### *Notes*

All references to dollars (\$) are to United States dollars.

Details and percentages do not necessarily add up to the totals shown because of rounding.

A hyphen (-) indicates that the item is not applicable.

The tables are designed in such a way that they can be used as stand-alone sources of information.

The financial data in the tables on projects reflect the situation as at 31 December 2020. In early 2020, budget figures were adjusted to reflect exact income.

Total income 2017–2020 refers to funding received within that period. For projects financed by the United Nations Development Programme, total income equals total expenditures.

*Note:* Classification for 2020, as requested by the General Assembly in resolution 72/230 of 23 January 2018 on development cooperation with middle-income countries. The World Bank divides the world's economies into four income groups: high, upper middle, lower middle and low. The income classification is based on a measure of national income per person, or gross national income per capita, calculated using the Atlas method.

*Note:* This breakdown does not include cost-sharing contributions from the United Nations Development Programme or Junior Professional Officers. The bulk of funding from developing economies is used for self-financing projects that may be financed from the proceeds of loans, credits or grants from international financial institutions.

<sup>a</sup> Self-financing for the Automated System for Customs Data.

<sup>b</sup> Self-financing for the Debt Management and Financial Analysis System.

<sup>c</sup> United Nations Administrative Region, Security Council resolution 1244 (1999). UNCTAD has been authorized by the United Nations Interim Administration Mission in Kosovo to act on its behalf, in accordance with Security Council resolution 1244 (1999), concerning the implementation of self-financing for a national project on the Automated System for Customs Data.

<sup>d</sup> Includes private sector contributions and public donations.
