton (if not indicated otherwise)
- 2 Cents per pound
- 3 Cents per kilogram
- 4 1993 level
- 5 Dollars per 100 kilograms
- 6 1996 level
- 7 1991 level
- 8 Dollars per cubic meter
- 9 Cents per sheet
- 10 Cents per Fe unit
- 11 Dollars per metric ton unit of WO₃
- 12 Dollars per troy ounce
- 13 Cents per troy ounce
- 14 Dollars per barrel

2.2 Annual and quarterly indices of free-market prices of selected primary commodities 1990 = 100

Specifications

Food

1. Wheat: Argentina, Trigo Pan Upriver, f.o.b.
2. Wheat: United States, No. 2, Hard Red Winter (ordinary), f.o.b. Gulf ports.
3. Maize: Argentina, Rosario, f.o.b., 1987=100.
4. Maize: United States, No. 3 yellow, f.o.b. Gulf ports. For historical series of US No. 3, please refer to c.i.f. Rotterdam in the CD Rom.
5. Rice: Thailand, white milled, 5% broken, f.o.b. Bangkok.
6. Sugar: Caribbean ports, f.o.b. bulk basis (I.S.A.).
7. Beef: Australia and New-Zealand, frozen and boneless, 85% visible lean, f.o.b. United States ports.
8. Bananas: Central America and Ecuador, fresh, f.o.b. United States ports.
9. Pepper: White Sarawak/Muntok, spot London. Prior to January 2003, Singapore.
10. Soybean meal: Hamburg, 44/45%, f.o.b. ex-mill.
11. Fish meal: Any origin, 64/65 %, cost and freight Hamburg.

Tropical beverages

12. Coffee: Colombian mild Arabicas, ex-dock New York (I.C.A.).
13. Coffee: Brazilian and other natural Arabicas, ex-dock New York (I.C.A.).
14. Coffee: Other mild Arabicas, ex-dock New York (I.C.A.).
15. Coffee: Robustas, ex-dock New York (I.C.A.).
16. Coffee: Composite indicator price 1976 (I.C.A.).
17. Cocoa: Average of daily prices, New York/London, 3-month futures (I.C.C.A.).
18. Tea: London auction prices (all tea).
London auctions ceased on 29 June 1998.
19. Tea: Mombasa auction prices, Best Pekoe Fannings 1, 1993=100.

Vegetable oils and oilseeds

20. Soybeans: United States, No. 2 yellow, c.i.f. Rotterdam.
21. Soybean oil: Any origin, crude oil, Dutch, f.o.b. ex-mill.
22. Sunflower oil: European Union, f.o.b. N.W. European ports.
23. Groundnut oil: Any origin, c.i.f. Rotterdam.
24. Copra: Philippines/Indonesia, bulk, c.i.f. N.W. European ports.
25. Coconut oil: Philippines/Indonesia, c.i.f. Rotterdam.
26. Palm kernel oil: Malaysia, c.i.f. Rotterdam.
27. Palm oil: Indonesia/Malaysia, 5%, c.i.f. N.W. European ports.

Agricultural raw materials

28. Linseed oil: Any origin, ex-tank, c.i.f. Rotterdam.
29. Tobacco: Unmanufactured tobacco, US general import price.
30. Cotton: Sudan, Barakat, X4B, c.i.f. North Europe.
31. Cotton: United States, Memphis Territory, M 1-3/32", c.i.f. North Europe.
32. Cotton: United States; New Orleans/Texas, Middling 1", c.i.f. North Europe.
33. Cotton: Pakistan, Sind/Punjab, Afzal 1-1/32", c.i.f. North Europe.
34. Cotton: Cotton Outlook Index A, Middling 1-3/32", c.i.f. North Europe.
35. Cotton: Egypt, Giza 70, good + 3/8, f.o.b. Alexandria.
36. Wool: United Kingdom and Dominions, clean: 64's (dry-combed basis).
37. Wool: Australia, 19 microns, 1996=100.
38. Wool: United Kingdom and Dominions, clean: 48's (dry-combed basis).
39. Wool: Australia, 23 microns, 1996=100.
40. Jute: Bangladesh, B.W.D., f.o.b. Chittagong-Chalna/Mongla.
41. Sisal: Tanzania/Kenya, No. 2 & 3 long, c.i.f. European ports. Prior to 1997, c.i.f. London.
42. Sisal: Tanzania/Kenya, No. 3 & UG, c.i.f. European ports. Prior to 1997, c.i.f. London.
43. Hides: East Africa, 8/12 pounds.
44. Hides: US, Chicago packer's heavy native steers, wholesale dealer's price, f.o.b. shipping point.
45. Non-coniferous woods: United Kingdom, import price index 2000 = 100, dollar equivalent.
46. Tropical logs: Sapele, loyal and marchand, UK import price. Prior to June 2000, Cameroon f.o.b.
47. Tropical sawnwood: Malaysia, Dark Red Meranti, select and better, c.i.f. French ports.
48. Plywood: Southeast Asian, Lauan, 3-ply, Extra, 182 cm x 91 cm x 4 mm, wholesale price, spot Tokyo.
49. Rubber: Singapore, No. 1 RSS, f.o.b. in bales.

Minerals, ores and metals

50. Phosphate rock: Khouribga, 70-72% BPL, f.a.s. Casablanca.
51. Manganese ore: Metallurgical 48/50% Mn content, f.o.b. United Kingdom.
52. Iron ore: Brazilian to Europe, fines, C.V.R.D., f.o.b.
53. Iron ore: Australian to Japan, fines, Hamersley, f.o.b.
54. Aluminium: London Metal Exchange, high grade, cash.
55. Copper: London Metal Exchange, grade A, cash.
56. Copper: United States producer, wire bars, f.o.b. refinery.
57. Nickel: London Metal Exchange, cash.
58. Nickel: New York dealer, 4x4 cathodes, free market.

2.2 Indices annuels et trimestriels des prix de certains produits de base sur le marché libre 1990 = 100

Spécifications

Produits alimentaires

1. Blé: Argentine, Trigo Pan Upriver, f.a.b.
2. Blé: Etats-Unis, Hard Red Winter, n° 2 (ordinaire), f.a.b. ports du Golfe.
3. Maïs: Argentine, Rosario, f.a.b., 1987=100.
4. Maïs: Etats-Unis, jaune n° 3, f.a.b. ports du Golfe. Voir CD Rom pour série chronologique E-U, n° 3, c.a.f. Rotterdam.
5. Riz: Thaïlande, blanchi, 5% brisures, f.a.b. Bangkok.
6. Sucre: Ports des Caraïbes, f.a.b. en vrac (A.I.S.).
7. Viande de boeuf: Australie et Nouvelle-Zélande, désossée et congelée, maigres à 85% visibles, f.a.b. ports des Etats-Unis.
8. Bananes: Amérique centrale et Equateur, fraîches, f.a.b. ports des Etats-Unis.
9. Poivre: Sarawak blanc/Muntok, cours du disponible à Londres. Avant janvier 2003, Singapour.
10. Farine de soja: Hamburg, 44/45%, f.a.b. départ moulin.
11. Farine de poisson: Toutes origines, 64/65 %, coût et fret Hamburg.

Boissons tropicales

12. Café: Arabicas doux colombiens, ex-dock New York (A.I.C.).
13. Café: Brésilien et autres Arabicas naturels, ex-dock New York (A.I.C.).
14. Café: Autres Arabicas doux, ex-dock New York (A.I.C.).
15. Café: Robustas, ex-dock New York (A.I.C.).
16. Café: Prix indicatif composite de 1976 (A.I.C.).
17. Cacao: Moyenne des cours quotidiens New York/Londres, 3 mois à terme (A.I.C.C.).
18. Thé: Cours aux enchères à Londres (toutes catégories de thé).
Les enchères de Londres ont cessé le 29 juin 1998.
19. Thé: Cours aux enchères à Mombasa, Best Pekoe Fannings 1, 1993=100.

Huiles végétales et graines oléagineuses

20. Fèves de soja: Etats-Unis, n° 2 jaune, c.a.f. Rotterdam.
21. Huile de soja: Toutes origines, huile brute, f.a.b. Pays-Bas, départ raffinerie.
22. Huile de tournesol: Union européenne, f.a.b. ports de l'Europe du Nord-Ouest.
23. Huile d'arachide: Toutes origines, c.a.f. Rotterdam.
24. Coprah: Philippines/Indonésie, en vrac, c.a.f. ports de l'Europe du Nord-Ouest.
25. Huile de coprah: Philippines/Indonésie, c.a.f. Rotterdam.
26. Huile de palmiste: Malaisie, c.a.f. Rotterdam.
27. Huile de palme: Indonésie/Malaisie, 5 %, c.a.f. ports de l'Europe du Nord-Ouest.

Matières premières d'origine agricole

28. Huile de lin: Toutes origines, cours du disponible, c.a.f. Rotterdam.
29. Tabac: Tabac non fabriqué, prix général à l'importation aux Etats-Unis.
30. Coton: Soudan, Barakat, classe X4B, c.a.f. Europe du Nord.
31. Coton: Etats-Unis, Territoire de Memphis, M 1-3/32", c.a.f. Europe du Nord.
32. Coton: Etats-Unis, La Nouvelle-Orléans/Texas, Middling 1", c.a.f. Europe du Nord.
33. Coton: Pakistan, Sind/Punjab, Afzal 1-1/32", c.a.f. Europe du Nord.
34. Coton: Indice A de "Cotton Outlook", Middling 1-3/32", c.a.f. Europe du Nord.
35. Coton: Egypte, Giza 70, good + 3/8, f.a.b. Alexandria.
36. Laine: Royaume-Uni et dominions, laine de 64', lavée et peignée à sec.
37. Laine: Australie, 19 microns, 1996=100.
38. Laine: Royaume-Uni et dominions, laine de 48', lavée et peignée à sec.
39. Laine: Australie, 23 microns, 1996=100.
40. Jute: Bangladesh, B.W.D., f.a.b. Chittagong-Chalna/Mongla.
41. Sisal: Tanzanie/Kenya, n° 2 & 3 long, c.a.f. ports européens. Avant 1997, c.a.f. Londres.
42. Sisal: Tanzanie/Kenya, n° 3 & UG, c.a.f. ports européens. Avant 1997, c.a.f. Londres.
43. Peaux: Afrique de l'Est, 8/12 livres.
44. Peaux: Etats-Unis, bouvillons abattus à Chicago, prix de gros, f.a.b. point d'expédition.
45. Bois non conifères: Royaume-Uni, indice des prix à l'importation 2000 = 100, équivalent dollar.
46. Grumes tropicales: Sapelli, loyal et marchand, prix d'importation au Royaume-Uni. Avant juin 2000, Cameroun, f.a.b.
47. Grumes tropicales sciées: Malaisie, Meranti rouge foncé, select and better, c.a.f. ports français.
48. Contre-plaqué: Asie du Sud-Est, Lauan, 3-feuilles, extra, 182 cm x 91 cm x 4 mm, prix de gros, cours du disponible à Tokyo.
49. Caoutchouc: Singapour, n° 1 RSS, f.a.b. en balles.

Minéraux, minerais et métaux

50. Phosphate brut: Khouribga, 70-72% BPL, f.a.s. Casablanca.
51. Minerai de manganèse: 48/50% teneur en Mn, f.a.b. Royaume-Uni.
52. Minerai de fer: Brésilien vers l'Europe, minerai fin, C.V.R.D., f.a.b.
53. Minerai de fer: Australien vers le Japon, minerai fin, Hamersley, f.a.b.
54. Aluminium: Bourse des métaux de Londres, haute qualité, cours au comptant.
55. Cuivre: Bourse des métaux de Londres, grade A, comptant.
56. Cuivre: Producteur Etats-Unis, barres à fil, f.a.b. sortie d'usine.
57. Nickel: Bourse des métaux de Londres, cours au comptant.
58. Nickel: Prix du négociant à New York, cathodes 4x4, marché libre.

2.2 Annual and quarterly indices of free-market prices of selected primary commodities

1990 = 100

59. Lead: London Metal Exchange, settlement and cash seller's price in warehouse, excluding duty, range main United Kingdom ports; purity 99.97% Pb.
60. Lead: North America, producer price, refined.
61. Zinc: London Metal Exchange, cash settlement.
62. Zinc: North America, high grade, daily weighted average, delivered basis.
63. Tin: London Metal Exchange, high grade, cash.
64. Tin: Ex-smelter price Kuala Lumpur market.
65. Tungsten: wolframite and scheelite, c.i.f. European ports, basis minimum 65% WO₃. Prior to April 1992, Wolfram.
66. Gold: United Kingdom, 99.5% fine, London afternoon fixing, average of daily rates.
67. Silver: Handy & Harman, 99.9% grade refined, average of daily quotations, New York.

MEMO ITEM:

68. Crude petroleum: Average of Dubai, United Kingdom Brent and West Texas crude prices, reflecting relatively equal consumption of medium, light and heavy crudes worldwide.
69. Manufactures export unit value: Developed economies, sections 5-8 of the Standard International Trade Classification (SITC), Revision 2, 1990 = 100.

2.2 Indices annuels et trimestriels des prix de certains produits de base sur le marché libre

1990 = 100

59. Plomb: Bourse des métaux de Londres, prix vendeur, à terme et au comptant, à l'entrepôt, droits non acquittés, principaux ports du Royaume-Uni; pureté: 99,97% Pb.
60. Plomb: Amérique du Nord, prix des producteurs, raffiné.
61. Zinc: Bourse des métaux de Londres, cours de vente au comptant.
62. Zinc: Amérique du Nord, haute qualité, moyenne pondérée des prix journaliers à la livraison.
63. Etain: Bourse des métaux de Londres, haute qualité, cours au comptant.
64. Etain: Prix départ fonderie, marché de Kuala Lumpur.
65. Tungstène: wolframite et scheelite, c.a.f. ports européens, minimum 65% de WO₃. Avant avril 1992, Wolfram.
66. Or: Royaume-Uni, 99,5% fin, cotation de l'après-midi à Londres, moyenne des taux journaliers.
67. Argent: Handy & Harman, 99,9% raffiné, moyenne des cotations journalières à New York.

POUR MEMOIRE :

68. Pétrole brut: moyenne des prix du Dubaï, Brent du Royaume-Uni et du Texas de l'Ouest, correspondant aux parts relatives de la consommation mondiale du brut moyen, léger et lourd.
69. Valeur unitaire des exportations de produits manufacturés: Economies développées, sections 5 à 8 de la Classification type pour le commerce international (CTCI), révision 2, 1990 = 100.

Structure of international trade by region

Sources: UNCTAD secretariat computations based on UN/DESA/Statistics Division's data.

General note:

Data in this table are not strictly comparable with the export and import data in table 1.1, mainly owing to more frequent revisions of the latter table.

Furthermore, certain adjustments made for total exports are not reflected in this table as it is not possible to distribute them by destination and commodity group.

The commodity classification is in accordance with the United Nations Standard International Trade Classification (SITC).

Data shown in these tables are based on official export figures converted to US dollars. Where official figures were not available, estimates have been based on imports reported by partner countries and on other subsidiary data.

The data have been adjusted: (a) to include estimates for countries and territories for which either no official data are available, or data are not classified according to the SITC; (b) to approximate calendar years; (c) where possible, to include ships' stores and bunkers in total exports. Except for a few countries, figures are in accordance with the Special Trade System.

It should be noted that while data in these tables show exports by destination, these data may differ considerably from data on imports as reported by countries of destination. The differences are accounted for by a variety of factors, of which the following may be of particular importance:

- (1) Most import data are reported on a c.i.f. rather than an f.o.b. basis.
- (2) Imports arrive at destination and are registered with some time-lag from the date they were recorded as exports.
- (3) There may be considerable differences between the recorded destination of exports and the actual destination as shown in import statistics. Similarly, the SITC classification used by the exporting country may differ from the one assigned by the importing country.
- (4) Both exports and imports may, for various reasons, be over- or under-invoiced (to avoid taxes or controls or to facilitate capital flight).

Despite efforts to allocate trade flows by destination, origin and commodity group, a margin of unallocated trade flows remains.

Footnotes:

1 Includes special category exports, ships' stores and bunkers and other exports of minor importance whose destination could not be determined.

