Notes

All references to dollars (\$) are to United States dollars.

Details and percentages do not necessarily add up to the totals shown because of rounding.

A hyphen (-) indicates that the item is not applicable.

The tables are designed in such a way that they can be used as stand-alone sources of information.

The financial data in the tables on projects reflect the situation as at 31 December 2025. In early 2026, budget figures were adjusted to reflect exact income.

Total income 2022–2025 refers to funding received within that period.

The classification of economies by development status is intended for statistical convenience and does not express a judgment about the stage reached by a particular country or an area in the development process. As of December 2021, the United Nations Statistics Division no longer maintains the categorization of developing and developed regions in the standard country or area codes for statistical use (M49 standard), but the categorization can continue to be applied. In the classification applied by UNCTAD, the Republic of Korea is part of the developed country group (as recorded at the sixty-eighth session of the Trade and Development Board of UNCTAD).¹

Note: Classification for 2024, as requested by the General Assembly in resolution 72/230 of 23 January 2018 on development cooperation with middle-income countries. The World Bank divides the world's economies into four income groups: high, upper middle, lower middle and low. The income classification is based on a measure of national income per person, or gross national income per capita, calculated using the Atlas method.

Note: This breakdown does not include cost-sharing contributions from the United Nations Development Programme or to the Junior Professional Officer Programme of the United Nations. The majority of funding from developing economies is used for self-financed projects that may be financed from the proceeds of loans, credits or grants from international financial institutions. Contributions in 2025 exclude contributions to the trust funds T1AK, TD16F and TD16S because they are not considered technical cooperation trust funds.

^a Self-financing for the Automated System for Customs Data.

^b Self-financing for the Debt Management and Financial Analysis System.

^c United Nations Administrative Region, Security Council resolution 1244 (1999). UNCTAD has been authorized by the United Nations Interim Administration Mission in Kosovo to act on its behalf, in accordance with Security Council resolution 1244 (1999), concerning the implementation of a self-financed national project on the Automated System for Customs Data.

^d Includes private sector contributions and public donations.