Structure du commerce international par région

Sources : Calculs du secrétariat de la CNUCED basés sur des données de ONU/DAES/Division de statistique.

Remarques générales :

Les données présentées dans ce tableau ne sont pas strictement comparables à celles des exportations et importations du tableau 1.1, principalement en raison de la révision plus fréquente de ces dernières. De plus, certains ajustements apportés au total des exportations n'apparaissent pas dans le présent tableau du fait qu'il n'est pas possible de les répartir par destination et groupe de produits.

La classification par produits utilisée est la Classification type pour le commerce international (CTCI) des Nations Unies.

Les données présentées dans ce tableau sont fondées essentiellement sur des chiffres officiels d'exportation, convertis en dollars des Etats-Unis. Quand les chiffres officiels n'étaient pas disponibles, on a eu recours à des estimations basées sur les importations déclarées par les pays partenaires ou sur d'autres données subsidiaires.

Les données ont été ajustées pour : a) que soient incluses les estimations faites pour les pays ne fournissant pas de données officielles ou dont les données ne sont pas ventilées selon la CTCI; b) qu'elles correspondent aux années civiles; c) que les exportations de combustibles de soute et avitaillement des navires et aéronefs étrangers soient, dans la mesure du possible, comprises dans les totaux. À l'exception de quelques pays, les chiffres correspondent au commerce spécial.

Il faut relever que les données se rapportant aux exportations ventilées par destination présentées dans ces tableaux peuvent accuser un écart considérable par rapport aux données des importations déclarées par les pays destinataires. Cet écart est dû à divers facteurs dont les suivants sont d'une importance particulière :

1. Les importations sont déclarées en principe "valeur c.a.f." plutôt que "valeur f.a.b".
2. Les importations de marchandises peuvent arriver à destination et être enregistrées bien après la date de leur enregistrement à l'exportation.
3. D'importantes différences peuvent exister entre la destination des exportations déclarée par les pays exportateurs et la destination réelle telle qu' indiquée dans les statistiques d'importation. De même, une version différente de la CTCI peut avoir été utilisée par le pays exportateur et le pays importateur.
4. Les exportations et les importations peuvent, pour différentes raisons, avoir été sous-évaluées ou surévaluées (pour éviter le paiement de taxes, éviter leur contrôle ou faciliter la fuite de capitaux).

En dépit des efforts déployés pour répartir les flux commerciaux par destination, origine et groupes de produits, il subsiste encore une marge d'exportations et d'importations non distribuées.

Notes :

1 Y compris les exportations de catégorie spéciale, combustibles de soute et avitaillement des navires et aéronefs et autres exportations de moindre importance dont la destination n'a pas pu être déterminée.

Source: UNCTAD secretariat computations based on UN/DESA/Statistics Division's data.

In the case of tables 4.2A, B and C, columns (1) and (4) show export values f.o.b. in millions of dollars. Columns (2) and (5) show the percentage share of each commodity in the grouping total (i.e. "World" in table 4.2A, "Developed economies" in table 4.2B, and "Developing economies" in table 4.2C).

Columns (3) and (6) refer to the percentage share which the indicated value (for a particular commodity in a particular country grouping) represents in world total exports of that commodity. For the purpose of these tables, the world total for each commodity represents the sum of the exports of that commodity for each of the individual countries, adjusted to include estimates where data for 1990, 1991, 2001 or 2002 were not available.

Column (7) shows compound annual average growth rates, based on the values for the period 1990-2002.

Column (8) shows the amount by which the growth rate in column (7) differs from the corresponding average world growth for the particular commodity (as shown in table 4.2A).

In the case of tables 4.2D and 4.2E, column (1) shows export values f.o.b. in thousands of dollars. Column (2) shows, for each commodity presented, its percentage share in the individual country's export total.

In table 4.2D column (3) shows the relative importance of each commodity shown, expressed as a percentage share of the relevant grouping total for that commodity (i.e. "developed", which refers to developed economies; "developing", which refers to developing economies; or "South-East Europe & CIS", which refers to countries in South-East Europe and CIS. The symbol ** is defined for each country shown and indicates the grouping total to which the percentage share shown applies.

In the case of table 4.2E, column (3) refers only to the share of individual developing countries in the particular commodity total for all developing countries.

Column (4) refers to the percentage share which the value indicated (for a particular commodity in a particular country or country grouping) represents in world total exports of that commodity. The world total for each commodity, for the purpose of these tables, represents the sum of the exports of that commodity for each of the individual countries, adjusted to include estimates where data for 2001 and 2002 were not available.

While the groupings and world totals for each commodity (shown in tables 4.2A, B and C) are based on the most complete data available for each of the individual countries, the data actually shown in table 4.2 D have been limited to the 10 most important commodity exports for each country in cases where sufficient data were available. The value shown under "All commodity groups" correspond to the sum of all SITC 3-digit commodity groups' exports. In some instances, it may therefore be lower than the total value of exports shown in table 4.1A.

Source : Calculs du secrétariat de la CNUCED fondés sur des données de ONU/DAES/Division de statistique.

Dans le cas des tableaux 4.2A, B et C, les colonnes (1) et (4) présentent la valeur des exportations f.a.b. en millions de dollars. Les colonnes (2) et (5) présentent la part en pourcentage de chaque produit dans le total du groupement, c'est-à-dire «Monde» dans le tableau 4.2A, «Economies développées» dans le tableau 4.2B et «Economies en développement» dans le tableau 4.2C.

Les colonnes (3) et (6) se réfèrent à la part en pourcentage que la valeur indiquée (pour un produit déterminé dans un pays ou groupement de pays déterminés) représente dans le total des exportations mondiales de ce produit. Dans ces tableaux, le total mondial pour chaque produit représente la somme des exportations de ce produit pour chaque pays, ajustée pour y inclure des estimations lorsque les données de 1990, 1991, 2001 ou 2002 n'étaient pas disponibles.

La colonne (7) présente les taux d'accroissement annuel moyen, calculés d'après les valeurs pour la période 1990-2002.

La colonne (8) présente la différence en points entre le taux d'accroissement dans la colonne (7) et le taux d'accroissement moyen mondial pour le produit déterminé (comme indiqué dans le tableau 4.2A).

Dans le cas des tableaux 4.2D et 4.2E, la colonne (1) présente la valeur des exportations f.a.b. en milliers de dollars. La colonne (2) montre, pour chaque produit indiqué, sa part en pourcentage dans le total des exportations du pays concerné.

Dans le tableau 4.2D la colonne (3) présente l'importance relative de chaque produit indiqué, présenté en termes de pourcentage du total du groupement auquel le pays appartient («*developed*» se réfère aux économies développées, «*developing*» aux économies en développement, et «*South-East Europe & CIS*» aux pays de l'Europe du Sud-Est et CEI). Le symbole ** est défini pour chaque pays inclus et se réfère au groupement auquel la part en pourcentage donnée correspond.

Dans le cas du tableau 4.2E, la colonne (3) se rapporte seulement à la part de chaque pays en développement dans le total des exportations des pays en développement du produit déterminé.

La colonne (4) se réfère à la part en pourcentage que la valeur indiquée (pour un produit déterminé dans un pays ou groupement de pays déterminés) représente dans le total des exportations mondiales de ce produit. Dans ces tableaux, le total mondial pour chaque produit représente la somme des exportations de ce produit pour chaque pays, ajustée pour inclure des estimations lorsque les données de 2001 et 2002 n'étaient pas disponibles.

Les totaux du monde ou des groupements de pays pour chaque produit (figurant dans les tableaux 4.2A, B et C) sont fondés sur toutes les données disponibles pour chaque pays, alors que les chiffres présentés dans le tableau 4.2 D ont été limités aux 10 produits majeurs exportés pour chaque pays, lorsque les données étaient disponibles. La valeur indiquée sous l'intitulé "All commodity groups" (Tous groupes de produits) correspond à la somme des exportations disponibles au niveau des groupes de produits à 3 chiffres de la CTIC. Dans certains cas cette valeur peut, par conséquent, être inférieure à la valeur totale des exportations indiquée dans le tableau 4.1A.

For convenience, the “remainder” (i.e. all commodities other than the ones explicitly shown in the table) is given in table 4.2D. The relatively large size of this remainder in the case of the developed economies, the more advanced developing economies and the countries in South-East Europe and CIS results from the higher degree of diversification of exports.

In the case of some of the developing economies and some of the countries in South-East Europe and CIS, a high remainder may indicate incomplete data on the commodity structure, with a relatively large “unallocated” share. (See also table 4.1A.)

Table 4.2E shows 10 leading developing exporting countries for each of the 70 commodity groups, selected on the basis of ranking by value presented in table 4.2C. In addition, the sub-table on each commodity group shows the world total, the total exports from developed market economy countries and developing countries and territories.

Special transactions and commodities not classified according to kind falling within SITC Rev. 2 group 931 may include confidential data.

The French equivalent of the country names shown in table 4.2E can be found in table 4.2D. The French equivalent for the 3-digit SITC classification shown in the series of tables 4.2 may be found in the *English/French Glossary of 3-digit SITC Commodity Groups*, included after these *Explanatory Notes*.

Note for tables in part 4:

The figures shown refer in general to special or national trade. They may therefore differ from those in table 1.1A.

Pour plus de commodité, le «*remainder*» (reste) est indiqué dans le tableau 4.2D (il représente l'ensemble des produits autres que ceux explicitement inscrits au tableau). La relative importance de ce reste dans le cas des économies développées, des pays les plus avancés parmi les économies en développement ainsi que des pays de l'Europe du Sud-Est et de la CEI, résulte du très haut degré de diversification de leurs exportations.

Dans le cas de certains pays en développement et de pays de l'Europe du Sud-Est et CEI, un reste élevé peut indiquer des données incomplètes sur la structure des produits, avec une part «non distribuée» relativement élevée. (Voir également le tableau 4.1A.)

Le tableau 4.2E présente les 10 principaux pays en développement exportateurs pour chacun des 70 groupes de produits, sélectionnés sur la base du classement par valeur présenté dans le tableau 4.2C. De plus, le sous-tableau de chaque groupe de produits fait apparaître le total mondial, le total des exportations des pays développés à économie de marché et des pays et territoires en développement.

Les transactions spéciales et articles non classés par catégories inscrites au groupe 931 de la CTCl Rev. 2 peuvent inclure des données confidentielles.

Pour la traduction des noms des pays présentés dans le tableau 4.2E, se reporter au tableau 4.2D. Pour la traduction des groupes de la CTCl (position à trois chiffres) présentés dans la série de tableaux 4.2, se reporter au *Glossaire anglais/français de la CTCl au niveau des groupes de produits (position à trois chiffres)*, qui apparaît après ces *Notes explicatives*.

Note relative aux tableaux de la partie 4 :

Les données présentées correspondent en général au commerce spécial ou national. Elles peuvent, par conséquent, dans certains cas, être différentes de celles présentées dans le tableau 1.1A.

Section 0 Food and live animals.

- 001 Live animals chiefly for food.
- 011 Meat and edible meat offals, fresh, chilled or frozen.
- 012 Meat and edible meat offals (except poultry liver), salted, in brine, dried or smoked.
- 014 Meat and edible meat offals, prepared or preserved, n.e.s.; fish extracts.
- 022 Milk and cream.
- 023 Butter.
- 024 Cheese and curd.
- 025 Eggs and yolks, fresh, dried or otherwise preserved, sweetened or not.
- 034 Fish, fresh (live or dead), chilled or frozen.
- 035 Fish, dried, salted or in brine; smoked fish.
- 036 Crustaceans and molluscs, fresh, chilled, frozen, salted, in brine or dried.
- 037 Fish, crustaceans and molluscs, prepared or preserved, n.e.s.
- 041 Wheat (including spelt) and meslin, unmilled.
- 042 Rice.
- 043 Barley, unmilled.
- 044 Maize (corn), unmilled.
- 045 Cereals, unmilled (other than wheat, rice, barley and maize).
- 046 Meal and flour of wheat and flour of meslin.
- 047 Other cereal meals and flours.
- 048 Cereal preparations and preparations of flour or starch of fruits or vegetables.
- 054 Vegetables, fresh, chilled, frozen or simply preserved; roots, tubers.
- 056 Vegetables, roots and tubers, prepared or preserved, n.e.s.
- 057 Fruit and nuts (not including oil nuts), fresh or dried.
- 058 Fruit, preserved, and fruit preparations.
- 061 Sugar and honey.
- 062 Sugar confectionery and other sugar preparations.
- 071 Coffee and coffee substitutes.
- 072 Cocoa.
- 073 Chocolate and other food preparations with cocoa.
- 074 Tea and maté.
- 075 Spices.
- 081 Feed stuff for animals (not including unmilled cereals).
- 091 Margarine and shortening.
- 098 Edible products and preparations, n.e.s.

Section 1 Beverages and tobacco.

- 111 Non-alcoholic beverages, n.e.s.
- 112 Alcoholic beverages.
- 121 Tobacco, unmanufactured; tobacco refuse.
- 122 Tobacco, manufactured.

Section 0 Produits alimentaires et animaux vivants.

- 001 Animaux vivants destinés à l'alimentation humaine.
- 011 Viandes et abats comestibles, frais, réfrigérés ou congelés.
- 012 Viandes et abats comestibles (sauf foies de volailles), salés, séchés ou fumés.
- 014 Préparations ou conserves de viandes, n.d.a.; extraits de poisson.
- 022 Lait et crème de lait.
- 023 Beurre.
- 024 Fromage et caillebotte.
- 025 Oeufs et jaunes d'oeufs, frais, séchés ou autrement conservés, sucrés ou non.
- 034 Poissons frais (vivants ou morts), réfrigérés ou congelés.
- 035 Poissons séchés, salés ou en saumure; poissons fumés.
- 036 Crustacés, mollusques et coquillages, frais, réfrigérés, congelés ou séchés.
- 037 Poissons, crustacés et mollusques, préparés ou conservés, n.d.a.
- 041 Froment (y compris l'épeautre) et méteil non moulus.
- 042 Riz.
- 043 Orge non mondée.
- 044 Maïs non moulu.
- 045 Céréales non moulues autres que froment, riz, orge et maïs.
- 046 Semoule et farine de froment et farine de méteil.
- 047 Autres semoules et farines de céréales.
- 048 Préparations à base de céréales, farines et féculs de fruits ou de légumes.
- 054 Légumes, frais, congelés, racines et tubercules.
- 056 Légumes, racines et tubercules, préparés ou conservés, n.d.a.
- 057 Fruits (sauf fruits oléagineux), frais ou secs.
- 058 Préparations et conserves de fruits.
- 061 Sucres et miel.
- 062 Sucreries et autres préparations, non compris la confiserie au chocolat.
- 071 Café et succédanés du café.
- 072 Cacao.
- 073 Chocolat et autres préparations contenant du cacao.
- 074 Thé et maté.
- 075 Épices.
- 081 Nourriture pour animaux (sauf céréales non moulues).
- 091 Margarine et graisses culinaires.
- 098 Produits et préparations alimentaires, n.d.a.

Section 1 Boissons et tabacs.

- 111 Boissons non alcooliques, n.d.a.
- 112 Boissons alcooliques.
- 121 Tabacs, non fabriqués; déchets de tabac.
- 122 Tabacs fabriqués.

Section 2 Crude materials, inedible, except fuels.

- 211** Hides and skins (except fur skins), raw.
212 Fur skins, raw (including astrakhan, caracul and similar skins).
222 Oil-seeds and oleaginous fruit, whole or broken (excluding flours and meals).
223 Oil-seeds and oleaginous fruit, whole or broken (non-defatted flours and meals).
232 Natural rubber latex; natural rubber and similar natural gums.
233 Synthetic rubber latex; synthetic rubber and reclaimed rubber; waste and scrap.
244 Cork, natural, raw and waste (including in blocks or sheets).
245 Fuel wood (excluding wood waste) and wood charcoal.
246 Pulpwood (including chips and wood waste).
247 Other wood in the rough or roughly squared.
248 Wood, simply worked, and railway sleepers of wood.
251 Pulp and waste paper.
261 Silk.
263 Cotton.
264 Jute and other textile bast fibres, n.e.s., raw or processed.
265 Vegetable textile fibres and waste of such fibres.
266 Synthetic fibres suitable for spinning.
267 Other man-made fibres suitable for spinning and waste.
268 Wool and other animal hair (excluding wool tops).
269 Old clothing and other old textile articles; rags.
271 Fertilizers, crude.
273 Stone, sand and gravel.
274 Sulphur and unroasted iron pyrites.
277 Natural abrasives, n.e.s (including industrial diamonds).
278 Other crude minerals.
281 Iron ore and concentrates.
282 Waste and scrap metal of iron or steel.
286 Ores and concentrates of uranium and thorium.
287 Ores and concentrates of base metals, n.e.s.
288 Non-ferrous base metal waste and scrap, n.e.s.
289 Ores and concentrates of precious metals; waste and scrap.
291 Crude animal materials, n.e.s.
292 Crude vegetable materials, n.e.s.

Section 2 Matières brutes non comestibles, carburants non compris.

- 211** Cuir et peaux (non compris les pelleteries), bruts.
212 Pelleteries brutes (y compris astrakan, caracul et peaux similaires).
222 Graines et fruits oléagineux (non compris les farines).
223 Graines et fruits oléagineux (y compris les farines).
232 Latex de caoutchouc naturel; caoutchouc et gommes naturelles.
233 Latex de caoutchouc synthétique et régénéré; déchets et débris.
244 Liège naturel brut et déchets (y compris en bloc ou en feuilles).
245 Bois de chauffage (non compris les déchets) et charbon de bois.
246 Bois de trituration (y compris les plaquettes et déchets).
247 Autres bois bruts ou simplement équarris.
248 Bois, simplement travaillés, et traverses pour voies ferrées.
251 Pâtes à papier et déchets de papier.
261 Soie.
263 Coton.
264 Jute et autres fibres textiles libériennes, n.d.a., bruts ou autrement traités.
265 Fibres végétales, autres que le coton et le jute.
266 Fibres synthétiques de longueur suffisante pour être filées.
267 Autres fibres textiles synthétiques de longueur suffisante pour être filées.
268 Laines et poils fins ou grossiers (non compris les rubans).
269 Friperie, drilles et chiffons.
271 Engrais bruts.
273 Pierres, sables et graviers.
274 Soufre et pyrites de fer non grillées.
277 Abrasifs naturels, n.d.a. (y compris les diamants industriels).
278 Autres minéraux bruts.
281 Minerais de fer et concentrés.
282 Ferrailles, déchets et débris de fonte, de fer ou d'acier.
286 Minerais d'uranium et de thorium, même enrichis.
287 Minerais de métaux communs, même enrichis, n.d.a.
288 Déchets et débris de métaux communs non ferreux, n.d.a.
289 Minerais de métaux précieux; cendres d'orfèvre.
291 Matières brutes d'origine animale, n.d.a.
292 Matières brutes d'origine végétale, n.d.a.

Section 3 Mineral fuels, lubricants and related materials.

- 322 Coal, lignite and peat.
- 323 Briquettes; coke and semi-coke of coal, lignite or peat.

- 333 Petroleum oils, crude, and crude oils obtained from bituminous minerals.
- 334 Petroleum products, refined.
- 335 Residual petroleum products, n.e.s., and related materials.

- 341 Gas, natural and manufactured.
- 351 Electric current.

Section 4 Animal and vegetable oils and fats.

- 411 Animal oils and fats.

- 423 Fixed vegetable oils, soft, crude, refined or purified.
- 424 Other fixed vegetable oils, fluid or solid, crude, refined or purified.

- 431 Animal and vegetable oils and fats, processed and waxes.

Section 5 Chemicals.

- 511 Hydrocarbons, n.e.s., and their halogenated, sulphonated, nitrated or nitrosated derivatives.
- 512 Alcohols, phenols, and their derivatives.
- 513 Carboxylic acids, and their anhydrides, halides, and derivatives.
- 514 Nitrogen-function compounds.
- 515 Organo-inorganic and heterocyclic compounds.
- 516 Other organic chemicals.

- 522 Inorganic chemical elements, oxides and halogen salts.
- 523 Other inorganic chemicals.
- 524 Radioactive and associated materials.

- 531 Synthetic organic dyestuffs, etc., natural indigo and colour lakes.
- 532 Dyeing and tanning extracts; synthetic tanning materials.
- 533 Pigments, paints, varnishes and related materials.

- 541 Medicinal and pharmaceutical products.

- 551 Essential oils, perfume and flavour materials.
- 553 Perfumery, cosmetics and toilet preparations.
- 554 Soap, cleansing and polishing preparations.

- 562 Fertilizers, manufactured.

- 572 Explosives and pyrotechnic products.

Section 3 Combustibles minéraux, lubrifiants et produits connexes.

- 322 Houilles, lignites et tourbe.
- 323 Briquettes; coques et semi-coques de houille, lignite et tourbe.

- 333 Huiles brutes de pétrole ou de minéraux bitumineux.
- 334 Produits raffinés du pétrole.
- 335 Produits résiduels du pétrole, n.d.a., et produits connexes.

- 341 Gaz naturel et gaz manufacturé.
- 351 Énergie électrique.

Section 4 Huiles et graisses d'origine animale ou végétale.

- 411 Huiles et graisses d'origine animale.

- 423 Huiles végétales fixes, douces, brutes, épurées ou raffinées.
- 424 Autres huiles végétales fixes.

- 431 Huiles et graisses animales et végétales, préparées et cires.

Section 5 Produits chimiques.

- 511 Hydrocarbures, n.d.a., et leurs dérivés halogénés, sulfonés, nitrés et nitrosés.
- 512 Alcools, phénols, et leurs dérivés halogénés.
- 513 Acides carboxyliques, leurs anhydrides, halogénures et dérivés.
- 514 Composés à fonctions azotées.
- 515 Composés organo-minéraux et composés hétérocycliques.
- 516 Autres produits chimiques organiques.

- 522 Produits chimiques inorganiques; oxydes et sels halogénés.
- 523 Autres produits chimiques inorganiques.
- 524 Matières radioactives et produits associés.

- 531 Matières colorantes organiques synthétiques, etc., indigo naturel et laques colorantes.
- 532 Extraits utilisés pour la teinture et le tannage.
- 533 Pigments, peintures, vernis et produits connexes.

- 541 Produits médicaux et pharmaceutiques.

- 551 Huiles essentielles, produits utilisés en parfumerie et confiserie.
- 553 Produits de parfumerie ou de toilette préparés et cosmétiques.
- 554 Savons, produits détersifs et d'entretien.

- 562 Engrais manufacturés.

- 572 Explosifs et articles de pyrotechnie.

Section 5 Chemicals (continued).

- 582 Condensation, polycondensation and polyaddition products.
- 583 Polymerization and copolymerization products.
- 584 Regenerated cellulose; cellulose nitrate and other cellulose esters.
- 585 Other artificial resins and plastic materials.

- 591 Disinfectants, insecticides, fungicides, weedkillers.
- 592 Starches, inulin and wheat gluten, albuminoidal substances.
- 598 Miscellaneous chemical products, n.e.s.

Section 6 Manufactured goods classified chiefly by material.

- 611 Leather.
- 612 Manufactures of leather or composition leather, n.e.s.
- 613 Fur skins, tanned or dressed, pieces or cuttings of fur skin.

- 621 Materials of rubber (pastes, plates, sheets).
- 625 Rubber tyres, tyre cases, for wheels of all kinds.
- 628 Articles of rubber, n.e.s.

- 633 Cork manufactures.
- 634 Veneers, plywood, improved or reconstituted wood.
- 635 Wood manufactures, n.e.s.

- 641 Paper and paperboard.
- 642 Paper and paperboard, cut to size or shape.

- 651 Textile yarn.
- 652 Cotton fabrics, woven.
- 653 Fabrics, woven, of man-made fibres.
- 654 Textile fabrics, woven, other than cotton man-made fibres.
- 655 Knitted or crocheted fabrics.
- 656 Tulle, lace, embroidery, and small wares.
- 657 Special textile fabrics and related products.
- 658 Made-up articles wholly or chiefly of textile materials.
- 659 Floor coverings.

- 661 Lime, cement, and fabricated construction materials.
- 662 Clay construction materials and refractory construction materials.
- 663 Mineral manufactures, n.e.s.
- 664 Glass
- 665 Glassware
- 666 Pottery
- 667 Pearls, precious and semi-precious stones, unworked or worked.

- 671 Pig iron, spiegeleisen, sponge iron, iron or steel.
- 672 Ingots and other primary forms of iron or steel.
- 673 Iron and steel bars, rods, angles, shapes and sections.
- 674 Universals, plates and sheets, of iron or steel.
- 675 Hoop and strip, of iron or steel, hot-rolled or cold-rolled.
- 676 Rails and railway track construction material.
- 677 Iron or steel wire, whether or not coated.
- 678 Tubes, pipes and fittings, of iron or steel.
- 679 Iron and steel castings, forgings and stampings; rough.

Section 5 Produits chimiques (suite).

- 582 Produits de condensation, polycondensation et polyaddition.
- 583 Produits de polymérisation et copolymérisation.
- 584 Cellulose régénérée; nitrates, acétates et autres esters.
- 585 Autres résines artificielles et matières plastiques.

- 591 Désinfectants, insecticides, fongicides, herbicides.
- 592 Amidons, inuline, gluten de froment, matières albuminoïdes.
- 598 Produits divers des industries chimiques, n.d.a.

Section 6 Articles manufacturés classés principalement d'après la matière première.

- 611 Cuirs et peaux.
- 612 Ouvrages en cuir, articles de bourrellerie, n.d.a.
- 613 Pelleteries tannées ou apprêtées, déchets et chutes.

- 621 Produits en caoutchouc (pâtes, plaques, tubes).
- 625 Bandages, pneumatiques en caoutchouc vulcanisé, pour roues de tous genres.
- 628 Ouvrages en caoutchouc, n.d.a.

- 633 Ouvrages en liège.
- 634 Placages, contreplaqués et autres bois façonnés.
- 635 Articles manufacturés en bois, n.d.a.

- 641 Papiers et cartons.
- 642 Papiers et cartons découpés.

- 651 Fils textiles.
- 652 Tissus de coton.
- 653 Tissus de fibres textiles synthétiques.
- 654 Tissus autres que le coton, matières textiles synthétiques et artificielles.
- 655 Etoffes de bonneterie.
- 656 Tulles, dentelles, broderie, articles de mercerie.
- 657 Tissus spéciaux et produits connexes.
- 658 Articles façonnés entièrement en matières textiles.
- 659 Couvre-parquets.

- 661 Chaux, ciments et matériaux de construction fabriqués.
- 662 Matériaux de construction en argile et réfractaires.
- 663 Articles minéraux manufacturés, n.d.a.
- 664 Verre.
- 665 Ouvrages en verre.
- 666 Poterie.
- 667 Perles fines, pierres gemmes et similaires brutes ou travaillées.

- 671 Fonte, fonte spiegel, fer spongieux, poudres de fer.
- 672 Lingots et formes primaires en fer ou en acier.
- 673 Barres et profilés en fer ou en acier.
- 674 Grandes plaques et tôles, en fer ou en acier.
- 675 Feuillards en fer ou en acier, laminés à chaud ou à froid.
- 676 Rails et autres éléments de voies ferrées, en fonte.
- 677 Fils de fer ou d'acier, nus ou revêtus.
- 678 Tubes, tuyaux et accessoires, en fonte, fer ou acier.
- 679 Ouvrages en fonte, fer ou acier, à l'état brut

Section 6 Manufactured goods classified chiefly by material *(continued)*.

- 681 Silver, platinum and other metals of the platinum group.
- 682 Copper.
- 683 Nickel.
- 684 Aluminium.
- 685 Lead.
- 686 Zinc.
- 687 Tin.
- 688 Uranium depleted in U235, thorium and alloys.
- 689 Miscellaneous non-ferrous base metals, metallurgy.

- 691 Structures and parts of structures; iron, steel and aluminium.
- 692 Metal containers for storage and transport.
- 693 Wire products and fencing grills.
- 694 Nails, screws, nuts and bolts of iron, steel or copper.
- 695 Tools for use in hand or in machines.
- 696 Cutlery.
- 697 Household equipment of base metal, n.e.s.
- 699 Manufactures of base metal, n.e.s.

Section 7 Machinery and transport equipment.

- 711 Steam and other vapour generating boilers, and parts.
- 712 Steam and other vapour power units, steam engines.
- 713 Internal combustion piston engines, and parts.
- 714 Engines and motors, non-electric.
- 716 Rotating electric plant and parts.
- 718 Other power generating machinery and parts.

- 721 Agricultural machinery and parts.
- 722 Tractors whether or not fitted with power take-offs.
- 723 Civil engineering and contractors plant and parts.
- 724 Textile and leather machinery and parts.
- 725 Paper and pulp mill machinery, machinery for manufacture of paper.
- 726 Printing and bookbinding machinery, and parts.
- 727 Food processing machines and parts.
- 728 Machinery and equipment specialized for particular industries.

- 736 Machine tools for working metal or metal carbides, and parts.
- 737 Metalworking machinery, and parts.

- 741 Heating and cooling equipment, and parts.
- 742 Pumps for liquids, liquid elevators, and parts.
- 743 Pumps, compressors, fans and blowers.
- 744 Mechanical handling equipment, and parts.
- 745 Other non-electrical machinery, tools, apparatus, and parts.
- 749 Non-electric accessories of machinery.

- 751 Office machines.
- 752 Automatic data processing machines and units thereof.
- 759 Parts of and accessories suitable for 751, 752.

Section 6 Articles manufacturés classés principalement d'après la matière première *(suite)*.

- 681 Argent, platine et autres métaux de la mine du platine.
- 682 Cuivre.
- 683 Nickel.
- 684 Aluminium.
- 685 Plomb.
- 686 Zinc.
- 687 Etain.
- 688 Uranium appauvri en U235, thorium et alliages.
- 689 Autres métaux communs non ferreux, et cermets.

- 691 Constructions et parties de constructions, en fer, acier et aluminium.
- 692 Récipients métalliques pour le stockage et le transport.
- 693 Ouvrages en fils métalliques et grillages.
- 694 Clous, vis, écrous, rivets et similaires en fer, acier et cuivre.
- 695 Outils à main et outils pour machines.
- 696 Coutellerie.
- 697 Articles de ménage et domestiques en métaux communs.
- 699 Articles manufacturés en métaux communs, n.d.a

Section 7 Machines et matériel de transport.

- 711 Générateurs de vapeur d'eau et appareils auxiliaires.
- 712 Machines à vapeur d'eau, locomotives et pièces.
- 713 Moteurs à explosion, combustion interne et pièces.
- 714 Moteurs et machines motrices, non électriques.
- 716 Machines et appareils électriques rotatifs et pièces.
- 718 Autres moteurs et machines motrices et parties.

- 721 Machines agricoles et leurs parties détachées.
- 722 Tracteurs (y compris les tracteurs-treuil).
- 723 Appareils et matériels de génie civil et de construction.
- 724 Machines et appareils pour l'industrie textile, cuirs, et pièces.
- 725 Machines et appareils pour fabrication de pâte à papier et du papier.
- 726 Machines et appareils pour l'imprimerie, brochage, et pièces.
- 727 Machines et appareils pour l'industrie alimentaire, et pièces.
- 728 Autres machines et appareils pour l'industrie particulière, et pièces.

- 736 Machines-outils pour le travail des métaux et carbures métalliques.
- 737 Machines et appareils pour le travail des métaux, et pièces.

- 741 Machines et appareils de chauffage, réfrigération, et pièces.
- 742 Pompes, motopompes et turbopompes pour liquides.
- 743 Pompes, compresseurs et ventilateurs.
- 744 Équipement mécanique de manutention, et pièces.
- 745 Autres machines, appareils et outils, non électriques, et pièces.
- 749 Pièces détachées de machines non électriques.

- 751 Machines et appareils de bureau.
- 752 Machines automatiques de traitement de l'information.
- 759 Pièces détachées et accessoires pour machines des groupes 751 et 752.

Section 7 Machinery and transport equipment (continued).

- 761 Television receivers.
- 762 Radio-broadcast receivers.
- 763 Gramophones, dictating and sound recorders.
- 764 Telecommunications equipment, and parts.

- 771 Electric power machinery, and parts thereof.
- 772 Electrical apparatus such as switches, relays, fuses and plugs.
- 773 Equipment for distributing electricity.
- 774 Electric and radiological apparatus, for medical purposes.
- 775 Household type, electrical and non-electrical equipment.
- 776 Thermionic, cold and photo-cathode valves, tubes, and parts.
- 778 Electrical machinery and apparatus, n.e.s.

- 781 Passenger motor cars for transport of passengers and goods.
- 782 Motor vehicles for transport of goods materials.
- 783 Road motor vehicles, n.e.s.
- 784 Parts and accessories of 722, 781, 782, 783.
- 785 Motorcycles, motor scooters and invalid carriages.
- 786 Trailers and other vehicles, not motorized.

- 791 Railway vehicles and associated equipment.
- 792 Aircraft and associated equipment and parts.
- 793 Ships, boats and floating structures.

Section 8 Miscellaneous manufactured articles.

- 812 Sanitary, plumbing, heating and lighting fixtures.

- 821 Furniture and parts thereof.

- 831 Travel goods, handbags, briefcases, purses and sheaths.
- 842 Outergarments, men's, of textile fabrics.
- 843 Outergarments, women's, of textile fabrics.
- 844 Undergarments of textile fabrics.
- 845 Outergarments and other articles, knitted.
- 846 Undergarments, knitted or crocheted.
- 847 Clothing accessories of textile fabrics.
- 848 Articles of apparel and clothing accessories, non-textile.

- 851 Footwear.

- 871 Optical instruments and apparatus.
- 872 Medical instruments and appliances.
- 873 Meters and counters, n.e.s.
- 874 Measuring, checking, analysing instruments.

- 881 Photographic apparatus and equipment, n.e.s.
- 882 Photographic and cinematographic supplies.
- 883 Cinematography film, exposed and developed, negative or positive.
- 884 Optical goods, n.e.s.
- 885 Watches and clocks.

Section 7 Machines et matériel de transport (suite).

- 761 Récepteurs de télévision.
- 762 Récepteurs de radiodiffusion et combinés.
- 763 Phonographes, machines à dicter et appareils d'enregistrement.
- 764 Équipement de télécommunication, et pièces.

- 771 Machines et appareils pour la production et la transformation de l'électricité.
- 772 Appareillage pour la coupure, le sectionnement et la protection des circuits électriques.
- 773 Équipement pour la distribution d'électricité.
- 774 Appareils d'électricité médicale et de radiologie.
- 775 Machines et appareils, électriques ou non, à usage domestique.
- 776 Lampes, tubes, valves électroniques à vide et à vapeur.
- 778 Autres machines et appareils électriques, n.d.a.

- 781 Voitures automobiles pour le transport des personnes.
- 782 Voitures automobiles pour le transport des marchandises.
- 783 Véhicules automobiles routiers, n.d.a.
- 784 Pièces détachées et accessoires pour 722, 781, 782, 783.
- 785 Motocycles, scooters et véhicules similaires pour le transport des malades.
- 786 Remorques et autres véhicules non motorisés.

- 791 Véhicules et matériel pour chemins de fer.
- 792 Appareils de navigation aérienne, matériel connexe, et pièces.
- 793 Navires, bateaux et engins flottants.

Section 8 Articles manufacturés divers.

- 812 Appareils sanitaires, de plomberie, de chauffage et d'éclairage.

- 821 Meubles et leur parties et pièces détachées.

- 831 Articles de voyage, malles, sacs et serviettes.

- 842 Vêtements de dessus pour homme, en matières textiles.
- 843 Vêtements de dessus pour femmes en matières textiles.
- 844 Vêtements de dessous en matières textiles.
- 845 Vêtements de dessus et accessoires de bonneterie.
- 846 Sous-vêtements de bonneterie.
- 847 Accessoires du vêtement en matières textiles.
- 848 Vêtements et accessoires du vêtement en matières autres que les textiles.

- 851 Chaussures.

- 871 Appareils et instruments d'optique.
- 872 Instruments et appareils médico-chirurgicaux.
- 873 Compteurs et instruments de mesures, n.d.a.
- 874 Instruments de mesure, vérification et analyse.

- 881 Appareils et équipement photographiques, n.d.a.
- 882 Produits photographiques et cinématographiques.
- 883 Films cinématographiques, impressionnés et développés, négatifs ou positifs.
- 884 Éléments d'optique, n.d.a.
- 885 Horlogerie

Section 8 Miscellaneous manufactured articles (*continued*).

- 892 Printed matter.
- 893 Articles of materials described in division 58.
- 894 Baby carriages and toys.
- 895 Office and stationery supplies, n.e.s.
- 896 Works of art, collectors' pieces and antiques.
- 897 Jewellery, goldsmith wares and other articles of precious materials.
- 898 Musical instruments, parts and accessories.
- 899 Other miscellaneous manufactured articles.

Section 9 Commodities and transactions not classified according to kind.

- 911 Postal packages not classified according to kind.
- 931 Special transactions and commodities, not classified according to kind.
- 941 Animals, live, n.e.s., including zoo-animals.
- 951 Armoured fighting vehicles, arms of war and ammunition.
- 961 Coins (other than gold), not being legal tender.
- 971 Gold, non-monetary.

Section 8 Articles manufacturés divers (*suite*).

- 892 Imprimés.
- 893 Ouvrages, en matières de la division 58.
- 894 Voitures pour le transport des enfants et jouets.
- 895 Articles de papeterie et fournitures de bureau, n.d.a.
- 896 Objets d'art, de collection ou d'antiquité.
- 897 Bijouterie, orfèvrerie, autres ouvrages en métaux précieux.
- 898 Instruments de musique et pièces détachées.
- 899 Autres articles manufacturés divers, n.d.a.

Section 9 Articles et transactions non classés par catégories.

- 911 Colis postaux, non classés par catégories.
- 931 Transactions spéciales et articles non classés par catégories.
- 941 Animaux vivants, n.d.a., y compris les animaux de zoo.
- 951 Véhicules blindés de combat, armes de guerre et munitions.
- 961 Monnaies n'ayant pas cours légal.
- 971 Or, non monétaire.

5.1 Value of exports and imports of services by region and country

5.1 Valeur des exportations et des importations des services par régions et par pays

Sources: UNCTAD secretariat calculations based on IMF, *Balance of Payments Statistics* on CD-ROM, and national sources.

Notes:

The table shows values of exports (credits) and imports (debits) of services that were derived from statistics on international service transactions as presented in the IMF's *Balance of Payments Statistics*. Services are defined as the economic output of intangible commodities that may be produced, transferred and consumed at the same time.

However, services cover a heterogeneous range of intangible products and activities that are difficult to capture within a single definition and are sometimes hard to separate from goods. Services are outputs produced to order, and they typically include changes in the condition of the consumers realized through the activities of the producers at the demand of customers. Ownership rights over services cannot be established. By the time production of a service is completed, it must have been provided to a consumer.

Services figures shown here comprise 11 principal services categories according to the concepts and definitions of the IMF *Balance of Payments Manual* (1993, BPM 5). The aggregate data from table 5.1 include the UNCTAD secretariat's estimates of missing values that are not shown separately.

The 11 principal BPM 5 service components included in the figures are transport, travel, communications, construction, insurance, financial services, computer and information services, royalties and license fees, other business services, personal, cultural and recreational services, and government services n.i.e. For more detailed explanations of each of these categories, as well as of certain inconsistencies that may arise in methods of reporting by different countries, please refer to the IMF *Balance of Payments Manual*. Given the general difficulties involved in statistically capturing certain aspects of the trade in services, the balance-of-payments figures presented here may be somewhat downward-biased as compared with the actual value of the international trade in services.

Sources : Calculs du Secrétariat de la CNUCED, basés sur *Balance of Payments Statistics* sur CD-ROM et des sources nationales.

Notes :

Le tableau inclut les valeurs des exportations (crédits) et des importations (débits) des services qui proviennent des statistiques sur les transactions internationales de services, telles qu'elles sont présentées dans *Balance of Payments Statistics* du FMI. Les services sont définis comme rendements économiques de produits intangibles qui peuvent être produits, transférés et consommés au même moment.

Cependant, les services recouvrent un groupe large et hétérogène de produits et d'activités que l'on peut difficilement englober dans une définition. Parfois, la démarcation entre les services et les marchandises n'est pas aisée. Les services sont produits sur commande et ils ont généralement pour résultat un changement des conditions des consommateurs qui ont demandé ces services. Pour que la production d'un service soit terminée, il doit être fourni au consommateur.

Les chiffres présentés comprennent 11 catégories principales de services conformément aux concepts et définitions du *Manuel de la balance des paiements* du FMI (1993, MBP 5). Les agrégats inclus dans le tableau 5.1 comprennent les valeurs manquantes estimées par le secrétariat de la CNUCED et qui ne sont pas présentées séparément.

Les 11 catégories principales des services du MBP 5, incluses dans les chiffres présentés, comprennent : transports, voyages, communications, services de bâtiment et travaux publics, assurances, services financiers, services d'informatique et d'information, redevances et droits de licence, autres services aux entreprises, services personnels, culturels et relatifs aux loisirs et les services fournis ou reçus par les administrations publiques. Pour une explication plus détaillée de chacune de ces catégories, ainsi que pour des indications supplémentaires sur certaines incohérences qui peuvent exister dans les méthodes statistiques employées par différents pays, veuillez vous référer au Manuel de la balance des paiements du FMI. De manière générale, les difficultés à mesurer statistiquement la valeur du commerce des services persistent et les données de la balance des paiements sur les services peuvent être inférieures à la valeur des transactions réelles.

5.2A Leading exporters of services among developing economies by main category of services (ranked by 2002 values)

5.2 Leading exporters and importers of services among developing economies by main category of services (ranked by 2002 values)

Sources: International Monetary Fund (IMF), *Balance of Payments*, CD-ROM.

Notes:

- 1 As percentage of country's total exports (total imports) of services.
- 2 Excludes freight insurance, which is included with insurance services.
- 3 Includes goods and services acquired from an economy by non-resident travellers during visits shorter than one year.
- 4 Postal, courier and telecommunications services between residents and non-residents.
- 5 Includes merchanting and other trade-related services, operational leasing services, and miscellaneous business, professional and technical services.

5.2 Principaux exportateurs et importateurs de services parmi les économies en développement par catégories de services (classés d'après les valeurs de 2002)

Sources : Fonds monétaire international (FMI), *Balance des paiements*, CD-ROM.

Notes :

- 1 En pourcentage du total des exportations (importations) de services du pays.
- 2 Non-compris l'assurance du fret, incluse dans la rubrique des services d'assurance.
- 3 Comprend les biens et services acquis dans une économie par les voyageurs non résidents, au cours d'un séjour inférieur à un an.
- 4 Services postaux (y compris les messageries) et les services de télécommunication, entre résidents et non résidents.
- 5 Y compris le négoce international et les autres services liés au commerce, la location-exploitation et divers services aux entreprises, spécialisés et techniques.

Sources:

World Tourism Organization (WTO), Database.

Notes:

All indicators refer to non-resident tourists or international visitors. This includes all persons who arrive in an economy to stay for less than a year for business purposes or personal reasons. Tourists are those who stay at least one night in a collective or private accommodation in a country visited. Same-day visitors are persons who do not stay overnight in a country visited.

Tourism expenditures correspond to the item "Travel receipts" in IMF balance of payments data. It refers to expenditures of non-resident tourists and visitors within the territory of a reporting economy. Transport expenditures are not included.

Tourists' overnight stays refer to the number of nights spent by non-resident tourists in a reporting country and concern all types of tourism accommodation.

Arrivals of tourists represent the total number of non-resident tourists and visitors who arrived in a reporting economy during a given year. When the same person visits a country several times in a year, the total number of arrivals is counted. Similarly, when a person travels to several countries during one trip, her/his arrival in each country is recorded separately.

Countries differ in the way in which they count arrivals: some take into account all arrivals of non-resident visitors at national borders, while others count arrivals at hotels and other types of tourism accommodation. For more information refer to the World Tourism Organization's *Compendium of Tourism Statistics 2004*.

Average length-of-stay figures refer to the average number of days spent by a non-resident tourist in a reporting country.

Sources :

Organisation mondiale du tourisme (OMT), Base de données.

Notes :

Tous les indicateurs se réfèrent aux touristes non-résidents ou aux visiteurs internationaux. Cela inclut des personnes qui arrivent sur le territoire d'une économie pour y rester moins d'une année pour affaires ou pour des raisons personnelles. Les touristes sont ceux qui séjournent dans le pays visité au moins une nuit dans un logement collectif ou privé. Les visiteurs d'une journée sont des personnes qui ne passent pas la nuit dans le pays visité.

Les dépenses dans le tourisme correspondent à la rubrique "Revenus des voyages" de la balance des paiements du FMI. Elles se réfèrent aux dépenses des touristes et des visiteurs non résidents sur le territoire de l'économie déclarante. Les dépenses pour le transport n'y sont pas incluses.

Les nuitées des touristes se réfèrent au nombre de nuits (nuitées) que les touristes non résidents ont passées dans le pays déclarant et concernent tout type d'établissement touristique.

Les arrivées des touristes représentent le nombre total de touristes et de visiteurs qui sont arrivés dans l'économie déclarante durant une année. Quand une personne visite un pays plusieurs fois par an, chaque visite est comptée séparément. De même, si quelqu'un se rend dans plusieurs pays durant un voyage, son arrivée dans chaque pays est prise en compte.

Les pays déclarent les arrivées des visiteurs de manières différentes: certains prennent en compte toutes les arrivées aux frontières nationales et d'autres comptent les arrivées dans des hôtels et autres types de logements touristiques. Pour plus d'informations se référer au *Compendium des statistiques du tourisme 2004* de l'Organisation mondiale du tourisme.

Les chiffres sur la durée moyenne de séjour se réfèrent au nombre moyen de jours qu'un visiteur non résident a passés dans le pays déclarant.

The countries presented in table 6.1A are those covered in the IMF *Balance of Payments Statistics* on CD-ROM.

The following explanatory notes are intended to provide a brief description of the balance-of-payments categories presented in table 6.1A. There are many exceptions to the definitions of categories, and for these the reader should refer to the country notes in the IMF *Balance of Payments Statistics Yearbook* or the corresponding CD-ROM. For further information on the concepts and definitions used, see the IMF *Balance of Payments Manual* (1993, BPM 5).

Balance of payments current account data cover all transactions between residents and non-residents involving economic values and mainly concerning goods, services, income and current transfers, recorded as gross debits and gross credits.

Column 1. Exports of goods (f.o.b.) and services

According to the definition in BPM 5, the goods component in the figures presented in table 6.1A includes general merchandise, goods for processing (gross value of goods before and after processing), repairs on goods (value of repairs only), goods procured in ports and non-monetary gold. The services component in those figures comprises 11 main BPM 5 categories: transportation, travel, communications, construction, insurance, financial services, computer and information services, royalties and licence fees, other business services, personal-cultural-recreational services, and government services n.i.e. Figures on trade in services are provided separately in table 5.1.

The components of export figures related to goods in table 6.1A differ from those reported in the trade returns in table 1.1 because of adjustments for coverage, valuation, timing, inland freight, etc. Such adjustments are necessary to make the trade statistics compatible with the concepts used in the balance of payments. Further adjustments are applied in cases in which the market price for goods differs from the price used for customs purposes. The valuation problem is probably more important for imports than for exports and is likely to be a factor whenever there is a long delay between the date of sale and the date on which the import duty becomes payable. For additional information on adjustments required for valuation, timing, etc., see the IMF *Balance of Payments Manual* and the United Nations *International Trade Statistics Concepts and Definitions*, Statistical Papers (Series M, No. 52).

Column 2. Imports of goods (f.o.b.) and services

Adjustments for coverage, valuation, timing, etc., are made to imports reported in trade returns, as described in the notes for column 1. In addition, an adjustment is made to convert imports from a c.i.f. to an f.o.b. basis for those countries reporting imports c.i.f.

Les pays présentés dans le tableau 6.1A sont ceux analysés dans la *Balance of Payments Statistics* sur CD-ROM du FMI.

L'objet des notes explicatives qui suivent est de fournir une description brève des rubriques des balances des paiements présentées dans le tableau 6.1A. En fait, les définitions des catégories comportent plusieurs exceptions, et pour celles-ci le lecteur doit se référer aux notes par pays du FMI *Balance of Payments Statistics Yearbook* ou du CD-ROM correspondant. Pour des détails sur les concepts et les définitions utilisés, voir le *Manuel de la balance des paiements* du FMI (1993, MBP 5).

Les données du compte des transactions courantes de la balance des paiements recouvrent toutes les transactions, entre entités résidentes et non résidentes, portant sur des valeurs économiques, principalement concernant les biens, les services, les revenus et les transferts courants et faisant apparaître les crédits ou les débits bruts.

Colonne 1. Exportations de biens (f.a.b.) et services

Conformément à la définition du MBP 5, la partie relative aux biens, présentée dans le tableau 6.1A, comprend les marchandises générales, les biens importés ou exportés pour subir une transformation (valeur brut des biens avant et après transformation), la valeur des réparations de biens (seulement la valeur des réparations), les biens achetés dans les ports et l'or non monétaire. La partie relative aux services comprend 11 principales catégories du MBP 5: transports, voyages, communications, services de bâtiment et travaux publics, assurances, services financiers, services d'informatique et d'information, redevances et droits de licence, autres services aux entreprises, services personnels, culturels et relatifs aux loisirs et services fournis ou reçus par les administrations publiques, n.c.a. Les données sur le commerce des services sont présentées séparément dans le tableau 5.1.

La partie des données relative aux exportations de biens dans le tableau 6.1A est différente des données présentées dans le tableau 1.1 relatif au commerce mondial. Ces différences sont dues principalement aux ajustements effectués sur la couverture, l'évaluation, la date d'enregistrement des transactions, le fret terrestre, etc. Les ajustements des données relatives aux importations et aux exportations sont nécessaires, car ils permettent de rendre les données du commerce extérieur compatibles avec les concepts employés dans les statistiques de balance des paiements. Les ajustements d'évaluation sont requis, en particulier dans les cas où les prix du marché auxquels les marchandises ont été vendues diffèrent des prix utilisés par les autorités douanières. Ce problème d'évaluation est probablement plus important pour les importations que pour les exportations et devient un sérieux facteur lorsque s'écoule une longue période entre la date de vente et la date à laquelle les importations sont soumises aux droits de douane. Pour de plus amples détails sur les ajustements d'évaluation, de date d'enregistrement des transactions, etc., se référer aux publications suivantes: FMI *Manuel de la balance des paiements*, et ONU *Statistiques du commerce international – Concepts et définitions*, Etudes statistiques (Série M, No. 52).

Colonne 2. Importations de biens (f.a.b.) et services

Les ajustements au titre de la couverture, de l'évaluation, de la date d'enregistrement des transactions, etc. sont également effectués sur les données présentant des importations, comme décrit ci-dessus dans les notes portant sur la colonne 1. Par ailleurs, les importations déclarées sur la base c.a.f. sont converties sur la base f.a.b. pour les pays qui reportent c.a.f.

Column 3. Balance on goods and services

The figures presented show the balance of trade in goods (f.o.b./f.o.b. basis) and services.

Column 4. Income, total debit

Income figures shown on the debit side comprise compensation of non-resident employees and investment income payments on external financial assets and liabilities. Included in the investment income are payments on direct investment (column 5), and portfolio and other investments. Column 4 presents total payments for income.

Column 5. Direct investment income, debit

The heading includes two categories: income on equity and income on debt, as income accruing to a direct investor residing in one economy from the ownership of direct investment capital in another economy. Income on direct investment is presented on a net basis for both direct investment abroad and in the reporting economy (i.e. receipts of income on equity and income on debt less payments on income on equity and income on debt for each).

Column 6. Income, total credit

This is a counterpart to column 4. Column 6 presents total receipts for income.

Column 7. Direct investment income, credit

This is a counterpart to column 5.

Column 8. Current transfers, net

Transfers are defined as economic values exchanged without *quid pro quo* (without reciprocity). BPM 5 distinguishes current and capital transfers. Current transfers comprise two main categories: general government and other transfers. General government transfers include transfers – in cash or in kind – between governments of different economies or between governments and international organizations (international cooperation). Other transfers occur between other sectors of the economy and non-residents of that economy and can take place between individuals, non-governmental institutions, organizations and groups. Workers' remittances also fall into this category.

Column 9. Current account balance

Balance of payments current account data cover all transactions between residents and non-residents involving economic values and concerning goods, services, income and current transfers, recorded as gross debits and gross credits.

Colonne 3. Balance des biens et services

Les chiffres inclus présentent la balance du commerce de biens (f.a.b./f.a.b.) et services.

Colonne 4. Revenu, débit total

Les chiffres relatifs au revenu et présentés comme débit comprennent la rémunération des salariés non résidents et les paiements du revenu des investissements afférents aux avoirs ou engagements financiers extérieurs. Le revenu des investissements se subdivise en paiements provenant d'investissement direct (colonne 5), d'investissement de portefeuille et d'autres investissements. La colonne 4 montre les paiements totaux du revenu.

Colonne 5. Revenu d'investissement direct, débit

Deux catégories figurent sous cette rubrique : titres de participation et titres de créance. Ils recouvrent les revenus qui rapportent à un investisseur direct, résidant dans une économie, des capitaux d'investissement direct qu'il possède dans une entreprise située dans une autre économie. Aussi bien pour les investissements directs à l'étranger que pour ceux de l'étranger, c'est le montant net des revenus que l'on reporte (autrement dit : dans chaque cas, les revenus perçus moins les revenus versés).

Colonne 6. Revenu, crédit total

Voir la description de la colonne 4. La colonne 6 présente les recettes totales des revenus.

Colonne 7. Revenu d'investissement direct, crédit

Voir la description de la colonne 5.

Colonne 8. Transferts courants, nets

Les transferts sont définis comme des valeurs économiques échangées sans *quid pro quo* (sans réciprocité). MBP 5 distingue les transferts courants et les transferts de capitaux. Les transferts courants se répartissent en deux grandes catégories sectorielles : les administrations publiques et les autres secteurs. Parmi les transferts courants des administrations publiques, on trouve les transferts – en espèces ou en nature – entre les administrations publiques de différentes économies ou entre les administrations publiques et les organisations internationales (coopération internationale). Les transferts d'autres secteurs s'opèrent entre tous les autres secteurs d'une économie et les non résidents de celle-ci. Ils peuvent avoir lieu entre les particuliers, les institutions non gouvernementales, les organisations et les groupes. Les envois de fonds des travailleurs sont également inclus sous cette rubrique.

Colonne 9. Solde du compte des transactions courantes

Les données du compte des transactions courantes de la balance des paiements recouvrent toutes les transactions, entre entités résidentes et non résidentes, portant sur des valeurs économiques et principalement concernant les biens, les services, les revenus et les transferts courants, faisant apparaître les crédits ou débits bruts.

For sources and notes, see following pages.

Pour les sources et les notes, se reporter aux pages suivantes.

The countries presented in table 6.1B are those covered in the IMF *Balance of Payments Statistics* on CD-ROM.

The following explanatory notes are intended to provide a brief description of the balance-of-payments categories presented in table 6.1B. There are many exceptions to the definitions of categories and for these the reader should refer to the country notes in the IMF *Balance of Payments Statistics Yearbook* or the corresponding CD-ROM. For further information on the concepts and definitions used, see the IMF *Balance of Payments Manual* (1993, BPM 5).

The capital account and the financial account are two major components of the capital and financial account. They cover transactions in foreign assets and liabilities. All valuation changes or other non-transaction modifications of net foreign assets are not reflected in these accounts, but are accounted for in International investment position. Assets represent claims on non-residents, while liabilities are indebtedness to non-residents of the reporting economy. In some instances, both parties to a transaction could be residents or non-residents.

Column 1. Capital account, net

The capital account consists of capital transfers and of acquisition or disposal of non-produced, non-financial assets. Transfers refer to transactions exchanged without *quid-pro-quo* (without reciprocity). Capital transfers include transfers of ownership of fixed assets or of funds linked to acquisition or disposal of fixed assets. They further incorporate cancellations of liabilities by creditors, where the later receive no counterpart value. Acquisitions/disposals of non-produced, non-financial assets mainly refer to intangibles, such as patents, leases, and goodwill. Items are entered in capital account as net credits or debits. Column 1, as presented here, shows the total net amounts (net credits less net debits).

Column 2. Direct investment abroad

Within the financial account, direct investment is firstly split according to its direction into direct investment abroad and direct investment in reporting economy (column 3). Further subdivisions include: direct investment in equity capital, reinvested earnings and other direct investment capital (inter-company transactions.) Direct investment is defined as investment that reflects a lasting interest of a resident entity of one economy (direct investor) in an entity resident in another economy (direct investment enterprise). It covers all the transactions between direct investors and direct investment enterprises. Direct investment implies a significant degree of influence by the investor on the management of the direct investment enterprise.

Column 3. Direct investment in reporting economy

This is a counterpart to column 2.

Column 4. Portfolio investment assets

Within portfolio investment the distinction is being made between assets and liabilities (column 5). Assets are viewed as claims on the rest of the world and liabilities as indebtedness to the rest of the world. Portfolio investment covers transactions in equity securities and debt securities. The later are subdivided into bonds, notes, money market instruments and financial derivatives (when the derivatives generate financial claims or liabilities).

Les pays présentés dans le tableau 6.1B sont ceux analysés dans la *Balance of Payments Statistics* sur CD-ROM du FMI.

Les notes explicatives suivantes fournissent une description brève des rubriques des balances des paiements présentées dans le tableau 6.1B. En fait, les définitions des catégories comportent plusieurs exceptions, et pour celles-ci le lecteur doit se référer aux notes par pays du FMI *Balance of Payments Statistics Yearbook* ou du CD-ROM correspondant. Pour des détails sur les concepts et les définitions utilisés, voir le *Manuel de la balance des paiements* du FMI (1993, MBP 5).

Le compte de capital et le compte financier sont les deux principaux composants du compte de capital et d'opérations financières. Ils couvrent les transactions en avoirs (actifs) et engagements (passifs) étrangers. Toutes les réévaluations et autres variations d'avoirs et d'engagements qui ne reflètent pas des transactions, sont exclues du compte de capital et d'opérations financières ; elles apparaissent dans la position extérieure globale. Les avoirs représentent des créances sur les non-résidents et les engagements des dettes envers les non-résidents. Dans certains cas, il peut s'agir de deux résidents ou de deux non résidents.

Colonne 1. Compte de capital, net

Le compte de capital est subdivisé en transferts de capital et en acquisitions ou cessions d'avoirs non financiers non produits. Les transferts sont les transactions échangées sans *quid-pro-quo* (sans réciprocité.) Les transferts de capitaux comprennent les transferts de propriété d'un actif fixe ou les transferts de fonds liés à l'acquisition ou à la cession d'un actif fixe. De plus, ils incorporent la remise d'une dette par un créancier, sans que celui-ci ne reçoive une valeur équivalente. Les acquisitions ou cession d'avoirs non financiers non produits se réfèrent aux avoirs incorporels tels que les brevets, les contrats de location et marques. Les éléments du compte de capital sont reportés comme les crédits ou les débits nets. La colonne 1 présente les totaux (crédits nets moins débits nets).

Colonne 2. Investissement direct à l'étranger

Dans le Compte financier, l'investissement direct est d'abord divisé en fonction du sens des mouvements de capitaux entre investissement de l'économie déclarante à l'étranger et celui en provenance de l'étranger investi dans l'économie déclarante (colonne 3). Les subdivisions suivantes incluent : capital social, bénéfiques réinvestis et autres transactions. L'investissement direct étranger est accompagné d'un intérêt durable de la part d'une entité résidente d'une économie (l'investisseur direct) pour une entité résidente d'une autre économie (l'entreprise d'investissement direct.) Il recouvre toutes les transactions entre les investisseurs directs et les entreprises d'investissement direct. L'investissement direct donne à l'investisseur le privilège d'exercer une influence significative sur la gestion de l'entreprise dans laquelle il a investi.

Colonne 3. Investissement direct dans l'économie déclarante

Voir la description de la colonne 2.

Colonne 4. Investissement de portefeuille, avoirs

En investissement de portefeuille on distingue les avoirs et les engagements (colonne 5). Les avoirs représentent les créances sur les non-résidents et les engagements les endettements envers les non-résidents. Les investissements de portefeuille couvrent les transactions portant sur les titres de participation et les titres de créances, ces dernières étant subdivisées en trois catégories : obligations et autres titres d'emprunt, instruments du marché monétaire et produits financiers dérivés (lorsque les dérivés résultent en créances ou en engagements financiers).

Column 5. Portfolio investment liabilities

This is a counterpart to column 4.

Column 6. Other investment assets

Other investment is a residual category that covers all financial transaction not included under direct investment, portfolio investment or reserve assets. Assets and liabilities (column 7) in this category are classified primarily on an instrument bases, such as trade credits, loans, currency and deposits.

Column 7. Other investment liabilities

This is a counterpart to column 6.

Column 8. Reserve assets

Includes: monetary gold, special drawing rights, reserve position in the IMF, foreign exchange and other claims.

Column 9. Financial account, net

The financial account constituents are classified according to the type of investment or by a functional breakdown into four main components: direct investment, portfolio investment, other investment and reserve assets. Each component is further divided into relevant subcomponents. The sum of figures in columns 2 to 8 is equal to column 9 (financial account balance). Where the financial account subcomponents do not add up to the total net financial account, the difference can be attributed to financial derivatives that are not shown within this table.

Column 10. Capital and financial account, net

The capital account and the financial account are two major components of the capital and financial account. Balance of the later corresponds to the sum of the net capital account and net financial account. Where the financial account subcomponents do not add up to the sum represented by net financial account, the difference can be attributed to financial derivatives (see notes for column 9).

Colonne 5. Investissement de portefeuille, engagements

Voir la description de la colonne 4.

Colonne 6. Autres investissements, avoirs

Les autres investissements constituent une catégorie résiduelle qui comprend toutes les opérations sur actifs et passifs financiers qui ne figurent pas parmi les investissements directs, les investissements de portefeuille ou les avoirs de réserve. Les avoirs et les engagements (colonne 7) sont repartis par instruments tels que les crédits commerciaux, les prêts, la monnaie fiduciaire et les dépôts.

Colonne 7. Autres investissements, engagements

Voir la description de la colonne 6.

Colonne 8. Avoirs de réserve

Comprend : l'or monétaire, droits de tirage spéciaux, position de réserve dans le FMI, devises et autres créances.

Colonne 9. Compte financier, net

Les éléments qui constituent le compte financier se divisent selon le type d'investissement ou selon une ventilation fonctionnelle en quatre principaux composants : investissements directs, investissements de portefeuille, autres investissements et avoirs de réserve. Chaque composant comprend plusieurs sous-groupes. La somme de tous les chiffres des colonnes 2 à 8 est égale à la colonne 9 (balance du compte financier). Dans le cas où la somme des éléments du compte financier ne correspond pas au total, la différence peut être attribuée aux instruments financiers dérivés, qui ne sont pas présentés dans ce tableau.

Colonne 10. Compte de capital et d'opérations financières, net

Le compte de capital et le compte financier sont les deux principaux composants du compte de capital et d'opérations financières. La balance de ce dernier correspond à la somme du compte de capital net et du compte financier net. Dans le cas où la somme des éléments composants du compte financier ne correspond pas au total, la différence peut être attribuée aux instruments financiers dérivés (voir les notes de la colonne 9).

6.3 Workers' remittances

Sources: IMF, *Balance of Payments Statistics* on CD-ROM.

Notes:

According to the definition of the IMF *Balance of Payments Manual (1993, BPM 5)*, workers' remittances are goods and financial instruments transferred by migrants living and working (being residents) in a new economy to residents of the economy in which the migrants formerly resided. A migrant must live and work in the new economy for more than one year to be considered a resident there.

The IMF *Balance of Payments Manual (BPM 5)* classifies workers' remittances separately from compensation of employees and from migrants' capital transfers.

Table 6.3 includes all three categories in the values shown, in order to present a clearer picture of the flows that enter or exit economies via transfers by migrant workers.

1 Fifty developing countries and territories selected and ranked according to the 2001 values for each flow of workers' remittances.

2 For 1999, 2000 and 2001 data include compensation of employees only. Workers' remittances were not available.

6.3 Envois de fonds des travailleurs

Sources : FMI, *Balance of Payments Statistics* sur CD-ROM.

Notes :

Selon la définition du *Manuel de la balance des paiements* du FMI (1993, MBP 5), les envois de fonds des travailleurs sont les transferts de biens ou d'actifs financiers effectués par les migrants qui vivent et travaillent (sont considérés résidents) dans une économie en faveur des résidents de leur ancien pays de résidence. Un migrant doit vivre et travailler dans une nouvelle économie durant plus d'une année pour y être considéré résident.

Le Manuel de la balance des paiements du FMI (MBP 5) distingue séparément les envois de fonds des travailleurs, la rémunération des salariés et les transferts de capital des migrants. **Les valeurs dans le tableau 6.3 incluent les trois catégories mentionnées, afin d'offrir une présentation plus exhaustive des flux entrants ou sortants d'une économie à travers les transferts réalisés par les travailleurs migrants.**

1 Cinquante pays et territoires en développement choisis et classés d'après les valeurs de 2001 des envois de fonds des travailleurs.

2 Pour 1999, 2000 et 2001 les données comprennent seulement la rémunération des salariés. Les envois de fonds des travailleurs ne sont pas disponibles.

6.4 International reserves of developing economies

6.4 Réserves internationales des économies en développement

Sources: IMF, *International Financial Statistics* on CD-ROM.

Notes: International reserves refer to Total reserves minus gold. According to the IMF definition, Total reserves minus gold consists of the sum of the country's Foreign exchange, their Reserve position in the IMF and the US dollar value of SDR holdings by their monetary authorities.
(SDR - Special drawing rights)

1 Reserve stock of the year divided by the average monthly imports of the current and following year. Data on imports are based on figures shown in table 1.1 of this *Handbook*. Data for year 2003 have been calculated on the basis of monthly imports of the current year.

2 Reserves data have been revised starting with 1996 because national financial authorities have modified their methodology for classification of foreign assets. For details, please refer to the source.

Sources : FMI, *International Financial Statistics* sur CD-ROM.

Notes : Les réserves internationales se réfèrent aux Réserves totales moins l'or. Selon la définition du FMI, les réserves totales moins l'or représentent la somme des avoirs du pays en devises, leur position des réserves au FMI et la valeur en dollars E.U. des avoirs en DTS de leurs autorités monétaires.
(DTS - Droits de tirage spéciaux)

1 Montant des réserves de l'année, divisé par la moyenne mensuelle des importations de l'année en cours et de l'année suivante. Les données des importations se basent sur les chiffres présentés dans le tableau 1.1 de ce *Manuel*. Les chiffres pour l'année 2003 ont été calculés sur la base des importations mensuelles de l'année en cours.

2 Les données des réserves ont été révisées à partir de 1996, en raison d'une modification par les autorités financières nationales, de leur méthodologie de classification des avoirs extérieurs. Pour plus de détails, se reporter à la source.

6.5 Official financial flows from bilateral and multilateral sources to developing economies

Sources: Organisation for Economic Co-operation and Development (OECD)/Development Assistance Committee (DAC): *International Development Statistics* online database.

Notes:

Official financial flows refer to net disbursements by official sources to a recipient country. *Net disbursements* refer to the actual amounts disbursed (*gross disbursements*) less repayments of principal in respect of earlier loans.

Developing economies in this table are aid recipients included in the DAC List of Aid Recipients (see the OECD/DAC *Geographical Distribution of Financial Flows to Aid Recipients, 1994-1998*).

Unspecified groups distributed by region show flows corresponding to disbursements allocated not to an individual recipient country but to a group of countries, as classified in the *Geographical Distribution of Financial Flows to Aid Recipients* of the OECD.

Such unspecified flows are not included in the categories defined by the economic groupings.

1 ODA (Official Development Assistance): Loans administered with the main objective of promoting the economic development and welfare of developing countries.

OA (Official Aid): Loans meeting the same criteria as those of ODA, but OA loans are directed to countries listed in Part II of the DAC List of Aid Recipients.

Both ODA and OA are *concessional*. According to the DAC's definitions, *concessional* loans are those that have a grant element of 25 per cent or more, whereas *non-concessional* loans carry a grant element of less than 25 per cent. The *Grant element* reflects the financial terms of a transaction: interest rate, maturity (interval to final repayment) and grace period (interval to the first repayment of capital).

Where figures under "Total ODA/OA, net" or "Total OOF, net" do not correspond to the sum of "DAC bilateral" and "DAC multilateral", the difference can be attributed to the amounts loaned by countries that are not members of DAC.

2 OOF (other official flows) are loans with a target other than the economic development and welfare of the aid recipient, or loans with a grant element of less than 25 per cent. They are non-concessional.

3 Includes loans from Arab countries (OPEC bilateral) and Arab agencies (OPEC multilateral). The member countries of OPEC (Organization of Petroleum Exporting Countries) are: Algeria, Indonesia, Iraq, Islamic Republic of Iran, Kuwait, the Libyan Arab Jamahiriya, Nigeria, Qatar, Saudi Arabia, United Arab Emirates and Venezuela.

4 The member countries of the DAC (Development Assistance Committee) are: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, the United Kingdom and the United States. The Commission of the European Communities is also a member of the DAC.

5 DAC financial flows from multilateral sources cover the World Bank, regional development banks, other multilateral and intergovernmental agencies, concessional flows from the IMF and the Social Loans programme of the European Resettlement Fund. Not included are loans from funds administered by an international organization on behalf of a single donor government; this category is included in bilateral loans (from governments).

6.5 Flux financiers publics bilatéraux et multilatéraux à destination des économies en développement

Sources: Organisation de coopération et de développement économiques (OCDE)/Comité d'aide au développement (CAD): *Statistiques sur le développement international*, base de données en ligne.

Notes:

Les flux financiers publics représentent les versements nets des organismes officiels aux pays en développement. Les *versements nets* correspondent aux montants effectivement versés (*versements bruts*) moins le remboursement du capital au titre de prêts antérieurs.

Les bénéficiaires de l'aide sont des économies en développement compris dans la Liste des bénéficiaires de l'aide établie par le CAD (voir OCDE/CAD *Répartition géographique des ressources financières allouées aux pays bénéficiaires de l'aide, 1994-1998*).

Les groupes non-spécifiés distribués par région montrent des flux correspondants à des versements qui ne sont pas distribués par pays bénéficiaire mais par des groupes de pays tels qu'ils sont définis dans la *Répartition géographique des ressources financières*, de l'OCDE. Ces flux non-spécifiés ne sont pas compris dans les catégories définies par des groupements économiques.

1 APD (Aide publique au développement): Prêts dispensés dans le but de favoriser le progrès économique et social des pays en développement.

AP (Aide publique): prêts qui obéissent aux mêmes critères que l'APD, mais l'AP est destinée à des pays inscrits dans la partie II de la Liste des bénéficiaires de l'aide, établie par le CAD.

L'APD et l'AP sont des prêts assortis de *conditions libérales*. Selon les définitions du CAD, les prêts assortis de *conditions libérales* comportent un élément de libéralité d'au moins 25 pour cent tandis que les prêts assortis de *conditions non libérales* ont un élément de libéralité inférieur à 25 pour cent. *L'élément de libéralité* résume les conditions financières d'une opération: taux d'intérêt, durée de remboursement (délai jusqu'au remboursement final) et différé d'amortissement (délai jusqu'au premier remboursement du capital).

Quand les chiffres présentés sous "Total APD / AP, montants nets" ou "Total AASP, montant net" ne correspondent pas à la somme des "CAD bilatéral" et "CAD multilatéral", la différence peut être attribuée aux montants prêtés par des pays non membres du CAD.

2 AASP (Autres apports du secteur public): ce sont des prêts dont le but essentiel n'est pas celui du développement économique ni l'amélioration du niveau de vie du bénéficiaire de l'aide ou des prêts assortis d'un élément de libéralité inférieur à 25 pour cent. Ces transactions sont assorties des conditions du marché.

3 Y compris des prêts en provenance des pays arabes (OPEP, bilatérale) et d'organismes financés par des pays arabes (OPEP, multilatérale). Les pays membres de l'OPEP (Organisation des pays exportateurs de pétrole) sont les suivants: Algérie, Arabie saoudite, Emirats arabes unis, Indonésie, Iraq, Jamahiriya arabe libyenne, Koweït, Nigéria, Qatar, République islamique d'Iran et Venezuela.

4 Les pays membres du CAD (Comité d'aide au développement) sont les suivants: Allemagne, Australie, Autriche, Belgique, Canada, Danemark, Espagne, Etats-Unis, Finlande, France, Grèce, Irlande, Italie, Japon, Luxembourg, Norvège, Nouvelle-Zélande, Pays-Bas, Portugal, Royaume-Uni, Suède et Suisse. La Commission de la communauté européenne est aussi membre du CAD.

5 Les apports financiers du CAD en provenance des sources multilatérales se rapportent aux organismes tels que la Banque mondiale, les banques régionales de développement, d'autres organismes multilatéraux et intergouvernementaux, et comprennent des apports concessionnels du FMI et le programme de prêts sociaux du Fonds de rétablissement européen. Ne sont pas compris les prêts provenant des fonds d'un gouvernement administrés par une organisation internationale; cette catégorie est incluse dans la rubrique des sources bilatérales (de gouvernements).

6.6 External long-term debt of developing economies by source of lending

Millions of dollars

Sources: World Bank, *Global Development Finance 2002* (GDF2002).

Notes:

External debt data in this table are based on the Debtor Reporting System (DRS) maintained by the World Bank.

Long-term external debt is defined as debt that has an original or extended maturity of more than one year, is owed to non-residents and is repayable in foreign currency, goods or services. It is composed of public, publicly guaranteed and private non-guaranteed debt.

These series do not include data for the Republic of Korea as it was not covered in the *Global Development Finance 2002* publication. For more details, please consult the GDF2002.

1 Covers public and publicly guaranteed debt from official and private sources.

Public debt is an external obligation of a public debtor, whether it is a national government or a political subdivision (or an agency of either), or an autonomous public body.

Publicly guaranteed debt is an external obligation of a private debtor that is guaranteed for repayment by a public entity.

2 Loans from the official sector are at concessional and non-concessional terms. For definition refer to table 6.5.

3 This item covers loans from governments and their agencies (including central banks), loans from autonomous bodies and direct loans from official export credit agencies.

4 For definition refer to table 6.5.

5 For definition refer to table 6.5.

6 Includes loans and credits from the World Bank, regional development banks, and other multilateral and intergovernmental agencies. It does not include loans from funds administered by an international organization on behalf of a single donor government; this category is included in bilateral loans (from governments).

7 Includes credits from manufacturers, exporters and other suppliers of goods.

8 Loans from the financial market sector cover publicly issued or privately placed bonds, loans from private banks and other financial institutions.

9 Non-guaranteed private debt is an external obligation of a private debtor that is not guaranteed for repayment by a public entity.

6.6 Dette extérieure à long terme des économies en développement, par catégorie de prêt

Millions de dollars

Sources: Banque mondiale, *Global Development Finance 2002* (GDF2002).

Notes:

Les données de la dette extérieure présentées dans ce tableau se basent sur le Système de notification des pays débiteurs (SNPD), géré par la Banque mondiale.

La dette extérieure à long terme a une durée de remboursement (d'origine ou différée) supérieure à une année, et son amortissement est dû en monnaies convertibles ou en nature, à des créanciers non résidents. Elle se compose de la dette publique, la dette garantie et celle non garantie du secteur privé.

Ces séries chronologiques n'incluent pas les données de la République de Corée parce que le rapport *Global Development Finance 2002* ne couvre pas ce pays. Pour plus d'informations, veuillez consulter le GDF2002.

1 Couvre la dette publique et la dette garantie par le secteur public, en provenance des sources publiques et privées.

La dette publique concerne un débiteur du secteur public, y compris un gouvernement, une entité politique (ou leurs agents d'exécution), ou d'autres organismes publics autonomes.

La dette garantie par le secteur public concerne un débiteur du secteur privé, dont l'amortissement de la dette est garanti par une entité publique.

2 Les prêts du secteur public sont assortis de conditions libérales et non libérales. Pour la définition, se reporter au tableau 6.5.

3 Cette rubrique comprend les prêts accordés par des gouvernements et des organismes publics (y compris les banques centrales), les prêts en provenance d'entités autonomes et les prêts octroyés directement par des organismes publics dans la catégorie de crédits à l'exportation.

4 Pour la définition, se reporter au tableau 6.5.

5 Pour la définition, se reporter au tableau 6.5.

6 Sont compris les prêts des sources multilatérales telles que la Banque mondiale, les banques régionales de développement, et autres organismes multilatéraux et intergouvernementaux. Ne sont pas compris les prêts provenant des fonds d'un gouvernement, administrés par une organisation internationale; cette catégorie est incluse dans la rubrique des sources bilatérales (des gouvernements).

7 Les crédits fournisseurs comprennent les crédits du secteur manufacturier, du secteur des exportations et ceux du secteur des crédits accordés par d'autres fournisseurs de biens.

8 Les prêts du secteur des marchés financiers recouvrent les émissions publiques ou privées des obligations et les prêts consentis par des banques privées et autres entités financières.

9 La dette du secteur privé non garantie concerne un débiteur du secteur privé, dont l'amortissement de la dette n'est pas garanti par une entité publique.

Sources: UN/DESA/Statistics Division, World Bank, Organisation for Economic Co-operation and Development (OECD) and national sources.

Notes:

In the absence of official estimates, some regional totals have been estimated by the secretariat and applied, whenever possible, in order to ensure comparability at the total group levels.

- 1 Mid-year projections.
- 2 Total area of the country including inland water bodies. Possible variations are due to updating and revisions of the country data and not necessarily to any change of area.
- 3 In current prices and current exchange rates.
- 4 GDP data include French Guiana, Guadeloupe, Martinique, and Reunion.
- 5 Data for Western Sahara are included in this regional total, but are not shown separately.

Sources: ONU/DAES/Division de statistique, Banque mondiale, Organisation de coopération et de développement économique (OCDE) et sources nationales.

Notes:

Lorsqu'une estimation officielle n'est pas disponible, une estimation calculée par le secrétariat a été utilisée pour les totaux régionaux, chaque fois que possible, afin d'assurer la comparabilité des données au niveau des groupements. Il peut donc y avoir des différences entre la somme des éléments constituants et les totaux indiqués.

- 1 Projections au milieu de l'année.
- 2 Superficie totale du pays, y compris les eaux intérieures. Les variations éventuelles résultent des mises à jour et des révisions des données par les pays et ne reflètent pas nécessairement des changements de superficie.
- 3 Aux prix et taux de change courants.
- 4 Y compris le PIB de la Guyane française, la Guadeloupe, la Martinique et la Réunion.
- 5 Les données pour le Sahara occidental sont comprises dans ce total régional, mais elles ne sont pas présentées séparément.

Sources:

United Nations, DESA, Statistics Division, Organisation for Economic Co-operation and Development (OECD), World Bank and national sources.

Notes:

In the absence of official estimates, some region totals have been estimated by the secretariat and used, whenever possible, in order to ensure comparability at the total group levels.

Prior to 1990, data refer to the former USSR and the former Yugoslavia. From 1990 onwards, data refer to the successor Republics of these two countries.

1 Growth rates are based on gross domestic product at constant market prices based on 1990 dollars.

2 GDP at 1995 constant prices.

3 GDP at 1996 constant prices.

Notes :

Afin d'assurer la comparabilité des chiffres au niveau des groupements, quelques estimations de totaux régionaux ont été calculées par le secrétariat et utilisées, chaque fois que possible, lorsqu'une estimation officielle n'est pas disponible.

Avant 1990, les données comprennent l'ancienne URSS et l'ancienne Yougoslavie. À partir de 1990, les données comprennent les Républiques qui ont succédé à ces deux pays.

1 Les taux de croissance sont fondés sur le produit intérieur brut aux prix constants du marché en dollars de 1990.

2 PIB aux prix constants de 1995.

3 PIB aux prix constants de 1996.

Sources :

United Nations/DESA/Statistics Division: National Account Main Aggregates Database and national sources.

Notes:

Data in this table are shown as percentage of GDP at current prices.

1 Gross value added by economic activity is measured at basic prices. The value added data shown as percentage of GDP are calculated using total gross value added at factor cost.

2 Mining and quarrying, manufacturing, construction, electricity, gas and water.

3 Up to 1992 (inclusive), data for 10 new EU members include figures for former Czechoslovakia, which are not shown separately.

4 Household consumption expenditure 1980-2002: includes NPISHs (Non-profit institutions serving households) final consumption expenditure.

5 Household consumption expenditure 1980-1992: includes NPISHs (Non-profit institutions serving households) final consumption expenditure.

6 Exports of goods and services 1970-1993: includes net travel and tourism income.

Imports of goods and services 1970-1993: includes net freight and insurance.

7 Household consumption expenditure 1970-1996: includes changes in inventories.

8 Exports of goods and services 1994-2002: reported as exports less imports balance.

9 General government final consumption expenditure 1970-1979 and 1987-2001: includes pension payments less employees' pension contributions. Some non-capital development expenditure of the central government is included in fixed capital formation.

10 Exports 1971 - 2002: reported as exports less imports balance.

11 Exports 1970 - 2002: reported as exports less imports balance.

12 1970 - 2002 imports valued c.i.f., instead of f.o.b.

13 General government final consumption expenditure 1970-1992: includes education and health.

14 Exports 1980 - 1990: reported as exports less imports balance.

Sources :

Nations Unies/DAES/Division de statistique : Base de données des principaux agrégats des comptes nationaux et diverses sources nationales.

Notes :

Les données de ce tableau sont indiquées en pourcentage du PIB aux prix courants.

1 La valeur ajoutée brute de chaque branche d'activité est au prix de base. Les données de la valeur ajoutée indiquées sont calculées en pourcentage de la valeur ajoutée brute totale au coût des facteurs.

2 Industries extractives, industries manufacturières, construction, électricité, gaz et eau.

3 Jusqu'à l'année 1992 (comprise), les données pour les 10 nouveaux membres de l'UE comprennent les chiffres de l'ancienne Tchécoslovaquie, qui ne sont pas présentés séparément.

4 Dépense de consommation finale des ménages 1980-2002 : comprend les dépenses de consommation finale des institutions sans but lucratif au service des ménages.

5 Dépense de consommation finale des ménages 1980-1992 : comprend les dépenses de consommation finale des institutions sans but lucratif au service des ménages.

6 Exportations des biens et des services 1970-1993 : comprend les voyages nets et le revenu du tourisme.

Importations des biens et des services 1970-1993 : comprend le fret net et l'assurance.

7 Dépense de consommation finale des ménages 1970-1996 : comprend les variations des stocks.

8 Exportations 1994 - 2002 : déclarées comme la balance des exportations et des importations.

9 Dépense de consommation finale des administrations publiques 1970-1979 et 1987-2001 : comprend les paiements pour les fonds de pension, diminués des contributions pour les mêmes fonds payés par des salariés. Certaines dépenses des administrations publiques, ne contribuant pas au développement du capital, sont comprises dans la formation du capital brut.

10 Exportations 1971 - 2002 : déclarées comme la balance des exportations et des importations.

11 Exportations 1970 - 2002 : déclarées comme la balance des exportations et des importations.

12 1970 - 2002 les importations évaluées c.a.f., au lieu de f.a.b.

13 Dépense de consommation finale des administrations publiques 1970-1992 : comprend l'éducation et la santé.

14 Exportations 1980 - 1990 : déclarées comme la balance des exportations et des importations.

7.4 Selected indicators of development: population, health and environment

7.4 Quelques indicateurs de développement : population, santé et environnement

Sources:

Column (1)

United Nations, DESA, Population Division, *World Urbanization Prospects: The 2002 Revision*.

Columns (2) (3) (4) (5)

United Nations, DESA, Population Division, *World Population Prospects: The 2002 Revision*.

Column (6)

UNAIDS and United Nations, DESA, Statistics Division.

Column (7)

UNAIDS.

Columns (8) (9)

UNICEF, *The State of the World's Children 2003*.

Columns (10) (11)

United Nations, DESA, Statistics Division and

United Nations Framework Convention on Climate Change (UNFCCC)

Columns (12) (13)

International Energy Agency (IEA): Database.

Notes:

- a Including Christmas Island, Cocos (Keeling) Islands and Norfolk Island.
- b Including Agalega, Rodrigues and Saint Brandon.
- c Less than 100.
- d Less than 1000.
- e Less than 500.
- f Less than 150.
- g Less than 10.
- h Year 1999.

A year by the column number denotes the year to which a column refers.

- (1) Year 2005, estimates.
- (2) (3) (5) The average value per year for the period 2000-2005.
- (4) The average value per year for the period 2000-2005. "Infant" refers to a child of age younger than 1 year.
- (6) Estimated number of adults and children who died due to AIDS during 2001.
- (7) Estimates for the end of the year 2001.
- (8) (9) Year 2000.
- (10) Year 2000. Emissions refer to total CO₂ emissions from fossil fuels, presented in thousand metric tons of carbon.
- (11) Year 2000. Emissions refer to per capita total CO₂ emissions from fossil fuels, presented in metric tons of carbon.
- (12) Year 2002. The energy consumption data correspond to the TPES series of the IEA. TPES (Total primary energy supply) measured in KTOE (kilotons of oil equivalent), (1 KTOE = 1 000 000 kg OE).
- (13) Year 2002. The energy consumption data correspond to column (12). GDP figures are taken from the World Bank series in constant 1995 US dollars.

Colonnes (10) (11)

Nations Unies, DAES, Division de statistique et

Convention cadre des Nations Unies sur le changement climatique.

Colonnes (12) (13)

Agence internationale de l'énergie (AIE) : Base de données.

Notes :

- a Ile Christmas, Iles des Cocos (Keeling) et Ile Norfolk inclus.
- b Agalega, Rodrigues et Saint Brandon inclus.
- c Moins de 100.
- d Moins de 1000.
- e Moins de 500.
- f Moins de 150.
- g Moins de 10.
- h Année 1999.

Une année à côté du numéro de colonne indique l'année à laquelle les données se réfèrent.

- (1) Année 2005, estimations.
- (2) (3) (5) La valeur moyenne par an pour la période 2000-2005.
- (4) La valeur moyenne par an pour la période 2000-2005. "Infantile" se réfère aux enfants âgés de moins d'une année.
- (6) Estimations du nombre d'adultes et d'enfants morts du SIDA au cours de 2001.
- (7) Estimations pour la fin de l'année 2001.
- (8) (9) Année 2000.
- (10) Année 2000. Les émissions se réfèrent aux émissions totales de CO₂ qui sont mesurées en 1000 tonnes métriques de carbone.
- (11) Année 2000. Les émissions se réfèrent aux émissions totales par habitant de CO₂ qui sont mesurées en tonnes métriques de carbone.
- (12) Année 2002. Les données sur la consommation d'énergie correspondent à la série ATEP de l'AIE. ATEP (Approvisionnement total d'énergie primaire) est présenté en KTEP (kilotonnes d'équivalent de pétrole), (1 KTEP = 1 000 000 kg EP).
- (13) Année 2002. Les données sur la consommation d'énergie sont dérivées de la colonne (12). Les chiffres sur le PNB sont pris de la série du PNB en dollar constant de 1995 de la Banque mondiale.

7.5 Selected indicators of development: education, employment, gender equality and migration

Sources:

Columns (1) (2) (3) (4) (5) (6)

UNESCO, Database.

Columns (7) (8) (9) (10) (11)

World Bank, *World Development Indicators Online*.

Columns (12) (13)

UN/DESA/Population Division, *World Population Prospects: The 2002 Revision*.

Notes:

a Refers to 2001

b Refers to 2000

A year by the column number denotes the year to which data refer.

(1) (2) (4) Year 2002. Net enrolment ratio is defined as number of pupils in the official age group for a given level of education enrolled in that level expressed as a percentage of the total population in that age group.
Gross enrolment ratio is defined as total enrolment in a specific level of education, regardless of age, expressed as a percentage of the official school-age population corresponding to the same level of education in a given school year.

(3) Year 2001. The indicator presents the ratio of female enrolment in secondary education as a percentage of male enrolment in the same level of education.

(5) Year 2002. The indicator presents the illiteracy rate as a percentage of total population of a country or an area.

(6) Year 2003. The indicator presents the literacy rate of adult (age 15 and above) females as a percentage of literate adult males.

(7) (8) Year 2002.

(9) Year 2002. The indicator represents the percentage of female labour force.

(10) Year 2002. The indicator presents the percentage of the labour force employed in industry.

(11) Year 2002. The indicator presents the percentage of the labour force employed in the services sector.

(12) Data are estimated and represent the value in thousands for the period 2000-2005 (from 1 July 2000 to 1 July 2005).

(13) Data are estimated and represent the average value per year for the period 2000-2005.

7.5 Quelques indicateurs de développement : enseignement, emploi, égalité entre hommes et femmes et migration

Sources :

Colonnes (1) (2) (3) (4) (5) (6)

UNESCO, Base de données.

Colonnes (7) (8) (9) (10) (11)

Banque mondiale, *World Development Indicators Online*.

Colonnes (12) (13)

ONU/DAES/Division de la population, *World Population Prospects: The 2002 Revision*.

Notes :

a Se réfère à 2001

b Se réfère à 2000

Une année à côté du numéro de colonne indique l'année à laquelle les données se réfèrent.

(1) (2) (4) Année 2002. Le taux net d'inscription est défini comme le nombre d'étudiants en âge d'être scolarisés pour un niveau particulier d'enseignement qui sont inscrits à ce niveau d'éducation, exprimé en pourcentage de la population totale de cet âge.
Le taux brut d'inscription est défini comme taux d'inscription totale (l'âge n'est pas pris en compte) à un niveau particulier d'enseignement et est exprimé en pourcentage de la population en âge de scolarité pour un niveau donné durant une année scolaire.

(3) Année 2001. Cet indicateur présente le taux d'inscription féminine dans l'enseignement secondaire en pourcentage d'inscription masculine dans le même niveau d'enseignement.

(5) Année 2002. Cet indicateur présente le taux d'analphabétisme en pourcentage de la population totale d'un pays ou d'une zone.

(6) Année 2003. Cet indicateur présente le taux d'alphabétisation féminine en pourcentage d'alphabétisation masculine pour des adultes de 15 ans ou plus.

(7) (8) Année 2002.

(9) Année 2002. Cet indicateur présente le pourcentage de la main-d'œuvre féminine.

(10) Année 2002. Cet indicateur présente le pourcentage de la main-d'œuvre employé dans l'industrie.

(11) Année 2002. Cet indicateur présente le pourcentage de la main-d'œuvre employé dans le secteur des services.

(12) Les données sont estimées et représentent le nombre, en milliers, pour la période 2000-2005 (1 juillet 2000 au 1 juillet 2005).

(13) Les données sont estimées et représentent la valeur moyenne par année pour la période 2000-2005.

7.6 Information and communication technology indicators by country

7.6 Indicateurs des technologies de l'information et de la communication par pays

Sources:

International Telecommunication Union (ITU), *World Telecommunication Indicators*, database.

Notes:

The data presented refer to the year 2002 unless otherwise indicated by "a".

a Data refer to the year 2001.

Column number:

- (5) "Three-minute mobile phone call" refers to a local call from a cellular phone during peak hours. Its cost is expressed in dollars.
- (6) "Three-minute fixed-line phone call" refers to a local call from a residential phone during peak hours. Its cost is expressed in dollars.
- (8) Estimates.
- (9) Internet hosts refer to the number of computers in an economy that are directly linked to the worldwide Internet network. This statistic is based on the country code in the host address and thus may not correspond to the actual physical location.
- (10) Refers to the earnings of enterprises that are directly making available facilities for providing telecommunications services to the public (not including revenues of resellers). This includes revenues from fixed telephone, mobile, text (telex, telegraph and facsimile), communications leased circuits; and data communications services. Some countries include telecommunications-related revenue such as directory advertising and equipment rental or sales. Others include value-added telecommunications services such as the provision of electronic mail or online services. This indicator is expressed in millions of dollars.
- (11) Refers to expenditures associated with acquiring ownership of telecommunication equipment infrastructure (including supporting land and buildings and intellectual and non-tangible property such as computer software). These include expenditures on initial installations and on additions to existing installations. This indicator is expressed in millions of dollars.

Sources :

Union internationale de télécommunication (UIT) , *World Telecommunication Indicators* , base de données.

Notes :

Les données présentées se réfèrent à l'année 2002. Les exceptions sont marquées par "a".

a Les données se réfèrent à l'année 2001.

Numéro de colonnes :

- (5) L'appel de trois minutes par téléphone mobile se réfère à un appel local d'un téléphone portable aux heures de pointe. Le coût est exprimé en dollars.
- (6) L'appel de trois minutes par téléphone du réseau fixe se réfère à un appel local d'un téléphone résidentiel aux heures de pointe. Le coût est exprimé en dollars.
- (8) Estimations.
- (9) Les hébergeurs d'Internet sont définis comme les ordinateurs dans une économie qui sont directement liés au réseau mondial d'Internet. Ces statistiques se basent sur les codes des pays dans les adresses d'hébergeurs et ne correspondent pas toujours à l'emplacement physique de l'ordinateur.
- (10) Se réfère aux revenus des entreprises qui sont fournisseurs directs de services de télécommunication au public (revenus des reventes exclus). Cela comprend des revenus de téléphone fixe, de communications de mobiles, de transmission de textes (télex, télégraphe, télécopie), des circuits en location (en bail) et de services de transmission de données. Quelques pays y incluent d'autres revenus liés aux télécommunications comme les publicités dans les annuaires et la location ou la vente d'équipements. D'autres y incluent les services tenant lieu de valeur ajoutée, comme courrier électronique ou autres services en ligne. Cet indicateur est présenté en millions de dollars.
- (11) Comprend les dépenses associées à l'acquisition d'équipements et d'infrastructures des télécommunications (y compris des terrains, des bâtiments, la propriété intellectuelle et autre propriété comme des logiciels etc.). Cela inclut les dépenses pour des installations initiales et toutes les additions aux installations existantes. L'indicateur est présenté en millions de dollars.

8.1 Tentative terms of trade estimates for developing economies

(concluded)

2000 = 100

Sources:

Asian Development Bank (ADB): *Key Indicators of Developing Asian and Pacific Countries, 2003*; UN, Economic Commission for Latin America and the Caribbean (ECLAC); IMF: *International Financial Statistics (IFS), on-line*; UN/DESA/SD: *Monthly Bulletin of Statistics (MBS), 2004*; World Bank: *World Bank Africa Database on CD-ROM, 2004*; World Trade Organization (WTO) and national sources.

Notes:

Regional and overall indices are presented in Part II of this *Handbook*, while the detailed annual data for individual countries and territories are shown in table 8.1.

In some instances these indices may differ from the estimates published in official sources, since the main aim has been to provide tentative estimates for most developing countries on a comparable basis.

Definitions:

Values indices:

Current value of exports (f.o.b.) or of imports (c.i.f.) converted to dollars and expressed as a percentage of the average for the base period (2000).

Unit value indices:

Official data and UNCTAD secretariat estimates (see appendix of TD/138/Supp.1).

Quantum indices:

The ratio of the export (or import) value index to the corresponding unit value index.

Terms of trade:

The "net barter" terms of trade, defined as percentage ratio of the export unit value index to the import unit value index.

Purchasing power of exports:

The value index of exports deflated by the import unit value index.

8.1 Estimations approximatives des termes de l'échange pour les économies en développement (fin)

2000 = 100

Sources :

Banque de développement de l'Asie : *Key Indicators of Developing Asian and Pacific Countries, 2003*; ONU, Economic Commission for Latin America and the Caribbean (ECLAC); FMI: *International Financial Statistics (IFS), on-line*; ONU/DAES/DS: *Monthly Bulletin of Statistics (MBS), 2004*; Banque mondiale: *World Bank Africa Database on CD-ROM, 2004*; Organisation mondiale du commerce (OMC) et sources nationales.

Notes :

Les indices totaux et régionaux sont présentés dans la partie II de ce *Manuel*, tandis que les données annuelles détaillées pour les pays et territoires en développement individuels sont présentées dans le tableau 8.1.

Dans certains cas ces indices peuvent différer des estimations publiées dans les sources officielles, le but principal étant de fournir des estimations approximatives et comparables pour la plupart des pays en développement.

Définitions :

Indices des valeurs :

Valeurs courantes des exportations (f.a.b.) ou des importations (c.a.f.) converties en dollars et exprimées en pourcentage de la moyenne de la période de base (2000).

Indices de la valeur unitaire :

Données officielles et estimations du secrétariat de la CNUCED (voir appendice du document TD/138/Supp.1).

Indices du quantum :

Représentent le rapport de l'indice de la valeur des exportations (ou des importations) à l'indice de la valeur unitaire correspondant.

Terme de l'échange :

Il s'agit de ce qu'on appelle le "troc net", défini comme étant le rapport de l'indice de la valeur unitaire des exportations et de l'indice de la valeur unitaire des importations exprimé en pourcentage.

Pouvoir d'achat des exportations :

Indice de la valeur des exportations corrigé par l'indice de la valeur unitaire des importations.

8.2 Concentration and diversification indices of exports and imports by region and country

Sources: UNCTAD secretariat calculations based on United Nations Statistics Division (Comtrade database).

Notes:

1 Within each group shown, countries are ranked according to the concentration index in 2002.

2 Number of products (at the three-digit level of SITC, Revision 2) exported (or imported) by country; this figure includes only those products that are greater than 100,000 dollars or more than 0.3 per cent of the country's total exports (or imports).

Data for the country groupings are calculated as weighted averages of individual countries data, including those that are estimated and not shown separately.

3 Diversification index that ranges from 0 to 1, reveals the extend of the differences between the structure of trade of the country and the world average. The index value closer to 1 indicates a bigger difference from the world average.

Diversification index is computed by measuring absolute deviation of the country share from world structure, as follows:

$$S_j = \frac{\sum_i |h_{ij} - h_i|}{2}$$

where h_{ij} = share of commodity i in total exports (or imports) of country j
 h_i = share of commodity i in total world exports (or imports).

This index is a modified Finger-Kreinin measure of similarity in trade. For more information, please consult the article of Finger, J. M. and M. E. Kreinin (1979), "A measure of 'export similarity' and its possible uses" in the *Economic Journal*, 89: 905-12.

4 The Herfindahl-Hirschmann index is a measure of the degree of market concentration. It has been normalized to obtain values ranking from 0 to 1 (maximum concentration), according to the following formula:

$$H_j = \frac{\sqrt{\sum_{i=1}^{239} \left(\frac{x_i}{X}\right)^2} - \sqrt{1/239}}{1 - \sqrt{1/239}}$$

where H_j = country index
 x_i = value of exports of product i

$$X = \sum_{i=1}^{239} x_i$$

and 239 = number of products (at the three-digit level of SITC, Revision 2) .

8.2 Indices de concentration et de diversification des exportations et des importations par région et par pays

Sources : Calculs du secrétariat de la CNUCED fondés sur des données de la Division de statistique des Nations Unies (base de données COMTRADE).

Notes :

1 A l'intérieur de chaque groupe, les pays sont classés d'après l'indice de concentration en 2002.

2 Nombre de produits (position à trois chiffres de la CTCl, révision 2) exportés (ou importés) par chaque pays ; cependant, seuls les produits ayant une valeur supérieure à 100.000 dollars ou comptant pour plus de 0,3 pour cent des exportations (ou des importations) totales du pays sont inclus.

Les indices de concentration et de diversification calculés au niveau des groupes de pays et du monde sont les moyennes arithmétiques des indices respectifs des pays, pondérées par la valeur de leurs exportations.

3 L'indice de diversification, dont la valeur est comprise entre 0 et 1, indique si la structure par produits des exportations d'un pays diverge peu ou beaucoup de la structure par produits des exportations totales dans le monde. Plus l'indice est proche de 1, plus la divergence est forte (les produits exportés par le pays sont très différents des produits exportés dans l'ensemble du monde.

L'indice de diversification mesure la déviation absolue de la structure du pays par rapport à la structure mondiale comme ci-dessous :

$$S_j = \frac{\sum_i |h_{ij} - h_i|}{2}$$

où h_{ij} = part du produit i dans le total des exportations (ou importations) du pays j
 h_i = part du produit i dans le total des exportations (ou importations) mondiales.

Cet indice est une variante de l'indicateur de Finger-Kreinin sur la similarité de la structure du commerce. Pour plus d'information, veuillez consulter l'article de Finger, J. M. et M. E. Kreinin (1979), "A measure of 'export similarity' and its possible uses", dans l'*Economic Journal*, 89: 905-12.

4 L'indice Herfindahl-Hirschmann mesure le degré de concentration des marchés. Il a été normalisé afin d'obtenir des valeurs comprises entre 0 et 1 (concentration maximale), d'après la formule suivante:

$$H_j = \frac{\sqrt{\sum_{i=1}^{239} \left(\frac{x_i}{X}\right)^2} - \sqrt{1/239}}{1 - \sqrt{1/239}}$$

où H_j = indice du pays
 x_i = valeur des exportations du produit i

$$X = \sum_{i=1}^{239} x_i$$

et 239 = nombre de groupes de produits (position à trois chiffres de la CTCl, révision 2).

8.3 Concentration and structural change indices of exports and imports by product

8.3 Indices de concentration et de changement structurel des exportations et des importations par produits

Sources:

UN/DESA/Statistics Division (COMTRADE database and estimates).

Indices are calculated from the data set that includes not only official country trade data reported to the COMTRADE but also estimates provided by the United Nations Statistics Division for all the other countries.

Notes:

1 Products are ranked according to the concentration index in 2002.

2 Market concentration index:

The Herfindahl-Hirschmann index is a measure of the degree of market concentration. It has been normalized to obtain values ranking from 0 to 1 (maximum concentration), according to the following formula:

$$H_i = \frac{\sqrt{\sum_{j=1}^n \left(\frac{x_{ij}}{X_j}\right)^2} - \sqrt{\frac{1}{n}}}{1 - \sqrt{\frac{1}{n}}}$$

where

H_i = value of concentration index for product i

x_{ij} = value of exports or imports for country j and product i

$$X_j = \sum_{i=1}^n x_{ij} \text{ and}$$

$n = 242$ maximum number of individual markets (countries) over the period from 1990 to 2002.

An index value that is close to 1 indicates a very concentrated market. On the contrary, values closer to 0 reflect a more equal distribution of market shares among exporters or importers.

3 Structural change index:

This index, ranging from 0 to 1 reveals the structural change in trade for a particular product as compared to the reference year (1992 = 0).

An index value close to 1 indicates a significant change in the composition of exporters (importers). On the contrary, values closer to 0 would demonstrate a higher degree of "traditionality" in the markets over the period concerned. The value is calculated as follows:

$$I_i = \frac{\sum_{j=1}^n |S_{ij}^1 - S_{ij}^0|}{2}$$

where

I_i = Value of structure index for product i

S_{ij}^0 = Share of trade of product i for country j in 1992

S_{ij}^1 = Share of trade of product i for the country j in the concerned year

Sources :

ONU/DAES/Division de statistique (Base de données COMTRADE et estimations).

Les indices sont calculés à partir de données n'incluant pas seulement les données officielles que les pays fournissent à la COMTRADE, mais aussi à partir d'estimations produites par la division de statistique des Nations Unies pour tous les autres pays.

Notes :

1 Les produits sont classés d'après l'indice de concentration en 2002.

2 Indice de concentration :

L'indice Herfindahl-Hirschmann mesure le degré de concentration des marchés. Il a été normalisé afin d'obtenir des valeurs comprises entre 0 et 1 (concentration maximale), d'après la formule suivante:

$$H_i = \frac{\sqrt{\sum_{j=1}^n \left(\frac{x_{ij}}{X_j}\right)^2} - \sqrt{\frac{1}{n}}}{1 - \sqrt{\frac{1}{n}}}$$

où

H_i = Valeur de l'indice de concentration pour le produit i

x_{ij} = Valeur des exportations ou des importations du pays j pour le produit i

$$X_j = \sum_{i=1}^n x_{ij} \text{ et}$$

$n = 242$ Nombre maximum de marchés (pays) sur la période allant de 1990 à 2002.

Un indice proche de 1 indique une concentration très forte du marché pour ce produit en particulier. En revanche, une valeur proche de 0 démontre une répartition plus homogène du commerce entre les exportateurs ou les importateurs.

3 Indice de changement structurel :

Cet indice, dont la valeur est comprise entre 0 et 1, représente les changements de structure du commerce par rapport à une année de référence (1992 = 0).

Une valeur proche de 1 indique un important changement structurel du commerce de ce produit, c'est à dire, une grande variation des parts de marché au sein des exportateurs ou importateurs, par rapport à l'année de référence. Plus la valeur de l'indice est proche de 0, plus la structure du commerce de ce produit est stable. Il est calculé comme suit :

$$I_i = \frac{\sum_{j=1}^n |S_{ij}^1 - S_{ij}^0|}{2}$$

où

I_i = Valeur de l'indice de changement structurel, pour le produit i

S_{ij}^0 = Part du commerce du produit i pour le pays j par rapport au commerce total de ce produit pour l'année 1992

S_{ij}^1 = Part du commerce du produit i pour le pays j, par rapport au commerce total de ce produit pour l'année concernée

8.4 Average applied import MFN tariff rates on non-agricultural and non-fuel products

Sources: UNCTAD TRAINS database.

Notes: Product categories are defined in terms of SITC Revision 2, and all corresponding Harmonized System (HS) 6-digit codes have been aggregated for each category.

MFN: Most Favoured Nation import tariff rate.

Simple average: simple average for each product category calculated from simple average at HS 6-digit level.

Weighted average: weighted average for each product category calculated from simple average at HS 6-digit level. Country's own imports at HS 6-digit level for corresponding years are used as weights. Where imports are not reported, mirror imports have been compiled using exports of partner countries.

8.4 Droits de douane moyens NPF appliqués à l'importation des produits non-agricoles et non-pétroliers

Sources : Base de données TRAINS de la CNUCED.

Notes : Les catégories de produits sont définies sur la base de la CTCI, révision 2, et pour chaque catégorie, les codes à 6 chiffres du Système harmonisé (SH) correspondants ont été agrégés.

NPF : droit de douane appliqué à la Nation la plus favorisée.

Moyenne simple : moyenne arithmétique, pour chaque catégorie de produits, calculée à partir des moyennes arithmétiques au niveau du code à 6 chiffres du SH.

Moyenne pondérée : Moyenne arithmétique pondérée, pour chaque catégorie de produits, calculée à partir des moyennes simples au niveau du code à 6 chiffres du SH. Pour chaque année, on a utilisé les importations de chaque marché au niveau du code à 6 chiffres du SH comme coefficient de pondération. Lorsque les importations n'étaient pas disponibles, elles ont été évaluées par les données miroir basées sur les exportations des pays partenaires.

8.5 Instability indices and trends in free-market prices for selected commodities

Sources:

UNCTAD calculations based on UNCTAD Monthly Commodity Price database.

Notes:

1. The measure of price instability is

$$1/n \sum_{t=1}^n \left[\frac{|Y(t) - y(t)|}{y(t)} \right] * 100$$

Where

$Y(t)$ is the observed magnitude of the variable.

$y(t)$ is the magnitude estimated by fitting an exponential trend to the observed value
and

n is the number of observations.

Accordingly, instability is measured as the percentage deviation of the variables concerned from their exponential trend levels for a given period.

2. The growth rate of each period has been calculated using the formula:

$$\log(p) = a + b(t)$$

Where

p is the price index and t is time.

3. Constant 1985 dollars (current dollars divided by the United Nations unit value index of manufactured goods exported by developed economies).

8.5 Indices d'instabilité et tendances des prix sur le marché libre d'une sélection de produits de base

Sources :

Calculs du secrétariat de la CNUCED fondés sur la Base de données des prix mensuels des produits de base, de la CNUCED.

Notes :

1. L'indice d'instabilité des prix est calculé selon

$$1/n \sum_{t=1}^n \left[\frac{|Y(t) - y(t)|}{y(t)} \right] * 100$$

où

$Y(t)$ est la valeur observée de la variable.

$y(t)$ est la valeur estimée par ajustement à la tendance exponentielle des valeurs observées et

n est le nombre d'observations.

L'instabilité est le pourcentage de déviation des variables en question par rapport à la ligne de tendance exponentielle pour une période donnée.

2. Le taux de croissance de chaque période a été calculé selon la formule :

$$\log(p) = a + b(t)$$

où

p est l'indice de prix et t le temps.

3. Dollars constants 1985 (dollar courant divisé par l'index des Nations Unies de la valeur unitaire des exportations des produits manufacturés par les économies développées).

8.6 World merchant fleet by flag of registration and type of ship

Sources: *UNCTAD Review of Maritime Transport*.

The Review of Maritime Transport is one of UNCTAD's flagship publications, published annually since 1968. It reports on the worldwide evolution of shipping, ports and multimodal transport related to the major traffics of liquid bulk, dry bulk and containers.

From 1979 to 1993:

Lloyd's Register of Shipping - Statistical Tables (London) and supplementary data regarding the Great Lakes fleets of the United States and Canada and the United States Reserve Fleet.

From 1994 to 2002:

Lloyd's Maritime Information Services (London).

Year 2003:

Lloyd's Register-Fairplay.

Flag of registration:

The designations employed and the presentation of material in this table refer to flags of registration and do not imply the expression of any opinion by the Secretariat of the United Nations concerning the legal status of any country or territory, or of its authorities, or concerning the delimitation of its frontiers.

Former USSR:

All republics of the former USSR that have not established new shipping registers.

A ship owner who registers his or her vessel in an open-registry country does not need to have any connection with a country of registry. The number of open-registry countries has varied over the years, but five consistently appear (Bermuda, Bahamas, Cyprus, Liberia, and Panama). For the current list, please consult the *UNCTAD Review of Maritime Transport*.

A "0.0" indicates that data are not available or that the amount is negligible.

1 DWT (deadweight ton) is a weight measure of a vessel's carrying capacity. It includes cargo, fuel and stores.

8.6 Flotte marchande mondiale par pavillons d'immatriculation et par types de navires

Sources : *Etude sur les transports maritimes de la CNUCED*.

L'Etude sur les transports maritimes est une des publications phares de la CNUCED qui paraît chaque année depuis 1968. Elle rend compte de l'évolution mondiale du transport multimodal, portuaire et maritime concernant les principaux trafics de vrac liquides, de vrac secs et de conteneurs.

De 1979 à 1993 :

Le registre maritime de la Lloyd - Tableaux statistiques (Londres) et les données supplémentaires concernant les flottes des Grands Lacs des Etats-Unis et du Canada et la flotte de réserve des Etats-Unis.

De 1994 à 2002 :

Services d'Information Maritimes De Lloyd (Londres).

Année 2003 :

Lloyd's Register-Fairplay.

Pavillon d'immatriculation :

Les désignations employées dans ce tableau et la présentation des données qui y figurent concernent les pavillons d'immatriculation et n'impliquent, de la part du Secrétariat de l'Organisation des Nations Unies, aucune prise de position quant au statut juridique de tel ou tel pays ou territoire, ou de ses autorités, ni quant au tracé de ses frontières.

Ex-URSS :

Ensemble des républiques de l'ex-URSS qui n'ont pas créé de nouveaux registres maritimes.

Un propriétaire qui enregistre son navire dans un pays "libre d'immatriculation" ne doit avoir aucune relation avec ce pays. Le nombre de pays "libre d'immatriculation" a changé au cours des années, mais néanmoins cinq d'entre eux apparaissent constamment (Bahamas, Bermudes, Chypre, Libéria, Panama). Pour obtenir la liste courante des pays de libre immatriculation, veuillez consulter *l'Etude sur les transports maritimes de la CNUCED*.

Un "0.0" indique que les données ne sont pas disponibles ou que le total est négligeable.

1 TPL (tonne de port en lourd) est une mesure de poids de la capacité de charge d'un navire. Il inclut la cargaison, le carburant et les magasins.
